Born to a Jewish family in the village of Makow near Warsaw, Simon was one of eight children. When the Germans invaded in 1939, he was sent to a youth labor camp in Poland. He eventually escaped and returned home, but was almost discovered, so he fled to the Russian-occupied portion of Poland. There he fought for Russia against the Germans, evacuating Russian citizens from the war zone. When the small Russian town in which Simon, his brother and his sister were living fell, Harold and Simon were among the last to leave. Their sister was too ill to travel, so they were forced to leave her behind. They never saw her again.

Harold and Simon ended up in Stalingrad, where they miraculously survived the bitter and bloody battle of Stalingrad. When the battle was over, Simon made the mistake of complaining about conditions in the city. That innocent comment landed him in Siberia for 11 months of hard labor.

Simon reunited with Harold and they returned to Poland to find their

family. They searched in vain. Alone and penniless, they decided to join some relatives that were already in the United States.

Simon's first job was as an auto mechanic for $17 a week. Today, he presides over a multimillion dollar empire of nearly 100 shopping centers, 3,000 apartment units, close to 2,000 hotel and motel units, and a construction company.

Mr. Konover's community contributions are just as impressive. He is immediate past president of the Greater Hartford Jewish Federation. Over the years he has chaired several federation campaign divisions and has been general campaign chairman. He is past chairman of the State of Israel Bonds and serves as president of the Prime Ministers Club. He is a board member of the Hartford Jewish Community Center, the Hebrew Home and Hospital, a trustee of the Mount Sinai Hospital, and a corporator of Hartford Hospital. He is also an overseer of the Jewish Theological Seminary.

Needless to say, Mr. President we in Connecticut are very proud of Simon Konover. He sets an example of stamina, vision and dedication toward which we all should aspire.●

COSTS OF PROTECTIONISM

● Mr. CHAFEE. Mr. President, in the lastest issue of Policy Review magazine, former Delaware Gov. Pete du Pont has written a very thoughtful article concerning the costs of protectionism.

All of us who know Pete expect his work to be thoughtful and well written. However, I found this article particularly provocative, and I hope that all of my colleagues will take an opportunity to read it.

The points that Pete makes from the perspective of a former State official are things we should keep in mind as legislative efforts to protect our domestic industries increase. Clearly the only solution to our trade imbalance is reducing these horrendous deficits. Insulating ourselves from competition is a losing proposition today just as it was in 1929 when the Smoot-Hawley Tariff was enacted.

Mr. President, I ask that the article be printed in the RECORD.

The article follows:

KAMIKAZE ECONOMICS—PROSPERITY AND GROWTH ARE IMPERILLED BY PROTECTIONISM

(Pete de Pont)

It's the fall of 1985 and the American economy is robust and growing. In September, the United States Department of Labor announced that the August unemployment rate fell to a five-year low of 6.9 percent. Inflation remains consistently in the four percent range. Interest rates have fallen. The U.S. economy, fueled by the Reagan tax cuts and record levels of investment—much of it in the form of dollars returning to the United States from their short trip abroad to pay for America's import surplus—created 9 million net new jobs in five years. Now more than twice as dependent on trade as it was in the 1960s, the United States economy is the locomotive of the world recovery.

In the midst of this prosperity, voices of alarm are beginning to sound from several quarters. Speaker Thomas P. O'Neill says America is losing 3,000 jobs a day to imports; more than three million jobs per year according to some estimates. The steel industry says it is losing jobs because it cannot compete against the subsidies of European steel. The computer industry is up in arms because Brazil has declared U.S. computers off limits in their country. Robert Dole, the Senate Majority Leader, is now using mystical buzz words such as "fair trade" and "level playing field." Three hundred pieces of protectionist legislation await action by the returning Congress this fall.

What's going on? Doesn't anyone wonder how we can be losing 3,000 jobs daily while creating a record 9 million net new jobs in five years? Doesn't anyone think it's strange that our steel industry cannot compete against the Europeans who, on net, have not created a new job in 20 years? Are subsidies really the problem or does one suspect that our heavily protected industries are reaping the fruits of their shortsighted management policies and wages which are far above the national average? Is Wall Street really worried about IBM's ability to survive the Brazilian computer freeze? Or is it more worried about Brazil's ability to finance its debt load, which will require exports? Why doesn't someone stand up and say that even if the Japanese market were totally open to American goods, the resulting increase in our exports (less than $10 billion) would hardly put a dent in our trade deficit ($120 billion) and would primarily benefit those industries (communications and financial services) that are not losing jobs in the U.S. economy, but gaining them at record rates? Whe doesn't someone point out that if the United States were to level its playing field, too (e.g., by repealing the protection on textiles, sugar, steel, etc.), the trade deficit might very well get worse, not better? Hasn't Bob Dole—a Republican leader—learned the Smoot-Hawley lesson, or the Mondale lesson of 1984, that pandering to special interests is a recipe for political disaster?

The driving political forces behind protectionist legislation are understandable. Industries that view their declining profitability or loss of employment as the result of import competition argue that the cure is to curtail or eliminate those imports. Americans who fear that jobs in their industry are endangered call upon their elected representatives to "do something." Exporters who see tariff and non-tariff barriers thrown up by our trading partners, denying them full access to world markets, also look to Congress for action.

WHY INDUSTRIES GROW

But the economic forces at work present a different picture. Overall manufacturing employment in the United States has declined only slightly since 1980. In fact, if the economy continues to grow at its current pace, we will shortly have as many manufacturing jobs in the United States as we did in 1980. And although certain industries have been particularly hard hit, primarily because of falling worldwide demand (not imports), others have grown rapidly.

Interestingly, and not by coincidence, the industries within manufacturing that have had the hightest growth rate of employment since 1980 have several factors in common: an increased worldwide demand for their products, little if any protection, lower than average manufacturing wages, and typically increased import penetration into their markets. Electronics and computers are two good examples. Another interesting example is the automotive sector of our economy. Since 1980, largely because of increased efficiencies and expanded worldwide demand, the auto industry has actually gained 100,000 jobs in spite of increased import penetration.

Undoubtedly, there are very real problems. Some industries and firms are losing their ability to compete in the world market, causing great hardship to some working families. Some exporters are facing illegitimate barriers to the export of their goods and services. Congress is right to wish to help changes the situation.

But protectionism is not the answer. Indeed, it would worsen the very problems it promises to fix. Its costs in higher prices, reduced trade opportunities, the stifling of innovation, and the threatened return to economic depression are prices too high to pay. But the cry for protectionism will become less shrill only when an alternative set of policies is put forward: policies that will create new jobs while recognizing the special problems of the dislocated worker, increase our competitiveness here and abroad, restore America's leadership in the world economy, and raise the general standard of living.

THE COSTS OF PROTECTIONISM

America today faces the same choice our country faced in 1929 when President Hoover abandoned the tax-cutting policies of Calvin Coolidge that had brought six years of strong economic growth, and instead endorsed the Smoot-Hawley Act, plunging the world into the Great Depression. Just as in 1929, the United States today faces a wave of protectionist sentiment fueled by a healthy dose of misplaced patriotism. And just as in 1929, protectionism threatens to send the United States economy straight down the chute.

We can respond to sectoral shifts in the economy by developing a strategy to improve the competitiveness of American goods and services and to respond with compassion to the special problems of the dislocated worker. The best way to do this is to continue the policies of tax cuts and deregulation that have created more than nine million new jobs in the past five years, and increased our productivity and national wealth, not to return to the path of protectionism and economic isolation, and repeat the disaster of the 1930s.

The costs of protectionist policies do not appear in black and white in the federal budget. The cost imposed on consumers is not visible like a sales tax receipt. But the cost is real. It is high. And it is discernible.

Economist Michael Munger has calculated that in 1980 the total cost of existing import restrictions was $58.5 billion. Since then, new barriers have come into being, and today, the cost of protectionism comes to between $1,500 and $2,000 annually for a family of four. This, of course, is more than most families pay in federal income tax.

Quotas on automobiles alone have increased the cost of imported cars by $1,400 and the price of domestic cars by more than $600. As a result of already existing protectionism, in 1984, American consumers paid an additional $4.5 billion for automobiles, $1 billion for footwear, $3 billion for sugar,

$18.4 billion for apparel and textiles, and between $1.5 and $4.9 billion for cheese, butter, milk, and cream.

Protectionism, even at its present level, is a heavy burden on American consumers. It is a particularly regressive tax, because the increased price of sugar, clothing, and shoes falls most heavily on lower income Americans who spend a greater percentage of their income on those necessities. The New York Federal Reserve has estimated that protectionism in those three industries has had the same effect as an income tax surcharge of 25 percent to 66 percent on families with incomes of $9,350.

Economists at the Brookings Institution and the Council of Economic Advisors have calculated the tremendous cost of using tariffs and quotas as an industrial policy. "Protecting" one job in the television receiver industry, where the average wage is $22,900 per year, costs $74,155. The annual cost of "creating" a job in the footwear industry that pays an average compensation of $10,300 per year is more than $68,000. The steel industry weighs in at a cost of $110,000, to protect an average salary of $27,700. And protectionism in the automobile industry costs an average of $160,000 to protect an average salary of $28,300. Thus the ratio of cost imposed on consumers to the value of the job theoretically saved is staggering. The ill-fated and hopefully forgotten CETA program was finally eliminated for similarly high cost/benefit ratios.

Another cost of protectionism is the damage it does to the vitality and innovation of our domestic economy. Protecting jobs and profits in one industry locks labor and capital into less efficient uses, stifling new jobs in other industries, and reducing incentives for companies to modernize and response to changing technology and consumer demands.

We see this damage in those industries already "protected" by quotas and tariffs. Indeed, those industries that can no longer compete efficiently in the world market and are calling for protectionist policies are precisely those industries that have "benefited" from the longest history of protectionism.

Textiles have been covered by a myriad of quotas and market allocation agreements for some 25 years as well as one on the highest tariffs (22 percent) imposed by the Customs office. The auto companies have benefited, not only from the normal tariff duties, but from the so-called voluntary restraining orders of the past few years. Protectionism has allowed to auto industry to postpone needed changes in work rules that would greatly increase efficiency and competitiveness. The steel industry has benefited from minimum prices forced on foreign steel and most recently from quotas, which delayed the steel industry from becoming significantly more competitive. Operating under the price umbrella of quotas, the steel industry still pays wages 31 percent higher than the average wage in the United States and 23 percent higher than the average manufacturing wage. Protectionism halts the process of change and innovation necessary for American firms to adapt and innovate in order to become more competitive.

The protected industries in America give us a glimpse of what could happen to the entire economy if protectionist measures are allowed to expand. yet we have only to look at Europe to see what could happen here if our policy becomes one of hiding from, rather than responding to, competition.

Much of Europe has taken the view that the number and type of jobs in society is fixed. In a free, competitive economy, it never is. Yet many European nations have erected protectionist barriers, allocated subsidies, and otherwise worked to keep the labor markets frozen. The logical extension of this thinking brought the demand from Arthur Scargill, the Marxist leader of the British coal miners' union, that miners' jobs be continued even at those coal pits that no longer had any coal.

As a result of locking up capital and labor in non-productive uses, thereby stifling the growth of real wealth-producing jobs that would generate secure incomes and futures for the European people, the Common Market nations have failed to produce any net new jobs while the American economy, as yet free of extensive protectionism, has created 9 million net new jobs since 1980. Now many Europeans are beginning to realize the damage done by this "Eurosclerosis," the continent's economic equivalent of hardening of the arteries. They are looking to America with her relatively free labor and capital markets as the path to real growth.

Another cost of protectionism is the damage done to exporting industries and firms. The United States Chamber of Commerce estimates that some five million American jobs are directly tied to the export market. And American exports are growing; up 10 percent last year to $220 billion.

The history of the Smoot-Hawley Act serves as a grim reminder of what a high tariff policy can do to the Americans who now work in the export industries. After the bill was passed, American exports, which stood at $5 billion in 1929, fell continuously to $1.6 billion in 1932. America would not reach its 1929 level of exports until the 1940s. And despite the massive tax hike in tariff rates, revenues from import duties fell to half their 1929 level.

Perhaps the greatest cost of protectionism is the threat of another Great Depression. The Smoot-Hawley Act began as a small bill directed only at farm imports. Although today's protectionist bills are for the most part aimed only at a few industries, the dynamics of congressional politics makes it likely that any protectionist piece of legislation would grow, as did the Smoot-Hawley Act, to include many sectors of the economy.

Protectionist legislation prompts swift retaliation by other nations. Indeed, in 1929, many nations erected new tariffs just on the belief that Smoot-Hawley had the votes in Congress to pass.

Shutting out foreign imports would impoverish our trading partners. They would no longer have the dollars to buy American goods and, as in 1929, our exports would crumble. Farmers would be hit particularly hard. Debtor nations would find it more difficult to repay loans to American investors and we would likely see bank problems of increasing magnitude.

Last but not least, we must remember that an imploding world market has direct political consequences. When the Germans were no longer able to export to the United States and earn foreign exchange to pay their reparations debts to the allied nations in the 1930's the fragile Weimar Republic was torn asunder and collapsed into the clutches of Hitler.

The costs to consumers, the damage wrought by constraining our domestic free market, the jobs killed in export industries, and the promise of a new Depression are too great to allow America to follow the path of Herbert Hoover and his Smoot-Hawley tragedy. We can and must promote and institute policy changes that offer a better future for America.

A NEW GATT ROUND

America must provide the leadership in bringing our trading partners together for another round of General Agreement on Tariffs and Trade (GATT) negotiations. A new GATT round must include agreements on services as well as merchandise trade, for services are becoming a larger segment of international trade. We should bring non-tariff barriers under the GATT, for they have become a loophole. And a new GATT round should include textiles, which are presently dealt with separately in the Multi-Fiber Agreement.

Multilateral and bilateral negotiations should strive to reduce all barriers to goods and services, both tariff and non-tariff. We cannot afford to get sidetracked by the illusion that our opening negotiating gambit should be to threaten or impose tariff barriers against our trading partners in the hope that they would respond with lower barriers of their own. Experience has shown the bankruptcy of this hope. Never in history has the imposition of higher tariffs by one nation led to the reduction of tariffs by one of its trading partners.

We already have mechanisms for dealing with cases of dumping, government subsidies, and other unfair trading practices. These should be—and can be—vigorously enforced, for the American consensus for free and open trade rests heavily on the belief that our trading partners are dealing with us on a fair basis.

As we negotiate to reduce worldwide barriers to trade, we must work to make American industry increasingly competitive. Where our trading partners have lower production costs, there are two possible approaches. The first is to raise the costs of their products through higher tariffs or quotas. This path leads to all the costs and misery discussed above. The second path is to make our own goods and services more competitive.

There are three components of the cost of American goods and services: the cost of labor and materials, the cost of capital, and the cost of government, such as the taxes and regulatory burdens placed on individuals and companies. Rather than trying to "level the field" by putting taxes on our competitors—taxes we quickly pay in the form of higher prices on imported as well as domestic products—we should take a look at how we can reduce our own costs and compete more effectively.

IMPROVING COMPETITIVENESS

The cost of labor, often blamed for America's inability to compete with low-wage nations, has two components. First is the take-home pay of working men and women. Our goal is to keep that high and growing for all Americans. What we ought to cut is the second component—income and payroll taxes. Reducing the disparity between what workers earn and what they get to keep was the goal of the 1981 tax cut and is again the target of President Reagan's tax reform package that would reduce marginal tax rates for all working Americans. We can go further and learn from the Japanese, who have consistently lowered individual income taxes over the years. Japanese workers cost less, not simply because they are paid lower

wages, but also because their marginal tax rates are lower.

The cost of capital in the United States can also be reduced. Here again, let us take a look at our competitor Japan. Gross private savings in Japan is 21 percent of disposable income compared with six percent in the United States. This great pool of savings allows for investment in new plants and equipment and constant modernization.

Why is the Japanese savings rate so high? Cultural factors understandably contribute. But tax rates on savings in Japan are considerably lower than in the United States. And unlike the United States, the Japanese have largely tax-free savings accounts for their citizens—similar to an unlimited Individual Retirement Account. In addition, Japan has no capital gains tax. No wonder the Japanese save a great deal of money. The rewards to savings are not undermined by excessive taxation. Our tax policy is penalizing American industry and hurting our farmers who would greatly benefit from the vast pool of savings that a pro-savings, pro-tax policy would generate.

The third component of the cost of American goods and services is the cost of government regulation itself, a fixed, non-productive cost imposed on American business and workers. Taxes and unnecessary regulations increase the cost of American goods and too often price us out of international markets.

Trucking regulation is a good example. When President Carter began the move towards a deregulated trucking industry in 1980, he put that industry on a path that saw costs decrease by 20 percent. Airline deregulation has also greatly reduced prices to consumers and expanded employment in the industry. Financial deregulation could continue this progress. We do ourselves a disservice if we fail to see the impact regulation has on our international competitiveness. Indeed, all federal agencies should carefully consider the economic impact of any proposed regulation, making us aware of what effect it will have on America's ability to compete in world markets.

SUPPLY-SIDE SUCCESS STORIES

Taxes of all kinds also force the price of American goods up. Massachusetts, for example, lost thousands of jobs in the late 1960s and early 1970s. But in 1980, when a citizens' initiative cut the property taxes by half, the exodus of jobs ceased and the high technology firms that had planned to leave the Bay State not only stayed but expanded. Today the unemployment rate in previously high-tax, high-unemployment Massachusetts is just four percent.

My own state of Delaware has had three major income tax reductions totaling 40 percent since 1979. As a result, old jobs have been retained and new ones gained. Delaware's growth of employment and income shifted from being one of the slowest in the late 1970s to one of the most rapid in the mid-1980s.

If we think of Massachusetts and Delaware as independent nations concerned with keeping jobs, we can see how reducing taxes played the central role. Would tariffs and quotas keeping competitive foods and services out of Massachusetts and Delaware have achieved the same results? Certainly not. Fortunately, the framers of our Constitution saw just this danger of protectionism at the state level and forbade state tariff restrictions, insisting on free trade between the states.

A great number of other changes would make us better competitors in the arena of world trade. Repealing the restriction that forbids us from selling Alaskan oil to Japan and allowing the export of timber cut from our federal lands would reduce our trade deficit by $20 billion, according to Murray Weidenbaum, former chairman of the Council of Economic Advisors.

Eliminating the Cargo Preference Act, which forces much of our exports to travel on more expensive ships, would increase our competitiveness as well. Reducing antitrust limitations on combining for research and development or marketing efforts would enhance America's ability to compete. Our antitrust regulations were passed at a time when the U.S. economy was largely self-contained. Today, the American firm faces world competition. Considering an alternative policy to agricultural price supports in order to help farmers export would be a welcome step forward.

EASING THE ADJUSTMENTS

Even with increased competitiveness in the U.S. economy, we must recognize that some industries will lose jobs. Just as new industries and products replace old industries and products in the domestic market (the automobile replaced the horse and buggy, and the discovery of oil made the whaling industry obsolete), so too will foreign competition sometimes price a portion of a domestic industry out of the market. Our goal ought to be keep the mobility of labor and capital within the United States as high as possible with the least possible disruption to individuals and areas undergoing change. It should be directed to solving the very real human problems of dislocated workers, rather than freezing whole industries in the status quo, thereby postponing the inevitable adjustments, hampering innovation, and driving up costs to the consumer.

Retraining for displaced workers is an important element in reducing the fear some workers and managers have in the constant change that is endemic in a free market. Already, there are a great number of retraining programs run by companies, federal and state governments, and private colleges. Indeed, American companies spent twice as much on education and training as the combined cost of all colleges in America.

Still more can be done. One suggestion is to allow a "retraining IRA," an account where working men and women could save tax-free money that, like regular IRAs, would accumulate interest without being taxed. Should a worker need or wish retraining to shift from one job to another, he could make with withdrawals from the retraining IRA. Unemployment insurance benefits could be made available for retraining. (A test program in Delaware is quite promising.) Health insurance could also be integrated with the unemployment insurance program as workers are often vitally concerned about their health insurance during transitions.

Another innovation would be to make company pension plans more portable. When an employee leaves one firm and moves to another, he could carry his accumulated pension benefits with him. Fixed and non-transferable pensions are a disincentive for workers to move, even when higher wages are available elsewhere.

The long-term answer to the structural adjustment issue has to include a fundamental reform of our education system. No longer is an education system which provides a "one skill per lifetime" worker going to be good enough for the United States to be able to compete in the modern world economy. Education, training, and retraining are going to have to be lifetime processes in our modern economy. The sooner we get on with the challenge of fundamental reforms of our education system, the sooner all U.S. workers will have the tools to survive in a rapidly changing economic environment.

The challenge of the future is to create the millions of new jobs that will be necessary to employ young Americans entering the workforce. Protectionism cannot do that. Rather, we need an expanding American economy, an expanding world economy, and a modern education system to create new opportunities for entrepreneurship and innovation.

The protectionist lobby argues that imports take away American jobs. It is wrong. In 1985, we have a trade deficit of $120 billion and 9 million more jobs than we had in 1980, when the United States ran a trade surplus. These new jobs could not have been generated without the enormous capital inflow that has fueled the recent expansion of the U.S. economy. And because our balance of payments must even out, capital inflows would not have been possible without a trade deficit.

Imports do not cost jobs; they are a reflection of the relative strength of the American economy. We are growing faster than the rest of the world because we cut taxes in 1981 and because we began to deregulate our economy. Continued job creation requires that we continue on this path.

The President's tax reform package will be a great boost to job creation. Other bills will also help. The Youth Opportunity Wage Act would allow teenagers to work in the summer without being priced out of the market by the minimum wage. This bill would create an estimated 600,000 jobs for teenagers every summer. No present piece of protectionist legislation even claims to come close to creating this many jobs.

The "enterprise zone" legislation would create new jobs and opportunities in depressed urban and rural areas. Real jobs would be created, not uneconomical jobs temporarily protected by tariffs. Eliminating the Davis-Bacon Act would generate new jobs in the construction industry.

We can further improve our competitiveness by unleashing the innovative genius of the American people by removing the remaining obstacles to economic growth and job creation here at home, and by reforming our educational system. Already our free economic system is beginning to adjust. The dollar has fallen nearly 15 percent in recent months on world exchanges. The U.S. economy, after a dull first half, will have a better second half. Now is the time for patience and a careful use of the scalpel, not the meat cleaver.

Those who counsel despair, who would have us retreat behind a wall of high tariffs, have lost faith in America's most enduring qualities: the ability to adapt, innovate, and use challenges as a springboard to greater heights. They have become pessimists in a world where optimists create opportunity for the future.●

CIGARETTE TAXES

● Mr. SIMON. Mr. President, one of the most idiotic things we could do would be to fail to keep the revenue we now get from cigarette taxes.

I find it almost universal that people are willing to pay a little more for

cigarettes both because of the revenue it brings to the Federal Government and because it will discourage teenagers from smoking.

The Southern Illinoisan, the daily newspaper in my home territory, recently had an editorial urging us to do that that is fairly typical. I hope my colleagues will read it and heed its advice.

And I hope we move beyond the temporary 45-day extension. The need for revenue could not be more dire. The need to preserve our health could not be more clear.

I ask that the editorial be printed in the RECORD.

The editorial follows:

[From The Southern Illinoisan, Sept. 18, 1985]

CIGARETTE TAX CUT THREAT TO TEENS

Huge, ghastly, maddening numbers are rolling around Washington, part of a last-ditch effort to stop the cut in federal cigarette taxes. It seems insane that Congress may soon encourage cancer and the federal debt in the same law, but that's what's coming without action by Sept. 30.

Sen. Paul Simon, D-Makanda, is using some of the biggest numbers, gleaned from a Harvard University study. Simon and Harvard say that cutting the tax on a pack of cigarettes from 16 cents to 8 cents will encourage more teen-agers to smoke, because the price makes a big difference to teens. Harvard estimates 480,000 Americans eventually would die prematurely from diseases caused by smoking habits spurred by the tax cut.

The number is probably too high because the actual price of a cigarette pack wouldn't change in states such as Illinois that plan to impose their own 8 cent taxes. But the argument is otherwise sound. If teen-agers can be priced out of the cigarette market, the benefits to society would be enormous—and saved lives are only the beginning.

The federal Office of Technology Assessment just announced its estimate that $12 billion to $35 billion will be spent in the United States this year to treat smoking related diseases. And non-smokers will do a big chunk of that spending, in their insurance premiums and in taxes for Medicare and Medicaid. This age of medical marvels and mountainous medical bills obliges Americans to take better care of themselves—or pay substantially for the privilege of abusing the bodies that everyone pays to repair.

The OTA also figures that between $27 billion and $61 billion of economic productivity will be lost this year to tobacco-related illness. It's all a waste.

Simon says the tobacco industry is worried by a low 21 percent of high school seniors smoking. He argues logically that the government shouldn't do anything that would raise that figure, and that's just what tax removal would do.

Further, the government shouldn't just give away its $1.8 billion cigarette tax income, especially when it's coming up short by $200 billion a year. Even President Reagan ought to be able to swallow the full 16 cent tax, because he can argue it is only keeping a tax, not raising it.

As for Illinois, if the full federal tax is kept, state leaders will need to find a new income source to replace the $60 million to $70 million the state cigarette tax was going to contribute toward the education reform package. We have confidence, however, in Gov. Thompson's ability to find another obscure sin tax to pay for his programs.

On the federal level, we urge Sen. Alan Dixon and Rep. Ken Gray to join Simon in resisting the tax cut on one of the nation's deadliest habits.●

PROPOSED ARMS SALES

● Mr. LUGAR. Mr. President, section 36(b) of the Arms Export Control Act requires that Congress receive prior notification of proposed arms sales under that act in excess of $50 million or, in the case of major defense equipment as defined in the act, those in excess of $14 million. Upon such notification, the Congress has 30 calendar days during which the sale may be reviewed. The provision stipulates that, in the Senate, the notification of proposed sales shall be sent to the chairman of the Foreign Relations Committee.

In keeping with the committee's intention to see that such information is available to the full Senate, I submit for the RECORD the notifications which have been received. The classified annexes referred to in several of the covering letters are available to Senators in the office of the Foreign Relations Committee, room SD-423.

The notifications follow:

DEFENSE SECURITY ASSISTANCE AGENCY,
Washington, DC, 30 September 1985.

Hon. RICHARD C. LUGAR,
Chairman, Committee on Foreign Relations, U.S. Senate, Washington, DC.

DEAR MR. CHAIRMAN: Pursuant to the reporting requirements of Section 36(b) of the Arms Export Control Act, we are forwarding herewith Transmittal No. 85-60 and under separate cover the classified annex thereto. This Transmittal concerns the Department of the Army's proposed Letter of Offer to the People's Republic of China for defense articles and services estimated to cost $98 million. Shortly after this letter is delivered to your office, we plan to notify the news media of the unclassified portion of this Transmittal.

Sincerely,

PHILIP C. GAST,
Director.

[Transmittal No. 85-60]

NOTICE OF PROPOSED INSURANCE OF LETTER OF OFFER PURSUANT TO SECTION 36(b) OF THE ARMS EXPORT CONTROL ACT

(i) Prospective Purchaser: People's Republic of China.

(ii) Total Estimated Value: Major Defense Equipment[1] $0 million; Other, $98 million; total, $98 million.

(iii) Description of Articles or Services Offered: Design and general layout of facilities to produce artillery ammunition, primers, fuses, and explosives (and the option to procure equipment for the same), plus production Technical Data Packages for M82 primers, M577A1 and M739A1 fuses, and M107 155mm projectiles, related technical assistance, project management, training and administrative requirements.

[1] As defined in Section 47(6) of the Arms Export Control Act.

(iv) Military Department: Army (UAH).

(v) Sales Commission, Fee, etc., Paid, Offered, or Agreed to be Paid: None.

(vi) Sensitivity of Technology Contained in the Defense Articles or Defense Services Proposed to be Sold: See Annex under separate cover.

(vii) Section 28 Report: Case not included in Section 28 report.

(viii) Date Report Delivered to Congress: 30 September 1985.

[Transmittal No. 85-60]

NOTICE OF PROPOSED ISSUANCE OF LETTER OF OFFER PURSUANT TO SECTION 36(b) OF THE ARMS EXPORT CONTROL ACT

Classified Annex Item No. vi

(vi) Sensitivity of Technology:

[Deleted]

2. (U) The release of this unclassified technology to the People's Republic of China is consistent with our national policy and is considered an acceptable risk.

POLICY JUSTIFICATION

People's Republic of China—Ammunition Component Manufacturing Facilities

The Government of the People's Republic of China (PRC) has requested the purchase of the design and general layout of facilities to produce artillery ammunition, primers, fuzes, and explosives (and the option to procure equipment for the same), plus production Technical Data Packages for M82 primers, M577A1 and M739A1 fuzes, and M107 155mm projectiles, related technical assistance, project management, training and administrative requirements. The estimated cost is $98 million.

This sale would further enhance U.S.-PRC military technology cooperation and improve overall U.S.-PRC relations.

This program will assist the PRC in modernizing its artillery ammunition production facilities and will enhance the compatibility of U.S. and PRC artillery ammunition. This sale will also contribute to the improvement of PRC defensive military capability and the PRC will have no difficulty absorbing this equipment into its armed forces.

The sale of this equipment and support will not affect the basic military balance in the region.

The prime contractor has not yet been determined.

Implementation of this sale will require the assignment of four additional U.S. Government personnel for one month and twenty contractor representatives for one month to the People's Republic of China.

There will be no adverse impact on U.S. defense readiness as a result of this sale.

DEFENSE SECURITY ASSISTANCE AGENCY,
Washington, DC, 2 October 1985.

Hon. RICHARD C. LUGAR,
Chairman, Committee on Foreign Relations, U.S. Senate, Washington, DC.

DEAR MR. CHAIRMAN: Pursuant to the reporting requirements of Section 36(b) of the Arms Export Control Act, we are forwarding herewith Transmittal No. 86-03 and under separate cover the classified annex thereto. This Transmittal concerns the Department of the Army's proposed Letter of Offer to the Netherlands for defense articles and services estimated to cost $32 million. Shortly after this letter is delivered to your office, we plan to notify the news media of the unclassified portion of this Transmittal.

Sincerely,

PHILIP C. GAST,
Director.

[Transmittal No. 86-03]

NOTICE OF PROPOSED ISSUANCE OF LETTER OF OFFER PURSUANT TO SECTION 36(b) OF THE ARMS EXPORT CONTROL ACT

(i) Prospective Purchaser: Netherlands.

(ii) Total Estimated Value: Major Defense Equipment,[1] $31 million; other, $1 million; total, $32 million.

(iii) Description of Articles or Services offered: Two thousand four hundred seventy-seven BGM-71D TOW II Guided Missiles, including 37 test missiles, and supporting publications.

(iv) Military Department: Army (VQU).

(v) Sales Commission, Fee, etc., Paid, Offered, or Agreed to be Paid: None.

(vi) Sensitivity of Technology Contained in the Defense Articles or Defense Services Proposed to be sold: See Annex under separate cover.

(vii) Section 28 Report: Case not included in Section 28 report.

(viii) Date Report Delivered to Congress: 2 Oct. 1985.

POLICY JUSTIFICATION

Netherlands—TOW II Guided Missiles

The Government of the Netherlands has requested the purchase of 2,477 BGM-71D TOW II Guided Missiles, including 37 test missiles, and supporting publications. The estimated cost is $32 million.

This sale will contribute to the foreign policy and national security objectives of the United States by improving the military capabilities of the Netherlands; furthering NATO rationalization, standardization, and interoperability; and enhancing the defense of the Western Alliance.

The Government of the Netherlands needs these TOW II Guided Missiles to continue an ongoing effort to upgrade and fulfill the NATO heavy antitank requirement. These missiles represent the ongoing effort to modernize and upgrade weapons already available in the region. They would be used for defense against attacking armored vehicles. The Netherlands will have no difficulty absorbing these items into its armed forces.

The sale of this equipment and support will not affect the basic military balance in the region.

The prime contractor will be Hughes Aircraft of Tucson, Arizona.

Implementation of this sale will require assignment of a small number of U.S. Government personnel and contractor representatives to the Netherlands for a short time.

There will be no adverse impact on U.S. defense readiness as a result of this sale.

DEFENSE SECURITY ASSISTANCE AGENCY,
Washington, DC, 2 October 1985.

Hon. RICHARD C. LUGAR,
Chairman, Committee on Foreign Relations, U.S. Senate, Washington, DC.

DEAR MR. CHAIRMAN: Pursuant to the reporting requirements of Section 36(b) of the Arms Export Control Act, we are forwarding herewith Transmittal No. 86-01 and under separate cover the classified annex thereto. This Transmittal concerns the Department of the Navy's proposed letter of Offer to the United Kingdom for defense articles and services estimated to cost $80 million. Shortly after this letter is delivered to your office, we plan to notify the news media of the unclassified portion of this Transmittal.

Sincerely,

PHILIP C. GAST,
Director.

[Transmittal No. 86-01]

NOTICE OF PROPOSED ISSUANCE OF LETTER OF OFFER PURSUANT TO SECTION 36(b) OF THE ARMS EXPORT CONTROL ACT

(i) Prospective Purchaser: United Kingdom.

(ii) Total Estimated Value: Major Defense Equipment,[1] $78 million; other $2 million; total, $80 million.

(iii) Description of Articles or Services Offered: A coproduction/purchase agreement for acquisition of up to 55,000 Sea Gnat decoy cartridges. The estimated cost of the acquisition from the U.S., if the United Kingdom elects to purchase rather than manufacture them domestically, is $80 million. The decoy cartridges were cooperatively developed by the Governments of the United States and United Kingdom.

(iv) Military Department: Navy (AFI).

(v) Sales Commission, Fee, etc., Paid, Offered, or Agreed to be Paid: None.

(vi) Sensitivity of Technology Contained in the Defense Articles or Defense Services Proposed to be Sold: See Annex under separate cover.

(vii) Section 28 Report: Case not included in Section 28 report.

(viii) Date Report Delivered to Congress: 2 Oct. 1985.

POLICY JUSTIFICATION

United Kingdom—Sea Gnat Decoy Cartridges

The Government of the United Kingdom has requested a coproduction/purchase agreement for acquisition of up to 55,000 Sea Gnat decoy cartridges. The estimated cost of the acquisition from the U.S., if the United Kingdom elects to purchase rather than manufacture them domestically, is $80 million. The decoy cartridges were cooperatively developed by the Governments of the United States and the United Kingdom.

The acquisition and development of Sea Gnat will contribute to the foreign policy and national security objectives of the United States by improving the military capabilities of the United Kingdom; furthering NATO rationalization, standardization, and interoperability; and enhancing the defense of the Western Alliance.

The British Navy will use the decoy cartridges on frigates or smaller craft as an air warfare deterrent. It currently has Shipboard Rapid Blooming On-board Chaff (SRBOC) cartridges purchased from the United States and will replace the SRBOC with the improved Sea Gnat decoy cartridges. The United Kingdom will have no difficulty absorbing these cartridges into its armed forces.

The sale of this equipment and support will not affect the basic military balance in the region.

Three contractors are in competition for U.S. production: TRACOR (Texas), HYCOR (Massachusetts), and LUNDY ELECTRONICS (Florida).

Implementation of this sale will not require the assignment of any additional U.S. Government personnel or contractor representratives to the United Kingdom.

There will be no adverse impact on U.S. defense readiness as a result of this acquisition.●

HONORING GENERAL PULASKI MEMORIAL DAY

● Mr. D'AMATO. Mr. President, I rise today to express my great admiration for the nation of Poland and its people, for tomorrow, October 11, we shall all celebrate General Pulaski Memorial Day. Six years ago tomorrow, our Nation honored the 200th anniversary of the death of General Pulaski. Both his life and his death quickened the spirit of American independence, and tomorrow, our Nation will again honor the contributions to American history made by this great Polish patriot during the American Revolution. In his remembrance, let us also pay honor to the nation of Poland, its people, and its descendants.

Casimir Pulaski was born in the late 1740's in the Province of Podolia, Poland, now part of the Soviet Union, and began a military career at an early age. In his early twenties, Casimir Pulaski first demonstrated his will for Polish freedom as he led a revolt of Polish forces against Russia, which at that time controlled Poland. Arrested and condemned to death, he fled Poland and learned of the American cause for freedom through Benjamin Franklin in France. He sailed for America in 1777, and brought with him his courage to fight for freedom as he served under the forces of Gen. George Washington.

After serving our patriotic forces with distinction in the Battle of Brandywine, he was appointed by Congress as brigadier general in charge of cavalry. The following year, General Pulaski organized an independent corps of cavalry and light infantry, known as the Pulaski Legion, which he selflessly led in the siege of Savannah in 1779. General Pulaski was wounded during the battle and died 2 days later. His determination for American independence imbued life into our patriots upon his death, whereafter all British posts were taken in the far Southern States by 1782 that led to our ultimate victory.

Throughout his life, from his push against foreign domination in Poland to his fight for American independence, General Pulaski was driven by the spirit of freedom for all people. To the very marrow of the people of Poland yesterday and today, we can see this spirit as they have been struggling for survival against foreign disregard for self-determination. In this century alone, Poland has suffered three major geographical realignments. This includes 1939, when Nazi Germany and the Soviet Union, without respect to previously free peoples or even life itself, illegally divided Poland for their own devices. For a

while Poland disappeared from the face of Europe, but not from the heart of Europe.

In Rome, Pope John Paul II has become the first Polish Pope, an inspirational leader for both the Roman Catholic Church and struggling people everywhere. Within Poland today, the struggle against tyranny is championed by Lech Walesa, who, during one of the most repressive Soviet regimes since Stalin, has led a freedom movement that captured the imagination of the world. We all know the rest of this tragic story, but the Solidarity movement is alive and well.

In the United States, we also are inspired by the leadership provided by such a Polish-American as Edmund Muskie, our first Polish-American Senator, who later became Secretary of State under the Carter administration.

The Poles have contributed much to their country, their heritage, and mankind as a whole. As our Nation honors General Pulaski for his giving of himself during the American Revolution, let us not forget the Polish descendants who have given themselves to the cause of freedom for struggling people everywhere.●

THE ENORMOUS CAST OF ILLITERACY

● Mr. SIMON. Mr. President, for many years I had the privilege of serving in the House with John Brademas, who now serves with distinction as president of New York University.

Recently he did something typical of John Brademas. He enlarged our horizons.

He called upon our libraries to recognize that we are no longer in a narrow, provincial era, but have to serve our people effectively by being part of the international community.

President Brademas points out some practical problems that libraries face, practical problems that we in the House and Senate cannot ignore as we consider the Nation's priorities.

Some of the things he says I don't like to read, but I fear they are accurate. For example, he suggests that increasingly in the future people who write—whether dissertations or other books—are going to do it at a machine, and we will no longer be able to see how a Charles Dickens or an Allan Nevins or any other distinguished author put his or her thoughts on paper and then modified them. But I cannot live in the world as I would like it—I have to live in the real world. That's basically what he calls upon us to do in the Nation as we view our libraries.

He also talks about the enormous cost of illiteracy to the Nation. It is a problem we are starting to face, but we have a long way to go.

I urge my colleagues to read his speech which I am inserting in the RECORD.

The address follows:

ADDRESS BY JOHN BRADEMAS

I am honored to have been invited to address the 51st Council and General Conference of the International Federation of Library Associations and Institutions, and I'm for several reasons glad to be here.

First, I am delighted to be back in Chicago; this is for me home territory, next door to my native Indiana.

Second, I want to salute the librarians, information specialists and member associations who participate in IFLA. For nearly six decades, IFLA has encouraged cooperation among librarians, worldwide standards for libraries and the free flow of information across national borders.

Here I have seen many friends with whom I have long shared a concern about the place of libraries in American life.

I have listened with keen interest to Daniel Boorstin, a distinguished historian of ideas, who for the last decade, as Librarian of Congress, has directed, with energy and imagination, the largest collection of stored knowledge anywhere.

I've been pleased to see another valued colleague, Vartan Gregorian, co-chairman of this conference and the highly respected President of the New York Public Library, one of the world's leading libraries, as well as Robert Wedgeworth, the other co-chairman, and new Dean of the School of Library Service at Columbia University.

And, of course, I'm glad that our own able Dean of Libraries at New York University, Carlton Rochell, is among your number.

Indeed, you may be interested to know that the first convention of librarians ever held in the United States and some say anywhere in the world met in 1853 in what was known as the Smaller Chapel of New York University.

LIBRARIES FROM A PERSONAL PERSPECTIVE

But the principal reason I am pleased to be here today, of course, is that I am a friend of libraries.

Like many of you, I grew up in libraries.

During my childhood, my brothers and sisters and I spent the summer months in my grandparents' home in the small Indiana town of Swayzee where we were exposed to my grandfather's library, which had nearly ten times more volumes, 7,000, than Swayzee had people. I practically lived in that library and those books enabled me to travel, in my mind, far beyond the borders of North Central Indiana.

For me, one of the great joys of being a university student was the opportunity to work in some of the great libraries of the world—the Widener at Harvard, the Bodleian at Oxford, the Historical Archives of the City of Barcelona, the International Institute of Social History in Amsterdam.

These experiences not only enriched my own life but also impressed upon me the indispensable role of libraries in the development of mankind.

So you will not be surprised to learn that when, in 1958, I was first elected to the United States House of Representatives, I determined to remain involved in the world of learning and libraries. I served on the congressional Committee, Education and Labor, with responsibility for legislation in these areas, and also on the Joint House-Senate Committee on the Library of Congress.

During my 22 years in Congress, I had the privilege of taking part in writing every major law aimed at assisting schools, colleges, libraries, museums and other institutions of education and culture in our country.

For ten years, I was chairman of the House Subcommittee with jurisdiction over libraries and sponsored such legislation as the Library Services and Construction Act and measures to support school, college and university libraries and the training of librarians.

In 1970, Congress passed a law, which I was proud to have authored, creating a National Commission on Libraries and Information Science.

This Commission, composed of outstanding librarians and leaders from business and government, adopted the goal of providing all Americans equal opportunity for access to information important to their educational, vocational and recreational needs.

To help meet this monumental objective, Congress directed the National Commission to plan the first White House Conference on Library and Information Services, which was held in 1979 in Washington, D.C.

The person who chaired both the Commission and the White House Conference is an outstanding citizen of Illinois, a vigorous voice for libraries, and I might add, a longtime personal friend, Charles Benton.

The recommendations in the White House Conference Report issued in 1980 include a variety of proposals to meet the library and information service needs of the American people.

The Conference resolutions urged librarians to take greater responsibility for improving access to information for all citizens including minority groups and the handicapped, combating illiteracy, and promoting the free exchange of information within the United States and among nations.

Although I was for nearly a quarter of a century a legislator for libraries, I must tell you that libraries continue to concern me in my new responsibility of the past four years, as President of New York University. For I now lead an institution with a special commitment to libraries.

We at New York University are especially proud of our Elmer Holmes Bobst Library and Study Center. The Bobst Library is in fact the center of our Washington Square campus and my own office is located on the twelfth floor.

Bobst is the anchor of New York University's library system, which includes the libraries of the Institute of Fine Arts on Fifth Avenue, the School of Law, the School of Medicine, the College of Dentistry, the Courant Institute of Mathematical Sciences, and the Graduate School of Business Administration in Wall Street. (In fact, there's a picture of our Business School library on the cover of this month's American Library Association magazine, American Libraries.)

So I speak to you today from several perspectives: I grew up in libraries, later helped shape national policies for them, and now head a university with a superb library system.

Public speakers frequently remind us that we live in an age of information, with new knowledge increasing exponentially. And it's true. Consider that Americans consume about seven trillion words a day through radio, television and print media. Publishers worldwide produce 800,000 books, 400,000 periodicals and hundreds of thousands of other documents annually, each in multiple copies.

Individual scholarship, the creation and transmission of knowledge, the prosperity and indeed the security of a nation—all depend on access to published information.

Because the theme of this conference is "Libraries and the Universal Availability of Information," I want to reflect for a little while this afternoon on our progress toward this ideal—universal access to information—and the paths we must travel to attain it.

I shall touch on several topics: research libraries and their service to scholars, the quality of public libraries and school libraries, the plight of non-readers, the role of governments in supporting libraries and in assuring freedom of inquiry, and finally, an international agenda for libraries.

I realize that the recruitment and training of librarians is also an important topic but I shall leave that to other speakers.

Because I am an American and know our library system best, I shall pay particular attention to the condition of American libraries. But with two thousand librarians from all over the world here, I also want to venture into international waters. Certainly few places are better suited to making information available to people than libraries.

But libraries today—even in the richest and most technologically sophisticated countries—face serious fiscal burdens as well as many other problems.

RESEARCH LIBRARIES AND SCHOLARSHIP

Let's look first at research libraries in the United States.

I served recently on the National Commission on Student Financial Assistance and chaired the Commission's Subcommittee on Graduate Education. In December, 1983, our bipartisan Commission who, by the way, were appointed by President Reagan and the leaders of Congress, issued a report on graduate education which won the unanimous support of its twelve members.

Our report warned of "signs of trouble and erosion" in America's graduate research and training capability, including the deterioration of library collections.

Nearly every research library in the United States, our Commission found, is caught by the pressures of increasing demands, rapidly changing technology and inadequate financial support.

Clearly, to serve the needs of students and scholars and to assure academic activity of the highest quality, research libraries must expand. Yet growth has become more and more costly. Prices of books and periodicals have been rising much more rapidly than the rate of inflation. The average cost of a hard-cover book in the United States more than doubled in the past decade.

Our Commission on Graduate Education found that despite a near doubling of expenditures for library materials in the 1970s, enormous cost increases forced a reduction of 20 percent in the acquisition of new volumes.

Princeton University's director of libraries reports that only a 150 percent rise in his acquisition budget between 1973 and 1983 "kept us afloat"—and Princeton is one of the richest universities in the United States. In 1981 the University of Utah was compelled by inflation to cancel more than a thousand of its 16,000 periodicals subscriptions.

There is another problem. At a time when more and more information is being published, libraries are not only short of money but are running out of space. Yale University's libraries, which last year passed the 8 million volume mark, acquire 7 or 8 percent of the world's new writings annually, and these additions, roughly 175,000 volumes, require another 12,000 square feet of space every year.

All of you know better than I that the larger a collection becomes, the more money is needed to maintain and preserve it. Libraries are, of course, labor intensive. Our Commission on Graduate Education found that although staff size increased only 11 percent during the 1970s, expenditures on salaries more than doubled.

All of you are also aware that as libraries grow, so do problems of preservation. Fully one-third of the books in most libraries in this country are simply worn out or have too seriously deteriorated to be used. Nearly 80 percent of the books and artifacts on paper in American libraries are threatened by aging.

Preservation efforts nationwide will cost at least 100 million dollars over the next decade.

Our Commission on Graduate Education outlined a 7-point agenda to enhance the quality of university libraries. Among our recommendations were these:

The Federal government should increase financial support for college and university libraries generally and, in order to maximize the use of scarce resources, should encourage interlibrary networking in particular.

Incentives for business to donate equipment to colleges and universities should be extended to embrace library materials.

Training programs for library careers should include support for the study of modern information technology, networking and preservation.

The Library of Congress should take a leading role in preservation efforts.

LIBRARY NETWORKS

Beyond what I have so far said, I think it clear that both to survive and to serve the needs of society, libraries must modernize, economize and share the use of the technology of today.

For it has been obvious for a number of years that individual research libraries cannot on their own continue to provide the information services essential to education and scholarship of high quality.

Although the idea of building linkages among libraries is not novel, during the last decade the concept of networks—for access, collection development and preservation—has taken hold and spread throughout the country and the world.

To cite my own university, Bobst Library is involved in several resource-sharing programs—on local and state levels and, as a member of the Research Libraries Group (RLG), an organization of 31 research libraries in the United States, nationwide.

The two major bibliographic networks—the Online Computer Library Center (OCLC) and the Research Libraries Information Network (RLIN) of the umbrella RLG—provided as of 1984 information on 24 million unique records for books, periodicals, maps, audiovisual and other materials.

These large data resources have in effect revolutionized interlibrary loan capabilities and made possible the building of a coordinated national—and international—collection through access to library holdings throughout the world.

Indeed, even as we meet in Chicago, new supernetworks are being forged.

With support from the Council on Library Resources, a private foundation, RLG, OCLC, the Library of Congress and the Washington Library Network are participating in the Linked Systems Project, working to connect their several networks.

And the British Library and the Bibliotheque Nationale have agreed to link their data bases while just two months ago, a transatlantic telecommunications line was installed between the British Library and the RLIN. The British Library and the umbrella RLG intend to use their connection for many projects. They will first produce a data base, a package of retrievable information, containing records of materials in English printed during the eighteenth century. This link will also improve communication between the British Library and the National Library of Medicine in Washington, D.C.

What can we expect from automation and networking in the decades to come?

Future prospects are heady indeed. At New York University, we are building an integrated information system, which will organize data from all parts of the campus. Bobst Library's computerized catalog and other systems are already connected through a local area network, a cable that serves as a "data highway" within the Library.

This local area network will eventually be extended throughout the University and will allow computer to computer communication from a variety of systems on our campus. It will also facilitate access to online information available on external networks.

Our NYU local area network will make possible the use of scholarly work stations—microcomputer terminals for faculty and students—that can access an almost limitless number of data bases both inside and outside the University.

New York University Dean of Libraries Rochell predicts that "the future academic will compose, edit and transmit a research paper on one piece of equipment with no reason to leave it."

Patricia Battin, University Librarian at Columbia, envisions the electronic scholar of the 1990s with "on-line gateway access to the universe of knowledge" providing "the capacity to rummage around in the bibliographic wealth of recorded knowledge, organized in meaningful fashion with logically controlled searches."

But as Richard McCoy, president of RLG, has said, a pessimist viewing the future could also see a bleaker scenario, one in which information is compartmentalized by competitive interest, ownership rights or incompatible computerized standards.

Another warning comes from Warren J. Haas, president of the Council on Library Resources. America's research libraries, he says, might be creating an inequitable system of handling knowledge. Well-financed disciplines—medicine, science, law and engineering—have access to rich resources of computerized data. By contrast, specialists in the underfinanced humanities, not to mention poor colleges and low-income students, could be in danger of becoming informationally impoverished.

Certainly, the drive to networking presents unprecedented challenges for libraries—especially research libraries—and librarians.

What are some of these challenges?

First, as I have said, we must re-invent the research library, moving from the concept of a self-contained storehouse of books and journals to that of an international service center, where information will be accessible through automated networks and available worldwide.

Second, on university campuses, we need to coordinate *all* our information services. The library's computerized system and the

academic computing center should be linked to utilize fully the resources of each—computers, data files and the skills of staff who manage these systems. For we want to give users the most information in the most cost-effective manner. As Dr. McCoy has said, "It is time we recognize that our research libraries and our computing centers are in the same business."

Third, for cooperative networks to work effectively, each member institution will have to define its own objectives broadly, keeping in mind the needs of all the libraries in the network. Members must stress their common mission, starting from similarities rather than differences. All libraries today must move toward sharing bibliographic records, collections and preservation efforts. There must be acceptance of common standards for cataloging, and there must also be agreement on who should do what and who should pay for it.

Fourth, as lines between the old and new become more blurred, we shall require much closer collaboration between libraries and newer distributors of information—data base vendors, the telecommunications industry and electronic publishing concerns.

For example, Dr. McCoy warns that commercial vendors must not be allowed to control resources or information that really ought to be shared. Nor should business and industry be permitted to "cream" the information market, skimming off only the moneymaking pieces for themselves. If the profitable is seized by private entrepreneurs and the unprofitable left to universities, the academic community would lose the solid economic base essential to networking—and in the long run, even the private sector would be a loser.

Beyond these challenges for research libraries, I think everyone here today would agree that we must do a much better job of coordinating library services on an international level, and I shall address this matter in a moment.

EDUCATION REFORM: PUBLIC AND SCHOOL LIBRARIES

Having discussed the research library as a gateway to knowledge, I turn now to another task—rebuilding public libraries and school libraries.

Let me here observe for the delegates from other countries that, over the past few years, there has been a dramatic resurgence of interest in education in the United States. Metaphorically speaking, we have been inundated by studies and reports calling for reforms in our elementary and secondary schools, colleges and universities.

The report of the National Commission on Excellence in Education, appointed by then Secretary of Education Terrel Bell, has received the greatest attention. The study, *A Nation at Risk*, warned that American schools were sinking in "a rising tide of mediocrity."

Although most of these studies ignored libraries, two did affirm their importance to educational renewal. One, *Alliance for Excellence*, was issued by the U.S. Department of Education while the other, *Realities*, was prepared by the American Library Association.

Both reports found an array of problems facing school and public libraries. For example:

Three million pupils attend public schools without a library; 15 percent of our schools have none.

Between 1974 and 1982, expenditures for library books increased by 36 cents per student, less than the rate of inflation.

The number of school librarians has declined by ten percent since the 1960s.

The lack of librarians in elementary schools is especially severe. In New York City, only 17 of 601 schools have licensed librarians.

Few adults name the public library as the place they would go for information.

Two-thirds of American public libraries in towns of 10,000 or under average less than two full-time staff, of whom only 19 percent have the basic graduate degree in library science.

How have these situations come about?

Both the Department of Education and ALA studies blame budget cuts and inflation as well as public indifference for the decline of school and public libraries.

Alliance for Excellence admonishes parents and educators that ". . . libraries will have to be perceived in a new way . . . as an integral part of the overall education system in your community; the librarian must be considered an educator as well as a librarian. And your interest in libraries should be just as strong as your commitment to your local schools."

ILLITERACY AND ALITERACY

I have so far today talked about how libraries and librarians can stimulate the flow of information and the transmission of knowledge. But to look at this matter from another perspective, leaders of the library world must also help people who are unable to use the information that is available to them.

A recent and significant report from the Librarian of Congress, Dr. Boorstin, entitled, *Books in Our Future*, as well as the studies I have just cited remind us that in one of the most advanced societies in the world there live a staggering number of illiterates.

"If our citizens are to remain free and qualified to govern themselves," warns Dr. Boorstin, "we must face and defeat the twin menaces of illiteracy and aliteracy—the inability to read and lack of the will to read."

In the United States, 27 million adults are functionally illiterate, 46 million marginally literate.

What do these figures mean?

One in five American adults cannot read and understand simple texts, signs and directions well enough to function in daily life. One in three cannot read well enough to understand a newspaper.

Functional illiteracy costs the nation, we are told, over $224 billion a year in welfare payments, crime, incompetent job performance, lost tax revenues and remedial education. The relationship between illiteracy and unemployment and crime seems clear. Seventy-five percent of the unemployed read and write poorly. There is a higher incidence of illiteracy—by 20 percent—among prisoners than in the rest of the population.

Despite the enormous financial toll of illiteracy, programs to eliminate it are modest and reach only 5 percent of adult illiterates.

Libraries are logical sites for literacy projects, the ALA asserts, because adults who often feel embarrassed about their handicap may be more comfortable getting help in a library than a school.

In 1981, the federally financed Library Services and Construction Act reached 200,000 illiterates through libraries, more than three times the number served by the two major volunteer literacy programs in the United States but still far short of the need.

By fostering a love of books, libraries can also help fight the other "menace" Dr. Boorstin identified as "aliteracy," or unwillingness to read. Only about half the Americans who can read choose to read books, and the rate of bookreading is falling among the elderly and, most disturbing for our future, among the young under 21.

THE REAGAN ADMINISTRATION AND FREE INQUIRY

By now it must be obvious that many of the problems of which I have spoken today have the same solution: money.

Certainly, libraries in the United States depend on support from every level of government—local, state and Federal—as well as from business and industry, foundations and private individuals.

Because as a Member of Congress I dealt with legislation for libraries and because of what I believe is the indispensable place of the Federal government of the United States in support of libraries and of free inquiry, I should like now to look briefly at the policies of the Reagan Administration toward libraries and toward the distribution of information.

Let me here interject for the benefit of our visitors from foreign countries that Americans are accustomed to being critical of their political leaders. You'll also understand why I, as an elected politician for most of my adult life, have no qualms about candidly expressing my convictions. As a 13 time candidate for the Congress of the United States, I've taken a lot of criticism myself!

As American librarians know, both programs to support libraries and the principle of access to information are under sharp attack by the present Administration in Washington, D.C.

First, some officials at the highest levels of American government believe that access to information is a luxury our society cannot afford.

In fact, the American Library Association recently published a booklet, *Less Access to Less Information By and About Government*, that lists 71 examples of what it calls the efforts of the Reagan Administration to restrict information from the American people.

The attempts of the Reagan Administration to limit freedom of inquiry form a clear and compelling pattern. These moves have ominous implications for a free and open society.

For example, the Administration has:

Attempted to weaken the Freedom of Information Act, which guarantees public access to most government documents;

Changed the rules on the "classification" of government materials to impose more restrictions on public access to information;

Barred entry to foreign speakers into our country for fear of what they might say;

Urged lifetime censorship on over 150,000 employees of the Federal government, denying them the right to publish without government approval;

Expanded requirements that Federal agencies be allowed to review, before publication, results of Federally financed research.

Attempted to restrict the free flow of "unclassified" information at scientific meetings.

For example, the Pentagon has blocked the presentation of "unclassified" papers at meetings attended by foreign scientists. Defense Department officials argue that the open discussion of such information might damage the security of the United States.

Beyond all this, the Administration has sharply reduced funds for the National Archives, the repository of our national memory.

You may, by the way, be interested to know that in 1974 I was the author in the House of Representatives of the Presidential Recordings and Materials Preservation Act, the law that ensured that the papers and tapes of the Nixon Administration became the property of the people of the United States rather than the ingredients for a bonfire.

Finally, I must note an issue that I know is of deep concern to the American library community, a proposal by the Federal Office of Management and Budget sharply to reduce the collection and dissemination of information developed by agencies of the Federal government. Not only government but the private sector—business and industry individuals—depend upon the adequacy and reliability of data that can only be collected by the government of the United States.

FEDERAL SUPPORT OF LIBRARIES

As disturbing as this trend of the past four-and-a-half years has been the systematic assault on the part of the Reagan Administration on programs to support aid to college and university students, the arts and humanities, libraries and our institutions of learning and culture generally. This Administration has attempted to eliminate all Federal funds for academic and research libraries, public library services and construction interlibrary cooperation and literacy programs.

Happily, in the American system of government, a President only proposes budgets; our elected legislators vote on them and can initiate their own proposals. And the actions of Congress may differ significantly from what a President may have in mind.

Those of you from countries with other political systems may find our American separation-of-powers Constitution strange. I don't!

In this country, citizens can fight back, through their elected representatives in Congress, if a President takes a position the people think unwise.

And I believe that the battle for libraries is one we can win. Providing funds for libraries and for learning generally is not a wasteful expenditure, a frill, but an indispensable investment in our future.

Certainly I believe that the librarians of the United States must continue to make this argument as clearly and forcefully as they can.

INTERNATIONAL AGENDA FOR LIBRARIES

Let me go further. In order to devise new strategies and find new solutions to the problems of libraries I have identified here today, it is imperative that we work together not only on a national but an international level.

Librarians, educators, public officials and civic leaders worldwide must think carefully about the directions we expect our libraries to take in the future.

Indeed, I should like even here to suggest an international agenda for libraries in a world that will never be narrow again.

First, we must work together to develop international standards to facilitate the sharing of data among libraries throughout the world. For example, with the spread of computer technology, it is essential that we establish compatible standards for bibliographic records regardless of country.

Second, we must study the most effective methods for the international transfer of bibliographic data. This means formulating agreements and guidelines to promote such sharing by individual libraries and other information agencies.

Third, we must foster the widest feasible dissemination of publications to potential users. As a first step, we ought to remove unreasonable restraints on documentation and publication of information.

Fourth, we must share on an international level technology and programs for the preservation of books and other materials.

Fifth, we must promote the training and continuing education of librarians throughout the world, especially in developing countries.

Sixth, we must support research in all fields of library and information services. We need to keep studying and experimenting with ways to do a better job of what we do.

And finally, we must urge governments in all our countries as well as international organizations to support libraries and librarianship.

Certainly, IFLA provides a much needed forum for discussion of and action on all these issues.

Let me summarize what I have sought to do here this afternoon. I have told you something of how my own background has helped shape my attitude towards libraries.

Then I surveyed some current problems and challenges confronting libraries worldwide in the new environment of networking. I have stressed the need to economize, share, automate and preserve deteriorating collections. I next focused on some special concerns of American librarians—our school and public libraries, illiteracy and the pressure of our government toward libraries and free industry.

I went on to propose an international agenda for those of us who understand the indispensability of libraries.

As I conclude my remarks this afternoon, then, I should like to recall words spoken by Charles Coffin Jewett, president of the first convention of librarians, at their historic meeting in New York University's front yard, as it were, Washington Square, in 1853: "We meet to provide for the diffusion of a knowledge of good books and for enlarging the means of public access to them. Our wishes are for the public, not for ourselves."

The mission of those librarians over a century and a half ago remains the same for us who gather here today—diffusing knowledge of good books and enlarging the means of public access to them. I wish you well in your endeavors.●

CONGRATULATING THE SOCIETY OF REAL ESTATE APPRAISERS

● Mr. D'AMATO. Mr. President, I rise to join my distinguished colleague from Illinois, Senator DIXON, in recognition of the 50th anniversary of the Society of Real Estate Appraisers. I am pleased to join as a cosponsor of Senate Concurrent Resolution 51, which recognizes the outstanding contributions of this society.

The Society of Real Estate Appraisers was founded in 1935, during the Depression, in response to the troubled real estate market. Members of this society are dedicated to acquiring knowledge and skills to keep pace with changing markets and technologies.

This year, 1985, is the 50th anniversary of the establishment of the Greater New York chapter, which is one of the first affiliates of the Society of Real Estate Appraisers. I congratulate all New York State members, approximately 1,000 men and women. I salute the New York State chapters of the Society of Real Estate Appraisers: Edwin R. Parkot, SRA, president, Buffalo Metropolitan No. 88, 1300 Rand Building, Buffalo, NY; John R. Mako, SRA, president, central New York State No. 148, 315 South Franklin St., Syracuse, NY; Sheldon Gottlieb, SRA, president, Greater New York No. 3, 60 East 42d St., room 2306, New York, NY; David M. Bradley, SRA, president, Long Island No. 201, 190 Forest Ave., Locust Valley, NY; Dietlind W. Hoiem, SRA, president, Mid-Hudson No. 123, P.O. Box 278, Hyde Park, NY; Edward C. Schultz, SRA, president, Rochester No. 99, 425 First Federal Plaza, Rochester, NY; Lawrence W. Gates, SRA, president, Upper Hudson-Champlain Valley No. 205, 77 Ash Tree Lane, Schenectady, NY.

Members of the Society of Real Estate Appraisers are employed by various corporations, lending institutions, as well as Federal, State, and local governments; they are located throughout the world serving communities as independent fee appraisers. The society's educational program is evidence of their commitment to the development of highly qualified real estate appraisers for our citizenry; approximately 8,000 people attend their specialized courses and seminars each year.

Mr. President, for 50 years the Society of Real Estate Appraisers worked to promote the professional standards of real estate appraisers. They have been committed to better serving the needs of the public engaged in real property transactions. Therefore, it is appropriate, Mr. President, that we acknowledge the Society of Real Estate Appraisers by passing Senate Concurrent Resolution 51, which recognizes their outstanding service and commitment.●

HONORING COLUMBUS DAY

● Mr. D'AMATO. Mr. President, I rise today to commemorate what millions of Americans across the Nation will celebrate on Monday, October 14: Columbus Day. This Monday will be the 493d anniversary of the discovery of the Americas, credited not only to one of the greatest seamen and navigators of all time, but also to a man whose ideals and actions epitomize the American spirit.

The story of Christopher Columbus and the celebration of his discovery have been repeated in our country

since 1792 when the first American observance occurred in New York City. Although it was not until 1968, after many years of national celebrations, that President Johnson declared the second Monday in October as a Federal holiday to celebrate Columbus Day, we have all been honoring this day in our hearts since 1492.

In honoring Christopher Columbus each year, we, as a nation, pay tribute to an explorer whose courage and zeal changed the course of history. At a young age, Christopher Columbus was a man with little schooling and a big dream to seize the opportunities that lay beyond the horizon. But traveling where others had traveled before did not satisfy Columbus' zeal for conquest, and where others saw the edge of the Earth, Columbus saw a passageway and a breakthrough for trade.

After many years of pleading with both Portugal and Spain to receive a commission to set sail, on August 3, 1492, Christopher Columbus and his crew boarded the *Nina*, the *Pinta*, and the *Santa Maria*. They left Palos, stopped briefly at the Canary Islands and then bravely continued on to the New World. Toughing the high seas, low morale, and a depleting supply of food, Columbus sailed through August, September, and into October in eager anticipation of reaching the Orient. On October 12, they reached what we now know as the West Indies, but what he thought was the East Indies.

What he thought to be the East Indies must have been breathtaking. Christopher Columbus was struck by the beauty of this new land, not only by its esthetic appeal, but also as a breakthrough of progress. He knew what he wanted to achieve, and he was able to gain the necessary assistance through sheer courage and determination.

Mr. President, this Monday, we, as a Nation, will celebrate the accomplishments of Christopher Columbus and all the Italian Americans that followed. America is a great Nation and a land of opportunity. Let us keep the memory of Christopher Columbus alive in our hearts as we, as individuals, strive to fulfill the dreams we have set for ourselves.●

THE REAGAN ADMINISTRATION AND THE WORLD COURT: FURTHER RETREAT FROM AMERICAN INTERNATIONALISM

● Mr. BIDEN. Mr. President, this week saw two events—an anniversary and a decision by the Reagan administration—which together should give pause for reflection on the course we are now charting in American foreign policy.

The anniversary marked the passage of 25 years since that day, during the Presidential campaign of 1960, when Senator John F. Kennedy first proposed establishing the Peace Corps as an inspirational new means of bringing American goodwill and knowhow into the international arena. The idea had originated 3 years earlier with Senator Hubert Humphrey, who had introduced legislation. But it was J.F.K., soon after his election as President, who was able to move the Peace Corps from concept to reality. In so doing, President Kennedy gave fresh impetus to a great 20th century tradition of American internationalism, the landmarks of which had included Woodrow Wilson's valiant effort to found the League of Nations, Franklin Roosevelt's stirring enunciation of the "Four Freedoms," and Harry Truman's farsighted sponsorship of the United Nations system and the North Atlantic Alliance. For over a half century, other Presidents, from Herbert Hoover to Jimmy Carter, have acted to lend continuity to the same internationalist spirit.

It is against this background that we must appraise the Reagan administration's decision this week to terminate United States recognition of the authority of the International Court of Justice—the World Court. Based in The Hague, the current Court and its predecessor have been in operation for 65 years. But it was only in 1946 that the United States, reflecting the postwar internationalist spirit which had just created the United Nations, committed itself to accepting the Court's compulsory jurisdiction. Although many nations did not follow the lead of the United States in submitting fully to the World Court's jurisdiction, American support for the Court has contributed substantially to its standing and operation as an integral part of the United Nations system.

Inevitably, the Court's 15-menber bench has included legal professionals from various nations of the industrialized, Communist, and developing worlds. But the Court has generally overcome this diversity in performing its role as an arbiter of international disputes. For examples, when American hostages were seized in Tehran, the Court voted unanimously in favor of the United States in its claims against Iran.

The Court decision which precipitated the Reagan administration's withdrawal from the Court's compulsory jurisdiction is one which may fairly be debated. It may reasonably be argued, that is, that the Court erred in asserting its jurisdiction when the Government of Nicaragua presented claims against the United States arising from U.S. support of guerrilla forces seeking that government's overthrow. The Court had never before intervened in a current armed conflict, and arguably should not have asserted jurisdiction in this instance.

But to acknowledge that the Court may have reached an incorrect decision, or one contrary to American desires, is far from affirming the validity of this administration's decision to withdraw. Nor can we fail to see the administration's decision as part of a larger pattern. For indeed, what we are observing is the manifestation of a powerfully motivated ideology which views multilateral institutions as antithetical to American interests and which holds those institutions, accordingly, in disdain.

Acting on that ideology, the administration has now taken a major step in retreat from the tradition of American internationalism and American leadership in adherence to the concept of international law. Although the decision apparently elicited little concern among the American people, let us note it as a landmark in a regrettable period of reduced American vigor in the international arena—when American foreign policy is being shaped more by fear and disillusion than by magnanimity and vision.

On this 25th anniversary of the Peace Corps, which this administration has observed by retreating from the World Court, let us think of men like John Kennedy and Hubert Humphrey—men who understood that realpolitik means nothing without ideals and the force of example.

SENATOR WALLOP ON THE ATLANTIC ALLIANCE: A FORTHRIGHT ASSESSMENT

● Mr. HELMS. Mr. President, this past Saturday, our distinguished colleague from Wyoming [Mr. WALLOP] spoke on "The Future of the Atlantic Alliance" at the University of South Carolina at a forum on the topic, "The Future of the Western World."

Indeed, our colleague's topic, the Atlantic alliance, is probably the key to the future of the Western World. But as he demonstrates in his address, the influence of the Atlantic alliance on the future of the Western World may lead to the collapse of our freedom and independence. This is an extremely perceptive speech, containing forthright truths that to many other Americans are reluctant to face. Senator WALLOP is saying—and he is correct—that our affection for our European allies may very well be dragging all of us into an extremely dangerous relationship with the U.S.S.R.

Mr. President, these are strong charges, but the Senator from Wyoming makes a convincing case. "Because the allies are there," says Mr. WALLOP, "we Americans find ourselves materially and geographically less secure with every passing year. Worse yet, we find ourselves having to muffle in our throats and in our very minds

the reasons why we might want to defend ourselves."

What Senator WALLOP is talking about is the tendency of the European allies to seek to buy off the Soviets, while no longer making any serious preparations to defend itself. This is not just "Finlandization," but "self-Finlandization."

The distinguished Senator makes three major points: First, the alliance is weakening its relative military position in Europe while building up the Soviet Union's economic and military power; second, the policy of our allies to push the United States into going the dangerous "extra mile" in arms control, thus weakening ourselves materially and morally; and third, the tendency of Europeans to play down Soviet actions in Afghanistan and Central America, claiming that Americans do the same.

Mr. President, MALCOLM WALLOP's stand is a courageous one. There is no one in the Senate who is more aware of the contributions of the Europeans to the defense of freedom and democracy than he. But what Senator WALLOP is talking about is this change, this aberration in European history. The previous solidarity of the West against Soviet imperialism makes the falling away of our allies more significant. What is worse is that many elements in our own administration are using solidarity with the allies as an excuse for the United States itself to abandon our historic stand for freedom and democracy. As Senator WALLOP says:

Knowledgeable Americans were aware, by 1980, that the Soviets had used arms control as a pacifier for the West while they built a huge superiority in counterforce offensive missiles and laid the basis for a monopoly in strategic defense. In the early months of the Reagan administration the tendency was to tell this truth in public. But, from within the State Department, and especially from Richard Burt and Bud MacFarlane came this recurring theme: the Europeans won't stand for this. Regardless of the truth about arms control, we must act as if the Soviets really might be willing to reduce their miltiary threat to us, and we must show ourselves ready to meet them more than halfway.

Mr. President, the able Senator from Wyoming concludes with these wise words:

To many Americans, Europe's politics seems to be demanding that, as a condition for maintaining the alliance, the United States agree that Europe should be allowed to obstruct plans for the American people's self-defense, and for equipping American troops in Europe to be something other than human tripwires. We must agree that Europe can continue to enrich the Soviet Union by unrequited transfers of resources, that Europe can demand that we abide by treaties with the Soviet Union that the Soviet Union violates, that Europe can demand that we regard Soviet conquests, even near our own borders, with equanimity, and finally that Europe can demand that, on the altar of continuing negotiations with the Soviets, we even sacrifice the divine concept of human rights on which our civilization is founded.

Mr. President, Senator WALLOP asks us to reexamine our attitudes before it is too late, not only for our own sakes, but for the future of the world. I strongly concur in his analysis.

Mr. President, I ask that the entire text of the Senator's speech be printed in the RECORD.

The text follows:

THE FUTURE OF THE ATLANTIC ALLIANCE

(Address by Senator Malcolm Wallop)

Conferences such as this are apt to view the world with line item anxieties, and blankets of comfort. My view is somewhat different. I have a closet full of anxieties and the comfort of hope. As I view "the Future of the Western World," I am struck by a common thread of weakness in our democracies that is surpassingly troublesome. That thread is our passion for, even our dependence upon, COMFORT. The principle criteria of comfort before good housing, cheap food, abundant jobs and opportunities, or anything else is to think comfortably. All other comforts are denied us by uncomfortable thinking, therefore we reject it.

Now as I illustrate this point, I intend to focus my remarks on the Atlantic Alliance. (abstractions are essential to comfortable thinking because it can always be thought someone else is illuminated.) I have chosen Europe because more participants here represent that portion of the western world. I chose the Atlantic Alliance because it mirrors others. Change a few words or events and it can be as well ANZUS, ASEAN, the OAS, or America's own role in these alliances. So let me begin.

Americans and Europeans have every reason to pray that the future of our alliance will be something, almost anything, other than the logical extension of the trends that have characterized it for over a decade. Those trends are producing precisely the opposite of what Americans and Europeans intended our alliance to produce. Instead of finding in one another the ideas, the moral courage, and the material support necessary to win out in the struggle which Soviet totalitarianism has imposed on us, one might say of us as Churchill said of the British and French governments a half century ago: "We find in one another the reasons for mistakes that, were we alone, we probably would not commit.

"Thus, because the allies are there, and for the sake of the alliance, we Americans find ourselves materially and geographically less secure with every passing year. Worse yet, we find ourselves having to muffle in our throats and in our very minds the reasons why we might want to defend ourselves. Europe, for its part, seems to have placed its bets for the future on buying off (some would call it paying off) a Soviet Union against which it no longer prepares seriously to defend itself. Hope that its fate will be Finland's rather than Poland's is based on the expectation that the Soviets will respect the formalities of independence so long as U.S. troops are in Germany, but cause no trouble.

Today, I will look into what seem to be three key aspects of the darkening future we are building for ourselves because I believe nothing compels us to go on building it. To the contrary, if we consider carefully the path we have chosen, we could muster the energy to change paths.

First, let us see how the alliance is weakened its relative military position in Europe while building up the Soviet Union's economic and military power. The deployment of 108 Pershing II's and 468 cruise missiles in Europe was a victory. But we cannot afford many more such victories. The Soviet Union has built up a well-known, and growing, superiority in all areas of modern weaponry. No one on either side of the Atlantic has suggested tripling the Alliance's tank forces to match the Warsaw Pact quantitatively and qualitatively, or quintupling the Alliance's artillery, or even matching the number of Soviet anti-tank devices. The discussion has not gone beyond token efforts to "do more" in the conventional field. Never do we compare what we do to the challenge we face. We simply do not take those things seriously.

The field of long-range nuclear forces, however, is different. The Soviet Union's deployment of the SS-20 in 1977 really stirred us. Chancellor Schmidt called for an American response. But even as our governments broached the subject, many allies placed beyond the bounds of discussion the possibility of matching or exceeding the number and quality of warheads that the Soviets might deploy against Europe. The Soviets, we all agreed, might have an open-ended commitment to military superiority. But we could not even contemplate any commitment to equality—much less superiority. Thus we agreed upon 572 warheads for our side not because we had any illusions about their being sufficient to destroy the military forces arrayed against us, or to inflict damage proportionate to the thousands of warheads deployed on SS-20's, 21's, 22's, 23's as well as SS-4's. We agree on 572 because we judged that was the most that the political market in the Alliance's weakest components would bear.

Let us leave aside the question whether Europe's response would have been more favorable if our T.N.F. plan had actually held out the prospect of righting the balance, or even of protecting cities from attack. Let us even leave aside the question of what would have happened if we had not confused the issue by simultaneously proceeding with arms control negotiations—which required us to tell the public the lie that Soviet Leaders might be willing to settle for a military situation less threatening to Europe.

The unmistakable result of our alliance's eight years' public and private deliberations on the only military issue we have addressed, the balance in TNF, is twofold. First that balance is now much worse than it was in 1977, and it is worsening every month. No one proposes doing anything about that. Secondly, that may be because, a substantial part of Europe's body politic has convinced itself that the United States is as much of a danger to Europe as is the Soviet Union. Significantly, very few European politicians have chosen to fight this sector of their constituency head on.

We can see the consequence of this in European government's reaction to President Reagan's talk of strategic defenses. European governments have not hailed anti-missile weapons either as means of protecting their peoples or as means to redress their inferiority in offensive nuclear warheads. They have studiously ignored that, on the other side of the Iron Curtain, SA-12 mobile anti-missile systems began rolling off Soviet production lines in numbers likely far greater than those of the Pershing II's they will

defend against. No. The near-universal reaction of Europe's leaders has been to deliberate on how to delay and limit the United States' ability to defend against Soviet missiles. (At the same time making sure that they get some of the economic benefits of the United States' work.)

European leaders, whether they intended to do this or not, have played a significant role in delaying and reducing the scope of U.S. military plans. Indeed perhaps the primary argument of those Americans who wish to delay or reduce U.S. military preparedness has been to parrot the arguments of Europeans willing to threaten a dissolution of the alliance unless the United States behaves in a less threatening manner. One is tempted to ask "threatening to whom?"

It is well known that the United States spends about 6 percent of its GNP on defense, while the rest of NATO spends considerably less than 4 percent. But few realize that Europe employs that differential in a way directly—though perversely—related to security. That is, Europe has long been engaged in a long-term, massive one-way transfer of resources to the Soviet Union. The Dutch ministry of Finance estimates that the subsidy for the construction of the pipeline alone amounts to $1.6 billion. The O.E.C.D. staff estimates that, through export credit subsidies, the net annual capital flow to the Soviet Union is some $3 billion.

Then there are the sales of agricultural products below the cost of production, and the loans, the interest on which is repaid with new loans. The rates on loans to the Soviet Union and Eastern Europe are lower than those charged to domestic commercial borrowers. They are, in effect, a tax that all must pay to pay the Soviets. Europe does pay for its protection—quite as much as the U.S. pays. Unfortunately, much of that payment goes to the Soviet Union. Europe is, in effect, subsidizing the military machine that continues to grow.

This is of very great concern to the United States. One third of one million American military personnel, and a greater number of dependents are facing that Soviet machine fueled with European resources, and doing so with weapons the quantity and quality of which are limited by European politicians' fears of some in their constituencies. These are flesh-and-blood human beings—not trip wires. The American people, and their representatives in Congress will not leave them in Europe indefinitely knowing that, were they to have to fight, they could not successfully protect themselves.

Meanwhile Europeans, half believing that the American troops' presence ensures peace, refuse to even consider expensive and politically difficult measures such as increases in conventional forces, a serious European nuclear strike force, and ballistic missile defense. Instead, they literally waste both material and much capital in playing both sides.

The standard objection to pointing out these undeniable unpleasant facts is that simply mentioning them aids what is supposed to be the Soviet Union's primary objective, dividing the Alliance. But surely the Soviets are not so simpleminded as to believe that the Alliance must necessarily be a bad thing for them. Indeed for two decades their instructions to communist parties in Europe have been not to demand a divorce between the U.S. and Europe, but to work within the Alliance to "empty it of its agressive content."

One can hardly imagine a better situation for the Soviets than an increasingly rancorous marriage between the transAtlantic partners, in which the Europeans pay tribute, restrain the U.S., and keep almost a million American hostages for them. It seems that both parties would benefit above all from abandoning the comfortable, unrealistic categories in which they have been thinking.

The several proposals which have surfaced in the U.S. Senate recently for reducing U.S. troops in Europe are meant as a kind of reality therapy, to shock the soporific relationship of both Americans and Europeans into considering alternatives. This is not the place to lay them out. Suffice to say that there are prominent Europeans who believe as I do and or does Prof. Adam Ulam of Harvard that without the formalities of the Alliance, Europe would not simply give itself to communism. A huge majority of Europeans would rise to the challenge. Hear the words of Le Monde's Michel Tato:

"Must one believe that the European attachment to liberalism and democracy is valid only so long as the United States is willing to guarantee these values? Or is it rather the contrary, that the alliance with America springs from the Europeans' own attachment to these values. The argument that Europe would turn herself into another Finland lacks dignity as well as cogency" (Foreign Affairs, July 1975, p. 680).

Unfortunately, what Europe would not do if she were sure that she would have to bear its cost, she does do under the illusion that the U.S. will make everything well.

My second major point concerns arms control, and how Europe has helped to push the U.S. into going a very dangerous "extra mile" in this field, thus weakening ourselves both materially and morally.

The Presidential election of 1980 was, as President Carter said, a referendum on arms control. The American people, however, voted for the candidate who said that arms control has been a huge and dangerous fraud, from beginning to end. How could anyone seriously maintain otherwise? SALT I and the ABM Treaty together, according to their negotiators, were supposed to make impossible a Soviet capability to destroy our hardened military targets.

Whether the Soviets achieved such a capability through violations, circumventions, or perfectly legally, the fact remains that they have it. Anyone who says they might give it up should be asked to bet money on it. Those agreements also were supposed to make sure that the Soviets could not defend themselves against U.S. missiles. Yet today the SA-12 mobile, dual purpose ABM system is rolling off Soviet production lines. Also rolling off the lines are the small components of a nationwide ABM system, for which the six huge Pechora class radars provide the battle-management function. Anyone who believes the Soviets will smash these newly minted systems on the altar of compliance should bet his own money on it.

Knowledgeable Americans were aware, by 1980, that the Soviets had used arms control as a pacifier for the West while they built a huge superiority in counterforce offensive missiles and laid the basis for a monopoly in strategic defense. In the early months of the Reagan Administration the tendency was to tell this truth in public. But, from within the State Department, and especially from Richard Burt and Bud MacFarlane came this recurring theme: the Europeans won't stand for this. Regardless of the truth about arms control, we must act as if the Soviets really might be willing to reduce their military threat to us, and we must show ourselves ready to meet them more than halfway. If we don't, the Europeans will not accept our Pershings and Cruise. If they don't, the Alliance will be broken and we will have been responsible for breaking it. We must prove our sincerity about arms control, even though we know it's failing. If the Europeans see us engaging in a military buildup without arms control, they will think we are more dangerous than the Russians. So, if only for purposes of cover, let us negotiate.

I have not the time to point out every fallacy to this line of argument. It should be obvious, though, that democracies are not good at duplicitous policy. How can we believe that wholesale reduction in armaments is a real possibility if one is building weapons at the same time? The Soviets ask us this question a hundred times.

We could never give them a good answer because we had already discredited the only reasonable premise for building weapons: that given our potential adversaries we might have to use them someday. We had also already given the Soviet leaders public credit for being reasonable men who would rather reduce arms than contemplate aggression.

Having no good answers to give, we have found ourselves having to prove our "sincerity" to the most unsavory elements in Europe and in the United States again and again and again. Europeans, of course, are not the sole culprits. Many Americans prefer comfortable thinking to national security—and many in our bureaucracy have taken Europe's name in vain. I honestly believe that if the left wing of the S.P.D. had not existed, Richard Burt would have invented it, so convenient was it for his purposes.

Now the latest proof of sincerity demanded of us in the name of the Alliance is that we put off ad infinitum protecting ourselves against Soviet missiles, in the context of an arms control agreement with the Soviet Union. I do not know what the Soviet Union might offer that would be worth more to the people of America and Europe than weapons that would keep nuclear missiles from landing on us. But imagine, for the sake of argument, that the Soviets really were to offer something very attractive indeed.

How could we force the Soviets to live up to a promise say, to radically reduce its offensive superiority? What would we do if the Soviets treated this new agreement as they have treated the agreements that are now supposedly "in force?" Supposing they treated the new as they have treated the old, what would happen? We would hear a familiar refrain: for the sake of the Alliance, we should act as if none of this were happening.

Sincerity compels us to remind ourselves that the Alliance exists for all our sakes. It is not such a good in and of itself for which we should sacrifice both truth and our very security.

Let me turn now to my third major point—the Alliance's effect on our very ability to confront reality and to keep our moral bearings. I want to preface this by saying that I do not mean in the slightest to criticize the character of Frenchmen, Britains, Italians, any other nationality, or for that matter Americans. I am humbled and inspired particularly by the French people's generous and even heroic response to the Soviet invasion of Afghanistan. The work of Medicins sans Frontieres particularly will go

down in history as an example of mankind at its very best. The French public's attitude when Soviet forces captured a French newsman in Afghanistan last year left absolutely nothing to be desired.

But European politicians have behaved very differently toward the Soviet invasion of Afghanistan and toward innumerable other examples of Soviet thuggery. Indeed not only have most European political leaders turned their heads when faced with these ominous events, they have insisted they were not significant enough to affect their relations with the Soviet Union. Worse yet, they have pretended that Americans do the same, again lest we make ourselves unfit to defend them. Let me discuss two particularly significant cases: Nicaragua and the Helsinki process.

Let there be no mistake: European political leaders who believe that they can do some inexpensive political posturing against the United States regarding Central America are playing with fire. Many of us believe that the Soviets, Cubans, Bulgarians, Vietnamese, Palestinians, Yemenis, Libyans, and East Germans who run Nicaragua today are part of a long range effort to conquer Central America for Communist governments, and to turn the Mexican government into an active collaborator of the Soviet Union. If this is so, and if this effort even begins to look like it is going to succeed, the American voter will sweep Europe from his concerns and will sweep out of office any politician who insists on paying attention to anything other than the startling novelty of a hostile southern border. Politicans ought to have the foresight to refrain from playing with such a situation. They could end up influencing events in ways that would be disastrous for their own countries.

But let us look more closely. On what basis could European politicians look down their noses at our attempts to help the democratic resistance in Nicaragua? They do not, except for the most pro-Soviet, deny that the Sandinista government has instituted repressions and population control measures of which Somoza would not have dreamed—much less been capable. Thank goodness they do not argue that these measures are good and necessary—that the Miskito Indians had to be slaughtered for a higher good, or that it is good to oppress the church while trying to build a false "people's church" as its replacement.

They sometimes argue that the evils in one country never justify any other country trying to remedy them. But on the 40th anniversary of their own liberation from Nazism at America's hand, they do not press that argument. Instead, they look away from these unpleasant considerations. They prefer not to confront the harsh reality of conquest by the Soviets and their surrogates. If they thought rigorously about this reality, they might conclude it might someday involve them, forcing response. In that discomforting contemplation, they prefer to insist that reality is far more complex than these simpleminded Americans can possibly realize. Thus do they sacrifice reality for the sake of comfort, never thinking there is a price.

Consider perhaps that most evident self-deception of all—the Helsinki process.

All of us too often forget Sakharov's lesson that the threat to peace lies not in weapons but in the existence of governments that do not care about human rights. There should be no doubt in any educated person's mind that Communist regimes are founded on the very denial that, as our Declaration of Independence says, "All men are created equal and . . . are endowed by their Creator with certain inalienable rights. None of the Westerners who negotiated the Helsinki accords in which the Soviet Union bound itself to observe precisely those human rights, chief among them the freedom of religion, believed that the Soviet Union, would or could abide by them.

Had it done so it would have destroyed itself. Yet they thought it valuable to set up a situation in which the Soviet Union would once again, demonstrate to the world what it is all about. They were half right. The Soviets did and do demonstrate that they care nothing about human rights or about their signature on agreements. But something worse happened. The Westerners who have been our stewards of those agreements have duly noted the Soviets' denial of human rights yet they have continued to deal with them as if that denial was at worst an irritant. Alas, they proved that our dedication to human rights is no more sincere than the Soviet Union's.

The Soviets have quickly moved in to nail down this advantage, by pushing us to accept publicly that their understanding of human rights is at least as valid as ours. The chairman of the Soviet association of lawyers, a Comrade Zhivs, framed the issue neatly by saying that morality depends on different cultural contexts. Just as we cannot condemn cannibalism among African tribesmen, we cannot judge the moral standards of each other's society.

I submit to you should we accept this, we will have denied not just everything for which our American forefathers fought two hundred years ago, but every decent bit of heritage from our European, Greek, and Hebrew civilization. Accept this, and our tanks, missiles, and even the best space lasers our imagination can conceive will not maintain our freedom. Needless to say, an alliance based on even a tacit acceptance of Professor Zhivs' proposition would not be worth any effort. Indeed, we may be certain that for that kind of moral relativism no one will sacrifice, much less risk his life.

So let us conclude these reflections. To many Americans, Europe's politic seems to be demanding that, as a condition for maintaining the Alliance, the United States agree that Europe should be allowed to obstruct plans for the American people's self-defense, and for equipping American troops in Europe to be something other than human trip-wires. We must agree that Europe can continue to enrich the Soviet Union by unrequited transfers of resources, that Europe can demand that we abide by treaties with the Soviet Union that the Soviet Union violates, that Europe can demand that we regard Soviet conquests, even near our own borders with equanimity, and finally that Europe can demand that, on the altar of continuing negotiations with the Soviets, we even sacrifice the divine concept of human rights on which our civilization is founded.

In truth, America's politic seems often to embrace that view as well. Courage to confront reality is now rare amongst leaders committed to polls and continued views. Our strength lies more with the people. Very few Americans and not many Europeans would want our alliance to continue on such a basis when we could change paths, while the Soviet leaders would be all for it. We know we can change if leaders have courage to lead. Comfort aside, most Americans and Europeans would embrace a strong, principled alliance.

May we at last stand together for something lest, together, we fall for anything.●

NATIONAL HUMAN SERVICES DAY

● Mrs. HAWKINS. Mr. President, I have recently received a letter from a very caring and dedicated fellow Floridian, Mr. Aron Breslow, who has worked tirelessly on behalf of numerous charitable organizations, and supports national recognition of human services and the volunteers who run these services. I commend and congratulate Mr. Breslow for a job well done, and I ask that the letter to which I referred be printed in the RECORD.

The letter follows:

STATEMENT OF ARON BRESLOW ON NATIONAL HUMAN SERVICES DAY

A National Human Services Day, or weekend, will generate visability and voluntarism for all human services, at a time most needed! Charity is in trouble. A crisis is growing in communities throughout America, as human needs arise that can no longer be cared for by federal government funding. As the cry goes down from Washington for more to be done at the local level to aid vital social services, the need for greater community understanding and wider community support accelerates.

United Ways and Community Chests, the bulwarks of America's human services, are extending their fund drives to meet increasing goals. They are drawing more heavily on corporate level and office worker contributions to maintain their agencies. The general public, with its mounting economic concerns, and the small business community, with its high failure rate, help as they can.

With the burden now large upon our nation's essential social services, there is greater reliance being placed on all existing methods of community fund-raising. Most of these, helpful as they are, seem to drain the same community pillars of support. Individually, our nation's human services have learned to gather strength through the public's enjoyment of various social events. These gatherings, important as they are, put the fun in fundraising, but do not instill human service understanding or replenish volunteers.

Human Service must be brought out of the corner and into the spotlight! By concentrating awareness of fund-raising programs around the very needs and abilities of our Nation's human services, we will create a necessary breakthrough! A National Human Services Day will celebrate and certify human service for the sake of human service. It will focus attention on the human services of America, stimulate community interaction, and generate new voluntarism, now greatly needed.

A National Human Services Day will encourage creative programs and raise funds through a greater awareness of human service—a refreshing and healthy change of pace for all throughout our country, social service budgets are being sliced, professional staffs are being reduced, and the very capabilities of our Nation's human services may diminish.

A National Human Services Day, or weekend, will help to focus concentration on the very needs and abilities of our great coun-

try's human services, and will strengthen every human service in the land!

S. 1437, THE CONTROLLED SUBSTANCES ANALOGS ACT

● Mr. D'AMATO. Mr. President, I am pleased to cosponsor S. 1437, the Controlled Substances Analogs Act. This legislation was originally entitled "The Designer Drug Enforcement Act." The title is being changed because of concern that the phrase "designer drugs" is too appealing a name for these killers.

This legislation is due to be reported from the Committee on the Judiciary in the very near future, and I urge my colleagues to give it their full support. S. 1437 closes the loophole in present law that allows the creation and distribution of deadly new drugs without violating Federal law.

The problem with the law today is that it defines illegal drugs by referring to their exact chemical formulas. To evade this law, the chemist need only make the slightest change in such a drug's molecular structure, by adding a fluoride or an extra carbon molecule. The legal synthetic or designer drug produced in this way can actually be thousands of times more potent and dangerous than the illegal drug on which it is based.

By the time Government scientists determine the structure of the new drug so that new regulations placing it on the list of controlled substances can be issued, chemists can make even newer drugs by adding or subtracting a molecule or two. This way, drug dealers are always about to stay at least one step ahead of the law.

S. 1437 corrects this weakness by amending the Controlled Substances Act to cover drugs substantially similar to existing controlled substances in schedules I or II, and by making their distribution, and manufacture and sale with intent to distribute, a crime punishable by 15 years' imprisonment and up to $250,000 fine. This bill also punishes simple possession of these analogs with penalties corresponding to those for other controlled substances: up to 1 year in prison, or $25,000 fine, or both. The act does not apply to a person who manufactures or distributes a substance in conformance with the provisions of an approved new drug application, or an exemption for investigational use under the Federal Food, Drug, and Cosmetic Act.

The crisis that S. 1437 addresses is detailed in the statement accompanying emergency regulations issued by the Drug Enforcement Administration on March 25, 1985—21 CFR Part 1308. This statement makes clear that the problem of synthetic drugs has been with us since 1979.

The first such drugs were sold on the street as "synthetic heroin" or "China White." Synthetic heroin is so easily made and so potent that one chemist working an 8-hour day could supply the Nation's daily heroin demand. According to the chief of the California Division of Drugs, 20 percent of the heroin used in the State is synthetic. Nearly 100 deaths from synthetic heroin have occurred in the past 4 years. Unfortunately, because of the cumbersone requirements of present law, it took almost 2 years for that drug to be listed as a controlled substance.

Other designer drugs started appearing in the San Francisco Bay area in 1983. During 1984, forensic laboratories indentified one of these analogs in 33 drug samples, including one obtained in Brooklyn, NY. An additional five samples wer identified early this year. Drug law enforcement professionals agree that the potential for the spread of designer drugs nationwide is very great.

Mr. President, I urge my colleagues to cosponsor S. 1437 to give our law enforcement agencies the tools they need to combat this latest manifestation of our national drug abuse epidemic. I also ask unanimous consent that a New York Times article on this subject entitled, "California Addicts Use Legal, Synthetic Narcotics," be printed at the conclusion of my remarks.

Thank you, Mr. President.

The article follows:

California Addicts Use Legal, Synthetic Narcotics

(By Sandra Blakeslee)

Los Angeles, March 23.—One or more chemists working in secret California laboratories are turning out synthetic versions of heroin and cocaine that addicts say are indistinguishable from the naturally derived drugs.

Although not easy to fabricate, the synthetic narcotics are legal to possess or manufacture. Illegal drugs are defined by exact chemical formulas, and the new synthetics have slightly different formulas.

Further, the synthetic drugs are stronger and potentially more lethal than the narcotics made from natural sources. In the last four years, there have been 90 confirmed deaths from synthetic heroin, 87 of them in California, said Chauncey Veatch, director of the California Department of Alcohol and Drug Programs. But statistics are limited, he said, describing those deaths as "just the tip of the iceberg."

HUGE PROFITS POSSIBLE

The synthetic heroin, which is just as addictive as natural heroin, is so potent, according to drug authorities in California, that one chemist working an eight-hour day could supply the nation's daily heroin demand. An investment of $1,500 in equipment could reap millions of dollars in profit, they say.

According to Dr. Robert J. Roberton, chief of California's Division of Drugs, 20 percent of the heroin now used in the state is synthetic. Users of synthetic cocaine are just beginning to appear for treatment in clinics.

These narcotics are the newest manifestation of a trend toward more sophisticated production of synthetic drugs, Dr. Roberton said. The chemistry has been known for decades and is straightforward.

The pain-killing morphine molecule, for example, can be shaped into thousands of configurations by tacking on or snipping off groups of atoms. The result is still basically morphine, but the potency, length of action, euphoric effects and toxicity can be different.

Chemists employed by pharmaceutical companies do this kind of manipulation all the time. They often try to make slightly different versions of successful drugs made by their own or competitors' concerns. University research scientists also synthesize molecules and publish detailed steps in the scientific literature. But when legitimate drug chemists create new compounds, they painstakingly test them on animals, sometimes for years.

Synthetic versions of many easy-to-make street drugs, such as amphetamines and hallucinogens, have been around since the 1970's, Dr. Roberton said. But now some college-educated chemists have begun designing versions of narcotics usually derived from plant sources.

The increasing use of cocaine by wealthy Americans, he said, has led to an increased use of heroin, which counteracts the irritability resulting from chronic cocaine use.

All the experts agree that the problem thus far is mostly confined to California but that the potential for its spread nationwide is real.

APPEAL IS VARIED

The synthetic drugs appeal to some addicts for a variety of reasons, Dr. Roberton said. The synthetics cost the same as natural drugs, and some people say they seem more potent, he said. Other addicts believe the synthetic drugs are less adulterated, and therefore less dangerous.

Still others, Dr. Roberton said, simply ask for "China White," the name under which pure heroin is sold, and are unaware that they are getting a synthetic version.

The Federal Drug Enforcement Administration is trying to catch up with those who are producing the synthetic drugs. The comprehensive crime bill enacted in October allows the Government, on an emergency basis, to outlaw a particular illicit drug variant in 30 days, said Ron Buzzeo of the agency's Office of Diversion Control. It used to take more than a year.

Experts can only guess at how many of these chemists are operating in California. Some authorities, like Dr. Roberton, say that the synthetic drugs are the product of one mastermind. Others, like Dr. William Langston of the Santa Clara Valley Medical Center, in San Jose, said he thought there might be three or four laboratories concocting the new drugs.

In any case, organized crime does not seem to be involved in synthetic narcotics, Dr. Roberton said.

VARIANTS DATE FROM 1980

The first narcotic molecule to be altered by underground chemists was fentanyl, widely used as an anesthetic for prolonged surgery. It has hundreds of variants, one of which is used by gamekeepers to immobilize large wildlife.

In 1980, one variant, alpha-methyl-fentanyl, was first seen on the streets, said Darryl Inaba, treatment director. at the Haight-Ashbury clinic for drug abuse in San Francisco. The clandestine chemists "mistakenly believed its potency was the same as fentanyl," he said, but it turned out to be 1,000 times as potent. At least 20 people

died from overdoses, and a year later the Drug Enforcement Agency put alpha-methyl-fentanyl on the list of controlled substances.

In 1982 another California chemist produced a variant of Demerol, a synthetic narcotic used by doctors to dull pain. The new molecule, methyl-phenyl-propionoxypiperidine, or MPPP, is structurally identical with Demoral, except that one carbon and one oxygen atom are switched.

Addicts say MPPP produces effects like heroin, said Dr. Paul Garbe of the Centers for Disease Control in Atlanta. But sometimes the drug left them disoriented.

This was a result of an extra molecule accidentally created in the synthesis of MPPP, said Dr. Langston of the Santa Clara Valley Medical Center.

Two addicts who injected themselves with the contaminated drug literally "froze" with a needle stuck in the arms, Dr. Langston said. The molecule destroyed cells in an area of the brain controlling movement. Seven addicts in their 20's or 30's exhibit the profound loss of motor control symptomatic of advanced Parkinson's disease, Dr. Langston said.

Two years ago a new variant of fentanyl, tri-methyl-fentanyl, appeared on the streets. It is 3,000 times as potent as heroin, said Dr. Roberton of the California drug agency. "You could kill 50 people with the amount that fits on the head of a pin," he said.

If the synthetic narcotic is not diluted a hundredfold, Dr. Roberton said, a user could easily take an overdose. "I believe novice users are dying from it," he said.

But its strength is also a selling point for synthetic drug consumers. Because it works in such small amounts, tri-methyl-fentanyl does not show up in routine urine tests such as those given prisoners, Dr. Roberton said. An amount the size of a postage stamp, smuggled into a prison, is enough for several hundred inmates.

A new version of fentanyl has just arrived in Haight-Ashbury, supposedly several thousand times stronger than heroin, Dr. Inaba said. Its effects last 24 hours. Of two people who used it, one is being treated at the clinic. The other is dead.●

DEATH OF LEON KLINGHOFFER

● Mr. MOYNIHAN. Mr. President, earlier today, the President said that if the P.L.O. will bring the murderers of Leon Klinghoffer "to justice," "then OK."

No.

Not OK.

Fortunately, the President has now retracted his statement.

The P.L.O. is not a government. Even to have suggested that it has the powers of sovereignty and a disposition toward legality defies belief.

The murder took place aboard an Italian ship, which at law effectively means that it took place on Italian territory. The murderers should be extradited to Italy and tried in the course of that open, legal society.

We know who these murderers are, and it is known where they are. The U.S. Government absolutely must insist that they be extradited to Italy for trial for murder. A murder aboard an Italian vessel is, in effect, a murder on Italian territory.

No nation has been tougher or more courageous in the face of terrorism than Italy. It deserves our support and our encouragement at this moment. We must let the world know that this crime will be punished—or in the end the world will decide that the United States does not have the nerve, or does not care. ●

EXECUTIVE CALENDAR

Mr. DOLE. Mr. President, earlier today at the request of the distinguished minority leader or the suggestion of the distinguished minority leader, I attended a meeting in his office concerning nominations on the Executive Calendar, and present were Senator BYRD, myself, Senator INOUYE, Senator FORD, Senator THURMOND, Senator METZENBAUM, and White House representative Mr. Friedersdorf, and the counsel at the White House, Mr. Fielding.

The discussion concerned recess appointments, and it seemed to me that we had reached some general agreement that there would be notice given to the majority and minority leaders prior to the time of a recess and enough in advance so that if we had comments on any of the recess appointments which would be made, both minority and majority leaders would have an opportuniy to comment on those potential recess appointments.

I believe that the meeting was satisfactory, and I would hope that we would now be in position to clear the nominations on the Executive Calendar, including military and judicial and all other nominations except in cases where we are waiting further information on a certain nominee or certain Senators have asked for additional information or have asked to hold a nomination.

I know on this side a number of Senators have a hold on the nomination of Winston Lord to be Ambassador to the People's Republic of China. There may be similar requests on the other side of the aisle. But it would be my hope that we might be able to take action on the nominations.

Mr. MOYNIHAN. Mr. President, will the majority leader yield for a comment?

Mr. DOLE. Yes.

Mr. MOYNIHAN. Mr. President, the Vice President of the United States is to visit the People's Republic of China. For him to do so without being accompanied by the President's newest nominee for the ambassadorship to China would be, in my view, a disservice to our country.

The Vice President has an opportunity to introduce Mr. Lord as a friend of the President, as he is, a representative of our country, as he would be, and not to do that seems to me a serious disservice to our Nation.

And I hope this can be done.

Mr. DOLE. Mr. President, I share the view expressed by the Senator from New York. I understood there is still a chance that might be resolved today, that the President had taken a personal interest in the matter, and was going to contact Senators on this side.

But I share the view that it does not reflect well on the system, that the Vice President arrives and we have no ambassador.

Mr. BYRD. Mr. President, the following calendar items under the Judiciary have been approved on this side of the aisle. As a matter of fact, all nominees on the calendar listed under the Judiciary have been cleared on this side of the aisle, with the exception of one, and that would be Calendar Order No. 379 on page 3. The rest, Calendar Order Nos. 380, 381, 382, 383, 384, 385, 386, 396, 397, 398, 425, 426, 427, 449, 450, and 451—in other words 16 out of the 17 nominations under the Judiciary—are cleared on this side.

Additionally, Calendar No. 436, Winston Lord of New York to be Ambassador, Extraordinary and Plenipotentiary of the United States of America to the People's Republic of China has been cleared; all nominations placed on the Secretary's desk in the Air Force, Army, Coast Guard, Marine Corps, Navy—a little over 5,000—are cleared on this side of the aisle.

Mr. DOLE. Mr. President, I thank the distinguished minority leader. I earlier had indicated to the White House representatives that there might be a possibility of confirming the military, and maybe all or nearly all of the judiciary. As I understand it, a call was then made to Air Force One which is coming back from Chicago. The Chief of Staff talked with the President. The President said that he wanted his nominees, they were all important, and he felt there was no reason to hold any of the nominees except where there were specific objections. I was advised that unless that could be accommodated they would all remain on the executive calendar.

Mr. BYRD. Mr. President, Mr. Friedersdorf called me back after the meeting in my office, and indicated he had been in touch, I believe, with Mr. Regan. My understanding of what Mr. Friedersdorf said was that the President was pleased that the nominees for the judiciary and the military were going to be cleared, and that he would hope that all the other nominees on the calendar could also be cleared. And I told Mr. Friedersdorf that I was an agent of the conference, that those nominees which we had indicated in our meeting in my office earlier in the afternoon were being cleared, and that it would be necessary for me to report

back to my conference with respect to the remaining nominees. So I should think that I would have some further word when my conference meets at sometime on Wednesday of next week. It usually meets on Tuesday. But inasmuch as there will be no rollcall votes on Tuesday, I doubt that our conference attendance would justify a meeting. We probably would not have a quorum.

In any event, we will have a conference on Wednesday, and at that time I will make a report to the conference. I would hope that the rest of the nominees can be cleared at that time. The ad hoc group that I appointed earlier in conference to advise me on the nominations proposed that the judiciary members be cleared, and that the military nominations—numbering I believe abut 5,000—be cleared. And that is why I have been pleased to announce their clearance to the distinguished majority leader.

Mr. DOLE. I again thank the distinguished minority leader. I double checked. I again called after the President had landed, and they were in the White House. I called the Chief of Staff, Mr. Regan, to ask him again if it had been discussed with the President. He said it had. The President felt very strongly that these nominations had been available for some time, been on the calendar, and if no one had raised objections—they have in some cases—they felt that it would discriminate against a number of people who have done nothing but wait and wait if we started selecting out certain judicial or military nominees, and leave others—whether it be the Commodity Futures Trading Commission, or the Department of Energy, or a number of others. I guess the point is they feel they are all equally as important, and they would rather not do it on a piecemeal basis unless there are specific objections to one or more of the nominations. So perhaps we should take it up again next week.

Mr. BYRD. Mr. President, may I ask, is the nomination of Winston Lord cleared on the other side? It is cleared on this side.

Mr. DOLE. That is the one that we have not cleared on this side. There is specific objection. There was to be a phone call to certain Senators on our side. I understand that phone call was made but it was not completed. So that nomination is being held up on this side. I think one of those who was holding is the Senator from South Carolina, who just removed his hold. There could be others.

Mr. BYRD. Mr. President, the Senate often confirms some nominees very quickly and just as often leaves other nominees on the calendar to another day. They are not being discriminated against. However, it is entirely up to the majority leader.

The White House will be taking the wrong position in thinking that other nominations on the calendar are being discriminated against just because they have not been cleared tonight.

As I say, I will be glad on Wednesday to take the matter up with my conference and through the regular procedures, try to get cleared the remaining nominations on the calendar. I do not anticipate at the moment any great problem in that regard.

If the White House feels that way, it is not the majority leader's fault nor is it mine. We will just leave it the way they want it.

We did have a good meeting, may I say, with Mr. Fielding and Mr. Friedersdorf. The majority leader was able to attend a part of the meeting. He was not able to stay for the entire meeting.

At the meeting there was a good understanding, and I feel certain that come Wednesday there may not be any problem.

I would hope that the nominees who have been cleared for tonight can be confirmed, but I cannot do anything about that if the majority leader feels he cannot go forward with them because the White House has asked him not to do so.

PROGRAM

Mr. DOLE. Mr. President, as I have indicated, we will have a pro forma session tomorrow, convening at 9:30 a.m.

On Tuesday, October 15, 1985, the Senate will convene at 10 a.m. Under the standing order, the two leaders will be recognized for 10 minutes each. There is a special order in favor of the Senator from Wisconsin [Mr. PROXMIRE] for 15 minutes. That will be followed by morning business, not to extend beyond the hour of 11 a.m.

Mr. President, following morning business, the Senate will turn to any appropriations bills which have been cleared. No votes will occur during the Tuesday session.

Mr. President, if we can work it out between the majority leader and the minority leader, I hope we can double track with appropriations bills in the morning and reconciliation in the afternoon. We have gotten behind, not just because of the debt limit but other internal controversies over appropriations bills.

They have had to go back to the subcommittees and make additional cuts. The distinguished chairman of the Appropriations Committee, Senator HATFIELD, feels strongly that he would like to move on some of the appropriations bills next week.

At the same time, Mr. President, I know both Senators DOMENICI and CHILES, the chairman and ranking member of the Budget Committee, feel compelled to move on the reconciliation measure, which is very important. It will take a long time in conference.

As we look down the road, hopefully we can be out of here sometime in late November.

Mr. President, I hope we can expedite both of those matters next week.

Mr. BYRD. Mr. President, I will only take 1 minute to congratulate the distinguished majority leader and the managers and ranking managers. I want to compliment Mr. PACKWOOD and Mr. LONG from the Finance Committee and Mr. CHILES and Mr. DOMENICI from the Budget Committee. I think all of these parties did their work well, with great dedication.

Even though I could not vote for the package, they did their work well.

I did not vote for the debt limit extension over the $2 trillion mark.

I congratulate all Senators. I think we had a very, very good debate. I do not know of any dilatory motion. I think it has been one of the better debates I have heard in the Senate and I believe that improvements in the legislation have resulted. Those on both sides had strong feelings, but I think the debate went well, and I congratulate all Senators on their conduct of the debate.

I wish also to thank the distinguished majority leader for the courtesies he has accorded me and for his good words earlier.

Mr. DOLE. Mr. President, I want to thank the minority leader and also the distinguished Presiding Officer, who gave us a little overtime this evening.

RECESS UNTIL TOMORROW AT 9:30 A.M.

Mr. DOLE. Mr. President, there being no further business to come before the Senate, I move, in accordance with the previous order, that the Senate stand in recess until 9:30 a.m., Friday, October 11, 1985.

The motion was agreed to; and the Senate, at 10:12 p.m., recessed until Friday, October 11, 1985, at 9:30 a.m.

NOMINATIONS

Executive nominations received by the Senate October 10, 1985:

DEPARTMENT OF STATE

Donald J. Bouchard, of Maine, to be an Assistant Secretary of State, vice Robert E. Lamb.

UNITED NATIONS

Adele Langston Rogers, of Maryland, to be an Alternate Representative of the United States of America to the 40th Session of the General Assembly of the United Nations.

DEPARTMENT OF LABOR

Ralph W. Tarr, of Virginia, to be Solicitor of the Department of the Interior, vice Frank K. Richardson, resigned.

DEPARTMENT OF ENERGY

C.M. Naeve, of Virginia, to be a Member of the Federal Energy Regulatory Commission for a term expiring October 20, 1989, vice Oliver G. Richard III, resigned.

BOARD FOR INTERNATIONAL BROADCASTING

The following-named persons to be members of the Board for International Broadcasting for terms expiring April 28, 1988, reappointments.

Edward Noonan Ney, of New York.

Michael Novak, of the District of Columbia.

NATIONAL SCIENCE FOUNDATION

Warren J. Baker, of California, to be a member of the National Science Board, National Science Foundation, for a term expiring May 10, 1988, vice Marian E. Koshland, term expired.

RAILROAD RETIREMENT BOARD

William J. Doyle III, of Maryland, to be Inspector General, Railroad Retirement Board, new position.

IN THE ARMY

The following-named Army Chaplains Competitive Category officer for appointment in the U.S. Army to the grade indicated under the provisions of title 10, United States Code, sections 611(a) and 624:

To be permanent brigadier general

Col. Norris L. Einertson, [redacted], Chaplains Competitive Category, U.S. Army.

EXTENSIONS OF REMARKS

CONCURRENT RESOLUTION ON HUMAN RIGHTS IN POLAND

HON. ROBERT A. BORSKI

OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, October 10, 1985

Mr. BORSKI. Mr. Speaker, early next week the people of Poland will be asked to vote in parliamentary elections. When they do they will be able to vote only for candidates chosen by the Polish Communist Party. As they vote, activists in the Solidarity movement continue to suffer persecution.

At this time, it is highly appropriate for Congress to restate its concerns about the course of action the Polish Government has chosen. For almost 4 years, this Government has pursued a policy of subjection of a great number of its citizens. When the Solidarity movement was at its height in 1981, it claimed the membership or allegiance of 10 million Poles, a third of the nation's population. Since December of that year, the Government of General Jaruzelski has employed force, intimidation, and imprisonment to disrupt and shatter Solidarity.

Although Poland has not been much in the news lately, these same tactics continue. As recently as this summer, three Solidarity activists were convicted for disturbing the public order. Their trial was subject to heavy censorship, and was open to the public in name only.

Now, General Jaruzelski would like to use these parliamentary elections to give his regime a "stamp of approval" from the Polish people. He has even cynically suggested that if Poles vote in his elections, he may release jailed Solidarity members.

We in Congress must now make clear that elections conducted in this manner are a compromise of democracy, and a mockery of the free spirit of the Polish people. To that end, I have joined my colleague, Senator SIMON of Illinois, in introducing a concurrent resolution expressing the sense of Congress concerning the human rights situation in Poland, and calling upon the Polish Government to live up to its obligations under the various agreements on human rights which it has signed.

At a time when General Jaruzelski would like to prove to the world his own legitimacy as ruler of Poland, it is incumbent on Congress to make clear that we see the abuses which have happened, and which are persisting today. We must make clear that we believe the rulers of Poland have obligations to their people, and that they should live up to them.

I urge all my colleagues to join me in supporting and cosponsoring this resolution, and I look forward to its speedy passage.

I insert the text of the resolution in the RECORD:

[From the Washington Post, Oct. 1, 1985]

VOICES OF POLAND

Vote in his elections, Gen. Jaruzelski told restive Poles in an interview published in this newspaper on Sunday, and perhaps he'll let pro-Solidarity prisoners out of prison. Lech Walesa, leader of the banned Solidarity, which has appealed for a boycott of the vote, immediately denounced the offer as "blackmail," noting that Poles cannot choose independent candidates for the elections to "parliament" on Oct. 13.

The general is the hard and determined enforcer of martial law and its stern aftermath. But Mr. Walesa, still severely restricted in his political activity, has a superior claim to speak for the Polish people. Having weighed the trade-offs, he rejects paying Gen. Jaruzelski's price—popular acquiescence in his brand of communist rule—for cracking open the jails. The foreign friends of Poland should not second-guess Mr. Walesa on this decision.

There is a harder issue—sanctions. It goes to the heart of the traditional attempt of American policy to deny legitimacy to unelected communist regimes without unduly hurting the people living under them. As he denounced the elections, Mr. Walesa urged Washington to end the remaining economic penalties it imposed when martial law was declared in 1981. He said sanctions had fulfilled their purpose and now are "bringing more harm from the propaganda point of view than good." His words followed a similar appeal by Cardinal Jozef Glemp, another unquestionably authentic Polish spokesman, who called the sanctions "unjust . . . it is the people who suffer, not the government."

It is easy to say no to Gen. Jaruzelski, who served a Soviet purpose by crushing democractic Solidarity—"there is no Solidarity as such," he says—when he asks the end of sanctions. It is much more difficult to say no to the leader of Solidarity and to the Roman Catholic primate of Poland, brave and clear-thinking men who know and share the burdens of the Polish people.

On the strictly domestic Polish issue of participation in what Mr. Walesa describes as "inauthentic" elections, the Poles will make their own choice, and Americans must respect it. On sanctions, where unavoidably the United States plays a direct role, Americans have no less an obligation to listen to the true voices of the Polish people. The West should demand assurances that new loans will not be misspent, Mr. Walesa says. "Poland should be helped as quickly as possibly when such a certainty exists."

H. CON. RES. —

Concurrent resolution expressing the sense of the Congress with repect to human rights in Poland

Whereas the Gdansk Agreement and other social accords were signed in August 1980 by respresentatives of the Polish workers union, known as Solidarity, and the Government of Poland;

Whereas the historic accords offered the promise of a new era in Poland with increased respect for human rights;

Whereas the imposition of martial law in December 1981 by the Government of Poland abrogated the accords and led to the arrests or detention of thousands of Solidarity leaders and other citizens of Poland and to the denial of basic rights of the people of Poland;

Whereas, under the period of martial law, the citizens of Poland were denied their rights, abducted, threatened, assaulted, and murdered for their activities in support of human rights;

Whereas the Government of Poland declared an amnesty for most political prisoners in 1984;

Whereas some progress has been made on behalf of human rights in Poland since the amnesty, but officials of the Government of Poland have criticized and attacked citizens of Poland who speak out on behalf of human rights;

Whereas Father Jerzy Popieluszko, a leading spokesman for the rights of workers, was abducted, beaten, and murdered in October 1984;

Whereas officers of the Internal Affairs Ministry of Poland have confessed to the crimes;

Whereas human rights monitoring committees are being established throughout Poland to collect and publish data on abuses of human rights and to grant legal, financial, and medical aid to the victims of persecution;

Whereas the Government of Poland is intimidating members of the Polish human rights monitoring committees and is seeking to prevent their activities on behalf of human rights;

Whereas the Government of Poland has threatened legal prosecution against journalists who meet with such committees;

Whereas it is the stated policy of the law of the United States, including section 502B(a)(1) of the Foreign Assistance Act of 1961 and section 402 of the Trade Act of 1974, that human rights considerations are a vital element of the foreign policy of the United States;

Whereas, with the imposition of martial law in Poland in December 1981, the United States imposed economic sanctions on Poland;

Whereas, when the Government of Poland demonstrated increasing respect for human rights, the United States eased the sanctions accordingly;

Whereas the Final Act of the Conference on Security and Cooperation in Europe (commonly known as the Helsinki Accords), to which Poland is a signatory, states that the participating nations "will promote and encourage the effective exercise of civil, political, economic, social, cultural, and other rights and freedoms, all of which derive from the inherent dignity of the human person and are essential for his free and full development"; and

Whereas the Helsinki Accords state that the signatories to the accords will make it

Boldface type indicates words inserted or appended, rather than spoken, by a Member of the House on the floor.

their aim to (1) "facilitate the freer and wider dissemination of information of all kinds"; (2) "improve the conditions under which journalists from one participating State exercise their profession in another participating State"; and (3) "increase the opportunities for journalists of the participating States to communicate personally with their sources, including organizations and official institutions": Now, therefore, be it

Resolved by the House of Representatives (the Senate concurring), That it is the sense of the Congress that—

(1) the Government of Poland should comply with basic human rights agreements to which it is a signatory (including the Final Act of the Conference on Security and Cooperation in Europe, commonly known as the Helsinki Accords) by pursuing policies of consistent tolerance toward, and respect for, the rights of the people of Poland;

(2) the Government of Poland should comply with the pledges made to, and the social accords made with, the people of Poland;

(3) the Government of Poland should initiate a genuine policy of national reconciliation;

(4) the prosecution of the persons responsible for the death of Father Jerzy Popieluszko was an important precedent in recognizing human rights in Poland, and such prosecutions should be supported;

(5) the human rights monitoring committees can be a positive force for human rights in Poland and should be allowed to function and should be supported;

(6) the free flow of information on the activities of such committees can improve human rights policies in Poland and relations with the United States and should be encouraged;

(7) the continued improvement in treatment of the people of Poland by the government of Poland would improve relations between the United States and Poland, as previously evidenced by the lifting by the United States of certain sanctions against Poland;

(8) the President and the representatives of the President should at every opportunity convey to the officials of Poland and the Soviet Union the concerns of the Congress expressed in this concurrent resolution; and

(9) the President and the representatives of the President should also convey the concerns of the Congress to the governments of allies of the United States and urge the cooperation of such governments in efforts to encourage the Government of Poland to safeguard the human rights of the Polish people.

SEC. 2. The Clerk of the House of Representatives shall transmit a copy of this concurrent resolution to the President of the United States with the request that such copy be transmitted to the Government of Poland.

CONGRESSIONAL SALUTE TO LILY LEE CHEN

HON. ROBERT T. MATSUI

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, October 10, 1985

Mr. MATSUI. Mr. Speaker, I would like to take this opportunity to recognize and pay tribute to the many outstanding services and contributions made by Ms. Lily Lee Chen on behalf of the people of California as she receives well-deserved honors today from the Anti-Defamation League as its 1985 recipient of the Distinguished Service Award.

Certainly the League could not have chosen a more worthy individual for this special recognition and honor. She has served on the Monterey Park City Council since her election in 1982 when she received the largest number of votes of any municipal candidate in the city's history. Lily Lee Chen also has the distinction of being the first female Chinese-American mayor in the Nation.

Her long record of achievement and recognition includes appointments to two Presidential advisory panels on the rights and responsibilities of women and adult education by former Presidents Gerald Ford and Jimmy Carter. She authored the application resulting in Monterey Park being selected for the All-American City Award of 1985.

In all her duties and responsibilities, Lily Lee Chen has displayed remarkable leadership qualities, bringing recognition to herself and to her community. She has received several awards for outstanding community contributions, including the East Los Angeles College Alumni Association's Outstanding Community Service Award and a special commendation from the Los Angeles County Board of Supervisors.

Mr. Speaker, Lily Lee Chen's public service record is well deserving of the highest praise and honor. She has earned the respect and admiration of friends and colleagues throughout her community, the State of California and the Nation. I commend Lily Lee Chen on her high standards of performance and offer her my best wishes for continued success and happiness in the future.

REMEMBERING THE ORIGINS OF THE PEACE CORPS

HON. MICHAEL D. BARNES

OF MARYLAND

IN THE HOUSE OF REPRESENTATIVES

Thursday, October 10, 1985

Mr. BARNES. Mr. Speaker, the Washington Post recently ran a very touching editorial on the role of our late, beloved President John F. Kennedy, and our late and equally loved colleague from the other body, Senator Hubert Humphrey, in the creation of the Peace Corps 25 years ago. As part of our commemoration of this great event in our history, I wish to include the editorial in the RECORD at this point:

[From the Washington Post, Oct. 9, 1985]

REMEMBERING

We have something to add to the celebrations now under way of the 25th anniversary of John F. Kennedy's proposal to establish the Peace Corps. A great deal has been said and done in recent days to honor the extraordinary—and sometimes heroic—achievements of Peace Corps volunteers all over the world in the decades since the agency came into being.

To all of this we say amen, and we also join in commending President Kennedy himself for having espoused the idea and helped push it into law. The Peace Corps, with its youthfulness, its energy and excitement and commitment, became a kind of symbol of the Kennedy administration at its early best, and this was fitting. The agency got its momentum and its enduring personality in those years, and it reflected what was most innovative and idealistic about the Kennedy administration.

But something is missing here. The something is Hubert Humphrey. It is always a wise idea, when celebrating a proposal of this kind, to check out the Humphrey record. The late Democratic senator (and vice president) from Minnesota introduced the Kennedy administration Peace Corps bill in the Senate in 1961 because President Kennedy asked him to. President Kennedy asked him to because Mr. Humphrey had in fact proposed the Peace Corps idea three years before JFK espoused it in the 1960 campaign speech whose silver anniversary is now being commemorated. We think JFK wouldn't mind our calling this to your attention or even sharing the credit with his friend Hubert—and to this end we will let Mr. Humphrey have what he always loved best; the last couple of hundred words. They are from his memoir, "The Education of a Public Man":

"I introduced the first Peace Corps bill in 1957. It did not meet with much enthusiasm. Some traditional diplomats quaked at the thought of thousands of young Americans scattered around their world. Many senators, including liberal ones, thought it a silly and unworkable idea. Now, with a young President urging its passage, it became possible and we pushed it rapidly through the Senate. It is fashionable now to suggest that Peace Corps volunteers gained as much, or more, from their experience as the countries where they worked. That may be true, but it ought not to demean their work. They touched many lives and made them better. Critics ask what visible, lasting effects there are, as if care, concern, love, help can be measured in concrete and steel or dollars or ergs. Education, whether in mathematics, language, health, nutrition, farm techniques, or peaceful coexistence may not always be visible, but the effects endure."

Again, amen.

HOUSE WAYS AND MEANS TAX REFORM

HON. NEWT GINGRICH

OF GEORGIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, October 10, 1985

Mr. GINGRICH. Mr. Speaker, recent actions by the House Ways and Means Committee to develop a tax reform proposal strike at the very heart of our long-term economic objectives.

As a nation we should encourage more savings, and more investment in jobs and productivity. However, last week the U.S. Chamber of Commerce completed an analysis of the House Ways and Means Committee's recommendations for tax reform. It is clear from this analysis that the Ways and Means recommendations will only serve to

make America less capable of modernizing and competing in the world market.

ECONOMIC IMPACT OF THE HOUSE WAYS AND MEANS STAFF PROPOSAL

[Difference from present law in billions of dollars and percent]

	1986	1987	1988	1989	1990
GNP (1972 dollars) [1]					
Ways and Means	1,710.1	1,725.5	1,744.1	1,797.7	1,829.8
Current law	1,718.1	1,745.8	1,775.3	1,843.8	1,891.8
Total	−8.0	−20.3	−31.2	−46.1	−62.0
Percent change	−0.5	−1.2	−1.8	−2.5	−3.3
Unemployment [2]					
Ways and Means	7.8	9.0	9.1	8.8	8.9
Current law	7.4	8.4	8.2	7.5	7.2
Total	0.4	0.6	0.9	1.3	1.7
Percent change	+5.1	+6.7	+9.9	+14.8	+19.1
Budget deficit (current dollars) [3]					
Ways and Means	−218.2	−245.1	−262.4	−260.7	−279.3
Current law	−207.7	−224.9	−237.5	−231.1	−244.8
Total	10.5	20.2	24.9	29.6	34.5

[1] In other words, probably a deep recession.
[2] In other words, over a million Americans will lose their jobs.
[3] In other words, almost $120 billion more in deficit spending.

This projection of economic damage by the Ways and Means bill should lead all of us to examine this bill very carefully.

COMMENDING THE REPUBLIC OF CHINA ON THE 74TH ANNIVERSARY OF ITS FOUNDING

HON. BEN GARRIDO BLAZ

OF GUAM

IN THE HOUSE OF REPRESENTATIVES

Thursday, October 10, 1985

Mr. BLAZ. Mr. Speaker, today, October 10, on the 74th anniversary of the founding of the Republic of China, I would like to pay tribute to the tremendous cultural and economic accomplishments of the people and Government of Taiwan. Having recently returned from this dynamic island, I can personally attest to their tremendous achievements in a variety of areas.

The people of the United States, as well as this Congress, must not forget what a staunch ally of the United States Taiwan has been during the last 40 years. We therefore must remain especially cognizant of the affects of Taiwan of our normalization of relations with the People's Republic of China.

Taiwan holds special strategic significance for the western world because of its unique geographical, military, and political situation. It lies only 150 miles north of the Philippines and but a 2-hour flight from my congressional district, the American Territory of Guam. Recent developments in the Philippines and other areas of the Pacific basin must cause us to be particularly careful in dealing with the many issues that would conceivably affect our continued relationship with the Taiwanese people.

Our country has a vital interest in ensuring that the Republic of China continues to maintain a political system that emulates basic American principles, fostering respect for free enterprise and popular election, protection of individual rights, and preservation of western influence, while continuing support of the U.S. policies in the region. A healthy Taiwanese economy contributes to the maintenace of a secure, stable, and prosperous grouping of pro-western nations supporting our interests and helps counterbalance expanding Soviet influence in the Pacific region.

Taiwan's economic interaction with the surrounding Asian-Pacific region continues to grow at a truly impressive rate. In just 40 years, Taiwan has become the 15th largest trading nation in the world and the United States sixth largest trading partner. It now has the third highest per capita income in the entire Asian-Pacific region, following only Japan and Singapore.

These marvelous economic achievements cannot help but further promote the ideals of free enterprise and human freedom which we attempt to promote throughout the world. It is truly miraculous that this small island, with only 19 million people, can outproduce the People's Republic of China with its vast natural resources and 1 billion citizens.

In closing, I must ask my colleagues not to forget the past and to continue to help such an old friend and ally. We must not be remiss in upholding, completely, the letter and spirit of the principles set forth in the Taiwan Relations Act.

NATIONAL JEWISH COUNCIL BULLETIN

HON. DUNCAN HUNTER

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, October 10, 1985

Mr. HUNTER. Mr. Speaker, I rise today to commend the following interview from the National Jewish Council Bulletin's September 1985 issue. In it, my good friend and distinguished colleague from Minnesota, VIN WEBER, outlines the progress of the foreign aid bill and current policy in the House toward Israel. I found it highly informative and illustrative of some of the changes in our party system. I feel that all of my colleagues in the House would benefit by reading his discussion of this important piece of legislation.

SHIFTING ALLIANCES ON FOREIGN AID TO ISRAEL: AN INTERVIEW WITH REPRESENTATIVE VIN WEBER (R-MN)

On July 11, 1985, the House of Representatives passed a bill authorizing $12.6 billion annually in foreign aid during the fiscal years 1986-87.

Reflecting the growing determination on Capitol Hill to confront communist expansion around the world, the bill's provisions include aid for anti-communist forces in Cambodia, Afghanistan, Nicaragua, and a repeal of the 1976 Clark Amendment that banned aid to anti-communist rebels in Angola. In addition, the bill provides Israel with an all-grant aid package worth $4.5 billion.

Rep. Vin Weber (R-MN), chairman of the Conservative Opportunity Society and a major architect of the bill, granted an interview to the NJC Bulletin in which he addressed the implications of the bill's passage. He observed that a historic shift is taking place in Congress. For the second year in a row, growing numbers of young Republicans demonstrated their strong backing for foreign aid, while many liberal Democrats emerged as the foreign aid bill's most vocal opponents.

NJC: This year Congress passed a foreign aid bill for the first time since 1981. What changes have occurred in the past four years to make this possible?

Mr. Weber: I think that the most important change is the increase in conservative and Republican support for the Foreign Aid Bill. That is based on a growing realization that the Republican Party is America's majority party and therefore the party responsible for governing the country.

Republicans today simply cannot be opposed to foreign aid as many were in the past when we were in the minority. Now we have an obligation to govern and we must use tools such as foreign aid that advance America's interests around the world by promoting democracy and resisting communism.

NJC: Why was this foreign aid bill able to pass in the Democratic-ruled House, which has long resisted the sort of conservative measures that the bill includes?

Mr. Weber: I would explain the dynamics this way. The Democratic party in the House is increasingly dominated by a left wing that is isolationist in its foreign policy. Nevertheless, there remains a substantial minority of Democrats who don't share that position.

In the past, many Democrats who were caught in the middle on the question of resistance to communism and the use of force, went along with their party even though it was dominated by this isolationist left wing. Recently, though, there has been a growing realization that the Democratic party is shrinking, in part because it is viewed as weak and unwilling to defend America and America's interests. As a result, many middle-ground Democrats have broken with the majority of their party and have come over to the Republican side on foreign policy issues—including this year's foreign aid bill.

NJC: Is this a Republican-driven change?

Mr. Weber: I think it's driven by two dynamics. First of all, you cannot understate the significance of the Democratic party's move to the left. With George McGovern's nomination in 1972, isolationism emerged as a growing trend in the Democratic party. Ever since then, that trend has accelerated until today isolationism prevails in the party.

But there is another, more recent, dynamic and that's the change in the Republican party. Republicans today understand that America has an obligation to lead the free world and to honor its international commitments and alliances.

So you have the two movements: Democrats retreating and the Republicans evolving. Together these have produced a dramatic change in the way Congress makes foreign policy.

NJC: This year, in a rather unusual step, the House passed the Foreign Aid Bill on a voice vote. Why wasn't a more usual recorded, roll-call vote taken?

Mr. Weber: The Democrats wanted to avoid a roll-call vote more than anyone because their liberal members were in a terrible quandary. If you look at the 1984 foreign aid vote, a majority of Democrats voted against it and a majority of Republicans voted for it. The Democrats who voted "no" did so almost exclusively because of Central America. They did not want to send aid to

the region if it would be used to fight communism. That's part of the left-wing isolationism.

They were very nervous about opposing the '84 bill, though, because most liberal Democrats run as friends of Israel and like to be in a position to support Israel. However, when push came to shove, on the vote that is critical to Israel—the vote for foreign aid—they voted "no". They said that it was more important to oppose our effort against communism in Central America than it was to support Israel.

This year, as the Foreign Aid Bill evolved through the legislative process, the anti-communist measures that were adopted made it even more unpalatable to the left-wing House Democrats than the 1984 bill.

As this happened, the Democratic leadership in the House became anxious to avoid a vote in which a majority of Democrats—most of them claiming to be friends of Israel—voted to kill the Foreign Aid Bill for the second year in a row. And that's exactly what would have happened if we had had a roll-call vote.

NJC: Do you think that the increasing Republican support for Israel is part of the overall trend towards a more activist approach to foreign policy?

Mr. Weber: Absolutely. I think Republicans have generally been supportive of Israel, although there has been, we have to concede, an element on the right that was not. Today, this pro-Israel sentiment is strengthening as conservatives formulate a comprehensive world view appropriate to a majority party. That clearly means strong support for our friends around the world—and America has no better friend in the world than Israel.

Thus, as conservatives continue to move towards being the new internationalist majority, their commitment to Israel is growing—and will continue to grow.

NJC: What significance do you think this trend will have for the future conduct of U.S. foreign policy?

Mr. Weber: The most significant fact about the foreign aid bill this year is that it reflects the Reagan Doctrine, which is emerging as a doctrine of support for resistance to Soviet colonialism.

The decision by this Administration and this Congress to provide support for anti-communist liberation movements around the world is, I think, the most important development in American foreign policy-making in a decade. And I believe that the Reagan Doctrine, which it reflects, will be the cornerstone of our foreign policy into the 1990's.

NJC: What do you think the implications of the Reagan Doctrine are for party politics in America?

Mr. Weber: Well, first of all, there is no question that Republican support for an activist American foreign policy will continue to grow as Republican recognize their responsibility to provide international leadership. I don't see any chance, whatsoever, that that will be reversed, halted or even slowed.

As to how the Democratic party is going to move, that's a more difficult question. There are obviously voices in the Democratic party that understand that left-wing isolationism is poison for their party and will relegate them to minority status for as long as such thinking prevails in the party.

But I don't think that the Democrats can make the changes that are needed to return them to the majority. Some people say that the Democratic party, in order to regain its majority status, has to separate itself from all the interest groups with which it has become identified in the last ten years. But that's what the Democratic party is today: if you take away those interest groups you are left with basically nothing.

The bulk of middle American Democrats are strong foreign policy Democrats in the Truman/FDR mold. But these Democrats have left the party—been driven out—and many have become Republicans instead. What remains is increasingly just a militant left wing.

So, it's going to be extremely difficult for moderate Democrats to bring the party back to the center on any time, but particularly on foreign policy. Because if there's any area where the Democratic party today is rigidly left wing it is in foreign policy.

NJC: What do you think the implications of these trends are for the Jewish community?

Mr. Weber: Since the days of FDR, the Jewish community has been an integral party of the Democratic coalition. That has had implications for Israel because, although Israel has many friends outside the Jewish community, Jews obviously constitute the core of support for Israel. As a result, American support for Israel was traditionally tied to the Democratic coalition.

But that coalition has now changed. Friends of Israel in this country—and particularly in the Jewish community—must question whether Israel's security is best guaranteed in a Democratic party dominated by a left-wing, isolationist view of foreign policy which opposes resistance to communism and the use of force.

I think that friends of Israel will conclude that the Republican party offers a far more solid base of support for Israel than does the Democratic party.

Now, while I would like to see all foreign policy—including support for Israel—become a bi-partisan or non-partisan concern, that simply is not happening today. We have to face up to the fact that the Democratic party is dominated by left-wing isolationsists. They are not going to permit the forging of a genuinely bi-partisan foreign policy that is activist and anti-communist in its orientation, even though it is just such a policy that is most conducive to support for Israel in America.

NJC: Thank you very much.

SALUTE TO FOUR OUTSTANDING INDIVIDUALS—GARY COUNSELOR, DAVID WALBORN, J. SCOTT McLAUGHLIN, AND REGINALD PENNINGTON

HON. GUY VANDER JAGT

OF MICHIGAN

IN THE HOUSE OF REPRESENTATIVES

Thursday, October 10, 1985

Mr. VANDER JAGT. Mr. Speaker, I rise to call to the attention of my colleagues an article that appeared in the Muskegon Chronicle on September 26, 1985, saluting the outstanding achievements of four Muskegon area residents. These four Ninth District citizens—Mr. Gary Counselor, president; Mr. David Walborn, Mr. J. Scott McLaughlin, and Mr. Reginald Pennington, vice presidents of West Michigan Steel Foundary, Inc., deserve our praise and recognition.

The efforts of these outstanding businessmen have brought quite a success story to the Muskegon community. They are indeed shining examples of dedication and excellence. Their willingness to consider new and novel approaches and their successful efforts to resolve difficult problems have earned them the admiration of all who are privileged to know them. They are always ready to go that extra mile, demonstrating a truly impressive display of the initiative that keeps our Nation strong. I know that my colleagues will enjoy the following article and that they will join me in saluting Gary Counselor, David Walborn, J. Scott McLaughlin, and Reginald Pennington.

[The article follows:]

COMMUNITY FAITH, COURAGE, RESCUE A LOCAL FOUNDRY

The Chronicle today salutes—in the name of the community which has benefited from their "home town" faith and free enterprise commitment—the four men pictured above.

These individuals are well-known and longtime resident of the Muskegon area. Their hard work and willingness to take a risk literally have saved an industry for Muskegon.

The four, Gary D. Counselor, president; and divisional vice presidents David H. Walborn, Reginald Pennington and J. Scott McLaughlin, all of them veteran executives of the former Westran Corp.'s Muskegon Cast Metals Division, are facing down the formidable odds confronting iron and steel foundries nationally.

The are bucking a trend that has seen aluminum increasingly replace heavy metals in new cars and other products—developments that tolled a death knell, or saw work forces drastically cut, for several major local foundries.

They bought out the division, held onto its Muskegon lakefront property and restored the foundry's original name of West Michigan Steel Foundry Inc. Through a lot of sweat and entrepreneurial innovation, they and their fellow workers have returned the operation to profitability.

The new management team expects continued business growth through the balance of the decade, along with modest increases in employment. The company's payroll has climbed from $4.4 million last year to a projected $5 million in 1985, and there now are 200 people employed.

The venture took a lot of gumption. It's a real new Muskegon success story. And it's far from ended. The community has a vital need to keep, nurture and husband its backbone base in durable goods manufacturing. The big factory payrolls provide stability and the opportunity for growth in the important service industry-small business fields.

It should be recognized, too, that this is the latest of several recent faith-in-Muskegon developments. They include local plant management buy-outs of manufacturing facilities here from former parent companies. Examples are the thriving operation at Kaydon Corp., now a locally owned, public corporation following its spinoff from Bairnco Corp. last year, and Geerpres Inc., purchased from Beatrice Foods Co. of Chicago.

As we noted at the outset, West Michigan Steel retained its valuable Muskegon lakefront property. But not for expansion of its manufacturing facilities. The new owners say they are interested in the continued

beautification and public-use development of the Muskegon Lake shoreline.

As earnest of this, they are planning to develop as a public park, fishing and picnic area, the company's waterfront property that forms the western arm of the Hartshorn Marina's small boat basin.

There remains some problem-solving to do, including negotiations with the city of Muskegon and the neighboring Lumbertown shopping mall. But the property could figure in a major lakefront development plan proposed by Lumbertown owner Stanley Whittaker, and in a number of other downtown waterfront developments, including the county-owned Wiener property farther east.

Those plans are wonderfully encouraging as a partnership-for-progress proposal. As we said, factory work still is the backbone of the local economy. Certainly, diversification into the service-non-manufacturing sector is vital to this area's ever-brightening growth future. But both the manufacturing and tourism industries must continue to work together in partnership, in the interest of the broad community.

We are confident that West Michigan Steel will enjoy continued success. The entire community should be grateful for individuals such as the foursome at West Michigan Steel and others who have enhanced the employment stability and preserved all-important jobs. They're making Muskegon's future much brighter.

CONGRESSIONAL SALUTE TO STAN ATKINSON

HON. RCBERT T. MATSUI

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, October 10, 1985

Mr. MATSUI. Mr. Speaker, I would like to take this opportunity to congratulate and commend Stan Atkinson for his tireless and dedicated efforts to help various charities.

Stan is an individual who gives of himself freely to such a spectrum of charities including Mercy Hospital Foundation, Rescue Now, Family Service Agency, Emergency Relief Fund International, People Reaching Out, California Committee for a Free Afghanistan, Junior League of Sacramento, Project Interdependence, the Life Extension Institute, International Medical Corps, Muscular Dystrophy Association, the Robinhoods, Governor's Stop Crime Coalition, and the scores of other organizations he helps as the master of ceremonies, speaker, and event organizer.

As a journalist, Stan has earned the admiration and respect of his colleagues through his many news reports bringing a deeper view to troubled places around the world. Documentaries on Afghanistan, Central America, Somalia, and East Africa are a few which have brought him much public acclaim.

Mr. Speaker, on behalf of the Sacramento community, I extend my personal thanks and congratulations to Stan Atkinson. He has demonstrated concern for his fellow man through outstanding community contributions and dedication.

MAJORITY IN COUGHLIN POLL CALL NICARAGUAN REGIME A THREAT

HON. LAWRENCE COUGHLIN

OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, October 10, 1985

Mr. COUGHLIN. Mr. Speaker, in sharing the results of my annual mail questionnaire poll of Pennsylvania's 13th Congressional District, I believe it is important to note that a majority of my constituents perceive the current Nicaraguan regime as a threat and support some form of aid to the domestic opposition forces, or Contras.

A total of 11,690 individuals responded to the opinion poll. Questionnaires were mailed to homes and postal boxes throughout the district's 28 municipalities in Montgomery County and three wards in the city of Philadelphia.

Major findings of the survey are:

Sixty-two percent believe the Sandinista regime poses a threat to Nicaragua's neighbors and the United States, while 38 percent disagree.

A majority—68.9 percent—also believe the United States should provide humanitarian aid to the political opposition, or Contras, in Nicaragua, but only 36.7 percent feel that military aid should be provided to sustain the Contras' guerrilla operations.

Three questions concerning strategic nuclear weapons show a continuing desire on the part of my constituents to limit the arms race.

A majority—76.5 percent—do not favor spending $1.5 billion for 21 additional MX missiles, 56.5 percent said they do not favor spending $3.7 billion for research on the strategic defense initiative—star wars—proposal, and 79.6 percent said they would support an agreement to ban all nuclear weapons testing by the United States and the Soviet Union.

Despite the size of the Federal budget deficit, a majority, or 54.4 percent, said they want lower personal income taxes, but 57.0 percent urge increased taxes on corporations.

On Federal spending priorities, nearly two-thirds—65.3 percent—desire less spending for defense. A plurality of the respondents—44.6 percent—want continued cutbacks in domestic spending programs. On specific budget-cutting proposals involving mass transit subsidies, Social Security benefits and Federal revenue sharing, however, most constituents opposed deep cuts.

As usual, I will share the results of my annual questionnaire with the White House.

QUESTIONNAIRE RESULTS—1985

	Percent
1. With the Federal deficit at $180 billion, how would you act on the following?	
A. Domestic spending:	
More	19.6
Less	44.6
Same	35.8
B. Defense spending:	
More	9.1
Less	65.3
Same	25.6
C. Income taxes:	
More	10.5
Less	54.4
Same	35.1
D. Corporate taxes:

LINGERING APARTHEID

HON. CHARLES B. RANGEL

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Thursday, October 10, 1985

Mr. RANGEL. Mr. Speaker, I rise to indicate to my colleagues that apartheid is alive and well in South Africa.

We hear from the Reagan adminstration and surrogates such as Jerry Falwell that President P.W. Botha has begun to dismantle the trappings of separate development. We hear that Botha has embarked on the path of moderation and understanding, and is bringing South Africa closer to participatory democracy. If one is to believe President Reagan, South Africa is entering an era not unlike the post-Brown versus Board of Education era in the United States.

Unfortunately, the reality in South Africa belies Reagan's assertions. Mass arrests, warrantless searches and seizures, army sweeps, censorship, and police brutality are everyday occurrences. The pass laws, separate facilities, and separate neighborhoods are still enforced under penalty of law. Laws such as those which ban interracial marriage have been abolished, but one must remember that this simply means that it is no longer a requirement to avoid intermarriage. Whites can still discriminate against nonwhites with impunity.

Apartheid lingers under P.W. Botha. The laws requiring separate development may be modified, but there is still no protection from prejudice against the majority population. We should be careful so that we are not confused about the realities of everyday life in that country.

I would like to submit the following article for inclusion in the CONGRESSIONAL RECORD:

[From the New York Times, Oct. 2, 1985]

APARTHEID EMBALMED

It is time to acknowledge a widespread misjudgment of South Africa's President, P.W. Botha. All year, with the storms of protest raging around him, he's been elaborating a blueprint for "reforming" the racist structure of apartheid. From afar he often seemed to be improvising, now soothing his nation's blacks, now rebuffing them, as if to stifle rebellion with ambiguity. But now that he has laid out his "manifesto for a new South Africa," only his foreign interpreters sound confused. For a man in his circumstance, he has been remarkably blunt, consistent and purposeful.

Mr. Botha is a semantic trickster. In one sentence he embraces "a united South Africa, one citizenship and a universal franchise." In the next, that becomes a South Africa of "units," with at least three categories of citizenship and a franchise that keeps voters a universe apart. With one breath, Mr. Botha describes black South Africans as a welter of distinctive tribes and "cultures." In the next, he calls them a single group that threatens to dominate the white minority.

Yet despite these obfuscations, Mr. Botha offers a program for reform that is totally coherent. It is also pathetic.

Implicitly, he acknowledges that his predecessors failed in their attempt to turn 23 million blacks into citizens of 10 barren, "independent" homelands. In the service of that scheme, millions have been uprooted or abused as aliens in their own land. Without abandoning this geographical apartheid, Mr. Botha would let the much-needed urban blacks remain in segregated townships and would invent new "group" boundaries to circumscribe their political rights and muscle.

The "homelands," four of which have been declared independent, could each become one or more "units" in Mr. Botha's reunited South Africa. So would the walled-off black townships. Blacks would then participate in political "structures" on a unit basis, managing "their own" affairs, like segregated education and housing, and having "a say at higher levels."

Even at higher levels, there could be no black chamber of Parliament alongside the new Asian and mixed-race chambers advising the white one. But a few blacks might be admitted to the still-more-advisory President's Council, to offer "inquiries and proposals."

That is the Botha reform, unaltered by any of his moods over the year. Details to come. Black leaders who accept it might be consulted, but never those guided from "abroad" by the exiled leaders of banned black-power organizations.

No less devious than the apartheid of "homelands," Mr. Botha's scheme is even more explicit in its racism. And it is even more plainly designed to let whites divide and dominate blacks, without yielding any power or privilege. All this in the same week that South Africa's white business leaders publicly urge negotiation with acknowledged black leaders "about power sharing," full citizenship "to all our peoples" and restoration of the rule of law.

Anton Rupert, a leading Afrikaner businessman, says "Apartheid is dead, but the corpse stinks and it must be buried, not embalmed." President Botha remains, sly and stubborn, the embalmer.

A LOOSE THREAD

HON. WILLIAM E. DANNEMEYER

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, October 10, 1985

Mr. DANNEMEYER. Mr. Speaker, the trade winds are blowing. And they are brewing up a storm. As we consider the Textile Trade Enforcement Act, I am moved to observe that we are giving the patient the wrong medicine for his illness. The cloth of our economy is tattered and torn; the sleeves of exports are coming apart at the seams. But what do we do? We try to sew the sleeves back on. What we are overlooking is that the cloth itself is worn and no amount of new stitching will do anything other than hold the sleeves together temporarily. Meanwhile we avoid tackling the problem of the cloth.

About 153 years ago, a Member stood before the House and told our predecessors then what we need to be told now:

"Of all the contrivances for cheating the laboring classes of mankind, none have been more effectual than that which deludes them with paper money. This is the most effectual of inventions to fertilize the rich man's field by the sweat of the poor man's brow. Tyranny, oppression, excessive taxation—these bear lightly, compared with fraudulent currencies and the robberies committed by depreciated paper."—Daniel Webster (1832)

The problem is not the lack of import quotas. If we look around us, we see a multitude of problems which should give us an indication of what is wrong. American-made products aren't being exported but less expensive foreign imports flood the markets. Domestic auto manufacturers are having one of their best years but their future is cloudy and their market share shaky. Farmers are in the preposterously ironic position of going bankrupt because they are overproductive. Banks and S&L's are folding at an alarming rate unheard of for 50 years despite record-high GNP and national income levels. In the midst of a relative upturn in the economy and the creation of millions of new jobs in the past 2 years, some of our most established and important industries are closing their doors. Hunger, poverty, illiteracy, homelessness, and deprivation continue to impel Congress to finance a myriad of Federal programs despite the fact that in the past 13 years, 1972–84, we have spent over $3 trillion on such programs, $3.089 trillion on payments for individuals, according to OMB statistics.

The love of money may very well be the root of all evil. But rootless money is most assuredly an evil. Our money, for all its quantity, utility, and universal appeal, is essentially worthless. We have demeaned our currency to the point where we are unable to print it fast enough to subsidize our failing farms, banks, and industries.

On August 15, 1971, the last tie to gold was abandoned and we embarked upon the wild and uncharted sea of floating exchange rates. In the years which followed we witnessed fluctuating but ever-increasing interest rates, unparalleled inflation, rising unemployment, and the withering of our economic backbone. The Federal Government's solution has been to print more money faster: deficit spending on a mind-boggling scale.

Monetary instability is not only responsible for a host of domestic ills, it is also wreaking havoc with the economies of other nations. The world debt crisis is looming overhead and is a thousandfold magnification of our farm credit dilemma.

Band-Aids are not the answer. They can help the healing but will not cure the disease. Import quotas will be met by retaliatory action; any immediate gain will be offset by long-term disaster. Subsidies constitute a perpetual hemorrhaging of the nation's overtaxed finances; only the agony is prolonged, not the life, as the patient bleeds to death with the donor.

If we truly seek to promote exports without embarking upon a foolish course of protectionism which will only serve to further restrain our own economy, we must turn to sound money.

If we wish to enable would-be homeowners to obtain a first mortgage, interest rates must be linked to something other than wildly fluctuating exchange rates and defi-

cit projections, and that means sound money.

If we really desire to stabilize our financial institutions, combat insolvency, resuscitate both farmers and our industrial base, sustain low inflation, stave off the impending collapse of debtor nations, exchange our economic roller coaster for sure and steady growth, and balance the Federal budget, we must first stabilize our currency. Sound money.

Monetary reform should be our No. 1 priority. What was true a century and a half ago is no less true today:

"He smote the rock of the national resources, and abundant streams of revenue gushed forth. He touched the dead corpse of Public Credit, and it sprung forth upon its feet."—Daniel Webster on Hamilton, March 10, 1831.

MARY McGRORY VISITS THE SOVIET UNION

HON. BENJAMIN A. GILMAN

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Thursday, October 10, 1985

Mr. GILMAN. Mr. Speaker, just recently journalist Mary McGrory returned from a visit to the Soviet Union which she made with several of our colleagues, including Congressman BOB MRAZEK of New York and ED MARKEY of Massachusetts. Following their return, Ms. McGrory began writing about their experiences, and in one recent Washington Post column, described the situation of a few of the Soviet Jews she met. Outlined below is that report, which I would like to share with my colleagues. While it is most important that we in Congress continue our own efforts in behalf of Soviet Jews and other harassed miniorities in the Soviet Union, it is an important that the media highlight the ongoing religious discrimination now being suffered by Soviet Jews and countless others in the Soviet Union. I commend Ms. McGrory for her courage and concern in making this trip, and in sharing her experiences with us all.

The article follows:

[From the Washington Post, Sept. 29, 1985]

REFUSENIKS WITH NOTHING TO LOSE

(By Mary McGrory)

Moscow.—Viktor N. Sushkov, deputy minister for foreign trade, an affable, middle-aged man in three-piece pinstripes, could not have been more cordial or, it seemed, less ideological in receiving his American visitors.

He pressed glasses of Pepsi-Cola and hot tea on us. He offered a focused, factual account of Soviet-U.S. trade, which is his special responsibility. He spoke regretfully of the Jackson-Vanik amendment which conditions commerce on Jewish emigration, and of the denial of most-favored-nation trading status to the Soviets.

He gave an example of how difficult it is to deal with the United States: Americans agreed to provide everything for a Soviet jeans factory except computers and control equipment; Japan and West Germany, he said, offered a complete deal.

All went swimmingly until the leader of the party, Rep. Edward J. Markey (D-Mass.) introduced another member, businessman Leonard Farber, who is on the Council for Soviet Jewry, and who asked Sushkov if more Jews would be allowed to leave if Jackson-Vanik were changed.

Sushkov's broad face went blank, and his expertise evaporated.

"I don't know," he said. He gave a demonstrably wrong figure. He said he thought only 11 Jews had been allowed to emigrate in 1985. Farber politely corrected him: 700 went, in contrast to the 50,000 who left in the peak year of 1979.

Sushkov said he might have been wrong and slid into the party line, which is that most of the Jews who wanted to leave the Soviet heaven-on-earth have already left, and that many, on hearing from disenchanted Russian emigrants in Israel, had gotten cold feet.

"They live well here," he said. "There are no obstacles, no restrictions to their leaving under the law."

That, like many other Soviet statements, is both true and not true.

The law may not prohibit emigration. The authorities who administer it, however, do. To apply for a visa to Israel is to ensure a hellish life, but life in the Soviet Union is hell for Jews, anyway.

A dark, pale young man standing outside Moscow's largest synagogue on Yom Kippur explained why.

He was asked if he wanted to go to Israel, and he said no.

He looked anxiously at the line of soldiers outside the crowded temple and said, "There are too many police, KGB here. Move to the side."

In a relatively quiet corner, he said urgently, "Of course, I want to go, but if I apply, I will lose my job. I was unemployed for six months because on my passport it says Jew. I could not go to Moscow University to study physics because I am Jewish. I had to go to a pedagogical institute, a second-class place. I finally got a job in a laboratory; it is dangerous because of radiation. The chief is Jewish, although his passport says he is Russian. I will give you my name, but you must not print it."

From the temple, we Americans went to a shabby highrise apartment building on the outskirts of Moscow. In a crowded living room, in the small space left from a grand piano in the corner, we met, by arrangement with the American embassy, a gathering of eight refuseniks.

They freely gave their names. "We have nothing to lose, we don't mind anything."

They were gentle intellectuals, purposeful, informed, resigned to their fate, but not despairing.

One of them, a large ruddy man with a thick gray hair and a full beard, introduced himself as Mark Lvovsky, who was refused 14 years ago. A one-time chemical engineer who lost his job on application for Israel, he now works as a carpenter. He and his wife, a retired medical doctor, have two sons in Philadelphia and five grandchildren whom they have never seen.

He was refused on the grounds that he knew state secrets.

"It is a joke," he said. "I worked in a television laboratory."

The hostess, Marion Ozernoy, a slim, intense, dark-eyed woman whose 7-year-old daughter flitted about with tea and cakes, is a poet.

She lost her job at the Pushkin Museum when she and her husband applied for visas six years ago. She writes poems about the suffering of the refuseniks. They are, of course, "not publishable until I die."

"Many people would like to say those things, but they are mute, like dogs, and I feel I am obliged to do it for them, to tell about the inner tears."

Her husband, Leonid, a theoretical astrophysicist, said the official reason given for the refusal was "inexpedience of the moment," even though his mother and brother were given permission to go in 1979.

When Marion Ozernoy was told the minister's explanation for the decline in emigration—that exiled Jews in Israel were disenchanted—she said softly, "Freedom is not for everyone."

"But to say we do not want to go, it's a lie, a very simple lie," she said.

They all approve the Reagan hard line.

They want the United States to keep up the heat on the Soviets.

They were asked why the Soviets are so paranoid about Jews—not wanting them but refusing to let them go.

"It is the last century," said one, referring to the anti-Semitism which flourished under the czars.

"No," said another, "it goes further back. It is Mongolian. Revenge is a Mongolian characteristic."

In spite of the harsh, hunted quality of their lives, they go on hoping, because, as Mark Lvovsky said hardily, "it is impossible to live without hope.

CONGRESSIONAL SALUTE TO LEONA AND VERN BRIGHT

HON. ROBERT T. MATSUI

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, October 10, 1985

Mr. MATSUI. Mr. Speaker, I would like to take this opportunity to pay tribute to Vern and Leona Bright for their dedication and development of the Kiwanis Family House of Sacramento.

This facility offers shelter for families of children with life-threatening diseases who need housing close to the hospital. Leona and Vern felt a compassionate need to mitigate the traumatic circumstances encountered by these unfortunate families. With tireless dedication they along with the Kiwanis Clubs of divisions 7 and 44, arranged donations of time, skill, labor, and materials valued at hundreds of thousands of dollars. Through the cooperaton of the administration and certain concerned doctors at the U.C. Davis Medical Center in Sacramento, the donations were used for the construction of the facilities to house and administer to the families in need of shelter. During the first year, the Kiwanis Family House served more than 300 families.

Mr. Speaker, on behalf of the people of Sacramento, I commend Vern and Leona Bright for their concern and dedication in the development of the Kiwanis Family House of Sacramento. I offer best wishes and thanks for their willingness to help others.

MARXIST-LENINIST ECONOMICS AND THE NICARAGUAN ECONOMY

HON. WM. S. BROOMFIELD

OF MICHIGAN

IN THE HOUSE OF REPRESENTATIVES

Thursday, October 10, 1985

Mr. BROOMFIELD. Mr. Speaker, all around the world, Marxist-Leninist economics have failed to improve the lives of millions of human beings who deserve a better life than what they are getting. Those failed economic principles are now destroying what is left of the Nicaraguan economy. The struggling private sector is being seriously affected by the Sandinistas' efforts to impose state ownership on companies in that poor country.

The Sandinistas are determined to impose their voodoo economic principles on that long suffering land even if it means the total collapse of the Nicaraguan economy. The Sandinista government itself is in direct competition with the dwindling private sector in that country. As the Nicaraguan Government undercuts more and more private enterprises there, the Nicaraguan economy will essentially become one Marxist-oriented holding company.

Under the guise of trying to stabilize the Nicaraguan economy, the Sandinistas are slowly controlling all facets of business activity there. They will soon be in total control. The private sector will be slowly, but surely, eliminated. Corruption in Nicaragua allegedly reigns supreme as people are forced to deal outside the formal economy in order to survive. In spite of their promises in the early days of the revolution, the Sandinistas will not, in fact, allow a mixed economy to exist.

With these concerns in mind, I commend the following Washington Post article on Nicaragua to my colleagues in the House:

[From the Washington Post, Oct. 5, 1985]

NICARAGUAN BUSINESSES FACE COMPETITION FROM SANDINISTAS

(By John Lantigua)

MANAGUA, NICARAGUA—Nicaraguan businessman Alfredo Motealegre marketed his own brand of pasta here and, despite government price controls, he figured to do pretty well. That is, he said, until the government itself decided to compete with him in the noodle business.

The leftist Sandinista government, which now runs about 35 percent of the Nicaraguan economy, has become the competition for many of the country's remaining private businesses. Many say they are afraid the Sandinistas are thinking in terms of monopoly: that they will raid and undercut more private companies until the Nicaraguan economy becomes one large Marxist-oriented Sandinista holding company.

Montealegre said the government set the price at which he bought his raw materials, set the wages he had to pay his workers and then passed his products to three successive government distribution agencies, each of which tacked on more to the cost of his pasta.

He said the government then took a superior brand of pasta, donated in large amounts to Nicaragua by Italian interests, and put it on the market shelves at a price that undercut him by a full 40 percent.

"I wrote them a letter," he said. "Theirs is a better pasta. I said, 'You can raise your price to the same level of mine and at least there will be some kind of competition.' They didn't answer the letter."

"There is a kind of apartheid in Nicaragua today," said another business leader. "The 'Sandinistas are the whites and businessmen are the blacks."

Under Nicaraguan law, the government controls all imports and exports. It is the only wholesaler of agricultural produce in this largely agrarian society. It attempts to control the prices of all basic food stuffs. It controls wages, not only setting minimum wages, but also dictating wage ceilings.

Businessmen complain that they cannot do everyday business, let alone expand or diversify, without dealing with the government at every turn. The Sandinistas say the measures are necessary to eliminate the chaos that once reigned in the Nicaraguan economy, while opponents insist the new system is much more chaotic.

Even Sandinista supporters agree that everyone must break one or more of the new economic laws to survive. Businessmen smuggle goods into and out of the country, including cattle that are driven across borders into Coasta Rica and Honduras where they fetch better prices. Farmers hide food from government buyers and sell it on the black market. Businessmen say some of the same government buyers themselves sell the goods illegally to supplement their low salaries.

Consumers say low-priced government food rations are not enough and they must go to the black market to fill their market baskets. Employers pay their employes added wages under the table to keep good workers. Black market money changers buy and sell U.S. dollars needed to do business outside the country.

Critics of the Sandinistas say corruption in the new economy is more prevalent, although much different in nature, than it was under dictator Anastasio Somoza, who was overthrown by the Sandinistas in an alliance with businessmen and others in 1979.

"Under Somoza corruption was a matter of vice, usually by government officials," said Orsendo Diaz, an anti-Sandinista entrepreneur. "Today, corruption is an everyday necessity for everyone."

Many business people and skilled workers have left the country. Others have left the formal economy because it doesn't pay and they wheel and deal outside the economy.

Jaime Bengoechea, owner of a pharmaceutical company and an opponent of the government, said the production manager of his laboratory recently quit saying he could make four times his legal salary just buying and selling used household appliances.

Another businessman, who asked not to be named, talked of how the government had spent $2 million to construct a plant to rebuild engines, but by the time it was finished there was no one left in the country with the skill to operate it.

"People who don't know how to run things are giving orders to people who do," said Bengoechea. "None of these Sandinista leaders has ever run a company, not even a barbershop."

When they took power, the Sandinistas confiscated all of Somoza's extensive holdings and those of his top political and military collaborators. They promised a new "mixed economy" combining government initiative and private enterprise.

But the critics say the Sandinistas continued to confiscate other private holdings as part of a plan to take over the economy. The law states that those who stay outside Nicaragua for more than six months can lose all their property, including their homes. Some businessmen's holdings were confiscated when they were accused of being enemies of the government, or "counterrevolutionaires."

"The government will control what it has to in order to develop this economy, in order to bring this country out of underdevelopment," said Sandinista Front commander Jaime Wheelock, agriculture minister and a top economic thinker in the government.

Nicaragua's poverty is undeniable. Haiti is the western hemisphere's poorest country, and Nicaragua and neighboring Honduras come next.

Nicaragua produces no machinery, vehicles or spare parts. It produces no paper products and, according to business leaders, must import 80 percent of all textiles and medicines, and most building materials.

"In this state of incapacity only the government will be able to confront the great economic projects that are necessary," said Wheelock.

While many Latin American nations depend on heavy government involvement to stoke their economies, opponents here say they believe the Sandinistas will go to extremes and follow a Cuban model of government ownership. Wheelock denies it.

"We don't follow models. We follow reality," he said in an interview. "Private enterprise, especially small and medium producers have always been Nicaragua's reality."

Owners of small and medium-sized farms interviewed recently as they applied for government loans at a bank in Leon province said production is harder now because insecticides and fertilizers are harder to find, but none said that they feared a government takeover.

"The Sandinista leadership may be Marxist, but they are learning they cannot live without the private producer," said Enrique Jose Saravia, leader of a farmers' organization affiliated with the government-organized cooperatives have proven unprofitable for the government.

"The Israelis can run cooperatives because their people have a certain level of culture and commitment to a cause. Here they don't work. A Nicaraguan, especially the peasant, is too much of an individualist," he said.

"But you can't confront the government here because they will finish you," said Saravia. "You have to infiltrate them." He said his group is getting vehicles, tires, spare parts, fertilizers and other supplies it needs, while government opponents have more trouble finding those materials.

"He is a nitwit," said Montealegre, the pasta maker and Saravia's uncle. "The Sandinistas are going to get rid of all of us someday and that fool too."

Many businessmen who oppose the government, like Montealegre, admit they are making money in Nicaragua. In fact there is a whole new class of wealthy people here, mainly peddlers who bring in needed products such as spare parts for machines, air conditioners, typewriters, clothes and cosmetics.

"If it wasn't for those people this system wouldn't function at all," said Mario Hanon, another business leader. "The fact is the Marxist policies here are creating new entrepreneurs."

Many opposition businessmen insist that those new rich produce nothing and that

their fortunes are being created by inflationary monetary policies of the Sandinistas that eventually will undermine the economy.

Some businessmen of insisting that their private sector be more outspoken in its opposition to the Sandinistas, but others are afraid this would lead to reprisals. Earlier this year, Enrique Bolanos, head of the opposition Superior Council for Private Enterprise and the most outspoken anit-Sandinista business figure in the country, saw about 90 percent of his land confiscated by the government, which said it needed it to distribute to landless peasants. Wheelock, in the interview, was more frank.

"Yes we needed land and when you make yourself conspicuous like Bolanos by taking the Reagan position . . . you put yourself at the front of the line when we need land," he said.

As the opposition busniessmen decide whether to take a more militant stand against the Sandinistas, some repeat what Sandinista Front patriach Tomas Borge has said about the matter.

"This revolution belongs to the workers and to the peasants," Borge said recently. "A person can still be here, but if he is rich he cannot have political power. If he tries to have political power, he will end up with neither the power nor his riches."

CONRAIL SALE LOSING STEAM

HON. JAMES J. FLORIO

OF NEW JERSEY

IN THE HOUSE OF REPRESENTATIVES

Thursday, October 10, 1985

Mr. FLORIO. Mr. Speaker, Congress is currently considering the proposal of the Department of Transportation to sell Conrail to Norfolk Southern Corp. As the following article from the Christian Science Monitor indicates, that proposal has raised many complicated questions, particularly regarding its competitive effects. I believe we should resolve the issue this year, but some observers note that the administration is losing interest in pushing a Conrail sale.

The article follows:

[From the Christian Science Monitor, Oct. 3, 1985]

FEDERAL PLAN TO SELL CONRAIL IS LOSING STEAM

(By Peter Osterlund)

WASHINGTON.—It was to be the federal government's one-way ticket out of the railroad business.

Instead, Transportation Secretary Elizabeth Hanford Dole's plan to sell the government's holdings in the nation's sixth-largest freight railroad seems to have reserved seats on a bureacratic merry-go-round.

Already, the federal government's proposed sale of its 85 percent share in Consolidated Rail Corporation (Conrail) to Norfolk Southern Corporation for $1.2 billion has been held up by legislative haggling, a competing deal from a group of private investors, and vocal opposition from Conrail's management and unions, several other railroads, and nearly a half-dozen states.

Now, the Justice Department has joined the fray. Last week, the chief of the department's antitrust division said that the plan may inadequately protect rail competition. The statement came a day after Norfolk Southern officials announced new concessions intended to alleviate Justice Department concerns and help the stalled proposal in Congress.

Douglas Ginsburg, the assistant attorney general for antitrust, told reporters last week that, based on newspaper accounts, the new proposal "does not appear to me to address all of the subjects about which I have concerns." Justice officials began studying the new modifications in detail earlier this week, and have refused further comment until their review is complete.

Many key figures in the current Conrail saga say the administration proposal is rapidly losing momentum. One possible result: Conrail could remain the ward of the federal government at a time when nearly everyone agrees that the government doesn't belong in the railroad business.

"The whole process is stagnating," says Rep. James J. Florio (D) of New Jersey, chairman of the House Energy and Commerce Subcommittee where legislation approving the sale has been hung up for months. "Marking time is deadly to this proposal."

For its part, the Senate Commerce Committee passed legislation to approve the sale. But committee chairman John C. Danforth (R) of Missouri will not predict when the issue will reach the Senate floor.

"The problem is that it's past the first of October and [the Senate] has a lot of things on the platter," Senator Danforth says. Still, he adds, "It seems to me that most people don't think the federal government should be in the railroad business, [so] this should be brought to the Senate floor as soon as possible."

The Norfolk Southern plan to purchase Conrail has been beset by criticism from the day in early February when Secretary Dole announced the company's selection as the buyer. Transportation Departments in Nebraska, North Dakota, Iowa, Minnesota, and Wisconsin formed a coalition to oppose Norfolk Southern's plan. Several recent studies raised questions about the competitiveness of other railroads against a combined Norfolk Southern and Conrail.

For example, an Interstate Commerce Commission study predicted that without additional agreements, Norfolk Southern/Conrail would take a lot of business away from smaller railroads. A Justice Department-commissioned study reportedly raised serious concerns about the competitive stature of smaller rail lines. But it also included a 16-page list of documents that would have to be studied before any final determination could be made.

Norfolk Southern sought to assuage concerns by offering to share access to a major section of high-speed track in the Midwest with Guilford Transportation Industries, a small, competing freight line.

The doubts about the viability of the Norfolk Southern proposal have boosted the prospects of an investment group organized by Thomas A. Saunders III, managing director of Morgan Stanley & Co. Inc. They have also offered $1.5 billion for the government's 85 percent share of Conrail with the intention of reselling it to the public over the next five years.

Backers of the Morgan Stanley proposal say that because Conrail would stand alone, there would be no threat of a giant Eastern rail monopoly. But Transportation Department officials say the high dividends Conrail would have to pay investors under the plan would leave the line in perilously weak financial condition.

"The fundamental question here is should the sale be designed in such a way to ensure Conrail's long-term stability or to make life politically easier in the short run," says Federal Railroad Administrator John H. Riley.

RECOGNITION OF NATIONAL FIRE PREVENTION WEEK

HON. SHERWOOD L. BOEHLERT

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Thursday, October 10, 1985

Mr. BOEHLERT. Mr. Speaker, the President declared this week National Fire Prevention Week. We are prone to ignore the tragic loss of life associated with fires unless a large fire occurs or a week of recognition is declared. We are much more aware of other tragedies such as airplane crashes which cause large numbers of casualties at once. The fact of the matter is that there were more than 800,000 fires in the United States last year alone which claimed 5,000 lives. Of these, residential fires accounted for 78 percent of the fires and 85 percent of the deaths. A disproportionate number of these tragic fatalities take our very young and aged from us. It is mainly the education of the public in fire prevention and protection methods that will minimize this menace to our society.

The Science, Research and Technology Subcommittee sponsored a hearing on "Prevention of Residential Fire Fatalities" on October 9, 1985. I would like to commend to you the report of that hearing and particulary, at this time, I would like to enter into the RECORD the statement of Mrs. Evelyn Payne Davis, vice president, Community Education Services, Children's Television Workshop [CTW]. The CTW's "Sesame Street" is helping to educate our most valuable asset—our children. This effort, in conjunction with the outstanding efforts of our volunteer and full-time fire department personnel, government, and private sector fire-related agencies, and research efforts such as are conducted by the National Bureau of Standards' Center for Fire Research, the National Fire Academy, and the U.S. Fire Administration deserves our applause and support.

Let's make every week a fire awareness week and make the National Fire Prevention Weeks of the future a celebration of minimal fire related casualties rather than a reminder of the magnitude of the problem.

CHILDREN'S TELEVISION WORKSHOP,
New York, NY, October 9, 1985.

Mr. Chairman and Members of the Subcommittee: Thank you for the opportunity to appear before you today. For the past five years Children's Televison Workshop has been working with fire educators, fire departments, child care agencies, parents, teachers and state and city agencies to try to reduce the appalling disproportionate number of fatalities and serious injury sustained by the most vulnerable members of our society—preschool children. This effort resulted from a request from the U.S. Fire Administration that we explore the feasibil-

ity of using the enormous appeal and credibility of Sesame Street and the television media to teach lifesaving skills to young children and their parents. A six-month study, funded by FEMA, concluded that simple messages (such as understanding fire and burns, learning about smoke detectors, and getting to know firefighters) could be taught on television without undue danger of misunderstanding by two- to five-year-olds.

The study cautioned, however, that some fire safety messages are inappropriate for television and are best taught within the context of a real-life lesson on fire so that the techniques can be reinforced through actual practice with an adult. Examples of this are: crawl low under smoke and stop, drop and roll if your clothes catch fire. Other inappropriate uses of television for preschool audiences include showing dangerous activities such as playing with matches. Even though an announcer's voice warns against the danger, children—notorious imitators—may respond only to the visual portion.

Again, at FEMA's request, special materials were developed to assist fire educators and others to bring safety messages to young children. The Sesame Street Fire Safety Resource Package was produced and contains Bert and Ernie skits, games, songs and a record that teaches how to stop, drop and roll and to put a burn in cool water—two potentially frightening messages.

This major outreach effort over the past four years has had broad impact throughout the country. A few examples:

Formation of local task forces comprised of fire service personnel, parents, child care providers, hospital burn units, merchants associations, government agencies, social service organizations, local television stations, Girl Scout groups, armed forces bases, ladies fire auxiliaries, etc. that plan and promote fire safety activities built around the Sesame Street materials;

Extensive and concentrated media attention and both local and national support. Hundreds of hours of television and radio coverage, together with thousands of news articles, have greatly helped to heighten community consciousness of the need for fire education;

In some areas, fire inspectors and state day-care licensing departments require regular practice of fire safety techniques;

Hundreds of communities regularly sponsor Sesame Street Fire Safety Festivals to reinforce their educational activities and reach additional families with the information;

Parks and recreation departments have enhanced their summer programs by using teen-age youth workers to stage the Bert and Ernie skits daily for different groups of preschoolers;

Numerous groups have incorporated the Sesame Street Fire Safety Program into their regular ongoing activities.

It is not possible to track all of the groups and areas using the Sesame Street Program. As part of its concern for the safety of young children, however, Good Morning America featured the Sesame Street approach to fire safety on August 2, 1982, and again on October 8, 1984. Those network broadcasts resulted in several thousand requests for materials and information. Sesame Street itself reaches an estimated nine million children and five million adults daily, and fire safety is now an ongoing part of the show's safety curriculum.

Successful projects tend to take on a life of their own and spawn other activities or stimulate the thinking of other groups to tackle related issues. Children's Television Workshop's work with fire safety led to a relationship with the American Red Cross of Greater New York, the Consumer Products Safety Commission and other city groups and has resulted in the newly-founded New York Safety Coalition. The Coalition has mounted a drive to inform senior citizens in high fire risk areas about the care and use of smoke detectors. The Coalition trains teenagers from the City Volunteer Corps (CVC) in the installation of smoke detectors and other fire safety issues. These teenagers then go out in teams and assist the senior citizens.

Many Americans die and suffer burn injuries in residential fires each year. A majority of the deaths occur at night while sleeping people are overcome by smoke before they can escape. Nearly one half of those victims are small children and people over age 60. Only about one-half of the residences in the United States are currently equipped with working smoke detectors. A large percentage are not in working condition or are not in use because of lack of understanding. Public awareness about the value and need for working smoke detectors would be furthered by the establishment of a National Smoke Detector Day. Currently, individual fire departments sponsor such activities, but their efforts would multiply greatly and be enhanced by a national program.

Much has been said in other contexts about the positive role that young adults can play in their communities. Part-time employment of real value could be provided to youth in communities throughout the country who would then help seniors with the understanding, use and maintenance of smoke detectors, as demonstrated by the New York Safety Coalition Smoke Detector Program.

For many years, Children's Television Workshop has trained young people to function as tutors to reinforce the educational objectives of Sesame Street with preschool children. This youth-to-youth initiative also includes fire safety education. The number of ways in which teen-age energy and creativeness could be used to increase fire safety in their neighborhoods is almost endless. Two important activities would be arson watch teams and a teen-to-teen program geared toward the increasing number of teen-age parents who have limited life experience.

Most people feel that fires happen to other people—not to them. But they do. According to the National Fire Protection Association's Fire Analysis Division, 68.5% of civilian fire injuries in 1984 occurred in residential properties—or 4,240 deaths and 19,275 injuries. This represents a small decrease in injuries from 1983. How many lives might have been saved if fire safety practices were as well known as one's own name!

Last week's New York Times ran a story about an experiment sponsored by the Missouri Department of Elementary and Secondary Education, which demonstrated the value of teaching parents how to rear their babies. The evaluation report showed that toddlers, by age 3, showed mental and linguistic growth far exceeding that of other children. We all know this about our own children. How exciting it would be, however, if a determined effort was made by all public education programs to reach children during the early years of rapid growth and development with safety information.

CTW hopes that, in time, teaching basic lifesaving fire safety skills will become as natural a part of early education as teaching language and number skills. A major goal is to introduce fire safety into the preschool curriculum everywhere.

The fire safety movement in this country was initiated as a result of the report America Burning by The National Commission on Fire Prevention and Control. In the last decade progress has been made to reduce the number of fires and fire-related deaths. There are more fires in America, however, than in any other industrialized nation. To initiate a second wave of bold new fire safety efforts, we would like to see all the issues around fire become part of the President's yearly State of the Union address. This could give it the spotlight it needs to move up in priority on the nation's agenda for positive social change.

The achievements and success of the Sesame Street Fire Safety Program has led to another joint venture with FEMA. The Children's Television Workshop has been asked to explore ways of teaching young children safety information about natural hazards—floods, hurricanes, tornadoes, earthquakes, etc. And, of course, fire is often a major consequence of a natural disaster. This investigation is proceeding with the support of the National Weather Service as well as other organizations and agencies.

With FEMA's support, the Sesame Street Fire Safety package is being updated and revised to meet the expanding needs of fire educators, and those who care for and live with preschoolers.

The Children's Television Workshop throughout its existence has worked in partnership with the public and private sectors to demonstrate and utilize the powerful resource that television represents for the education of our nation's youth. We will continue to explore ways of extending the power of Sesame Street and our other productions to increase the fire and natural hazards safety information level of our nation's families.

Thank you.

REPORT ON JIM OLIN'S EDUCATION CONFERENCE—SEPTEMBER 23, 1985

HON. JIM OLIN

OF VIRGINIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, October 10, 1985

Mr. OLIN. Mr. Speaker, I recently held an education conference in my district; 275 residents of the Sixth District of Virginia came together in the afternoon of September 23 to discuss a variety of issues in education. Attendees participated in two of seven discussion sessions, each 50 minutes in length. Later the entire group convened to hear summaries of each discussion and an address from the Governor of Virginia, Charles S. Robb.

The discussions were interesting and informative. I believe that all Members can benefit from knowing what education issues are important to sixth district residents. The issues raised are national in scope, and many are directly tied to congressional action. I learned a lot at the conference. I want to begin putting what I

learned to work by sharing it with my colleagues so they can all benefit from it.

EDUCATION CONFERENCE SUMMARY

The following recommendations were made at the Education Conference:

1. Teacher training and certification—The federal government a) should fund experimental research and incentive programs for training and retraining, b) should promote efforts to improve the status of the teaching profession, c) should promote initiatives that encourage local control of education, d) should continue to allow localities and the states to certify teachers and e) should encourage states to develop reciprocal agreements for certification.

2. Federal financial aid—(a) Higher Education: Federal financial aid to students must be continued in some form so that individuals have access to higher education. Congress needs to work out a compromise in funding levels for Pell grants so that public and private schools continue to benefit. Levels should be set at 60% of costs or a maximum of $2,100 so that both types of institutions can benefit. Congress should attempt to leverage federal money through state student incentive grant programs. (b) Chapter I programs: Chapter I continues to get more complex and bureaucratized. It prevents schools from serving students to the best of their ability. Public schools are not getting enough money to share with non-accredited schools. State school systems should not have to share money with them. Money for disadvantaged student programs are vital and cannot be restricted. We need to continue these education programs so that people can move out of poverty through education.

3. Teacher Pay—Teachers need to be recognized as valuable professionals. This will attract competent people, get them to stay in teaching and benefit the students. Salaries need to be increased by the state legislature. If salaries are going to be increased, then quality of teaching will have to be monitored more closely. Teachers don't mind being evaluated if the process is fair. They could be involved in this. Local systems must work together to set criteria for evaluations and managing teachers. Finally, the federal government must protect the ability of localities to raise money for education by retaining the federal deductibility of state and local taxes.

4. Handicapped and vocational education—The problem is money. Both the federal and state governments need to recognize that funding is desperately needed. Federal law mandates strict evaluation procedures that identify handicapped children. But then children must wait to receive services because funding is not provided. Realistically, costs run about $14,000 per student. Efforts must be made to pay as much of that as possible. Federal government needs to work hard at getting communities to accept large programs oriented toward the handicapped. Congress has authorized funding levels closer to what is needed in the Carl Perkins Vocational Act of 1984. Now Congress needs to fund the program.

5. Trends in Higher Education—(a) Enrollments are declining. Schools must adjust to lower numbers of students in the next ten years. (b) Quality will be a key factor in maintaining standards. We have made great strides in providing access to students, but holding students to graduation requirements is more and more difficult. The high-school graduates are not as well prepared. We need to retain good students and provide role models. for them. (c) Schools are becoming more technically oriented. Liberal arts programs must be retained. (d) The federal government must continue to support programs that make higher education accessible to students.

6. Non-educational school issues—Several major issues were discussed at this session. First, societal factors affecting a student's ability to learn were noted: poverty, poor nutrition, and health problems. The federal government needs to sustain efforts to eliminate these so that students are better able to learn. Pre-school programs have proven to be extremely effective in getting students interested in learning and should be continued. Head Start needs five times the amount of current funding to be able to serve those eligible. The federal government must emphasize both equality of opportunity and excellence in education programs. It must also recognize that values have always had a place in the classroom, but the government should not endorse any specific religious denomination. Finally, Sixth District residents feel that defense spending is too high. Human service programs like education cannot continue to take the brunt of federal budget cuts.

7. Magnet schools and programs for the gifted—These programs are excellent ways to improve standards of learning in American education. The federal and state governments need to work with local officials in setting goals and performing evaluations of programs. There is a need for financial and technical support from the federal government for magnet schools. In addition, the federal government has access to data and information on educational tends that can be of use to these programs. There was disagreement expressed over the issue of moving students for half-day studies. Does this disrupt the student and the school community? Does this disruption hamper learning?

Governor Charles Robb spoke about the need to continue making progress in education. He noted that Virginians "have made important beginnings in meeting the challenges of education." We recognized the need to make teachers professionals and the State has begun "to attract and retain the best and the brightest." This year, the combined SAT scores of Virginia students exceeds the national average for the first time. We have move up faster than any other state in the last four years. We are 17% above the average of the Southeastern States (those that we are usually compared to.) We must continue to work to see that students entering higher educational institutions are prepared. Colleges should not be doing remedial work. 10% of those entering Virginia colleges require remedial work right now. The state is working hard to better education. The federal government must continue to insure access to education, continue to provide special services to certain populations and provide basic research money to institutions.

CONTINENTAL AFRICA CHAMBER OF COMMERCE USA

HON. COOPER EVANS

OF IOWA

IN THE HOUSE OF REPRESENTATIVES

Thursday, October 10, 1985

Mr. EVANS of Iowa. Mr. Speaker, the continent of Africa, with an area of 12 million square miles and population of over 400 million, deserves its proper recognition and place in the world of commerce. Endowed with what are probably the greatest natural resources in the world, Africa's true potential needs to be effectively interpreted to the United States and to the rest of the world.

Africa, the second largest continent in the world and the most progressive in development, has not been known for its vast potentialities in the United States. American interest in Africa has been kept alive by America's African-descended citizens.

The Continental Africa Chamber of Commerce is of interest for several reasons. During my recent visit to Africa it came to my attention that the United States has paid relatively little attention to the potential trade opportunities offered by a number of African nations. These countries offer great possibilities for trade development and, faced with widespread famine, are very interested in developing their own agricultural programs. Africa provides eager markets not only for our grains, but also for farm equipment, fertilizers, and other agricultural inputs. In turn, it has rich deposits of oil and minerals, many of them strategic, which are difficult for us to obtain elsewhere.

The resources the United States can offer from both the public and private sectors can be very valuable to the economic development in Africa. Because of the potential long-term economic growth on that continent, and the fact that 5 percent of American jobs are directly tied to U.S. exports, U.S. markets will benefit from expanding trade with this economic frontier.

Having been a member of the Congressional Advisory Committee of the Africa Chamber of Commerce for the past year, I have found it an interesting and useful source of information and contacts for trade and countertrade endeavors with African nations.

With more than 11 percent of its population consisting of Americans of African descent, the United States is compelled to evolve a definite economic policy toward Africa. Considering the contributions that African Americans have made to the U.S. economic development, America's foreign relations with African countries should be close.

The eminent African-American businessman, Dr. Asa Spaulding, former chairman of the board of the organization, provides the most adequate summary of the Chamber's purpose and scope. He has written:

The goals and programs of the Continental Africa Chamber of Commerce have been designed to meet the broad as well as the immediate needs of Africa. While the program of the Chamber ostensibly recognizes the importance of representing and promoting African commercial and business activities in the United States and Africa, it is formulated in a manner that extends beyond commerce and business. Its programs and activities extend into the areas of economic development, human resources planning and implementation, public and social affairs. The Chamber is a non-profit organization whose membership comprises reputable organizations and individuals who share a

mutual interest in fostering United States/African relations and promoting increases trade with the United States and economic development of African countries. The membership of the Chamber shares the interests of the Organization of African Unity, and its operations are performed by regional and state chapters throughout the United States.

Mr. Speaker, let us take a look at some of the abundant resources of the African Continent.

Zambia and Zaire together have an estimated 45 percent of the world's cobalt reserves and 20 percent of the copper.

More than 60 percent of the world's gold is mined in Africa, while 50 percent of known gold reserves and over 70 percent of chromium and platinum reserves still lie unearthed in Africa.

Zaire alone claims over 80 percent of the world's industrial diamonds, while others, including South Africa, produce the balance.

An estimated 10 percent of the world's natural gas reserves and, conservatively, 10 percent of its oil are to be found in West Africa alone. Large deposits of coal, iron ore, bauxite, manganese, cobalt, chromium, and uranium are being discovered all over western and central Africa.

In the agricultural sphere, Africa is a major source of cocoa, coffee, sisal, rubber, palm oil, kernals, and bananas.

With a conservative estimate of 2 billion ounces of gold, Ghana could mine 2.7 million ounces of gold a year for the next 740 years. The gold deposits are rich, with the average grade being 7 pennyweight per ton, compared to less than 4 pennyweight per ton from South African mines. Spectacular finds, grading from 40 to 60 pennyweight, were frequently encountered. Visible gold in the ore is common in Africa.

The prime purpose of the chamber is to advance commerce between the United States and Africa by promoting trade, industrial development, transportation, communication, agricultrual development, tourism, and investment.

In pursuit of the chamber's objectives, a range of consulting, referral, and information services will be made available to members of the chamber to facilitate their business transactions. These include:

First, acting as a clearinghouse of commercial trade, investment, legal and tax information for businessmen of both continents coordinated by professional consultants and specialists.

Second, providing an up-to-date African Business Directory—similar to Standard & Poor's—and other professional directories with yellow pages listing business names, addresses, and officers, also classifying financial, legal, accounting, customs and tariff data on all African countries.

Third, providing a periodical magazine, African American Business Outlook, with current and accurate analysis of business news and trends, economic forecasts, and articles relevant to the chamber's members.

Fourth, access to a trade center in the United States for the benefit of African and United States businesses in order to encourage professional intercourse and travel and trade relationships.

Fifth, advise firms and corporations in export services.

Sixth, disseminate information relating to American-African trade, commerce, shipping, industry, transportation, and agriculture.

Seventh, provide letters of introduction to businessmen visiting Africa.

Eighth, visa assistance.

Ninth, will arrange inservice training for African business executives in United States corporations.

Tenth, providing a timely newsletter, for example, deadline tenders, changes in trade regulations, and documentation requirements, upcoming trade conferences, and exhibitions, and trade leads received from Africa and the United States.

Eleventh, access to the chamber's library for research.

Twelfth, consulting services in trade, economics, agriculture, transportation, mining, tourism, investment, communication, et certera.

The chamber is a nonproft organization under IRSA section 501(c)6. It is financed through membership fees and the sales of technical, professional, and information services.

In the United States, the organization will operate through national, regional, and State offices. The structure and bylaws are modeled on the same lines as the U.S. Chamber of Commerce and will be run by a board of directors. In the future, there will be regional offices established throughout the continent of Africa as a complement to the organization's structural setup in the United States.

The present chairman of the board is Mr. James Lewis. Mr. Ohene Darko, a native of Ghana, Africa, is founder of the chamber and its president.

In the past, the chamber received, on a free-of-charge basis, the accounting and budgetary planning services of Price Waterhouse and Arthur Anderson & Co. The chamber has received the legal and secretarial services of Seyfarth, Shaw, Fairweather & Geraldson; and the publicity and public relations counsel of Hill & Knowlton.

Currently the chamber is receiving free services from the accounting firm of Peat, Marwick, Michell & Co. and free legal services from Arent, Fox, Kintner, Plotkin & Kahn.

The organizational structure of the chamber consists of a board of directors, a corporate advisory board, an African ambassadors advisory board, congressional advisory board, and regional and State councils. The chamber has also established the Continental Africa Chamber Foundation, a chamber litigation center, and Pan African Games.

The chamber initiated and helped to introduce legislation in the State of Tennessee under Gov. L. Alexander to establish Institute for African Affairs in 1981, an independent institution which is attached to Tennessee State University. The chamber also helped the National Conference of Black Mayors to form World Conference of Majors. Mr. Darko planned for the formation of the Federation of Africa Chambers of Commerce which CACC is an affiliated member. CACC has assisted major and small corporations in doing business in Africa. The chamber has assisted African businessmen who visit the United States to meet the right American businessmen.

Continental Africa Chamber of Commerce is a nongovernmental agency of the U.N. International Economic and Social Affairs. Working closely with the U.N. Conference on Trade and Development, U.N. Industrial Development Organization, U.N. Commission of Africa, and have applied consultative status with them and other U.N. organizations.

Membership of the chamber is open to all groups, organizations, and individuals who share an interest in the objectives and goals of the chamber.

Finally, Africa's resources—oil, uranium, copper, cobalt, gold, chrome, manganese, to name a few—are crucial to the development of economies everywhere.

These items are essential to the manufacturing of the capital goods which are helping to speed the economic transformation of Africa. In the 1980's, the challenge of mutually beneficial trade becomes ever more imperative. I am confident that the U.S. businesses will have firm relationships with the expanding African economies both as buyers and sellers.

We in the State of Iowa are in the process of working with the Continental Africa Chamber of Commerce to encourage strong trade between Iowa and the Continent of Africa. I currently serve as congressional adviser with Hon. JOHN CONYERS, JR., chairman, Congressional Advisory Council.

Congressional Advisory Board members are: Hon. WILLIAM L. CLAY, Hon. CARDISS COLLINS, Hon. RONALD V. DELLUMS, Hon. JULIAN C. DIXON, Hon. MERVYN DYMALLY, Hon. COOPER EVANS, Hon. WALTER E. FAUNTROY, Hon. HAROLD FORD, Hon. WILLIAM GRAY III, Hon. Katie Hall (former Congresswoman), Hon. AUGUSTUS F. HAWKINS, Hon. CHARLES HAYES, Hon. MICKEY LELAND, Hon. PARREN J. MITCHELL, Hon. MAJOR R. OWENS, Hon. TOM RIDGE, Senator PAUL SIMON, Hon. ROBERT F. SMITH, Hon. LOUIS STOKES, and Hon. EDOLPHUS TOWNS.

I urge my colleagues to join me in promoting stronger trade relationships between their States and Africa through the Continental Africa Chamber of Commerce.

I also urge my colleagues to congratulate Dr. Asa T. Spaulding, former chairman of the organization, Mr. James Lewis, present chairman, for their strong and dedicated leadership of the chamber, and Mr. Ohene Darko, president and founder of the Continental Africa Chamber of Commerce, for his courage and tireless efforts in the mutual interests of his continent and the United States.

HARPER'S ARTICLE DETAILS PROBLEMS FACING INTERCOLLEGIATE ATHLETICS

HON. JAMES J. HOWARD
OF NEW JERSEY
IN THE HOUSE OF REPRESENTATIVES

Thursday, October 10, 1985

Mr. HOWARD. Mr. Speaker, I would like to bring to the of my colleagues attention an article which appeared in the September issue of Harper's magazine entitled "Sports: How Dirty A Game?"

The article is a transcript from a panel discussion held at the New School for Social Research in New York City and I believe it provides an insightful look at where we are in terms of sports in our society, with particular focus on the problems facing intercollegiate athletics.

Unfortunately, the article is too long to be reprinted in its entirety, but I have reprinted the portion of the transcript which deals with college sports. Panelists include: Howard Cosell—sports journalist; Robert Lipsyte—sports correspondent for CBS Sunday Morning; Harry Edwards—a professor of sociology at the University of California at Berkeley; Tom Sanders—former professional basketball player and currently associate director of the Center for the Study of Sport in Society at Northeastern University; Digger Phelps—head basketball coach, Notre Dame University; Billie Jean King—professional tennis player; and David J. Stern—commissioner of the National Basketball Association. George Plimpton served as the panel's moderator.

I hope my colleagues will read this article and then join me in supporting my legislation which, if adopted, will restore academic credibility for the athletes attending our colleges and universities.

The article follows:

SPORTS: HOW DIRTY A GAME?

PHELPS. Parents today encourage their kids to go after that privilege; their attitudes are truly indicative of what the world of sports has become. The Texas legislature recently passed a law requiring high schools to impose a "no pass, no play" policy; if a student fails a course, he can't play sports. This rule was designed to put at least some of the emphasis of supposedly educational institutions back on academics. How has the rule been received? About fifty parents brought lawsuits claiming that their kids have a right to play sports—whether they fail a course or not. The Texas Supreme Court disagreed, and declared the rule constitutional.

EDWARDS. As a matter of fact, blacks especially hate the no-pass, no-play rule, because they see sports as their escalator up and out of poverty—which is about the worst self-delusion there is. A while back, I talked to some of the black parents in Houston who are fighting the rule, I spent two hours explaining what the chances were of their children becoming pros—about one in a hundred, if they're good college players—and, if they were lucky enough to make it, what the chances were of their having a job ten years after they'd played their last professional game. As the rewards become greater and greater, children are putting more and more time into sports at an earlier and earlier age. The game becomes everything. But one day it's all over, and the athlete has to face the realities of life after sports.

I tried to explain all this to these black parents in Houston. Finally, one mother stood up and said: "To me, this rule sounds like another racist trick. Where were the no-pass, no-play rules when Babe Ruth was playing?"

Our society has not yet reached the point where a sportswriter can really investigate the plantation structure of American sports. Whites dominate the authority positions and blacks supply a disproportionate amount of the labor in football, basketball, track and field, and boxing. This racial division will inevitably exacerbate the antagonism between labor and management that already exists in the sports world. Increasingly, black athletes are complaining that the outcry over drug abuse in sports is really racially motivated; the hierarchy is white, and the players being publicly reprimanded are disproportionately black. And the complaints about players salaries are also seen by many blacks as racially motivated; after all, the loudest complaints focus on sports in which blacks are making extraordinary amounts of money.

The plantation structure also hinders efforts to clean up high school and college athletics. Black leaders, even black college presidents, have condemned the NCAA's Proposition 48—which mandates minimum academic standards for freshman athletes in college—as a racist attempt to undermine the advancement of blacks in collegiate sports, when in fact blacks stand to benefit the most from it. Because blacks are involved in sports in such disproportionately large numbers, people are reluctant to take the steps necessary to clean up the situation.

KING. Maybe the best thing we can do to clean up sports in this country is to reduce the hypocrisy that underlies the whole system, not just the racial divisions you're talking about. Think of our romance with so-called amateur sports. Look at the Olympics, for God's sake—the biggest, grandest spectacle of hypocrisy imaginable. None of those kids are amateurs! They all live on "athletic scholarships," a misnomer if there ever was one. Colleges want top athletes because they help build winning teams. And winning teams fill the stadiums, make the television deals more lucrative, and put the alumni in a generous mood. But do we tell parents or children the truth? No, we tell our young athletes, "You must win a gold medal at any cost. You must set records and make the pros at any cost. Meanwhile, of course, you have to attend classes and get an education—which, after all, is why you're in college in the first place."

That's a lot of baloney. Colleges want these kids because they're highly skilled in a particular sport, pure and simple. Why keep lying about it? What's wrong with it? Athletic scholarships should be called contracts: you have a contract with this college to play this sport, period.

PLIMPTON. Do you really want that?

KING. Look, these kids are playing football in front of 80,000 people, and millions more are watching on TV. Tickets are sold—and products are sold—because of the entertainment these kids provide. They should get a percentage of the gate. They're out there killing themselves every Saturday, with no guarantee of making it to the pros, while the coaches are making $200,000 a year.

If I were attending college on a tennis scholarship and I played in a Virginia Slims tournament, I wouldn't be allowed to take any money. In what other field of endeavor does such a bizarre stricture exist? If I were in law school, I'd be encouraged to work for a law firm during the summer, and I'd get paid for it.

The NCAA is supposedly concerned that these kids not be corrupted, that they receive an education. Maybe colleges should concentrate on teaching them something useful—for example, that less than one percent of them will make it to the pros. They should tell them: Look, this is a real high-risk situation you're getting yourself into by signing this contract to play college sport. You want to take that risk? Fine, here's the ups and downs of it.

PHELPS. But what about the 99 percent who sign the contract and then don't make it to the pros? My real concern is with the kid who *doesn't* make it. After all those years of being told he's a star, he's the greatest, he'll be taken care of, that kid has used up his college eligibility and is suddenly out on the street without a pro contract or a degree.

KING. But if the kid had made some money during the four years he was in college, at least he'd have something to show for all that work.

PHELPS. I disagree. It's true that in some sense athletes become professionals as soon as they accept free room, board, and tuition. But it's also true that there are degrees of professionalism. The real tragedy in college sports is that most of these young athletes are intellcttually incapable of understanding what's happening to them. Look at the basketball scandal at Tulane last spring. Hot Rod Williams, the team's star player, accepts $10,000 in cash to enroll at Tulane. He then allegedly becomes involved with gamblers who pay him to help fix games. Finally, he's arrested. And when he's booked—and this is to me that most shocking part of the story—this senior at Tulane University can't even read his rights.

COSELL. Tulane is by almost every yardstick one of the more selective universities in this country. Its record for Rhodes scholarships has been surpassed in the last two years ony by Yale, Harvard, and Stanford. How under Dr. Eamon Kelly, a former officer of the Ford Foundation, how could John Williams have been admitted to that university?

EDWARDS. Because the athletic departments of our major universities have become separate empires. They are completely autonomous; college presidents are so cowed by boards of trustees and alumni that have abdicated their supervisory responsibilities. Of course, you always hear that the profits from athletics will be used to build chemistry buildings and to endow chairs in the English department. At most campuses this is utter nonsense. That money goes to pay for stadiums and so forth. The athletic tail has truly begun to wag the educational dog.

We have to recognize that these are educational institutions, not athletic institutions. Until we begin to fire coaches for unethical behavior just as we would fire a professor for unethical behavior, until we hold coaches and athletic departments accountable for academic integrity, nothing will change. At the University of California at Berkely, seventy-two athletes were admitted under the "Chancellor Special Admit" policy between 1971 and 1981—the chancellor simply signs a paper admitting athletes

who don't qualify under normal requirements. Two have graduated to date. There are no records available on the others.

KING. If I were a college athlete, you know what I'd want to learn? About agents and contracts.

PHELPS. These kids can't even read a contract. What good is knowing about agents and contracts if you don't make the pros?

KING. That's precisely why college athletes should get paid.

PHELPS. What should we do, Billie Jean? Sell these high school kids to the highest bidder?

KING. But we already do that. That's the way it is. Why not be realistic about it? Or at least start to clean it up.

PHELPS. That's what we're trying to do. This past May, for example, the NCAA penalized an athlete from the University of Georgia—in the past, the athletic department or the school was penalized.

KING. Look. Let's be honest. What do we want these kids to be? Academics, or athletes?

PHELPS. I want them to be both—student athletes. And Notre Dame produces them. Seven former players of mine are now in the NBA—and all of them have their degree. What's wrong with that?

EDWARDS. The discussion of whether athletes should be paid a reasonable proportion of the money they make for their schools bypasses the central problem in college sports, which has to do with education. What Billie Jean proposes would in effect take all the labor-management problems now plaguing professional sports and pile them on top of the educational problems, the corruption, and the recruiting scandals that now afflict the colleges. We'll stop debating whether a college athlete should be literate and start arguing about how much money a star college running back should earn compared to the guy blocking for him; whether the quarterback should be paid more than the coach; whether colleges should try to outbid one another or whether they should set up a high school draft. And what about when colleges and universities start to go broke trying to maintain their athletic programs?

We're talking here about seventeen-, eighteen-, nineteen-year-old kids. Christ, the average black athlete coming to college on a scholarship has never even had a checking account! We will compound all the problems of college sports if we make these kids professionals. If we don't come to grips with what we are doing to kids in collegiate and high school programs, the situation will only get worse. Throwing more money at these kids is not going to solve the problem.

KING. We're already throwing money at them. Coaches are working out deals with these kids every day. All of a sudden their parents have a new car in their driveway. All of a sudden everyone in the family's wearing fancy clothes.

EDWARDS. For better or worse, colleges and universities have become farm clubs for professional basketball and football teams and the principal training ground for our Olympic teams. These kids do not come to college looking for an education; most of them lack the basic preparation that would allow them to benefit from one. What can Digger Phelps do with a kid who, while he may be the greatest basketball player in the world, can't read, can't write, can't add or subtract, can't figure out his change at the grocery store? What do you do with this one-dimensional human being on a college campus?

PHELPS. First of all, we have to shift the focus to academic credibility. Colleges should admit only those athletes who have maintained a C average in eleven college-prep units. Once a college accepts that youngster, it should be responsible for him.

People are starting to realize the importance of academic standards, particularly on the high school level. We mentioned the no-pass, no-play rule in Texas. A better approach is that taken by the Los Angeles school system: two years ago it passed a rule requiring high school athletes to maintain a C average with no failing grades in order to compete. Well, about 6,000 kids immediately became ineligible to take part in extracurricular activities—including sports—in Los Angeles, and everyone was up in arms. But lo and behold, a year later over half of those kids had improved their grades enough to be eligible to play.

These rules can work—but parents and educators must have the nerve to demand them. On the college level, a rule requiring that the holder of a scholarship graduate before it can be used for another athlete would put a lot of pressure on the admissions office, which in turn would put pressure on the athletic department to award scholarships only to qualified youngsters. And this would put pressure on the high schools and the junior high schools.

Finally, the NCAA should suspend or revoke the eligibility of athletes involved in recruiting violations or on-campus corruption. College athletes are old enough to know what's right and what's wrong. They shouldn't be allowed to compete after committing a violation. As it is now, the NCAA doesn't even slap their wrists. Look at the University of Florida. The NCAA put the school on probation for two years, which meant the football team was barred from appearing on national television or going to a bowl game. Last season the team was ranked third in the nation in one of the two major polls. Those athletes played in eleven football games; the team's ranking guarantees them national exposure. They all have agents and a chance at pro contracts. Are they being penalized?

EDWARDS. Look, we're talking about minors. The most powerful universities in this country have gone out and recruited these kids, who are usually the first in their families to attend college.

PHELPS. Harry, it's inevitable that some youngsters will get burned while we try to clean up the system. But we've got to start someplace.

EDWARDS. Start with those who are culpable, not with kids who don't even know what their rights are. Hell, half the coaches can't understand the NCAA rule book. How is a freshman who can neither read nor write supposed to understand what the rules are? Particularly when the coach tells him, "Hey, don't worry about it." And when he knows his grades were changed so he could get into the school in the first place. The kid is the most victimized element in the whole system, and he's only one producing a damn thing. Now you want to penalize him because the coach and the college president and the professors and everyone else involved are trying to pay their mortgages through the exploitation of his athletic talents.

COSELL. The obvious conclusion is that big-time college sports should be abolished. But David and his colleagues wouldn't like that at all. All David's worried about is the NBA. He wants those college superstars, those highly trained properties, to keep on coming. But I suspect Western civilization would survive the demise of the NBA.

STERN. I'm not concerned about the NBA. It will survive. We might have to scout a little bit harder, and look beyond the schools that get paid three quarters of a million dollars for making it to the final four of the NCAA tournament.

As a matter of fact, I'm a little jealous of the college programs. We're basically in the same business, but the colleges make more money at it than we do. And, as Bob Lipsyte said, college sports does more than just pay for the stadiums. Success in sports tends to put alumni—and state legislators—in a giving mood.

PHELPS. What about the almost 800 colleges and universities that manage to surivive without being ranked in the top twenty?

EDWARDS. No one expects them to compete at that level. When a school puts a lot of money into its athletic program, the administration and the alumni expect it to compete. The president of the University of Oklahoma proclaimed last year. "We're going to develop an institution that the Oklahoma Sooners football team can be proud of."

PHELPS. As long as we have that mentality, we're going to have the same problems. College presidents get fired today because they've turned in their schools for recruiting violations. That's what happened at SMU. Those heavyweights on the board of trustees who feel their school must be number one at any cost said, "Get rid of that president." But why do they have to be number one at any cost?

STERN. Because of the rewards, obviously.

PHELPS. Big deal. At Notre Dame we grossed $6 million this year in sports. It costs $130 million a year to run the place. And I don't want to hear that Notre Dame's unique. We're only one of several hundred schools that continue to survive as institutions of higher learning. Our football program has not been that successful during the last four years, but there are still people willing to give millions for a faculty office building.

EDWARDS. The same is not true at Santa Fe State.

PHELPS. It should be. We have to begin with a clear idea of what's right and what's wrong. I disagree that youngsters should not be penalized when they violate the rules. They are told when they're recruited that all they will get is room, board, and tuition; they know when they're receiving money and benefits they shouldn't be. I believe coaches should be dealt with more severely as well. They should at least be suspended, if not fired outright.

STERNS. Consider the coach who's brought in to a school like Santa Fe State. He's given a six-figure salary, a rent-free home, a local television show, and told to turn the program around. His job depends on making the team a winner—fast. If the team makes the final four, the school gets a million bucks to build a new field house. And for ten grand he can recruit a player who will take him there. Tough choice, isn't it?

EDWARDS. And the NCAA's pitiful enforcement procedures almost guarantee that he will get away with it. The NCAA is one of the most corrupt organizations in America. It has eleven full-time enforcement agents to police almost 800 institutions. Under the circumstances, the chance of them actually catching anyone violating a rule is virtually nil.

Since enforcement is so lax, and since a coach looks at kids every day whom he could recruit for a lousy ten grand and who

might mean as much as $3 million a year to his school, that coach would have to be irrational not to cheat. It is the whole system that must be disciplined and reformed, not the kids victimized by it.

To clean up athletics we first have to develop a movement involving athletes, high schools, colleges, the media, sports personalities, sociologists, and so on—something like a civil rights movement that would transcend sports itself, that would extend from the family up through professional sports.

SANDERS. The Center for the study of Sport at Northeastern University has a program that sends pro athletes to talk to high school kids about the importance of education. The pros also go to school banquets and PTA meetings to impress on parents the need to emphasize a balance between education and athletics. Meanwhile, the center encourages the media to recognize the academic as well as the athletic accomplishments of youngsters. And it recently set up a consortium of universities that will duplicate these programs across the nation. We believe that encouraging all schools to confront these problems is the first step in solving them.

PHELPS. This nation did a great job of alerting people, particularly young people, to the dangers of smoking cigarettes. That is the sort of educational effort needed in sports. Everyone must get involved, not only proathletes: coaches, principals, city chancellors of schools, state legislators, state superintendents of schools, the secretary of education. Above all, we need to encourage individual responsibility. When I recruit a high school All-American, I tell him: "The only thing I want you to thank me for is your degree. You're going to get an opportunity here to try to make it to the pros. But if you don't make it, you'll have a degree that means something."

I let my kids know that there are guys in the NBA who have their degrees, guys who are going back to summer school to get degrees. But the kind of effort I'm talking about has to begin *before* college. We have to use our imagination. Every July, New York hosts the Big Apple Games, a five-week program funded by Mobil Oil in which junior high and high school kids are organized to play in basketball leagues at night. Now, a lot of high school teachers are looking for summer jobs. How about hiring them to work every afternoon, teaching those kids an hour of reading and writing, an hour of math, an hour of computer science? The educational program would be closely linked to the athletic program: if a kid doesn't show up for class, he doesn't play that night. At the end of the summer, you reward them by having Jabbar or Dr. J visit the school for an afternoon.

Television also have a part to play. Howard's *Sportsbeat* piece on the Tulane scandal should be shown to every young athlete. But in the end, the system has to impose some discipline on itself. My athletes know they need a 2.0 average to play basketball at Notre Dame. They know that academic requirements are not a game. And our guys *known* they're not supposed to take $10,000 under the table. And they don't take it, either—even though plenty of them have the opportunity.

KING. That sort of education really has to begin before school. Athletes giving speeches are no substitute for parents imposing discipline. Mine were very strict. My dad once threatened to saw my racket in half because I had been a bad sport. When I got less than a 3.0 average at school one year, I knew I couldn't play tennis the next semester—and I didn't.

If professional athletes have one thing to say to young people, it is this: making it as a pro is *very* difficult—only one percent of college stars break in. It's important that the top athletes tell them that.

STERN. In my view, a strong commitment by university presidents to take control of their athletic departments is more important than Harry's cleanup campaign. They have to be made accountable. Corruption in sports is an extension of an attitude that has become pervasive in our society: winning is what's important, winning at any cost. Blood doping, steroids, payoffs—all of it can be traced to that attitude. The rewards in big-time sports are so enormous that the problem is bound to get worse. Drug use and grade-fixing are only the beginning; the Frankensteins of the future will be one-dimensional, drug-built, blood-doped athletes who know nothing but how to win at whatever game they happen to play.

CHARLES THORNTON

HON. JOHN McCAIN

OF ARIZONA

IN THE HOUSE OF REPRESENTATIVES

Thursday, October 10, 19859920

Mr. McCAIN. Mr. Speaker, today I am introducing a resolution which condemns the Soviet Union for the brutal killing of Charles Thornton, an Arizona Republic reporter who was on assignment in Afghanistan. On September 19, without warning or provocation, Soviet soldiers deployed by helicopters ambushed and opened fire on his party, killing Thornton instantly.

He was in Afghanistan to work on a series of stories about medical teams working in that country. His stories, no doubt, would have revealed many horrors—children maimed by booby-trapped toys, thousands of innocent men and women crippled or killed when their villages were bombed. Evidently, the Soviets did not want Charles Thornton's stories read. Nor do they want the world to know that such heinous acts are standard Soviet practice in Afghanistan. For over 5 years, the Soviets have occupied that country, killing tens of thousands of people; 35,000 Afghans have been taken to the Soviet Union for indoctrination. A quarter of the country's population has fled to Pakistan to escape a horror which rivals Guernica and Pnom Penh in the annals of 20th century terror.

Perhaps Charles Thornton's death will not be completely in vain. Perhaps his colleagues will not feel compelled to cover all the Soviet atrocities in Afghanistan—the "migratory genocide," the "scorched Earth policy."

Charles Thornton died trying to cover a story he thought was important. Thousands of Afghans have died fighting for what John Kennedy called the most powerful force in the world—"man's desire to be free and independent." The greatest tribute to Charles Thornton would be to tell the story he never could.

ST. CROIX: FIRST COLUMBUS LANDING ON U.S. TERRITORY

HON. RON de LUGO

OF THE VIRGIN ISLANDS

IN THE HOUSE OF REPRESENTATIVES

Thursday, October 10, 1985

Mr. DE LUGO. Mr. Speaker, as most school children in America can tell you, Christopher Columbus made his first landfall in the new world on October 12, 1492. Unfortunately, that same child may not be able to tell you where the first Columbus landing on what is now U.S. territory took place. Unless, of course, that young person is from the U.S. Virgin Islands.

During the second voyage to the New World, on November 14, 1493, Columbus landed on the Island of St. Croix. He was sailing on the ship *Mariagalante* along with 16 other vessels when the fleet anchored outside of the salt river inlet, the eastern headland of which he later named "Cabo de las Flechas," or Cape of the Arrows. He named the whole island "Santa Cruz," now known as St. Croix, after the feast day of the Holy Cross.

When the crew went ashore for exploration and supplies they encountered a village of several Carib Indians. On this site today, there are still remains of an earthen fortress that was built by the early European settlers. Representatives from the National Park Service have visited the area and are very interested in helping us preserve the site.

We in the U.S. Virgin Islands take great pride in this historic encounter. In preparation for the quincentennial celebration planned in 1992, the Christopher Columbus Jubilee Committee has been formed in St. Croix to bring appropriate national attention to this historic event. The committee has already begun to petition for a commemorative stamp and coin to mark the occasion.

I share their enthusiasm in this endeavor because I believe a greater understanding of all of the U.S. territories and their role in this Nation's history is needed. I know that any commemorative marking of the St. Croix landing would serve as an excellent educational vehicle in chronicling the role of the West Indies in the discovery of the New World. It would also serve, secondarily, to bring attention to the strategic importance the U.S Virgin Islands maintain as a Democratic role model for this Nation in the Caribbean basin.

That is why it is appropriate as we adjourn for this Columbus Day weekend, to note the first place Christopher Columbus landed that is now a very proud part of this great Nation.

SAY IT AIN'T SO, MR. JASTROW

HON. FORTNEY H. (PETE) STARK

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, October 10, 1985

Mr. STARK. Mr. Speaker, for those of our colleagues who adamantly support the Star Wars Program Robert Jastrow, the President's Science Advisor, is a hero who weilds both science and official position in their defense. Mr. Jastrow's recently published book, How to Make Nuclear Weapons Obsolete, is thus something of a bible of space weapons advocates.

I would like to insert in the RECORD a review of Mr. Jastrow's book by David Lynch, a reporter for Defense Week. As every Member of this body undoubtedly knows, Defense Week is anything but an anti-Pentagon publication. I hope my colleagues will read Mr. Lynch's review, and then rethink their perhaps too hasty acceptance of the administration's justifications for Star Wars.

[From Defense Week, Monday, July 22, 1985]

STAR WARS MADE (TOO) SIMPLE

(By David J. Lynch)

The problem with Robert Jastrow's new book is that it makes marvelously entertaining reading—unless you know anything about his subject, the strategic defense initiative. A reader acquainted only in passing with "Star Wars" will blush at how brazenly Jastrow glosses over the numberless complexities associated with the idea in How To Make Nuclear Weapons Obsolete.

Can the United States erect an effective anti-missile shield? Jastrow emphatically says yes. One could be in place today if we had started five years ago, he writes. Is it cheaper for us to build defenses than for the Soviets to overwhelm them? Yes again, says Jastrow. Would SDI spawn an uncontrollable offensive arms race? To the contrary, says Jastrow, it would lead to lower numbers of nuclear weapons—perhaps, he suggests, a nuclear-free world.

The folks in the Pentagon's Strategic Defense Initiative Organization who are busy spending billions trying to find the answers to exactly these questions will be happy to hear that they can stop working so hard.

But for opponents and supporters alike, the picture of the strategic defense initiative is not as clear as Jastrow would like people to believe. There is a need for a book on Star Wars that recognizes this fact and one other: that the debate over the wisdom of SDI turns not so much on whether it can be made to work as on whether making it work is such a hot idea.

Jastrow, however, spends his time in this thin volume worrying about unprovoked Soviet nuclear ambushes and the woefully inadequate state of the U.S. deterrent that has kept the peace for the last 40 years. Sadly, like so many others of the neo-conservative school of strategic thought, he is unconvincing on the imminence of the threat.

A professor of earth sciences at Dartmouth College and the founder of NASA's Institute for Space Studies, Jastrow apparently fears a Soviet first strike, describing in some detail how the massive Soviet arsenal could be employed to defeat the United States. The description is no doubt quite effective for the audience of laymen for which this book was meant. But, in the real world, no one expects—nor should the Pentagon waste much energy planning for—a Soviet "bolt from the blue."

Any nuclear attack is going to be preceded by a period, perhaps brief, perhaps somewhat extended, of heightened tension. A crisis, if you will. During that time, the U.S. president would no doubt have the brains to disperse the U.S. B-52s whose vulnerability apparently causes Jastrow so many sleepless nights and send the Tridents to sea where they would be safe. Facing that array of American nuclear might, Soviet leaders would no doubt find a nuclear strike somewhat less than attractive.

And, importantly, it is in dissuading the Soviets from launching a nuclear first strike that Jastrow thinks the SDI would be of the most use. "They are building a first strike force," he says flatly. "Such a defense, preserving the destructive power of our nuclear arsenal, will virtually foreclose the option of a first strike by Soviet leaders." Thus, Jastrow's goal is defense of the American missiles rather than the American people as originally envisioned by President Reagan. It may well be that defending missiles, such as the beleaguered MX, makes sense; but that could probably be done without spending $33 billion on preliminary research, or rubbing up against any arms control treaties.

Jastrow's argument also rests on an unfair description of the state of the U.S. nuclear arsenal. In the space of a few pages, he dismisses our bombers and land-based missiles as next to useless. "For the present, the triad has been reduced to a monad," Jastrow says. And an impotent one at that, according to Jastrow, because submarine launched missiles are so terribly inaccurate that they aren't much of a deterrent. The radioactive mess they would make of Soviet society apparently doesn't count.

In writing a book obviously intended for the average American who wonders what all this Star Wars fuss is about, Jastrow has simplified things a bit. For example, he repeats an oft-quoted line that sounds ominous until examined a little more closely: that the Soviets have "the world's only operational ballistic missile defense system." This is true; it is also legal. Under the 1972 ABM Treaty, both the Soviets and the Americans are allowed to defend their national capital and one missile field. The Soviets took advantage of that provision; the United States ultimately chose not to.

On the question of whether computational ability would hamstring development of a defense, Jastrow employs an old dodge. He acts as if computing *speed*—not complexity—is at issue. And having set up his straw man, he merrily knocks him flat.

". . . Computing speed is not expected to be a major problem for our defense," he writes. Maybe not, but Jastrow should know that writing error-free software will be.

As more and more Star Wars partisans publish books designed to win the hearts of Americans, they aren't about to let the facts stand in their way. But the real story is that the technical case has yet to be conclusively made either for or against Star Wars. Unfortunately, the partisans on either side of the debate think it has; they're now locked in the kind of attrition warfare into which every political issue in Washington eventually falls.

CUTTING DEFICITS A MUST; LET'S BE ORDERLY ABOUT IT

HON. SHERWOOD L. BOEHLERT

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Thursday, October 10, 1985

Mr. BOEHLERT. Mr. Speaker, an old Peanuts strip shows Charlie Brown loping toward the dog house during a rainstorm. He tells Snoopy and Woodstock, "I did what you asked. I called the ASPCA, but they said they don't have enough money to buy a raincoat for every dog and bird in the country." As Charlie Brown walks away, Snoopy rolls his eyes skyward and laments, "Every time someone comes up with a good idea somebody has to bring up the budget."

That cartoon captures well the dilemma Congress faces in trying to pare the budget deficit.

One needn't attribute venal motives to Congress to explain why the budget cutting effort has pretty much been a failure up to now. It's just hard to say "no" to programs that keeps us drier and more comfortable. It's also hard to get people to agree on raising the money needed to implement some of those "good ideas."

There has been some progress in the budget battle. We no longer reflexively create new programs each year or throw money at every problem. Congress did pass a budget this year that should trim the deficit by about $50 billion and seems to be sticking to it. Groups like my moderate Republican 92 group have made budget cutting a priority and have shown how budget cuts can be balanced between military and domestic spending.

But for all that, a balanced budget is still nowhere in sight, and our economy is paying a price for that invisibility. Interest on the national debt alone now costs the Nation $360 million a day.

What to do?

I think the answer is making a definite commitment today to balance the budget, and setting up a procedure to guarantee its implementation. Only if we have set targets and enforcement of them now, can we banish those visions of wet dogs and birds and their taxpaying owners that keep preventing us from slashing the deficit.

The Emergency Deficit Reduction Act of 1985, which I've cosponsored would do just that. It would commit Congress to eliminating the deficit, in preset steps, by 1991. If Congress failed to meet its deficit goal in any year, the President would have the power to make fair, across-the-board cuts—only Social Security would be exempt—to reach that year's deficit goal.

Critics have charged that this bill is arbitrary and easy to repeal. To some extent they're right. Setting deficit limits in advance, without knowing what the economy will be like, is arbitrary. But the most serious economic danger we face is the deficit, and we have to take some extraordinary steps to combat it. The risk if we don't pass this bill—that is, the risk that we'll never

get a handle on the deficit—is far more grave than the risk of setting arbitrary targets.

The bill, like any law, could, of course, be repealed. But I think after having made such a strong commitment to deficit reduction, any Congress would be wary of repealing it. Repeal is only likely in the case of a major, unexpected turn of the economy. In such a case, the ability of the bill to be repealed would be seen as an advantage. Repeal allows some flexibility.

This bill is not perfect and should not be necessary. But it is. The new Federal fiscal year just began October 1. This bill is a sort of New Year's resolution—but one with teeth. It will put us on a clear, direct path leading to the goal we all want—a balanced budget.

SAVE CURRENT FEDERAL TAX DEDUCTION FOR STATE AND LOCAL TAXES

HON. MATTHEW G. MARTINEZ

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, October 10, 1985

Mr. MARTINEZ. Mr. Speaker, I rise today in strong support of the effort of many of my colleagues to save the current Federal tax deduction for State and local taxes.

It is only fair that taxes which have already been paid to State and local governments should continue to be deducted from the Federal return. The average Californian pays almost $2,800 per year in State and local taxes. Denying this deduction would certainly increase an individual's or family's tax burden considerably. This is a tax increase, despite what the administration says.

The deduction for State and local taxes is not a new found notion designed to placate certain special interests. In fact, this deduction has been part of the Tax Code since 1913 when the first Federal income tax was enacted.

One of the main reasons that the deduction is part of the Tax Code is to prevent the Government from levying a tax on a tax. Interestingly enough, the President himself said on April 9, 1983, that elimination of this deduction would mean, "You'd pay a tax on a tax." Now, of course, the administration seeks to eliminate this deduction. They like to point out that two-thirds of all

In 1983, more than half of the taxpayers with adjusted gross incomes of $10,000 or more itemized their deductions. This group of taxpayers accounted for 98 percent of taxes paid, and of those with adjusted gross incomes of $20,000 or more, 72 percent itemized their returns.

Clearly, the average taxpayer stands to lose the most from the elimination of this deduction.

Finally, I would be remiss if I didn't point out that eliminating this deduction would seriously impair State and local governments' abilities to collect taxes for essential services. Mr. Speaker, the average American taxpayer would be devastated by the repeal of the deduction for State and local taxes. A truly fair and equitable tax reform bill would not eliminate or change this deduction in anyway. After all isn't this what the President and everyone else is saying we want—a fair tax structure. I ask, do we mean what we say?

SEVEN-UP FLAVORED JELLO

HON. BARBARA BOXER

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, October 10, 1985

Mrs. BOXER. Mr. Speaker, I would like to call my colleagues' attention to the following article from the September 30, 1985, San Francisco Chronicle about corporate takeovers and mergers.

FOLLY OF A $5.6 BILLION LOAN TO MIX JELLO AND SEVEN-UP

(By Donald K. White)

There goes another $5.6 billion or so that won't be loaned out for new houses, cars, new plants for small businesses. The money has been tied up at a consortium of big banks by Philip Morris for a totally unproductive use.

The cigaret company, which also owns Seven-Up, Miller Brewing and a host of smaller companies in the chemical, packaging and home-building field, doesn't want the money to expand its companies.

It has lined up the $5.6 billion from a nationwide and probably international bank group headed by New York's Citibank. Major California banks presumably are in on the juicy loan.

Philip Morris plans to use the money to buy out the 28,000 individual shareholders of General Foods for $120 a share.

For them and the approximately 700 mutual funds, pension funds and other institutional investors who also hold General Food stock, the proposed buyout is like found money.

Within the last year the diversified food company's stock has sold for as low as $53 a share. Last week alone it jumped $25 a share as rumors that General Foods was the object of another company's lust ran rampant.

General Food's individual share holders can now tell themselves how smart they were in hanging on to a stock that obviously was going nowhere until Philip Morris came riding to their rescue.

And what a bonanza for the money managers who ride herd on institutional funds!

In a year in which the stock market has been a miserable place for most institutions, the General Foods buyout will give them some thing to brag about.

Over the years the company's stock has been about as exciting as one of its major products, Jello.

It was the kind of stock you bought because it was safe, sane and by no means unpleasant, particularly at dividend time. But you didn't buy GF for thrills.

Why Philip Morris decided to put itself deeper in hock to the banks is a question that its share-holders may well ask that company's management if they get a chance.

Six-point-five billion dollars is not play money and why it is being spent to buy out a company that depends on sales of coffee and packaged cold cuts for close to 50 percent of its revenues is one good question.

As Emanuel Goldman, who follows Philip Morris for Montgomery Securities, said: It would make more sense for the company to spend the money on a restaurant chain since more and more people are eating out these days.

Another analyst, David Goldman of Dean Witter Reynolds, was so put off by the planned takeover that he recommended late last week that his firm's clients should consider selling Philip Morris. That was a switch from his "buy" recommendation.

"Any management that would think of buying General Foods at these levels is basically not a safe depository for your funds," Goldman said.

But a broader question has to do with the propriety of Citibank and friends lending that much money for what is basically an ego trip on the part of Philip Morris management.

There is no question that the loan will be repaid. Philip Morris is good for it.

But the money could better be loaned for endeavors that would help economic growth by providing new plants, new jobs. Not one that can only result in consumers being offered a new product—Seven Up-flavored Jello.

TEST DELAYS HAMPER D.C. DRUG PROSECUTIONS

HON. CHARLI B. RANGEL

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Thursday, October 10, 1985

Mr. RANGEL. Mr. Speaker, as chairman of the Select Committee on Narcotics, I have today introduced legislation to address a serious problem impeding the enforcement of drug laws in the District of Columbia. I am pleased to be joined by WALTER FAUNTROY, the Delegate from the District who serves on the select committee, and by BENJAMIN GILMAN, the ranking minority member on the select committee. Our bill authorizes additional funds for the Drug Enforcement Administration in fiscal year 1986 to enable DEA's Mid-Atlantic Laboratory to meet the needs of the District of Columbia Metropolitan Police Department for analysis of suspected controlled substances.

The Washington Post of Monday, October 7, 1985, reported on page 1 that over 100 misdemeanor drug cases, and possibly as many as several hundred, have been dismissed in the District of Columbia in the past 6 months because chemical analysis reports of suspected drug samples had not been completed in time by the Drug Enforcement Administration. In some cases, charges have been dropped against defendants who have pleaded guilty because the necessary analyses were not ready. In drug cases, the chemical analysis report is the key evidence as to whether a substance is an illegal drug.

Police and prosecutors told the Post that these dismissals, averaging a dozen or more each week, are "putting a serious crimp in their battle against crime." Although no

felony drug charges have been dismissed yet, Federal prosecutors reported experiencing some delays in receiving the required reports from DEA in these cases, too.

According to the Washington Post story, DEA officials admit that the Mid-Atlantic Laboratory in Washington, DC, has a backlog of about 1,200 samples and continues to fall further behind. They attribute the growing delays to the "failure of Federal funding to keep pace with the skyrocketing number of drug cases" being brought in the District. The Post story notes that the 9,400 cases brought in 1984 are more than double the number 5 years ago, and the number for 1985 is expected to exceed the 1984 level. Notwithstanding this phenomenal growth in caseload, funding for DEA's lab to handle this increased work has remained about constant.

Defense attorneys are starting to use the reporting delays to their clients' advantage. Prosecutors told the Post that some lawyers for drug suspects charged with misdemeanor offenses are beginning to ask for quick trials in hopes that the cases will be dismissed due to the lack of drug reports.

The legislation we have proposed today will authorize the funds needed to assure that DEA's Mid-Atlantic Laboratory will be able to analyze suspected drug samples from the Metropolitan Police Department on a timely basis. Based on information provided by DEA, the bill provides funding for eight additional chemists—including one supervisory chemist—two clerical personnel and one scientific intelligence technician. The total salary costs for these positions is approximately $350,000. The bill also provides operating funds estimated at $27,500 and one-time laboratory equipment costs of about $535,000. Our bill authorizes not to exceed $925,000 for the DEA Mid-Atlantic Laboratory, slightly more than the estimated total required to adequately staff the laboratory to meet the District's needs.

The dismissal of drug cases in the District because of lab reporting delays must be stopped. The failure to provide key evidence when needed undermines the operation of the entire criminal justice system in the District and is allowing the guilty to walk free. The current situation breeds contempt for the law, and it destroys the faith of law-abiding citizens in the ability of our legal system to protect them.

We have heard much about the administration's all-out war against drugs in our Nation. It is time we allocated the resources to prosecute drug criminals in the Nation's capital.

The text of the Washington Post article of October 7 entitled, "Test Delays Hamper D.C. Drug Cases," follows, for the information of the Members.

[From the Washington Post, Oct. 7, 1985]

TEST DELAYS HAMPER D.C. DRUG CASES

(By Elsa Walsh)

More than 100 misdemeanor drug cases, including some in which the defendants have pleaded guilty, have been dismissed in the District in the past six months because of lengthy delays in obtaining drug analysis results, and police and prosecutors say the dismissals are putting a serious crimp in their battle against crime.

A high-ranking assistant U.S. attorney and several prosecutors who handle drug cases estimated that an average of a dozen, and often many more, misdemeanor cases have been dismissed each week for the past several months because chemical analysis reports had not been received from the federal Drug Enforcement Administration.

Last Wednesday, for example, three of five misdemeanor drug cases scheduled in a single courtroom were dismissed by D.C. Superior Court Judge Noel A. Kramer because the necessary analyses were not ready.

In addition, prosecutors expected a fourth case to be dismissed because of a missing lab report, but the defendant did not show up and the trial was postponed. The reporters would represent the key trial evidence as to whether a substance was an illegal drug.

"Cases are getting dropped so often. I don't take it personally anymore," said a prosecutor, eating through a sheaf of cases that had been dismissed in the past couple of weeks, including one in which a defendant had pleaded guilty contingent on the drug testing results. "Looking on the bright side, it can't get any worse; it can only get better."

Prosecutors stressed that drug cases involving more serious felony charges have not been dismissed, although they have experienced some delays with the DEA.

DEA officials conceded that their mid-Atlantic laboratory has a backlog of about 1,200 drug samples. They blamed the growing problem on the failure of federal funding levels to keep pace with the skyrocketing number of drug cases being brought here since former president Nixon ordered federal agencies to perform drug analyses for the District police agencies.

"We are trying the best we can; but we keep falling further behind," said Marc Cunningham, DEA's chief laboratory chemist." . . . What we're doing is crime management. That's not proper and adequate support of the criminal justice system, and that's what we're here for."

Prosecutors said that felony cases, which involve sale or distribution of drugs other than marijuana, have not been dismissed largely because the period between arrest and trial is longer.

But more important, they said, misdemeanor charges, which are becoming more difficult to prosecute because of the DEA backlong, often belie a defendant's criminal behavior.

They cited a heroin possession case against a suspected major dealer, believed to employ as many as a dozen persons, that was dismissed this summer because there was no DEA report.

"It was the first time in a long time that the police had found a major dealer with drugs on him," said the prosecutor involved in the case. "Although it was only a misdemeanor, the police looked on the charge as a way to get this guy off the street for a while."

The cases are usually "dismissed without prejudice," which allows prosecutors to charge the defendant again if a report ultimately confirms that the substance was an illict drug. But prosecutors said few charges are lodged a second time. The government's cost of trying a misdemeanor drug case—which usually carries a maximum one-year jail term—is more than $1,000, they said.

Officials said they have not decided whether to charge the suspected dealer again.

Prosecutors said they are experiencing a "tidal wave" of drug cases this year, and expect the number to exceed the more than 9,400 cases in 1984. The number of cases last year was more than double the drug cases here five years earlier. But funding levels for state and local work at the DEA's chemistry lab has remained about constant for the past several years, said Richard S. Frank, chief of the DEA's forensic science laboratory.

U.S. Attorney Joseph E. diGenova said during the weekend that he had not been able to determine how many drug cases have been dismissed. A high-ranking prosecutor in diGenova's office said the number could be as high as several hundred.

"But the fact is there have been delays, and DEA needs to do something about them," diGenova said.

As a result of the problem, he said, Congress is expected in the next couple of weeks to grant a justice Department request for more DEA funding. When drug crimes are up, he said, all crime increases.

DiGenova said the link between drug use and crime is underscored by the fact that nearly 70 percent of the persons arrested for crimes this year in the District have shown traces of drugs in their urine at the time of their arrest.

"All your major crimes are being committed by people directly or indirectly involved with drugs," said a D.C. police narcotics oficer." . . . When you have a chance to pull these people off the street you have a chance to reduce burgiaries, armed robberies."

Cunningham of the DEA said his lab receives about 1,000 requests a month, including about 600 from the District and varying numbers of requests each month for federal drug cases in Maryland, Virginia and West Virginia.

Testing for drugs, Cunningham explained, is a complex, time-consuming process, with each analysis requiring about 3½ hours of "hands-on work" by a chemist. He said the laboratory's 26 chemists spend about half the day completing analysis and are able to perform only about 35 cases during that time.

About a year ago, prosecutors said, drug results were usually returned in about 16 working days, but that turnaround time has stretched to several weeks; and to months in many cases.

Judges initially tolerated delays but. "We are now getting wiped out every day on those cases," said a prosecutor who leads a misdemeanor drug case prosecution team.

Judge Fred B. Ugast, who heads the criminal division at D.C. Superior Court, said the continuous delays in trials have caused "calendars that are already quite heavy to become even heavier."

Although the majority of these problems arise in misdemeanor cases, serious delays in felony cases have occurred. This past summer, D.C. Superior Court judge Virginia L. Riley issued a bench warrant for the arrest of an unidentified DEA chemist. Her action followed repeated requests by the government to continue sentencing because no drug report was available nearly four months after a defendant pleaded guilty to possession of a narcotic with intent to distribute a felony charge that carried a mandatory prison sentence.

"It gives me the greatest concern . . . ," Riley said in August when Cunningham appeared at a hearing in response to the issuance of the bench warrant. At that point,

the report had been received and the defendant sentenced.

"It's very wasteful of court time and also of attorney time," the judge said. "The overall effect is terribly costly."

In another case, a defendant pleaded guilty in May to possession of PCP, but after repeated court appearances and nine requests for the drug report the case was dismissed in August. Several days later, the drug analysis was returned. The results were positive.

Prosecutors made the atypical decision to charge the defendant again after the prosecutor involved complained to supervisors. "I rarely urge that we rebring a case," said this prosecutor, "but this seemed so ludicrous."

According to prosecutors, some defense lawyers are beginning to ask for quick trials, which can occur as soon as six weeks after arrest, for clients charged with misdemeanor drug counts. This is done in hopes that the drug report will not be ready and the charges could be dismissed, prosecutors said.

A delay in the reporting of drug tests does not always work in a defendant's favor. For instance, Moshood Alatishe was held in jail for three months without bond before it was learned that no evidence of narcotics was discovered in the powder seized during a raid at his home. In this U.S. District Court case, the test apparently was completed but the results were not sent to the U.S. attorney's office for more than a month because of a typing backlog.

As a result of the Alatishe case, the DEA has asked to be notified when a defendant is being held in jail pending the test results.

"It is simply unacceptable," said a high-ranking prosecutor. "Here we have the great Reagan war on drug abuse nationally and we have our own little problem right here in the nation's capital. We've made the arrests and the federal government is not coughing up the resources."

A TRIBUTE TO ELLIE HAWKINS

HON. TONY COELHO

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, October 10, 1985

Mr. COELHO. Mr. Speaker, as one with a so-called "disability"—epilepsy—I am always pleased to share with my colleagues stories of people who challenge their disability and win. Last month, in a remarkable display of courage and endurance, Ellie Hawkins, a dyslexic, completed a 2,000-foot climb on an uncharted route in Yosemite National Park. After climbing for 8 days, Ms. Hawkins named the new route Dyslexia after her learning disability. Despite this disorder, she has become one of the top female climbers in the world. She was the first women to solo climb Yosemite's Half Dome.

Ms. Hawkins brings attention to the problem of dyslexia, a childhood learning disorder. She hopes to encourage routine testing of children and tutorial help for those affected. She is an inspiring example of strength in the face of adversity.

Two articles in the Los Angeles Times document her accomplishment as reprinted below:

A DYSLEXIC WHO HAS BEEN TO THE MOUNTAIN

(By Ann Japenga)

YOSEMITE—Ever since she left the valley floor last Saturday at 7 a.m., Ellie Hawkins has been engaged in a mountain climber's fantasy—pioneering a major route that's never been scaled before.

As of Wednesday, the solo ascent of a 2,000-foot rock face next to El Capitan has gone well. But at some point before she's done—if past climbs are any indication—Hawkins will secure her rope to a carabiner (a metal device that clips to a bolt in the rock) and there will be an instant of distress. Where she thought she had fastened the carabiner, she will see nothing.

The rope will still be fixed to the rock. It's just that a learning disability called dyslexia will have caused Hawkins' senses to fool her.

Similar disappearing acts used to occur when the climber was in grade school. When the teacher accused her of being lazy because she skipped words in a sentence, she would go home and break furniture in her frustration. "I developed quite a temper," said Hawkins, 35, who lives with her husband in Bear Valley, which is northwest of Yosemite.

PERCEPTUAL TRICKS

But on the granite face, there is no teacher and no parent to rail against. There's nothing in the 120-pound bag of gear that Hawkins hauls behind her that she can afford to destroy in a tantrum. If she is to complete this climb, Hawkins has to figure out her own way around the perceptual tricks played by dyslexia, which can be aggravated by fatigue.

If she succeeds in overcoming the vision reversals and vanishing hardware illusions, she'll christen the new route "Dyslexia" in order to draw attention to the condition. She expects to complete the ascent as early as Saturday.

There are no real cures for dyslexia, which affects as many as one in 10 people, interfering with their ability to read and write, and in some cases to listen and speak. Each dyslexic's challenge is to develop his or her own pathways for getting things done, according to the vice president of the Orton Dyslexia Society, Marcia Henry of Los Gatos, who came to Yosemite to see Hawkins off. The Society is helping to sponor the climb.

The methods of compensation for people which dyslexia are time-consuming. Hawkins, for instance, must check each knot she ties three times. If she's tired, a simple figure-eight knot may take her 10 minutes to execute. Although she can't move as quickly as other climbers, she still has managed to become one of the top female climbers in the world, according to Bruce Brossman, director of the Yosemite Mountaineering School.

She was the first woman to solo Yosemite's Half Dome, and the first woman to climb the North American Wall, a demanding route up El Capitan. In June of this year, she was the first woman to solo Never Never Land, another El Capitan route, despite a rope burn that rendered her left hand useless for the final 2½ days of the climb.

MAJOR, MAJOR FEAT

The dyslexia climb, if successful will be a "major, major feat," Brossman said because only a handful of routes in Yosemite Valley have ever been soloed on a first ascent.

In learning to live with a rather severe case of dyslexia, Hawkins has developed a tenacity that allows her to continue where other climbers might turn back. When the start of her current climb was postponed because of rain one morning early this month, she seemed no more disappointed than if she had to reschedule a dentist appointment.

Leaving her gear at the base of the mountain so she would be ready to go when the rain stopped, Hawkins slipped sweat pants over her pink climbing tights and retreated to the Ahwahnee Hotel for breakfast. Her trademark hip-length golden hair—which readily identifies her to those on the ground who watch Yosemite's big-wall climbers through binoculars—was braided into a rope and secured with a gold barrette.

Hawkins initially resisted publicity for her climbing feats. Her mother, Hazel Knepper, said in a telephone interview from her home in Portland, Ore., that when a newspaper reporter called after Hawkins climbed El Capitan at age 23, Ellie told her mother, "Mom, I don't want this attention from people."

In recent years, however, Hawkins has been speaking to grade school classes and showing slides of her climbs, she's granted television and magazine interviews in hopes that she can help adults and children who suffer because of dyslexia.

"It's something people hide, and more and more people I know are hiding it," Hawkins said of her decision to talk publicly about the learning disability. "Dyslexia is not a thing to be ashamed of. I think it motivates me."

Knepper remembers her daughter as a "skinny little girl" who received attention for her hair, which was long and blond even when she was a child. (Hawkins' father died when she was 18 months old; her mother raised Ellie and two brothers.) But when Hawkins got to school age, she began using her hair to hide behind, Knepper said.

"In the fifth grade, my teacher gave me a third-grade math book, then pretended I wasn't there," Hawkins recalled. "They (teachers) just figured I was very lazy." At some point, reacting to her teachers' disapproval, Hawkins said she simply stopped talking.

Physical and emotional abuse is not uncommon among dyslexic children, because parents and teachers mistakenly assume the child isn't trying, according to Henry, who is a research and teaching assistant at Stanford University.

Part of Hawkins' aim is to encourage schools routinely to test children for dyslexia and to provide tutors to assist dyslexic students through what to them is a mysterious realm of written and spoken language. (California Assemblyman Bill Bradley (R-Escondido) has introduced legislation which, if it is signed by the governor, will require schools to screen for dyslexia and other learning disabilities at the kindergarten level.)

Hawkins said she didn't realize that there was a word for her particular difficulty until she was 27 and happened to see a public television show on dyslexia. She knew immediately that the characteristics described applied to her. At that time she had already started to climb with her mountain-climber husband, Bruce Hawkins. Free-climbing came easily to her because she had enjoyed ballet as a youth and found a similar grace in scaling cliffs using only her hands and feet, with no equipment.

But when she advanced to the sort of climbing that requires ropes and hardware, the dyslexia hampered her. Any novice climber can be discouraged by the prospect of figuring out the climbing paraphernalia that winds over, under and around a climber like so many tangled vines.

But Hawkins has a history of not giving up easily.

She didn't get her driver's license until three years ago because she had trouble deciphering one-way signs. She didn't have her own checking account until she was 28 because whenever she tried to sign a check, her signature ended up in the wrong corner of the document.

The way she finally mastered driving and signing checks is the same method that has served her in mountain climbing—she concentrates completely, and she goes at her own pace.

Meeting challenge alone has become the norm for Hawkins.

Yet climbing solo adds considerably to the difficulty and risk of a major ascent. In addition to wrangling with ropes and bolts, Hawkins also must rappel back down to remove the protection she places in the mountainside, and to unhitch an endless up-and-down dance that would be draining even for someone larger and more muscular. Hawkins is 5 feet 2 inches and 104 pounds.

Oft-scaled routes are free of debris and pocked with drill holes where previous climbers have placed their protection. On this climb, however, Hawkins must clean decades of accumulated dirt and moss out of cracks in the rock and pound holes for each step she takes. She said she got in shape for this by beating with a hammer on a railroad spike for 10 to 15 minutes a day. She also supplemented the exercise she gets in teaching climbing at the Yosemite Mountaineering School by working out on a rowing machine and with weights.

For safety reasons, because she could not be seen from the ground if she were injured during certain portions of the climb, Hawkins is checking in regularly by two-way radio with Yosemite Park and Curry Co. spokesman Alan Richmond.

She reported Monday evening that she had taken a day off to rest and to enjoy the view, which, she said, was "spectacular." The route is set inside a natural amphitheater. Hawkins told Richmond that Ribbon Falls, which she had hoped would be dry for the duration of her climb, has started to flow again in an early winter storm, and that she was being splashed now and then.

On Sunday, Hawkins said she placed a pin behind a 50-pound rock, which suddenly gave way and crashed down the wall and out of sight. Hawkins was unhurt.

"It's been very cold and windy (at night)," Hawkins said over the radio. Along with climbing and camping equipment, her haul bag contains several changes of wool clothing. "The guys will wear the same thing throughout the entire ordeal. I won't do it, forget it," Hawkins said before the climb. She favors the colors purple and pink because they contrast well with the granite.

Hawkins' days are spent mostly in the shadow of the rock—the sun doesn't reach her until about 1 o'clock in the afternoon. To compensate for her dyslexia, she works in a trance of concentration that allows for little thought about anything except placement of bolts and tying of knots. "I become like a machine on the rock," she said.

But at night, hanging suspended from three bolts in her sleeping hammock, like a bat on the black mountainside, she can allow her thoughts to drift. She fiddles with her tiny radio to see how many rock 'n' roll stations she can tune in; and she nibbles on chocolate-covered almonds.

She undoubtedly thinks about her husband, who works in real estate and as a construction foreman. Bruce Hawkins plans to rappel down the top of the route to meet Ellie on the final day of her climb.

In the evening, she writes in a log about her frustrations and triumphs during the day. She plans to share parts of this diary with the dyslexic schoolchildren she visits, she said. She wants them to know that the same problem that might cause their teacher to yell at them can also be the thing that motivates someone to strive toward a mountaintop.

DYSLEXIC CLIMBER SCALES 2,000-FOOT ROCK FACE

After climbing for eight days, Ellie Hawkins pulled herself over the top of a 2,000-foot rock face in Yosemite on Sunday afternoon and named the new route "Dyslexia" after her learning disability. Her husband, Bruce, had hiked in to meet her at the finish.

"It ended up being a very difficult climb," Hawkins, of Bear Valley, said from Yosemite, where she was resting this week, "I just took my time, took things slowly."

Hawkins, 35, has become one of the top female climbers in the world despite a severe case of dyslexia, which can make it tricky for her to tie knots and to manipulate the hardware required for a major ascent. In 15 years of climbing, she has developed methods for overcoming perceptual difficulties. (Her efforts were detailed in last Thursday's View section.)

Those methods were tested on this solo first ascent, which Hawkins made in part to increase public awareness of dyslexia. Hawkins graded the climb at 8.4, saying that there were many spots where the splintery rock was barely sufficient to support her body weight (an 8.5 climb is the most difficult).

During the last two days of the climb, fatigue aggravated Hawkins' dyslexia. She said she began to see in mirror images, and her shoelaces and her rope momentarily disappeared from her field of vision.

Hawkins said she worked in such deep concentration to combat the dyslexia that at one point she wasn't aware that it had been raining for several hours. Hawkins said it will be a while before she is able to relax her mental hold on the route. Two days after she crested the rock wall, she said: "I still have my mind clenched on that mountain."—Ann Japenga

FAIRNESS EQUITY, AND SIMPLIFICATION

HON. DEAN A. GALLO

OF NEW JERSEY

IN THE HOUSE OF REPRESENTATIVES

Thursday, October 10, 1985

Mr. GALLO. Mr. Speaker, we have all heard these words used to describe the current objectives of tax reform. Unfortunately, at this point in time, these words only apply to individuals—not to States. Basic fairness requires the maintenance of the State and local tax deduction.

If equity is an objective of tax reform, then why should States that lack large quantities of mineral wealth and must rely on local property and income taxes be penalized? If Louisiana and Alaska have vast quantities of oil that can be taxed to subsidize State expenditures while Ohio and Michigan do not, then where is the fairness?

It is also beyond reason to suggest that the problem in so-called high-tax States is caused by excessive spending practices. The problem is on the revenue side; States without natural wealth must rely on local property and income taxes. Furthermore, many, if not most of these States, are also burdened by problems that are national in scope. Declining economies in the Northeast and Midwest are already hard-pressed to collect adequate revenues to finance State expenditures. The withdrawal of the State and local tax deduction would, therefore, add insult to injury and must be maintained.

THE BUDGET DEFICIT

HON. THOMAS N. KINDNESS

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

Thursday, October 10, 1985

Mr. KINDNESS. Mr. Speaker, the need to reduce the budget deficit of the U.S. Government is clear, but that need should not provide an excuse for an action which would corrupt our Republic in an essential part.

The basic power of any government is the power to tax, which has also been equated with the power to destroy. Historically, we have respected the sovereignty of each of the States of the United States and have not imposed Federal taxes upon the States. Similarly, the States have been held to be foreclosed from taxing the United States. In fact, as a young man, I came to believe that it would be unconstitutional for the United States to tax the States or for the States to tax the United States.

Today, there is some doubt about that, but I still believe the principle to be sound, defensible and important. Let me sound a warning: We are about to corrupt that principle by taxing the States for Medicare tax applicable to their employees. The employer portion of the tax would be a direct tax upon the States and their subdivisions of government. No matter what the reason or the rationalization, this would be a stark and severe departure from the principles upon which our Republic was founded, and we should reject the idea.

The Deficit Reduction Amendments of 1985 must not become the excuse for radically reducing the constitutional stature of the States and erasing the meaning of the 9th and 10th amendments to the Constitution of the United States of America.

I take issue with those who would use a faulted interpretation of the recent Supreme Court decision in Garcia against San Antonio Metropolitan Transit Authority to justify bringing State and local government employees under Medicare, although a majority of the U.S. Supreme Court seems to have indicated the willingness to sit back

while the 10th Amendment is subjected to further attack by the Congress. That case did not deal with the most basic power of governments—the power to tax. It dealt with the applicability of the Fair Labor Standards Act to municipal employees—and its effect should be changed by legislation.

A TRIBUTE TO MS. JANET MARKS

HON. ROBERT A. BORSKI

OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, October 10, 1985

Mr. BORSKI. Mr. Speaker, at a tribute dinner on October 17, 1985, the Northeast Boys and Girls Club will honor Ms. Janet Marks for over three decades of distinguished and outstanding service to that organization.

For more than 30 years, Ms. Marks has served the club with compassion and selfless hard work. Her inexhaustible efforts have touched and bettered the lives of countless residents of the Third Congressional District.

Founded in 1938 to serve the youth of the Frankford and Bridesburg communities, the Northeast Boys and Girls Club now operates after-school and evening programs, day care, and services for senior citizens. Certainly, a large measure of the organization's success must be attributed to the dedicated work of Janet Marks.

In addition to her invaluable involvement with the Boys and Girls Club, she has also participated in a number of service clubs in the Frankford area, including the Kiwanis Club and the Optimist Club.

Mr. Speaker, it is a pleasure to join with the Northeast Boys Club as they honor and thank this outstanding individual. It is gratifying to represent people like Ms. Marks; her example should serve as an inspiration to all of us.

MAIN STREET FAIR COMPETITION ACT OF 1985

HON. BYRON L. DORGAN

OF NORTH DAKOTA

IN THE HOUSE OF REPRESENTATIVES

Thursday, October 10, 1985

Mr. DORGAN of North Dakota. Mr. Speaker, today, our States and cities are faced with a virtual hemorrhage of tax revenues. Nationwide, one out of every six retail sales dollars now escapes State and local sales tax. The result is an enormous pool of $1 billion or more each year in uncollected tax revenues. Those potential tax dollars are desperately needed by States and cities facing the prospect of further cuts in Federal spending.

The problem stems from a 1967 Supreme Court decision—National Bellas Hess—involving the little known use tax. To protect their revenue bases and local businesses, the 45 States that have sales taxes also have a use tax. Under this tax, a person buying something from an out-of-State store is liable for a use tax at a rate identical to the sales tax in his/her home State.

The U.S. Supreme Court's 1967 decision ended the obligation of out-of-State direct marketers and border sellers to collect use taxes from buyers and then remit the revenue to the home State and/or city of the purchaser. While consumers who buy from out-of-State businesses are legally liable for use taxes, the cost of collection from all but the largest and most frequent buyers would far exceed the revenue recovered. As a result, States and cities now receive very little of the amount owed in use taxes. The State of New York collected just $20,000 in use taxes in 1984 on mail order purchases—an amount estimated to be one-hundredth of 1 percent of the total amount owed in the State.

The beneficiaries of the Supreme Court decision have been the out-of-State order sellers and the direct marketing industry, which will ring up a total of $71 billion in retail sales in 1985 alone, according to the independent Advisory Commission on Intergovernmental Relations [ACIR]. ACIR estimates that cities and States will be deprived this year of $668 million to $1.57 billion in potential sales tax revenues from direct marketing and border sales.

I am concerned that this unfair advantage for untaxed, out-of-State firms threatens the future of Main Street America. Economists tell us that a 1-percent increase in a sales tax results in a lowering of retail sales by 6 percent. Retailers and State officials are caught in a vicious cycle—higher and higher sales tax rates are chasing more and more customers out of the stores of instate merchants. As the collections of sales tax revenues at current rates decline with consumers turning to out-of-State firms, States and cities will be pressured to push their rates even higher—resulting in further declines in traditional retail sales. This vicious cycle will be broken only when out-of-State firms and traditional, instate retailers play by the same set of rules for sales taxes.

The effect is that untaxed, out-of-State firms now have a marginal price advantage equal to the tax rate of the city or State of the consumer. The ACIR concluded that this "virtual tax immunity" enjoyed by the out-of-State firms is distorting consumer purchases in favor of direct marketers and border sellers. The evidence shows that sales by untaxed, out-of-State firms are shooting up much faster than those of traditional retailers. Direct marketing sales are expanding at more than 10 percent annually—double the growth rate for traditional retailers.

Today I am introducing the Main Street Fair Competition Act of 1985, to end this unfair tax advantage for out-of-State direct marketers and border sellers. We need to protect our instate retailers and the tax bases of our cities and States. Art Wheeler, president of the North Dakota Retail Association warns: "If direct sellers continue to replace the American storefront, our Nation's unemployment levels will know no bounds, for there will not be Main Street employers to provide jobs and livable income to wage earners, our neighbors and friends."

This bill will restore the duty of collecting and remitting sales and use taxes on out-of-State businesses which do substantial advertising or solicitation in a State. So that we do not unduly burden truly small businesses, the legislation includes a de minimus threshold which prohibits a State or local government from requiring a retailer to collect the sales tax unless such retailer's annual, nationwide, interstate, gross sales of tangible personal property exceeds $5 million.

I have included an analysis of State-by-State revenue loss estimates from mail order and direct marketing sales for 1985, prepared by the ACIR. The future of the sales tax, now the second most important source of revenues for State Governments, accounting for one out of every four State tax dollars, is seriously threatened by this erosion of its base. It is time to put all retailers on a fair, equal footing when it comes to State and city sales taxes, and to restore this source of State and city revenue.

PATRICK HART TO RECEIVE EAGLE SCOUT AWARD

HON. GEORGE W. GEKAS

OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, October 10, 1985

Mr. GEKAS. Mr. Speaker, I would like to bring to the attention of my colleagues in the U.S. Congress the achievement of Mr. Patrick Hart, a constituent of mine from Newport, PA. On Sunday, October 20, 1985, family and friends will gather at the United Methodist Church of Newport to witness the presentation of the highest achievement in Boy Scouting—the Eagle Scout Award—to Mr. Hart, a member of troop 222.

As a young citizen, Patrick has displayed his energetic capabilities by participating in many different projects and community services which have won him special merits of honor. An avid gymnast, Patrick plans to graduate from Newport High School at the end of this school term.

I am proud to congratulate Mr. Hart for his outstanding contributions to his community. His unselfish attitude toward others has set an example for the rest of us to follow. I am honored to have an individual like him reside in my district.

DEFICIT REDUCTION FIASCO

HON. MAJOR R. OWENS

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Thursday, October 10, 1985

Mr. OWENS. Mr. Speaker, although I regret the need to dignify the Gramm-Rudman deficit reduction proposal with a serious review, I felt compelled to do so in light of all that has been said about previ-

ous contributions by one of the proposal's authors.

The basic thrust of Gramm-Rudman is to set arbitrary deficit reduction targets over a 5-year period. Why do I consider the targets to be arbitrary? After setting a spending target for fiscal year 1986 which is above the fiscal year 1986 budget resolution, Gramm-Rudman proceeds to count the remaining years until 1991, comes up with an accurate count of five and then divides the deficit into five equal parts. Now that's arithmetic which a fourth grader would surely understand, but it is not sound economic policy which makes sense to any economist or public policy analyst.

The Gramm-Rudman proposal goes on to set well nigh impossible legislative schedules to meet the arbitrary one-fifth per year deadline. For example, subcommittees must conform their budgets to the conference report on the budget resolution within 10 days. Committees have no power to conform budgets on a committee level as no shifting of resources among subcommittees under a single committee is permitted under the proposal. In short, the Budget Committees would control expenditures and the authorizing and appropriating committees would have nothing to say about budget priorities. One is almost tempted to ask, why bother with the entire Congress when all that is necessary is two Budget Committees?

After hasty subcommittee action, Gramm-Rudman creates an enrollment road block for appropriations bills until all appropriations required by the budget resolution are enacted. In short, the executive does not have to act on any appropriation until they are before him. This may ease fiscal planning on the Federal level, but it certainly wreaks havoc on the States who will now find the fate of any specific appropriation to be contingent on some other appropriation. This delay will cost the States dearly at a time when some insist that States take on ever increasing responsibilities.

Gramm-Rudman also carries the economic assumptions discussion to a new level. If OMB and CBO cannot agree, an average would be used. Here, again, we have reached down to grammer school level arithmetic. Unfortunately, this simplistic approach does not necessarily lead to the most accurate result. The executive branch OMB will be subject to political pressures to state a more or less optimistic projection. In order to influence the final outcome, the figures need only be stated more extremely to see to it that the average comes out at the point which is desired. It should not escape our notice that OMB has made very optimistic projections since 1981.

In order to keep the budget within the required deficit reduction boundaries, Gramm-Rudman grants inordinate power to the executive to cut spending. Unfortunately, very little of the budget falls into the category of discretionary spending. As a result, those programs which have taken the heaviest cuts since Gramm-Latta, 1981, would once again be up on the chopping block. It is not coincidence that these are the programs which serve our children, our elderly, our sick, and our poor.

Last, but hardly least, it is necessary to understand just how we got into the deficit problem which Gramm-Rudman proports to address. In 1981, Gramm-Latta was the vehicle by which taxes and human services programs were cut, while overall expenditures were increased to accommodate the largest peace time military buildup ever seen in this country. The argument at the time was that the tax cuts, which went primarily to corporations and more affluent individuals, would stimulate the economy and produce greater revenues. Accepting that argument required a leap of faith that seemed somewhat extreme to many of us who viewed the process with skepticism. It turned out that the skepticism was warranted. Expenditures increased and revenues declined. The deficit was on its way to astronomical proportions. Given that history of how the line of budgetary reason was broken, it seems only logical to fix it by reversing the disastrous trend begun in 1981.

A primary author of our present difficulty should hardly be relied upon for guidance on the subject of how to get out of that difficulty. The new and creative approach found enough followers in 1981 to get us into the soup, and it is now time to turn our attention to the steady and reliable approaches to fiscal responsibility which will reverse the disastrous trend we seem caught up in and set us back on a reasonable path which does not continue to increase the distress of our less fortunate people.

The deficit is a serious problem. Our resources are consumed by the interest costs of the deficit. There are those who believe that that is precisely why the deficit was allowed to balloon as it did, thereby making it impossible to meet commitments to human needs. However, it is both Unfair and unjust to allow the fate of our most vulnerable people to be affected by creative fiscal policies which make them the intended or unintended victims of economic experimentation.

I urge all of my colleagues to stand against Gramm-Rudman.

HISPANIC CONCILIO OF SAN MATEO COUNTY HONORS HISPANIC COMMUNITY LEADERS

HON. TOM LANTOS

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, October 10, 1985

Mr. LANTOS. Mr. Speaker, I am delighted to report that the Hispanic Concilio of San Mateo County, CA, will honor two individuals and one family for their contributions to the Hispanic community. The awards will be presented at the Concilio's Sixth Annual Awards Reception in Redwood City on October 16.

The Concilio, a county-wide coalition of representatives of organizations and agencies which serve the Hispanic community, has been a most effective advocate for action on issues of concern to Hispanics. The Concilio also has played an important role in educating county residents on these issues.

Mr. Speaker, the individuals being honored by the Concilio this year reflect its broad concerns as well as the caliber of community service which Hispanic leaders are giving our communities.

Rosa Montes will be honored for her work with the North San Mateo County Community Mental Health Center and her outstanding work in the field of mental health and counseling Hispanic families. Rosa is a 10th generation Californian, who has raised her family in northern San Mateo County. Earlier she served the community at the Guadalupe Health Center of Daly City and at Peninsula Hospital. Mrs. Montes has made an important contribution in her counseling of abused children and their families.

Ike Ortiz is being honored for his contribution to Hispanic affirmative action efforts in San Mateo County. Mr. Ortiz, a sergeant with the San Mateo County Sheriff's Office for the past 10 years, has worked to improve employment opportunities for Hispanics and minorities in order to improve the responsiveness and effectiveness of police service in our communities. His efforts have been a significant reason for many of the improvements in affirmative action which San Mateo County has witnessed.

For the first time, the Concilio is making a "Family Award" in recognition of the Rose Lopez family for its long-term involvement and contributions to the Hispanic community of San Mateo County. The family, long-time residents of Redwood City, have been involved in education, social, and civic activities of benefits to the Hispanic community. Rose Lopez is a bilingual teacher's aide at Garfield Elementary School in Redwood City, and has played a leading role in many community groups, including the Fair Oaks Senior Center, the Fair Oaks Community Center, St. Anthony's Parish Council, Bay Area Girl Scouts, and many others. The example that Rose Lopez has set makes it easier to understand the community involvement of her daughters Rebecca and Linda. The three of them, with other members of the Lopez family, frequently combine efforts in service to the community.

Rebecca serves as a valued member of the staff of my San Mateo County office. In addition to her work in my office, Rebecca is the founding president of the Mexican-American Women's National Association and of the Hispanic Concilio of San Mateo County. She serves as a member of many boards and commissions serving residents of the Peninsula.

Rose Lopez's daughter Linda Lopez-Chavez, a probation officer for San Mateo County, has served as a leader for community involvement in education, child-care, and fair housing. Linda's concerns have focused on juvenile rights and responsibilities and the problems of single parents.

Mr. Speaker, I am pleased to recognize the contributions that all of these outstanding individuals have made to the advance of Hispanics in San Mateo County and to all of the communities on the Peninsula. Their dedication is an inspiration for all of us to renew our own commitment to community service.

1985 HONOREES OF THE CITY OF HOPE

HON. RICHARD A. GEPHARDT

OF MISSOURI

IN THE HOUSE OF REPRESENTATIVES

Thursday, October 10, 1985

Mr. GEPHARDT. Mr. Speaker, I would like to recognize two St. Louisans who will be honored on October 19 with a very special award. Mr. Mark Turken and Mr. Robert Kelley have been named the 1985 honorees of the City of Hope for their extraordinary dedication to the St. Louis community and beyond.

Mark A. Turken, 1985 management honoree, is chief executive officer of the Security Mortgage Co., Inc., and has devoted his energies to strengthening our ties with the Republic of Costa Rica and currently serves as Consul General of the Republic of Costa Rica for our region. In this position, he is responsible for promoting public awareness of opportunities for bilateral trade, tourism, and investment.

Mr. Turken has been instrumental in bringing several million dollars of international real estate investment into St. Louis and has been active in the revitalization of the downtown area.

Robert Kelley, 1985 labor honoree, is president of the Greater St. Louis Labor Council, AFL–CIO, and was influential in the development of standardized organizing methods and techniques that are now considered standard for unions everywhere.

Mr. Kelley devotes his time to various philanthropic endeavors. He is vice chairman of the United Way of Greater St. Louis, serves on the Greater St. Louis Area Council of Boy Scouts, the board of directors for Catholic Charities, St. Patrick's Center, and the St. Louis Arts and Education Council.

Mr. Speaker, I congratulate these hard working citizens from St. Louis and only hope that others will follow in their footsteps. I take this opportunity to wish them all the best in the future and continued success in their endeavors.

DEVELOPING POSITIVE CHARACTER TRAITS IN OUR CHILDREN: AN IMPORTANT PART OF PUBLIC EDUCATION

HON. NEWT GINGRICH

OF GEORGIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, October 10, 1985

Mr. GINGRICH. Mr. Speaker, in the October 9, 1985, edition of the Washington Post, William Raspberry wrote a column on one aspect of public education which is frequently overlooked.

While our children are gaining knowledge about different subjects in school, it's also important that they acquire respect for certain values if they're going to succeed in our society. As Raspberry cites from two studies, youthful unemployment is a result of:

The failure of some families to help their children learn such attitudes as industriousness, respect for rules and authority, and self-discipline. And the schools, particularly those with too little structure and discipline, tend to make matters worse.

I'm submitting William Raspberry's column for my colleagues to examine. As leaders of our great Nation, I hope we will commit ourselves to improve youth employment and morale by encouraging schools in our districts to emphasize positive character traits.

The article follows:

[From the Washington Post, Oct. 9, 1985]

DEVELOPING "CHARACTER"—IN PUBLIC SCHOOLS

(By William Raspberry)

There are some things that are so alien to your character that you—almost literally—cannot do them.

You cannot, no matter how much you need the money, cheat the blind news vendor. You cannot, no matter that you will never be found out, snatch a watch off an old lady's arm or inflict gratuitous pain on another human being or deliberately ruin a lovely work of art.

These built-in limits on our behavior seem almost natural. And yet, there are people, including a frightening number of young people, who seem almost devoid of such controls. They may refrain from certain actions out of fear that someone will make trouble for them, or call the police, or punch their lights out, but not because of any self-imposed limits on their behavior.

Nor is this self-contained limitation, this moral gyroscope, merely a negative control. There are also things that some of us almost have to do: keep our commitments, pay our bills, give a reasonably honest day's work for our wages, return found wallets.

There are those who believe the absence of these internal controls are a major reason not just for crime but also for the unemployment that plagues certain segments of the society.

A recent report commissioned by some of the country's top business leaders says the inculcation of these positive character traits constitutes an "invisible curriculum" that the schools are neglecting. The result, according to the report, is that a number of young people leave school with needlessly limited job prospects.

The New York-based Committee for Economic Development, whose 225 trustees are mostly top corporate executives, said the business world counts character and work habits as at least as important as academic skills in determining employability. But, according to the 107-page report, "Investing in Our Children," the schools frequently fail to stress even such basics as teamwork, honesty, self-discipline and reliability.

"If schools tolerate excessive absenteeism, truancy, tardiness, or misbehavior, we cannot expect students to meet standards of minimum performance or behavior, either in school or as adults," the report said.

Its conclusions are strikingly close to those reached by George Washington University's Amitai Etzioni in a study released last spring. According to Etzioni, the reasons most frequently given for youthful unemployment—poor reading and math skills, poor English, "functional illiteracy"—are not the real reasons. The fundamental problem, he said, is the failure of some families to help their children learn such attitudes as industriousness, respect for rules and authority, and self-discipline. And the schools, particularly those with too little structure and discipline, tend to make matters worse. The result, according to Etzioni:

"Many young people are unable, for psychic reasons, first to learn effectively in the schools, and then to function effectively in the adult world of work, community and citizenship. The root problem is not that millions of high school graduates have great difficulties in reading, writing and arithmetic; these all-too common deficiencies are consequences of insufficient self-discipline, of inadequate ability to mobilize self and to commit."

The reports tell us what we already know, even if we haven't quite figured out what to do about it. "Values clarification" clearly hasn't worked, and anything that smacks of teaching "morality" runs the risk of being disallowed as unconstitutional "religious instruction."

Maybe if we call it "character development," we can find a way to instill in our children those traits that, for our sake as well as theirs, they so desperately need.

A TRIBUTE TO DR. EDITH IRBY JONES

HON. MICKEY LELAND

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Thursday, October 10, 1985920

Mr. LELAND. Mr. Speaker, I would like to share with my colleagues an article published by the Houston Informer about a great Houstonian, Dr. Edith Irby Jones. Dr. Jones was the first black American admitted to a southern medical school. She entered the University of Arkansas, College of Medicine, in 1948 as the first student of integration.

Dr. Jones recently returned to her alma mater to be honored as an "outstanding alumnus". She certainly deserves this recognition and I highly recommend this article to my colleagues.

[The article follows:]

[From the Houston Informer and Texas Freeman, September 28, 1985]

ARKANSAS UNIVERSITY MEDICAL SCHOOL'S OUTSTANDING ALUMNUS HONORED

The first black American to be admitted to a southern medical school returned to her point of entry in Arkansas recently to be honored as an "outstanding alumnus."

Dr. Edith Irby Jones, 57, who entered the University of Arkansas College of Medicine in 1948 as its first student of integration, told a luncheon group, made up of faculty members, private physicians, students and reporters, "I don't see how this could happen to me; it seems like such a short

period ago when I walked through some big doors. I must be dreaming."

The luncheon was a part of the unveiling and hanging of an oil portrait of Dr. Jones in the entrance hallway of the College of Medicine.

Dr. Jones has left a clear trail of success since her graduation 33 years ago. She has made every "Who's Who" publication. A native of Conway, Dr. Jones practiced medicine in Hot Springs for six years before moving to Houston in 1959 to establish residency in internal medicine at Baylor affiliated hospitals. She is the owner and operator of a multi-purpose health clinic in Houston, according to Dr. Thomas Allen Bruce, dean of the college, "has the largest group of patients of any physician in the City of Houston."

Dr. Jones, who also holds assistant professorships at the Baylor College of Medicine and at the University of Texas Medical School, was recently elected the new president of the National Medical Association. She is the first woman to head the professional medical association of black-American physicians in its 90-year history.

Dr. Jones said, during her brief luncheon speech, "It was out of love that flowed from the faculty, students, friends and associates that she was able to achieve," while studying under racial segregation practices at the school. She said, "I didn't have the feeling of being unwanted," although she was provided with a separate restroom and private dining room.

Each one of the luncheon guests stood up and expressed their love and appreciation to Dr. Jones for not only her achievements and helping to open doors that were previously closed, but also for her service to humanity. In response, Dr. Jones said, "This recognition encourages me to give more, and I will spend the rest of my life helping those who feel they are fenced in."

Dr. Jones pointed out that the School of Medicine has been affirmative in its efforts to recruit and retain black students, and what's needed now are support and encouragement for the students. "Make them a part of your world, share life experiences with them, bring them into your homes, offices and meetings," Dr. Jones suggested.

Since Dr. Jones' graduation in 1952, until the hanging of her portrait, 74 black students have graduated. Currently UAMS has 50 black students enrolled inclusive of a class of 14 freshmen.

Since Dr. Jones' first efforts as the president-elect of the NMA was the awarding of the "Scroll of Merit" to the UAMS for providing minorities with equal access to medical education and for stimulating minority participation in the medical profession. Dr. Bruce received the award for UAMS at the NMA installation ceremonies for Dr. Jones in Las Vegas in July.

The Scroll of Merit will hang next to Dr. Jones' portrait.

Dr. Katherine Mitchell, president of the Little Rock chapter of Eta Phi Beta Sorority, of which Dr. Jones is a soror, presented Dr. Jones with a dozen red roses prior to the unveiling of her portrait.

Dr. Horace Marvin, faculty member, recalling the era of Dr. Jones' enrollment said, "Several members had been campaigning for it (integration), we were a little tense because if anything had gone wrong it would have set integration at the school back 15 years". He said Dr. Jones entered the school "bright eyed and enthusiastic," and walked "a tight-rope of excellence". He also said Dr. Jones, as a graduate of the school, "made it easier for it (integration) to happen again and again".

OLDER AMERICANS—OUR MOST NEGLECTED NATURAL RESOURCE

HON. LAWRENCE J. SMITH

OF FLORIDA

IN THE HOUSE OF REPRESENTATIVES

Thursday, October 10, 1985

Mr. SMITH of Florida. Mr. Speaker, I draw my colleagues' attention to an article by David Broder, which appeared in the Miami Herald. Mr. Broder's article should remind each of us that the policy decisions we make determine what options older Americans will have in providing for their future.

Are we forcing these citizens—who have led full and productive lives, contributing enormously to the standard of living that we enjoy today—to become prisoners of their inability to completely provide for themselves in their later years?

We are a youth-oriented society, inclined to banish our elderly and to keep them out of view, ignoring the potential contributions that these vital individuals still can make. Instead of promulgating policies that encourage seniors to maintain independent, productive lifestyles, we have, for example, Medicare and Medicaid laws and regulations that force them to "spend down" their resources, become dependent on Federal dollars and enter a nursing home in order to ensure that the type of care they need is provided. Those who are braver, luckier, or have better family support systems risk situations like the one Mr. Broder describes in the article that follows.

The terrible irony of this situation is that it ultimately costs the Federal Government more money to behave in this manner. We force many seniors into an all-or-nothing situation, where they must either brave their final years with few support services to help them or abandon their dignity and self-respect and commit themselves to total dependence in a structured care facility.

I urge my colleagues to support programs that would shift the flow of dollars away from institutional care into community-based programs designed to encourage and help older Americans to maintain independent and productive lives.

[From the Miami Herald, Sept. 29, 1985]

FOR THE ELDERLY, INDEPENDENCE CARRIES A REAL RISK

(By David S. Broder)

LOS ANGELES.—For 60 years since she was 24, she had been constantly at his side, and that is where she was when the accident happened. He was coming back into the living room from the balcony, where he had been sitting in the afternoon sun, and he lost his balance.

That happens often, despite four-pronged canes or walkers, when you are 90 years old with a long history of Parkinson's disease and the aftereffects of a stroke that weakened the right leg.

She tried to grab him as he fell sideways, but she weighs only 90 pounds, so his weight carried both of them to the floor. He gashed his cheek when he hit, but not seriously. But her legs got tangled with his and he came down on top of her, breaking her right hip.

They then experienced the nightmare that all elderly people, living alone or in couples dread: being injured and without help. They lay there on the living room rug, 15 feet from the nearest phone.

Nina recalls saying to my father, "We're not going to get out of here unless we can holler for help." The sliding door to the balcony was still open, and when they started to shout, people in the neighboring building heard them. Rescuers broke open the front door of the apartment, summoned an ambulance, and by the time I was called, across the country, they had been through the emergency room and were lying in adjoining beds in a Santa Monica hospital.

The next morning, they looked tiny and fragile and, in more than a physical sense, broken. But the two weeks since then have taught me a lesson in human resilience that I hope I will not forget. I write, not just in tribute to them, but to reinforce in my own mind—and in yours, if you need it—the irrepressible character of individual spirit.

I suppose I should not have been surprised. They are fiercely independent people, Nina especially. She has a will of steel. She was a "liberated woman" of the 1920s, but the more-recent women's movement came too late for her to fulfill her full talents.

If she came out of college today, her ability and determination would make her a successful executive. As it was, she ended her formal education with high school, married early, and focused her formidable energy on her one husband, her one son, her volunteer community work, and her unquenchable thirst for reading, learning, and arguing.

She has never been accused of being an easy person. She is blessed—or cursed—with a belief in human perfectibility, and she has fought with everyone of any importance to her who fell short of that standard, as everyone did. But she was usually toughest on herself.

When my father retired after 50 years of small-town Midwest dentistry, they scorned the idea of moving in with (or even close to) their son. At 67 and 73, they left their home and their hometown, came west, found an apartment in a neighborhood where they could walk every day, formed a new circle of close friends, and built a new life on their own.

Long after it became more than she could really handle, long after her own health and well-being could tolerate it, my mother insisted she would keep house for my father. She ragged him constantly to overcome or ignore his own physical handicaps.

This was not without its costs to both of them, and it is certainly not a model everyone would wish to follow, or should attempt. There is a process of gradual isolation that almost all very old people experience, as the friends and family members of their own generation die.

When this is exaggerated by an effort to function as an autonomous household, independence can easily become isolation.

But that does not make it any easier to give up that independence. The real threat of this accident, far greater than the physical injury, was the risk of dependence. The hip can be pinned, but there is no surgery for a broken life-time pattern.

They are fortunate to have found an excellent residential-rehabilitation center, where they can live together while Nina re-

ceives the physical therapy she needs to regain mobility. The change of location and circumstances has tested both of them, and they are responding with a resiliency that would do credit to people 50 years younger.

The long-term housing and living decision is a question they have wisely decided to postpone for a time. When Nina has regained some of her strength and mobility, they will decide. Independently, of course.

They are not in this alone. America has seen a rapid increase in the numbers of very old people and a simultaneous breakdown in the extended family pattern of living. The Census Bureau says that among the 27 million people over 65, more than eight out of 10 live either by themselves or with a spouse. Only one in eight lives with other relatives; only one in 20 in some kind of communal-care facility.

All of us who live long enough will, I suppose, face the choice of how to fashion those final years for ourselves. I hope I have the courage and wisdom to do it as well as the woman and man of whom I write.

CONGRATULATIONS TO FREE CHINA ON DOUBLE TEN DAY

HON. ROY DYSON

OF MARYLAND

IN THE HOUSE OF REPRESENTATIVES

Thursday, October 10, 198520

Mr. DYSON. Mr. Speaker, today we join our friends in the Republic of China on Taiwan in celebrating Double Ten Day; the day in 1911 when the Chinese Republican revolutionaries successfully overthrew the Manchu provincial government in Hubei province, beginning the downfall of the last imperial dynasty in China. What Dr. Sun Yat-sen and his courageous followers achieved on this day 74 years ago was nothing less than the birth of the first democratic republic in Asia—the Republic of China.

As we congratulate the proud people of this prosperous republic, I believe it is altogether fitting for us to reaffirm the strong and enduring friendship that exists between our two peoples. We should rededicate ourselves to the cause of self-determination for the citizens of Taiwan. We should remain forever mindful that it is in the interest of all of us in the free world for freedom to reign in the Republic of China. To this end, we should steadfastly support Taiwan's security against invasion or coercion.

The spirit of community runs deep between America and Taiwan. In World War II, we joined together as allies to preserve and protect the cause of freedom. In later years, we have shared in the defense of the free world and in the goals of economic, social, and cultural advancement.

On this momentous occasion, Mr. Speaker, let us not only celebrate past accomplishment, but also make a promise to the future. Let us declare unequivocally, that the determined and persistent people of Taiwan will continue to have the vigorous support of our Nation.

MATERIALS PROCESSING AT NASA LEWIS RESEARCH CENTER

HON. MARY ROSE OAKAR

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

Thursday, October 10, 1985

Ms. OAKAR. Mr. Speaker, outer space is the new frontier from which the United States can strengthen and improve its GNP and can foster a competitive posture in world markets. The commercial potential of outer space is enormous but so are the financial and technical risks of space research to private enterprise. NASA has traditionally spun-off to the private sector the knowledge and technology derived from space exploration; the $3 billion communications satellite industry and the fledgling remote sensing industry are commercial applications of NASA-developed technologies.

Materials processing in space is on the threshold of a vast expansion. By studying the attributes of materials under conditions of weightlessness, high vacuum, and intense radiation, we will discover better manufacturing processes. Space will afford us the possibility of manufacturing materials impossible or too expensive to produce on Earth; and it may teach us better manufacturing techniques to use on Earth. There are some very special properties that can be achieved by producing materials in space; for example, the condition of zero gravity nullifies sedimentation, eliminates fluid deformation, prevents the separation of substances due to temperature changes and allows for product purity though containerless processing. Research on the processing of materials in space by the electronics, pharmaceutical, metallurgic, and aerospace industries is already underway.

NASA has established the Microgravity Science and Applications Program to encourage and support research in the science and technology of processing materials in low gravity. The aims of the program are to obtain a clearer understanding of the factors controlling Earth-based processes to guide their improvement; the development of new materials that cannot now be made on Earth; and the evolution of procedures to support long-term space operations.

I am pleased to advise my colleagues that, as part of this program, NASA has opened a new material science laboratory at its Lewis Research Center in Cleveland to aid scientists in determining what is and is not feasible for materials processing in space. The Microgravity Materials Science Laboratory (MMSL) offers a low-cost, low-risk method to test new ideas for materials science research in space before starting formal development efforts.

The MMSL will permit U.S. Government, university, and industry researchers to conduct scientific experiments using equipment that functionally duplicates equipment aboard the space shuttle, access to such a laboratory will give U.S. companies a competitive advantage in developing better materials through microgravity research.

The goal of the new laboratory will be achieved in two ways:

U.S. researchers in the industrial, academic, and Government communities will be encouraged to submit ideas for microgravity materials science experiments.

Experiments conducted in the laboratory will provide a means to determine which proposals have the greatest potential for development in the microgravity environment of space.

In the MMSL, a researcher can establish a scientific baseline toward determining the specific role of gravity in a particular experiment. By conducting carefully planned scientific experiments in a 1-g environment on Earth, scientific research will be more precisely defined before moving toward the more costly phase of experimental work in space. Initially, the MMSL will handle metals, alloys and electronic crystal experiments. Laboratory capabilities will be expanded in the future to include ceramics, glasses and polymers.

The new MMSL is not the only microgravity research facility at Lewis. Lewis also has two drop towers in which experiment packages can free-fall up to 500 feet, achieving a weightless condition for up to 5 seconds. In addition, the Lewis Lear jet can fly parabolic trajectories to achieve a microgravity environment inside the plane for up to 22 seconds. A typical scenario for a microgravity materials experiment at Lewis would begin by establishing 1-g baseline data in the MMSL and then proceed to the drop towers or the Lear jet to qualify the project for space flight.

NASA's strategy in this program is to work upward from ground-based research (the MMSL, drop tubes, drop towers) to air and suborbital research (aircraft and sounding rockets) to orbital research (the space shuttle and Space Station). This strategy commands the most efficient use of space resources by ensuring that experimental procedures in space be based on a firm scientific understanding with extensive prior ground-based examination.

Over the next 5 to 10 years, microgravity research will stress both scientific and commercial goals. Products will include crystals, metals and ceramics, glasses, and biological materials. Processes will include containerless processing and fluid and chemical transport. As research in these areas develops, the benefits will become increasingly apparent on Earth: new materials, more efficient use of Earth's nonrenewable fuel resources, new pharmaceuticals, advanced computers and lasers, and better communications. Like space, the opportunities offered by microgravity science and applications are vast and are only beginning to be explored.

51-059 O-86-10 (Pt. 20)

THE UNTOLD COST OF COMPARABLE WORTH

HON. F. JAMES SENSENBRENNER

OF WISCONSIN

IN THE HOUSE OF REPRESENTATIVES

Thursday, October 10, 198520

Mr. SENSENBRENNER. Mr. Speaker, now that the House has voted for passage of H.R. 3008, the hidden impact of this legislation has yet to be felt. Besides the substantive difficulties of this bill which I pointed out yesterday, I would like to cite the hidden costs involved.

Mr. Speaker, cost avoidance is never grounds for wage discrimination. Equal pay and civil rights laws address that specific problem. Nevertheless, the magnitude of the hidden costs to implement comparable worth cannot be overlooked. For example, contained within this years' Wisconsin State budget bill was a proposal for a study on comparable worth, a small provision, many of my former colleagues thought. The Wisconsin State Legislature and Governor Tony Earl have allotted $9.1 million in State funds to implement comparable worth legislation, with a total of $20 million in State spending this budget biennium and $60 to $90 million per year when this program is fully implemented.

The costs of comparable worth are mounting, beginning with the realization that 16,000 State employees needed to complete a 30-page job analysis questionnaire. Each employee is spending an estimated 4 to 8 hours on State time completing the survey at a total estimated cost of $1 to $2 million. Even though uncertainty exists on the total number of Federal workers who would be affected, imagine the costs of the study when considering there are 3,760,980 Federal employees.

I think we must look at the hidden costs of the study and overall costs of implementation before we embark on this study.

YES, MR. MULRONEY, WE ARE INTERESTED IN FREE TRADE

HON. STAN LUNDINE

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Thursday, October 10, 1985

Mr. LUNDINE. Mr. Speaker, last week, Prime Minister Mulroney made an overture to the President of the United States and Congress to sit down and see if we couldn't negotiate a free trade zone between our two great nations. I believe it is in our mutual interest to sit down with our Canadian friends and negotiate such an agreement. The President and the Congress should take Mr. Mulroney up on his offer. I commend the following article which appeared in the New York Times on October 6 to your attention. As James Reston points out, **the United States has much to gain from taking Prime Minister Mulroney up on his offer.**

[From the New York Times, Oct. 6, 1985]

A NEIGHBOR'S VOICE

(By James Reston)

WASHINGTON.—The Canadians, our best and closest friends, have a quiet way of coming up the back porch with sensible and practical suggestions in times of trouble, and they did it the other day when President Reagan needed a helping hand.

He was out at a soap factory in Cincinnati peddling his tax-reform plan, which is next year's issue. He was flying around defending and then withdrawing his support of Israel's 1,700-mile raid on the P.L.O. headquarters in Tunisia. He was responding to Mikhail Gorbachev's mystifying clarifications of Soviet nuclear policy, and he was tossing Margaret Heckler out of the Cabinet into Ireland, which had done nothing to deserve or provoke her "promotion." In short, Mr. Reagan didn't have a very good week.

Amid all this, the Prime Minister of Canada, Brian Mulroney, came forward with a proposal that, unlike all these other tangles, Mr. Reagan might be able to do something about.

"Economics, geography, common sense and the national interest," Mr. Mulroney said, "dictate that we try to secure and expand our trade with our closest and largest trading partner."

This is a sentiment right out of Ronald Reagan's Book if Maxims, and the critical words in Prime Minister Mulroney's sentence are "common sense."

Trade between the United States and Canada this year will exceed $120 billion, which is more than U.S. trade with Europe or Japan. It's not exactly equal: About 75 percent of Canada's exports come to the United States, while only about 22 percent of U.S. exports go to Canada.

LET'S EXPAND TRADE WITH CANADA

Prime Minister Mulroney, like President Reagan, is a smart Irishman, and it can probably be presumed that, in suggesting a more liberal U.S.-Canadian trade agreement, he was not thinking about Washington's problems or being indifferent to Ottawa's.

There are some awkward problems, as between all neighbors. For example, Secretary of Commerce Malcolm Baldrige, one of the most sensible and thoughtful members of the Reagan Cabinet, noted last week that 80 percent of Canada's exports to the U.S. will come in free at the end of the Tokyo round of tariff reductions, compared with 65 percent of our goods going north. Even among friends, that's some difference.

Specifically, the guys who cut and sell lumber in the U.S. are not amused by the fact that in the last 10 years the Canadian share of the U.S. softwood lumber market has increased from 18 percent to 34 percent.

And there are other conflicts: over fish and autos and labor unions and the passage of U.S. ships through the ice at the top of the continent and the cultural influence of U.S. television on the Canadian people.

Okay, says the new Canadian Prime Minister, let's stop fussing about our differences in the press, Congress and the Parliament. Let's get some knowledgeable guys together and show the world what freedom and cooperation can really accomplish.

He's not suggesting a common market, as Mr. Reagan did during one of the most hopeful moments of his election campaign, or even free trade, but instead a practical analysis of the economies, the hopes and anxieties of our two countries.

Also, Prime Minister Mulroney happens to be talking about one of the few Reagan convictions on foreign policy that has the support of all the political parties in Canada; namely, that the firestorm of trade protectionism in the Congress is a threat to the alliance and the economic order of the world.

President Reagan welcomed Prime Minister Mulroney's proposal, but he and his Cabinet are so preoccupied with the problems of outer space and the inner cities, with the budget deficit, the farm deficit in the Middle West, and the terror in the Middle East that they haven't had much time to think about the common problems on our northern border with Canada or even of the tragic human and economic problems in Mexico to the south.

Some powerful Canadian forces, of course, are worried about getting too close to the United States. As former Canadian Prime Minister Pierre Elliott Trudeau once observed, living with the United States is like sleeping with an elephant.

But clarity, like charity, begins at home, not in dreams of "Star Wars" in the 1990's. If we go on concentrating on what is in Mr. Gorbachev's mind or in President Reagan's mind at the summit, we could wind up in the cellar.

Better to make a fair and liberal trade deal with the Canadians, provided of course that Prime Minister Mulroney begins by instructing the Toronto Blue Jays to stop beating up on the New York Yankees.

THE FAMILY FARMER

HON. RICHARD A. GEPHARDT

OF MISSOURI

IN THE HOUSE OF REPRESENTATIVES

Thursday, October 10, 1985

Mr. GEPHARDT. Mr. Speaker, on Tuesday, October 8, the House rejected a proposal to give farmers a chance to vote on the future of American agriculture. I was among the minority that supported the Alexander/Stangeland compromise substitute. I supported this legislation because we need an alternative to the current program that is costly to both farmers and taxpayers.

The economic, social, and political fabric of rural America increasingly depends on the survival of the family farm. Yet its future looks bleak. The family farmer is getting hit by high interest rates, an overvalued dollar, unfair trading practices of other nations, and domestic overproduction. Land values have fallen 20 percent or more. Foreign markets have been lost. Commodity prices are at lows not seen since the Depression.

Over 43,000 farms have gone bankrupt in the first 6 months of this year alone. We are losing 1,600 farmers a week. Since 1981, over 200,000 people involved in agribusiness have lost their jobs.

One-third of our family farmers are in deep trouble. Two out of ten could lose their land within 2 years as the tidal wave of foreclosures sweeps the land.

Over the long term, we must save the family farm, not only to preserve a vital way of life, but also to prevent concentra-

tion and control of our food production system.

Over the long term, there is no question that survival of the family farm will help the urban consumer by preventing monopolies by large scale agricultural conglomerates.

Today our farm policy is bankrupting farmers and taxpayers at the same time. We should allow farmers to choose democratically whether to idle 20 percent of their lands.

If controls were approved, farm income could increase by over 50 percent. Because producers would get their price in the market—not from the Government—we could save taxpayers $16 billion over the next 3 years. That's a $16 billion savings over the present bill, according to the Congressional Budget Office, a savings that can directly reduce the hemorrhaging Federal budget deficit.

The ensuing increase in food prices would add less than 1 percent to the CPI, according to the Food Aid Agricultural Policy Research Institute at the University of Missouri. And by increasing farm income, the Alexander/Stangeland substitute would enable many debt strapped farmers to pay off their loans and get back on their feet.

But this is not simply a vote on controls. It's a vote for a referendum to give farmers the opportunity of choice. If 60 percent don't approve the controls, we won't have them. In that case price supports would be targeted to those who need them.

With the Alexander/Stangeland substitute we can save the family farm and reverse the tidal wave of crisis and despair sweeping rural America. The Alexander/Stangeland substitute is a broad, bipartisan bill that is the only hope of relief for the family farmer this year.

MR. ROGER SMITH, CEO OF GENERAL MOTORS CORP., SPEAKS TO HIS CONCERNS ABOUT THE AMERICAN AUTOMOBILE INDUSTRY

HON. BOB TRAXLER

OF MICHIGAN

IN THE HOUSE OF REPRESENTATIVES

Thursday, October 10, 1985

Mr. TRAXLER. Mr. Speaker, the congressional automotive caucus had the opportunity earlier today to meet with Mr. Roger Smith, the chairman of the board of General Motors. He had some very important news for us about his view of the state of our auto industry and the future of General Motors. I am sure that his remarks will be of great interest to all of our colleagues, and I would like to insert them in the RECORD at this point:

REMARKS BY ROGER B. SMITH, CHAIRMAN, GENERAL MOTORS CORP.

I am especially pleased to be with you today. When we last met in 1983, I told you about some of our plans for the future at General Motors. We had just announced our Saturn project and I told you about the concepts we had in mind for that project.

In view of all the public attention to Saturn—and I must say we did not anticipate all this publicity—you are probably aware of the fact that we now have a site for the Saturn plant in Tennessee and have dedicated the Saturn headquarters in Michigan. We have run prototype vehicles, and plans for the manufacturing facility are underway.

Perhaps most important of all, we have signed with the UAW an agreement which we think will be historic and improve relationships with our workforce.

We are excited about the challenge which Saturn represents, but we are now dedicated to talking less about it and working more to make it happen.

Also in that meeting, I told you about our joint venture with Toyota at the Fremont, California plant. We were hoping then for approval by the FTC. Not only was the program approved, but the plant is now up and running and its new Chevrolet Nova is on the market across the country.

Our hope remains that this joint venture will provide an opportunity to learn whether Japanese management and assembly techniques can be applied in the American environment. I can now report that the learning process is going forward even better than expected and we firmly believe the lessons that we are learning will make all of our operations more effective.

Some big things have happened since our last meeting.

We have acquired Electronics Data Systems, a world leader in data processing and computers.

We are in the process of purchasing Hughes Aircraft, a major high-tech company in electronic guidance systems, process engineering, and satellites.

We've bought into a half dozen robotics and machine vision companies.

And we have redoubled our research efforts at the General Motors Technical Center in addition to investing a great deal more in joint technical ventures with companies worldwide, and sponsoring more university research.

The idea is to achieve exponential growth in the technological areas—to leap frog ahead by either our own R&D, or by buying into leading-edge technology wherever we can find it.

At General Motors, we are in the midst of the greatest effort in our history—an unprecedented technical and organizational revolution with the primary purpose of assuring that we roll on into the 21st century—with a full-range of American-made cars—with jobs and with a viable manufacturing base that continues to support this nation's economy.

The challenge, of course, springs from the internationalization of the marketplace—from world competition on a colossal scale—not only in the auto industry, but throughout most of American manufacturing.

Fully 70 percent of the goods we produce in this country now face foreign competition.

That bears restating—70 percent of all American products now compete with merchandise from abroad.

There are no longer any backwaters that are safe from the gunboats of world competition.

It is no exaggeration to say that this is truly a fight for survival—survival of our manufacturing base, of American jobs, and of the high standard of living we have worked so diligently to achieve.

It is a competition in which no company, no matter how large, is safe.

At General Motors, we feel the best answer to world competition is to get out in front and lead it.

We really sprang into action when the going got tough in 1981—at a point when the corner newspaper boy made more profit for the year than General Motors.

From that low point we have invested more than $40 billion in high technology for our products, our processes, and our people.

It's interesting to look back and see that in the early 1950's, the head of the bank of Japan, Hisato Ichimada, proclaimed that Japan should not resume passenger car production, since it would be more economically practical to rely on foreign supply.

Mr. Ichimada, and many others around the world at that time seriously underestimated the vitality of the Japanese people.

Today, many in the U.S. are making a similar mistake about our own people.

We have the best people in the world—the best scientists, the best engineers, the best administrators, and yes, even the best managers.

Yet, we have not utilized our human resources effectively in the past.

Except in times of war, we have squandered a large measure of our talents and energies in adversarial relationships—between labor and management, and between government and business.

Frankly, our competitors in the Pacific Rim Countries are not terribly afraid of us technologically.

They know that technological leadership only gives one a couple of years advantage, at best.

Yet, when we talk about cooperation—about getting our people to act together—our competitors are genuinely concerned.

They know that unity of purpose is their one overriding advantage—for the moment.

Here I am most encouraged about the future because I see America finally realizing the full potential of its people.

At General Motors, we have been making great strides. We've established Quality of Work Life Programs in every one of our plants and offices.

And, we're putting our manufacturing operations through a corporate-wide restructuring.

The aim of this reorganizing is to bring decision making down to the peole who can do the most about it—the men and women actually doing the work.

For the first time, we're recognizing our people as assets.

We're providing training and educational help as never before.

At a typical new plant these days, we now invest more than a million hours of training before the first car is ever produced.

Knowing what to do is critical, but it's only the first step.

Having the confidence to actually do what needs to be done is even more important to success.

You aren't going to assume the role of full participant and decision maker if you fear that your efforts might make your job obsolete.

General Motors and the United Auto Workers addressed this issue head-on in our contract last year.

Jointly, we guaranteed that if an employee is laid off because of the introduction of new technology, outsourcing, or negotiated productivity improvements, he won't be out on the street.

That employee will go into a job bank where he or she is eligible for a variety of assignments, training, and job placement.

People and high technology—that's the general strategy which is going to help us move aggressively into the future—to protect our position as the world leader of car and truck manufacturing.

It is a strategy that already is working on many fronts.

On fuel economy, for example, we have made major strides. GM cars are 22 percent lighter than they were in 1974—an average weight reduction of some 1,100 pounds. And we doubled the fuel economy of the cars we produce.

On safety, the Highway Loss Data Institute reports year after year that overall injury claims of GM car owners are among the lowest in the industry.

The technical sophistication of today's cars, their safety achievements, and our recovery from the worst recession since the 1930's—all of this has been nothing short of miraculous.

I think we've come a very long way—but we also have a long way to go.

Yet, I am encouraged by what I see in my industry—by the technology, and by development of our human resources, the realization of each individual's potential as never before.

I'm equally encouraged by the relationship that has been developing between government and industry.

By that, I do not mean a partnership between government and business.

The kind of interrelationship that Japan and other competitors have with their governments would not work here.

No. Business should dofor itself.

As the National Academy of Engineering put it:

"While public policy has a critical supporting role to play . . . the long-term future of the auto industry is by and large in the hands of its participants."

I agree entirely.

I've never seen any evidence anywhere in history, that government intervention and economic planning have ever worked as well as the decisions people make for themselves in what they buy.

Government, however, does have responsibilities in creating an environment in which the economy can function to everyone's best interest.

I would interject here a few comments on another issue of growing importance. That is, South Africa. A number of U.S. companies with facilities in that country have formed the U.S. Corporate Council on South Africa and you will be hearing more about that as time goes on. Our purpose is to join with our counterparts at the CEO level in South Africa to bring about an end to the policy of apartheid.

We have a history of being very clear about our strong opposition to apartheid and have made this opposition known to the South African government. Our objectives are specific, not general. They include:

The abolition of influx control.

The granting of free hold property rights to all blacks.

The dismantlement of the migratory labor system that separates spouses and families.

Resolution of the citizenship issue.

Facilitiating the dialogue which would lead to black participation in the political arena.

These are objectives shared by responsible South African business leaders. We at General Motors and in the Council have pledged our support. By being in South Africa, we think we may make a difference in moving more rapidly toward these goals, helping to bring an end to the tragic loss of life in that country while accomplishing peaceful but meaningful change.

Now I'd like to leave you with just four points that we in General Motors feel that Washington can, and should, do.

First and foremost is reduction of the federal deficit. That's the surest way to bring the dollar down enough to give American products a chance to compete.

I recognize the difficulties associated with far-reaching restraints on spending, and I know of no easy way to fix the problem.

But, it must be done if we want to continue as a producing country, as a country with jobs, and as a country with a standard of living that remains the envy of the world.

Another important step is tax reform.

In June, I was here in Washington testifying before both House and Senate Committees in support of tax reform.

Now I don't want to take the time to repeat what I said then, except to emphasize that true tax reform should be a top national priority.

The current tax system has the effect of indirectly influencing business decisions in ways that seldom coincide with solid business planning.

In essence, business decisions are too often made to achieve tax benefits that too often run counter to becoming more world competitive.

My third recommendation deals with international competitiveness and world trade.

We are facing a tough, persistent trade deficit.

But world competition will not go away.

We're going to have to fight it out sooner or later, and if not now, . . . then when?

At the same time we must insist on the elimination of those non-tariff barriers that exist in other countries. And we must be effective in helping workers who suffer job loss.

But the way to help them is to foster policies that create jobs—real, viable jobs.

The trade issues are difficult and complex. But I do believe, tough as it is, our long term interests as a nation are best served by an open trading system.

Fourth, and finally, I can't let this opportunity go by without saying something about regulation.

The heavy regulatory burden of the early 1970's had much to do with my industry's inability to respond effectively to rapid market changes.

So much of the energy of our scientists and engineers was taken up in meeting one regulation after another, that we simply did not have the human resources to maximize our competitiveness.

Fuel economy standards are perhaps the best, and most current, case in point.

Recently, the fuel economy standard was relaxed for 1986, which was greatly appreciated but did not completely address the ongoing problem.

A similar adjustment for future model years is equally as important in order to avoid the potential of curtailing production of some car lines and throwing thousands of employes out of work.

In all of this, I guess what I am saying is that we in the auto industry are ready and willing to fight our own competitive battles on the world field of competition.

We at General Motors believe that we're ready for the game. We've trained for this competition as never before—have the best technology, and the greatest faith in our people's critical decision-making ability.

You bet there are risks.

As Peter Drucker once said, "whenever you see a successful business, someone once made some courageous decisions."

To which I'd add, and someone took some colossal risks.

At General Motors we are ready to take the risks, to run in competition all the way into the 21st century and beyond.

We can do it, and with your help, we will win.

Thank you.

PERSONAL EXPLANATION

HON. BILL GREEN

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Thursday, October 10, 1985

Mr. GREEN. Mr. Speaker, yesterday, October 9, 1985, I was absent for two recorded votes due to a longstanding commitment, I had to speak before members of the Anti-Defamation League of the B'nai B'rith in Detroit, MI. I should like to note for the record that had I been present, I would have voted "nay" on rollcall No. 351, the Burton substitute amendment to H.R. 3008, the Federal Equitable Pay Practices Act. On rollcall No. 352, final passage of this measure, I would have voted "aye."

MENTAL HEALTH AWARENESS WEEK

HON. TOM LANTOS

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, October 10, 1985

Mr. LANTOS. Mr. Speaker, under legislation approved by Congress earlier this year, this week has been designated "Mental Health Awareness Week." I was proud to be a cosponsor of this bill, and am glad now to have an opportunity to share with my colleagues some of the sobering facts about mental illness.

Mr. Speaker, the statistics are truly disturbing—mental illness can strike anyone at any time. It is estimated that between 30 and 40 million Americans—nearly 1 in 5 people—suffer from some form of mental illness at any given moment. The problems range widely from schizophrenia and depression, to substance abuse and anxiety disorders. Mental illness strikes both men and women, regardless of race, age, and social background. The sufferers range from street people to some of the most highly educated and talented people in America. We are all vulnerable.

The costs to our society are devastating. It is estimated that the direct costs of mental illness are more than $20.9 billion per year. With the additional costs of substance abuse disorders, that figure rises to well over $185 billion.

But what is still more troubling, Mr. Speaker, is that we have been slow to address these problems and slow to provide the help that is so desperately needed. We need only look at a selection of commonly

available health plans to see that treatment of mental illness is a low priority.

Moreover, the stigma associated with mental disorders prevents many from asking for the help they require. Only 1 in 5 sufferers seeks medical help. For many, it can lead to the tragic and senseless waste of life through suicide, and frequently by the younger and most promising members of our society. I believe that my bill, H.R. 1894, the Youth Suicide Prevention Act will play a highly significant part in addressing the most tragic symptom of mental illness, the act of taking ones own life. This legislation will provide a mechanism to set national priorities for youth suicide prevention, as well as providing preliminary funding for prevention programs.

Mr. Speaker, I would like to commend the American Psychiatric Association for the outstanding symposium it organized this week as part of its contribution to "Mental Health Awareness Week." Through the work of the APA, and that of similar organizations, we will learn more about one of the most tragic illnesses of our time.

Just like other diseases, mental illness has symptoms and it can be effectively treated. It is up to us, however, to seize the initiative and act.

Mr. ADNAN KHASHOGGI

HON. FERNAND J. ST GERMAIN

OF RHODE ISLAND

IN THE HOUSE OF REPRESENTATIVES

Thursday, October 10, 1985

Mr. ST GERMAIN. Mr. Speaker, I must confess that I hoped Adnan Khashoggi's exploits would be restricted to the gossip pages, where news of his unprecedented $2 billion divorce settlement ran for weeks. So it was with great consternation that I learned that the Saudi arms dealer is again making news headlines, this time courtesy of the Department of Energy. During this era of budget-cutting the DOE, in all its wisdom, has decided to bestow a $72 million Federal loan gaurantee on Mr. Khashoggi, so he can build an alcohol fuels plant in Louisiana.

While some might applaud Mr. Khashoggi for investing the money in this country, rather than funneling it to Saudi Arabia, as he was allegedly wont to do for many a U.S. defense contractor in the 1970s, one might ask why we should subsidize the production of a costly fuel substitute when the world market is glutted with the real thing.

One might also be excused for asking why we should subsidize Mr. Khashoggi, said to be one of the world's richest men. Of course, the Government's largesse is understandable when you consider that the depressed market for real estate and construction has reportedly forced the billionaire to slash expenses—he was only able to host 500 guests at his 50th birthday party this July.

This handout mentality also prompted the Government to bail out Chicago's ailing Continental Illinois Bank at the bargain basement price of $4.5 billion.

Yet, I haven't heard anyone asking the taxpayer if he wants his heard-earned cash used for welfare for the rich.

Finally, has DOE, or anyone else for that matter, done an analysis to determine whether synfuels production makes economic sense when America is alternately conserving—and producing—more natural fuel than ever before? Only Louisiana seems to have determined there is an economic benefit—the synfuels plant will use the surpluse molasses produced by its State's farmers.

However, while creating jobs and new markets is an admirable goal, it does not warrant makework jobs and "White Elephant" industries. Unfortunately, Mr. Khashoggi's Agrifuels Refining Corp. does little to meet the legitimate needs of our country.

WELFARE REFORM

HON. NORMAN D. SHUMWAY

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, October 10, 1985

Mr. SHUMWAY. Mr. Speaker, the recent signing of Greater Avenues for Independence [GAIN] legislation in California is a significant step toward true welfare reform, an accomplishment which will benefit both welfare recipients and taxpayers alike. I commend Governor Deukmejian and members of both chambers of the State legislature for their notable accomplishment.

For years, citizens and legislators have recognized the need to reform the Nation's multibillion-dollar welfare system. Stories of second and third generation welfare recipients, of able-bodied but unemployed participants, lack of coordination among the more than 70 welfare programs currently in existence, and regulations which serve as work disincentives, have intensified interest in reform. Creating a system which would provide appropriate relief to the needy without breeding debilitating dependency, and at the same time safeguarding it against those unneedy individuals who would make a mockery of public assistance, has been a sizable challenge to each State and the Federal Government.

The California initiative, which requires able-bodied welfare recipients with children over the age of 6 to work for up to a year, take job training or go to school, is one way the problems facing some of the Nation's millions of welfare recipients may be addressed. Other States have also enacted reforms, and have enjoyed success through various combinations of workfare, job training, and education.

However, in light of the substantial Federal investment in the welfare system—currently 3 of 4 welfare dollars come from the U.S. Treasury—I believe there need to be some minimal Federal guidelines for administration of Federal assistance. Thus I have introduced legislation to target a mandatory workfare requirement to primary wage earners in AFDC-U—two-parent—families. Requiring able-bodied individuals in two-parent families to work to offset the cost of benefits received will enhance self-esteem, improve job skills, bring about a reduction in long-term welfare dependency, provide useful services that State and local governments could not otherwise afford, and help to restore public confidence in the safety net. Under my bill, States would retain the right to expand these workfare requirements if they so desired.

Mr. Speaker, the time has come for Congress to participate in welfare reform; I urge immediate consideration of my bill.

IMMUNIZING THE WORLD'S CHILDREN BY 1990

HON. TONY P. HALL

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

Thursday, October 10, 1985

Mr. HALL of Ohio. Mr. Speaker, today I, along with 12 of my colleagues here in the House and 3 Members of the Senate, am introducing an important resolution. This resolution calls on the President to support expanded access to immunization programs for all the world's children.

Each year over 4 million children die, and another 5 million are disabled from easily preventable diseases. This means that every minute of every day, 8 children die and 10 more are handicapped from the effects of immunizable diseases.

These tragedies need not occur. Vaccines to prevent six leading diseases which kill and cripple children have existed for years. But less than 20 percent of the 90 million children born in developing countries each year are immunized against these common childhood diseases: measles, polio, tuberculosis, diphtheria, pertussis, and tetanus.

The World Health Community has set a goal of immunizing all the world's children against these diseases by 1990. This month, the United Nations General Assembly is expected to pass a resolution calling upon the nations of the world to commit the resources necessary to meet this challenge.

This is not only a very important goal, it is also achievable. The World Health Organization, the United Nations Children's Fund, the United Nations Development Program, the International Bank for Reconstruction and Development, and the Rockefeller Foundation stated at an international meeting in Bellagio, Italy, last year that the goal of universal child immunization by 1990 was indeed possible to reach.

We in the Congress have affirmed our support for immunization programs and other basic health programs for people in less-developed countries by funding such agencies as the Agency for International Development and the Center for Disease Control, by our contributions to UNICEF, and by the establishment of the Child Survival Fund. However, to reach the goal of universal immunization, we must enhance our support of these vital efforts.

This resolution calls upon the President to direct all appropriate Federal agencies to work in the global effort to provide enhanced support toward achieving the goal of universal access to childhood immunization by 1990. I hope you will join us in working toward this goal. The lives and well-being of millions of children around the world are at stake.

NEW LIFE FOR THE BROWNSTONES OF BEDFORD-STUYVESANT

HON. EDOLPHUS TOWNS

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Thursday, October 10, 1985

Mr. TOWNS. Mr. Speaker, often neighborhood revitalization is nothing more than rhetoric in most urban policy debates. However, there are examples of successful community redevelopment efforts. In Brooklyn, the Bedford-Stuyvesant community is experiencing a new interest in preserving and rehabilitating its brownstone houses.

This area, in fact, has the largest concentration of brownstones in the United States. In many cases neighborhood revitalization has meant that minority groups were pushed out of a community. In the case of Bed-Stuy, however, middle class blacks are now coming back into the area and enhancing economic development in the business community as well as the housing market.

Today's New York Times carried an article by Joseph Giovannini on the preservation of Bed-Stuy's brownstones. I have inserted this article for my colleagues' review as an example of good community revitalization.

GIVING NEW LIFE TO THE BROWNSTONES OF BEDFORD-STUYVESANT

(By Joseph Giovannini)

It is a mansion, or nearly a mansion, that Arthur and Esther Bramwell did not know they wanted. "A friend introduced me to the house three years ago," said Mr. Bramwell, a deputy county clerk in State Supreme Court in Brooklyn. "I told him I already had a house nearby that was paid for, that I didn't need it. He said I had to see it."

The doors in the 12-foot-high parlors are faced in oak on one side and mahogany on the other. Virtually every opening in the late-19th-century house—doorways, windows and fireplaces—is surrounded with highly detailed and intact late-Victorian woodwork. Mr. Bramwell, pointing out the patterned brass hinges on the oak front door and the coat hooks made of sterling silver in the entry hall, is proud of the elegant 12-room, four-story brownstone he now owns in the Bedford-Stuyvesant section of Brooklyn.

Often cited for its abandoned buildings, vacant lots and property, Bedford-Stuyvesant also has one of the largest concentrations of well-preserved brownstones in the United States. Within the three-and-a-half-square-mile community there are extensive well-maintained neighborhoods of two-, three-, and four-story owner-occupied houses. The Bramwells' is one of the most elegant of the many such houses built near the turn of the century, when the area was a residential district for well-to-do families. A 10-block area around Stuyvesant Heights is a historic district, and a larger area, nearly 1,000 homes on 40 blocks, has been surveyed for historic designation.

Once regarded as a symbol of the decay of American inner cities, Bedford-Stuyvesant has changed since Robert F. Kennedy made his historic walk there in 1966—a walk that helped lead to federally financed community development programs across the country.

"It's the brownstones that have kept Bedford-Stuyvesant together—they've been the stabilizing force here despite the large pockets of poverty," said Lucille Rose, vice chairperson of Community Board 3, which encompasses the predominantly black Brooklyn community. Mrs. Rose lives in a three-story limestone building that she bought in 1942 for $8,000. Even though her long career in city government took her from a position as a fiscal clerk to Deputy Mayor, she never moved from her home. "What has kept me and many others here has been the brownstones, and the great sense of pride on our blocks," she said.

Kermit Moran, a real estate broker in Bedford-Stuyvesant, said that over the last five years he has seen an acceleration of interest in brownstones in the community and that most people now buying are middle- and upper-middle-income blacks. Their interest has centered in and around the historic brownstone core, especially toward downtown Brooklyn to the west and Broadway to the east.

"The brownstone is not only a house—it's part of a block," said Jacqueline Jones, head of the annual tour sponsored by the Brownstoners of Bedford-Stuyvesant, to be held this year on Oct. 19 (for information about the tour, which visits a cross-section of homes, call 718-443-8919).

The small, owner-occupied brownstones help make neighborhoods cohesive. "We know our neighbors," Mrs. Jones said.

"I felt perfectly safe last night walking home from a meeting," Mrs. Rose said, "because I saw my neighbor looking out her window, and when I got in I waved to her, and she waved to me and then left the window. I do the same for her."

According to Francine Thomas, a senior mortgage officer with the Bedford-Stuyvesant Restoration Corporation, the brownstones have been basic in rebuilding the community after its postwar decline because they have been accessible in price, suitable for families, attractive, adaptable and practical. The brownstone revival of the late 1960's and 70's in the rest of Brooklyn spread to Bedford-Stuyvesant, assisted by locally administered housing programs.

Vonceil and Robert Turner, for example, bought their brownstone on Hancock Street 12 years ago for about $30,000, with the Bedford-Stuyvesant Restoration Corporation advising them how to get an F.H.A. mortgage. Working with a friend, Mr. Turner, a battalion chief with the Fire Department, and Mrs. Turner, who works for the city Social Services Department, did much of the restoration work themselves.

The corporation, which receives both private and Federal funds, rehabilitated about 1,200 apartments and houses and helped finance work on 4,200 facades. Commercial banks now provide most financing for home purchases and improvements.

Mr. Moran said that last year alone the value of brownstones in the community appreciated about 25 percent. A brownstone within the historically important areas, if available, sells for $90,000 to $125,000, and outside those areas, from $70,000 to $90,000, according to Pat Cyrus, director of the local office of the city's Housing Preservation and Development Department. The community's first condominium project—in an apartment building at 2 Macon Street—will be completed in about a year.

Mrs. Rose called the changes a Renaissance: "In the last five years, it's like a Back to Bed-Stuy movement. People are beginning to see it as a stable area."

With homeowners better aware of the value of their brownstones and more confident of their community, there are fewer bargains now, and many of the buildings becoming available require more work.

On Macon Street, Michele Stewart, a placement counselor, recently finished renovating a brownstone that she bought with her brother Michael Stewart, a city assessor, two years ago for about $25,000. They spent $50,000 to convert the two lower floors into rental units and the two upper ones into a duplex apartment for her. (While many brownstones remain single-family, many others have been subdivided.)

The strong sense of neighborhood on many blocks is reinforced by a large number of community churches, many of them architecturally distinguished. Brownstoners of Bedford-Stuyvesant and the Magnolia Tree Earth Center, which plants and landscapes streets, are other active community groups. The community has received various forms of assistance for the houses from such organizations as the Bedford-Stuyvesant Restoration Corporation, the Vann-Guard Urban Improvement Association and the local Housing Preservation and Development office.

"You have to go to the South to find the same sense of warmth," said Earlene Harris, who bought a brownstone in nearly perfect condition with her husband, Dr. Jerome Harris, about two years ago. "You walk up and down the street, and you're always saying hello to people sitting outside," Mrs. Harris said.

The Harrises—he is a school district superintendent in Brooklyn, she, an administrator for the Board of Education—moved from an apartment on the Upper West Side because they wanted more room and because they were attracted to the quality of life in their neighborhood.

As in many of the more elaborate brownstones, the interior of their four-story, 12 room-house is almost a continuous piece of furniture, with detailed paneling, wainscoting, moldings, shutters, mantels, fretwork and staircases. They have furnished the antique interiors with their own antiques, and own a collection of African and Afro-American art.

Rufus and Geraldine Causer—they are with a New York publishing concern, he as a financial adviser and she as a bookkeeper—also own a large brownstone with fine woodwork, which they have furnished with reproduction Colonial antiques. Mr. Causer smiles about his purchase, not only because of the price ($35,000 eight years ago), but also because "I had no idea what I was doing."

"I was looking for a house in Long Island when my brother-in-law suggested I look at it," he said. "I bought it because he said it was a nice house."

Because the woodwork was not intact in the brownstone that Brenda and Wilbert Fryson and their daughter, Kenya, moved

into in the 1970's, they felt free to modernize the interiors. Over a period of years, the Frysons—he is a social worker, she an educational program coordinator—gutted the interiors and built a multilevel modern space designed by an architect. The main parlor floor, for example, became a double-story space, open to the roof and a skylight.

Perhaps the simplest story of setting in Bedford-Stuyvesant is that of Sheryl Shell, a teacher and opera singer, and her husband, Reginald, an accountant. They bought a medium-sized brownstone five years ago for about $30,000. It had not only its original woodwork, fireplace tiles and kitchen, but also the wallpaper and lace curtains, which still hang on the doors and windows. It was owned by two sisters who were members of the family that bought the house when it was built. For the Shells, restoration so far has primarily been a matter of sweeping, dusting and polishing.

HARRY W. PINDER, JR.

HON. ROY DYSON

OF MARYLAND

IN THE HOUSE OF REPRESENTATIVES

Thursday, October 10, 1985

Mr. DYSON. Mr. Speaker, I rise today to honor the memory of a fellow Marylander, Harry W. Pinder, Jr.

Harry will be remembered by his many friends in Maryland as a kind and decent man who worked hard to make his community a better place in which to live. For 26 years, Harry was the conscientious and caring owner and operator of Circus Park Trailer Court in Cecil County, MD.

A lifelong Democrat, Harry's active involvement in our Nation's political system dates back to Franklin Delano Roosevelt's first inauguration. I believe, Mr. Speaker, that it is people like Harry Pinder—people committed to the principles of pluralism and participation—who make our country great.

A fine family man, Harry was devoted to his wife Gladys and his five daughters, Esther L. Pinder, Helen Mae McMullen, Bessie V. Bamberger, H. Christine Handy, and Barbara K. Pinder, as well as his three siblings, Muriel Williams, Beatrice Huester, and William D. Pinder, Sr.

It is with great pride, Mr. Speaker, that I share these words of remembrance of Harry W. Pinder, Jr.

NATIONAL SIDS AWARENESS MONTH

HON. GEORGE MILLER

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, October 9, 1985

Mr. MILLER of California. Mr. Speaker, I am delighted that the House has approved my legislation, House Joint Resolution 322, to designate October 1985 as "National SIDS Awareness Month."

Sudden infant death syndrome—commonly know as SIDS—is a quiet but mighty killer. It takes the lives of about 7,000 infants every year—about 1 out of every 500 babies born—making it the most frequent cause of death between the ages of 1 month and 1 year. Ten percent—about 700 deaths attributable to SIDS—occur in my home State of California annually.

Every day 20 to 30 seemingly healthy infants die unexpectedly of SIDS. SIDS strikes without warning while infants are apparently napping or sleeping peacefully. We now know that the greatest frequency of SIDS deaths occurs among infants 2 to 4 months old, although it does occur among older infants as well. Infants who are premature, low birth weight, born into poverty or who have had a sibling claimed by SIDS appear to be at highest risk.

The death of a child is always catastrophic for a family and loved ones. A SIDS death is especially so because until recently SIDS deaths were unexplained, resulting in much blame and guilt among family members, on top of the enormous grief experienced due to the loss of a child.

We still know very little about SIDS and what we do know has only emerged in recent years. Not so long ago SIDS deaths were simply unexplained. This was a phenomenon that no one really knew about, except those who suffered its tragedy. There was no official name for SIDS until the 1960's, and before the mid 1970's, it was not entered as a cause of death on death certificates.

Since that time we have made progress learning about the disease. It is now a recognized medical entity. However, we need to learn much more. The cause of SIDS and possible effective preventive approaches remain a mystery. We also need to expand awareness efforts that can provide critical emotional support to families who have lost a child to SIDS.

Much of the progress made to date has been stimulated by the hard work and commitment of individuals and groups dedicated to increasing public awareness and promoting research on the causes of SIDS and ways to prevent it. I want to thank Gayla Reiter, who is the mother of a SIDS victim, and her assistant, Bob DePillis, for providing the initial inspiration for this legislation. These individuals along with the National SIDS Foundation and the National Center for Prevention of SIDS have provided unfailing leadership in efforts to conquer SIDS.

I also especially want to commend and thank my colleague. BOB GARCIA, who knows about the tragedy of SIDS firsthand and has been a leader on this issue for us all in this House.

Over 200 Members of the House have joined me in sponsoring this legislation. It will serve to focus greater national attention on the problems of SIDS, with the hope of promoting greater understanding and ways to prevent the terrible tragedy of SIDS.

PROTECTING OUR DOMESTIC INDUSTRIAL BASE WITHIN THE CONTEXT OF INTERNATIONAL AGREEMENTS

HON. STEVE GUNDERSON

OF WISCONSIN

IN THE HOUSE OF REPRESENTATIVES

Thursday, October 10, 1985

Mr. GUNDERSON. Mr. Speaker, since May, U.S. exports have declined by 5.2 percent, and in the month of August, the trade deficit came $9.9 billion closer to the $150 billion trade deficit predicted for 1985. International trade economists credit this continued economic slide to the strong dollar and yet, since February, the U.S. dollar has declined against other world currencies by 16 percent. While the administration contends that the devalued dollar cannot favorably impact on the trade deficit for 18 months or more, industrialists verify that, in the meanwhile, we are witnessing the deindustrialization of America.

It's no wonder Congress has decided to intervene and it is, furthermore, no surprise that Members have produced hundreds of trade bills designed to restrict or tax imports.

Before protectionist sentiment overwhelms us, however, we should examine our place in the world market. We do indeed function within an international context and due to the interdependent nature of trading economies, actions we implement abroad invariably impact domestically.

The Ex-Im Bank, for example, which functions as an independent foreign lending agency of the U.S. Federal Government, has a total exposure of $35.4 billion. Payment of these loans are in direct proportion to the debtor nations' ability to export into America. This is problematic when our major debtor nations are also those targeted for import restrictions.

When coupled with private sector commitments abroad, total U.S. exposure multiplies dramatically. For Mexico, the amount exceeds $28 billion while Brazil reportedly owes $26 billion. We simply cannot afford to ignore this commitment.

Despite the trade deficit, total U.S. exports for 1984 exceeded $217.9 billion.

Additionally, we are equally dependent on international agricultural sales. For 1984, U.S. agricultural exports totaled $37.8 billion. For the same period, we imported $19.3 billion. The result is an $18.5 billion trade surplus. We cannot afford to risk this net gain.

Our partnership in world trade, however, does not justify further tolerance of unfair trade practices, particularly in light of the internationally structured provisions for relief.

Accordingly, the first action Members of Congress are obliged to take is enforcement of present trade laws. Since 1948, when the General Agreement on Trade and Tariffs [GATT] was implemented, we have maintained reasonable alternatives to protectionist legislation, which, as structured and

enforced, provide the same relief from imports.

Sections 201 and 301 of the 1974 Trade Act, for example, are intended to restrict imports, based on an International Trade Commission's [ITC] favorable recommendation. Following are three examples of such alternatives, which unfortunately, have been either ignored or not enforced.

The recent ITC ruling for the footwear industry, for example, has been the topic of much debate. The International Trade Commission [ITC] ruled unanimously that imports had imposed serious injury to our domestic counterparts. Consequently, the Commission recommended quotas for 5 years on nonrubber footwear imports valued over $2.50 per pair. However, the President failed to implement the Commission's recommendation. Consequently, stiffer legislation has been introduced for a greater length of time.

Likewise, the textile industry has appealed to Congress for relief. The Commerce Department confirms that had the Multi-Fiber Arrangement [MFA] been enforced, the legislation intended to limit textile imports by 30 percent wouldn't be necessary. The MFA provides the structure for world textile trade and provides for import restrictions when verifiably necessary.

Finally, the National Pork Producers Council is currently appealing an ITC recommendation for import relief. While the Commission rules 3 to 2 that Canadian pork has injured our domestic industry and accordingly restricted the import of live hogs into America, they recommended, nonetheless, to allow unrestricted quantities of fresh pork products into the States. Ultimately, the decision merely benefits Canadian pork processors.

Clearly, these actions warrant congressional intervention in defense of American industry. However, such action need not be as extreme as protectionists might advocate. By making necessary procedural revisions in current law, enforcement can make the difference. Many members are consequently considering the possibility of transferring final decisionmaking authority in these and future ITC cases from the executive branch to a separate trade agency.

Second, it is time to recognize that the subtle subsidies used by many trading partners to enhance their exports, seriously handicap our ability to compete domestically. Accordingly, we must uncover the existing subsidies and either eliminate them or apply countervailing duties. Funds raised from these duties can be applied to assist displaced workers through training assistance or job relocation efforts.

Wage rates are a prime example of these subtle subsidies. Clearly, there is no way American businesses can compete with nations that achieve a wage advantage by paying their employees a substandard wage. Calling for a decrease in U.S. wages is unacceptable. We must make clear that these wage subsidies are unfair and consequently open to retaliation.

Enforcement of current law is the first responsible alternative to the present deficit, if we are to preserve our place in world trade. We must make existing laws work effectively and more expeditiously. Within this framework, we must pursue any action necessary to give American industry a chance to be competitive. Clearly, it is shortsighted to fund defense efforts if the demise of our industrial base leaves us otherwise dependent on our industrialized trading partners.

RED-LETTER DAY IN THE FIGHT AGAINST RADON

HON. BOB EDGAR

OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, October 10, 1985

Mr. EDGAR. Mr. Speaker, this is a red-letter day for those of us who have been working to stop radon contamination of homes in eastern Pennsylvania's Reading Prong.

As many of my colleagues know, radon is a colorless, odorless, and tasteless gas that is produced by the decay of naturally-occuring uranium deposits. Radon has collected in hundreds of homes built over the prong, a seam of uranium stretching several hundred miles through Pennsylvania, New Jersey, and New York. When inhaled by the people living in these homes, radon is extremely hazardous drastically increasing the residents' risk of lung cancer.

This morning in my Committee on Public Works and Transportation, we passed a Superfund reauthorization bill which included the text of my bill, H.R. 3172. This legislation directs the Environmental Protection Agency [EPA] to conduct a national assessment of the radon problem and to report to Congress on the levels of radon that pose a threat to human health. Even more important, it directs the EPA Administrator to set up a $4-million demonstration project in the Reading Prong. The purpose of the project is to provide better information on radon mitigation techniques for homes contamination with radon.

The other body has already passed a Superfund reauthorization bill, and it includes an amendment by Senator LAUTENBERG which would cover radon and other indoor air pollution. We're making real progress on the legislative front.

Also this morning, Pennsylvania Governor Dick Thornburgh announced a homeowner assistance program for eliminating radon gas. The $3-million program will allow residents of radon-contaminated areas in Pennsylvania to get low-interest loans to clean up their homes. The State will also continue its free radon testing program.

I am pleased that the Commonwealth of Pennsylvania has finally moved to take positive action in the face of the radon contamination crisis. In July, I had the opportunity to spend a morning with the people of Boyertown, PA, where the radon contamination problem is most serious. Not only do some residents of Boyertown have levels of radon in their homes which exceed the 0.02 working levels [WL] deemed dangerous, they have levels as high as 13.5 WL.

The people of Boyertown are rightly worried about the high cost of remedial action and the continuing danger of exposure while corrective measures are contemplated. The people of Boyertown are rightly terrified about the effect on their children. One couple has been told that the radon level in their home means that their children—aged 13, 11, and 8—are breathing the equivalent of the smoke from 21 packs of cigarettes every day and that their chances of developing lung cancer are one in eight.

It's about time that the Commonwealth takes some concrete action, though I think more than a loan program may be needed. In particular, the State must give people whose homes are contaminated with radon more specific information about which of the various mitigation techniques will work. And it is not yet time to rule out the possibility of grants for those who have radon problems that are very expensive to remediate.

Mr. Speaker, it's a positive sign that on the Federal and State levels we're moving ahead to address the radon crisis; but it's not yet time to stop, and I urge my colleagues to support my actions and those of Senator LAUTENBERG as we attempt to help those plagued with radon contamination. In order to provide them with more information about this threat, I ask that the text of Governor Thornburgh's press release today and the language of my provision in the Public Works and Transportation-reported Superfund bill follow my statement in the RECORD:

STATEMENT OF GOV. DICK THORNBURGH

GILBERTSVILLE, PA. (Oct. 10)—Gov. Dick Thornburgh today announced the nation's first homeowner assistance program to aid in eliminating radon gas from homes through a $3 million low-interest loan program to help residents of Berks, Lehigh, Northampton and Bucks counties in the geologic area known as the Reading Prong.

Thornburgh said he is proposing the initial low-interest loan program by the Pennsylvania Housing Finance Authority and the Department of Community Affairs to subsidize needed repairs for homes found to have high levels of radon, a radioactive, naturally-occurring gas which federal health officials have said can increase the risk of lung cancer.

"Although radon is a national problem certainly not limited to the Reading Prong, we simply can't wait any longer for the development of a national program," the governor said. "Our citizens need help now. The Department of Environmental Resources has done more testing than any agency in any state, and we are now pioneering assistance in helping to rid homes of this threat."

The governor will propose at PHFA's Oct. 18 meeting a program of loans at 2 percent interest for low- and moderate-income families with annual incomes under $36,000. Loans at 8 to 9 percent (still 5 to 6 percent below commercial rates) will be made available to families with incomes over $36,000 annually. Loans will be targeted for the most serious problem areas initially. Details of when and where to apply will be announced later after action by PHFA.

Thornburgh announced the loan program at a news conference at DER's recently-opened radon task force office.

Pennsylvania has led the nation in testing, monitoring and remedial designs to correct radon problems in homes since the discovery last December of a Berks County home near Boyertown with levels 675 times the exposure level generally deemed safe.

A variety of repair methods, from simple venting to exclusion of radon by sealing basement cracks and walls, are available. DER has prepared a list of suggested correction methods that is available to interested residents.

"We are encouraged by the attention this problem is receiving from the federal Environmental Protection Agency (EPA) and the Congress, but understand that any national program is at least six months away," said Thornburgh, who in September wrote EPA Administrator Lee Thomas seeking federal standards and suggesting Pennsylvania's intense work in radon testing be used as a prototype for national program development.

The governor announced that the state is also offering free home testing for radon to more than 20,000 homes in the four-county area of the prong under an additional $1 million program. Radio advertisements on eight radio stations will complement full-page advertisements Sunday, Oct. 13, in the Reading Eagle, the Pottstown Mercury, the Allentown Sunday Call, the Bethlehem Globe-Times and the Easton Express.

The advertisements will include a map of the Reading Prong and a description of the areas of townships and boroughs qualifying for the free tests. Residents living in those areas are asked to fill out the included coupons and send them to DER. Radon detectors will be sent to the residents, who should hang them in a basement or the lowest living space in the house for three months.

"It is important that everyone living within the so-called Reading Prong knows that free testing for radon is available, so we have taken this approach to reach as many people as possible," Thornburgh said. "We hope that people will take the few minutes necessary to send in the coupon."

DER has completed 3,499 tests in homes and schools since last January. Forty percent, or 1,392 tests, have readings above the DER action guideline of .02 Working Levels, a threshold for corrective action based on prior experience in the cleanup of uranium processing plant waste by federal agencies.

A working level is a unit of measure developed to evaluate miners' exposure to radon in uranium mining and relates to radioactive energy in a liter of air. There is at present no national standard for radon from natural sources.

The health threat from radon increases with its concentration. For example, a total of 352 tests so far have readings above .1 Working Levels, which equates to smoking a pack of cigarettes a day or an increased lifetime risk of lung cancer of 5 percent.

Radon gas is colorless, odorless and tasteless and is produced naturally in the ground by the normal decay of uranium and radium. While radon itself is not a major health concern, it continues to decay, producing new radioactive particles called radon daughters. These small alpha-emitting solids can be inhaled and deposit their energy on lung tissue, increasing the risk of lung cancer.

The Reading Prong is a granite rock formation running northeast from Reading through New Jersey and New York to the Connecticut border. As described by DER's Bureau of Geologic Survey, the prong is six to eight miles wide and about 45 miles in length through Pennsylvania.

To facilitate the testing program, borders of the prong were broadened to include some adjacent areas.

H.R. 2817, AS REPORTED BY THE COMMITTEE ON PUBLIC WORKS & TRANSPORTATION, OCTOBER 10, 1985

SEC. 214. RADON GAS.

(a) NATIONAL ASSESSMENT.—The Administrator of the Environmental Protection Agency (hereinafter in this section referred to as the "Administrator") shall—

(1) identify the locations in populated areas in the United States where radon gas and radon daughters are forming from naturally occurring deposits of uranium and are collecting in residences and other structures;

(2) assess for each location identified under paragraph (1) the amounts of radon gas and radon daughters that are forming and the amounts that are present in residences and other structures; and

(3) determine the level of radon gas and radon daughters which poses a threat to human health and assess for each location identified under paragraph (1) the extent of the threat to human health.

The Administrator shall submit a report to Congress on the results of the assessment conducted under this subsection not later that one year after the date of the enactment of this Act.

(b) DEMONSTRATION PROGRAM.—

(1) IN GENERAL.—The Administrator shall conduct a demonstration program to test methods of reducing or eliminating the threat to public health of radon gas and radon daughters. Such methods shall include venting of residences and other structures and any other methods the Administrator determines may be effective in reducing or eliminating such threat. The demonstration program under this section shall be conducted at the Reading Prong, Pennsylvania and New Jersey, and at such other sites as the Administrator considers appropriate.

(2) REPORTS.—The Administrator shall submit interim reports not later than September 30, 1986, and September 30, 1987, on the status of the demonstration program carried out under this subsection. The Administrator shall submit a final report on the results of such program not later than December 31, 1988.

(3) AUTHORIZATION.—There is authorized to be appropriated for fiscal years 1986, 1987, and 1988 a total of $4,000,000 to carry out this subsection.

A&T'S OWN DR. WILLIAM BELL

HON. EDOLPHUS TOWNS

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Thursday, October 10, 1985

Mr. TOWNS. Mr. Speaker, we often have fond memories of our college days. For me, there is no greater memory of my alma mater than my participation in the sports program at North Carolina A&T State University.

A major reason for those happy days was my association with the athletic director and football coach at that time, Dr. William M. Bell. Dr. Bell, who received his Ph.D. from Ohio State University, was the backbone not only of A&T's sports program, but the physical education department as well. His greatest achievement was establishing A&T as a sports power with championship teams in the CIAA conference in football, baseball, and basketball. I was fortunate to be a participant on some of these teams. Yet, Dr. Bell gave us much more than just a great sports history; he helped mold the lives of many young people at A&T along with his able administrative assistant, Mrs. Catherine Truesdell Bonner.

This weekend they will be honored at the homecoming events by the alums from 1946–56 teams. I want to wish them both well and to thank them for enriching my college experience and that of many other students.

SENATE ACTION JEOPARDIZES COAST GUARD ACTIVITIES

HON. BARBARA A. MIKULSKI

OF MARYLAND

IN THE HOUSE OF REPRESENTATIVES

Thursday, October 10, 1985

Ms. MIKULSKI. Mr. Speaker, last Thursday the Senate Appropriations Committee, by a vote of 17 to 1, cut $200 million from the operating budget of the U.S. Coast Guard for fiscal year 1986.

The only people who can possibly be happy about the Senate's actions are drug-smugglers and those who want less navigational safety and protection of our waterways from oil pollution.

During an appearance yesterday before the House Subcommittee on Coast Guard and Navigation, the Coast Guard Commandant, Adm. James W. Gracey, made it very clear how this cut would affect Coast Guard operations—it would devastate them. While the $200 million loss would mean a cut of less than 10 percent for the entire Coast Guard, since it must come exclusively from operating expenses it would mean a reduction of almost 15 percent in funds for the Coast Guard's day-to-day activities.

What are the activities that would be affected by these cuts? Things like drug interdiction, search and rescue efforts, oil-spill cleanups, and navigational safety on our coastal waterways.

In addition to losing much of the Coast Guard's presence in these areas, the Senate Appropriations Committee cut would mean the loss of thousands of jobs of Federal employees who have faithfully served the Coast Guard and their country. In particular, I am concerned about the future jobs of the 850 employees who work at the Coast Guard yard in Curtis Bay, MD.

If the Senate Appropriations Committee cut is approved, Mr. Speaker, we are talking about the closing of the Coast Guard yard for all practical purposes. Curtis Bay's employees are completely dependent upon the level of funds provided in the Coast Guard's operating budget to upgrade the

Coast Guard fleet. A 15-percent cut means that most of the anticipated modifications and repairs to the fleet for fiscal year 1986 would be postponed or eliminated. The result would be that there would be little, if any, work left to do at Curtis Bay.

Every Member of Congress recognizes and can appreciate the need to reduce the Federal deficit. The Coast Guard yard, however, does not seem an appropriate or justified place to begin with deficit reduction. The yard has an outstanding record of productivity and efficiency since opened in 1899. In every major armed conflict the United States has participated in since World War I, the Coast Guard yard has performed numerous shipbuilding and repair activities vital to our Nation's defense.

Since 1981, the yard has been subjected to the administration's civilian hiring freeze and the threat of contracting out almost all of the yard's activities. This has cost over 350 jobs despite the fact that Curtis Bay's work has consistently proved less expensive and of better quality than private contractors. In light of these recent sacrifices made by the civilian work force at the yard, the Senate Appropriations Committee action is truly unjustified. It threatens our shipyard mobilization and places a disproportionate share of reducing the deficit on the backs of hard-working Marylanders.

For these reasons, Mr. Speaker, I urge you and every Member of this body to protect needed American jobs and join me and other members of the Subcommittee on Coast Guard and Navigation in opposing this draconian budget cut on the Coast Guard and the workers at Curtis Bay shipyard.

THE DIABOLIC MR. FARRAKHAN

HON. MEL LEVINE

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, October 10, 1985

Mr. LEVINE of California. Mr. Speaker, Tuesday night in New York Louis Farrakhan concluded an across-country speaking tour—a tour that was partly funded by a $5 million loan from Libyan leader Muammar Qaddafi. Throughout his tour large audiences feasted on Farrakhan's evermore repugnant rhetoric—a rhetoric calculated to incite racist, antiwhite, antisemitic feelings—a rhetoric calculated to drive wedges between blacks and Jews, a rhetoric which surely undermines all that black political leaders in this Nation have accomplished.

Mr. Farrakhan's rhetoric is ugly and abusive in addition to being repugnant. Addressing Jews in his speech in New York he said:

If you rise up and try to kill me, then Allah promises you that he will bring on this generation the blood of the righteous.

All of you will be killed outright . . . You cannot say "never again" to God, because when He puts you in the oven, "never again" don't mean a thing.

It is almost unfathomable that a human being would utter these words.

Mr. Speaker, Jack Newfield, one of the most perceptive, articulate writers in the business, has written a masterful analysis of the danger Louis Farrakhan poses to our society. (The Village Voice, October 8, 1985.) He makes many cogent points, one of which is that Mr. Farrakhan poses a much greater danger to blacks in America than to Jews.

Mr. Newfield points out that by supporting Reagan administration policies and opposing programs vitally important to poor black Americans, Mr. Farrakhan plays into the hands of the far right and those who are not at all concerned about the quality of life for this country's blacks.

Ironically, it is Jews, themselves a minority, united by what Mr. Farrakhan has referred to as a gutter religion, who have been most identified with trying to break down barriers to blacks and who have long been in the forefront of efforts to improve the lives and economic status of blacks in America. Mr. Newfield writes:

Farrakhan is a threat to blacks because he is trying to lead them in the wrong direction . . . He scapegoats Jews, but can't see that if Israel did not exist, and if there was not one Jew left in America, blacks would still be disproportionately poor and powerless for systemic reasons of economics and racism.

Additional compelling evidence of the danger Mr. Farrakhan poses to his own people comes in the form of the growing relationship between his organization and the Ku Klux Klan. A California Klan leader, Tom Metzger, attended Mr. Farrakhan's speech at the Los Angeles Forum as the guest of Mr. Farrakhan and his organization. According to press reports, after the speech Mr. Metzger made a $100 contribution to Mr. Farrakhan's organization.

Mr. Newfield ends his article with an important question: Why haven't more black leaders spoken out against Mr. Farrakhan? The author poses two possible explanations. One is fear—fear of violent reprisal from the enforcer. The other is the silence of secret assent. I believe the first answer is more valid than the second. I do not understand why any person of good will, of any religion or race, would hesitate to repudiate bigotry and intolerance—from whatever source.

Mr. Speaker, Louis Farrakhan's rantings are nasty and odious. They should be abhorred and rejected by all people of reason, of whatever race or religion. No good can come from his hateful rhetoric borne of what Mr. Newfield calls his crackpot messianic theology.

I am deeply concerned about the danger Mr. Farrakhan poses to black Americans. I hope that more black leaders will speak out to reject this message of hate and prejudice and, as Mr. Newfield puts it, "save their own constituencies from isolation, intimidation, and doomed fantasy politics."

I include the full text of Mr. Newfield's article at this point in the RECORD:

FARRAKHAN: MORE A MENACE TO BLACKS THAN TO JEWS

(By Jack Newfield)

I was arguing recently with a conservative Jewish acquaintance about Rabbi Meir Kahane. His logic went something like this:

"I would never vote for Kahane, but I agree with enough of what he says that I send him some donations, indirectly. His militancy helps Jews by convincing our enemies that we have resolve and toughness. Personally, I wouldn't want him to have any real governmental power, but as an outside critic he is effective. He makes me feel good when he attacks the Arabs and the doves in Israel. I know he is irreponsible, but I don't care. He serves a purpose."

Listening to this split-level rationalization reminded me of the way some blacks have justified their own halfway attitude toward Reverend Louis Farrakhan, who speaks next Monday at Madison Square Garden as part of his current national tour. At one level, I can understand the feelings of cathartic satisfaction in hearing someone express your own deepest fantasies of revenge and defiance. But at the level of adult politics and citizenship, I object to any evasion that might legitimize bigots like Kahane and Farrakhan. We ought not to compromise our better judgment about leaders who poison the polity. One of the most important reasons to challenge the ideas of demagogic tribal leaders is that often the main victims of these demagogues are their own people.

This argument of self-defeat is the most compelling case against Louis Farrakhan. He is trying to lead blacks into a separatist, nihilistic dead end. He thrills crowds with his oratory, defying The Man and speaking forbidden insults to Jews with ever-increasing frequency. This July he told a crowd of 10,000 in Washington, D.C.:

"Jews know their wickedness, not just Zionism, which is an outgrowth of Jewish transgression. I intend to raise the ante tonight! Black people will not be controlled by Jews. Black leaders will either come out for us, or get the hell away from us. Who is your master—God or Jewish leaders?"

Farrakhan sometimes claims that he likes Jews. He says so with the same sincerity that James Watt exuded whenever he proclaimed his love for the environment.

Farrakhan has no useful ideas about how to improve real life conditions of unemployment, teenage pregnancy, high school dropouts, crime; and the rest. Like Kahane, he is using a crackpot messianic theology that divides and isolates his own tribe, in a country that requires coalitions, toleration, and nonviolence to create progress for both blacks and whites trapped at the bottom of the economic ladder.

I detest Farrakhan for my own reasons. Long ago, my mother taught me not to pretend it's raining when someone is spitting on you. Farrakhan says Judaism is "a gutter religion," and I am a Jew.

But in this time, in this city, in this country, Farrakhan is no menace to me. I feel secure, I don't think anti-Semitism is a direct, physical peril at this moment, the way it is in the Soviet Union, or in Syria, where it is government policy. It is always a danger, but it is now a threat in this county. It is a less consequential threat than racism is, because white nationalism is in power today in the America of Reagan, Meese, Falwell, and Helms. Minister Farrakhan is a much more serious threat to blacks than he

is to Jews, although I fear that only experience will convince blacks of this.

Farrakhan is a threat to blacks because he is trying to lead them in the wrong direction. Because he preaches his own version of racial separation, he has been unable to speak coherently about the clearest moral issue on this planet—the dismantling of apartheid. As a shrewd businessman, he invests his time to a dying to Quaddafi, rather than invoking Bishop Tutu or Nelson Mandela as role models for liberation. He speaks for the demon theology that says the white race are devils created by a mad scientist named Yakob. He scapgoats Jews, but can't see that if Israel did not exist, and if there was not one Jew left in America, blacks would still be disproportionately poor and powerless for systemic reasons of economics and racism. W.E.B. DuBois, Adam Powell, A. Philip Randolph, Martin Luther King, and Malcolm X, during the final months of his life, all understood the double trick bag of class and race, Farrakhan does not.

Farrakhan's singling out of Jews for attack, as distinct from whites, is one proof of his anti-Semitism, but it also shows he has no comprehension of class. I have not heard him condemn the institutional enemies of black equality or the real holders of power, like the CIA, which has no Jews in its top structure, or the six biggest banks (none of which is owned by Jews) or the Surpreme Court, which today includes not one Jew. Or Reagan's cabinet, which has no Jews among its members. Farrakhan frequently speaks approvingly of Reagan, and is in the habit of comparing him to Lincoln, Farrakhan's scapegoating of Jews is a detour from reality for blacks, who, like all of us, need to understand the power structure as it exists.

Farrakhan's understanding of the power structure was reflected in his recent speech in Washington, D.C. Farrakhan told his audience:

"The American people are sick and tired of the president giving, giving, giving their [money] away to the poor and minorities. . . . But in my judgment he [Reagan] is correct that black leaders, in general, have not paid attention to the economic problems of our people."

Minister Farrakhan is an enforcer against blacks, an intimidator of black journalists, an enemy of a free press for blacks. He doesn't bother white reporters. Last year, his public threat against the life of Milton Coleman of The Washington Post created national headlines. But that was not the first time Farrakhan had acted as the enforcer. In February 1965, when he was known as Louis X, Farrakhan taunted and threatened Ben Holman, a black journalist who had just written an expose of the Muslims for the Chicago Daily News, at a public meeting in Boston, Holman, who was in the meeting hall, told Jamie Gangel of NBC Nightly News last year that Farrakhan "was goading the crowd to kill me, to lynch me on the spot."

Paul Delaney is one of the most respected journalists in America. He is now deputy national editor of The New York Times. In 1973, he wrote a series of articles on the factional strife within the National of Islam. Last year, Delaney was also interviewed by Gangel of NBC Nightly News about his experiences as a black free thinker, Delaney said:

"Louis Farrakhan at the time was Minister in New York, and he was quoted (about me) several times in the Muhammad Speaks newspaper, and, of course, during his ceremonies and radio broadcasts."

"Would you say they were threats?" asked Gangel.

"I took them as threats," Delaney replied. "Yes. Absolutely."

Gangel added: "Delaney received police protection and was warned by the Justice Department that the Black Muslims were 'out to get him.'"

In 1984, Farrakhan made three distinct contributions to politics. He helped ruin Jesse Jackson's appeal to white voters. His black supremacy rhetoric ignited a backlash and helped register hundreds of thousands of frightened white voters, and this nullified all the registration drives among blacks. And Farrakhan proved that black anti-Semitism does exist and is not a hoax concocted by the Anti-Defamation League.

His main impact (if not exactly his intent) so far in 1985 has been to go to Los Angeles and drive a wedge between Mayor Tom Bradley and the Jewish community—which has always supported Bradley—on the eve of Bradley's second attempt to run for governor of California. Jewish leaders demanded that Bradley condemn Farrakhan before the speech, but Bradley waited until after the speech to denounce Farrakhan. Whenever Farrakhan goes, he ends up helping the right wing—which is to say, the enemies of both blacks and Jews.

Even beyond his racist and anti-Semitic views, Farrakhan holds some bizarre notions. He predicts that there will be "a race war" in 1986, and that urban black street gangs will play an important role. In March 1984, he announced that an "Israeli hit squad" was coming to America to assassinate Jesse Jackson; this was a paranoid fiction. He has made frequent derogatory remarks about gays and lesbians. He opposes abortion and birth control for women. And he constantly and unreservedly praises the Ayatollah Khomeini and Qaddafi as "great men."

One reason he celebrates a madman dictator and financier of terrorists like Qaddafi is that Qaddafi has given Farrakhan a $5 million interest-free loan to start a toiletries company, which was announced by Farrakhan in May of this year.

In his speech in Los Angeles three weeks ago, Farrakhan said: "We will never forget who sold our fathers, into slavery. Don't push your six million down our throats when we lost 100 million in slavery."

Farrakhan seems to have forgotten the profitable Arab participation in the African end of the slave trade, documented in many histories. It was possible the ancestors of the sainted lender, Qaddafi, who sold Farrakhan's ancestors into slavery.

A few insiders know the story of Louis Farrakhan and Malcolm X. But most of the world does not. The insiders think Farrakhan bears some guilt for Malcolm's death.

In late 1964, when Malcolm broke with Elijah Muhammad, the national Muslim leader assigned Farrakhan (then still Louis X) to replace Malcolm as the Minister of Harlem Mosque No. 7. In that role, Farrakhan became the hatchman for Elijah, leading the hate-the-heretic crusde against Malcolm. he attacked Malcolm for "trying to make friends with white people" instead of calling them "a race of devils."

On December 4, 1964, 10 weeks before Malcolm was assassinated, Farrakhan wrote in *Muhammad Speaks:*

"Only those who wish to be led to hell, or to their doom, will follow Malcolm. The die is set and Malcolm shall not escape. . . .

"Such a man as Malcolm is worthy of death."

These words were read by the cultlike fanatics who hated Malcolm X. Malcolm's widow, his children, and his friends have never forgiven Farrakhan. They hold him accountable for the atmosphere in which Malcolm was killed, and they suspect much more. The suspicions, burning these 20 years, were enflamed in May of 1984 when it was revealed that Farrakhan had written a letter to the New York State Parole Board in support of parole for one of Malcolm's convicted killers.

On May 25 of this year, Farrakhan was interviewed by Tony Brown on PBS. Brown, to his credit, asked Farrakhan two direct questions about the death of Malcolm X:

"Brown: Do you feel that your criticisms of Malcolm during that period contributed to his assassination?

"Farrakhan: I feel that the climate created by Malcolm's revelation of the domestic life of Elijah Muhammed to the press, feeding them information that they could use in a negative way against the honorable Elijah Muhammed, it created an equal and opposite reaction among the followers of Elijah Muhammed. I, being one of those zealous followers, jump to the defense of Elijah Muhammed, and to the attack of Malcolm. And so, in that context, I believe my words and others' words were like fuel on a fire.

"Brown: Did you apologize to Malcolm X's widow, Betty Shabazz?

"Farrakhan: I sat with Betty Shabazz. . . . Last year in February, I was speaking in upstate New York, I think it was Albany, and Betty came and sat on the stage with me. I sat with Betty afterwards, and she told me what she had on her mind. I could not speak back to Betty. She was very angry, as naturally she would be. This is the first time she had confronted one of those whom she would look at as a contributor to the condition that led to her husband's assassination. And naturally, in that first meeting, she was exceedingly angry with me, and a brother was looking over my shoulder and she was blessing me out, if you will. And I took every word that she said, because I feel that it is only when Betty can express herself to those of us whom she feels were involved, and who may have been involved, that the healing can begin." (Emphasis added.)

Minister Farrakhan poses a useful intellectual question for blacks not dissimilar to the questions Rabbi Kahane poses for Jews: what are the prudent limits of group solidarity? At what point does instinctive, protective tribal unity, in defense of a leader under attack by external forces, jeopardize the well-being of the tribe?

Farrakhan is a mirage filling a void. Blacks desperately need militant, incorruptible leaders, and some mistake Farrakhan for this. At a time when the economic gains of the 1960s are being eroded, national black leadership is at a low ebb. (Two recent hopeful signs have been the emergence of Representative William Gray, chairman of the House Committee, and Randall Robinson, who has ignited the anti-apartheid movement in America. Both possess pride, intellect and a capacity to inspire.) Black poverty and unemployment are still twice the rate for whites, and black life—expectancy is 13 years shorter than it is for whites.

Black leadership among trade unions has failed to emerge the way it should have, which is mostly the fault of stubborn white labor leaders. The Black Caucus in Congress shrunk by one member last year (21 to 20) despite all the optimistic talk about register-

ing a million new voters around the Jackson candidacy. I can empathize with the hunger for a strong new leader, but Farrakhan is a tragic case of mistaken identity.

Some people, in good faith, have argued that the media pays too much attention to Farrakhan because of his theatrical extremism, and maintain that if he were ignored, his appeal would dry up. But this has not happened. This year, he drew 6000 people in Detroit, 7000 in Atlanta, and 5000 in Houston. In July, with little advance publicity, he drew 10,000 people on a Monday evening to hear him at the Washington, D.C., Convention Center. According to The Washington Post, the crowd was middle-class as well as poor, and included "young adults in entry-level jobs, college students, entrepreneurs, artists, secretaries, teachers, and government workers." Most were non-Muslims.

Three weeks ago, Farrakhan attracted 17,000 people to hear him speak at the Forum in Los Angeles. His October 7 New York speech likely will fill Madison Square Garden to its 18,000-seat capacity. He is charismatic, and he does have a following of people who may not agree with all he says but admire his image of defiance, and perhaps his subtext of pride, discipline, and self-help. Making believe that he doesn't exist or trying to deny him publicity is not a sensible approach. And no one should even consider challenging his right to speak, because free speech is sacred and belongs to everyone.

I am still puzzled as to why more black leaders haven't spoken the complete, blunt truth about Farrakhan. Last year, in private, quite a few local black leaders told me they were not free to do so because they were part of the Jackson campaign and could not speak publicly until their national candidate had spoken with clarity so they would not be appearing to undercut their champion.

But that excuse—that hiding place—is no longer available. Jesse Jackson is not running now. The only possible justification for silence now is fear. Fear of violent reprisal from the enforcer. The other possible interpretation of silence is secret assent.

Black leaders should say what they think about Farrakhan's ideas. Not to appease Jews. And not because Koch, who does not have clean hands, has challenged them to criticize Farrakhan. They should speak out to save their own constituencies from isolation, intimidation, and doomed fantasy politics.

VIRGIN ISLANDS DEVELOPING ALTERNATIVES TO HIGH UNEMPLOYMENT

HON. RON de LUGO

OF THE VIRGIN ISLANDS

IN THE HOUSE OF REPRESENTATIVES

Thursday, October 10, 1985

Mr. DE LUGO. Mr. Speaker, over the past year, the U.S. Virgin Islands has suffered the loss of one of its two major plants, Martin Marietta Alumina, and layoffs from its other major plant. The total employment loss on St. Croix as a result of these layoffs is 5.6 percent for a total unemployment rate of 12 percent. Note that this unemployment rate, while high, does not reflect the outmigration to the mainland that attends loss of jobs in the islands. The Virgin Islands needs to develop alternatives, and one possibility is to extend the wage incentive program in existence for watches to the gold jewelry produced in the U.S. insular areas. Today I have introduced a bill that would do just that.

For some years now, the gold manufacturing industry in the United States has been very healthy, and, in fact, thriving. There has been a substantial amount of gold chain imported from Italy and other countries, and countries benefiting from Generalized System of Preferences status have exported jewelry to the United States duty-free. Also, under the Caribbean Basin Initiative, products entering from the beneficiary countries will enter duty-free, and this should include a good quantity of fine jewelry, particularly since production is labor-intensive.

In view of Congress' commitment to encouraging industry in the U.S. insular areas, and the difficulty the insular areas face in competing with lower wage jurisdictions, it seems most logical and desirable to make the manufacture of jewelry competitive with countries benefiting from GSP and CBI.

The amount of jewelry that could be manufactured in the U.S. insular areas would be totally insignificant in the U.S. market, and, when placed in the context of the GSP duty-free status currently enjoyed by a number of jewelry exporting countries and the CBI status that may be utilized, the proposed bill has only benefits to offer.

The administration of the program proposed by this legislation is already in place, since the watch program would simply be extended to jewelry. I understand, therefore, that there would be no additional administrative costs required to implement the legislation.

The bill I have introduced today will result in much needed employment in my district. I urge my colleagues to support its passage.

REMOVING SOCIAL SECURITY FROM THE POLITICAL FRAY

HON. JIM ROSS LIGHTFOOT

OF IOWA

IN THE HOUSE OF REPRESENTATIVES

Thursday, October 10, 1985

Mr. LIGHTFOOT. Mr. Speaker, I am glad to see that Congress is moving quickly to depoliticize Social Security. Since the beginning of the year, Congress has been battling about whether or not Social Security should be on the bargaining table when deciding how to reduce the large Federal deficit. I happen to believe that Social Security does not belong in the general budget debate because it is a self-financing program with its own trust funds.

Social Security is not contributing to the Federal debt because its trust funds cannot be used for purposes other than the payment of Social Security benefits and related costs. Any savings from reducing Social Security benefits cannot be used to finance other Federal programs. Therefore, cuts in Social Security should not be a part of deficit reduction efforts.

Including Social Security in the unified budget, as it is now, has caused part of the problem and has made it easier for Congress to consider Social Security cutbacks. It also makes it easier for Congress to use Social Security surpluses to hide the true deficit. Furthermore, it reduces pressure in Congress to attack excessive Government spending because Federal deficits are offset by Social Security surpluses.

Social Security has not always been included in the unified budget. In fact, for over 30 years the funds were in a separate account. It was not until 1969 when former President Johnson wanted to mask the Federal deficit his administration was accumulating that the trust funds were added to the unified budget. Then, through Congress' tacit approval in 1974, the trust funds were made a permanent part of the unified budget.

Since then, there has been some discussion to remove the trust funds from the unified budget. In 1983, Congress voted to display the trust funds as a separate function within the unified budget from now until 1992 when they would be removed entirely from the unified budget. However, since the budget wrangling earlier this year over the Social Security COLA issue, there has been increasing interest in removing the trust funds immediately.

Removing the trust funds now rather than later makes good sense. It would reduce incentives to tamper with Social Security in an effort to cut the deficit, it would allow a truer picture of the Federal deficit, and it would instill confidence in our Nation's seniors that Social Security would not be cut unnecessarily.

Establishing the Social Security Administration as an independent agency outside the control of the Department of Health and Human Services would also help insulate Social Security from political budgetary pressures. It would provide for smoother program administration, better morale within the agency, and more efficient, higher quality public services.

As an independent agency, governed by a three member bipartisan board, politics would be removed from the administration of the Social Security Program. An independent agency would also greatly reduce layers upon layers of bureaucracy and would create more efficient program management. Most important, however, it would provide for greater stability within the Social Security Administration and instill in the American people greater faith in the Social Security system.

During the next few weeks, I expect the House to act on a bill I have cosponsored, H.R. 3470, which would establish the Social Security Administration as an independent agency and would remove the Social Security trust funds from the unified budget. I commend the Ways and Means Committee for its leadership on this issue. The committee's Subcommittee on Social Security has already unanimously approved this bill,

and it is presently awaiting full committee consideration.

Congress should approve this bill before the next round of debate begins on the budget to ensure that the program which affects virtually every American is able to stand on its own feet without political interference. The passage of this bill would send a clear signal to the American people that Congress supports the continuation of the Social Security system and that American workers can count on receiving their earned benefits when they become disabled or when they retire. I urge my colleagues to join me in supporting this bill.

RESOLUTION CONDEMNING MURDER OF LEON KLINGHOFFER

HON. TED WEISS

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Thursday, October 10, 1985

Mr. WEISS. Mr. Speaker, Leon Klinghoffer, a disabled, 69-year-old American citizen, was murdered this week by the terrorists who hijacked the cruise ship *Achille Lauro* in the Mediterranean.

The perpetrators of this cowardly and barbaric act must not be allowed to go unpunished. Indications are that the murderers of Leon Klinghoffer were given safe passage out of Egypt and placed in the custody of the PLO. It is clearly within the power of Yasir Arafat, the PLO, the Egyptian Government, and the other governments of the region to find, prosecute, and punish these terrorists and to do it quickly.

Beyond that, out of this tragedy there must grow a final resolve by the nations of the world that hijacking and hostage-taking will no longer be tolerated. In Leon Klinghoffer's memory we must insist on it.

I am, therefore, introducing the following concurrent resolution, which does three things:

It condemns the hijacking of the *Achille Lauro* and the cowardly and brutal murder of Leon Klinghoffer;

It calls on the governments, organizations, and people of the region to do whatever is necessary to ensure that the individuals who murdered Leon Klinghoffer are found, prosecuted, and punished; and

It states the sense of the Congress that the President should immediately convene an international meeting to resolve this urgent issue once and for all.

Following is the text of the resolution:

H. CON. RES. 215

Concurrent Resolution condemning the hijacking of the *Achille Lauro* and the murder of Leon Klinghoffer

Whereas, on October 7, 1985, terrorists hijacked the civilian passenger ship *Achille Lauro* with 400 people aboard, during a Mediterranean cruise;

Whereas it has been determined that the hijackers murdered Leon Klinghoffer, a 69-year-old citizen of the United States who was confined to a wheelchair;

Whereas the United States Government has expressed its outrage at this "brutal killing of an innocent American" and has called for the prosecution of the individuals responsible for the killing;

Whereas hijacking and the taking of hostages at sea, in the air, and on land has become a problem of massive international dimensions: Now, therefore, be it

Resolved by the House of Representatives (the Senate concurring), That—

(1) the Congress condemns the hijacking of the *Achille Lauro* and the cowardly and brutal murder of Leon Klinghoffer;

(2) the Congress calls on all governments, organizations, and people of the Mediterranean region to take all necessary measures to ensure that the individuals who murdered Leon Klinghoffer are found, prosecuted, and punished; and

(3) it is the sense of the Congress that the President should immediately convene an international meeting to determine the steps which must be taken to rid the world once and for all of hijacking and the taking of hostages.

PERSONAL EXPLANATION

HON. MICKEY LELAND

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Thursday, October 10, 1985

Mr. LELAND. Mr. Speaker, under my right to revise and extend my remarks within 5 legislative days on the resolutions considered and passed under unanimous consent on October 9, 1985, I would like to state for the RECORD that I in no way support House Joint Resolution 313, "The Lessons of Grenada" week. Had I been on the floor at the time the resolution was considered, I would have objected.

Our invasion of Grenada should not be interpreted as a triumph for the United States. As a result of the invasion, the world viewed the United States as a patronizing, interventionist nation. Passage of a week commemorating this event and the subsequent events is totally inappropriate.

A BILLION DOLLARS DOWN TWO RATHOLES

HON. JAMES T. BROYHILL

OF NORTH CAROLINA

IN THE HOUSE OF REPRESENTATIVES

Thursday, October 10, 1985

Mr. BROYHILL. Mr. Speaker, we voted in July to shut down the U.S. Synthetic Fuels Corporation. Fearing that the end was near, the Synfuels Corporation decided to try and stave off extinction by using its $8 billion bankroll.

Two weeks ago the Corporation committed $60 million to a heavy oil project in Texas even though owners of adjacent heavy oil reserves claim they are recovering oil and making a profit without any Federal subsidies.

Next week, the SFC plans to do some big-time spending by bestowing more than a billion dollars on two oil shale projects. Secretary of Energy John S. Herrington, in today's Wall Street Journal, explains why funding these two projects would be a waste of taxpayer money. Although we in the House already have voted to end this waste, I commend this article to my colleagues in the hope that we can all work together to bring about the speediest possible end to the Synfuels Corporation and plug the ratholes once and for all.

[From the Wall Street Journal, Oct. 9, 1985]

THE SYNFUELS ENERGY DINOSAUR

(By John S. Herrington)

This week, Congress is struggling to agree on a plan to reduce the deficit. Regardless of the outcome, in the next few days members of both houses will have a unique opportunity to make an early downpayment on deficit reduction. Next Wednesday, the Synthetic Fuels Corporation's board plans to lock up more than $1 billion in taxpayer-supported subsidies for two uneconomical and unneeded oil-shale demonstration projects.

These projects are telling examples of why the SFC was, this July, targeted for extinction by a 312-111 vote in the House. The question now is: Will Congress as a whole put a halt to these projects before the SFC allocates the money for them next week?

The projects in question—$900 million in price supports and guarantees for a Union Oil project in Parachute Creek, Colo., and $184 million in like guarantees for Seep Ridge's Vernal, Utah, project—reflect more than their dollar amounts. They are a microcosm of what is wrong with the SFC. In an era when everyone is striving to reduce the deficit, the SFC could not have picked two more wrongheaded projects to pilot, nor could it be championing them at a more pivotal time in its short-lived history.

Parachute Creek has major technological weaknesses. Both Parachute Creek and Seep Ridge have technologies applicable to only a small portion of U.S. oil-shale resources. Both would have guaranteed price supports at a level several times the market price. Neither would make a lasting contribution to U.S. energy security.

I am opposed to these projects, and these circumstances have raised strong reservations about continued funding of the SFC. Terminating these projects would salvage at least $1 billion—and perhaps more, since the SFC will soon consider additional projects totaling $2.5 billion.

Congressional opponents of these projects need only to look to Union Oil's Parachute Creek operation for ammunition.

Union Oil first began acquiring oil-shale lands in Western Colorado in 1920. Sixty-five years later, its Parachute Creek project still has not been operated successfully beyond a period of a few days, despite the investment of $800 million by the company over the past six years.

Parachute Creek's problems are enormous. The price per barrel of the hoped-for 10,000 barrel-per-day plant is pegged at $72, in an economy where our Strategic Petroleum Reserve is buying oil at about $25 a barrel. Parachute Creek's retort scraper system—a mechanism that ejects spent shale—failed and still hasn't continuously worked as advertised. When it does work, the spent shale is coming out at a too-high temperature (900 degrees Fahrenheit) with an excessively high carbon content, a sign of inefficiency. Its fluid bed combustor, a component that would burn the carbon in the spent shale, is only in conceptual design, both unapproved and untested.

The financial terms of the SFC agreement are such that six to 10 years from now,

when subsidies are exhausted, Union could walk away from the project.

Union has failed to produce the oil that would allow it ultimately to earn $400 million in price supports. Nonetheless, the SFC plans to reward Union with an additional $500 million in loan and price guarantees to support the development of a combustor—and wants to extend Union's right to earn the $400 million in price supports. The total cost to taxpayers: $900 million.

Hand in hand with the Parachute Creek project, the SFC plans to provide $184 million in loan and price guarantees for Seep Ridge. SFC is guaranteeing its price per barrel at $55, more than twice the market rate.

Why the SFC is so ardently interested in Seep Ridge is something of a mystery. The project will offer no technological advance for synfuels development; the technology is already developed, and at full production Seep Ridge will produce only 1,100 barrels per day.

Supporters of these projects will no doubt weave their defense into the cloth of our energy future and national security through energy security.

The fact is that national-security and energy-security arguments do little to justify the Parachute Creeks and the Seep Ridges. When Congress established the Synthetic Fuels Corporation in 1980, oil prices were projected to reach $75 to $125 per barrel by 1990. Since oil prices peaked in 1981 following President Reagan's decontrol of oil prices, the world energy outlook has improved substantially: In nominal terms oil prices are down more than 30% from their 1980 levels.

As a result of these fundamental changes in the energy marketplace, virtually no projects pending before the SFC are likely to become economical in the foreseeable future. Thus, the development of a commercial synthetic-fuels industry at a pace envisioned by Congress in 1980 would require huge expenditures of federal tax dollars that would not be offset by economic benefits.

There is little point in building demonstration projects when the fuel costs are two, three, or four times that of current and anticipated market prices. There is no compelling reason to subsidize construction of model synfuels plants when advanced technology, now under research and develoment by industry and the Department of Energy, will ultimately surpass these plants' existing technologies. Finally, there is little merit to the national-security argument advanced by supporters of synfuels. Were all the SFC projects currently planned ultimately able to produce at their maximum capacity, they would only supply substantially less than 0.5% of U.S. energy requirements over the next 10 years.

The sensible approach for U.S. energy development is to let the free market work its way up to the next band of energy opportunities. And in this respect, the synthetic-fuels industry is several decades away from practicality. Synthetic fuels are not competitive with the next generation of fuels or expected energy gains through conservation and efficiency. Moreover, more exotic techniques such as enhanced oil recovery and the potential application of coal in slurries, advanced clean-burning combustors and high-efficiency turbines are today closer to the realities of the marketplace.

When the Synthetic Fuels Corporation was created in the late 1970s, its founders were acting with vision and patriotism during a time of rising oil prices and limited supplies. But times have changed and so have the circumstances that gave rise to these projects. Now we must adjust to the new realities. The proposed SFC projects offer Congress an opportunity to make meaningful budget savings with little acrimony and without compromising the public trust, national security or our energy future.

ROBERT DEAN STETHEM SCHOLARSHIPS ESTABLISHED

HON. TOM LEWIS

OF FLORIDA

IN THE HOUSE OF REPRESENTATIVES

Thursday, October 10, 1985

Mr. LEWIS of Florida. Mr. Speaker, whenever we Americans hear the name of Navy Petty Officer Robert Dean Stethem, we feel a profound mixture of sadness, pride, and gratitude.

Sadness, because we remember how suddenly, brutually, and unjustly his life was taken from him by terrorists aboard TWA flight 847. Pride, because we feel privileged to live in a society that produces men of the caliber of Robert Stethem. And gratitude, for his dedication to American ideals through service in the Armed Forces of the United States.

A. Harrison Kosove and his wife, Ruth, of Sebring, FL, have memoralized Robert Stethem in a special and lasting way. These outstanding citizens of my district have generously established an endowment fund to be held in trust by the school board of Highlands County, FL. The proceeds from the Kosoves' fund will be used to establish the Robert Dean Stethem Scholarships for students graduating from Sebring High School.

Two of these scholarships will be awarded each year—one to a male graduate and one to a female graduate. The scholarships will go to students who share the qualities that made Robert Stethem a fine young American: Commitment to high goals, honesty, initiative, hard work, perseverance and humility, leadership ability, and patriotism.

The members of the Highlands County School Board have passed a resolution recognizing the generosity of the Kosoves and encouraging others to donate money to this and other scholarship funds. I add my voice to theirs, and hope our call is heeded and other Americans will give generously.

NEW FACILITY IN MAINE TO PROVIDE WIDE RANGE OF CARE FOR ALZHEIMER'S VICTIMS

HON. OLYMPIA J. SNOWE

OF MAINE

IN THE HOUSE OF REPRESENTATIVES

Thursday, October 10, 1985

Ms. SNOWE. Mr. Speaker, it is with great pleasure that I announce today the creation of a multidimensional facility for the victims of Alzheimer's disease and their families. The project, located in Gardiner, ME, is innovative in its philosophy and will serve as a model for a similar projects around the Nation.

The center will be designed to care for persons in all stages of Alzheimer's disease, both on an inpatient and an outpatient basis, whichever is more appropriate. Diagnostic assessment will be available onsite to determine the level of care necessary for each individual. There will be a 20-bed nursing home for those needing round-the-clock care. For persons requiring only daytime care, an adjacent adult day care center with facilities for 20 will provide respite to their family caregivers, allowing them to work in or out of the home. Five additional beds will also be available to give families a longer rest from the strains of home care. Other services will be available to families through the staff social workers and a statewide network of volunteer support groups.

Not only will this facility offer a full range of options for the care of Alzheimer's victims, but it will also provide onsite teaching for students and caregivers. The combination of a specialized, staff-intensive environment and the availability of a variety of approaches makes this center an ideal place for training and research, as well as optimal care and support.

This is a unique cooperative effort between the public and private sectors. The Bureau of Maine's Elderly will administer a Federal grant from the Administration on Aging; the State of Maine will provide matching funds; the physical plant will be constructed and staffed by Yankee Healthcare and Kennebec Valley Medical Center; and the Family Medicine Institute of Augusta (ME) and the Dartmouth Family Practice Institute will provide professional support.

All too often, there has been no middle ground between home care and institutionalization for the Alzheimer's patient. Soon, a number of alternatives along the continuum of care will be available in one place. For this reason, I applaud the efforts and the vision of those involved in this innovative approach to care for the victims of Alzheimer's disease and their families. I hope this new center will indeed be an example for other facilities to follow as they find ways to help those who suffer from this devastating disease.

PRESERVING THE ENVIRONMENT

HON. BOB EDGAR

OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, October 10, 1985

Mr. EDGAR. Mr. Speaker, I take this opportunity to call to the attention of my colleagues the views of Don St. John, of Moravian College in Bethlehem, PA. I recently met Mr. St. John at a hearing in Allentown on toxic wastes sponsored by the Sierra Club. Don brings a unique perspective in assessing the vital need to protect our earth's environment. I commend his re-

marks to my colleagues and insert his statement from the Allentown toxics hearing in the RECORD:

What we have been talking about tonight is nothing less than the right of each of us to breath clean air, eat nutritional food, drink unpolluted water, take nonlethal medicines, and live in uncontaminated houses. But we have also been talking about the rights of nature: of soil, water, air, plants, animals to be healthy, to exercise their God-given natures. We are beginning to see that these two sets of rights are intimately connected, that human wellness and ecological wholeness or wellness are inextricably linked.

Furthermore, as we have heard this evening, the same powerful interests that exhibit a callous disdain for the earth cause severe emotional and physical illnesses to human beings. This arrogant disregard for the natural and social good must be challenged. We can no longer accept that the only consideration and the only bottom line for doing business is profit. We must insist on two more bottom lines: the wellness of the earth and the wellness of its people. Let us, through all of the legal, political and economic means at our disposal, make it clear to anyone wanting to do business in Eastern Pennsylvania that we will no longer tolerate the poisoning of our land, water, air and children.

To back this up, we, the people, must become involved in the decision-making processes that have up till now allowed some public officials and well-heeled developers to run roughshod over the quality of life here in the valley and elsewhere. Let us make participatory democracy a reality and restore control over our future.

One institution that has been too silent on these environmental and human problems has been organized religion. When was the last time you heard a sermon condemning environmental abuse and the wanton disregard for our responsibilities as stewards of creation? And yet the bible drives home the point again and again that the lord of salvation is also the Lord of creation. Religion has not merely to do with the health of the soul, but with the health of the body, the family, the community, the workplace and the good earth that sustains them all. The same God who warns against the oppression of our brothers and sisters warns against the devastation of the land and its creatures. Yet by their continued silence the churches might become a part of the problem rather than of its solution.

We certainly hear enough today from preachers who call for a return to the old-time values of the family. And yet they treat this family as if it exists in a vacuum. As if its members do not drink from poisoned wells and rivers, breathe carcinogens from the air (both inside and outside of buildings), eat food pumped full of sickening chemicals, and watch their children play near abandoned dumping sites. As if these families did not suffer from the destruction of local communities when family farms go under or when companies move their factories to cheap labor markets in the Third World or when the fear of nuclear meltdown, release of deadly gases into the air causes wholesale uprooting or cynical distruct of the government's willingness to help.

The issues we have been talking about tonight are not simply economic, political or social issues—they are that, but beyond that and as a part of that, these issues are moral and ethical issues. Ultimately, they are religious issues, for religion is that which articulates the deeper values and principles that unit us one with the other and as a community with creation. Love, compassion and concern are the true old-time values that should regulate our actions toward one another and the earth. All other values, including the economic, must be subservient to and imbued with these values. These environmental problems have shown us how superficial and ultimately dangerous are those barriers we have built between one another and between ourselves and nature. We are our brothers and sister's keeper. In the midst of plenty we have discovered a terrible proverty of spirit. We need the hope of renewal of healthy communities living in harmony with nature similar to that given long ago by the prophet Isaiah:

The wilderness and the dry land shall be glad, the desert shall rejoice and blossom, like the crocus it shall blossom abundantly, and rejoice with joy and singing . . . .

Strengthen the weak hands, and make firm the feeble knees.

Say to those who are of fearful heart, "Be strong and fear not! . . .

Then the eyes of the blind shall be opened, and the ears of the deaf unstopped.

Then shall the lame man leap like a hart, and the tongue of the dumb sing for joy.

For waters shall break forth in the desert; the burning sand shall become a pool.

And the thirsty ground springs of water; the haunt of jackals shall become a swamp, the grass shall become reeds and rushes.

And a highway shall be there, and it shall be called the Holy Way . . . .

And the ransomed of the Lord shall return . . . everlasting joy shall be upon their heads; they shall obtain joy and gladness, and sorrow and sighing shall flee away. (Is. 35:1-10).

CHINA'S POPULATION CONTROL PROGRAM: A CRIME AGAINST HUMANITY

HON. CHRISTOPHER H. SMITH

OF NEW JERSEY

IN THE HOUSE OF REPRESENTATIVES

Thursday, October 10, 1985

Mr. SMITH of New Jersey. Mr. Speaker, although the home of more than one-fifth of the world's population, the People's Republic of China remains an enigma, while projecting a popular image to the West of reform, the totalitarian rulers in Beijing continue to exercise control—pervasive dominance—over virtually every aspect of life.

Earlier today, Mr. Speaker, the Foreign Affairs Committee on which I serve held an important hearing on the status of human rights in the People's Republic of China. I believe this long overdue scrutiny will give the Congress a better understanding of the situation in the People's Republic of China and enable America to separate fact from fiction.

On paper, as a result of the 1982 Constitution, the citizens of the People's Republic of China enjoy considerable freedoms and safeguards, a situation that is analogous in many ways to the paper rights enjoyed by Soviet citizens under their Constitution. Serious human rights violations, however, are widespread in the People's Republic of China. The Communist Party imposes comprehensive restrictions of fundamental freedoms including speech, the press, religion, association, and travel. In 1984, up to 10,000 Chinese were executed under a harsh policy ostensibly designed to combat crime. The People's Republic of China's brutal one child per couple population control policy provides a chilling example of "big brother's" intrusion into individual liberty and violations of women's rights.

In total contravention of U.N. human rights declarations and resolutions concerning voluntarism and noncoercion in birth control, and in direct violation of the U.N. Declaration of the Rights of the Child issued in 1959, the People's Republic of China has promoted a policy of permitting only one child per couple. Adopted in 1979, the policy relies heavily upon coercion, economic penalties and forced abortion—often late in pregnancy—for refusal to comply.

In accordance with the program, authorities in the People's Republic of China have given sanction to family planning workers to enforce a birth quota system established for each community in the country. This repressive system licenses the workers to monitor a woman's menstrual cycle, dictate to couples if and when they may have their one child permitted under the policy and take drastic measures—ranging from forced abortions to involuntary sterilization—to ensure compliance with the quota system.

Moreover, this policy has fostered an increasing incidence of female infanticide, estimated to be in the hundreds of thousands, particularly in rural areas where peasants regard a male child as vital to their economic well-being in retirement years. Except in a few token cases, infanticide has gone unpunished by the authorities in the People's Republic of China, thus directly condoning the heinous practice.

Such atrocities against Chinese women and children, Mr. Chairman, have been documented time and again by State Department officials, reputable journalists, and social scientists. The specifics are recorded in the State Department's "Country Reports on Human Rights Practices for 1984," and by the Washington Post, the Wall Street Journal, the New York Times, PBS "Nova" series, CBS "Sixty Minutes" and other media.

Mr. Speaker, in an incisive three-part expose of the People's Republic of China program, Washington Post reporter Michael Weisskopf wrote earlier this year, and I quote in part:

Publicly, they claim to rely on the powers of persuasion and education, exercising a policy of voluntary consent.

But a closer and longer look reveals a very different picture. China, to be sure, is curbing its population growth, but its success is rooted in widespread coercion, wanton abortion and intrusion by the state into the most intimate of human affairs.

"The size of a family is too important to be left to the personal decision of a couple," Minister of Family planning Qian Xinzhong explained before resigning last year.

"Births are a matter of state planning, just like other economic and social activities, because they are a matter of strategic concern," he said. "A couple cannot have a baby just because it wants to."

Washington Post reporter Weisskopf goes on to say in his article:

Faced with strong popular resistance, Peking resorts to even stronger measures. To this struggle, it brings the full powers of a totalitarian state, operating without fear of political opposition. There is no check on official abuse, no outlet for human rights complaints and no forum for public debate of the policy.

Finally, the article goes on to say:

Any mother who becomes pregnant again without receiving official authorization after having one child is required to have an abortion,

And I repeat,

is required to have an abortion, and the incidence of such operations is stunning—53 million from 1979 to 1984—a 5-year abortion count approximately equal to the population of France.

In 1983 alone, the number of abortions nationwide—14.4 million—exceeded the combined populations of the District of Columbia, Maryland, Virginia, West Virginia and Delaware. . . .

Nor is the timing of abortion usually a factor. Many are performed in the last trimestry of pregnancy—100,000 in Guangdong last year, or 20 percent of the province's total abortions—and some as late as the ninth month. Officals say it often takes that long to get reluctant women to clinics.

Doctors normally terminate late-term pregnancies by injecting an herbal drug into the womb, killing the fetus and inducing labor—a kind of induced stillbirth. The dead fetus is usually expelled in 24 hours.

In the Inner Mongolian capital of Hohhot, however, hospital doctors practice what amounts to infanticide by a different name, according to a Hohhot surgeon, who would not allow his name to be used for fear of reprisal. After inducing labor, he revealed, doctors routinely smash the baby's skull with forceps as it emerges from the womb.

In some cases, he added, newborns are killed by injecting formaldehyde into the soft spot of the head.

"If you kill the baby while it's still partly in the womb, it's considered an abortion," explained the 33-year-old surgeon. "If you do it after birth, it's murder."

Dr. John S. Aird, former Senior Researcher at the U.S. Bureau of the Census specializing in the demographics of China, states in testimony which I will ask to be made part of the record:

Those who get pregnant without a "quota"—the pink slip that confers official permission to have a first, or in a few cases a second, birth—are pressured into having an abortion. An effort is made to detect unauthorized pregnancies as early as possible, but abortions are still performed for pregnancies in the second or third trimester. The pressures used include repeated visits by family planning cadres and activists, who eventually wear down the resistance of the pregnant women and their families, and direct threats and intimidation by local officials. Accounts from Guangdong Province in 1981 told of women arrested, handcuffed, tied with ropes, even imprisoned in cages used to transport hogs, and carted off in trucks to have abortions at the local hospitals.

In a piece entitled "Population Policy Trends in China, 1978–83," by Judith Banister, Chief of the China Branch, U.S. Bureau of the Census it is stated:

In 1982 and 1983 the "Cadre Job Responsibility System" was introduced and required to be implemented around the country. Each local leader is assigned about 10 to 20 households, and that leader has to sign a contract with higher levels of government guaranteeing that no one in those households will have a birth outside the government's very restrictive guidelines. The cadre is given a cash award if every marriage is a "late" marriage, every birth is a "late" birth, and all couples stop childbearing at one child. On the other hand, if anyone marries before approximately age 23, has a birth before the woman is about 24, or bears a second or higher order child, the cadre has to pay a cash penalty from his or her own income. This programme is designed to ensure that the National Compulsory Family Planning programme is not weakened or diluted when implemented at the local level.

Guangdong Vice Governor Wang Pingshan spoke candidly on the technical policy concerning sterilization and childbearing, recorded by Foreign Broadcast Information Service [FBIS], on May 14, 1983:

The basic purpose of this measure is to absolutely prohibit married couples from bearing a second child.

Mr. Speaker, as you know, in response to these abuses, the House voted 2 to 1—289 to 130—last July to condemn China's obscene population control experiment as a crime against humanity. Specifically, the House said:

(iv) The Government of the People's Republic of China has systematically employed coercive abortion and coercive sterilization as a means of enforcing that Government's "one-child-per-couple" policy. The rigid application of the "one-child" policy has also led to large-scale infanticide.

The Congress condemns these practices as crimes against humanity and calls upon the Government of the People's Republic of China to cease these human rights abuses.

Moreover, the U.S. Agency for International Development has taken steps to pressure the U.N. Fund for Population Activities to live up to its own human rights standards and cease comanagement and support of the program in the People's Republic of China.

AN ACTIVIST JUDGE

HON. DON EDWARDS

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, October 10, 1985

Mr. EDWARDS of California. Mr. Speaker, under leave to extend my remarks in the RECORD, I include the following:

(Tuesday evening, hundreds of friends and admirers of David L. Bazelon, former chief judge of the U.S. Court of Appeals for the District of Columbia, gathered in the Pension Building for a personal testimonial to him and what turned out to be a political testimonial as well to the civil liberties he so vigorously upheld during his 36 years on the bench. The American Civil Liberties Union of the National Capital Area presented Judge Bazelon with its Henry W. Edgerton Civil Liberties Award. Here are excerpts of a tribute to Judge Bazelon by correspondent and commentator Daniel Schorr:)

On the subject of David Bazelon, I am hopelessly, irreparably biased.

Under Judge Bazelon, the D.C. circuit became the most important bench after the Supreme Court, the cutting edge of change, the court that expanded the concept of legal justice to embrace social justice.

It was a court called "activist," which has become an X-rated word in some circles. "Activist" meant active in the public interest in dealing with public institutions. It meant making federal agencies responsible to someone other than themselves. It meant supporting environmental and consumer challenges to vested authority, speaking up for the rights of the mentally ill, and of criminal defendants and of tenants in slum tenements.

In 1969, marking his first 20 years on the bench, some of Bazelons' former law clerks gave him a brochure citing their favorite opinions. I was struck by the kind of reasons given for their choices: "Concern for an individual's right to know and to keep what he knows to himself when threatened with civil or criminal sanction. . . . A fine example of DLB's uncanny knack of smoking out the gut issues—and the FCC's derelictions—in TV licensing. . . . A significant contribution to civil liberties in a frightened era. . . The unequivocal creation of a right to treatment on the part of mental patients is characteristic of some of the judge's best legal insights. . ."

David Bazelon has always been ready to question everything and everybody, and especially entrenched centers of power. If defendants were entitled to counsel, David asked if the counsel were competent. But he has also been willing to question, in the light of experience, his own judgments. Having written *Durham* in the hope that psychiatry would open vistas of inquiry into the causes of human behavior, he was among the first to express disappointment at psychiatry's failure to respond to the challenge.

If you asked me to single out the one most striking characteristic of David Bazelon as jurist, it is his sensitivity to pain and suffering. Maybe being the youngest of 10 children—nine of whom survived—taught him what it is like to be the underdog. We do not know what makes a Bazelon. But we see the results in the passion and compassion that are the Bazelon hallmarks.

Who else would say, "Day after day I found myself reviewing the convictions of persons who had committed horrible acts of violence. I needed no experts to tell me who these people were. The overwhelming majority of defendants who came through our court came from the very bottom of our society. They've been called by different names—the underclass, the culture of poverty, the other America. But the reality remained the same. Our courts were and are being filled by this wreckage of our affluent society."

In a speech two years ago, Judge Bazelon asserted that the courtroom is the place to compel society's attention to the root causes of crime, that we will never resolve the problem of crime without addressing poverty and social injustice.

What a quaint idea in the era of President Reagan, who says that we should put reha-

bilitation on the back burner and, "on the front burner, the idea of prosecuting, punishing and putting them away." Well, David, you wore your heart on your judicial sleeve, and hearts on sleeves are out of fashion. But, never mind! The Irish lawyer, Parnell, said that of all the kinds of judges, those with heart and brains are the best, so, in or out of fashion, you're the best.

You may recall Henry Edgerton's story about his partner who, upon retiring, seemed unhappy at being assured of respect and admiration, saying, "more than respect, I wish I had won your affection."

You don't have that problem. In ways that my words cannot convey you know how much you have earned respect, admiration and love from those here assembled but, more importantly, from all the deprived whose pain you shared all those 36 years on the bench, and still today.

David Bazelon, activist judge, liberal, bleeding-heart liberal—phrases that will survive contemporary sneers as America's pendulum swings back to concern for the vulnerable in our society. The Bazelon era lies dormant now, but it has sunk its roots. It will have its flowering again.

UNVEILING OF ALTERNATIVE TRADE LEGISLATION

HON. DONALD J. PEASE

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

Thursday, October 10, 1985

Mr. PEASE. Mr. Speaker, today, the House will send a signal of its frustration to the White House. And no wonder. At the same time that it has presided over the largest and most enduring trade deficits in history, the Reagan administration has shut down much of the trade law machinery.

If it had administered the MFA properly, there would be no need for the Jenkins bill. If it were not still sitting on a machine tool industry petition 18 months after it was approved by the Commerce Department, there would be no need for the machine tool industry bill introduced the other week. If it had made judicious, intelligent use of section 201 in the shoe case, there would be no need for the introduction of shoe bills and, for that matter, protectionist bills for other industries. The list goes on and on. All of these matters should be handled by the existing trade laws. That's what they're there for. That's why Congress put them on the books.

The Reagan administration has short-circuited the trade law process. Its response to the problems of tens of thousands of laid off shoe and textile workers has been the initiation of four unfair trade cases.

The unfair trade problem didn't just turn up on the eve of the shoe decision. What's the administration been doing all of this time? It has been sitting on its hands. And Congress is fed up. That's what the textile vote is all about.

Many who are going to vote for this bill aren't voting for its provisions. They're voting to send a signal to the President. But even though they're not voting for the dangerous signal it sends overseas, that signal gets sent anyway.

While Congress trades smoke signals back and forth with the White House, people out there get laid off and plants continue to close down.

We need to do something more than blow smoke.

We need a candid, level-headed assessment of just what our trade problems are. Then we need a pragmatic strategy to take commensurate action.

Our biggest trade problem is the misalignment of the dollar. This is largely a self-inflicted wound caused by our huge budget deficits. To be more precise, today's $200 billion deficits are a creature of yesterday's "supply side" tax cuts. These tax cuts simply did not pay for themselves as advertised by President Reagan in his 1980 campaign.

In this country, if you buy something, you expect it to perform as advertised. If it does not, you expect the necessary repairs to be made by whoever made the sale.

Mr. Reagan has so far failed to live up to this most basic of responsibilities. His "supply side" economic policies have failed to live up to their promise. By artificially propping up the value of the dollar, the resulting budget deficit has indirectly provided foreign products with a 25- to 40-percent price advantage. In effect, our own Government is providing an unfair subsidy to foreigners. As the father of this subsidy, Mr. Reagan owes the American people his full cooperation if not leadership in making the necessary repairs.

Title I of my bill aims to obtain just that. By clarifying existing law, it sets a limit on how long the cause of a trade imbalance and currency misalignment can be ignored without a treatment of the accompanying symptoms. It is designed to force the President to face up to his responsibility and join Congress in putting our fiscal house back in order. On behalf of workers and firms in trade-sensitive sectors of the economy, its message is: Help summon up the will to cure this self-inflicted disease, or treat its most glaring symptom—the trade deficit. It's time to make a choice, Mr. President.

Title II of my bill challenges the President to follow through on his newfound enthusiasm for eliminating foreign unfair trade practices. So far, the President's approach on unfair trade has been all talk, little action. He has initiated a mere four cases.

In general, under this administration it has been like pulling teeth to get any action under the trade laws. In contrast, my bill would give the International Trade Commission a rolling mandate to self-initiate unfair trade investigations. The USTR would be required to devise a plan of action to remedy any unfair cases exposed by the ITC. That plan would then go into effect unless the President intervened and publicly expressed his reasons for doing so.

In this way, the U.S. Government will go to bat for American workers and firms for a change. It will be an active advocate of rather than obstacle to American economic interests. Accordingly, the United States will have more leverage in trying to get our trading partners to the negotiating table to improve the international rules of the game.

Title III addresses the critical question of what to do when highly competitive, fairly traded foreign imports displace American sales and jobs on a large scale in a particular industry. Occasionally, rapidly shifting trade patterns overtake the ability of the market and existing adjustment programs to compensate.

In rejecting the ITC's recommendations to supply temporary import relief to the shoe industry under section 201 of the Trade Act of 1974, the President said that he acted in the national economic interest. He made a cold dollars and cents calculation that simplistically pitted consumers against import-impacted workers and communities.

But can you put a price tag on the death of a community or on the loss of dignity that comes with losing a job and having little immediate prospect of finding another? Is there no room in the national economic interest for human factors that defy quantification?

The people who wrote existing domestic and international law evidently thought there was. Section 201 and GATT Article XIX are on the books for a reason. Their authors realized that consumers have an interest not only in gaining access to cheap goods, but also in minimizing any accompanying social costs.

It is high time this principle be put into practice. In sectors experiencing high import-related unemployment and excess capacity, consumers should be willing to defer for a finite period unfettered access to the cheapest sources of supply in order to give fellow Americans a chance to preserve their communities and sense of dignity.

Accordingly, my bill will refine section 201 to ensure that it fully promotes industrial, labor, and community adjustment during a temporary period of import protection. In this way, consumers will really get something for the extra price they'll temporarily pay for certain imported goods. They'll be buying not only a smoother, more humane transition for their neighbors, but also insurance against the protectionist pot ever boiling over and sending the world economy into a tailspin.

My legislation is intended to lower the flame under their protectionist pot and to come to grips with our trade problems in a forthright, effective manner. There's no better time to start this process than today. And perhaps no better place to launch it than here, where under the stern gaze of Mr. Hawley, the Subcommittee on Trade passed the Jenkins bill without amendment only a couple of weeks ago.

TRIBUTE TO PAUL F. HUGHEY

HON. GEORGE MILLER

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, October 10, 1985

Mr. MILLER of California. Mr. Speaker, for the last 15 years, Paul Hughey has been the executive director of the Contra Costa County, CA, Development Association. With his retirement this month, the Development Association and our county lose the leadership of a man who has provided outstanding leadership in the economic expansion of our county.

Paul's tenure as director of the Development Association has covered a period of unprecedented growth in Contra Costa County. New industries and businesses, public works improvements, and thousands of jobs have transformed Contra Costa into one of the most vital, expanding and desirable counties to live in the entire State of California.

Paul Hughey, and the County Development Association, have played a very significant role in promoting and facilitating that modernization. As Dean Lesher, the president of the association as well as chairman of the board of Lesher Communications said recently, "Paul has been an important factor in the history of the CCDA and its growth. It moved from being a publicly financed organization to one supported by the private sector and it's grown to 445 members—he will be missed.

Paul Hughey's contributions to Contra Costa have by no means been limited to his work with the Development Association. He served in the U.S. Navy, and has remained highly active both in the national and local activities of the Navy League. Paul has also taught at St. Mary's College, in Contra Costa County, and served for 3 years as the city manager of my hometown, Martinez, where he was instrumental in developing a controlled growth pattern while retaining the basic character of Martinez.

As one who has known Paul for many years both as a colleague and a personal friend, I am delighted to hear that he has no intention of fading out of public activities. His decision to remain active in public affairs is welcome news to all of us.

I am sure that all members of the House will join me in wishing Paul a happy and active retirement, and many years of happiness with his wife, Lorraine.

REPUBLIC OF CHINA MARKS 74TH ANNIVERSARY

HON. BILL EMERSON

OF MISSOURI

IN THE HOUSE OF REPRESENTATIVES

Thursday, October 10, 1985

Mr. EMERSON. Mr. Speaker, today October 10, marks the 74th anniversary of the founding of the Republic of China, more commonly known in the United States as Taiwan. Many Members of the House and millions of Americans are keenly aware of the warm friendship and strong ties that have always existed between the Chinese and American people. We are also very much aware of the ever expanding trade relations between the Republic of China and the United States. We have some serious trade relation problems between our two countries, but we all hope that the spirit of amity existing between our countries will lead to responsible actions and bring our relations into better balance. For these many many reasons I have circulated among my colleagues in the House a letter for signature to President Chiang Ching-kuo of the Republic of China, congratulating him and his people on their national day.

At this time, Mr. Speaker, I include the text of the letter to President Chiang Ching-kuo in the CONGRESSIONAL RECORD as a part of my remarks.

The letter follows:

CONGRESS OF THE UNITED STATES,
HOUSE OF REPRESENTATIVES,
Washington, DC, September 30, 1985.

President CHIANG CHING-KUO,
Taipei, Taiwan,
Republic of China.

DEAR MR. PRESIDENT: My colleagues and I wish to congratulate you on the occasion of the 74th anniversary of the founding of the Republic of China. In the past seventy-four years the Republic of China has emerged as one of the strongest economic powers in Asia as well as a democratic nation serving the needs of all her people.

Mr. President, we hope that you will continue to improve the living standards of your people and that you will continue to uphold the democratic ideals that all free people cherish.

We wish to encourage you to hear us in our efforts to solve the many trade issues between our two countries.

We also wish to assure you that we fully support the Taiwan Relations Act.

Again we congratulate you and your people for the many social, political and economic developments that you have made in the last seventy-four years. We wish you continued good fortune in the years ahead.

Truly yours,

FINANCIAL ASSISTANCE FOR FAMILIES CARING FOR VICTIMS OF ALZHEIMER'S DISEASE

HON. OLYMPIA J. SNOWE

OF MAINE

IN THE HOUSE OF REPRESENTATIVES

Thursday, October 10, 1985

Ms. SNOWE. Mr. Speaker, on October 8, my colleagues, Hon. SILVIO CONTE, Hon. TOM LEWIS, and I introduced a bill which would allow a tax credit for the expenses incurred in the care of dependents with Alzheimer's disease or related organic brain disorders. This sliding, nonrefundable tax credit would help to offset the costs of home care, day care, respite and nursing home care for family members suffering from this disease.

Alzheimer's disease is the fourth leading cause of death in this country. It has been estimated that this devastating disease affects between 5 and 15 percent of Americans over 65 or about 2 to 4 million people. At age 80 and over, 20 percent are believed to have Alzheimer's disease, while 50 percent of nursing home residents are estimated to be afflicted. The cost of treatment and health care for individuals with Alzheimers has been estimated at $25 billion annually. Almost one-half of the long-term care costs will be borne by the families who pay these expenses out-of-pocket. For families with Alzheimer's disease victims the costs they incur will range from $17,000 to $50,000 per year. By allowing the taxpayer a credit toward the care of their dependent family member with Alzheimer's disease, we hope to provide a measure of financial and emotional respite.

I am certain that every one of my colleagues has received heartrending letters from constituents with family members who have Alzheimer's disease. They describe the difficult financial and emotional burden of caring for such victims. They speak of personality changes during the course of the illness which render the Alzheimer patient difficult to manage. Some mention fits of anger and frustration, while others speak to the episodes of wandering, allowing the caregiver little rest. Worst of all is, perhaps, the time when the victim no longer recognizes his or her loved ones. When there is no longer a thank you, a loving smile, a touch or tender look, then caregiving truly becomes a thankless job. To be left with caregiving responsibilities of this magnitude is something no person should have to do without assistance. While H.R. 3523 will not alleviate the emotional burden of watching a loved one's gradual mental deterioration, it will provide some financial relief for the taxpaying caregiver.

For taxpayers with an income of $25,000 or less, H.R. 3523 would allow a tax credit of 30 percent of up to $10,000 in care expenses for one and $20,000 for two dependents. The credit would be reduced by 1 percentage point for each $2,000—or fraction thereof—of the adjusted gross income over $25,000, but not below a minimum of 20 percent. My colleagues and I have introduced this bill as a tax credit in order to help lower and middle income families. A tax credit means that the taxpayer can subtract the credit from the taxes owed rather than from their income, as in the case of a deduction. In order to target this tax credit to those most economically affected by the cost of dependent care, our bill limits participation to families earning $60,000 or less.

Mr. Speaker, several million family members are trying to cope with an increasingly difficult situation with no financial or professional help. While we seek to expand Government programs for victims of Alzheimers, we must also provide some tax relief for those expenses related to their care. I enlist the support of my colleagues for speedy enactment of this bill.

PROTECTIONISM HAS REARED ITS UGLY HEAD ONCE AGAIN TODAY

HON. JIM ROSS LIGHTFOOT

OF IOWA

IN THE HOUSE OF REPRESENTATIVES

Thursday, October 10, 198520

Mr. LIGHTFOOT. Mr. Speaker, protectionism has reared its ugly head in the Halls of Congress; 262 Members of the House rushed to its aid and comfort. H.R. 1562, known as the Textile and Apparel Trade Enforcement Act of 1985 should more appropriately be labeled the "Kill America First Bill."

While the bill may protect a few jobs in an industry that has enjoyed some form of protection for well over 25 years, it has the potential to further devastate the agricultural community.

The bill will roll back imports of textiles and apparel from 12 selected major suppliers, regardless of whether such imports cause damage to U.S. producers or are unfairly traded. Among these countries are Taiwan, Korea, Hong Kong, Japan, and the Philippines.

U.S. consumers can expect to pay $28 billion more dollars for the items of clothing they wear. Low-income families will be hardest hit. Our farmers and rural communities do not need another economic hit of the magnitude of this piece of very poor legislation.

I strongly opposed the bill and have signed a letter to the President urging a veto. It takes 145 votes to sustain a veto; 159 Members voted against it, so we do have the potential to kill it.

The dangerous precedent set by the passage of this measure reflects the mentality that was at work in the late 1920's. At that time, a cry of protectionism echoed across the land and Congress came forth with the Smoot-Hawley Act that threw up protectionist barriers around our country. Most economists agree it was largely responsible for triggering the worst worldwide depression in history.

If the liberal, big-Government-oriented Members of Congress are not persuaded to change their ways, they will surely plunge us into an economic downturn that may well be impossible to reverse.

If weakening America in the name of protecting a few textile jobs—at the cost of $140,000 apiece—was their goal, they have hit a home run.

I'll do everything possible to get and sustain a veto on their damaging bill.

JUDGE ABNER J. MIKVA ENDORSES RICO REFORM LEGISLATION

HON. FREDERICK C. BOUCHER

OF VIRGINIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, October 10, 1985

Mr. BOUCHER. Mr. Speaker, the Subcommittee on Criminal Justice has held several days of hearings on legislation I have introduced, H.R. 2943, to amend the civil provisions of the Racketeer Influenced and Corrupt Organizations Act [RICO].

On October 9, 1985, we received testimony from U.S. Circuit Court Judge Abner J. Mikva, a former member of this body and a widely respected legislator and jurist.

In his testimony, Judge Mikva endorses H.R. 2943 which would amend the civil provisions of the RICO act to require a prior criminal conviction before a private action could be pursued.

H.R. 2943 will ensure that RICO remains a potent weapon in the fight against organized crime and that it affords those injured by racketeering activity a civil remedy. It will, however, stem the growing use of civil RICO as a weapon to harrass and threaten legitimate businesses.

I urge all of our colleagues to review Judge Mikva's testimony which follows:

TESTIMONY OF ABNER J. MIKVA, U.S. CIRCUIT JUDGE

(H.R. 2517 and H.R. 2943, to amend the Racketeer Influenced and Corrupt Organizations Chapter of Title 18, U.S. Code, October 9, 1985)

Mr. Chairman, Members of the Committee, I appear here wearing more than the normal amount of sackcloth and ashes. It is not that I voted for the Organized Crime Act of 1970. While I was present at the creation, I did not vote for the bill. I am afraid my transgression was greater; I helped create a legislative history that has since been used by various litigants to try to prove that the Act can be stretched to cover almost any kind of lawsuit.

I confess that I used a substantial amount of hyperbole in trying to build opposition to the entire Act when it came up for Floor consideration. I stand amazed, however, to realize that my hyperbolic horrible examples of how far the law would reach pale into insignificance when compared to what has actually happened. The civil RICO provisions use as a weapon in various sorts of commercial disputes is, to my mind, both improper and an acute embarrassment to all concerned.

First of all, even my hyperbolic pronouncements of 1970 did not suggest the sheer volume of RICO claims that would be filed. During the first ten or eleven years after the Act was passed not too many private RICO claims were filed. But since 1981 or 1982 the number of such claims has risen beyond measure. I say "beyond measure" advisedly. As I will discuss a bit later, many civil RICO claims never go to trial: yet their addition to a complaint has a profound impact on a defendant. What started out as a small cottage industry for federal prosecutors has become a common-place weapon in the civil litigator's arsenal. Just a few weeks ago, I received an advertisement from one of the legal publishers urging me to become a subscriber to the Civil RICO Report. Think of it, a whole loose-leaf reporting service was developed from a throw-away section of the Organized Crime Act. In looking through one of the American Bar Association directories I even found that the Corporation Law Section has a separate Subcommittee on Civil RICO.

In preparing for my appearance here today, I looked at some of the cases in which a civil RICO claim has been filed. The range of cases boggles the mind. RICO makes an appearance in everything from divorce suits to religious disputes to suits against one of the national candidates and a major political party, to garden variety contractual disputes between businessmen, to corporate raids, to defenses against corporate raids, to state efforts to collect sales taxes from local businessmen. If you find it hard to relate that potpourri to organized crime, you are not alone. Almost every court that has looked at the problem has wistfully urged the Congress to reexamine what it has wrought. A distinguished circuit judge of the Seventh Circuit who was forced to uphold my home state's use of civil RICO against a gasoline dealer, (who under-reported sales taxes due to the state of Illinois) hoped that this ruling would appear to Congress "as the distress flag that it is" and urged Congress to reexamine the use of civil RICO. One of the few issues on which the majority and the minority agreed in their five-to-four decision in *Sedima, S.P.R.L.* v. *Imrex Co.*, 53 U.S. L.W. 5034 (July 1, 1985) ("*Sedima*") was that civil RICO was being used in ways unintended by Congress, as a weapon against legitimate businessmen in ordinary commercial disputes. The civil RICO count is today almost boiler-plate in commercial lawsuits. Its presence in a complaint frequently forces defendants to settle and pay out for frivolous disputes under pain of having to defend against being labeled a "racketeer." Because of this intimidation factor it is impossible to accurately measure the full impact of civil RICO. The oppressive effect of its use in a complaint does not show up in litigation statistics.

Some judges, including four Justices of the United States Supreme Court, would have tempered the language of civil RICO so as to preclude the incredible results that are being achieved under it; but a majority of the Supreme Court have proclaimed the law of the land to be that the words mean what they say. If civil RICO is not to be used in the extreme fashions that are current, Congress must change the statute.

There are many ways to change the statute, and there are many bills currently pending before this Congress. I would hope that this Committee would give special attention to H.R. 2943 proposed by Congressman Boucher. Congressman Boucher, unlike some of the sponsors and some of the opponents of the original Organized Crime Act of 1970, uses scalpels rather than meat axes. Some of Congressman Boucher's predecessors promised that the Organized Crime Act of 1970 would cure everything from organized crime to hoof-and-mouth disease. Some of his other predecessors, like your witness, insisted that the entire bill be scrapped because it would reach everything from Saturday night social poker games to prosecutorial excesses against innocent people.

While the Organized Crime Act of 1970 has not wiped out organized crime, neither has it led to the prosecutorial abuse that I envisioned. In fact, the guidelines used by the Department of Justice before it proceeds under the criminal RICO provisions of the Act have been a model of self restraint. Various provisions of the Act have in fact proved helpful, if not letal, in the ongoing war against organized crime. However one feels about those other provisions, it is clear that the civil RICO provision as it was written and as it is being used goes way beyond anything that Congress had in mind. (In 1970 even I would not have suggested that this section of the Act would become a tool in resolving divorce disputes or religious controversies.) Since that point is beyond

dispute, Congressman Boucher's bill precisely meets the need.

First, H.R. 2943 amends only the civil RICO provision. Second, it provides that the provision could still be used by private plaintiffs where the defendant had either been convicted of previous racketeering activity or was charged with a violation of the specific racketeering section of the Act itself (Section 1962). The bill also has a proviso that makes it cledar that the government is still free to pursue all of its civil remedies and that the criminal RICO provisions remain intact.

The distinguished chairman of this subcommittee was one of the thirty-six brave souls I identified with in opposing the Organized Crime Act of 1970. I admired then, as I do now, his tenacity and fearlessness in taking on hard issues. But a bill to correct the excesses of civil RICO should not and need not be the catalyst for a repeat of the controversy engendered by the entire Organized Crime Act. Whatever the climate or reasons or passions for revisiting other provisions of the Organized Crime Act of 1970, opponents who engaged in the debate of those October days of 1970 would agree that the present use of civil RICO is excessive to a fault. Judges throughout our system are discomfited by the decisions they must issue under the plain words of civil RICO, particularly as finally construed by the Supreme Court earlier this year.

The very essence of the legislative process requires Congress to revisit and oversee its legislative product. I commend you for doing just that in holding hearings on Congressman Boucher's bill and other bills dealing with this subject matter. I hope you will heed the urgent appeal of my colleague, Judge Bauer, and answer the "distress flag" that has been raised by him and other judges forced to literally apply the words of the civil RICO provision to ridiculous effect.

I believe that the narrow remedy proposed by Congressman Boucher's bill can alleviate these problems without distressing any objective supporter of the Organized Crime Act and its legitimate purpose. The federal government can continue to use all of the tools that are now provided it. A private remedy will remain for use in those instances where there has in fact been racketeering. The only losers will be the publishers of the special civil RICO services and a few hyper-aggressive lawyers who will have to find other ways to harass their opponents.

IN HONOR OF MSGR. GEORGE V. KERR

HON. SILVIO O. CONTE

OF MASSACHUSETTS

IN THE HOUSE OF REPRESENTATIVES

Thursday, October 10, 1985

Mr. CONTE. Mr. Speaker, I rise today to pay tribute to Msgr. George V. Kerr, and I know that my sentiments are shared by Mr. BOLAND and Speaker O'NEILL. The loyal son of Boston College, Monsignor Kerr was born in Philadelphia on St. Valentine's Day in 1919. This was the reason for the middle initial "V," standing for valentine. It was not long before the Kerrs saw the light and moved to the Bay State. George was brought up in St. Mary's Parish, Brookline. While attending St. Mary's School, he was a star athlete, receiving his letter in three sports—football, baseball, and basketball.

In September 1937, George walked down Linden Lane as a freshman at the Jesuit college on the Heights. While a student at Boston College, he excelled as a debater and scholar. In addition, he was a talented pianist and athlete. In the latter role, he was both a superb boxer and a fine football player. George played guard on the famous Boston College football team which defeated the Tennessee Volunteers at the Sugar Bowl in New Orleans on New Year's Day 1941. Years later, Frank Leahy, the famous coach of the Eagles' national championship team said of George:

I sincerely believe he is the greatest all-around scholar-athlete that I ever coached, and I feel convinced that he could compare favorably with the finest in history at any school.

Despite his numerous activities at the Heights, he found time to be a fervent sodalist. His religious piety was a manifestation of the holy spirit within him. He would eventually offer one day the sacrifice of the mass led by the paraclete to the altar of God as a priest. He later paid tribute to the Jesuits who influenced him during his happy undergraduate days by the example of their lives. George graduated cum laude with a scholastic average of 90. He was voted by his classmates as the classmate most likely to succeed as the 1941 Sub Turri, the college yearbook, testifies.

Shortly after graduation, George entered St. John's Seminary in Brighton, MA, at the bottom of the hill from Boston College on Lake Street. There he began his preparation for the priesthood. He was ordained by Archbishop—later to become Cardinal—Richard Cushing at the Cathedral of the Holy Cross in the South end of Boston on June 29, 1945.

His first assignment as a curate was at St. Mary's Church in Dedham, MA. His second assignment was as an administrator of St. Linus' Church in Doug Flutie's hometown of Natick. He next worked as an aid in the Catholic Charitable Bureau.

Father Kerr's finest hour came when he volunteered to save the Church of St. Frances de Sales in Roxbury from being torn down. The 89-year-old edifice was in need of major repairs and was slated to be demolished. Cardinal Cushing was impressed by the youthful priest's offer and named him administrator of St. Frances de Sales Church. Wasting no time, Father Kerr commenced a fundraising campaign and within a year the church was renovated along with the parish school. Due to his apostolic zeal and dedication to his impoverished black parishioners on whom he poured his love and made on their behalf countless acts of charity and kindness, he was elevated to the rank of papal chamberlain in 1958 by Pius XII and named a domestic prelate in 1964 by John XXIII.

On the 25th anniversary of the Sugar Bowl Game, Monsignor Kerr addressed a filled hall at an affair sponsored by the Boston College Varsity Club. His speech remains memorable to this day. He said:

A man may glitter athletically on the gridiron, and he may twinkle intellectually in the classroom, but unless his conscience sinks deep into the subsoil of religious faith and shoots its antennae up beyond the stars and space, that man will miss alike the music of divine inspiration and the thunder of divine command.

His final assignment was to be the pastor of St. Francis Xavier Church in South Weymouth. During the last few decades and half of his life, he was the Chaplain of the House of Representatives. He also served as director of the Archdiocesan Nocturnal Adoration Society and chaplain of the Cecilian Guild.

Monsignor Kerr's dedication to his priestly ministry made him an "all-American in life." His broad-shouldered athletic body finally succumbed to lung cancer after a 6-month struggle, during which time his spirit remained unbroken. He died on January 23, 1983.

At his Mass of the Resurrection, one of his intimate clerical friends, Msgr. Francis Dolan, in his magnificent homily preached in the presence of Humberto Cardinal Medeiros and a vast throng of mourning relatives, clergy, friends, and parishioners closed by saying, "We shall scarcely see his kind again."

His brother Peter and his sister Mary stated that they had no idea of their brother's influence on the lives of so many people until strangers came up to them in the street or wrote letters stating how much Monsignor Kerr had meant to them. His classmate, Most Rev. Joseph Maguire, bishop of Springfield, said that in all his years, he had never known a more dedicated priest than Monsignor Kerr.

Such, then, was the life of the scholar athlete and above all a priest of God for whom a scholarship will be established at Boston College.

SENATE—*Friday, October 11, 1985*

(Legislative day of Monday, September 30, 1985)

The Senate met at 9:30 a.m., on the expiration of the recess, and was called to order by Hon. ROBERT DOLE, a Senator from the State of Kansas.

APPOINTMENT OF ACTING PRESIDENT PRO TEMPORE

The PRESIDING OFFICER. The clerk will please read a communication to the Senate from the President pro tempore [Mr. THURMOND].

The legislative clerk read the following letter:

U.S. SENATE,
PRESIDENT PRO TEMPORE,
Washington, DC, October 11, 1985.
To the Senate:

Under the provisions of rule I, section 3, of the Standing Rules of the Senate, I hereby appoint the Honorable ROBERT DOLE, a Senator from the State of Kansas, to perform the duties of the Chair.

STROM THURMOND,
President pro tempore.

Mr. DOLE thereupon assumed the chair as Acting President pro tempore.

ADJOURNMENT UNTIL TUESDAY, OCTOBER 15, 1985

The ACTING PRESIDENT pro tempore. Under the previous order, the Senate will stand in adjournment until 10 a.m. on Tuesday, October 15, 1985.

Thereupon, at 9:30 and 30 seconds a.m., the Senate adjourned until Tuesday, October 15, 1985, at 10 a.m.

HOUSE OF REPRESENTATIVES—*Friday, October 11, 1985*

The House met at 10 a.m.

The Chaplain, Rev. James David Ford, D.D., offered the following prayer:

May Your wisdom, O God, be with the leaders of our Nation and all the nations. May Your spirit of justice be with the people of this place and every place. May Your gift of life and all its blessings give hope to every person, and may Your love bind all Your creation together in peace. This we pray. Amen.

THE JOURNAL

The SPEAKER. The Chair has examined the Journal of the last day's proceedings and announces to the House his approval thereof.

Pursuant to clause 1, rule I, the Journal stands approved.

MESSAGE FROM THE SENATE

A message from the Senate by Mr. Sparrow, one of its clerks, announced that the Senate had passed with amendments in which the concurrence of the House is requested, a joint resolution of the House of the following title:

H.J. Res. 372. Joint resolution increasing the statutory limit on the public debt.

The message also announced that the Senate disagrees to the amendment of the House to the bill (S. 1078) "An act to amend the Federal Trade Commission Act to provide authorization of appropriations, and for other purposes," requests a conference with the House on the disagreeing votes of the two Houses thereon, and appoints Mr. DANFORTH, Mr. KASTEN, Mr. GORTON, Mr. HOLLINGS, and Mr. FORD to be the conferees on the part of the Senate.

CALL OF THE HOUSE

Mr. HOYER. Mr. Speaker, I move a call of the House.

A call of the House was ordered.

ANNOUNCEMENT BY THE SPEAKER

The SPEAKER. The Chair will announce that 1 minute will be taken after the motion to go to conference and the motion to instruct conferees. We hope that will be within a reasonable time.

The call was taken by electronic device, and the following Members responded to their names:

□ 1015

The SPEAKER. On this rollcall, 340 Members have recorded their presence by electronic device, a quorum.

Under the rule, further proceedings under the call were dispensed with.

LEGISLATIVE PROGRAM

(Mr. LOTT asked and was given permission to address the House for 1 minute.)

Mr. LOTT. Mr. Speaker, I would like to address the House so that we could, for the edification of all the Members, have a dialog with the majority whip as to what will be happening for the balance of the day; the procedure at this point.

Mr. Speaker, since there has been a great deal of discussion back and forth about what will be the time of debate here today and what the votes will be, I would be happy to yield to the distinguished majority whip so the Members can be notified as to what we can expect.

Mr. FOLEY. Mr. Speaker, I thank the Republican whip for yielding.

At the Chair's direction, 1 minute speeches will be postponed until after the pending business which is an imminent motion to take the joint resolution from the Speaker's desk, which will be offered by the gentleman from Illinois [Mr. ROSTENKOWSKI], and to disagree with the Senate amendment thereto and to request a conference with the Senate thereon.

Following action on that motion, it would be in order for a motion to instruct the conferees to be offered.

Mr. LOTT. Reclaiming my time, I would like to say that we do intend to offer a motion to instruct conferees from this side.

I would like to inquire, is it the intention, as I understand, that there will be an effort made to perhaps shorten the amount of debate time on each of those?

Mr. FOLEY. If the gentleman will yield further, I understand the gentleman from Illinois [Mr. ROSTENKOWSKI] will offer a unanimous-consent request that on the motion he will offer that debate be limited to 15 minutes on each side.

Mr. LOTT. It would be our intent to do the same thing on the motion to instruct on this side.

Mr. FOLEY. Yes.

At the conclusion of the debate and action on the motion to go to conference and the motion to instruct the conferees, the Chair would be able to and could appoint conferees, assuming the motions have been agreed to; at least the motion to go to conference has been agreed to, and following that we will take up 1 minute speeches. That will conclude the legislative business for the day, and I would estimate, Mr. Speaker, that the House should be at the end of its legislative business by noon today.

Mr. LOTT. Mr. Speaker, I thank the whip.

PARLIAMENTARY INQUIRY

Mr. DORNAN of California. Mr. Speaker, I know that our side agreed, but today is an unusual day in American history. In honor of Larry McDonald and Bob Stethem, could we not have the 1 minutes now? It will not take that long.

The SPEAKER. We will have the 1 minutes later.

APPOINTMENT OF CONFEREES ON HOUSE JOINT RESOLUTION 372, EXTENSION OF THE PUBLIC DEBT LIMIT

Mr. ROSTENKOWSKI. Mr. Speaker, by direction of the Committee on Ways and Means, I move to take from the Speaker's table the joint resolution (H.J. Res. 372) increasing the statutory limit on the public debt, disagree to the Senate amendments thereto, and request a conference with the Senate thereon.

The Clerk read the title of the joint resolution.

The SPEAKER. The gentleman from Illinois [Mr. ROSTENKOWSKI] is recognized for 1 hour.

Mr. ROSTENKOWSKI. Mr. Speaker, I ask unanimous consent that the debate on this motion be limited to 30 minutes.

The SPEAKER. Is there objection to the request of the gentleman from Illinois?

There was no objection.

Mr. ROSTENKOWSKI. Mr. Speaker, I yield 15 minutes to the gentleman from Tennessee [Mr. DUNCAN], and, pending that, Mr. Speaker, I yield myself such time as I may consume.

□ 1025

Mr. Speaker, I would like to outline for the Members the procedural situation we are in. The Senate has adopted House Joint Resolution 372 with the Gramm-Rudman amendment and has returned it to us. The purpose of my motion is to disagree with the Senate amendments and request a conference with the Senate.

The House finds itself in an unfortunate position. The other body has decided to use the resolution increasing the debt ceiling to play a high stakes game of chicken. The increase in the debt ceiling must be passed. We are all aware of the enormous consequences of the government defaulting on its financial obligations. In 1979, the House recognized the mischief that can be caused by amending resolutions of this sort and provided for the automatic increase of the debt ceiling upon the House's adoption of the budget resolution. This allows for a clean resolution to be passed and prevents political games from being played. The game has begun, however, and we are going to have to play, however reluctantly.

Gramm-Rudman is major legislation. It dramatically alters the roles of the President and the Congress in the legislative process. Normally, legislation of this scope would be carefully considered in committee. The public would have an opportunity to be heard and to understand the proposal. Members of the House and Senate would have time to consider all of its ramifications. The Senate action has robbed us, and the people we represent, of the ability to carefully scrutinize this proposal. And no matter where you stand on the substance of Gramm-Rudman, all of the Members of the House are the victims of this theft.

It is clear we have to deal with this issue in conference and I want my colleagues to understand how I will approach the conference. I am as concerned as any Member about the size of the Federal deficit. I share the substantive concern that gave rise to Gramm-Rudman. I understand the political concern of protecting the role of this House and the rights of all of its Members in the legislative process. The need for this conference is real. Members of the House need to understand this proposal and its ramifications.

In the conference, I am going to be working for a constructive solution that addresses all of these concerns. On paper, the House and Senate positions in conference could not be further apart. In reality, however, I think they are identical—both bodies want a serious, fair, responsible, and real reduction in the deficit. I will be working in conference to achieve this goal.

Mr. Speaker, I reserve the balance of my time.

The SPEAKER. The Chair recognizes the gentleman from Tennessee [Mr. DUNCAN].

Mr. DUNCAN. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I appreciate the gentlemen's comments and agree that the Federal Government should not default on its obligations. I also agree that the Gramm-Rudman amendment of the other body represents major legislation.

It also represents a potential answer to the deficit reduction puzzle we have been trying to solve, without any measurable degree of real success, for a long time. It puts some feet to the fiscal fire, and I think that is a good step in the right direction.

It also might force us here in the Congress to stop kidding ourselves about where the deficits really begin and continue to grow. It is not the executive branch of Government which bears this burden. It is the legislative branch, and we might as well admit that fact and go on to something achievable. Gramm-Rudman holds that promise for us.

The SPEAKER. Does the gentleman have any further requests for time?

Mr. DUNCAN. Mr. Speaker, I yield 3 minutes to the gentleman from Minnesota [Mr. FRENZEL].

Mr. FRENZEL. Mr. Chairman, I support the motion, and I support the statement of the chairman and that of the distinguished ranking member of the Committee on Ways and Means.

This Government does have to pay its bills. We do have to go to conference to settle the debt extension problem. It would be disastrous if the U.S. Government would default on its obligations.

But the House also has an obligation to examine the Gramm-Rudman-Hollings amendment which the Senate laid on our doorstep last night. And the conference committee is the traditional way that we will accomplish this.

I will also support a motion to instruct the conferees to support the budget-balancing goals of the Senate initiative, not because I think it is perfect, and not because I think it cannot be improved, but because I think it offers, here and now, the greatest hope to set Congress on the road to fiscal sobriety.

Nothing is perfect. No future Congress can be bound by past Congresses. The Senate proposal can be improved. Nevertheless, this is the first chance for real progress against the deficit since 1981.

We have found that the budget process will not give us what we need to

cure our spending habits. It provides a useful procedure, but it is not an effective substitute for congressional will.

Perhaps the Gramm-Rudman-Hollings proposal will give us that extra measure of discipline, which in combination with our budget process, will eventually lead us back to fiscal sanity.

This House has had a terrible record on spending. It is time to give our constituents their No. 1 priority and to achieve our own No. 1 priority. In both cases, that is the reduction of the deficit.

Mr. Speaker, I yield back the balance of my time.

Mr. ROSTENKOWSKI. Mr. Speaker, I yield 3 minutes to the gentleman from Missouri [Mr. GEPHARDT].

Mr. GEPHARDT. Mr. Speaker, I rise to support the motion to go to conference, and I would oppose a motion to instruct if the motion to instruct specifically instructs the conferees to accept the provisions of the Gramm-Rudman proposal. The reason I say that is that I do not think there is a Member of the House today, and I include myself in that description, who understands what is in the final-passed Gramm-Rudman proposal. A lot of us have tried to read that proposal as it has been developed in the other body. We tried to understand the different provisions that affect the date of the trigger that brings in this automatic deficit reduction mechanism. We tried to understand how that mechanism would actually affect spending programs. We tried to understand how much Presidential discretion would be left and how that discretion could be exercised.

We tried to understand exactly what programs would be affected and how they would be affected in monetary terms in 1986, 1987, and beyond. We tried to further understand whether or not alternative approaches would be more effective and more neutral and more successful in dealing with the deficit problem that we face.

It is simply impossible, humanly impossible, to know today whether or not that proposal should be accepted and, if it should be changed, how it should be changed. I urge the Members of the House to allow our conferees to go to this conference with the understanding that they have the latitude and the ability to try to perfect this proposal to make it do what its sponsors want it to do and what I think every Member of the Congress wants to achieve, which is lasting and sensible and intelligent deficit reduction.

Before I close, let me simply make one point about the action that we are taking today, that the Senate took yesterday, and we will take in a few days, to raise the debt ceiling. I would like to quote Ronald Reagan, October 1, 1981. He said,

Last night I signed a bill that raised the debt ceiling to more than $1 trillion. The $1 trillion debt figure can stand as a monument to the policies of the past that brought it about, policies which, as of today, are reversed.

Four short years later we are raising the debt from $1 trillion to $2 trillion.

Mr. DUNCAN. Mr. Speaker, I yield 3 minutes to the distinguished minority whip, the gentleman from Mississippi [Mr. LOTT].

Mr. LOTT. Mr. Speaker, the House is out of order. This is where the spending begins. The budget process is in shambles. I voted for the 1974 Budget and Impoundment Act. I have tried to support it and tried to make it work, but it "ain't working." It has collapsed in a heap of ashes here on the floor of the House of Representatives. We have got to do something to resurrect a budget process that has become a mockery. This is exhibit A of the mockery. This is the reconciliation bill that we are going to be considering soon.

We used this 545-page reconciliation bill to pass authorizations, to increase spending, to try to find ways, frankly, in many instances, of not living up to our own budget resolution.

The budget resolution that we passed this year that I worked on to help get through the House was our last gasp. We are finished. We have got to have a new process.

That is what this whole effort is all about on Gramm-Rudman. We are not looking for a gimmick, we are not looking for a quick fix.

Yes, we like the fact that the deficits and policies have changed on the issue, but what we want is just a process, a mechanism to force ourselves to live with a budget that will reduce our deficits. That is all we are looking for. Gramm-Rudman does not make you vote against a single program, not defense, not the CCC, not AFDC, not anything. It just sets up a mechanism so that we will address the question of the deficits: How are we going to go about this?

Now I do not like going to conference in this instance. I realize that is what we have got to do. But look at what is going to happen in this conference. The House is going to send 43 conferees, 43 conferees from the House. Where are they going to meet? In the Cannon Caucus Room?

We ought to have half that many going over there if we are really going to seriously get to the issue of addressing this question of how we come up with a budget process.

This concept is good in the Gramm-Rudman process that was passed by the Senate.

In fact, the distinguished majority leader and I, JIM WRIGHT, cosponsored a simiar concept in 1981 in a joint press conference right up here, along with PHIL GRAMM. It is not a new idea. It has been around for a good long while.

So we are not being surprised by this process. But the motion to instruct recognizes that we do not know all of the details of what has happened in the other body. We have the Domenici substitute that made some changes that we would like to look at. We are not trying to force this down your throat "whole hog," but we want some results. This motion to instruct should be supported by both sides of this aisle in which we say, "Report back here promptly, do not wait for the debt ceiling to collapse, and bring us back a plan that will really reduce the deficit over a 6-year period and include sequestering." Because if we do not make ourselves do it, we "ain't going to" do it.

This is a great opportunity for the Congress, for the American people, to get our act together.

So all right, let us go to conference, but let us support this motion to instruct conferees.

Mr. Speaker, I rise in strong support of this motion to instruct conferees to accept a deficit reduction mechanism. Even though it's not fashionable for a prospective conferee to say so, I welcome this guidance from the House on such a critical matter as deficit control.

I think it's especially important that the House have this opportunity to go on record now on this issue since it is not a matter we have previously considered. If we had the luxury of time, I would agree that this is the kind of matter we'd want to have hearings on, or, at the least, debate and amend in the Committee of the Whole. But we don't have the luxury of time. And I think my colleagues would agree that this should be a part of this debt limit bill.

Mr. Speaker, I think it is unfortunate that so much attention has been focused on the automatic, across-the-board sequestering of funds that could take place if the deficit is projected to exceed the targets set by this bill. There are those who talk as if this legislation somehow abdicates forever congressional power over the purse strings. Nothing could be further from the truth. We still have the authority to adopt budget resolutions and spending bills within the deficit limits we set, and to determine our own spending priorities. And, if there is a deficit-limit overage, we still have the right to enact further corrective legislation to bring the deficit back within that limit.

The across-the-board cuts in controllables and automatic spending increases is really an action-forcing mechanism to ensure that we and the President take that corrective action in a timely manner. I think most analyses will indicate that sequestration is just as unpallatable to the Executive as to the Congress. It hits defense and social programs equally hard.

Mr. Speaker, there are those who charge that the Gramm-Rudman is a gimmick, and, I suppose, to the extent that it lives up to the definition of being "an attention get-

ting device," I suppose it is. It's like using that two-by-four on the mule—it certainly will command our attention.

There are those who say this is an attempt to substitute a gimmick for guts. I don't agree. It may be a gimmick, but we'll still need the guts to live up to these deficit targets and set our own priorities. As I mentioned before, it's not a pallatable gimmick, and the alternative to our relinquishing our rightful role should turn our stomachs enough to strengthen those stomach muscles and finally force us to get back on the right track.

Finally, there are those who charge that this is a quick fix. It's not that. It's a tough, long-term fix that ratchets down the deficit over a 5-year period. And the deficit certainly is something that needs fixing. Let's adopt this motion to instruct and get on with the fixing that needs doing.

Mr. Speaker, I yield back the balance of my time.

Mr. ROSTENKOWSKI. Mr. Speaker, I yield 2 minutes to the gentleman from California [Mr. PANETTA].

Mr. PANETTA. Mr. Speaker, what is before us is perhaps the most significant step that this Congress will take since the adoption of the Budget Act. There is no question that we are dealing with significant legislation that will impact on every program, that will impact on every jurisdiction, and that will impact on every citizen.

We have a responsibility under the Constitution to look at this issue and to protect those citizens in what we do and to be careful in the final product that we put together.

There is no mistake that we will seek to achieve a final product. There is no mistake that we will try to achieve effective tools to balance the budet. But those tools may be tough, they must be effective, and they must be fair.

The genius of our system of democracy is that we ought to take the opportunity to ask the questions and to not regret the final product that we produce here.

Let us understand that whatever process we put into place; there is no process that can replace the guts we need to make tough decisions.

□ 1040

So the process has to be a fair one. There are questions here, questions with regard to the types of targets, whether in fact we ought not to proceed in 1986 to do tough work in reducing the deficit and not postpone it, questions regarding the powers of the President, questions regarding the enforcement tools that are all a part of this.

So there are legitimate questions, and there are Members here who have not even looked at the document that is now coming over to us from the Senate.

So, please, let us take that opportunity, vote to go to conference and fulfill our responsibilities not only to the Constitution but to the citizens of this country.

Mr. DUNCAN. Mr. Speaker, I yield 2 minutes to the distinguished gentleman from Ohio [Mr. LATTA].

Mr. LATTA. Mr. Speaker, let me say I am going to support this motion. I am also going to support the motion to instruct conferees, doing so well knowing that instructions are not mandatory but they are advisory. Certainly we would not expect our conferees to come back from conference with merely an increase in the debt ceiling. I am certain they would not want to do that. So for that reason I am going to vote to instruct the conferees.

But, really, this is another sorry day for the Congress. What brings us here, in the first place, is the fact that the Congress of the United States has on its own been unable to step up to the plate and cut, cut, cut expenditures that we do not need and should not have had.

Time after time we have had an opportunity on this floor to bring down expenditures of the Federal Government and we failed. All we have to do is take a look at the appropriations as they come along year after year. We failed. And now we have got to pass the buck through this type of procedural legislation on down to the administration to have some guts to make some reductions that we the Congress of the United States have not done. That is what this is all about. It does not matter whether you follow this procedure or some other procedure. We have not done it in the past and we do not expect to do it in the future. So we have an out, we will be able to say to our favorite few back home or our favorite group, "Oh, we didn't make those reductions, the President did it." Well, we are going to give him the tools and he is going to have the ability and he is going to have the guts needed to bring down expenditures.

We have a $2 trillion national debt that is now going to cost $146 billion a year just in interest charges alone. We have reached a peak, we have reached a point of no return. So we have got to take this action. For that reason I am going to vote to instruct the conferees to bring back a package that will do the job, a job that is long overdo.

Mr. DUNCAN. Mr. Speaker, I yield 2 minutes to the gentleman from Texas [Mr. LOEFFLER].

Mr. LOEFFLER. Mr. Speaker, year after year, Congress begins the annual budget process with grandiose intentions of controlling spending and reducing our huge budget deficit. Year after year, Congress fails to realize the goal of fiscal responsibility.

There is no question that the present budget process of setting and meeting spending targets simply has not worked. What we have now is an opportunity to come forth with some good, tough budget rules that cannot be bent, broken or simply ignored, as has been the case in the past.

The pending legislation mandates a balanced budget by means of a stick, and that stick is the sequestering of most spending accounts. But how the balanced budget outcome is achieved is still left up to Congress. The Congress can enact legislation to supersede the sequestering of accounts. It is the threat of automatic sequestering of funds which is central, in my judgment, to the self-enforcing aspect of this proposal. If that sequestering is unacceptable to a majority of the Congress and to the President, other ways can be found to achieve the required deficit reduction. If sequestering is more palatable as a solution, then it will remain in effect. The opportunity will be there for Congress to work its will, but, most importantly, the deficit will be reduced.

Yes, we do need radical surgery because the current budget process is in a coma and is fading fast. This vital legislation presents our best hope of putting the Nation firmly on a path of responsible spending. We need a process with teeth and with truth, and the pending legislation provides an abundance of both.

Mr. Speaker, I urge the body to vote in favor of the motion to instruct conferees.

Mr. ROSTENKOWSKI. Mr. Speaker, I yield 2 minutes to the gentleman from North Carolina [Mr. NEAL].

Mr. NEAL. Mr. Speaker, I really want to raise a question, and I think the gentleman from Ohio [Mr. LATTA] would be most able to answer it, if I can get his attention. First a brief statement and then a question.

In 1978, February 1978, this body adopted a law, and it remains the law of the land since it has been reaffirmed twice, in 1980 and again in 1982. It says that "budget outlays of the U.S. Government for a fiscal year may not be more than the receipts of the Government for that year." This 1978 law said that we would give ourselves 3 years to come into compliance with this law, the intent of the law was that we would have a balanced budget by 1981.

In 1981 we adopted the Gramm-Latta, Reagan, Kemp-Roth, supply-side proposals, proposals which were supported by 100 percent of the Republicans in this body, and a few Democrats, enough to pass them into law. The result has been, as many of us predicted at the time, the most massive budget deficits in history; a doubling of the national debt in just 5 years. Those who supported these proposals which taken all together should be most accurately referred to as national Republican policy, paid no attention to the 1978 law. Year after year the President has proposed budg-

ets with deficits of hundreds of billions of dollars. Year after year the supporters of this national Republican policy in the Congress simply ignored the law.

The question is this. Since the President and a majority in Congress have ignored the law I referred to, routinely violated it, why should the public take seriously any law that we pass on this subject of balanced budgets at this time?

Mr. LATTA. If the gentleman will yield, since he has asked a question, let me say that he has asked two questions and let me answer the last one first. The Gramm-Latta bill made reductions—reductions—in expenditures, it did not increase them.

Mr. NEAL. In the deficit? Certainly not.

Mr. LATTA. And, second, let me answer the first question. The gentleman raised the question about the statute that is on the books that says we should balance the budget, the Byrd amendment.

Mr. NEAL. Right, the Byrd amendment.

Mr. LATTA. As I see this new proposal, that is the only shortcoming in it. It is a statute that could be waived by the Congress of the United States, just like it waives the Budget Act now. So I want to use this time to say that we have got two States to go yet, two States for a constitutional amendment.

Mr. NEAL. The gentleman has answered my question. I am reclaming my time.

Mr. LATTA. We are going to go forward with that, notwithstanding the passage of this legislation.

Mr. NEAL. I am reclaiming my time. Regular order.

Mr. Speaker, I am going to support the motion to go to conference, and the version that I have seen of the motion to instruct seems to make sense to me. But I really think what is going on here is that this opportunity is being used to divert the public's attention from the fact that the economic plan that we are following has doubled the national debt in 5 years and that we are not willing to do what is really necessary to bring the budget into balance and keep it there, and it is a massive sham.

Mr. DUNCAN. Mr. Speaker, I yield 1 minute to the gentleman from Nebraska [Mr. DAUB].

Mr. DAUB. Mr. Speaker, what bothers me the most is that it is not the $1 trillion debt and it is not the $2 trillion debt, it is the terrible prospect by 1990 of our deficit being $3 trillion. And the interest or carrying charge on that debt is not going to be one-ninth of our current fiscal budget, it is going to be one-fifth of the budget by 1990.

So it seems to me that the vote is not on a motion to go to conference. It seems to me that the intention of each Member and the degree of their seriousness about balancing the budget of our country can be expressed in the motion to instruct, and that ought to be a signal to each and every one of our constituents back home about how serious we are about balancing the budget, and that is why I intend to vote for a very well written motion to instruct our conferees.

I thank the gentleman for yielding.

Mr. ROSTENKOWSKI. Mr. Speaker, I yield 1 minute to the gentlewoman from Ohio [Ms. OAKAR].

Ms. OAKAR. Mr. Speaker, I intend to vote for instructing the conferees, not because I favor the Gramm proposal but because it is not, I repeat, is not the Gramm proposal.

We saw what happened with the Gramm budget in 1981. At the 11th hour he came to us with more than a 100-page budget that 99 percent of the Members had not read, and there was an irresponsibility on our part for even considering that budget at that time.

Let us not be irresponsible again, because his ideas led us to a $2 trillion debt ceiling. I think it is about time we acknowledge what his ideas mean when he comes at the 11th hour with these so-called creative ideas.

So let us instruct the conferees responsibly and reasonably.

The SPEAKER. The Chair will notify the House that there shall be no references to the Senate or its Members.

Mr. DUNCAN. Mr. Speaker, I yield 1 minute to the gentleman from California [Mr. THOMAS], a member of the committee.

Mr. THOMAS of California. Mr. Speaker, what are we in, a time warp? Is this 1981? No, it is 1985, and we are in fiscal year 1986. Why are we here? Because we lack the will. Budgets are passed by Congress. This House of Representatives failed. And I have to put that failure at the doorstep of the majority. I would tell the majority caucus chairman they had their opportunity. No amount of saying that the budget works will make it work. It simply will not work. Let us show a little will. The American people want us to do something.

The gentleman from California said he has questions about this. We can question it forever. The American people say: Do something.

You failed at your attempt at the budget. We have a second opportunity. Let us try again. All it is is legislation. If it does not work, we can change it. The alternative should not be nothing. That is what you advocate. This is a possible solution. Let us try it.

Mr. ROSTENKOWSKI. Mr. Speaker, I yield 2 minutes to the gentleman from Pennsylvania [Mr. GRAY].

Mr. GRAY of Pennsylvania. Mr. Speaker, I am rising in support of the proposition that we go to conference in disagreement. Let me tell you why. And let us get beyond all of the partisan rhetoric.

We have a crisis in this Nation. Four years ago the national debt was $914 billion. Last week it was over $1.8 trillion. And, yes, there are some things that are attractive about the amendment offered by the other body. It promises a balanced budget in 1991, it promises equity in achieving it, and it promises a mechanism to enforce the will, if we do not have the will, and I want to be very clear that the House Budget Committee and the majority in the House want all three of those goals, but there are some serious questions, the constitutional question about the division of power, there are serious economic policy questions about mechanisms in a recession.

Therefore, I would hope that this body would vote that we go to conference in disagreement and there in that conference we can examine very carefully what has been laid on the table by the other body, and let it be clear that the majority of the House Budget Committee agrees with the goals of a balanced budget, but we also want to make sure that what is done is done correctly.

□ 1055

Let it be known right now that you are not talking about a balanced budget, you are talking about a procedure, a change, that hopefully will lead to that. Therefore, before we quickly vote, I think it is important that at a conference we have an opportunity to discuss it.

Many of you supported the budget I brought forth this spring bipartisanly. It was the largest bipartisan majority of a conference report. I told you then and I will tell you now: Yes, we cut spending, but it is not going to dry up the red ink. None of the budgets that were presented would have dried up the red ink in 3 years because it is so deep. What we have got to do is go to conference, examine this and come up with a proposal that gets us there.

I urge the Members to vote to go to conference in disagreement.

Mr. DUNCAN. Mr. Speaker, I yield 1 minute to the gentleman from South Carolina [Mr. CAMPBELL].

Mr. CAMPBELL. Mr. Speaker, a previous speaker has said that we are talking about a procedure, and we are. This is a procedural change. You know, we can balance the budget; we have not. It is in our hands to do it. We have largely put this country on automatic pilot over the last decade or so. We have adopted rule after rule to automatically increase spending, and it is about time that we seize control of the airplane, and it is about time we put her back on course.

We do have a crisis; every speaker has outlined it. We seem to be incapable of dealing with that crisis. Do we

do nothing or do we seize the opportunity? I think that we should seize the opportunity. We should instruct the conferees responsibly, and, yes, we should come out of that conference with a new procedure that will put some discipline in the budget process.

Mr. ROSTENKOWSKI. Mr. Speaker, I yield 1 minute to the gentleman from Ohio [Mr. TRAFICANT].

Mr. TRAFICANT. I thank the gentleman for yielding me this time.

Mr. Speaker, David Stockman, he said it pretty well. He said, "It is not the Democrats, it is the Republicans." But let us not blame today. Let us work together. Let us not fight today. Let us cooperate.

If we look at what is transpiring, we are looking at the greatest problem now facing the American people and the tragedy is, it is only set for 30 minutes of debate, No. 1, and No. 2, from my limited experience in this House, when we do instruct the conferees, let us have the conferees carry out the will of the House this time.

So let us not fight; let us not blame. Let us work together and pursue a course that maybe we can resolve this problem.

Mr. DUNCAN. Mr. Speaker, I yield 1 minute to the gentleman from California [Mr. LUNGREN].

Mr. LUNGREN. I thank the gentleman for yielding to me.

Mr. Speaker, the reason why the motion to instruct is so important is, let us face it, it is the one up or down vote we are going to have on the Gramm-Rudman-Hollings amendment. Now, we can talk about whether there is a problem with this or not, but it recalls to my mind what happened with proposition 13 in California: There were a whole host of reasons for being against it, but it was the only available mechanism for dealing with the tremendous problem we had there.

The establishment was against it; newspapers were against it; a lot of the politicians were against it, but the people were for it. I just flew all night to be here for this vote because I had to be in California yesterday. While I was out there, I found something. People came up to me and said for the first time that I had seen in 7 years that they felt they had some hope that we would do something about the deficit because they believe that the Gramm-Rudman solution was the best potential solution they had seen offered.

These are average people off the street coming up to me and saying, "Support it; we need it. You guys have not done anything else back there. At least give us some hope here."

That is what we need to do. Please support this motion to instruct as the only up or down vote.

Mr. DUNCAN. Mr. Speaker, I yield such time as he may consume to the gentleman from Arizona [Mr. KOLBE].

Mr. KOLBE. I thank the gentleman for yielding time to me.

Mr. Speaker, I rise in support of the motion to instruct.

As an original cosponsor of H.R. 3250, the Balanced Budget and Emergency Deficit Control Act of 1985, I rise to express my strongest support for the motion to instruct the House conference.

We have reached a crucial point in addressing the questions of Federal spending and the overwhelming budget deficit that we now face. The deficit has become such a continuing and pervasive problem that in order for the Federal Government to pay its bills and meet its legal commitments, we must raise the public debt ceiling to over $2 trillion.

Only yesterday, this body passed legislation intended to solve a problem—the plight of the textile and apparel industries—with a protectionist approach. But the reality is that the problems facing our textile industry—and steel, and automobiles, and shoes, and copper—are problems caused by the value of the dollar which in turn is driven by high interest rates. And that, Mr. Speaker, is a function of our budget deficit. We must face this situation head on; we can no longer treat only the symptoms of the basic problem—and not the problem itself.

The Congressional Budget and Impoundment Control Act of 1974 is now in shambles. We must amend the spending process in order to get some legal control over the situation. Obviously, Congress itself does not have the self-control necessary to reduce the deficit by reducing Federal spending. Nor is a tax increase the answer. We do, however, have an answer within our grasp. The conferences should accept the Gramm-Rudman-Hollings language contained in House Joint Resolution 372.

Mr. Speaker, the American people are tired of rhetoric. They want action on budget deficits. Let us give them that action.

Mr. DUNCAN. Mr. Speaker, I yield my final minute to the gentleman from Louisiana [Mr. MOORE].

Mr. MOORE. I thank the gentleman for yielding me this time.

Mr. Speaker, everybody knows the No. 1 problem facing the country is the deficit. It causes high interest rates, high unemployment, high trade deficit. They are expecting us to do something. This Congress has erred in not doing more. It has erred on the behalf of discretion. It has erred on the behalf of committee turf. It has erred on the behalf of "let us go slow." It has erred on the behalf of "let us not cut too much," and we have not balanced the budget.

Why do we not err for a change on behalf of a program that guarantees us a balanced budget. I think it is about time we take that risk on behalf of the American people. I am going to urge you to support the motion to instruct. This motion gives us a chance to finally do something instead of continuing the business as usual of trying to cut the deficit but not having done enough. If we are to err, let us err for a change on behalf of finally solving the problems of the country instead of the discretion and caution we have been exhibiting since 1981 that has not done the job.

Mr. BARTON of Texas. Mr. Speaker, will the gentleman yield?

Mr. MOORE. I yield to the gentleman from Texas.

Mr. BARTON of Texas. I thank the gentleman for yielding to me.

Mr. Speaker, I rise in support of this motion.

I rise in opposition to the motion to go to conference in disagreement with the Senate on House Joint Resolution 372. I support that legislation.

My major goals last year in my campaign were to reduce and eliminate the deficit, and pass a balanced budget amendment to permanently limit Federal spending. My biggest disappointment to date has been the failure of the Congress to seriously address these two issues.

Senator PHIL GRAMM has devised a simple, yet powerful, mechanism to balance the budget by 1991. In my opinion, his bill is just the right medicine we need to stop the hemorrhaging of the Federal budget.

One often has to seize upon the moment to win a legislative victory and that, I believe, has happened with the introduction in the House of Senator GRAMM's Emergency Deficit Control Act of 1985. I am one of the original cosponsors of this legislation in the House.

Briefly, the act would force Congress and future administrations to adhere to rigid spending reductions over the next 5 years with the goal of achieving a balanced Federal budget by 1991.

This would mandate spending cuts of $36 to $43 billion annually for each of the next 5 years. The fiscal 1986 deficit would be limited to $180 billion. In any year when it appears the Government is going to exceed those reduced spending limits, automatic across-the-board cuts would take effect until the correct spending level is reached. The Congress or the President could propose alternative spending reductions to the automatic cuts, but the total reductions would have to be the same.

The budget ceilings would not be in effect during times of war or during times of official recessions as confirmed by the Congressional Budget Office and the Office of Management and the Budget. All other waivers would require an act of Congress and approval by the President.

Most Members of Congress are not enthused about voting to raise the Federal debt ceiling to $2 trillion. But they know without it, the Government will quickly grind to a halt. I will not support raising the debt limit unless a key part of that legislation is this bill that requires significant spending reductions by future Congresses.

Senator GRAMM's legislation has come at the right time and has quickly won the support of key Senate leaders. President Reagan has also endorsed the concept of the plan. In the House, I have been busy calling colleagues urging them to support it.

This legislation differs from previous balanced-budget efforts because it contains tough enforcement provisions that Congress would be legally required to follow. A maximum deficit limit would be set for each year and both Congress and the President must prepare budgets within the established limits.

If we do not significantly reduce our budget deficits, we will be mortgaging the future of our children and our grandchildren. Passage of this legislation will send a strong signal to both the American people and our financial markets that Congress has a comprehensive program to solve the deficit problem.

Mr. ROSTENKOWSKI. Mr. Speaker, I yield 1 minute to the gentleman from Arkansas [Mr. ALEXANDER].

Mr. ALEXANDER. I thank the gentleman for yielding me this time.

Mr. Speaker, I think that most all of us will support the motion before us today, and that Congress will do something to improve the budget process. But as many speakers have said this morning, there is nothing that we can do to enact a law that can require the President to do his job.

How many of you have talked to the President about his promise to submit a balanced budget? I have. I asked Ronald Reagan myself: "Mr. President, you have made a career out of promising the American people a balanced budget. Why have you not submitted one? You have had 5 years."

The President said; "That is the most cynical question I ever heard."

The American people will become cynical if the Republican side of the aisle persists on promising them something that cannot be. We cannot promise them that the President will do his job and submit to the Congress a balanced budget.

I support the resolution as I expect all of us will, and I hope that we come out of all of this, this drama, with an improvement in the Budget Act.

The SPEAKER. Without objection, the previous question is ordered on the motion.

There was no objection.

The SPEAKER. The question is on the motion offered by the gentleman from Illinois [Mr. ROSTENKOWSKI].

The question was taken; and the Speaker announced that the ayes appeared to have it.

Mr. DELLUMS. Mr. Speaker, on that, I demand the yeas and nays.

The yeas and nays were ordered.

The vote was taken by electronic device, and there were—yeas 327, nays 50, not voting 57, as follows:

[Roll No. 357]

□ 1115

Messrs. CALLAHAN, SAVAGE, LOEFFLER, ROWLAND of Connecticut, MOLINARI, and SWINDALL changed their votes from "yea" to "nay."

Mr. WHEAT changed his vote from "nay" to "yea."

So the motion was agreed to.

The result of the vote was announced as above recorded.

MOTION OFFERED BY MR. MICHEL

Mr. MICHEL. Mr. Speaker, I offer a motion to instruct conferees.

The Clerk read as follows:

Mr. MICHEL moves that the managers on the part of the House at the conference on the disagreeing votes on the two Houses on the joint resolution, H.J. Res. 372, be instructed to promptly report amendments to

the Budget Control and Impoundment Act which provide mechanisms for deficit reductions, including specific and mandatory budget goals for achieving a balanced budget within the next 6 years.

The SPEAKER. The gentleman from Illinois [Mr. MICHEL] is recognized for 1 hour.

Mr. MICHEL. Mr. Speaker, I would not expect to use the complete hour.

The SPEAKER. Will the gentleman yield a half hour to the Democratic side?

Mr. MICHEL. Mr. Speaker, I would like to yield 15 minutes for the moment and 15 minutes for our side and let us see where we go.

The SPEAKER. Does the gentleman want to ask unanimous consent that the debate be 30 minutes instead of 1 hour?

Mr. MICHEL. Mr. Speaker, I do not want to do anything that is going to upset some Members here, but if we can put a little bit of restraint——

The SPEAKER. Does the gentleman intend to yield equal time to the opponents of the motion, if there is opposition?

Mr. MICHEL. Mr. Speaker, I would certainly intend that the time be equally divided.

The SPEAKER. The gentleman from Illinois [Mr. MICHEL] is recognized for 30 minutes and the gentleman from Illinois [Mr. ROSTENKOWSKI] is recognized for 30 minutes.

Mr. MICHEL. Mr. Speaker, I yield 3 minutes to the gentleman from Florida [Mr. MACK].

Mr. MACK. Mr. Speaker, I thank the minority leader for yielding me this time.

Mr. Speaker, we are being asked to go to conference to increase the debt ceiling, and I would like to approach the discussion this morning to increase the debt ceiling from the perspective of the 16 or so years that I spent in the banking business.

When someone would attempt to raise money either to support their family in times of difficulty or in trying to enhance the capabilities of their business either for expansion or to take care of difficulties, they would end up asking someone for additional money.

I do not think it is unreasonable and I do not think you think it is unreasonable that when you made those requests, that the banker said to you, "What are you going to do to make things different? What changes are you going to make to allow for repayment or to put yourself in the position where you don't have to borrow additional money in the future?" I think that is a fairly reasonable thing to request.

I do not think that this is an unreasonable thing to make a request to instruct the conferees to come back with a proposal that basically says that we ought to be working toward a balanced budget within 6 years, that we set up a mechanism for deficit reduction, including specific and mandatory budget goals for achieving a balanced budget within that time.

Now, I know that many of you disagree with the proposal that the Senate has come forward with, but let me just suggest to you that I think that you can support this motion to instruct, those of you who are serious about wanting to do something about the deficit.

What we are basically saying is, we want to establish specific targets between now and 1991, going from $180 billion to $144 billion, right on down to zero, reducing Federal expenditures over a 6-year period $36 billion a year.

It does not take any power away from this House and from the Senate. What it basically says is that the President and both bodies must come forward with a proposal that does not breach the targets, and then OMB and CBO are going to make projections based on those proposals to see whether in fact we are breaching those targets, and if OMB and CBO indicate we are going to breach those targets, then an automatic sequestering of funds would take place.

The gentleman asked a little bit earlier in the discussion, "What is the difference between this proposal and the Byrd proposal of several years ago?"

The difference is this particular act has some teeth in it. There are some enforcement mechanisms to make this particular proposal work.

So the time has come to do something. The gauntlet has been thrown. The line has been drawn.

I would ask you to support this particular motion to instruct.

We promised the American people 4 years ago that we were going to reduce the deficit.

Mr. ROSTENKOWSKI. Mr. Speaker, I yield 2 minutes to the gentleman from North Dakota [Mr. DORGAN].

Mr. DORGAN of North Dakota. Mr. Speaker, I thank the chairman for yielding.

Mr. Speaker, we have a serious deficit problem that we all understand we have to address. I do not expect it is a surprise to any Member in this Chamber that we have come to this point.

The President, in 1981, said that the deficit was a stack of $1,000 bills 67 miles high. Well, 5 years later, it is now a stack of $1,000 bills 130 miles high.

The fact is our fiscal policy is not in balance. We need to do something about it. I wish it had been the House that forced the issue, but the Senate has forced the issue. I do not necessarily agree with the recipe of the Senate soup that they have provided, but I think that we can make some improvements, offer some other suggestions, and move forward.

Let me just say this. If we are going to do something. I do not think we want to do one thing that the Senate suggests and withhold tough action until after the next election. Let us decide what to do, let us decide to do the right thing and roll up our sleeves and start doing it now. Let us not wait 1 more year to prescribe strong fiscal medicine.

Also, if we are going to do something, let us not allow the ceiling on the budget for this fiscal year to increase so that some can avoid the consequences of tough choices until after an election. I do not think we ought to do that. Let us do this thing now if we are going to get it done.

I am going to support the motion to go to conference. I am going to support the carefully drawn motion to instruct this morning. I think that is fine. This has been coming for a long time.

But I also think we need to understand in this House the issue is not just spending—it is also revenue. We have some of the richest people in this country earning millions and millions of dollars, the biggest corporations in this country earning billions of dollars and paying no taxes. I am saying a combination of spending restraints and revenues are necessary to solve this deficit problem.

We are here because there is no leadership downtown. The President talks about balanced budgets, but he asks for the biggest deficits in history. So it is not a surprise we are in this position today.

We have to do something about it. As responsible Members of the House, let us go to conference, let us hammer out an objective that moves us toward fiscal stability, toward a fiscal plan that begins to balance the budget and do it the right way—right away.

Mr. MICHEL. Mr. Speaker, I yield 2 minutes to the gentleman from Ohio [Mr. KASICH].

Mr. KASICH. Mr. Speaker, I appreciate the gentleman from Illinois [Mr. MICHEL] yielding.

Mr. Speaker, I think that the American people, if they are watching this debate, almost would be sickened. We had people on this side of the aisle cheering and booing and hissing, and people on the other side of the aisle cheering and booing and hissing about who is to blame for the deficit. The Members on that side of the aisle wanted to set over there and blame Ronald Reagan and the Members on this side of the aisle wanted to blame Jimmy Carter.

The simple fact of the matter is, and we all know it in this House, that it's not the President who is responsible for this level of spending, it is the House of Representatives and the U.S. Senate.

Maybe our basic civics class teachers need to start explaining to the young men and women in this country that it is the Congress that passes the bills, it is the Congress that spends.

□ 1130

We all know that Presidents are involved, but we have all been guilty of wrongly blaming people in the White House and misleading the American people, or leading them into believing we have washed our hands of our responsibility and it is the fault of our Presidents.

Let me say this: It is a sad day when the U.S. House of Representatives has to have an artificial mechanism imposed upon it in order to control its spending. It is a sad day when we must talk about balanced-budget amendments, line-item vetoes and Gramm-Mack proposals, but we have no choice because spending by this House is spiraling out of control. I commend the gentleman from North Dakota [Mr. DORGAN] for his comments about this House spiraling out of control. I hope the gentleman from Texas [Mr. WRIGHT] will echo it.

What this measure does, however, is give us the mechanism that forces us to be responsible. Our constituents are going to favor it. Why? Because it is an across-the-board approach and because it is fair. That is all they ask for at home; give us a fair proposal that treats everybody equally. That is what the Gramm-Mack proposal does.

Let us stop blaming the White House, let us stop blaming the Democrats, let us stop blaming the Republicans. Let us work together as Americans because it is what all of us deep in our hearts want, and most important, it is what our constituents want. Let us stand up for America today.

Mr. ROSTENKOWSKI. Mr. Speaker, I yield 2 minutes to the gentleman from Texas [Mr. PICKLE].

Mr. PICKLE. I thank the gentleman for yielding this time to me.

Mr. Speaker, I have read this motion to instruct and I think it is reasonable. I commend the gentleman from Illinois [Mr. MICHEL] for wording the instructions in a manner that many of us can accept. I think we should express our appreciation to him.

In voting for this motion to instruct, I, as one member of the committee and who might be a conferee, want my colleagues to understand that I support the principle of reducing these deficits, the principle of trying to get a balanced budget, but I am not committing myself to any one specific bill.

The clamor that comes from one side of the aisle that they are the only ones who are concerned about the deficit and a balanced budget is not shared by this individual. There are many of us over here who have just as strong a feeling. I would hope that as we approach this thing that we would do it in a bipartisan manner, because reducing the deficit is a critical matter for the entire Nation.

I would hope that the clamor and the loud voices that "We are for the balanced budget and you are not," would be muted. In this hour of national crisis, we ought to be working together. I want to say to this whole group that there are many of us who feel it just as deeply as you do on this side of the aisle. I would hope that we would go forward on a bipartisan basis.

Mr. MICHEL. Mr. Speaker, I yield 3 minutes to the gentleman from California [Mr. DANNEMEYER].

Mr. DANNEMEYER. I thank the gentleman for yielding this time to me.

Mr. Speaker and Members, we are dealing with a deficit here in the Congress. The country is realizing the problems of inflation and high interest rates. Our trading partners and ourselves recognize that America has a negative trade balance. Third World nations are on the verge if not in default of their loans, and just yesterday we voted on a bill for trade protectionism.

The common thread in all of these problems that I have stated relates back to a decision that this country took in 1971, and the gentleman who put that issue in perspective best was a man who graced these Chambers 153 years ago, and I would like just to draw attention in a small quote to what he said in the well of the House at that time.

> Of all the contrivances for cheating the laboring classes of mankind, none have been more effectual than that which deludes them with paper money. This is the most effectual of inventions to fertilize the rich man's field by the sweat of the poor man's brow. Tyranny, oppression, excessive taxation—these bear lightly, compared with fraudulent currencies and the robberies committed by depreciated paper.—DANIEL WEBSTER (1832).

It was true then. It is true today. We are dealing with a symptom on this deficit as severe and profound as it is. We are going through convolutions about who is to blame for the existing deficit spending and the fact is, we are dealing with depreciated money, a dollar backed by nothing, and until we begin to debate the significance of depreciated currency that we all have in this world, we are not going to get to the root cause.

I support the motion to instruct because it will give to this institution the discipline that is now lacking to reduce the deficit, to somehow bring our budget into balance, but I hope that somehow in this discussion we in this Chamber can begin to talk about the necessity of reforming the monetary system of America, the leader of the Western World, so we can lay the foundation for honest money, a dollar backed by gold, and thereby avoid the pain and suffering that this Congress is going to be facing next year and in the years to come when we attempt to implement the reductions that this package is going to call for.

I would much rather reduce the interest on the national debt and the annual payments, which honest money would bring, than I would go through the trauma of attempting to explain to constituents why we are going to have to cut program after program after program. Politically, who is going to object when we send less money to the bankers in New York City in the way of interest.

Mr. ROSTENKOWSKI. Mr. Speaker, I yield 10 minutes to the gentleman from Texas [Mr. WRIGHT].

Mr. WRIGHT. Mr. Speaker, I rise in support of this motion to instruct. It is something that all of us can embrace in good conscience if truly we are serious about finding a mechanism to enforce deficit reduction.

Let us be very careful about what it is we are instructing the conferees to do. I compliment the gentleman who drafted the motion [Mr. MICHEL]. I think it is well drafted. I think it says what the House wants to say.

Under this motion, the conferees would be instructed to report: "amendments to the Budget Control and Impoundment Act which provide mechanisms for deficit reductions, including specific and mandatory budget goals for achieving a balanced budget within the next 6 years."

I am for that. I think almost all of us are for that. The gentleman from Mississippi [Mr. LOTT], together with a bipartisan group of Members including myself, jointly authored a proposal almost 5 years ago, on February 23, 1981, to create just such a mechanism.

We now have reached a point where it clearly is needed. We need to have some binding system to guarantee that the budget is not going to continue so seriously out of balance year after year.

All of us recognize surely the drastic harm that has been inflicted upon future generations by the past 4 years of such dramatic increases in the national debt. We have added more to the national debt in these past 4½ years than was added by all of our predecessors for the first 192 years of constitutional government combined, from the administrations of George Washington through and including that of Jimmy Carter.

I think if we are honest with ourselves we will have to acknowledge that this course of the past 4 years amounts to a financially irresponsible and morally unconscionable thing to do to our children and our children's children and perhaps to generations yet unborn, for what we have been doing has been placing upon them the responsbility to pay for things that we

are using up and wearing out long before they shall ever reach the age of paying taxes. That is not right. It is not fair. It is not responsible.

So the time has come that we must, indeed, take some dramatic action to ensure that we will bring these out-of-balance deficits back into control. A lot has been said here today about whose fault it is. I am not sure that is a productive question. Blame enough exists for all parties. Let us be honest with ourselves.

□ 1140

Many of us on my side of the aisle, myself included, in years past probably have been guilty, in an abundance of humanitarian zeal, of believing that we could cure all problems by throwing money at them. Some and probably a great deal of money has been wasted in well-intentioned but at least partially unproductive efforts to cure social and domestic economic problems.

I do not apologize for the motivation, but I think in honesty I have to acknowledge that some of that money undoubtedly has been wasted.

Martin Feldstein said, when he was president of the President's Council of Economic Advisers, that the principal causes for this enormous growth in the deficit over these last 4 years have been three. The first was the enormous and excessive tax cut of 1981, which adds $135 billion every year to the deficit. The other two were the huge annual increases in military spending and in interest payments.

So let us be clear what we are not instructing the conferees to do. We are not instructing the conferees to perpetuate a system in which 65 of the truly major corporations of this country among them amassed some $50 billion in profits in the last 3 years and paid no Federal income tax at all. In fact they received rebates from the Government amounting to some $3 billion. We are not mandating that this abuse be continued.

We are not mandating in this vote that the President's request be fulfilled to reduce in half, from 70 percent in 1981 to 35 percent as he now insists, the rate at which the wealthiest individuals in our country shall pay taxes. We are not mandating that in these instructions.

Neither are we mandating in these instructions that we shall overturn the constitutional balance which has existed for almost 200 years. Let it not be said that the 99th Congress in the 196th year of the U.S. Constitution abdicated and surrendered the powers that were inherent in that document to the Congress of the United States. We certainly are not asking conferees to give greater powers to the Executive branch at the expense of the Congress.

If I have a bias, it is in behalf of the legislative branch. Yes, we have been too compliant to Presidential requests, not alone in this administration, but in others. In this administration perhaps our greatest sin was our compliance to readily reduce the revenues available to this Government of ours by the massive 1981 tax cuts.

We have not been guilty, however—and let it be clearly understood on the record that this Congress and its immediate predecessors have not been guilty—of spending more than the President requested, because emphatically we have not. The truth is that in 1985, the fiscal year just ended, total appropriations agreed to by the Congress, House and Senate, were $11 billion less than the total requested by the President. We have disagreed on certain priorities of spending, but consistently we have spent less in total than the President has requested.

And I do not lay that charge at the door of this President alone. That has been the case in 32 of the last 35 years. The Congress has appropriated in all less than the Presidents have requested.

So let us not cringe and cower in shame and accept the blame upon the legislative branch alone that we in the Congress have lacked the discipline to control expenditures. But let us accept, let us accept the responsibility that, faced with a crisis such as the one which confronts us now—with the national debt of $2 trillion, and the prospect that current policies and Presidential budget projections, if unchanged, will reach a $3 trillion national debt by 1990—let us accept the responsibility to do something about it.

I salute those in the other body whose imagination has come forward with a mechanism. But I suggest that we need to be at great pain to insure that this mechanism not be used for an alternative purpose, simply as an excuse to shrink, and shrivel, and starve and suffocate the domestic arm of Government. And I speak not alone of welfare programs. The domestic arm of Govenment in controllable expenditures amounts to only about 16 percent of the total budget. Let us not make that 16 percent upon which the American people rely for such things as law enforcement, clean air and clean water, air safety, highways, education for our children—let us not make that 16 percent the scapegoat in order that we may further enhance increases in Pentagon spending with all of its well-advertised waste.

There has been a grave misunderstanding as to just how the Senate-passed language will affect the future balance between domestic and military spending. The sponsors in the other body say that the cuts fall evenly on all expenditures, and yet the President himself insisted in his radio broadcast last Saturday that their provisions guaranteed 3 percent annual increases for the military, after inflation. If that should be true, of course, then all the cuts will fall upon the peaceful activities of Government. Surely we do not mandate that. Somebody is mistaken. The President and the Senate sponsors appear to be in disagreement as to effect of the Senate language. So we give to our conferees the responsibility to discover who is mistaken in those varying interpretations, and responsibility to make certain that we do not starve one arm of our Government simply to allow some affluent citizens and major corporations to get by tax-free, or to guarantee that military spending continues to grow without sharing in the austerity.

Above all, we do demand that the Congress of the United States, as it was written almost 200 years ago in the Constitution, shall continue to be the agency of Government which determines spending priorities, and that the President, under this provision, will be required to honor those priorities and not to change them in his application of the duties which we here confer upon him.

Mr. MICHEL. Mr. Speaker, might I inquire how many minutes are remaining on both sides?

The SPEAKER. The gentleman from Illinois [Mr. MICHEL] is entitled to 22 minutes if he takes the full half hour and the gentleman from Illinois [Mr. ROSTENKOWSKI] has 16 minutes remaining if he takes the full half hour.

Mr. MICHEL. Mr. Speaker, I yield 5 minutes to the gentleman from New York [Mr. KEMP].

Mr. KEMP. Mr. Speaker, I thank my colleague for yielding.

I was fascinated, Mr. Speaker, by the speech of our friend from Texas [Mr. WRIGHT] the majority leader. There is not a loophole, there is not a preference, there is not a credit, there is not a gimmick in the Tax Code that is in there today without the help, and the support, and the acquiescence of the majority party of the U.S. House of Representatives. If someone is escaping his or her fair share of taxes, I would invite the majority party, as some have done, to join with the President in the type of tax reform that will bring down the rates and broaden that base and put an end to the opportunity for some businesses and some wealthy individuals to escape their fair share of taxation.

But I want to remind everybody that it is the majority party that has controlled the House Ways and Means Committee for 30 of the last 34 years. They have an obligation, as the gentleman from Chicago has assumed, to begin the process of reforming the Tax Code.

But to suggest, as the majority leader has done here today, that somehow the blame belongs with this President, who has attempted to bring about that tax reform, seems to me to be unfair.

Another myth in the majority leader's speech is that revenues have gone down. On the contrary, revenues are rising. Revenues, as a percent of GNP today, are as high as they have been under any Presidential term in the past three decades, except for one: President Carter. Had something not been done in 1981 to stop the increase in taxation, taxes as a percent of GNP would be today as 24 percent of gross national product.

I ask you what type of an economy we would have in this Nation had we allowed that to continue? Frankly, the Democratic majority continues to believe that the American people are undertaxed.

But we must recognize that the deficit problem is caused by Government spending, not a shortage of revenues. It is easy to show that deficits are not caused by the undertaxation of the American people. Despite President Reagan's tax cuts, offsetting tax increases have meant that the tax burden on the economy has not declined. Government revenues are about 19 percent of GNP, almost exactly the average between 1964-79. But spending has risen from 20.5 percent of GNP between 1964-79 to a peacetime high of almost 25 percent of GNP in 1985. In short, while Government revenues have stayed a constant share of GNP, Government spending has repidly outpaced the ability of our economy and citizens to finance that spending.

Mr. ALEXANDER. Mr. Speaker, will the gentleman yield?

Mr. KEMP. I will yield later if I have time. I want to continue my remarks.

The point has been made here today that it is impossible to balance the budget without balancing the economy. I agree.

Fiscal policy is only one aspect of economic policy. I congratulate the gentleman from Florida [Mr. MACK] and our colleagues in the other body, on a bipartisan basis, for bringing to the Congress an effort to reduce steadily the deficit over the next 6 years. It is a mechanism. In and of itself it is not enough, and I think the argument has been made on the floor on both sides of this aisle that other things need to be done.

I believe tax reform is essential to getting the economy growing again. Without growth in the economy, there is no way, it seems to me, we can meet these targets. But nonetheless, part of the equation is putting a discipline on the Congress to restrain its spending.

But the majority leader suggested that it is not Congress' fault for spending. Well then, whose fault is it? His party is in control of the House and has been, as I suggested, for 30 out of the last 34 years.

It also seems to me obvious that much of that spending that seems to be uncontrollable, as it has gone from 20 to 24 percent of GNP, is also related to the fact that the economy has not performed up to its potential. But had we not reduced the tax rates in 1981, with the help of a bipartisan consensus the 8½ million new jobs that have been created in the private sector in 2 years would not have occurred. I want to remind everybody that it was the gentleman from Michigan [Mr. BRODHEAD], a member of the Democratic Party, and a Ways and Means Committee member, who first recommended the reduction in the top rate from 70 to 50 percent. Republicans strongly supported this proposal. It passed because it was done on a bipartisan basis. My friends, that tax rate reduction created more new jobs in private enterprise, over 2 years, without setting off inflation than the continent of Europe has been able to create in two decades.

We still have a deficit. We need spending restraints, and I think the Gramm, Rudman, Mack, Cheney bill is an attempt to bring that type of change.

But this is just one aspect of a compehensive solution to our deficit. We need tax reform to put an end to those abuses in the Tax Code alluded to by the gentleman from Texas [Mr. WRIGHT]. We also need what the gentleman from California [Mr. DANNEMEYER] talked about in terms of bringing a healthier, more growth-oriented monetary policy to this country which would help bring down interest rates. But the combination of spending reform, tax reform, monetary reform and the type of trade reform alluded to by the President in his speech seems to me to give us the best chance we have had in this century to reach the full employment without inflation that all of us want on both sides of the aisle. And incidentally, full employment without inflation would bring the budget into balance.

We have got to grow. We have to cut spending. We have got to reform our tax code.

Let us get on with the business of the American people, and let us stop the type of demogoguery that suggests there are loopholes in there for which we are not responsible.

Mr. Speaker, for the record I am supporting the Balanced Budget and Emergency Deficit Control Act of 1985 introduced by Senators GRAMM and RUDMAN and Congressmen MACK and CHENEY because it offers the hope of bringing down the burden of Government spending, and as one element in an overall pro-growth economic agenda could generate a more prosperous and growing economy.

Frankly, this approach is not the best way to reduce Government spending. The preferred way would be for Congress to restrain Government spending and accelerate economic growth under current procedures and by its own initiative. But Congress has refused to act responsibly. It has failed and failed miserably to fight the special interests and eliminate unnecessary Government spending and corporate subsidy programs.

The next best solution, I believe, would be to give the Chief Executive a line-item veto over appropriations to restrain unnecessary spending in a prudent, responsible way. The line-item veto would permit us to lighten the heavy burden of Federal spending without senselessly taking a meat-ax to the budget. It would complement this legislation by giving the President the authority he needs to prudently and methodically scale back Federal outlays in those areas where they are unnecessary, while leaving spending unchanged, or permitting Congress to increase it, where desirable. This means not only overall spending restraint, but also more efficient use of available resources.

With a line-item veto, the President would be able to meet the Mack-Cheney deficit targets without forcing vital defense initiatives or social safety net programs for the elderly, indigent, and needy to bear unwise budget cuts.

Given the opportunity, I would have recommended an amendment to the Mack-Cheney bill which would have added the additional enforcing tool of the line-item veto. Unfortunately, the rules will not permit me to offer this amendment at this time.

Absent an unlikely surge in congressional discipline, however, the third approach is the Mack-Cheney bill. This approach would cut discretionary program spending across the board as an emergency and last resort incentive to spur Congress to devise a budget reduction plan. It may be imperfect, and the legislation would not be necessary if Congress were fiscally disciplined, but it is not the worst choice our country faces. The worst alternative would be to do nothing and allow the special interests and congressional log rolling to perpetuate wasteful spending subsidies that crowd out investment, saving, and consumer spending.

Let me say from the outset: I don't believe there is any way we can responsibly meet the Mack-Cheney deficit targets except with a strong economic expansion and lower interest rates. Otherwise, the deficit targets would be put out of reach and the automatic "sequestering" procedures in the Mack-Cheney could require severe cuts in national defense and in programs for the poor, or stampede

Congress into passing a large tax increase, which would only further erode economic growth. We must avoid these draconian and dangerous results at all costs.

Creating prosperity and reducing unemployment is, I believe, really at the very heart of this legislation. Stronger economic growth will bring in greater tax revenues from having more workers on payrolls, spur more small business starts, and generate more new investment in plant and equipment. A strong expansion will also make further budget cuts more humane as private sector jobs and opportunities cushion the human impact of spending cuts.

Economists tell us that every 1 percentage point decline in unemployment will generate $35 billion or more in deficit reduction. And with the unemployment rate hovering at 7 percent it is clear that we have enormous potential to reduce deficits simply by lowering the unemployment rate through more private sector jobs.

Our economy is being deprived of the production and work and initiative of over 8 million unemployed workers. That is a human tragedy for the people out of work, but it also deprives our entire economy of the work, vigor, growth, and new ideas from millions of unemployed and potential workers; and less workers on payrolls and smaller profits means less revenue for government coffers.

Some economists now believe that full employment could be around 4 percent of our labor force. I believe it could be even lower; Japan has been running a 2.5-percent unemployment rate for years. And Switzerland is enjoying 0.9 percent unemployment, down from 1.1 percent unemployment last year.

Some unique reasons might explain part of these extraordinarily low unemployment rates, but there is no excuse for accepting over 7 percent or 6 percent or even 5 percent unemployment as representing full employment in the United States. And low unemployment is not inconsistent with low inflation or high growth. Both Japan and Switzerland have a combined inflation rate of 5.6 percent. By comparison, the United Kingdom has 13 percent unemployment and still suffers from 9-percent inflation. There is no tradeoff between unemployment and inflation: Stable prices and a prosperous economy go hand in hand.

In fact, our economic potential is even larger than the official unemployment rate would indicate. One and one-half million new workers enter the labor force each year; another 1.2 million are figured as "discouraged" workers who aren't even counted in the unemployment figures because they aren't actively seeking work, not because they don't want it, but because they believe further job search would be futile. And there are millions of workers in poverty or underemployed who, if more fully utilized, trained, and educated could generate billions more dollars of GNP, and more tax revenues as well. And more and better investment could multiply the productivity and efficiency of new and existing workers.

Economist Victor Tanzi of the International Monetary Fund has computed that the U.S. budget deficit would fall to about 0.5 percent of GNP if our economy were at its full economic potential. Reducing interest rates by easing monetary policy would also contribute strongly to deficit reduction. Every 1 percent lower interest charge saves the Government $65 billion in interest costs over 1985–90.

The effect of lower interest rates doesn't end with the Government budget. Imagine what lower interest rates would do to spur the homebuilding industry, the automobile industry, manufacturing, and farming? As a demonstration, automobile industry sales leaped a record amount when interest rates were artificially set at 7.7 percent. Imagine what would happen if we would make that interest rate a permanent and natural feature of the financial marketplace across all industries and for all consumers, rather than just a temporary sales promotion for the auto industry.

When we have reduced unemployment and given every person who wants a job the opportunity to earn a living for his family, when we have freed up the marketplace and unleashed the full creative power of our people, when we have created a stable currency and a predictable store of value that will be worth the same 20 years from now as it is today—then the solution to the deficit problem will be in sight. Any deficit remaining after our economy reaches its full potential will be amenable to prudent budget cuts.

While I support this legislation, we must carefully avoid some of the potential pitfalls. For one, I sincerely hope that the "emergency" provisions of the Mack-Cheney bill never go into effect. Congress must come to grips with overspending, but across-the-board cuts in government are ill-advised, unduly crude, and indiscriminate. Frankly, good and bad programs should not be treated equally. Some wasteful programs should be eliminated entirely, while some, like needed defense initiatives and some social welfare programs, should be maintained or even increased.

We must be especially careful that this budget plan does not lead to tax increases. Deficits are not caused by the undertaxation of the American people. Despite President Reagan's tax cuts, offsetting tax increases have meant that the tax burden on the economy has not declined. And while Government revenues have stayed a constant share of GNP, Government spending has rapidly outpaced the ability of our economy and citizens to finance that spending.

In fact, tax increases would put deficit targets out of reach by undermining economic growth and reducing the pressure for spending restraint. Raising taxes cannot reduce the Government's crowding out of the private sector; it can only change the nature of the crowding out.

Our national security requirements must not be jeopardized by this budget plan. Because defense makes up such a large portion of the discretionary budget, it would bear the brunt of any across-the-board cuts in discretionary spending. Defense is one-third of the budget, but it would bear 50 percent or more of the budget cuts under the automatic and emergency provisions of this bill. Defense spending must be determined by our requirements to meet the threat, not by an artificial budget formula. The modest improvements in the military balance we have set in motion over the past 4 years will be for naught if prudent defense increases are not sustained. Simply said, our national security must be exempt from the automatic sequestering of this bill, as I'm confident it will be.

While I have some obvious reservations about the possible consequences of this legislation, the Balanced Budget and Emergency Deficit Control Act of 1985 is a radical departure from current budget practices. The status quo is unacceptable. Congress must be forced to deal with the special interest spending programs and corporate subsidies. With the addition of the line-item veto and an explicit recognition of the indispensable role of economic growth and the priority of our national security needs, the Gramm-Rudman-Mack-Cheney approach could be a valuable tool for restraining nondefense spending in a prudent, responsible way.

Mr. ROSTENKOWSKI. Mr. Speaker, I yield 1 minute to the gentleman from Arkansas [Mr. ALEXANDER].

Mr. ALEXANDER. I thank the gentleman for yielding.

Just to set the RECORD straight for my friend from New York, I along with a majoirty of my Democratic colleagues voted against the Kemp-Roth Tax Reform Act of 1981. That was the bill which created these enormous loopholes for corporate America, and set into place the most unjust Tax Code ever enacted into law. It was never supported by leadership of this party or by a majority of our Members.

I thank the gentleman for yielding.

51-059 O-86-11 (Pt. 20)

□ 1155

Mr. MICHEL. Mr. Speaker, I yield 3 minutes to the gentlewoman from California [Ms. FIEDLER].

The SPEAKER. The Chair thought there was an earlier understanding that there would be only 15 minutes on each side. Now what the Chair understands, and the gentleman has charge of the time, you are going to go to a full half hour on each side?

Mr. MICHEL. It is quite obvious——

The SPEAKER. The answer is yes or no. Are you going the full half hour?

Mr. MICHEL. Mr. Speaker, I think we want to even up the time, and the author of the amendment, I think, ought to be entitled to at least 3 minutes.

I was willing, right out of the box, at the beginning, to settle it at 15 minutes. Now, you did not want to do that, so now we are up to a half an hour, and we will let it go to a half an hour.

The SPEAKER. All I want the gentleman to know is if that is the agreement, the Democratic side does not plan to use more time.

Mr. MICHEL. I was being told all the time I have got to have a half an hour. The majority leader needs 10 minutes.

The SPEAKER. The party that has made the motion may close the debate.

Mr. MICHEL. Well, we are not going to do that until we at least hear from the gentlewoman from California.

The SPEAKER. You are yielding how much time to the gentlewoman?

Mr. MICHEL. Three minutes.

The SPEAKER. The gentlewoman from California [Ms. FIEDLER] is recognized for 3 minutes.

Mr. ROSTENKOWSKI. Mr. Speaker, will the gentleman yield?

Mr. MICHEL. I yield to the gentleman from Illinois.

Mr. ROSTENKOWSKI. The gentleman from Illinois is under the impression that he was yielded 30 minutes. Is that not true?

Mr. MICHEL. Yes, that is what the Speaker announced from the Chair.

Mr. ROSTENKOWSKI. I have 30 minutes, and I have 16 or 15 minutes remaining, Mr. Speaker?

The SPEAKER. The Chair was under the impression that when the majority leader rose, he was closing debate on the Democratic side, and that the Republican leader would then close the debate on the opposite side.

The gentleman has the time, although the remarks of the majority leader were to have been the last debate on the majority side. We will continue; and the gentlewoman is recognized for the 3 minutes.

Ms. FIEDLER. Mr. Speaker, the American people are so sick and tired of listening to us talk about what we are going to do, what we ought to do, what we want to do, and what we should do, that they finally have reached a point where they do not care what we have to say; they care about the outcome of our action here.

Now we have a unique opportunity. That opportunity is to make a decision to realistically, in a thoughtful way, to reduce the deficit that we have before us.

We have a unique opportunity today to vote to send to conference a proposal which can actually do something to make a difference. Every day when we get up before the House, we talk about "the process." Well frankly, the process is not working, and thank God there is somebody over on the other side who came up with a recommendation and who had the energy and the forthrightness to push it through on the Senate side in a bipartisan way that will realistically reduce this deficit that is before us.

I urge my colleagues, do not talk about it; do not complain about it; for God's sake, do something about it, and vote to send this to conference with the motion to instruct conferees to accept deficit reduction legislation.

Mr. MICHEL. Mr. Speaker, I yield such time as he may consume to the gentleman from Colorado [Mr. KRAMER].

Mr. KRAMER. Mr. Speaker, I rise in support of the motion to instruct. Mr. Speaker, in the months since the 99th Congress convened, we've heard a lot about the perils of deficits. Unfortunately, there is a tremendous gulf between rhetoric and reality.

During the 60-year period between 1789 and 1849, the Federal Government ran a budget surplus of $70 million. In fact, the general rule of thumb until about 1930 had always been to balance the budget except in times of emergency, such as war. For example, after piling up $22.9 billion in deficits during World War I, the Federal Government ran a budget surplus in each of the next 10 years. In 1930, the total Federal debt from the first 140 years of our Nation's existence stood at $16.2 billion, nearly all of which was attributable to World War I. In 1945, at the end of World War II, the total national debt had risen to $259 billion. However, it was not until the Great Society programs of the 1960's, combined with the cost of financing the Vietnam war, that the debt began to increase by geometric progression. The last time we had a budget surplus was in 1969.

Now we are being asked to increase the debt ceiling above $2 trillion. How big is $2 trillion? A line of 2 trillion 1 dollar bills stretched end to end will reach from the Earth to the Sun and back. A debt of $2 trillion is an $8,500 liability for every man, woman, and child in the country.

The message is clear: Unless we act now to halt this exponential growth, we will see a return to days of high inflation, high interest rates, and high unemployment. No matter how much we in Congress might will it otherwise, huge deficits mean the Federal Government must either print or borrow money. This in turn causes inflation or high interest rates, or both.

On numerous occasions during the last couple of decades, both Congress and Presidents have sought to restrain spending and limit deficit spending—each time without success. Most notable of these attempts was the Byrd amendment of 1978 which required that Congress balance the budget by 1981. Despite this statutory requirement, the deficit for 1981 was $57.9 billion, making it the third largest deficit at that point in our Nation's history. Sheepishly, Congress amended the statute to read, "Congress reaffirms its commitment" to balance the budget.

Today we are faced with the prospect of another statutory requirement to balance the budget by 1991. The Gramm-Rudman amendment to the debt ceiling bill has my full and complete support, and I praise the leadership in the other body for its persistence and determination in passing this balanced budget measure.

Clearly, the Gramm-Rudman measure has more teeth in it than the Byrd amendment, and even allows the President some authority to curtail spending. Nevertheless, as with the Byrd amendment, I have deep concern that the Gramm-Rudman measure, a statutory provision which can be changed by any subsequent congressional enactment and is not binding on future congresses, will not get the job done—a budget that is balanced.

A constitutional amendment is the only true hope for obtaining that result. The foundation for the Constitution is firm only because of the deference it commands from all Americans. Therefore, though Congress can, and has, ignored statutory requirements, Congress must not and cannot ignore the Constitution.

In closing, it is my hope that my colleagues would support the Gramm-Rudman measure. It is better than what we now have. But it is also my hope that my colleagues will take that real step forward and pass an amendment to the Constitution mandating a balanced budget. Therein lies the solution to the Nation's economic problems and the real hope for the fulfillment of the American dream.

Mr. MICHEL. Mr. Speaker, I yield 2 minutes to the gentleman from Idaho [Mr. CRAIG].

Mr. CRAIG. Mr. Speaker, there are now well over 200 Members in a bipartisan sense who have sponsored a constitutional amendment to balance the Federal budget. Some have done it because they believe in it, others have done it out of absolute frustration be-

cause this body has not controlled its spending habits.

Now we are given the opportunity to put in place a mechanism by which to arrive at a balanced budget. The American people do not believe we have the wisdom, the ability and the strength to do it, but we darn well ought to try. It will be the ultimate test, and if we fail that test, then the 75 to 80 percent of the American public who today say on every poll that we must have a constitutional amendment to balance the Federal budget to control the excesses of Congress will not just ask for it; they will demand it.

We are weeks away from a vote in Michigan to give us our 33d State, and then we will have the 34th. And then the Congress must act. We can no longer walk away because the Constitution will tell us we have to respond to the American people.

Give us an opportunity to put a mechanism in place that brings us to a balanced budget, and then let us work to get that constitutional requirement, to keep our excesses in balance, so the American people can have what they deserve; and let us not accept the kind of rhetoric we have heard from the other side today that says once we get this in place, once we have this mechanism, once we have shown it is impossible to do what the mechanism demands of us, we will be able to ask for taxes.

Remember, the issue is not revenue; the issue is spending, and this mechanism addresses spending and forces us to comply with what we should have been doing years ago.

The SPEAKER. The Chair will announce that the gentleman from Illinois [Mr. MICHEL] has 12 minutes remaining, and the gentleman from Illinois [Mr. ROSTENKOWSKI] has 15 minutes remaining.

Mr. ROSTENKOWSKI. Mr. Speaker, I yield 2 minutes to the gentleman from Texas [Mr. FROST].

The SPEAKER. It is the Chair's understanding that we will use the full hour of debate.

The Chair would appreciate it if the House would be in order. There are no back benches in this House.

The Chair recognizes the gentleman from Texas [Mr. FROST].

Mr. FROST. Mr. Speaker, I will be brief. I rise in support of the motion to instruct conferees.

I think that it should be clear what we are instructing and what we are not instructing, at least from our side. This point has been made by several of our speakers, but as one person who is interested in this matter, and I believe who speaks for a number of Members in our caucus, that it be very clear as to what our intention is:

First, that 1986 be included in the process. That unlike the matter that passed the U.S. Senate, that it take effect in fiscal year 1986, not in fiscal year 1987.

Second, that this be truly across the board, and that the defense budget be subject to cuts in the same way as the domestic budget; and

Third, that it not fundamentally alter the balance of power between the executive and the legislative branch. We intend to be constructive on this side. We intend to work for a product that has a chance of being passed by this Congress, but we do not intend to violate some basic principles as to what we think is fair and what we think is sensible.

Mr. ROSTENKOWSKI. Mr. Speaker, I yield 2 minutes to the gentleman from Mississippi [Mr. MONTGOMERY].

Mr. MONTGOMERY. Mr. Speaker, I really have no problems with the motion to instruct, but I do have problems with the Gramm-Rudman proposal with the way it treats veterans.

I made a 1-minute speech this week here on the House floor, and I said in my opinion that the Gramm-Rudman-Hollings proposal was unfair to 4 million veterans pertaining to compensation and pensions.

The veterans and veterans organizations really have no objections to be included in a freeze, but you have got to freeze all COLA's, across the board. You cannot exempt one group against the other. That is what the Gramm-Rudman proposal has done.

So if you have a Vietnam veteran who was shot in the neck, paralyzed from the neck down, and you are going to freeze his COLA, yet someone else is going to get an increase who never smelled gunsmoke or heard a gunshot fired, that is just not right, Mr. Speaker.

So I would hope that the conferees would look at this situation that has been proposed by Gramm-Rudman and that the veterans would be given the chance to be treated just like everyone else who draws a COLA.

Mr. MICHEL. Mr. Speaker, I yield 1 minute to the gentleman from Texas [Mr. ARMEY].

Mr. ARMEY. Mr. Speaker, current fiscal and budgetary law allows this body to do three things: Spend, tax, and borrow to make up the difference. That borrowing is what has brought us to a $2 trillion public debt and to what may be a limit to the collateral value of our public signature.

□ 1205

The Gramm-Mack proposal eliminates the option to borrow and leaves us with the requirement that if we are to spend more we must tax more.

Mr. Speaker, the American people have made it clear that they do not want more taxing, as they demanded in the Kemp-Roth tax cuts.

We need Gramm-Mack; the public wants it, and they will deal very severely with us if they do not get it.

I thank the Speaker.

Mr. ROSTENKOWSKI. Mr. Speaker, I yield 2 minutes to the gentleman from Louisiana [Mr. ROEMER].

Mr. ROEMER. I thank the Speaker.

I thank my colleague for yielding this time.

I feel like asking a unanimous consent request that JAKE PICKLE come back and give us his 1-minute again. JAKE stood here about 30 minutes ago and asked that we be together on a few things in the House and try to reduce the political rhetoric.

The question has been asked: Whose fault is it that we have got $2 trillion worth of debt?

It is our fault. It is us. The farmers come and say, "We feed America. Don't cut us back."

The generals come and say, "We defend America. Don't cut us back."

The teachers come and say, "We educate your children. Don't cut us back."

It is our fault that we have a $2 trillion deficit.

I came this morning to oppose the motion to instruct. I thought, I had been informed, that the motion said that Gramm-Rudman, as is. I oppose that. As it turns out, the instructions, well written, well done, I compliment the minority leader, a good step forward; I can support him.

But I do not accept Gramm-Rudman as is. Nobody in this House—Dizzy Dean is right, "If you can do it, it ain't bragging"—nobody in this House has any better deficit reduction credentials than I do, nobody. I voted against defense spending, I voted against social spending, I voted against foreign aid, et cetera, et cetera. Endorsed the motion to have a constitutional amendment to balance the budget and all the rest, but how can we accept a proposition that we have never read and not studied? The motions to instruct are good because they give us time to do this wisely and well. And if we do, if we do, it will mean jobs for Americans.

If we do, it will be a plus for the bipartisan nature that this House ought to act upon in times of crisis.

Let us stick together on this.

Mr. MICHEL. Mr. Speaker, I yield 1 minute to the gentleman from California [Mr. LAGOMARSINO].

Mr. LAGOMARSINO. I thank the gentleman.

Mr. Speaker, I rise in support of the motion to instruct conferees. There are few Americans who would deny that the most important economic issue of our time is whether fiscal common sense can be reestablished in Washington. Clearly, this Congress during the past few years has not been able to effectively reduce the deficit. These deficits have been the simple result of congressional spending which has doubled from 1960 to 1970 and tri-

pled from 1970 to 1980. The results have been historically high interest rates and a growing trade deficit. If we are truly serious about bringing the Federal deficit under control then we need to consider effective alternates to the same old status quo budget process. The Gramm-Rudman-Hollings-Mack amendment is a results-oriented approach for lowering the deficit ceiling for each of the next 5 years. I urge my colleagues to demonstrate to the American people and the financial markets our resolve to effectively deal with deficit crisis.

Some of the opponents of the Gramm-Mack approach say they don't understand it. Mr. Speaker, I suggest the problem is they do understand—they just don't like it—they don't really want to do what is necessary to cut the deficit in a meaningful way.

I urge adoption of the motion.

Mr. ROSTENKOWSKI. Mr. Speaker, I yield 2 minutes to the gentleman from New Jersey [Mr. HUGHES].

Mr. HUGHES. Mr. Speaker, I rise in strong support of the motion by our colleague, Mr. MICHEL, to instruct the conferees to support amendments to the Budget Control and Impoundment Act, to set benchmarks for balancing the budget within the next 6 years.

There has been a lot of rhetoric, as many of my colleagues have said, about who is responsible for the current large and intolerable imbalances in the Federal budget.

The administration has been quick to blame deficits on Democratic spending policies while Democrats have been just as quick to point to the administration's military spending and tax cuts as responsible for doubling the national debt since 1981.

As a matter of fact, there happens to be some truth, in my judgment, to the claims made on both sides. But there is also an old saying that goes, "If you are in a hole, stop digging."

I think the partisan accusations that I have heard here today hurled back and forth just represent more and more digging of the same nature, and we find ourselves deeper and deeper in debt.

I want to commend Mr. MICHEL. I think he has given us an alternative. For many, many years now HENRY HYDE and I have introduced legislation advocating an amendment to the Budget Control and Impoundment Act to require a balanced budget. The Budget Act has really been helpful in setting targets, in meeting budget targets. Look at the historic record.

Congress has legislated budgets over the past 3 years that have really come within a tiny fraction of the ones called for by the President. The most significant shortcoming of the Budget Control and Impoundment Act is the fact that it does not include fiscal restraint among its goals. That is a problem.

Our legislation, like the Michel proposal before us today, would be specific in saying that we want to achieve a balanced budget over a period of time. Most importantly, it keeps the responsibility for balanced budgeting here, in this institution where it belongs. It does not trample on the Constitution. It does not reorder and reallocate, as the Constitution has so wisely and prudently done over the years, to the executive things that belong in this Congress. To be sure, it would be a most welcome change if we asked the President to submit a balanced budget.

Our colleague, Mr. JONES of Oklahoma, has a measure that has been pending before this Congress for too long that mandates that the President submit a balanced budget. We have to do that also.

I ask you to support the motion.

Mr. ROSTENKOWSKI. Mr. Speaker, I yield such time as he may consume to the gentleman from Georgia [Mr. RAY].

Mr. RAY. Mr. Speaker, I rise in support of the motion to instruct.

Mr. Speaker, I rise today to express my concern regarding the financial deficit of America and to support the motion to instruct, and to talk to you about things that are close to my heart—the things that I believe make America strong.

Our Government is good because it—by our Constitution—has to be responsive to its citizens. When our country was sinking deeper and deeper into the Depression, our Government responded with a program to push economic growth. And for close to 50 years, our country performed miracles—in economic growth, in preserving democracy around the world, and in assuring civil and human rights.

But somewhere, Mr. Speaker, that idea that the Government should be responsive to our citizens got lost. Suddenly, the Government in all its power reared its head and plunged into a headlong rush of overregulation and overspending. I am pointing no fingers because I think we are all to blame—Republicans, Democrats, and those who did not try to change the system.

We are on a runaway course to economic destruction. And we have to stop before it is too late for us, our children, and our grandchildren. Our generation will be the first in American history to leave our children poorer than we were. We will leave them with the largest deficit in our Nation's history—one that has doubled in only 4 years—and we leave them a nation that is in debt. This is not the legacy that I want to leave to our children.

The question then becomes: How do we stop? How do we harness this overspending?

I think we have to make the Congress accountable to the people of America again. It is my opinion that we have to make rules and force the Congress to operate under them. No more waiving sections of the Budget Act to bring late bills to the floor or voting on approprations bills before we even have the money authorized. Mr. Speaker, how can we win the game if we aren't playing by the rules?

Experts argue that Congress will always trample over rules because it makes the rules. But I am here to tell you that we do have a higher authority—the people of the United States of America.

We should have the fortitude to vote for strong deficit controls. And if we do, we will return an important power to our citizens—the power of holding us accountable.

All of us, who have been talking with our constituents back home, know that the people of this Nation want a balanced budget and they want the Congress to stop overspending. Ther is no political danger in voting for deficit reduction, because it has become the No. 1 concern of the American people.

I am on record as being a supporter of Gramm-Rudman as introduced by Congressman MACK, but I want to also go on record as urging our conferees to report back to the House an agreement with the Senate that imposes strong deficit controls and moves us quickly toward a balanced budget.

Now that the American people have realized that we aren't controlling spending, there is real political risk in not supporting deficit-reducing measures. In 1987, if a deficit ceiling of $144 billion is set, my constituents will keep that number in mind. If I vote for 1 penny more than $144 billion, you can be sure they will throw me out of office in 1988. It is that simple. Congress must again be accountable to the citizens of this great land.

Mr. ROSTENKOWSKI. Mr. Speaker, I yield such time as he may consume to the gentleman from New York [Mr. LUNDINE].

Mr. LUNDINE. Mr. Speaker, I rise in support of the motion to instruct.

Mr. Speaker, I strongly support today's motion to send the House to conference on House Joint Resolution 372, the debt limit increase balanced budget plan. Serious action to reduce the deficit is long overdue and I am prepared to support the plan which has been put forth by Senators GRAMM, RUDMAN, and HOLLINGS to put us on course toward a balanced budget.

I have had a sense of urgency for some time regarding mounting deficits and offered one of the biggest deficit reduction plans earlier this year. Under my proposal to enact a temporary, 2-year import surcharge combined with equivalent spending cuts, the Federal deficit would have been reduced by approximately $80 billion in both fiscal years 1986 and 1987. This proposal clearly would put us on a much faster path toward reducing the deficit. It is not too late for my proposal to be considered and I hope to bring it to the forefront of the budget debate in the months to come.

It is clear that we are living on borrowed time. We are financing our budget deficit by borrowing an increasing amount of foreign capital. The United States has become a net debtor country this year, and we are falling further behind by importing almost

twice as much as we export. If present trends continue, the external debt of the United States could reach an historic $1 trillion by 1990, surpassing the combined debt of the rest of the developed nations of the world.

One of the chief causes of our escalating trade deficit is our budget deficit. The deficit is keeping real interest rates at historic highs, thus attracting foreign capital to finance the federal debt. The large flow of capital into the United States is keeping the value of the dollar abnormally inflated and certainly out of balance with other major currencies.

By adopting a responsible enforcement mechanism for reducing the deficit, we will be taking the first steps toward sustaining economic expansion, reducing inflationary risks, lowering interest rates, and increasing the share of GNP devoted to productive investment in physical and human resources.

Obviously, in the few hours since the Senate acted on this measure, I have not had the opportunity to examine, much less analyze, the specific provisions of this plan. However, it is my understanding that we are not being asked to endorse the specific provisions and enforcement mechanisms. Rather, we are being asked to endorse the concept and make it clear that we are committed to going forward with such a plan. I support the concept that is before us today and will vote in favor of making this commitment clear to our conferees.

Let us not underestimate the challenge before us. Reducing the deficit will require strict fiscal discipline which Congress thus far has been unable to muster. The choices will be difficult and it is our responsibility to see that reductions are made across the board, in the fairest way possible. The House leaders that we appoint to conference here today will have the task of ensuring that the process for reducing the deficit in this budget plan is fair. They must ensure that the constitutional requirements are met and that the mechanism for accomplishing our goal is sound. Finally, it is the responsibility of the conferees to see that the process for reducing the deficit is put into place immediately. We cannot afford to delay action on the deficit any longer.

I am hopeful that this can be accomplished and that we can enact a plan to reduce the deficit in the very near future.

Mr. ROSTENKOWSKI. Mr. Speaker, I yield 1 minute to the gentleman from South Carolina [Mr. DERRICK].

Mr. DERRICK. Mr. Speaker, I have been in this body for some time, and I want you to know that I have sponsored every balanced budget amendment that came along. If there are any that I have not cosponsored, if you will bring that to my attention, I will do it.

I just do not want what we are doing here this morning to be another exercise such as these.

Having told you that I have sponsored them all, I will tell you there is not a one worth a tinker's—you know what.

What we are doing is, we mislead the American people. What we are doing as politicians, we are trying to find a mechanism which is going to do the dirty work for us.

You and I know, all of us know, that you balance a budget one of two ways: You either take in more money or you spend less. And there is no way to get around those hard decisions.

I heard someone this morning say, "A constituent of mine ran up to me and told me how wonderful it was, 'You are going to balance the budget.'"

Please do not go home and tell your constituents that you are going to balance the budget, that you have done something courageous this morning, something brave for the country.

All you are doing is talking, and all you are doing is setting, maybe, a road to go. But that is a long road, it is a tough road, and so far we have never been able to travel it like it should be traveled.

I thank the Speaker.

Mr. ROSTENKOWSKI. Mr. Speaker, I yield 1 minute to the gentleman from New Mexico [Mr. RICHARDSON].

Mr. RICHARDSON. Mr. Speaker, I rise in support of the motion to instruct conferees to balance the budget by 1991. There are two issues here that are critical to our motions but: first, the balancing of the budget and how we achieve this necessary goal; and second, the constitutional role of the Congress in spending issues.

Specifically, in the days ahead, we must make a choice on spending priorities: Do we abdicate spending powers to faceless unelected bureaucrats at the OMB or the White House, whether Republican or Democratic administration, or do we keep it in the Congress with men and women, however imperfect, that have been elected by the people?

The Gramm-Rudman proposal is a fiscal Gulf of Tonkin resolution—a complete abdication of responsibilities that our Founding Fathers intended.

I have been working with a budget-deficit task force that will come up with a plan that: First, balances the budget by 1991; second, tightens the congressional budget process by setting spending targets; third, mandates the President to submit a budget which meets deficit targets; and fourth, improves fiscal discipline in the Congress so that deficits are reduced by 20 percent each year and an automatic continuing resolution is triggered at the previous years levels if Congress fails to act within prescribed guidelines.

Let us work together to balance the budget. We are all to blame—Democrats, Republicans, the President, and the Congress. Let us take credit however, for the proper steps that balance the budget.

Mr. ROSTENKOWSKI. Mr. Speaker, I yield 2 minutes to the gentleman from Texas [Mr. STENHOLM].

Mr. SPEAKER. The gentleman from Illinois [Mr. ROSTENKOWSKI] has 5 minutes remaining. The gentleman from Illinois [Mr. MICHEL] has 10 minutes remaining.

Mr. STENHOLM. Mr. Speaker, the gentleman from Texas, the gentleman from Louisiana, and others said it well today when they said the time has come for us to quit pointing the finger, the Congress or the President, at each other.

I accept my 1/536-share of the blame today. I rise in support of this motion because this motion that we debate today puts us in the position of the little dog that chased the bus and finally caught it.

We should not accept, we should not accept the other body's work. We must do better, because if we accept the other body's work we are going to add $569 billion of additional deficit dollars to this Nation and to our children and grandchildren.

We must do better than that, and we can do better than that, and I believe bipartisanly we will do better than that.

But to do it, we are going to need to make spending cuts quicker than postponing until after November 1986. We must balance the budget sooner. But as the gentleman from South Carolina said it so well, if we at this moment, in preparation for the next deadline which will come as the debt ceiling increases upon this House, if we cannot put everything back on the table, everything, no exceptions, defense, Social Security, taxes, if we cannot put everything back on the table, let not one of us go home today and tell our constituents that we are going to bring a balanced budget to this country any time soon.

If we cannot do better, one thing for certain, we will do no worse from this day forward than what Gramm-Rudman has brought to us today.

Mr. MICHEL. Mr. Speaker, I yield such time as he may consume to the gentleman from Pennsylvania [Mr. CLINGER].

Mr. CLINGER. Mr. Speaker, I rise in strong support of the motion to instruct.

Mr. Speaker, for several years now, my congressional district has suffered the ravaging consequences of the Government's deficit spending binge—plant closings, unemployment, and the increasingly unfair balance of trade are damaging the economic vitality of the 23d District of Pennsylvania and eroding their confidence in the ability of Congress to decisively act on these problems. Constructive proposals such as the balanced-budget amendment and the line-item veto have been scuttled by the majority party in the absence of any

plan of their own to bring Federal spending under control.

Well Mr. Speaker, we are now faced with a workable, reasonable measure to balance the budget that I believe a majority of Congress would ahve a hard time opposing. The Balanced Budget and Emergency Deficit Control Act, of which I am proud to be an original cosponsor, would lead to a balanced budget within 5 years by requiring Congress and the President to keep their budgets within fixed limits, eventually eliminating the deficit by 1991.

Certainly, Mr. Speaker, this legislation should not be viewed as a cure for all of our economic ills, but it is a positive step toward harnessing the Federal debt and putting business, industry, and my constituents back to work. I urge support of the motion to instruct conferees.

Mr. ROSTENKOWSKI. Mr. Speaker, I yield 1 minute to the gentleman from Minnesota [Mr. OBERSTAR].

Mr. OBERSTAR. I thank the chairman.

Mr. Speaker, the instruction to conferees to report mechanisms for deficit reductions including specific and mandatory budget goals, to achieve a balanced budget in 6 years, simply stated, is a motion which liberals and conservatives alike can support. The Democratic Study Group has supported deficit reductions for the past 4 years, and it continues to support that goal. But this motion is not what we expected it to be. To accept the tangled, confused web of Gramm-Rudman, still unfolding and still being shaped and created. It is a motion that gives our conferees a free hand to negotiate something that is workable, that is fair, that distributes the burden on all sectors of our economy, and it is something within which this framework can be shaped along the lines of the proposals being developed by our colleagues, Mr. OBEY, Mr. LEATH, Mr. FROST, Mr. MACKAY, and myself, among others, to achieve a balanced budget through deficit reductions expressed as percentage of gross national product and, I would add, that touch both outlays and tax expenditures.

Mr. Speaker, we should vote for this motion.

Mr. MICHEL. Mr. Speaker, I yield 1 minute to the gentleman from California [Mr. DORNAN].

Mr. DORNAN of California. Mr. Speaker, there is a spirit of cooperation in this House on both sides of the aisle that I think grows out of a proper fear of our massive deficits, the trade imbalance, and the continuing high interest rates.

I want to associate myself with the remarks of the distinguished gentleman from Louisiana [Mr. ROEMER] who implores us to stop placing blame and to pull together.

This morning's debate would have been over 30 minutes ago if it had not been for a speech riddled with partisanship by the distinguished majority leader. He knows we admire him on this side of the aisle, so why the bad feeling today? And the gentleman from Arkansas, the distinguished deputy whip, comes on here weekly with his cockamamie charts espousing Brazilian economics. These are not the President's massive deficits. It goes back to the fiscally ill conceived Great Society. We know this is the most fiscally responsible President all of us have lived under in our entire lifetime.

Regular order, Mr. Speaker. Please stop the clock.

Mr. ROEMER. Would the gentleman yield? He said he agreed with my remarks. I did not say that.

Mr. DORNAN of California. Say what. I agree with your remarks on sharing blame. Mr. Speaker, I would like the clock stopped and regular order.

Thank you, Mr. Speaker.

I thank the Speaker. You're so imposing—you did not even have to use your gavel.

Now about these Brazilian charts that blame our huge deficits on President Reagan. A high school civics teacher or grade school history teacher knows that the Congresses of the 1960's, particularly the 89th Congress, voted for massive entitlement programs, because a very astute politician who served 12 years here and 12 years in the other body became a veto-proof President and then launched the budget-busting Great Society.

□ 1220

The deficits are the fault of all the ensuing Congresses. Let us solve the budget problems in the 99th through 101st Congresses. It will be a magnificent gift to history.

Mr. MCCANDLESS. Mr. Speaker, I rise in strong support of the motion to instruct the conferees, and in strong support on the Gramm-Rudman-Mack proposeal to balance the budget, of which I am an original cosponsor in the House.

It took 200 years for the United States to amass a debt of $1 trillion. It only took us 5 years to double that and reach the $2 trillion mark. At the current pace, it is estimated that we will reach the $3 trillion mark in another 3 years. With the $3 trillion debt will come a high price tag. Over 20 percent—one-fifth—of the Federal budget will go just to pay the interest on the debt. There are those who seem to feel that debt is not alarming and that it will go away if we ignore it. I couldn't disagree more. We are going from year to year, creating more and more debt just to pay the interest on past debt. If that is not a sure road to bankruptcy and economic crisis, I don't know what is.

Two and a half months ago, amid much fanfare, we passed the budget resolution for fiscal year 1986. Many claimed that we had acted responsibly and reduced the deficit by $55.5 billion. However, the ink on the resolution was barely dry when OMB estimated that unless additional action was taken, the deficit would remain above $200 billion for at least the next 2 years. Our very own non-partisan Congressional Budget Office estimates that the actual fiscal year 1986 deficit reduction, as passed, will be closer to $37 billion, and then only 8 percent of that savings will actually be achieved.

It is obvious. The budget process does not work. The budget process has no teeth. If we are to reduce the deficit, Congress must reduce spending. Spending is out of control. In a recent syndicated column, economist Warren Brooks correctly pointed out:

"Americans should already know that tax increases won't cut the deficit, only spending cuts will. The best proof is what has happened during the fiscal year just ended. Through the last 11 months of fiscal year 1985, Federal revenues have risen 10.4 percent, one of the strongest rises in our country. Our economic recovery, because of our reduction in tax rates, has started to stimulate the job market and new growth. But Federal spending also soared by 9.2 percent, nearly double the fiscal year 1984 rate of 5.4 percent."

Congress has no incentive to reduce spending. For every Federal dollar that is spent, there is a constituent interest who receives that dollar and who is interested in seeing that program or benefit preserved, if not expanded. When a new program is proposed, there is no incentive to look for outdated or low priority programs from which funds may be diverted. Congress merely borrows more money. Congress and the budget are out of control.

What is needed, and needed today, is the Gramm-Rudman-Mack proposal. The proposal will supply the discipline that Congress lacks. The proposal sets maximum deficit levels for the next 5 years. The proposal does not dictate where budget reductions will be made. That, as it should be, will be left to Congress. We will have to examine the entire budget and make difficult determinations of what our priorities are and what we can afford to spend on them. The only exception is Social Security. The exception is logical and one that I support. Social Security is funded by its own tax and should be removed from the unified Federal budget. I have introduced legislation to accomplish this as I believe that changes in Social Security should be made exclusively on the basis of the objectives and financial constraints of the system, and not the budgetary constraints of the Federal Government as a whole.

The time for talk and posturing on the deficit is over. We simply cannot postpone the day of reckoning any longer. We must seize the opportunity that we have today. If we act responsibly and pass the proposal, by 1991, we will have a balanced budget. The proposal, in conjunction with the next logical and necessary step—passage of the Balanced Budget/Tax Limitation amendment to the Constitution, of which I am also a cosponsor—will put us well on the road to restoring fiscal sanity and responsibility to the budget process.

I urge my colleagues to vote in favor of the motion to instruct conferees and to vote in favor of the Gramm-Rudman-Mack proposal when it emerges from conference.

Mr. OBEY. Mr. Speaker, in his inaugural address in January 1981 President Reagan made a profound observation and asked a pointed question. He said:

An almost unbroken 50 years of deficit spending has finally brought us to a time of reckoning. We've come to a turning point, a moment for hard decisions. I have asked the cabinet and my staff a question and now I put the same question to all of you. If not us, who? And if not now, when?

The Gramm-Rudman amendment boldly claims that it is time to get serious about balancing the budget. But on closer inspection, it is clear that their proposal is a mere election-year gimmick, not a serious attempt to deal with the deficit.

Their proposal sets a target of $180 billion for the fiscal year 1986 deficit, this at a time when CBO is forecasting a deficit of $175 billion for the same fiscal year. They have conveniently built a $5 billion "cushion" into their proposal to prevent any significant deficit reduction during the coming fiscal year.

But to make certain that nothing happens this year, their proposal also allows their $180 billion target to be exceeded by 7 percent before any deficit reduction action is mandated. This "escape clause" means that the deficit could be as high as $192 billion before the President would have to do anything about the fiscal year 1986 deficit.

You cannot claim that Gramm-Rudman is a responsible approach to deficit reduction if it would permit this year's spending levels to be $18 billion higher than the levels specified in this year's budget resolution.

Gramm-Rudman claims to "balance the budget," but on close reading it appears that somebody else is going to balance the budget at some point in the future.

Where is the seriousness of this approach?

It seems clear that this proposal is merely an election-year gimmick. It fools the country into thinking that Congress is getting serious about the deficit, while postponing any serious deficit reduction until after the 1986 elections.

Everybody knows that cutting the deficit will involve painful choices, but no proposal to reduce the deficit should be taken seriously unless it is backed by a willingness to make those painful choices now.

Supporters of Gramm-Rudman think they can have it both ways—making tough speeches about balancing the budget, while quietly putting off any serious attempt to deal with the deficit problem.

Once safely through the elections, supporters may feel very differently about making the hard choices.

The public ought not to trust any approach to deficit reduction which puts off the real pain until some point in the future—especially if putting things off in this fashion enables some politicians to coast through the next election.

If we are going to get serious about reducing the budget deficit, then let's get serious. Any serious approach to deficit reduction ought to demonstrate its seriousness by starting now, with the fiscal year 1986 budget.

President Reagan asked a good question: If not us, who? If not now, when?

Gramm-Rudman answers, in effect: Not us. Not now.

But the time for serious action is now. There is no point in waiting until the national debt has grown to $2.2 trillion, as could happen under Gramm-Rudman, before tackling the political impasse which has created today's deficit mess.

If we are going to deal with the deficit, we need stronger medicine and quicker action than is provided in this piece of election-year gimmickry.

Mr. BROYHILL. Mr. Speaker, the conferees on this legislation should be instructed to report promptly legislation eliminating the Federal budget deficit by 1991.

The American people have spoken. In conversations with each of us, all across this Nation, they have made reduction of the Federal budget deficit their No. 1 priority.

The Senate has spoken. A majority of the Members of the other body on both sides of the aisle voted for the Gramm-Rudman deficit reduction legislation. They believe that stopping the flow of Federal red ink is more important than partisan politics.

Now it is time for the House to speak. We should agree to the Gramm-Rudman amendment. Any delay can only mean that the House Democratic leadership is not interested in reducing the budget deficit. There are no good excuses for failure to act. The American people are watching to see if the House has the will to prescribe the strict fiscal medicine the Federal Government desperately needs. We must act now. They have already waited too long.

Mr. DREIER of California. Mr. Speaker, one of my biggest disappointments this year was when I had to vote against the fiscal year 1986 budget package, which claimed to reduce the Federal deficit by $57 billion. I could not support a budget package riddled with overly optimistic assumptions and a great deal of budget gimmickry. That package failed to reduce deficit spending for the foreseeable future. In fact, the Congressional Budget Office estimated total savings, if any, of $39 billion in fiscal year 1986.

If something had been done then to reduce deficit spending, we wouldn't be here today debating the relative merits of the Gramm-Rudman proposal. We are still faced with massive Federal deficits for as far as the eye can see. I'm just thankful that we have another opportunity this year to restore the faith of our constituents back home who believe Congress doesn't have the guts to make the tough choices necessary to bring the deficit under control. I urge my colleagues not to let this opportunity slip away.

The Gramm-Rudman proposal is a serious and viable opportunity to finally put some teeth into the budget process without raising questions of unlawful shifts in constitutional powers. Unlike those arguments put forth in opposition to balanced budget language and line-item veto authority, the Gramm-Rudman proposal would not take anything away from Congress. It merely says if Congress can't or won't take deficit reduction action to meet specified targets, then the ball will be in the President's court. But that decision will be up to Congress.

Mr. Speaker, I would urge my colleagues to accept the deficit reduction language laid out in the Gramm-Rudman proposal. A vote for this type of plan would be a vote for fiscal sanity, send a message to the American people that we are willing to do more than just talk about reducing the Federal deficit.

Mr. GREEN. Mr. Speaker, I am going to support the motion to instruct the House conferees on the debt ceiling to accept the Senate's deficit reduction proposal.

Since 1974, we have operated under the procedures of the Budget and Impoundment Control Act passed in that year. The result has been the largest deficits in our Nation's history. Plainly, the procedures need a change in the direction of reducing our deficits.

Unlike the initial proposals in the Senate, the final deficit reduction plan passed in that body leaves virtually no discretion to the President. Defense is affected like all other programs. Exceptions are few, principally interest on the Federal debt and old age and survivors insurance payments under Social Security. There are escape clauses in the case of war and recession.

I am also mindful that an instruction to the House conferees, though advising the conferees of the will of the House, is not binding. If there are technical difficulties to iron out, the conferees can do that.

But we do need a change in the process to get our deficits down, and the proposal before us is the best vehicle I have seen to reach that goal.

Mr. ROSTENKOWSKI. Mr. Speaker, I yield myself the remaining time.

The SPEAKER. The gentleman from Illinois [Mr. ROSTENKOWSKI] is recognized for 2 minutes.

Mr. ROSTENKOWSKI. Mr. Speaker, the holiday season has concluded. Now we face the reality of taking down the decorations.

The American people have recognized the problem of the deficit, and I must commend the other body for having formulated some policy to deal with it, which I am sure that we in the conference will have their help in changing, if necessary.

But I do think that I would prefer to see us working on common ground with common purposes, because we are in the homes of the American people constantly. And if there is any reflection on the part of the American people that is credited to us, it is when we work together, it is when we feel that we have a bipartisan effort, rec-

ognizing a crisis and working toward a solution.

So what the minority leader has offered with respect to instructions I feel is certainly flexible enough for those of us who are going to serve on the conference that we can work with it, and I think that there will be and I hope a bipartisan effort to really get down to the core of what our problems are, and that is the deficit.

If we do arrive at a consensus—and I hope with the cooperation of the other body, and thus far, in my conversations with those Members who expect to serve on the conference, the air of bipartisanship and cooperation is in existence—I think we can bring back a product to this body that we could approve and that we could feel is going to settle the nervousness of the American people about the deficit.

I hope, Mr. Speaker, that we adopt this motion. Although any chairman going to any conference likes wide flexibility, I think the minority leader has provided that in his resolution and so, Mr. Speaker, I will vote favorably on the direction of the majority leader.

The SPEAKER. The Chair recognizes the gentleman from Illinois [Mr. MICHEL] to close debate.

Mr. MICHEL. Mr. Speaker, there are two reasons why this motion is important today. The first is because we want to tell the conference to report back quickly and to report something with teeth in it, but the second reason is equally important. In voting for this motion, we are turning back on 40 years of failure. For that long and longer the Washington establishment has been feeding the habit of deficit spending. And I know because I have been here during all those 40 years. We have become the biggest bunch of deficit junkies in the world. And to hear some people talk, you would think that deficit was invented yesterday. Well, it was not. It has been part of this town's official thinking as long as any of us can remember.

Do we want to assign blame for this failure? Look around. Boy, there is plenty of blame to go around. And I look at this gentleman himself. I am intrigued by the gentleman from South Carolina [Mr. DERRICK] on the balanced budget amendment, give me any one you have got, I will quick sign on. The majority of my Members have. I have had a little reservation about that, just because my personal conscience says that unless on a day to day basis I am down here doing what ought to be done to get us there, maybe it is a bit of hypocrisy.

You remember that little tale about Alexander the Great, when he was confronted by an enormously complicated knot. He did not try to unravel it, like everybody else. He cut the Gordian knot.

And that is what we have to do: Stop picking around the edges and cut to the very heart of the problem of the deficit.

Some critics have said this is a simple solution to a complicated problem and it will not work, it cannot work. Well, I have seen all of the complicated solutions for 30 years around here, and none of them have worked. As ranking minority member on the Committee on Appropriations, for any number of years I have heard the rhetoric of responsibility from my colleagues, but I saw them voting rather irresponsibly to spend money we did not have from time to time.

We do not need months of hearings and extensive studies and commissions in order to find out what to do about the deficit. What we need is just old-fashioned guts to do what has to be done in that conference. And because the number of conferees I expect to be appointed, I certainly hope we are not going to get ourselves bogged down in endless rhetorical diatribe in the conference, but get right down to business and then report back something of meaningful purpose here for both Houses of the Congress.

I certainly hope that the Members will in large numbers support the motion to instruct the conferees.

Mr. DELLUMS. Mr. Speaker, I ask unanimous consent to strike the last word.

The SPEAKER. All time has expired.

Mr. DELLUMS. Mr. Speaker, I ask unanimous consent to proceed for 5 minutes.

The SPEAKER. Is there objection to the request of the gentleman from California?

Mr. DENNY SMITH. Mr. Speaker, I object.

The SPEAKER. The Chair hears an objection.

Mr. MICHEL. Mr. Speaker, I move the previous question on the motion to instruct the conferees.

The previous question was ordered.

Mr. SPEAKER. The question is on the motion to instruct the conferees offered by the gentleman from Illinois [Mr. MICHEL].

The question was taken; and the Speaker announced that the ayes appeared to have it.

REOCRDED VOTE

Mr. MICHEL. Mr. Speaker, I demand a recorded vote.

A recorded vote was ordered.

The vote was taken by electronic device, and there were—ayes 354, noes 15, not voting 65, as follows:

□ 1235

The Clerk announced the following pairs:

On this vote:

Mr. Wolpe for, with Mr. Hawkins against.
Mr. Kildee for, with Mr. Stokes against.
Mr. Skelton for, with Mrs. Collins against.

So the motion to instruct was agreed to.

The result of the vote was announced as above recorded.

A motion to reconsider was laid on the table.

The SPEAKER. The Chair appoints the following conferees:

From the Committee on Ways and Means: Messrs. ROSTENKOWSKI, GIBBONS, PICKLE, RANGEL, STARK, JONES of Oklahoma, JENKINS, GEPHARDT, RUSSO, DUNCAN, ARCHER, VANDER JAGT, CRANE, and FRENZEL.

From the Committee on Appropriations: Messrs. WHITTEN, BOLAND, NATCHER, SMITH of Iowa, PURSELL, and LOEFFLER.

From the Committee on Rules: Messrs. PEPPER, MOAKLEY, DERRICK, BEILENSON, FROST, LATTA, and LOTT.

From the Committee on Government Operations: Messrs. BROOKS, FUQUA, WAXMAN, SYNAR, HORTON, and KINDNESS.

From the Committee on the Budget: Messrs. GRAY of Pennsylvania, DOWNEY of New York, MILLER of California, LEATH of Texas, KEMP, and GRADISON.

And the following additional conferees: Mr. FOLEY, Mr. OBEY, Ms. OAKAR, Messrs. PANETTA, FAZIO, MICHEL, CHENEY, Ms. MARTIN of Illinois, and Mr. MACK of Florida.

□ 1245

PERMISSION FOR COMMITTEE ON PUBLIC WORKS AND TRANSPORTATION TO FILE REPORT ON H.R. 3066

Mr. HOWARD. Mr. Speaker, I ask unanimous consent that the Committee on Public Works and Transportation may have until midnight tonight to file a report on H.R. 3066.

The SPEAKER. Is there objection to the request of the gentleman from New Jersey?

There was no objection.

PERMISSION TO FILE CONFERENCE REPORT ON H.R. 2409, HEALTH RESEARCH EXTENSION ACT OF 1985

Mr. WAXMAN. Mr. Speaker, I ask unanimous consent that the managers may have until midnight tonight to file a conference report on the bill (H.R. 2409) to amend the Public Health Service Act to revise and extend the authorities under that act relating to the National Institutes of Health and National Research Institutes, and for other purposes.

The SPEAKER. Is there objection to the request of the gentleman from California?

There was no objection.

COMMENDING THE PRESIDENT FOR FORCEFUL AND SUCCESSFUL ACTION IN ORDERING APPREHENSION OF TERRORISTS IN "ACHILLE LAURO" INCIDENT

Mr. HAMILTON. Mr. Speaker, I ask unanimous consent that the Committee on Foreign Affairs be discharged from further consideration of the resolution (H. Res. 294) to commend the President for acting forcefully and successfully in ordering the apprehension of the terrorists who hijacked the Italian cruise liner the *Achille Lauro* and killed a citizen of the United States, and ask for its immediate consideration.

The Clerk read the title of the resolution.

The SPEAKER. Is there objection to the request of the gentleman from Indiana?

There was no objection.

The Clerk read the resolution, as follows:

H. RES. 294

Whereas the scourge of international terrorism represents a threat to the civilized world;

Whereas the United States has been unable or unwilling to avenge terrorist acts against American citizens;

Whereas it is distressing to think that the terrorists who hijacked the Italian cruise liner the Achille Lauro and killed Leon Klinghoffer, a citizen of the United States, would have escaped free of prosecution had the President not successfully intervened;

Whereas when the opportunity presents itself, the United States should take every appropriate measure to apprehend, prosecute, and punish those who perpetrate terrorist acts; and

Whereas the actions of the President will act to deter future terrorist actions: Now, therefore, be it

Resolved, That the President is commended for his courage in making a bold and timely decision to order the interception of the Egyptian airliner that was transporting the terrorists who hijacked the Italian cruise liner the Achille Lauro and killed Leon Klinghoffer, a citizen of the United States. The President is encouraged to continue to pressure the Government of Italy to extradite those terrorists to the United States so they can be brought to justice in the United States for their crimes.

The SPEAKER. The gentleman from Indiana [Mr. HAMILTON] is recognized for 1 hour.

Mr. HAMILTON. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, the resolution is a simple resolution that commends the President for making a bold and timely decision to order the interception of the Egyptian airliner that was transporting the terrorists who hijacked the Italian cruise liner. The resolution is sponsored by myself, the gentleman from Massachusetts [Mr. BOLAND], the gentleman from New York [Mr. GILMAN], the gentleman from New York [Mr. KEMP], the gentleman from Mississippi [Mr. LOTT], the gentleman from Pennsylvania [Mr. GOODLING], the gentleman from California [Mr. DORNAN], the gentleman from California [Mr. LAGOMARSINO], and the gentleman from Montana [Mr. MARLENEE], who is the resolution's chief sponsor.

I think it is an excellent resolution, and I commend it to my colleagues.

Mr. Speaker, I yield to the gentleman from Montana [Mr. MARLENEE] for any comment he may wish to make.

Mr. MARLENEE. Mr. Speaker, I thank the gentleman for yielding.

Mr. Speaker, I would like to have time to yield to the ranking member and then take some time myself, if I might have some time and if the gentleman would yield to me.

Mr. HAMILTON. Mr. Speaker, I yield to the gentleman from New York [Mr. GILMAN].

Mr. GILMAN. Madam Speaker, I want to commend the gentleman from

Indiana [Mr. HAMILTON] and the gentleman from Montana [Mr. MARLENEE] for bringing this measure to the floor at this time.

Today is a day unlike the many days of past frustrations about terrorism. Today we can proudly point to the outstanding work of our naval fliers in helping to apprehend the killers of an American citizen, Leon Klinghoffer.

While the full story of the hijacking of the Italian liner, *Achille Lauro*, and its dramatic end remains to be told, we can congratulate both the President for his able and decisive leadership and our Nation's Armed Forces, which executed their mission with precision and dedication. Our intelligence agencies fulfilled a significant role in providing the Armed Forces the opportunity to capture the hijackers. We should also laud our diplomatic mission in Egypt, led by Ambassador Nicholas Veliotes, who took charge of the delicate question of the welfare of Americans on board the ship while at the same time striving to uphold our policy against negotiations with hostage takers.

Our satisfaction with the capture of the hijacker-murderers is mixed with continuing anger at the scourge of international terrorism, which has taken so many American lives. Let us keep in mind at this time the memory of Leon Klinghoffer, Robert Stethem killed in the TWA hijacking—whose murderers are still free, and Charles Hegna and William Stanford, the American diplomats killed in Iran by airplane hijackers in December 1984, whose murderers are still free. And let us not forget the hundreds of American marines and diplomats killed in Beirut, nor the six Americans still held there, nor the countless victims of terror of all nationalities. Let us remember, in our analysis of this incident, to keep our anger directed at those who perpetrate violence, and let us redouble our efforts, our commitment, not to give in to those who perpetrate terror.

Mr. DORNAN of California. Madam Speaker, if the gentleman will yield, I would like to make a suggestion. Since most of our 1-minutes on this side were on this issue, I think it would add some dignity if all of the 1-minutes were included inside the debate on this resolution by our distinguished chairman of the Subcommittee on Europe and the Middle East of the Committee on Foreign Affairs.

I would say to the ranking minority member that I would like to suggest that we start off with the gentleman from Arizona, Mr. JOHN MCCAIN, the naval aviator, and then just go down the row as we were doing for 1-minutes.

Does anyone have any objection to that?

Mr. GILMAN. Madam Speaker, I have no objection.

Mr. MARLENEE. Madam Speaker, as a parliamentary inquiry on this, I believe the chairman of the subcommittee does control the time, and I would like to know what his wishes are with regard to that. I would like to speak as sponsor of the resolution, and as an inquiry on the procedure, I would ask that question.

Mr. HAMILTON. Madam Speaker, I would be glad to yield 30 minutes to the gentleman from New York [Mr. GILMAN.

Mr. GHLMAN. Madam Speaker, I thank the gentleman.

Mr. HAMILTON. We will retain 30 minutes here, and the gentleman from New York may yield time as he sees fit.

Mr. GILMAN. Madam Speaker, I am pleased to yield 3 minutes to the gentleman from Montana [Mr. MARLENEE].

Mr. MARLENEE. Madam Speaker, I thank the gentleman for yielding this time to me.

Madam Speaker, I want to commend the chairman and the ranking members of the committee. I know the chairman, the gentleman from Indiana, Mr. LEE HAMILTON, has long been concerned about the acts of terrorism, and I know the gentleman from New York, Mr. BEN GILMAN, has also been concerned, and I want to thank them for bringing this up in a very expeditious manner so that we may send a message to the world as to how we feel about the acts of terrorism that are occurring throughout the international world.

America finally acted to deter future terrorism against the United States and its citizens. For once we took a bold and courageous step by apprehending the terrorists who hijacked the Italian ship. It is depressing to think that the cowards who killed a 69-year-old man in a wheelchair would probably have escaped without prosecution had the President not made the timely decision to intercept the airliner that was attempting to carry the terrorists to freedom.

When the opportunity presents itself, Madam Speaker, we should take every appropriate measure to apprehend, prosecute, and punish those who perpetrate terrorist acts. In the past we have been unwilling or unable to avenge such acts, and I think this President should be congratulated for making a prompt decision to intercept the airliner carrying the terrorists.

Again, Madam Speaker, I say that the chairman and ranking member of the subcommittee ought to be commended for bringing my resolution to the floor at this time.

Mr. GILMAN. Madam Speaker, I thank the gentleman from Montana [Mr. MARLENEE] for his supporting remarks and for his taking the initiative in sponsoring the resolution and bringing it to the floor at this appropriate time.

Madam Speaker, I yield 3 minutes to the gentleman from Arizona [Mr. MCCAIN].

Mr. MCCAIN. Madam Speaker, yesterday, I sat in this Chamber while a number of my colleagues, on both sides of the aisle, criticized, condemned, and castigated the President and this administration for their failure to respond to acts of piracy and murder on board the *Achille Lauro*.

Even in the last 24 hours, Madam Speaker, should be a graphic demonstration of the politicians prayer, "May the words I utter today be tender and sweet, for tomorrow I may have to eat them." Our Government did take action, decisive action, which I hope will put those contemplating terrorist acts against our country on notice that we will do what is necessary in response to acts of terror wherever they occur. However, last night's action also demonstrates we will try to avoid precipitous action which could endanger innocent lives needlessly. Whenever possible, we will act according to our Western heritage, that being the rule of law, not the law of the gun.

Unfortunately, last night's action does not remove the terrorist threat from our midst. There will be further acts of terror throughout the world. Even as I speak, there are six American citizens being held in Lebanon, their only crime being the country of their citizenship. We will not end this odious practice until all nations which respect the rule of law band together and declare, enough. No more cooperating, no more negotiating, no more appeasement, but appropriate response, I pray that day comes soon.

But today we all rejoice—we all stand tall. I take personal pride in saluting my Navy comrades for their efforts which have brought honor to us all. Well done, gentlemen. Well done, Mr. President.

□ 1255

Mr. GILMAN. Madam Speaker, I thank the gentleman from Arizona.

I reserve the balance of my time and defer to the gentleman from California [Mr. LEVINE], a member of our committee.

Mr. LEVINE of California. Madam Speaker, I will handle at least the first part of the time on this side.

I yield 2 minutes to the gentleman from New York [Mr. SCHUMER].

Mr. SCHUMER. Madam Speaker, day 12 of the Lebanese hostage crisis.

Day 341 of the Iranian hostage crisis.

For years, Americans have had to count the days of our capitulation to terrorism. Let today mark day one of our response to terrorism, a response that is forward, that is fearless, and

that deals with terrorism as it should be dealt with, appropriately and forcefully.

History teaches us one lesson about terrorism. Failure to apprehend terrorists invites future terrorism.

The PLO, the leading terrorist force in the world, has been applauded, praised, winked at, accepted, condoned in every way.

What is the world to think when the PLO is praised at every step? What is the PLO to think when its terrorists go unapprehended? It is a lesson for future terrorism.

Today people of both parties, people of good will throughout the world, praise the President for what he has done and once again are proud to be free men and women of a free country that will no longer bow to terrorism.

Mr. GILMAN. Madam Speaker, I yield 2½ minutes to the gentleman from California [Mr. LAGOMARSINO].

Mr. LAGOMARSINO. Madam Speaker, the terrorist pirates, who held the Italian cruise ship, *Achille Lauro*, hostage and who ruthlessly murdered an elderly and crippled American, have been brought to justice on the command of President Reagan, and with the assistance and cooperation of Italian Prime Minister Craxi, four U.S. Navy F-14's forced the Egyptian Boeing 737 carrying the terrorists to land earlier at a NATO airbase in Sicily.

Situations such as this one offer proof that responsible governments can and must act against terrorism. President Reagan has successfully used American military power to "retaliate" against international terrorism. No lives were lost in the process, and the capture of the guilty parties brings hope to many across the Nation that there can be effective action against these cowardly murderers.

In this instance, Madam Speaker, effective action required accurate and up-to-the-minute intelligence reporting on the terrorist's whereabouts, and the use of American military power present in the region. All Americans can be proud of the performance of our men and women in uniform, their civilian counterparts in the intelligence services, and the President who ordered these actions.

Let this serve as a lesson, Madam Speaker, to would-be terrorists everywhere that this Nation refuses to sit idly by and let these barbarians take aim against innocent American lives. Robbie Stethem, Leon Klinghoffer, and the others who have had their lives taken because they were Americans, we say to you: Your lives have not been in vain. We will respond, we will be successful, and terrorists who victimize the innocent will be brought to justice.

Mr. LEVINE of California. Madam Speaker, I yield such time as he may consume to the gentleman from Maryland [Mr. HOYER].

Mr. HOYER. Madam Speaker, I thank the gentleman from California for yielding time to me.

I rise in strong support of this resolution and congratulate the President and the Armed Forces who participated in this brave and effective response to terrorism.

Madam Speaker, all Americans are united with pride today. Together, we applaud the interception and capture of the terrorists responsible for the hijacking of the *Achille Lauro*.

Our pride is tempered with sadness at the loss of an American brother and our hearts and prayers go out to Mr. Klinghoffer's family in their time of mourning. Our sadness confirms our determination that justice must be done.

Terrorists should take heed that America will not sit idly by while murder and disregard of basic human rights occurs. We will act; we must act to end the scourge of terrorism.

Mr. LEVINE of California. Madam Speaker, I yield 1 minute to the gentleman from New Jersey [Mr. HUGHES].

Mr. HUGHES. Madam Speaker, I thank my colleague for yielding.

Americans—and civilized people all over the world—are justifiably relieved about the end of the hostage crisis aboard the *Achille Lauro*, and the capture of the four terrorists who pirated the luxury liner and murdered one of the American passengers in cold blood.

The terrorists can now be brought to justice before Italian authorities. Additionally, the United States can request Italy to extradite the four to stand trial here in this country.

That step is possible under a statute developed by my Subcommittee on Crime, in cooperation with the State Department, and signed into law by President Reagan last year. That law makes it a Federal offense for anyone, anywhere in the world, to take an American hostage in an effort to force a government to take some specific action. In the event that the four terrorists are brought before our courts and convicted, they could be sentenced up to life in prison.

To be sure, we have not seen the end of terrorism. There will be more crimes and assaults. But the capture of these four criminals and murderers does show what can happen when nations cooperate, within the framework of strong international agreements and laws, in an effort to see that terrorists are held accountable for their acts.

Mr. GILMAN. Madam Speaker, I yield 1 minute to the gentleman from Indiana [Mr. BURTON].

Mr. BURTON of Indiana. Madam Speaker, I thank the gentleman for yielding time to me and congratulate him for cosponsoring this resolution.

Madam Speaker, yesterday, there was a great deal of frustration on this floor because once again it appeared that terrorists had killed an American and had gotten away.

President Reagan was challenged to no longer use harsh rhetoric, but to use swift action to deal with the terrorists. He did—and we're proud of him. The perception of America being weak in dealing with terrorists has been changed in 24 short hours—and all Americans thank President Reagan for the great leadership he has shown during this crisis.

The future will undoubtedly involve more terrorism, but now the terrorists know; they will be pursued and brought to justice.

That gives them a lot to think about.

Thank you, President Reagan.

Well done.

Mr. GILMAN. Madam Speaker, I thank the gentleman from Indiana.

Mr. SMITH of Florida. Madam Speaker, I yield 2 minutes to the gentleman from California [Mr. LEVINE].

Mr. LEVINE of California. Madam Speaker, I thank the gentleman for yielding.

I also rise to compliment the President and the administration on the bold and forceful action that was taken last night. I cannot tell you how much I rejoiced when I learned that we had forced the terrorists out of the sky. All Americans should rejoice in the blow that we struck against terrorism.

I rise also to comment on the courageous pilots of our F-14 fighters for the daring interception of the Egyptian airliner carrying the terrorists who brutally murdered Leon Klinghoffer and who seized the *Achille Lauro*.

I am pleased to see that this resolution on the floor of the House is bipartisan and demonstrates strong support for this type of anti-terrorist activity.

Still, Madam Speaker, important questions remain unanswered. What role did Yassar Arafat's PLO play in this entire episode? Evidence points to PLO participation in this heinous hijacking and slaying. Paramount is the ease with which Arafat's men negotiated with Palestinians alleged to be his "mortal enemies."

According to one hostage, the terrorists tried to have their prisoners repeat while at gunpoint, "Reagan no good, Arafat good."

Yesterday at the United Nations, Arafat's so-called Foreign Minister called reports of Leon Klinghoffer's murder a "big lie." Is this an indication of the PLO's concern for the truth?

What about the Egyptian role? Why were they in such a hurry to release the terrorists? Why do they refuse to release the ship? Why did they lie to our Government about where the ter-

rorists were, and about when the terrorists were released? Is Egypt more committed to the PLO than to combating terrorism? What does this say about their commitment to peace?

These questions, I respectfully submit, must be answered satisfactorily before the final curtain descends on this drama.

Mr. GILMAN. Madam Speaker, I am pleased to yield 1 minute to the gentleman from New Jersey [Mr. SMITH].

Mr. SMITH of New Jersey. Madam Speaker, I thank the gentleman for yielding time to me.

Madam Speaker, Americans are fed up with terrorism. Americans are sick and tired of watching cowards and bullies terrorize innocent men, women, and children. The PLO and the Palestinian Liberation Front and all terrorist factions dishonor their cause and themselves when they commit such serious cowardly crimes.

I therefore rise this afternoon with a great sense of relief and satisfaction to thank the President for taking bold, decisive, and smart action to apprehend the four Palestinians who hijacked the *Achille Lauro* and killed a disabled American Jew, Leon Klinghoffer.

The four will now be brought to justice and the battle against the cancer of terrorism will advance.

Mr. GILMAN. Madam Speaker, I thank the gentleman from New Jersey for his supporting remarks.

Mr. SMITH of Florida. Madam Speaker, I yield 1 minute to the distinguished gentleman from Florida [Mr. BENNETT].

Mr. BENNETT. Madam Speaker, as an American citizen and as chairman of the Seapower Subcommittee and as a Congressman who represents the area from which the *Saratoga* came, I express great gratitude to the President, to Secretary Lehman, to the valiant people who engineered and carried this out and I think there are some congratulations to go to Congress as a whole, because the citizens of America gave the equipment which made this possible.

In congratulating the President and congratulating Secretary Lehman and these heroic people who brought this about, I do not minimize the efforts that were made in the past. We were not without efforts in the past. People lost their lives in efforts in the past, so it is in no way a degradation of what happened in the past; but this was a success and we all ought to be very happy about it.

I am delighted at this point to congratulate the President, the Secretary of the Navy, and all the great naval heroes who had a part in this. I am sure we can all be proud of what has been accomplished.

Mr. GILMAN. Madam Speaker, I am pleased to yield 2 minutes to the gentleman from California [Mr. DORNAN].

Mr. DORNAN of California. Madam Speaker, I salute the U.S. Navy, its aircrews, and particularly the young enlisted men on the flight deck of the U.S.S. *Saratoga* who because of the danger during night jet launches and recoveries perform the most dangerous peacetime service of any of the young enlisted people anywhere throughout our military services.

And I commend and salute all those young Army, Navy, Marine, and Air Force members of our Special Forces and of the Delta Force that were not only ready, but eager to repel onto the deck of the *Achille Lauro* and fight to the death to save the lives of not only their fellow Americans trapped on the ship but to save the lives of all of the various nationalities kidnaped on that cruise ship. You watch how humble our Navy F-14 Tomcat pilots will be when the press finally gets to talk to them. They will correctly say that this was not a combat mission because they were not challenged by Libyan fighters. They will say it was merely another routine night patrol to identify an unidentified bogey. This time the bogey was real, and according to their Commander in Chief's orders asked that the Egyptian 737 please follow them to Sicily for a little important unfinished business.

Our President's courage is inspiring. The toughness of his responsibility is best reflected in the words of President Harry Truman, when he said that the buck stops at the White House Oval Office. That's where the toughest decisions rest on one man's shoulders alone. Because this mission went off perfectly, some people may not comprehend just how brave and decisive a move this was. It might not have gone off perfectly. Ronald Reagan showed us the same guts that President Jimmy Carter did in launching a Delta Force to rescue our 52 hostages in Iran in April 1980. That mission turned into a nightmare. Not Carter's fault. He had tried and he knew that lives of young Americans would be lost trying to save their brothers and sisters.

There is no greater more powerful line in the Scriptures than "Greater love than this hath no man than he who give up his life for another."

I was just thinking of names here. Names of murdered Americans. I do not think I have an unusual imagination. I just have a good memory.

I can see Larry McDonald sitting there in the fifth row aisle seat on the majority side. He always sat in that area. He was a little too tough on Communists for some in this body but not for me. A true gentleman. Our colleague was murdered with 268 other men, women, and children, an act of international terrorism by a superpower. A superpower that may have trained these very four cowards who murdered Mr. Leon Klinghoffer. U.S. Army Maj. Arthur Nicholson murdered by the Soviets this year; Navy Lt. Comdr. Al Shauffelburg, who I spent 3 days with in El Salvador, shot in the face and murdered last year in San Salvador.

Last June 15 PO 2d Class Bob Stethem was murdered by cowardly terrorist thugs on one of our TWA planes. His younger brother has joined the Navy. The older brother is already in the Navy. The father served in the Navy. What a great all American family. They must be proud today of their beloved U.S. Navy. And last June, Lance Cpl. Greg Webber was murdered in San Salvador by terrorists with his marine guard pals, Sgt. Tom Handword, Sgt. Bobby Dickson, and Cpl. Patrick Kwiatkowski. Greg Webber was an honor graduate in his marine guard training, first-in-his-class status earned him the honor to ask for service in El Salvador. He said, "That is where I am needed." He and his three fellow marines gunned down while serving all of us in the free world.

Six other fellow Americans live in fear in terrorist captivity in Beirut. One or two may already be murdered.

And now, the brutal killing of a loved father and husband, a man in his 70th year, in a wheelchair, with his wife suffering his torment at his side. Just look at her face on television, how Mrs. Klinghoffer suffers. Leon Klinghoffer, a decent man enjoying his golden years on a Med cruise. No funeral. His dead body thrown over the ship's railing with cruel contempt. The assassin covered with blood, bragging to the captain that he had killed an American Jew. How sick. Thank you Mr. President for sending a duly deputized posse of U.S. Navy officers to round up those four cowards.

This is a great day in American history. Our Commander in Chief said, "Enough, no more." This is normal conduct for a good people from the land of the free and home of the brave. I commend you, Mr. President, and I am proud to join this resolution.

Mr. SMITH of Florida. Madam Speaker, I yield 2 minutes to the gentleman from New York [Mr. SCHEUER].

Mr. SCHEUER. I thank the gentleman for yielding this time to me.

Madam Speaker, I rise to applaud our President and our military for their finely tuned and precise action which apprehended the *Achille Lauro* terrorists with nary a drop of blood let.

It was a classy military action and President Reagan has shown himself to be our nonviolent Rambo.

On the other hand, our Government and this body should reexamine our relationship with Egypt if that nation doesn't mend it ways.

We don't have all the answers about Egypt's handling of the attempted

freeing of the Palestinian murderers. But it is apparent that a disturbing pattern is emerging on Egypt's part that is less than encouraging.

The Egyptian's attempted release of the terrorists is not an isolated incident.

Only last week, an Egyptian soldier killed seven Israeli tourists bathing in the Sinai. If that was not bad enough, Egyptian authorities refused for 10 hours to allow medical teams access to the victims which resulted in the death of a young boy who probably would have survived with treatment.

Meanwhile, in the Red Sea, reports continue that Egyptian gunboats have been bumping Israeli pleasure boats for no apparent reason.

At the same time, PLO members continue to infiltrate across the Sinai into Israel from Egypt as Egyptian authorities look the other way.

The Egyptian actions I have outlined here are not the kind of conduct we should expect from a nation that is an ally of the United States receiving $2 billion in aid each year, and a nation that is supposed to be at peace with Israel.

The Egyptians seem to want to get back to the bosum of the Arab world, but the question remains:

Are they working to moderate the attitudes of the Arab nations of the Mideast?

Or have they themselves been radicalized and on the way to joining forces with the radical forces that seem to predominate in the region?

Madam Speaker, we deserve forthright answers from the Egyptians—and more clear evidence by their actions that they intend to play a moderating leadership role in the Middle East.

Mr. GILMAN. Madam Speaker, may I inquire how much time we have remaining on our side of the aisle?

The SPEAKER pro tempore. The gentleman from New York [Mr. GILMAN] has 18½ minutes remaining.

Mr. GILMAN. Madam Speaker, I am pleased to yield 1 minute to the gentleman from Pennsylvania [Mr. GEKAS].

Mr. GEKAS. I thank the gentleman for yielding this time to me.

Madam Speaker, the whole world is shocked at the action of the President of the United States. The terrorist world is shocked into a realization that their license to kill has been revoked. The free world is shocked pleasantly that at last the might of the United States has been utilized to stem the tide that the terrorists have hewn for themselves over the past decade.

But there is still one element missing. The deterrent of the death penalty still does not apply to the situation that we have observed that happened over the last few days. The life that was taken cannot be answered for by a possible capital punishment verdict because the laws of the United States do not carry such a penalty on the books at the present moment.

Madam Speaker, I am today introducing a bill that will, in like situations hereafter, if enacted, allow the Federal Government, once it takes jurisdiction over a terrorist, just as we now have, to be able to apply the death penalty when a life is taken on the high seas.

Mr. GILMAN. I thank the gentleman from Pennsylvania.

Mr. SMITH of Florida. Madam Speaker, I yield 2½ minutes to the gentleman from New York [Mr. WEISS], a member of the Committee on Foreign Affairs.

Mr. WEISS. I thank the gentleman for yielding this time to me.

Madam Speaker, I am pleased to add my words of strong support for the resolution that is before us. I am proud to commend the President of the United States and all of the people in the U.S. Government, the Department of Defense, the Department of State, the intelligence services, and anyone else who is responsible for the swift and just and fair execution of a policy which apprehended four of the most barbaric, murdering terrorists that we had occasion to witness in the case of these sad months and years.

There is a sense of reassurance, I think, on the part of the American people, and I suspect on the part of people throughout the world, that finally we have demonstrated that terrorists, international terrorists, will not receive safe haven after their terrorist activities, and that is a very important point of departure. The only reason that terrorists are encouraged, I am convinced, to undertake more and more brazen acts is because of the sense that many nations will turn their backs on their actions and allow them, either wittingly or unwittingly, explicitly or implicitly, to take haven within their borders.

The murder of Leon Klinghoffer, who is a constituent of mine, was so cowardly and brutal and barbaric that even those nations which usually turn their backs on PLO atrocities found themselves wanting to remove themselves from any identification with that action. I would hope that the true memorial to Leon Klinghoffer, beyond the prosecution and bringing to justice of his murderers, will be a movement, on the basis of the actions that have been taken and the revulsion about this most recent hijacking and piracy and murder, that the international community will, under the leadership of President Reagan, meet to declare that they will not stand by and provide haven for international murderers and terrorists.

Mr. GILMAN. Madam Speaker, I am pleased to yield 1 minute to our distinguished minority leader, the gentleman from Illinois [Mr. MICHEL].

Mr. MICHEL. I thank the gentleman for yielding this time to me.

Madam Speaker, may I first compliment the members of the Committee on Foreign Affairs on both sides of the aisle for initiating this very appropriate resolution today, which I am happy to join as a cosponsor.

President Reagan has made Americans proud of America.

His decision to intercept the murderous Palestinian terrorists was courageous, calculated, and correctly implemented. The exercise represented America at its finest, and we all have to feel good about the highly professional and surgical manner in which our military achieved its mission.

This action sent a message to a world being slowly brought to its knees by ruthless and barbaric individuals who frankly belong behind bars.

We must extract a high price from those who choose to assault our citizens, insult our integrity and threaten our freedom. We did it in Grenada and we have done it in the Mediterranean. We should be ready to do it again.

Mr. GILMAN. I thank our distinguished minority leader for his supportive remarks.

Mr. SMITH of Florida. Madam Speaker, may I inquire how much time we have remaining on this side?

The SPEAKER pro tempore. The gentleman from Florida [Mr. SMITH] has 14½ minutes remaining.

Mr. SMITH of Florida. Madam Speaker, I now yield 1 minute to the gentleman from Oklahoma [Mr. MCCURDY].

Mr. MCCURDY. I thank the gentleman for yielding this time to me.

Madam Speaker, I rise in strong support of this resolution. All I can say is bravo, America; bravo, Mr. President.

After several years of frustration and disappointing inaction combating terrorism, the United States finally moved forcefully into the arena yesterday. The capture of the hijackers was a bold and innovative move. The President and his national security and military advisers should be commended on the successful operation.

Yesterday an American President set a standard for future Presidents, regardless of party or philosophy, of which we can all be proud.

□ 1320

Mr. GILMAN. Madam Speaker, I yield 1 minute to the gentleman from Massachusetts [Mr. CONTE].

Mr. CONTE. Madam Speaker, I want to commend President Reagan in the way he handled the latest hostage crisis—a job well done. I also would like to take a moment to express my gratitude and to commend the behavior of the Governments of Italy and Tunisia for the assistance and support which they provided the U.S. Government in our efforts to intercept the

Egyptian airliner which carried the four Palestinian hijackers of the Italian cruise ship *Achille Lauro.* It was largely through their support and good judgment which allowed for the apprehension of these terrorists without any further loss of life.

The Governments of Italy and Tunisia have demonstrated by their instinctual behavior last night that they share our principles of right and wrong and that they are true friends of the United States of America.

Given the amount of aggression which American citizens have experienced overseas in the last year, it is heartwarming to receive the care and support which was manifested by the Italian Government throughout this recent crisis.

Mr. MARLENEE. Madam Speaker, will the gentleman yield?

Mr. CONTE. I am happy to yield to the gentleman from Montana.

Mr. MARLENEE. Madam Speaker, I wish to commend the gentleman on his remarks and associate myself with his remarks.

The SPEAKER pro tempore. The time of the gentleman from Massachusetts [Mr. CONTE] has expired.

Mr. GILMAN. Madam Speaker, I thank the gentleman from Massachusetts for his supporting remarks, and I yield 30 seconds to the gentleman from Montana [Mr. MARLENEE], the major sponsor of this measure.

Mr. MARLENEE. I thank the gentleman.

Madam Speaker, terrorism is an act of international violence, and as I said, I associate myself with the remarks of the gentleman from Massachusetts [Mr. CONTE].

I believe from this day forward if all of the nations of the world would cooperate as Tunisia and Italy at least have done, that we will see a lessening of the violent terrorist acts that have occurred.

I thank the gentleman for yielding.

Mr. SMITH of Florida. Madam Speaker, I yield 1 minute to the distinguished chairman of the Rules Committee, the gentleman from Florida [Mr. PEPPER].

Mr. PEPPER. Madam Speaker, I rise in support of this resolution and commend the Foreign Affairs Committee for bringing it forward to the House. I share in the eloquent sentiments that have previously been expressed by my colleagues.

Mr. GILMAN. Madam Speaker, I yield 2 minutes to the gentleman from Ohio [Mr. DEWINE].

Mr. DEWINE. Mr. President, we are proud of you, and we are proud of those Americans who carried out your orders last night.

The arrest of these thugs and the knowledge that prior to the release of the hostages, you had set in motion a military plan to rescue the hostages, these two things should send a message to the terrorists of the world, "You won't be tolerated any longer; you will be punished."

This really is not a change in policy, but rather it is the application of a consistent policy to the particular facts of this case.

You have demonstrated again, Mr. President, that a strong leader of a powerful nation knows when to use restraints, but he also knows when to use force.

You have also demonstrated, Mr. President, that you know that a great nation is judged, yes, by its words, but in the final analysis, by his actions.

Mr. GILMAN. I thank the gentleman for his supporting remarks.

Mr. SMITH of Florida. Madam Speaker, I yield 1 minute to the gentleman from Kansas [Mr. GLICKMAN].

Mr. GLICKMAN. Madam Speaker, the administration took a bold and courageous step against terrorism last night, and I think all Americans must be proud today of the success we achieved in apprehending the hijackers of the *Achille Lauro.* They should, more correctly, be called pirates because that word describes both in mentality and in substance the nature of their crime. The Italian Government has indicated that they intend to prosecute the pirates and our own Government will be seeking extradition to prosecute these international criminals for the cruel coldblooded murder of an American citizen. The Congress should show its strong support for these efforts to bring the pirates to justice.

The message of last night's successful tracking down and capturing of these international hoodlums is clear: The perpetrators of such wanton acts of international terror will not be permitted to run rampant in the world. Concerted efforts on the part of those of us who believe in the rule of law will assure that they are brought to justice and that they will pay for their outrageous acts.

Madam Speaker, I would like to add one more word. We have tried before. During the Iranian hostage crisis, we tried, and in that case we failed. In this case, we tried and we succeeded.

But fail or not, the fact of the matter is this, the strongest Nation in the world, should always be a power in trying and attempting to root out terrorism wherever it exists.

Mr. GILMAN. Madam Speaker, I am pleased to yield 2 minutes to the gentleman from Florida [Mr. MCCOLLUM].

Mr. MCCOLLUM. Madam Speaker, we are all very proud of the President. We are very proud of the State Department, and we are especially proud of the U.S. Navy for apprehending last night the Palestinian terrorists who held hostage quite a number of people on a ship in the Mediterranean for a long time, and did a most dastardly deed of murdering a U.S. citizen.

These terrorists now must be brought to justice. Unfortunately, if they are brought over here to this country to be tried for the murder of Mr. Klinghoffer, they cannot receive the death penalty.

Earlier this morning I was joined by the gentleman from Pennsylvania [Mr. GEKAS] in introducing a bill which will make the death penalty applicable to a situation where a person is involved in an act of holding someone else hostage, or an act of terrorism that results in the death of a citizen of the United States.

Right now it is absolutely absurd that if someone is killed while involved on a plane of the United States or any other country while a skyjacking is in place, then the terrorists in that case can receive the death penalty. But in the case of a ship, or similar physical presence where hostage taking and terrorism is concerned, no death penalty is applicable.

I urge my colleagues to join in support of this legislation. We need to get on with putting the death penalty in place under Federal law for heinous crimes such as this where it is very appropriate. We need deterrence, we need to stop terrorism. Now is the place to follow up on what the President did last night and put the laws of the United States in proper perspective. That is something this body can do.

I yield back the balance of my time.

Mr. GILMAN. I thank the gentleman from Florida for his support of the resolution.

Mr. SMITH of Florida. Madam Speaker, I reserve the balance of my time.

Mr. GILMAN. Madam Speaker, I am pleased to yield 2 minutes and 20 seconds to the gentleman from Ohio [Mr. KASICH].

Mr. KASICH. Madam Speaker, I, obviously, rise in strong support of the resolution before the House at this moment. I join with every American in thanking and praising our great leader, Ronald Reagan, for his decisive action.

We also would like to express our pride in the bravery and the professionalism of the young men in our Armed Forces who carried out this mission.

The question is, What have we learned from this? I think we can look and learn some very valuable lessons from the events of the last 48 to 72 hours. There were several important elements that we must see more of if we are to bring terrorist situations to an end.

First, we had international cooperation, something that has been essentially lacking in the past. As that ship sailed the waters, country after country denied it access to ports, and country after country denounced the activi-

ties of the terrorists. Clearly we had international cooperation while the ship was still at sea.

Second, once the ship did, in fact, enter Port Said, the intelligence community started to work effectively. One of the things that has hamstrung this country in the last few years in combatting terrorism has been the lack of effective intelligence. We all know that we have been rebuilding our intelligence community since this President has taken office. But I think we can all agree we need to do more. We need to examine every side of the laws regulating our intelligence activities. We need to review these laws and we need to beef up the intelligence community to give it the kind of capability that is needed to respond once a terrorist action has occurred. Even more important, we must have the intelligence capability to prevent these terrorist activities from happening in the first place.

Third, capable forces. Once we had international cooperation, once we had the intelligence capability, what we really needed was the ability to deliver the force. Clearly we had the capability to apply the intelligence we gathered with the F-14 and the skill of the people that fly these planes.

And finally, we have the elite corps that is necessary in order to combat terrorism and apply our intelligence. In this instance we saw the Navy SEALS surround the plane in Sicily to complete the action.

International cooperation, improved intelligence capability, the force that is necessary and the elite corps to deliver the goods. Those are the elements that made this a successful mission and will be needed in the future if we are to successfully combat terrorism.

I greatly appreciate the gentleman offering his resolution and I offer my support.

Mr. GILMAN. I thank the gentleman from Ohio for his support of the resolution.

Mr. SMITH of Florida. Madam Speaker, I yield 2 minutes to the gentleman from Ohio [Mr. LUKEN].

Mr. LUKEN. Madam Speaker, today Americans are walking tall. I have already received telephone calls from my constituents who reflect the exhilaration that they feel today.

Unfortunately, terrorism has been on a roll. Terrorism has apparently been successful in every instance, and as the Prime Minister of Israel stated just last night, there can be no real peace while terrorism prevails.

I think that is the importance of this successful effort by the President and the administration. The real significance is that terrorism has taken one on the chin, that terrorism no longer has that aura of success, that we can bring terrorists to justice, and if we are successful in the extradition, we can bring those responsible into an American court where they must answer. And maybe we can find out whether Yasser Arafat, who has been all over the American TV and glorified and catered to by the television networks, maybe we can find out just what the real connection is in this shadowy area in the Middle East, throughout where terrorists prevail in the Palestinian organization.

The principal crime has been committed against the United States and, therefore, the extradition should succeed. And then we will have taken a giant step in the elimination of terrorism and a movement toward peace.

Mr. GILMAN. Madam Speaker, I am pleased to yield 2½ minutes to the gentleman from California [Mr. DREIER].

Mr. DREIER of California. I thank my friend for yielding. I would just like to commend him and the gentleman from Montana [Mr. MARLENEE] for introducing this legislation in a very timely fashion.

Madam Speaker, thanks to Ronald Reagan the terrorist community is on notice. I rise to commend the President for his decisive action to apprehend the terrorist-hijackers of the *Achille Lauro*. President Reagan clearly demonstrated the will of all Americans that justice be done.

Too many times, all America has been held hostage by international terror's flagrant disregard for innocent life and human decency. Repeatedly, we have had to witness these killers commit their ritual violence on prime-time television and then watch as these murderers flashed a victory sign in our faces before walking off the set with impunity.

Well, this morning the American giant stretched out its little finger and exacted a fitting bit of retribution. While the terrorists sat comfortably on their plane anticipating their victory party at home, the President rearranged the welcoming committee a little. Madam Speaker, the President put the terrorist community on notice, America will not tolerate their criminal acts without retribution.

Mr. GILMAN. I thank the gentleman from California for his support of the resolution.

Mr. SMITH of Florida. Madam Speaker, I reserve the balance of my time.

Mr. GILMAN. Madam Speaker, I am pleased to yield 2 minutes to the gentlewoman from Maryland [Mrs. BENTLEY].

Mrs. BENTLEY. Madam Speaker, yesterday, I rose to address this assembly on terrorism and the need for swift action—that because the perpetrators of this horrible act were beyond the border should not mean they were beyond the law.

Today, I rise joyously with my colleagues in support of this resolution to commend and thank the President for his swift and decisive action in detaining these terrorists.

Travel lanes must remain open to promote the interchange of people, of ideas, and of cultures.

We all wanted something to be done, and something was done.

I echo the sentiments of Mr. BENNETT, chairman of the Seapower Subcommittee, and Mr. DORNAN, the gentleman from California, who pointed out the magnificent role of the U.S. Navy in this daring venture to protect freedom.

In this day and age, it has become fashionable to communicate in vague generalities. We have let ourselves become saturated by signals, indicators, and meaningless words. We had forgotten how to speak in a clear and concise manner.

Last night, our President, Mr. Reagan, did not signal, did not indicate, he let the world know in bold terms the United States will not vacillate when it comes to terrorists.

This is what terrorists need to know: There will be measured and certain retribution for their wanton acts.

But, considering the demands made in past terrorist incidents, I urge stepped up security measures by Americans abroad, and by American installations around the world. This was only act II. These terrorists must be tried, convicted, sentenced, and these sentences must be imposed before we can relax.

□ 1335

Mr. GILMAN. Madam Speaker, I thank the gentlewoman from Maryland for her support of the resolution, and I am pleased to yield 1 minute to the gentlewoman from Nebraska [Mrs. SMITH].

Mrs. SMITH of Nebraska. I thank the gentleman for yielding.

Madam Chairman, I rise in strong support of this resolution and in commendation of its sponsors. I want to commend the President for his quick, bold and decisive action along with those young men who so effectively carried out the mission. Without this action, those murderers of a 69-year-old man in a wheelchair would probably have gone unpunished.

It was a message of courage to the whole world. Well done, Mr. President!

Mr. GILMAN. Madam Speaker, I thank the gentlewoman from Nebraska for her support of the resolution, and I am pleased to yield 2 minutes to the gentleman from California [Mr. HUNTER].

Mr. HUNTER. I thank the gentleman for yielding.

Let me say to my colleagues that this incident, this rescuing of Americans, a release of Americans and the subsequent apprehension of the hijackers not only sends us a message

about terrorism and sends a message to the PLO and others who would commit terroristic acts, but I think it puts in perspective the spare parts controversy that has plagued this Nation for the last 6 months or so, the continuing indictment of our military forces.

It brings back to us the reality that American aircraft carriers exist not to satisfy bureaucratic bean counters; not to serve as floating grocery stores, and not to serve as a subject of congressional investigations, but to project American power and to carry out American foreign policy.

Whatever you have to say about the $600 ash tray or the $300 hammer, or any of the other sensationalistic stories that have been brought out recently in defense debates, our readiness is increased.

In hearings the other day, I brought out the fact to some of our CBO people who did not appear to have the numbers that in fact our combat-ready capability of military aircraft that are aboard our 13 carrier battle groups are 40 percent increased over the days of Mr. Carter. We have increased readiness, and we did not do that simply by voting for a resolution such as this, although this is an excellent resolution; we also did it by voting for aircraft carriers, by voting for more money for spare parts and by voting for enough money for the personnel of our Armed Forces so that they could get out of the bread lines, get out of the food stamp lines, and again be proud to wear the uniform of the United States.

The next important piece of legislation that we can pass to assure the security of the American people is a sufficient defense appropriations bill.

Mr. GILMAN. I thank the gentleman from California for his support of the resolution.

Madam Speaker, a number of our colleagues and leaders on both sides of the aisle are necessarily absent today at a NATO conference in California, and while we wanted to act expeditiously to commend the President, I am certain that on their return, our colleagues will want to associate themselves with our actions today.

Madam Speaker, I urge support of the resolution, and I yield back the balance of my time.

Mr. SMITH of Florida. Madam Speaker, I yield myself such time as I may consume.

First of all, I want to commend the gentleman from Montana [Mr. MARLENEE] for bringing House Resolution 294 to the Committee on Foreign Affairs, and commend the chairman of the subcommittee and acting chairman, the gentleman from Indiana [Mr. HAMILTON] for expeditiously bringing this before the House.

I want to commend my good friend and colleague the gentleman from New York [Mr. GILMAN], the ranking member of the Subcommittee on Europe and the Middle East, for forcefully directing this during the stages of bringing it to the floor.

I think, first of all, that it is important that the United States collectively congratulate the President for the step that was necessary to be taken to make a decision to do something that is not usual in the context of American power, but by the same token was a step that was absolutely necessary and vital to be taken to protect the interests of all Americans, especially civilians traveling abroad.

The second thing I think we need to do is to commend the military, who carried out the operation with precision. It is important for us to continue to believe in the ability of the Armed Forces of the United States to in fact execute the decisions that are made by the leadership of the military and by the elected officials of the United States.

More importantly, however, we need to examine these few days of circumstances which led us here to this resolution. The mask is off; the cover has been pulled back; the PLO are now seen for what they are: Lying, murdering terrorists—there is no doubt they conceived, planned, directed, orchestrated, and carried out this monumental attack on the free world, by seizing, hijacking, and keeping the Italian cruise liner; but more than that, 400 innocent civilians, many of whom were very elderly people.

We knew that they had been taking maritime training before this was ever done; our intelligence gives us that. We know that the people who are involved, the hijackers themselves, because of the statements made by the hostages after they were released, were on that ship praising Yassar Arafat as their leader; praising him and denigrating the United States and criticizing the President of the United States.

We know that the go-between who ordered, on behalf of the PLO, the hijackers to turn the ship around from off the coast of Syria to then proceed to Port Said in Egypt was in fact a high ranking official of the PLO. There is no doubt about that; and now we know, because we have them through the Italians, in custody, that when the Egyptian airliner was forced to land in Sicily, there were six people on that plane; four were the hijackers, two were high ranking PLO officials; and we know that that plane was going to land in Algeria.

Tunisia should be congratulated because it refused to allow that plane to land, but the Algerians apparently had given their approval, and we know that when they hit the ground in Algeria, they would have disappeared just as those who hijacked the TWA plane in Beirut disappeared, never to be seen again, never to be punished. That was going to be the same fate, and the terror and misery visited upon the elderly and other occupants of that ship, the American citizens, the dastardly murder of Mr. Klinghoffer—a man who was totally disabled in a wheelchair—executed, that terror and misery would go unpunished.

The elderly people who were forced, men and women, to throw a handgrenade around between them, scared to death. The kind of punishment described by the hostages of what the hijackers perpetrated on them during the course of the time they were in captivity, that would have gone unpunished.

These things would have gone unpunished had we not acted but we did act and now we know who has done it and who will be punished. We know who is responsible and we know what we must do. We must bring them to trial. We hope that the Italians will see fit to allow the American justice system to deal with them, as they have murdered an American citizen and terrorized elderly Americans.

More than that, we must ensure that even if the Italians try them, they are tried and if convicted—and we know they will be—they are punished to the fullest extent of the law, in public, for the world to see; that the civilized nations of this world will no longer tolerate this inhumane, barbaric behavior on the part of any group; especially on the part of Arafat and the PLO, should be the message.

Their professing to be innocent no longer washes in world public opinion, and now we must make the commitment from this day forward, not only to commend ourselves for what we did yesterday but to make the terrorists today and in the future understand they will pay the dearest price if they contemplate or carry out this type of horrendous act against humanity again.

Three of the hostages were elderly widows who reside in my district. What will they think of their country if no one pays for what horror and misery they were put through? What do the TWA hostages think of us when no one has been punished for what was done to them? The time for talk is over, the time for action has begun.

□ 1345

Civilization cannot exist, freedom cannot exist, justice cannot exist, if we allow people like those in the PLO and other terrorist groups to continue to act with impunity against the system of Western civilization that we have in place.

Madam Speaker, I commend those that have brought this to fruition and urge this country to review what happened in the last few days between Egypt and Italy and the other coun-

tries of the Western world, and the Middle Eastern world, to review how best we can avoid these kinds of things from happening again and avoid a strain in the relationship between our country and countries like Egypt which apparently got caught up beyond their control in problems which the terrorists made them assume in the first instance.

We do not know all the facts yet. We hope that when we do know them, we will find that no country, ally of ours, was complicit with the terrorists.

I urge my colleagues to support this resolution. I commend the gentleman who brought it to the floor, and I hope the United States and the whole free world now realizes on what basis we must deal with terrorism.

Let this be the first day of a new era in dealing with those who would bring down civilization as we know it. Let them know that there will be no place in the world far enough away from the United States or secure enough to hide in, no refuge, no sympathy, only swift plus decisive action by a country—no—by a whole world that will not abide these barbarians.

Mr. FORD of Tennessee. Madam Speaker, as most everyone already knows, the Palestinian hijackers of the cruise ship *Achille Lauro* are now in the custody of the Italian authorities in Sicily. While I speak for all Americans in welcoming this dramatic development, let me first express this Chambers condolences to the family of Mr. Leon Klinghoffer. Mr. Klinghoffer, 69, was ailing and according to reports, had difficulty moving about the cruise liner. His murder was an extremely cowardly act by a group of individuals filled with anti-semetic and anti-American rage. It is that hate which makes any solution to the Palestinian problem even more difficult to accomplish.

The apprehension of the terrorists was due in part to a number of parties jointly concerned with the ever-increasing ugliness of international terrorism. The Italian Government, led by Prime Minister Craxi, deserve a great deal of thanks for their cooperation in both ending the hostage crisis and securing the capture of the terrorists. The Tunisian Government showed a great deal of courage in not accepting the airliner at Tunis. While the assistance of the Egyptian Government in this matter was also greatly appreciated, only further inquiry into the events that transpired will answer why the Mubarek government was slow in discovering the true situation on the boat, and why the terrorists were allowed to leave Egyptian soil as late as 4:15 e.d.t. yesterday.

Most of all, this Nation owes a debt of gratitude to the efforts of our own administration. Their behind the scenes work in this matter cannot be underestimated. I was further impressed by the comments of Press Secretary Speakes, who indicated the President would take the same action if need be in the future. The best statement against international terrorism is strong action. World terrorists organizations now know that the United States will act agressively to bring the perpetrators of these acts to justice.

Madam Speaker, perhaps a change is in the wind. It was interesting to note that the Greek Government, whom within this past year had succumbed to terrorist demands in the TWA hijacking, this time refused to let the Egyptian airliner land at Athens. While this is little consolation for the family of Leon Klinghoffer, let us hope that this action is a sign of a new attitude within the international community.

Mr. BROYHILL. Madam Speaker, I wish to take this opportunity to congratulate the President of the United States for the capture of the four Palestinian hijackers.

Terrorism represents an assault on the most fundamental values underpinning our Western civilization—respect for human life, fairness, and decency. We must fight, and fight hard, against this threat to our way of life. But in carrying out this fight, we must always remember who we are, and what we stand for. We need not, and should not, stoop to the brutal methods of these terrorists. If we become like them to defeat them, then we defeat ourselves. Our response should be intelligent, measured, and directed against the perpetrators who are responsible for these evil acts. There must be no asylum for murderers. This will require the cooperation of our allies and indeed all those in the world who wish to preserve international law and order.

I believe that last night's mission by the Navy jet fighters at the order of the Commander in Chief was the proper course of action. Now we must press on to see that these terrorists are brought swiftly to justice.

Mr. BROOMFIELD. Madam Speaker, I am pleased to support House Resolution 294.

Our President bit the bullet and made the right decision concerning the hijackers of the Italian passenger liner. He deserves our praise for his decisive and firm handling of this incident.

As we all know, President Reagan ordered U.S. fighter aircraft to intercept an Egyptian airliner carrying the terrorists who murdered Mr. Leon Klinghoffer.

The plane was forced to land at a U.S. facility in Sicily. Italian authorities now have custody of the terrorists. The United States is seeking their extradition. Let us hope that these criminals can be brought to justice in the United States.

This senseless killing of Mr. Klinghoffer is a classic example of the mindlessness of terrorism. According to initial reports, the Palestinian terrorists randomly chose Mr. Klinghoffer's passport from among a group of American passports and decided to single him out for assassination to show their determination in their efforts to win the release of other Palestinians who were being held in Israeli prisons.

Mr. Klinghoffer was an elderly man who had been confined to a wheelchair because of a serious health problem. I find it hard to believe that those terrorists chose to punish that innocent human being who could not have resisted even if he had wanted to. This crime was not the work of brave men. It was a foolish and shameful act of hatred which in the end accomplished absolutely nothing.

Disputes can never be resolved by unleashing the ugly specter of terrorism on the innocent. Progress on resolving longstanding problems never comes when the advocates of violence are terrorizing the world and killing the innocent. Terrorism leads to nothing but an escalating series of terrorist attacks which worsen, but don't improve, relations between the concerned parties.

International terrorism is a problem which this administration has taken seriously. Our Government's tough position on this issue is the right one.

Well done, Mr. President.

Mr. MACK. Madam Speaker, yesterday our Nation and our President won an important and decisive victory against international terrorism.

The interception by U.S. Navy jet fighters of an Egyptian airliner carrying four Palestinian outlaws in international air space has proven America's resolve to deal swiftly and effectively with terrorists.

After the passengers and crew of the Italian liner *Achille Lauro* were freed, our highest priority was to bring the terrorists to justice. Yesterday's interception of the Egyptian plane by American warplanes and its forced landing in Italy accomplished that objective. The Navy pilots performed their flawless night mission in a precise and professional manner.

Madam Speaker, Americans oppose the use of force on principle, and prefer the rule of law. In this case, the judicious application of the former has brought about the opportunity for international justice. I urge the State Department to seek the immediate extradition of the pirates from Italy for trial here in America for the senseless and brutal murdering of American Leon Klinghoffer.

Beyond this immediate case, our action—and the cooperation shown by the Italians and other governments who refused to capitulate to the terrorist's demands—puts terrorists and international criminals on notice that the United States and the civilized world will aggressively fight those who use terror as a political tool.

We have shown our firm resolve to bring these criminals to justice through the swift and appropriate application of our military might. And let terrorists and those who would consider terrorist acts know that America is on guard and willing to act whenever and wherever to stop them, defeat them, and bring them to justice. If yesterday's events will deter terrorists from acting in the future, we will have saved lives and liberty elsewhere in the world.

Mr. SMITH of Florida. Madam Speaker, I yield back the balance of my time.

Mr. GILMAN. Madam Speaker, I yield back the balance of my time.

Mr. SMITH of Florida. Madam Speaker, I ask for adoption of the resolution.

The resolution was agreed to.

A motion to reconsider was laid on the table.

GENERAL LEAVE

Mr. SMITH of Florida. Madam Speaker, I ask unanimous consent that all Members have 5 legislative days in which to revise and extend their remarks on the resolution just agreed to.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Florida?

There was no objection.

PERSONAL EXPLANATION

Mr. STRANG. Madam Speaker, during floor consideration of two bills yesterday, October 10, 1985, I was unavoidably absent during three recorded votes. Had I been able to be present and voting I would have cast my votes in the following manner:

Rollcall No. 353, "nay."

Rollcall No. 354, "nay."

Rollcall No. 355, "yea."

LEGISLATIVE PROGRAM

(Mr. GILMAN asked and was given permission to address the House for 1 minute.)

Mr. GILMAN. Madam Speaker, I yield to the gentleman from California [Mr. COELHO] in order to announce the program for the following week.

Mr. COELHO. I thank the gentleman from New York.

As the gentleman knows, the House will not be in session on Tuesday except for a pro forma session.

On Wednesday we will come in at noon instead of the usual 10 a.m., and we will have H.R. 1409, military construction authorizations, open rule, 2 hours. The rule has already been adopted.

Then on Thursday we will have H.R. 3327, military construction appropriations for fiscal year 1986.

Madam Speaker, provided that we complete both bills on Wednesday and Thursday, there will not be a session on Friday. If we do not, Members should expect to be in session on Friday next.

Mr. GILMAN. May I inquire of the gentleman, could he tell us what the situation is with regard to the DOD conference report?

Mr. COELHO. On the DOD conference report, we expect it to be up the week after next. So the amendments should be prepared for that.

Mr. GILMAN. Could the gentleman inform us with regard to the reconciliation package, as to the status of that measure?

Mr. COELHO. The reconciliation, we expect it to be before the Rules Committee on Wednesday. It will be there, and we will proceed from there.

Mr. GILMAN. Can the gentleman tell us whether the Members can expect a session next Friday?

Mr. COELHO. Next Friday we hope that we will not have a session, but it will depend on how quickly we are able to handle the bills that are up on Wednesday and Thursday.

If we complete the action on both bills there will not be a session, but we have to alert the Members that if we do not complete the work of the House on Wednesday and Thursday there will be a session.

Mr. GILMAN. I thank the gentleman.

Madam Speaker, I yield back the balance of my time.

ADJOURNMENT TO TUESDAY, OCTOBER 15, 1985, AND HOUR OF MEETING ON WEDNESDAY NEXT

Mr. COELHO. Madam Speaker, I ask unanimous consent that when the House adjourns today, it adjourn to meet at noon on Tuesday, October 15, 1985, and that when the House adjourns on Tuesday, it adjourn to meet at noon on Wednesday, October 16, 1985.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from California?

There was no objection.

DISPENSING WITH CALENDAR WEDNESDAY BUSINESS ON WEDNESDAY NEXT

Mr. COELHO. Madam Speaker, I ask unanimous consent that the business in order on Calendar Wednesday, October 16, 1985, may be dispensed with.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from California?

There was no objection.

BUDGET DEFICIT REDUCTION—LET'S START NOW

(Mrs. SMITH of Nebraska asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Mrs. SMITH of Nebraska. Madam Speaker, this Chamber has taken a very positive action today in instructing its conferees on House Joint Resolution 372 to return with a measure that will definitively return this Nation from the fairyland of $200 billion deficit spending to fiscal sanity. It's about time!

While I supported the motion to instruct, I agree with the gentleman from Texas [Mr. STENHOLM] that we can do better. And one of the ways we can do this is to start now. Let's not wait for next year or fiscal year 1991. Let's start making some cuts in the days and weeks ahead:

First, cut $10 billion in the Defense conference report.

Second, make meaningful cuts in appropriations as they come back before the House after conference agreements are reached.

Third, make cuts in the foreign aid appropriations bill that will soon be before us.

Madam Speaker, today we have adopted a new philosophy in this Chamber to restore common sense to the checkbook of the Federal Government. Let's put this philosophy in action immediately.

DEATH PENALTY SHOULD APPLY TO ACTS OF PIRACY, ET CETERA

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from Pennsylvania [Mr. GEKAS] is recognized for 5 minutes.

Mr. GEKAS. Madam Speaker, I repeat: the world has been shocked by the President's action of yesterday.

When I say "shocked," I mean it in this context: The terrorist world has been shocked with the realization perhaps that from here on, the license to kill on their part has been revoked and the free world has been shocked, pleasantly, that at long last, the President of the United States has acted resourcefully, forcefully, immediately to cure an international incident and the ills that precede and follow.

But the world does not realize some of the implications of what has happened, and the American public may be under some false impressions about the ability of our Nation to deal with these terrorists even though we were able to get them into our hands and have them under our jurisdiction.

Had we had the ability to bring these men directly back to the United States and to try for the action they took on this ship just a few days ago, the American people would be shocked to know that we could not ask for the death penalty for those individuals even though they seized a ship on the high seas, even though they willfully and deliberately killed an American citizen, and even though they were seized properly and taken, through the Italian authorities, and presumably—under my hypothesis—brought back to the United States for trial because, Madam Speaker, Members of the House, as we sit here today, there is no death penalty applicable on the books, on the laws of the Government of the United States, for this type of action.

That is alarming. But it is not so alarming to me because from the very first moment I came to the Congress, I learned about this gigantic loophole in the Federal criminal laws. We do not

have a death penalty for anything except for one narrow situation, and that is for skyjacking, for the hijacking of an airplane in which a death would occur and for whom some criminal we could obtain jurisdiction of in the United States, we could ask for the death penalty. But that is the only circumstance. Not even an attempt to kill the President of the United States, God forbid, would be met with the possibility of capital punishment, as the law stands today.

Why? Because the Congress of the United States has repeatedly refused to pass such legislation.

For the life of me, I cannot understand why. I have pursued it from the very first moment, as I said, that I came to the Congress, and though we take measured steps toward that goal to add to the criminal jurisprudence of our Nation, yet the 98th Congress failed to adopt, the 99th Congress, even though I introduced legislation in the first week of this session, has yet to take it up.

The only hope we have for the American public, which deeply desires to see the death penalty as an alternative remedy, as a possible remedy for these kinds of actions, through all the polls that have been taken over the last decade, more than 70, some as much as 80 percent in some polls of the American public favor the death penalty as a deterrent and as a possible penalty for those vicious crimes.

Despite all of that, the only hope we have in this session that something might occur to allow us to restore capital punishment to the books is that during the debate on our defense appropriations, we did adopt in this House the capability of our military courts-martial to apply the death penalty for the first time to military people in peacetime, so to speak, which was a very small step toward the eventuality, as I see it, of the whole House being given the opportunity to act on my legislation or similar legislation that would allow the death penalty for every kind of vicious crime that is possible.

For instance, as I said, assassination of the President of the United States, which is extremely important; the skyjacking; and now the piracy on the high seas of people among whom might be American citizens and who might die at the hands of terrorists. Now that is no longer a hypthetical situation. It has happened. It has occupied the headlines of the newspapers of the world for the last few days. And for the other vicious crimes for which the death penalty does not apply.

The irony of it is that we have never repealed the death penalty, and these situations which I have described have always been the subject of a possible death penalty remedy.

Madam Speaker, I ask that the House consider as quickly as possible the death penalty legislation that is waiting for action.

□ 1400

THE BALANCED BUDGET PROPOSAL

(Mr. DASCHLE asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. DASCHLE. Madam Speaker, the balanced budget proposal before us now is a good idea. But for some reason, its sponsors seem unwilling to put it into effect right away. It is sensible; it will work. Why wait?

The complete details of the plan aren't available right now, but it does seem that unless we put it into effect right away, it may actually raise deficits at first. None of us want that.

With no plan at all, the deficit for fiscal year 1986 is expected to be $172 billion. If we put it into effect when its sponsors suggest, the deficit would go up to $180 billion, and perhaps as high as $193 billion. But if we start now, we can actually get the deficit down to $161 billion.

If we wait to act, we will not have a balanced budget until 1991. If we act now, we can eliminate the deficit a full year earlier.

All told, if we act now, we can cut over $140 billion from the deficits in the next 5 years.

We must act now.

I would also call attention to the loophole in the plan that will allow deficits to be 5-percent higher than the actual targets. The whole point of this plan is to force ourselves to hit these targets. We all know that if we allow ourselves to go 5 percent higher, we will do so.

Finally, we all recognize that reaching these goals will require real and difficult cuts in spending. We must ensure that everyone shares in the sacrifice. Let's not allow the Pentagon to escape its fair share. And lets not allow profitable corporations that now pay no taxes to continue escaping their responsibilities.

PERSONAL EXPLANATION

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from Michigan [Mr. KILDEE] is recognized for 5 minutes.

Mr. KILDEE. Madam Speaker, I was unavoidably absent from the House of Representatives on October 9, 10, and 11 due to reasons of health.

Had I been present I would have voted in the following manner on matters before the House:

"No" on rollcall No. 349, the Burton amendment to H.R. 3008, the Federal Equitable Pay Practices Act.

"Aye" on rollcall No. 353, the rule providing for consideration of H.R. 1523, the Textile and Apparel Trade Enforcement Act of 1985.

"Aye" on rollcall No. 355, final passage of H.R. 3248, Arts and Humanities Authorization Act.

"Aye" on rollcall No. 357, motion to go to conference with the Senate on House Joint Resolution 372, debt limit extension.

"Aye" on rollcall No. 358, motion to instruct the managers on the part of the House at the conference on House Joint Resolution 372, debt limit extension.

A TRIBUTE TO GEN. CASIMIR PULASKI

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from Illinois [Mr. ANNUNZIO] is recognized for 5 minutes.

Mr. ANNUNZIO. Madam Speaker, on October 11, 1779, the great American patriot and courageous military leader, Gen. Casimir Pulaski, sacrificed his life for the cause of American independence during the Battle of Savannah.

Born in 1748 in Poland to an aristocratic and distinguished family, Count Pulaski rejected a life of leisure, and instead spent 31 years of his life fighting to free his native land from the yoke of tyranny. He had fought bravely to prevent the partitioning of Poland, and although he was unsuccessful in his efforts, his deep commitment to the ideals of freedom remained intact. When he first heard of the American Revolution in Paris in 1776, he declared, "Wherever on the globe men are fighting for liberty, it is as if it were my own affair," and then, this heroic Polish nobleman offered his services to our country.

Arriving in Boston during the summer of 1777, Pulaski volunteered his services and expertise to Washington's army, and distinguished himself at the Battle of Brandywine. Because of his meritorious efforts, the Continental Congress granted him a commission as a brigadier general and placed him in charge of the newly created American cavalry.

Following additional military action, Pulaski organized an independent corps of cavalry and light infantry—the Pulaski Legion—and contributed greatly to the successes of the American military cause throughout 1778. Pulaski's courage and determination helped save Charleston, SC, from a superior force, and during the siege of Savannah, he displayed undaunted courage in the face of fierce enemy resistance as he bravely led his cavalry into the thick of battle.

General Pulaski's final act of courage came at this Battle of Savannah. As the British fired from the fortified city, Pulaski volunteered to charge through their line of defense, to enter the city, and confuse the enemy. His untimely death at the head of this famous cavalry charge underscored his dedication to the ideals for which the colonists fought, and his example of sacrifice

and devotion to our Nation's cause is a model of patriotism for all time.

President Reagan has issued a proclamation designating October 11 as General Pulaski Memorial Day, and a copy of that proclamation follows:

[A Proclamation by the President of the United States of America]

GENERAL PULASKI MEMORIAL DAY, 1985

General Casimir Pulaski's life was committed to the cause of freedom. Before coming to America in 1777, he fought bravely and tirelessly for the independence of his beloved Poland. Here, he devoted all his energy and skill to the American War of Independence. His personal contribution to the Revolutionary Army on the field of battle, his tactical innovations, and his creation of a highly effective corps of dragoons, known informally as the Polish Legion, won him the title: "Father of American Cavalry."

On October 11, 1779, General Pulaski gave his life in our struggle for freedom. He died from wounds suffered bravely in the battle of Savannah. Although he died before the goal of a free and independent America had been achieved, his heroic example has inspired Polish and American patriots for over two centuries. George Washington's words written to the Continental Congress in 1778 memorialize General Pulaski: "The Count's valor and active zeal on all occasions have done him great honor."

As we gratefully reflect on the life of this great champion of freedom, we are moved to salute all Americans of Polish descent, who from the settlement in Jamestown through the Revolutionary War and on to the present have contributed so greatly and so generously to the realization of the American dream. Generations of Polish Americans have left a lasting imprint on American life in every field of human endeavor: from science and the arts to politics, sports, and religion. Their achievements have enriched the lives of all Americans.

Now, therefore, I Ronald Reagan, President of the United States of America, do hereby proclaim Friday, October 11, 1985, as General Pulaski Memorial Day, 1985, and I direct the appropriate Government officials to display the flag of the United States on all Government buildings on that day. In addition, I encourage the people of the United States to commemorate this occasion as appropriate throughout the land.

In witness whereof, I have hereunto set my hand this first day of October, in the year of our Lord nineteen hundred and eighty-five, and of the Independence of the United States of America the two hundred and tenth.

RONALD REAGAN.

Mr. Speaker, General Pulaski made the supreme sacrifice in the timeless struggle for freedom, and I am proud to join with Americans of Polish descent, the 11th Congressional District of Illinois which I am honored to represent, and Polish Americans all over this Nation in commemorating the 206th anniversity of General Pulaski's inspiring sacrifice for the noble ideals of freedom during our American War of Independnce.

PERSONAL EXPLANATION

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from Florida [Mr. NELSON] is recognized for 5 minutes.

Mr. NELSON of Florida. Madam Speaker, in examining my voting record I find that I am not recorded on some rollcalls. They include rollcalls 59, 76, 115, and 293 to approve the House Journal. I would have voted "yea" on these rollcalls. On two other procedural motions to adjourn, rollcalls 77 and 116, I would have voted "nay."

I would have voted "yea" on rollcall 60, the motion to suspend the rules and adopt the resolution to condemn the Government of the Soviet Union for the March 24 shooting in East Germany of U.S. Army Maj. Arthur D. Nicholson, Jr., "nay" on rollcall 61, to suspend the rules and adopt the concurrent resolution to call upon the Government of Chile to negotiate with its opposition; "yea" on rollcall 62, adoption of the rule to provide for House consideration of the joint resolution to approve the release of $14 million in fiscal 1985 for supporting military or paramilitary operations in Nicaragua; "yea" on rollcall 78, the demand for a second on the motion to suspend the rules and adopt Senate Concurrent Resolution 37; "yea" on rollcall 79, the demand for a second on the motion to suspend the rules and adopt House Concurrent Resolution 130; "nay" on rollcall 116, the motion to adjourn; "yea" on rollcall 117, adoption of the rule for House consideration for the Defense authorization bill; "yea" on rollcall 294, adoption of the rule for House consideration of the railroad safety improvement bill; and "yea" on the motion to delete $6.3 from the railroad safety improvement bill.

AMENDING THE CHARTER OF THE COMMISSION OF THE BICENTENNIAL OF THE U.S. CONSTITUTION

The SPEAKER pro tempore. Under a previous order of the House, the gentlewoman from Louisiana [Mrs. BOGGS] is recognized for 15 minutes.

Mrs. BOGGS. Madam Speaker, today I am joining with my colleague, the gentleman from Illinois [Mr. CRANE] to introduce legislation to amend the charter of the Commission on the Bicentennial of the U.S. Constitution. We are offering this legislation in our capacity as members of the Commission. Similar legislation has been introduced in the other body by Senators THURMOND, KENNEDY, and STEVENS, who are members of the Commission, and Senator HATCH.

The Commission on the Bicentennial of the U.S. Constitution was established in September 1983 by Public Law 98-101. The 200th anniversary of the approval of the Constitution by delegates attending the Constitutional Convention in Philadelphia will occur on September 17, 1987. Because the initial members of the Commission were not appointed until July 16 of this year, the Commission is behind schedule in its efforts to plan and coordinate the celebration of the Constitution's bicentenary.

In recognition of the constraints imposed by time on the mandate to "promote and coordinate activities to commemorate the bicentennial of the Constitution," the members of the Commission have requested that Congress modify the Commission's charter (Public Law 98-101). The changes recommended by the Commission are contained in this legislation. They include:

First, authority for the Commission to control the use of the official emblem of the bicentenntial and to license its use by the public;

Second, removal of the limitation on the number of Commission staff who may be compensated through appropriated funds;

Third, exemption from Civil Service regulations of Commission staff paid from privately donated funds; and

Fourth, raising the ceiling on the amount an individual can contribute to the Commission to $250,000 per annum and on the amount a corporation, partnership, or other business organization can contribute to $1 million per annum.

In addition, the legislation includes a provision to extend the life of the Commission from 1989, the anniversary of the ratification of the Constitution and the establishment of the Federal Government, until 1991, the anniversary of the ratification of the first 10 amendments to the Constitution, the Bill of Rights.

Separate legislation has been introduced by my colleagues from Illinois [Mr. ANNUNZIO and Mr. CRANE] and myself to authorize the production of coins and medals by the Treasury to commemorate historic events proceeding and associated with the drafting and ratification of the Constitution. H.R. 3415 is currently pending before the Subcommittee on Coinage.

Madam Speaker, I served as a member of the American Revolution Bicentennial Administration from 1974 until 1977 and I serve on the Commission on the Bicentennial of the U.S. Constitution as the Speaker's designee. From my experiences as an active participant in the commemoration of the American Revolution Bicentennial, I can bring a certain appreciation of the challenge facing this Commission in discharging its responsibilities to promote and coordinate activities to commemorate the bicentennial of the Constitution.

For example, the original agencies charged with preparing for the celebrations of 1976 was the American Revolution Bicentennial Commission [ARBC]. It was established in 1966, fully 10 years prior to the celebration of our independence. While there were problems with the original agency which resulted in its reorganization as the American Revolution Bicentennial Authority [ARBA], there was sufficient time for planning for anniversary of our independence, one of the best patriotic celebrations in our histo-

ry. Unfortunately, the Commission on the Bicentennial of the Constitution was not appointed until 2 months ago. Consequently there is not a great deal of time to plan, promote, and coordinate the commemoration of our Nation's fundamental law, the Constitution.

Another example of the constraints facing this Commission is funding. The two agencies charged with responsibility for the 1976 celebration received more than $51 million in appropriated funds. Another $50 million was appropriated by Congress to other agencies for bicentennial activities in 1975 and 1976 alone. In contrast, the fiscal year 1985 supplemental (Public Law 99-88) appropriated $330,000 to the Commission and the fiscal year 1986 Commerce, Justice, State, and the Judiciary appropriations bill (H.R. 2965) contains another $775,000 for the Commission.

In short, the 1976 commemoration was 10 years in the planning and was supported with more than $100 million in Federal appropriations. This Commission has just 2 years to promote and coordinate the commemoration of the Nation's founding charter, with a fairly lean budget to accomplish its objectives. The changes recommended by the Commission, raising the limit on nongovernmental contributions, authorizing the minting of medals and coins, and permitting the licensing of the celebration's official emblem or logo, will better enable the Commission to successfully execute its responsibilities in the short time remaining until September 17, 1987.

Madam Speaker, I am including the text of H.R. 3559 in the RECORD immediately following my remarks. I am also including remarks of the bill's principal cosponsor, the gentleman from Illinois [Mr. CRANE], immediately following the text, and I would like to simply read the last sentence of Mr. CRANE's remarks:

The Commission on the Bicentennial of the Constitution of the United States desperately needs the support of the 99th Congress to ensure that proper recognition and tribute is paid to this truly great achievement.

H.R. 3559

A bill to amend the Act establishing a Commission on the Bicentennial of the Constitution of the United States to clarify the status of employees of the Commission, to raise the limits on private contributions, and for other purposes

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. DEFINITIONS; COMMEMORATIONS BY STATE AND LOCAL GOVERNMENT.

(a) DEFINITIONS.—For purposes of this Act, the term—

(1) "Bicentennial logo" means the official logo of the bicentennial of the Constitution, as designed and so designated by the Commission pursuant to section 5(k) (as redesignated herein) of Public Law 98-101, or any likeness of such logo which, in whole or in part, is used in such a manner as to suggest such logo; and

(2) "Commission", unless otherwise indicated, means the Commission on the Bicentennial of the United States Constitution.

(b) COMMEMORATIONS BY STATE AND LOCAL GOVERNMENT.—It is not the purpose of this Act or Public Law 98-101 to preempt any other official governmental entity from celebrating the bicentennial of the Constitution of the United States. Neither this Act nor Public Law 98-101 shall prevent any State or local government entity, acting under its own authority, from establishing and using its own logo, insignia, seal, or similar device.

SEC. 2. AMENDMENTS RELATING TO PERSONNEL.

Section 5 of Public Law 98-101 is amended—

(1) in subsection (b) by striking out ", without regard to the provisions of title 5, United States Code, governing appointments in the competitive service, and without regard to chapter 51 and subchapter III of chapter 53 of such title relating to classification and General Schedule pay rates,";

(2) in subsection (b), by striking out "up to five persons,";

(3) by redesignating subsections (d) through (j) as subsections (e) through (k), respectively;

(4) by adding after subsection (c) the following new subsection:

"(d) Appointments and compensation under this section may be made without regard to the provisions of title 5, United States Code, governing appointments in the competitive service, and without regard to chapter 51 and subchapter III of chapter 53 of such title relating to classification and General Schedule pay rates.";

(5) in subsection (f)(2), as redesignated herein, by striking out "twenty employees" and inserting in lieu thereof "forty employees or funds equal to the cost of detailing such forty employees";

(6) in subsection (i)(2)(A), as redesignated herein, by striking out "$25,000" and inserting in lieu thereof "$250,000";

(7) in subsection (i)(2)(B), as redesignated herein, by striking out "$100,000" and inserting in lieu thereof "$1,000,000";

(8) in subsection (k), as redesignated herein, by striking out the matter beginning ", except that under" through the end of such subsection and inserting in lieu thereof a period; and

(9) by adding at the end thereof the following new subsection:

"(1) The Commission may transfer funds received by it to any agency if the Commission determines that such agency's use of such funds would promote the commemoration of the bicentennial of the Constitution of the United States.".

SEC. 3 USE OF LOGO.

Notwithstanding the provisions of section 5(k), as redesignated herein, of Public Law 98-101, the Commission may authorize the use of the Bicentennial logo for noncommercial, educational purposes without charge when such use is essentially a public service, and will, in the judgment of the Commission, contribute to public information and education concerning the commemoration of the bicentennial of the Constitution of the United States.

SEC. 4. COOPERATION BY AGENCIES.

Section 6(c) of Public Law 98-101 is amended by adding at the end thereof the following: "All such governmental agencies and organizations shall cooperate with the Commission to the extent allowed by law, in providing advice and assistance requested by the Commission.".

SEC. 5. LICENSING.

(a) REQUIRED TERMS AND CONDITIONS.—Each commercial license granted by the Commission for the use of the Bicentennial logo shall contain the following terms and conditions—

(1) the establishment of a use charge, royalty payment, or payment in kind which is reasonably related to the commercial value of the license, to be paid by the licensee;

(2) specification of an expiration date;

(3) a provision that the license shall be nonexclusive; and

(4) a provision that licensees are not authorized to grant sublicenses or transfer or reassign licenses to another person in connection with the manufacture or sale of an item or the provision of services, unless approved by the Commission.

(b) ADDITIONAL TERMS AND CONDITIONS.—The Commission may incorporate additional terms and requirements into any commercial license issued by the Commission with respect to the use of the Bicentennial logo.

SEC. 6 REVOCATION.

The Commission may revoke or cancel any license or authorization issued for use of the Bicentennial logo if such Commission determines that—

(1) the terms or conditions of the license or authorization have not been complied with;

(2) the use involved is injurious to the image of the Commission; or

(3) the use involved is offensive or does not meet the standards of the Commission.

SEC. 7. PENALTIES.

(a) CRIMINAL PENALTIES.—Whoever, except as provided in this Act, knowingly and for profit manufactures, reproduces, uses, sells, or otherwise distributes the Bicentennial logo, shall be subject to a fine of not more than $250 or imprisonment of not more than six months, or both.

(b) Whoever, except as provided in this act, manufactures, reproduces, uses, sells, or otherwise distributes the Bicentennial logo without the written permission of the Commission tending falsely to represent any affiliation with or endorsement by the Commission, shall be subject to a fine of not more than $250 or imprisonment of not more than six months, or both.

(c) CIVIL PENALTIES.—Whoever violates the provisions of this Act by manufacturing, reproducing, using, selling, or otherwise distributing any commercial product which uses the Bicentennial logo without authorization by the Commission shall, in addition to any criminal penalty, be subject to a civil penalty in an amount equal to the amount of the royalty or other payment which should have been made to the Commission for such use of such Bicentennial logo plus reasonable attorney fees and costs. The Commission may bring a civil action in any court of competent jurisdiction to enforce the provisions of this Act and to recover such penalty.

SEC. 8. AUTHORIZATION OF APPROPRIATIONS.

(a) Section 8 of Public Law 98-101 is amended by striking out "1989" and inserting in lieu thereof "1991".

(b) There are authorized to be appropriated such sums as are necessary to carry out the provisions of this Act.

Mr. CRANE. Mr. Speaker, I have jointly introduced two bills along with Representatives BOGGS and ANNUNZIO concerning America's Commission on the Bicentennial

of the U.S. Constitution. The first bill would merely amend the original act that established the Commission to clarify the status of employees of the Commission, to raise the limits on private contributions, and to extend the life of the Commission until 1991. The second bill would authorize the minting of commemorative coins and the striking of commemorative medals to celebrate the 200th anniversary of our U.S. Constitution.

In 1983, I introduced the original House legislation to create a Commission on the Bicentennial of the U.S. Constitution. In light of the fact that it has taken 2 years for the President to appoint the Commission, it is imperative that these pending bills get passed so that the Commission can fully undertake the enormous tasks before it.

The American Revolutionary Bicentennial Administration [ARBA] had 12 years to organize and raise funds to celebrate the 200th anniversary of the Declaration of Independence. In contrast, the bicentennial for the U.S. Constitution is already less than 2 years away. As a result of these pressing time constraints, the Commission, on which I serve, deemed it necessary to raise the limits on private contributions. Without sufficient funding from the private sector, the U.S. Constitution will not get the celebration that it so richly deserves.

The only other major change contained in the bill to amend the original Bicentennial Commission Act is a provision that would extend the life of the Commission from 1989 to 1991. The rationale behind this was not to just extend the life of the Commission for a couple more years, but was aimed at commemorating the entire ratifying process of the original document. Although by 1789, the Constitution was ratified by all the original States except for Rhode Island, it was done so with the caveat that a bill of rights would be added shortly thereafter. The Bill of Rights to the U.S. Constitution was not ratified by the requisite number of States until 1791. For this reason, I believe that it is fitting to extend the life of the Commission to correspond with the entire bicentennial celebration of our original Constitution. The Bill of Rights was an integral part of the concept of the U.S. Constitution and deserves recognition by this Commission and the people of the United States.

The other legislation that I cosponsored is Mr. ANNUNZIO's bill, H.R. 3415, authorizing coins and medals to commemorate the constitutional bicentennial. Its purpose is not only to provide sourvenirs to celebrate the bicentennial, but it will also raise funds for the Commission and for the purpose of Federal debt retirement. The proceeds from the sale of coins will go toward reducing our Federal debt, and the profit from the sale of medals will further help the Commission fund its activities.

In closing, it should be remembered that while our Nation may be one of the younger nations in the world, it has the oldest, relatively unchanged form of government in the entire world. The U.S. Constitution is considered such an act of genius that it is the most frequently used constitutional model for developing and restructuring countries. Almost 200 years ago the framers of the U.S. Constitution fashioned a nearly perfect instrument of government, one that has demonstrated the remarkable capacity to adapt to a changing world. The Commission on the Bicentennial of the Constitution of the United States desperately needs the support of the 99th Congress to ensure that proper recognition and tribute is paid to this truly great achievement.

CONFERENCE REPORT ON H.R. 2409

Mr. DINGELL submitted the following conference report and statement on the bill (H.R. 2409) to amend the Public Health Service Act to revise and extend the authorities under that act relating to the National Institutes of Health and National Research Institutes, and for other purposes:

CONFERENCE REPORT (H.R. REPT. 99-309)

The committee of conference on the disagreeing votes of the two Houses on the amendment of the Senate to the bill (H.R. 2409) to amend the Public Health Service Act to revise and extend the authorities under that Act relating to the National Institutes of Health and National Research Institutes, and for other purposes, having met, after full and free conference, have agreed to recommend and do recommend to their respective Houses as follows:

That the House recede from its disagreement to the amendment of the Senate and agree to the same with an amendment as follows:

In lieu of the matter proposed to be inserted by the Senate amendment insert the following:

SECTION 1. SHORT TITLE; REFERENCE TO ACT; AND TABLE OF CONTENTS.

(a) SHORT TITLE.—This Act may be cited as the "Health Research Extension Act of 1985".

(b) REFERENCE TO ACT.—Except as otherwise specifically provided, whenever in this Act an amendment or repeal is expressed in terms of an amendment to, or repeal of, a section or other provision, the reference shall be considered to be a reference to a section or other provision of the Public Health Service Act.

(c) TABLE OF CONTENTS.—

Sec. 1. Short title; reference to Act; and table of contents.
Sec. 2. Revision of title IV of the Public Health Service Act.

SEC. 2. REVISION OF TITLE IV OF THE PUBLIC HEALTH SERVICE ACT.

Title IV of the Public Health Service Act is amended to read as follows:

"TITLE IV—NATIONAL RESEARCH INSTITUTES

"PART A—NATIONAL INSTITUTES OF HEALTH

"ORGANIZATION OF THE NATIONAL INSTITUTES OF HEALTH

"SEC. 401. (a) The National Institutes of Health is an agency of the Service.

"(b)(1) The following national research institutes are agencies of the National Institutes of Health:

"(A) The National Cancer Institute.

"(B) The National Heart, Lung, and Blood Institute.

"(C) The National Institute of Diabetes and Digestive and Kidney Diseases.

"(D) The National Institute of Arthritis and Musculoskeletal and Skin Diseases.

"(E) The National Institute on Aging.

"(F) The National Institute of Allergy and Infectious Diseases.

"(G) The National Institute of Child Health and Human Development.

"(H) The National Institute of Dental Research.

"(I) The National Eye Institute.

"(J) The National Institute of Neurological and Communicative Disorders and Stroke.

"(K) The National Institute of General Medical Sciences.

"(L) The National Institute of Environmental Health Sciences.

"(2) The following entities are agencies of the National Institutes of Health:

"(A) The National Library of Medicine.

"(B) The Division of Research Resources.

"(C) The John E. Fogarty International Center for Advanced Study in the Health Sciences.

"(D) The National Center for Nursing Research.

"(c)(1) The Secretary may establish in the National Institutes of Health one or more additional national research institutes to conduct and support research, training, health information, and other programs with respect to any particular disease or groups of diseases or any other aspect of human health if—

"(A) the Secretary determines that an additional institute is necessary to carry out such activities; and

"(B) the additional institute is not established before the expiration of 180 days after the Secretary has provided the Committee on Energy and Commerce of the House of Representatives and the Committee on Labor and Human Resources of the Senate written notice of the determination made under subparagraph (A) with respect to the institute.

"(2) The Secretary may reorganize the functions of any national research institute and may abolish any national research institute if the Secretary determines that the institute is no longer required. A reorganization or abolition may not take effect under this paragraph before the expiration of 180 days after the Secretary has provided the Committee on Energy and Commerce of the House of Representatives and the Committee on Labor and Human Resources of the Senate written notice of the reorganization or abolition.

"(d) For purposes of this title, the term 'national research institute' means a national research institute listed in subsection (b) or established under subsection (c). A reference to the National Institutes of Health includes its agencies.

"APPOINTMENT AND AUTHORITY OF DIRECTOR OF NIH

"SEC. 402. (a) The National Institutes of Health shall be headed by the Director of the National Institutes of Health (hereafter in this title referred to as the 'Director of NIH') who shall be appointed by the President by and with the advice and consent of the Senate. The Director of NIH shall perform functions as provided under subsection (b) and as the Secretary may otherwise prescribe.

"(b) In carrying out the purposes of section 301, the Secretary, acting through the Director of NIH—

"(1) shall be responsible for the overall direction of the National Institutes of Health and for the establishment and implementation of general policies respecting the management and operation of programs and activities within the National Institutes of Health;

"(2) shall coordinate and oversee the operation of the national research institutes and administrative entities within the National Institutes of Health;

"(3) shall assure that research at or supported by the National Institutes of Health is subject to review in accordance with section 492;

"(4) for the national research institutes and administrative entities within the National Institutes of Health—

"(A) may acquire, construct, improve, repair, operate, and maintain, at the site of such institutes and entities, laboratories, and other research facilities, other facilities, equipment, and other real or personal property, and

"(B) may acquire, without regard to the Act of March 3, 1877 (40 U.S.C. 34), by lease or otherwise through the Administrator of General Services, buildings or parts of buildings in the District of Columbia or communities located adjacent to the District of Columbia for use for a period not to exceed ten years;

"(5) may secure resources for research conducted by or through the National Institutes of Health;

"(6) may, without regard to the provisions of title 5, United States Code, governing appointments in the competitive service, and without regard to the provisions of chapter 51 and subchapter III of chapter 53 of such title relating to classification and General Schedule pay rates, establish such technical and scientific peer review groups as are needed to carry out the requirements of this title and appoint and pay the members of such groups, except that officers and employees of the United States shall not receive additional compensation for service as members of such groups;

"(7) may secure for the National Institutes of Health consultation services and advice of persons from the United States or abroad;

"(8) may use, with their consent, the services, equipment, personnel, information, and facilities of other Federal, State, or local public agencies, with or without reimbursement therefor;

"(9) may, for purposes of study, admit and treat at facilities of the National Institutes of Health individuals not otherwise eligible for such treatment;

"(10) may accept voluntary and uncompensated services; and

"(11) may perform such other administrative functions as the Secretary determines are needed to effectively carry out this title. The Federal Advisory Committee Act shall not apply to the duration of a peer review group appointed under paragraph (6). The members of such a group shall be individuals who by virtue of their training or experience are eminently qualified to perform the review functions of such group. Not more than one-fourth of the members of any such group shall be officers or employees of the United States.

"(c) The Director of NIH may make available to individuals and entities, for biomedical and behavioral research, substances and living organisms. Such substances and organisms shall be made available under such terms and conditions (including payment for them) as the Secretary determines appropriate.

"(d)(1) The Director of NIH may obtain (in accordance with section 3109 of title 5, United States Code, but without regard to the limitation in such section on the period of service) the services of not more than two hundred experts or consultants, with scientific or other professional qualifications, for the National Institutes of Health.

"(2)(A) Except as provided in subparagraph (B), experts and consultants whose services are obtained under paragraph (1) shall be paid or reimbursed, in accordance with title 5, United States Code, for their travel to and from their place of service and for other expenses associated with their assignment.

"(B) Expenses specified in subparagraph (A) shall not be allowed in connection with the assignment of an expert or consultant whose services are obtained under paragraph (1) unless the expert or consultant has agreed in writing to complete the entire period of the assignment or one year of the assignment, whichever is shorter, unless separated or reassigned for reasons which are beyond the control of the expert or consultant and which are acceptable to the Secretary. If the expert or consultant violates the agreement, the money spent by the United States for such expenses is recoverable from the expert or consultant as a debt due the United States. The Secretary may waive in whole or in part a right of recovery under this subparagraph.

"(e) The Director of NIH shall—

"(1) advise the agencies of the National Institutes of Health on medical applications of research;

"(2) coordinate, review, and facilitate the systematic identification and evaluation of, clinically relevant information from research conducted by or through the national research institutes;

"(3) promote the effective transfer of the information described in paragraph (2) to the health care community and to entities that require such information; and

"(4) monitor the effectiveness of the activities described in paragraph (3).

"(f) There shall be in the National Institutes of Health an Associate Director for Prevention. The Director of NIH shall delegate to the Associate Director for Prevention the functions of the Director relating to the promotion of the disease prevention research programs of the national research institutes and the coordination of such programs among the national research institutes and between the national research institutes and other public and private entities. The Associate Director shall annually report to the Director of NIH on the prevention activities undertaken by the Associate Director. The report shall include a detailed statement of the expenditures made for the activities reported on and the personnel used in connection with such activities.

"REPORT OF DIRECTOR OF NIH

"SEC. 403. The Secretary shall transmit to the President and to the Congress a biennial report which shall be prepared by the Director of NIH and which shall consist of—

"(1) a description of the activities carried out by and through the National Institutes of Health and the policies respecting the programs of the National Institutes of Health and such recommendations respecting such policies as the Secretary considers appropriate;

"(2) a description of the activities undertaken to improve grants and contracting accountability and technical and scientific peer review procedures of the National Institutes of Health and the national research institutes;

"(3) the reports made by the Associate Director for Prevention under section 402(f) during the period for which the biennial report is prepared; and

"(4) the biennial reports of the Directors of each of the national research institutes, the Director of the Division of Research Resources, and the Director of the National Center for Nursing Research.

The first report under this section shall be submitted not later than July 1, 1986, and shall relate to the fiscal year ending September 30, 1985. The next report shall be submitted not later than December 30, 1988, and shall relate to the two-fiscal-year period ending on the preceding September 30. Each subsequent report shall be submitted not later than 90 days after the end of the two-fiscal-year period for which the report is to be submitted.

"PART B—GENERAL PROVISIONS RESPECTING NATIONAL RESEARCH INSTITUTES

"APPOINTMENT AND AUTHORITY OF THE DIRECTORS OF THE NATIONAL RESEARCH INSTITUTES

"SEC. 405. (a) The Director of the National Cancer Institute shall be appointed by the President and the Directors of the other national research institutes shall be appointed by the Secretary. Each Director of a national research institute shall report directly to the Director of NIH.

"(b)(1) In carrying out the purposes of section 301 with respect to the human diseases or disorders or other aspects of human health for which the national research institutes were established, the Secretary, acting through the Director of each national research institute—

"(A) shall encourage and support research, investigations, experiments, demonstrations, and studies in the health sciences related to—

"(i) the maintenance of health,

"(ii) the detection, diagnosis, treatment, and prevention of human diseases and disorders,

"(iii) the rehabilitation of individuals with human diseases, disorders, and disabilities, and

"(iv) the expansion of knowledge of the processes underlying human diseases, disorders, and disabilities, the processes underlying the normal and pathological functioning of the body and its organ systems, and the processes underlying the interactions between the human organism and the environment;

"(B) may, subject to the peer review prescribed under section 492(b) and any advisory council review under section 406(a)(3)(A)(i), conduct the research, investigations, experiments, demonstrations, and studies referred to in subparagraph (A);

"(C) may conduct and support research training (i) for which fellowship support is not provided under section 487, and (ii) which is not residency training of physicians or other health professionals;

"(D) may develop, implement, and support demonstrations and programs for the application of the results of the activities of the institute to clinical practice and disease prevention activities;

"(E) may develop, conduct, and support public and professional education and information programs;

"(F) may secure, develop and maintain, distribute, and support the development and maintenance of resources needed for research;

"(G) may make available the facilities of the institute to appropriate entities and individuals engaged in research activities and cooperate with and assist Federal and State agencies charged with protecting the public health;

"(H) may accept unconditional gifts made to the institute for its activities, and, in the case of gifts of a value in excess of $50,000, establish suitable memorials to the donor;

"(I) may secure for the institute consultation services and advice of persons from the United States or abroad;

"(J) may use, with their consent, the services, equipment, personnel, information, and facilities of other Federal, State, or local public agencies, with or without reimbursement therefor;

"(K) may accept voluntary and uncompensated services; and

"(L) may perform such other functions as the Secretary determines are needed to carry out effectively the purposes of the institute. The indemnification provisions of section 2354, title 10, United States Code, shall apply with respect to contracts entered into under this subsection and section 402(b).

"(2) Support for an activity or program under this subsection may be provided through grants, contracts, and cooperative agreements. The Secretary, acting through the Director of each national research institute—

"(A) may enter into a contract for research, training, or demonstrations only if the contract has been recommended after technical and scientific peer review required by regulations under section 492; and

"(B) may make grants and cooperative agreements under paragraph (1) for research, training, or demonstrations, except that—

"(i) if the direct cost of the grant or cooperative agreement to be made does not exceed $50,000, such grant or cooperative agreement may be made only if such grant or cooperative agreement has been recommended after technical and scientific peer review required by regulations under section 492, and

"(ii) if the direct cost of the grant or cooperative agreement to be made exceeds $50,000, such grant or cooperative agreement may be made only if such grant or cooperative agreement has been recommended

after technical and scientific peer review required by regulations under section 492 and is recommended under section 406(a)(3)(A)(ii) by the advisory council for the national research institute involved.

"(c) In carrying out subsection (b), each Director of a national research institute—

"(1) shall coordinate, as appropriate, the activities of the institute with similar programs of other public and private entities;

"(2) shall cooperate with the Directors of the other national research institutes in the development and support of multidisciplinary research and research that involves more than one institute; and

"(3) may, with the approval of the advisory council for the institute and the Director of NIH, appoint technical and scientific peer review groups in addition to those appointed under section 402(b)(6).

"ADVISORY COUNCILS

"SEC. 406. (a)(1) Except as provided in subsection (h), the Secretary shall appoint an advisory council for each national research institute which (A) shall advise, assist, consult with, and make recommendations to the Secretary and the Director of such institute on matters related to the activities carried out by and through the institute and the policies respecting such activities, and (B) shall carry out the special functions prescribed by part C.

"(2) Each advisory council for a national research institute may recommend to the Secretary acceptance, in accordance with section 2101, of conditional gifts for study, investigation, or research respecting the diseases, disorders, or other aspect of human health with respect to which the institute was established, for the acquisition of grounds, or for the construction, equipping, or maintenance of facilities for the institute.

"(3) Each advisory council for a national research institute—

"(A)(i) may on the basis of the materials provided under section 492(b)(2) respecting research conducted at the institute, make recommendations to the Director of the institute respecting such research,

"(ii) may review applications for grants and cooperative agreements for research or training and for which advisory council approval is required under section 405(b)(2) and recommend for approval applications for projects which show promise of making valuable contributions to human knowledge, and

"(iii) may review any grant, contract, or cooperative agreement proposed to be made or entered into by the institute;

"(B) may collect, by correspondence or by personal investigation, information as to studies which are being carried on in the United States or any other country as to the disease, disorders, or other aspect of human health with respect to which the institute was established and with the approval of the Director of the institute make available such information through appropriate publications for the benefit of public and private health entities and health professions personnel and scientists and for the information of the general public; and

"(C) may appoint subcommittees and convene workshops and conferences.

"(b)(1) Each advisory council shall consist of ex officio members and not more than eighteen members appointed by the Secretary.

"(2) The ex officio members of an advisory council shall consist of—

"(A) the Secretary, the Director of NIH, the Director of the national research institute for which the council is established, the Chief Medical Director of the Veterans' Administration or the Chief Dental Director of the Veterans' Administration, and the Assistant Secretary of Defense for Health Affairs (or the designees of such officers), and

"(B) such additional officers or employees of the United States as the Secretary determines necessary for the advisory council to effectively carry out its functions.

"(3) The members of an advisory council who are not ex officio members shall be appointed as follows:

"(A) Two thirds of the members shall be appointed by the Secretary from among the leading representatives of the health and scientific disciplines (including public health and the behavioral or social sciences) relevant to the activities of the national research institute for which the advisory council is established.

"(B) One third of the members shall be appointed by the Secretary from the general public and shall include leaders in fields of public policy, law, health policy, economics, and management.

"(4) Members of an advisory council who are officers or employees of the United States shall not receive any compensation for service on the advisory council. The other members of an advisory council shall receive, for each day (including traveltime) they are engaged in the performance of the functions of the advisory council, compensation at rates not to exceed the daily equivalent of the annual rate in effect for grade GS-18 of the General Schedule.

"(c) The term of office of an appointed member of an advisory council is four years, except that any member appointed to fill a vacancy for an unexpired term shall be appointed for the remainder of such term and the Secretary shall make appointments to an advisory council in such a manner as to ensure that the terms of the members do not all expire in the same year. A member may serve after the expiration of the member's term until a successor has taken office. A member who has been appointed for a term of four years may not be reappointed to an advisory council before two years from the date of expiration of such term of office. If a vacancy occurs in the advisory council among the appointed members, the Secretary shall make an appointment to fill the vacancy within 90 days from the date the vacancy occurs.

"(d) The chairman of an advisory council shall be selected by the Secretary from among the appointed members, except that the Secretary may select the Director of the national research institute for which the advisory council is established to be the chairman of the advisory council. The term of office of the chairman shall be two years.

"(e) The advisory council shall meet at the call of the chairman or upon the request of the Director of the national research institute for which it was established, but at least three times each fiscal year. The location of the meetings of each advisory council is subject to the approval of the Director of the national research institute for which the advisory council was established.

"(f) The Director of the national research institute for which an advisory council is established shall designate a member of the staff of the institute to serve as the executive secretary of the advisory council. The Director of such institute shall make available to the advisory council such staff, information, and other assistance as it may require to carry out its functions. The Director of such institute shall provide orientation and training for new members of the advisory council to provide them with such information and training as may be appropriate for their effective participation in the functions of the advisory council.

"(g) Each advisory council may prepare, for inclusion in the biennial report made under section 407, (1) comments respecting the activities of the advisory council in the fiscal years respecting which the report is prepared, (2) comments on the progress of the national research institute for which it was established in meeting its objectives, and (3) recommendations respecting the future directions and program and policy emphasis of the institute. Each advisory council may prepare such additional reports as it may determine appropriate.

"(h)(1) Except as provided in paragraph (2), this section does not terminate the membership of any advisory council for a national research institute which was in existence on the date of enactment of the Health Research Extension Act of 1985. After such date—

"(A) the Secretary shall make appointments to each such advisory council in such a manner as to bring about as soon as practicable the composition for such council prescribed by this section;

"(B) each advisory council shall organize itself in accordance with this section and exercise the functions prescribed by this section; and

"(C) the Director of each national research institute shall perform for such advisory council the functions prescribed by this section.

"(2)(A) The National Cancer Advisory Board shall be the advisory council for the National Cancer Institute. This section applies to the National Cancer Advisory Board, except that—

"(i) appointments to such Board shall be made by the President;

"(ii) the term of office of an appointed member shall be 6 years;

"(iii) of the members appointed to the Board not less than five members shall be individuals knowledgeable in environmental carcinogenesis (including carcinogenesis involving occupational and dietary factors);

"(iv) the chairman of the Board shall be selected by the President from the appointed members and shall serve as chairman for a term of two years;

"(v) the ex officio members of the Board shall be the Secretary, the Director of the Office of Science and Technology Policy, the Director of NIH, the Chief Medical Director of the Veterans' Administration, the Director of the National Institute for Occupational Safety and Health, the Director of the National Institute of Environmental Health Sciences, the Secretary of Labor, the Commissioner of the Food and Drug Administration, the Administrator of the Environmental Protection Agency, the Chairman of the Consumer Product Safety Commission, and the Assistant Secretary of Defense for Health Affairs (or the designees of such officers); and

"(vi) the Board shall meet at least four times each fiscal year.

"(B) This section applies to the advisory council to the National Heart, Lung, and Blood Institute, except that the advisory council shall meet at least four times each fiscal year.

"BIENNIAL REPORT

"SEC. 407. The Director of each national research institute, after consultation with the advisory council for the institute, shall

prepare for inclusion in the biennial report made under section 403 a biennial report which shall consist of a description of the activities of the institute and program policies of the Director of the institute in the fiscal years respecting which the report is prepared. The Director of each national research institute may prepare such additional reports as the Director determines appropriate. The Director of each national research institute shall provide the advisory council for the institute an opportunity for the submission of the written comments referred to in section 406(g).

"AUTHORIZATIONS OF APPROPRIATIONS

"SEC. 408. (a) In addition to amounts otherwise authorized to be appropriated under this title for the National Institutes of Health, the following amounts are authorized to be appropriated:

"(1)(A) For the National Cancer Institute (other than its programs under section 412), there are authorized to be appropriated $1,194,000,000 for fiscal year 1986, $1,270,000,000 for fiscal year 1987, and $1,344,000,000 for fiscal year 1988.

"(B) For the programs under section 412, there are authorized to be appropriated $68,000,000 for fiscal year 1986, $74,000,000 for fiscal year 1987, and $80,000,000 for fiscal year 1988.

"(2)(A) For the National Heart, Lung, and Blood Institute (other than its programs under section 419), there are authorized to be appropriated $809,000,000 for fiscal year 1986, $871,000,000 for fiscal year 1987, and $927,000,000 for fiscal year 1988. Of the amount appropriated under this subsection for such fiscal year, not less than 15 percent of such amount shall be reserved for programs respecting diseases of the lung and not less than 15 percent of such amount shall be reserved for programs respecting blood diseases and blood resources.

"(B) For the programs under section 419, there are authorized to be appropriated $82,000,000 for fiscal year 1986, $90,000 for fiscal year 1987, and $98,000 for fiscal year 1988.

"(b)(1) Except as provided in paragraph (2), the sum of the amounts obligated in any fiscal year for administrative expenses of the National Institutes of Health may not exceed an amount which is 5.5 percent of the total amount appropriated for such fiscal year for the National Institutes of Health.

"(2) Paragraph (1) does not apply to the National Library of Medicine, the National Center for Nursing Research, the John E. Fogarty International Center for Advanced Study in the Health Sciences, the Warren G. Magnuson Clinical Center, and the Office of Medical Applications of Research.

"(3) For purposes of paragraph (1), the term 'administrative expenses' means expenses incurred for the support of activities relevant to the award of grants, contracts, and cooperative agreements and expenses incurred for general administration of the scientific programs and activities of the National Institutes of Health. In identifying expenses incurred for such support and administration the Secretary shall consult with the Comptroller General of the United States.

"(4) Not later than December 31, 1987, and December 31 of each succeeding year, the Secretary shall report to the Congress the amount obligated in the fiscal year preceding such date for administrative expenses of the National Institutes of Health and the total amount appropriated for the National Institutes of Health for such fiscal year. The Secretary shall consult with the Comptroller General of the United States in preparing each report.

"PART C—SPECIFIC PROVISIONS RESPECTING NATIONAL RESEARCH INSTITUTES

"Subpart 1—National Cancer Institute

"PURPOSE OF INSTITUTE

"SEC. 410. The general purpose of the National Cancer Institute (hereafter in this subpart referred to as the 'Institute') is the conduct and support of research, training, health information dissemination, and other programs with respect to the cause, diagnosis, prevention, and treatment of cancer and the continuing care of cancer patients and the families of cancer patients.

"NATIONAL CANCER PROGRAM

"SEC. 411. The National Cancer Program shall consist of (1) an expanded, intensified, and coordinated cancer research program encompassing the research programs conducted and supported by the Institute and the related research programs of the other national research institutes, including an expanded and intensified research program for the prevention of cancer caused by occupational or environmental exposure to carcinogens, and (2) the other programs and activities of the Institute.

"CANCER CONTROL PROGRAMS

"SEC. 412. The Director of the Institute shall establish and support demonstration, education, and other programs for the detection, diagnosis, prevention, and treatment of cancer and for rehabilitation and counseling respecting cancer. Programs established and supported under this section shall include—

"(1) locally initiated education and demonstration programs (and regional networks of such programs) to transmit research results and to disseminate information respecting—

"(A) the detection, diagnosis, prevention, and treatment of cancer,

"(B) the continuing care of cancer patients and the families of cancer patients, and

"(C) rehabilitation and counseling respecting cancer,

to physicians and other health professionals who provide care to individuals who have cancer;

"(2) the demonstration of and the education of students of the health professions and health professionals in—

"(A) effective methods for the prevention and early detection of cancer and the identification of individuals with a high risk of developing cancer, and

"(B) improved methods of patient referral to appropriate centers for early diagnosis and treatment of cancer; and

"(3) the demonstration of new methods for the dissemination of information to the general public concerning the prevention, early detection, diagnosis, and treatment and control of cancer and information concerning unapproved and ineffective methods, drugs, and devices for the diagnosis, prevention, treatment, and control of cancer.

"SPECIAL AUTHORITIES OF THE DIRECTOR

"SEC. 413. (a) The Director of the Institute shall establish an information and education center to collect, identify, analyze, and disseminate on a timely basis, through publications and other appropriate means, to cancer patients and their families, physicians and other health professionals, and the general public, information on cancer research, diagnosis, prevention, and treatment (including information respecting nutrition programs for cancer patients and the relationship between nutrition and cancer). The Director of the Institute may take such action as may be necessary to insure that all channels for the dissemination and exchange of scientific knowledge and information are maintained between the Institute and other scientific, medical, and biomedical disciplines and organizations nationally and internationally.

"(b) The Director of the Institute in carrying out the National Cancer Program—

"(1) shall establish or support the large-scale production or distribution of specialized biological materials and other therapeutic substances for cancer research and set standards of safety and care for persons using such materials;

"(2) shall, in consultation with the advisory council for the Institute, support (A) research in the cancer field outside the United States by highly qualified foreign nationals which can be expected to benefit the American people, (B) collaborative research involving American and foreign participants, and (C) the training of American scientists abroad and foreign scientists in the United States;

"(3) shall, in consultation with the advisory council for the Institute, support appropriate programs of education and training (including continuing education and laboratory and clinical research training);

"(4) shall encourage and coordinate cancer research by industrial concerns where such concerns evidence a particular capability for such research;

"(5) may obtain (with the approval of the advisory council for the Institute and in accordance with section 3109 of title 5, United States Code, but without regard to the limitation in such section on the period of service) the services of not more than one hundred and fifty-one experts or consultants who have scientific or professional qualifications;

"(6)(A) may, in consultation with the advisory council for the Institute, acquire, construct, improve, repair, operate, and maintain laboratories, other research facilities, equipment, and such other real or personal property as the Director determines necessary;

"(B) may, in consultation with the advisory council for the Institute, make grants for construction or renovation of facilities; and

"(C) may, in consultation with the advisory council for the Institute, acquire, without regard to the Act of March 3, 1877 (40 U.S.C. 34), by lease or otherwise through the Administrator of General Services, buildings or parts of buildings in the District of Columbia or communities located adjacent to the District of Columbia for the use of the Institute for a period not to exceed ten years;

"(7) may, in consultation with the advisory council for the Institute, appoint one or more advisory committees composed of such private citizens and officials of Federal, State, and local governments to advise the Director with respect to the Director's functions;

"(8) may, subject to section 405(b)(2) and without regard to section 3324 of title 31, United States Code, and section 3709 of the Revised Statutes (41 U.S.C. 5), enter into such contracts, leases, cooperative agreements, as may be necessary in the conduct of functions of the Director, with any public agency, or with any person, firm, association, corporation, or educational institution;

"(9) shall maintain and operate the International Cancer Research Data Bank, which shall collect, catalog, store, and dis-

seminate insofar as feasible through the use of information systems accessible to the public, general practitioners, and oncologic investigators, the results of cancer research and treatment undertaken in any country for the use of any person involved in cancer research and treatment in any country; and

"(10)(A) shall, notwithstanding section 405(a), prepare and submit, directly to the President for review and transmittal to Congress, an annual budget estimate (including an estimate of the number and type of personnel needs for the Institute) for the National Cancer Program, after reasonable opportunity for comment (but without change) by the Secretary, the Director of NIH, and the Institute's advisory council; and (B) may receive from the President and the Office of Management and Budget directly all funds appropriated by Congress for obligation and expenditure by the Institute.

Except as otherwise provided, experts and consultants whose services are obtained under paragraph (5) shall be paid or reimbursed, in accordance with title 5, United States Code, for their travel to and from their place of service and for other expenses associated with their assignment. Such expenses shall not be allowed in connection with the assignment of an expert or consultant whose services are obtained under paragraph (5) unless the expert or consultant has agreed in writing to complete the entire period of the assignment or one year of the assignment, whichever is shorter, unless separated or reassigned for reasons which are beyond the control of the expert or consultant and which are acceptable to the Director of the Institute. If the expert or consultant violates the agreement, the money spent by the United States for such expenses is recoverable from the expert or consultant as a debt due the United States. The Secretary may waive in whole or in part a right of recovery under the preceding sentence.

"NATIONAL CANCER RESEARCH AND DEMONSTRATION CENTERS

"SEC. 414. (a)(1) The Director of the Institute may enter into cooperative agreements with and make grants to public or private nonprofit entities to pay all or part of the cost of planning, establishing, or strengthening, and providing basic operating support for centers for basic and clinical research into, training in, and demonstration of advanced diagnostic, prevention, and treatment methods for cancer.

"(2) A cooperative agreement or grant under paragraph (1) shall be entered into in accordance with policies established by the Director of NIH and after consultation with the Institute's advisory council.

"(b) Federal payments made under a cooperative agreement or grant under subsection (a) may be used for—

"(1) construction (notwithstanding any limitation under section 496);

"(2) staffing and other basic operating costs, including such patient care costs as are required for research;

"(3) clinical training, including training for allied health professionals, continuing education for health professionals and allied health professions personnel, and information programs for the public respecting cancer; and

"(4) demonstration purposes.

As used in this paragraph, the term 'construction' does not include the acquisition of land, and the term 'training' does not include research training for which National Research Service Awards may be provided under section 487.

"(c) Support of a center under subsection (a) may be for a period of not to exceed five years. Such period may be extended by the Director for additional periods of not more than five years each if the operations of such center have been reviewed by an appropriate technical and scientific peer review group established by the Director and if such group has recommended to the Director that such period should be extended.

"PRESIDENT'S CANCER PANEL

"SEC. 415. (a)(1) The President's Cancer Panel (hereafter in this section referred to as the 'Panel') shall be composed of three persons appointed by the President who by virtue of their training, experience, and background are exceptionally qualified to appraise the National Cancer Program. At least two members of the Panel shall be distinguished scientists or physicians.

"(2)(A) Members of the Panel shall be appointed for three-year terms, except that (i) any member appointed to fill a vacancy occurring prior to the expiration of the term for which the member's predecessor was appointed shall be appointed only for the remainder of such term, and (ii) a member may serve until the member's successor has taken office. If a vacancy occurs in the Panel, the President shall make an appointment to fill the vacancy not later than 90 days after the date the vacancy occurred.

"(B) The President shall designate one of the members to serve as the chairman of the Panel for a term of one year.

"(C) Members of the Panel shall each be entitled to receive the daily equivalent of the annual rate of basic pay in effect for grade GS-18 of the General Schedule for each day (including traveltime) during which they are engaged in the actual performance of duties as members of the Panel and shall be paid or reimbursed, in accordance with title 5, United States Code, for their travel to and from their place of service and for other expenses associated with their assignment.

"(3) The Panel shall meet at the call of the chairman, but not less often than four times a year. A transcript shall be kept of the proceedings of each meeting of the Panel, and the chairman shall make such transcript available to the public.

"(b) The Panel shall monitor the development and execution of the activities of the National Cancer Program, and shall report directly to the President. Any delays or blockages in rapid execution of the Program shall immediately be brought to the attention of the President. The Panel shall submit to the President periodic progress reports on the National Cancer Program and shall submit to the President, the Secretary, and the Congress an annual evaluation of the efficacy of the Program and suggestions for improvements, and shall submit such other reports as the President shall direct.

"ASSOCIATE DIRECTOR FOR PREVENTION

"SEC. 416. (a) There shall be in the Institute an Associate Director for Prevention to coordinate and promote the programs in the Institute concerning the prevention of cancer. The Associate Director shall be appointed by the Director of the Institute from individuals who because of their professional training or experience are experts in public health or preventive medicine.

"(b) The Associate Director for Prevention shall prepare for inclusion in the biennial report made under section 407 a description of the prevention activities of the Institute, including a description of the staff and resources allocated to those activities.

"Subpart 2—National Heart, Lung, and Blood Institute

"PURPOSE OF THE INSTITUTE

"SEC. 418. The general purpose of the National Heart, Lung, and Blood Institute (hereafter in this subpart referred to as the 'Institute') is the conduct and support of research, training, health information dissemination, and other programs with respect to heart, blood vessel, lung, and blood diseases and with respect to the use of blood and blood products and the management of blood resources.

"HEART, BLOOD VESSEL, LUNG, AND BLOOD DISEASE PREVENTION AND CONTROL PROGRAMS

"SEC. 419. The Director of the Institute, under policies established by the Director of NIH and after consultation with the advisory council for the Institute, shall establish programs as necessary for cooperation with other Federal health agencies, State, local, and regional public health agencies, and nonprofit private health agencies in the diagnosis, prevention, and treatment (including the provision of emergency medical services) of heart, blood vessel, lung, and blood diseases, appropriately emphasizing the prevention, diagnosis, and treatment of such diseases of children.

"INFORMATION AND EDUCATION

"SEC. 420. The Director of the Institute shall collect, identify, analyze, and disseminate on a timely basis, through publications and other appropriate means, to patients, families of patients, physicians and other health professionals, and the general public, information on research, prevention, diagnosis, and treatment of heart, blood vessel, lung, and blood diseases, the maintenance of health to reduce the incidence of such diseases, and on the use of blood and blood products and the management of blood resources. In carrying out this section the Director of the Institute shall place special emphasis upon—

"(1) the dissemination of information regarding diet and nutrition, environmental pollutants, exercise, stress, hypertension, cigarette smoking, weight control, and other factors affecting the prevention of arteriosclerosis and other cardiovascular diseases and of pulmonary and blood diseases; and

"(2) the dissemination of information designed to encourage children to adopt healthful habits respecting the risk factors related to the prevention of such diseases.

"NATIONAL HEART, BLOOD VESSEL, LUNG, AND BLOOD DISEASES AND BLOOD RESOURCES PROGRAM

"SEC. 421. (a)(1) The National Heart, Blood Vessel, Lung, and Blood Diseases and Blood Resources Program (hereafter in this subpart referred to as the 'Program') may provide for—

"(A) investigation into the epidemiology, etiology, and prevention of all forms and aspects of heart, blood vessel, lung, and blood diseases, including investigations into the social, environmental, behavioral, nutritional biological, and genetic determinants and influences involved in the epidemiology, etiology, and prevention of such diseases;

"(B) studies and research into the basic biological processes and mechanisms involved in the underlying normal and abnormal heart, blood vessel, lung, and blood phenomena;

"(C) research into the development, trial, and evaluation of techniques, drugs, and devices (including computers) used in, and approaches to, the diagnosis, treatment (including the provision of emergency medical

services), and prevention of heart, blood vessel, lung, and blood diseases and the rehabilitation of patients suffering from such diseases;

"(D) establishment of programs that will focus and apply scientific and technological efforts involving the biological, physical, and engineering sciences to all facets of heart, blood vessel, lung, and blood diseases with emphasis on the refinement, development, and evaluation of technological devices that will assist, replace, or monitor vital organs and improve instrumentation for detection, diagnosis, and treatment of such diseases;

"(E) establishment of programs for the conduct and direction of field studies, large-scale testing and evaluation, and demonstration of preventive, diagnostic, therapeutic, and rehabilitative approaches to, and emergency medical services for, such diseases;

"(F) studies and research into blood diseases and blood, and into the use of blood for clinical purposes and all aspects of the management of blood resources in the United States, including the collection, preservation, fractionation, and distribution of blood and blood products;

"(G) the education (including continuing education) and training of scientists, clinical investigators, and educators, in fields and specialties (including computer sciences) requisite to the conduct of clinical programs respecting heart, blood vessel, lung, and blood diseases and blood resources;

"(H) public and professional education relating to all aspects of such diseases, including the prevention of such diseases, and the use of blood and blood products and the management of blood resources;

"(I) establishment of programs for study and research into heart, blood vessel, lung, and blood diseases of children (including cystic fibrosis, hyaline membrane, hemolytic diseases such as sickle cell anemia and Cooley's anemia, and hemophilic diseases) and for the development and demonstration of diagnostic, treatment, and preventive approaches to such diseases; and

"(J) establishment of programs for study, research, development, demonstrations and evaluation of emergency medical services for people who become critically ill in connection with heart, blood vessel, lung, or blood diseases.

"(2) The Program shall be coordinated with other national research institutes to the extent that they have responsibilities respecting such diseases and shall give special emphasis to the continued development in the Institute of programs related to the causes of stroke and to effective coordination of such programs with related stroke programs in the National Institute of Neurological and Communicative Disorders and Stroke. The Director of the Institute, with the advice of the advisory council for the Institute, shall revise annually the plan for the Program and shall carry out the Program in accordance with such plan.

"(b) In carrying out the Program, the Director of the Institute, under policies established by the Director of NIH—

"(1) may, after approval of the advisory council for the Institute, obtain (in accordance with section 3109 of title 5, United States Code, but without regard to the limitation in such section on the period of such service) the services of not more than one hundred experts or consultants who have scientific or professional qualifications;

"(2)(A) may, in consultation with the advisory council for the Institute, acquire and construct, improve, repair, operate, alter, renovate, and maintain, heart, blood vessel, lung, and blood disease and blood resource laboratory, research, training, and other facilities, equipment, and such other real or personal property as the Director determines necessary;

"(B) may, in consultation with the advisory council for the Institute, make grants for construction or renovation of facilities; and

"(C) may, in consultation with the advisory council for the Institute, acquire, without regard to the Act of March 3, 1877 (40 U.S.C. 34), by lease or otherwise, through the Administrator of General Services, buildings or parts of buildings in the District of Columbia or communities located adjacent to the District of Columbia for the use of the Institute for a period not to exceed ten years;

"(3) subject to section 405(b)(2) and without regard to section 3324 of title 31, United States Code, and section 3709 of the Revised Statutes (41 U.S.C. 5), may enter into such contracts, leases, cooperative agreements, or other transactions, as may be necessary in the conduct of the Director's functions, with any public agency, or with any person, firm, association, corporation, or educational institutions; and

"(4) may make grants to public and nonprofit private entities to assist in meeting the cost of the care of patients in hospitals, clinics, and related facilities who are participating in research projects.

Except as otherwise provided, experts and consultants whose services are obtained under paragraph (1) shall be paid or reimbursed, in accordance with title 5, United States Code, for their travel to and from their place of service and for other expenses associated with their assignment. Such expenses shall not be allowed in connection with the assignment of an expert or consultant whose services are obtained under paragraph (1) unless the expert or consultant has agreed in writing to complete the entire period of the assignment or one year of the assignment, whichever is shorter, unless separated or reassigned for reasons which are beyond the control of the expert or consultant and which are acceptable to the Director of the Institute. If the expert or consultant violates the agreement, the money spent by the United States for such expenses is recoverable from the expert or consultant as a debt due the United States. The Secretary may waive in whole or in part a right of recovery under the preceding sentence.

"NATIONAL RESEARCH AND DEMONSTRATION CENTERS FOR HEART, BLOOD VESSEL, LUNG, AND BLOOD DISEASES, SICKLE CELL ANEMIA, AND BLOOD RESOURCES

"SEC. 422. (a)(1) The Director of the Institute may provide, in accordance with subsection (c), for the development of—

"(A) ten centers for basic and clinical research into, training in, and demonstration of, advanced diagnostic, prevention, and treatment methods (including methods of providing emergency medical services) for heart and blood vessel diseases;

"(B) ten centers for basic and clinical research into, training in, and demonstration of, advanced diagnostic, prevention, and treatment methods (including methods of providing emergency medical services) for lung diseases (including bronchitis, emphysema, asthma, cystic fibrosis, and other lung diseases of children); and

"(C) ten centers for basic and clinical research into, training in, and demonstration of, advanced diagnostic, prevention, and treatment methods (including methods of providing emergency medical services) for blood diseases and research into blood, in the use of blood products and in the management of blood resources.

"(2) The centers developed under paragraph (1) shall, in addition to being utilized for research, training, and demonstrations, be utilized for the following prevention programs for cardiovascular, pulmonary, and blood diseases:

"(A) Programs to develop improved methods of detecting individuals with a high risk of developing cardiovascular, pulmonary, and blood diseases.

"(B) Programs to develop improved methods of intervention against those factors which cause individuals to have a high risk of developing such diseases.

"(C) Programs to develop health professions and allied health professions personnel highly skilled in the prevention of such diseases.

"(D) Programs to develop improved methods of providing emergency medical services for persons with such diseases.

"(E) Programs of continuing education for health and allied health professionals in the diagnosis, prevention, and treatment of such diseases and the maintenance of health to reduce the incidence of such diseases and information programs for the public respecting the prevention and early diagnosis and treatment of such diseases and the maintenance of health.

"(3) The research, training, and demonstration activities carried out through any such center may relate to any one or more of the diseases referred to in paragraph (1) of this subsection.

"(b) The Director of the Institute shall provide, in accordance with subsection (c), for the development of ten centers for basic and clinical research into the diagnosis, treatment, and control of sickle cell anemia.

"(c)(1) The Director of the Institute may enter into cooperative agreements with and make grants to public or private nonprofit entities to pay all or part of the cost of planning, establishing, or strengthening, and providing basic operating support for centers for basic and clinical research into, training in, and demonstration of the management of blood resources and advanced diagnostic, prevention, and treatment methods for heart, blood vessel, lung, or blood diseases.

"(2) A cooperative agreement or grant under paragraph (1) shall be entered into in accordance with policies established by the Director of NIH and after consultation with the Institute's advisory council.

"(3) Federal payments made under a cooperative agreement or grant under paragraph (1) may be used for—

"(A) construction (notwithstanding any limitation under section 496);

"(B) staffing and other basic operating costs, including such patient care costs as are required for research;

"(C) training, including training for allied health professionals; and

"(D) demonstration purposes.

As used in this subsection, the term 'construction' does not include the acquisition of land, and the term 'training' does not include research training for which National Research Service Awards may be provided under section 487.

"(4) Support of a center under paragraph (1) may be for a period of not to exceed five years. Such period may be extended by the Director for additional periods of not more than five years each if the operations of

such center have been reviewed by an appropriate technical and scientific peer review group established by the Director and if such group has recommended to the Director that such period should be extended.

"INTERAGENCY TECHNICAL COMMITTEE

"SEC. 423. (a) The Secretary shall establish an Interagency Technical Committee on Heart, Blood Vessel, Lung and Blood Diseases and Blood Resources which shall be responsible for coordinating those aspects of all Federal health programs and activities relating to heart, blood vessel, lung, and blood diseases and blood resources to assure the adequacy and technical soundness of such programs and activities and to provide for the full communication and exchange of information necessary to maintain adequate coordination of such programs and activities.

"(b) The Director of the Institute shall serve as chairman of the Committee and the Committee shall include representation from all Federal departments and agencies whose programs involve health functions or responsibilities relevant to the functions of the Committee, as determined by the Secretary.

"ASSOCIATE DIRECTOR FOR PREVENTION

"SEC. 424. (a) There shall be in the Institute an Associate Director for Prevention to coordinate and promote the programs in the Institute concerning the prevention of heart, blood vessel, lung, and blood diseases. The Associate Director shall be appointed by the Director of the Institute from individuals who because of their professional training or experience are experts in public health or preventive medicine.

"(b) The Associate Director for Prevention shall prepare for inclusion in the biennial report made under section 407 a description of the prevention activities of the Institute, including a description of the staff and resources allocated to those activities.

"Subpart 3—National Institute of Diabetes and Digestive and Kidney Diseases

"PURPOSE OF THE INSTITUTE

"SEC. 426. The general purpose of the National Institute of Diabetes and Digestive and Kidney Diseases (hereafter in this subpart referred to as the 'Institute') is the conduct and support of research, training, health information dissemination, and other programs with respect to diabetes mellitus and endocrine and metabolic diseases, digestive diseases and nutritional disorders, and kidney, urologic, and hematologic diseases.

"DATA SYSTEMS AND INFORMATION CLEARINGHOUSES

"SEC. 427. (a) The Director of the Institute shall (1) establish the National Diabetes Data System for the collection, storage, analysis, retrieval, and dissemination of data derived from patient populations with diabetes, including, where possible, data involving general populations for the purpose of detection of individuals with a risk of developing diabetes, and (2) establish the National Diabetes Information Clearinghouse to facilitate and enhance knowledge and understanding of diabetes on the part of health professionals, patients, and the public through the effective dissemination of information.

"(b) The Director of the Institute shall (1) establish the National Digestive Diseases Data System for the collection, storage, analysis, retrieval, and dissemination of data derived from patient populations with digestive diseases, including, where possible, data involving general populations for the purpose of detection of individuals with a risk of developing digestive diseases, and (2) establish the National Digestive Diseases Information Clearinghouse to facilitate and enhance knowledge and understanding of digestive diseases on the part of health professionals, patients, and the public through the effective dissemination of information.

"(c) The Director of the Institute shall (1) establish the National Kidney and Urologic Diseases Data System for the collection, storage, analysis, retrieval, and dissemination of data derived from patient populations with kidney and urologic diseases, including, where possible, data involving general populations for the purpose of detection of individuals with a risk of developing kidney and urologic diseases and (2) establish the National Kidney and Urologic Diseases Information Clearinghouse to facilitate and enhance knowledge and understanding of kidney and urologic diseases on the part of health professionals, patients, and the public through the effective dissemination of information.

"DIVISION DIRECTORS FOR DIABETES, ENDOCRINOLOGY, AND METABOLIC DISEASES, DIGESTIVE DISEASES AND NUTRITION, AND KIDNEY, UROLOGIC, AND HEMATOLOGIC DISEASES

"SEC. 428. (a)(1) In the Institute there shall be a Division Director for Diabetes, Endocrinology, and Metabolic Diseases, a Division Director for Digestive Diseases and Nutrition, and a Division Director for Kidney, Urologic, and Hematologic Diseases. Such Division Directors, under the supervision of the Director of the Institute, shall be responsible for—

"(A) developing a coordinated plan (including recommendations for expenditures) for each of the national research institutes within the National Institutes of Health with respect to research and training concerning diabetes, endocrine and metabolic diseases, digestive diseases and nutrition, and kidney, urologic, and hematologic diseases;

"(B) assessing the adequacy of management approaches for the activities within such institutes concerning such diseases and nutrition and developing improved approaches if needed;

"(C) monitoring and reviewing expenditures by such institutes concerning such diseases and nutrition; and

"(D) identifying research opportunities concerning such diseases and nutrition and recommending ways to utilize such opportunities.

"(2) The Director of the Institute shall transmit to the Director of NIH the plans, recommendations, and reviews of the Division Directors under subparagraphs (A) through (D) of paragraph (1) together with such comments and recommendations as the Director of the Institute determines appropriate.

"(b) The Director of the Institute, acting through the the Division Director for Diabetes, Endocrinology, and Metabolic Diseases, the Division Director for Digestive Diseases and Nutrition, and the Division Director for Kidney, Urologic, and Hematologic Diseases, shall—

"(1) carry out programs of support for research and training (other than training for which National Research Service Awards may be made under section 487) in the diagnosis, prevention, and treatment of diabetes mellitus and endocrine and metabolic diseases, digestive diseases and nutritional disorders, and kidney, urologic, and hematologic diseases, including support for training in medical schools, graduate clinical training, graduate training in epidemiology, epidemiology studies, clinical trials, and interdisciplinary research programs; and

"(2) establish programs of evaluation, planning, and dissemination of knowledge related to such research and training.

"INTERAGENCY COORDINATING COMMITTEES

"SEC. 429. (a) For the purpose of—

"(1) better coordination of the research activities of all the national research institutes relating to diabetes mellitus, digestive diseases, and kidney, urologic, and hematologic diseases; and

"(2) coordinating those aspects of all Federal health programs and activities relating to such diseases to assure the adequacy and technical soundness of such programs and activities and to provide for the full communication and exchange of information necessary to maintain adequate coordination of such programs and activities;

the Secretary shall establish a Diabetes Mellitus Interagency Coordinating Committee, a Digestive Diseases Interagency Coordinating Committee, and a Kidney, Urologic, and Hematologic Diseases Coordinating Committee (hereafter in this section individually referred to as a 'Committee').

"(b) Each Committee shall be composed of the Directors of each of the national research institutes and divisions involved in research with respect to the diseases for which the Committee is established, the Division Director of the Institute for the diseases for which the Committee is established, the Chief Medical Director of the Veterans' Administration, and the Assistant Secretary of Defense for Health Affairs (or the designees of such officers) and shall include representation from all other Federal departments and agencies whose programs involve health functions or responsibilities relevant to such diseases, as determined by the Secretary. Each Committee shall be chaired by the Director of NIH (or the designee of the Director). Each Committee shall meet at the call of the chairman, but not less often than four times a year.

"(c) Each Committee shall prepare an annual report for—

"(1) the Secretary;

"(2) the Director of NIH; and

"(3) the Advisory Board established under section 430 for the diseases for which the Committee was established,

detailing the work of the Committee in carrying out paragraphs (1) and (2) of subsection (a) in the fiscal year for which the report was prepared. Such report shall be submitted not later than 120 days after the end of each fiscal year.

"ADVISORY BOARDS

"SEC. 430. (a) The Secretary shall establish in the Institute the National Diabetes Advisory Board, the National Digestive Diseases Advisory Board, and the National Kidney and Urologic Diseases Advisory Board (hereafter in this section individually referred to as an 'Advisory Board').

"(b) Each Advisory Board shall be composed of eighteen appointed members and nonvoting ex officio members as follows:

"(1) The Secretary shall appoint—

"(A) twelve members from individuals who are scientists, physicians, and other health professionals, who are not officers or employees of the United States, and who represent the specialties and disciplines relevant to the diseases with respect to which the Advisory Board is established; and

"(B) six members from the general public who are knowledgeable with respect to such diseases, including at least one member who

is a person who has such a disease and one member who is a parent of a person who has such a disease.

Of the appointed members at least five shall by virtue of training or experience be knowledgeable in the fields of health education, nursing, data systems, public information, and community program development.

"(2)(A) The following shall be ex officio members of each Advisory Board:

"(i) The Assistant Secretary for Health, the Director of NIH, the Director of the National Institute of Diabetes and Digestive and Kidney Diseases, the Director of the Centers for Disease Control, the Chief Medical Director of the Veterans' Administration, the Assistant Secretary of Defense for Health Affairs, and the Division Director of the National Institute of Diabetes and Digestive and Kidney Diseases for the diseases for which the Board is established (or the designees of such officers).

"(ii) Such other officers and employees of the United States as the Secretary determines necessary for the Advisory Board to carry out its functions.

"(B) In the case of the National Diabetes Advisory Board, the following shall also be ex officio members: The Director of the National Heart, Lung, and Blood Institute, the Director of the National Eye Institute, the Director of the National Institute of Child Health and Human Development, and the Administrator of the Health Resources and Services Administration (or the designees of such officers).

"(c) Members of an Advisory Board who are officers or employees of the Federal Government shall serve as members of the Advisory Board without compensation in addition to that received in their regular public employment. Other members of the Board shall receive compensation at rates not to exceed the daily equivalent of the annual rate in effect for grade GS-18 of the General Schedule for each day (including traveltime) they are engaged in the performance of their duties as members of the Board.

"(d) The term of office of an appointed member of an Advisory Board is four years, except that no term of office may extend beyond the expiration of the Advisory Board. Any member appointed to fill a vacancy for an unexpired term shall be appointed for the remainder of such term. A member may serve after the expiration of the member's term until a successor has taken office. If a vacancy occurs in an Advisory Board, the Secretary shall make an appointment to fill the vacancy not later than 90 days from the date the vacancy occurred.

"(e) The members of each Advisory Board shall select a chairman from among the appointed members.

"(f) The Secretary shall, after consultation with and consideration of the recommendations of an Advisory Board, provide the Advisory Board with an executive director and one other professional staff member. In addition, the Secretary shall, after consultation with and consideration of the recommendations of the Advisory Board, provide the Advisory Board with such additional professional staff members, such clerical staff members, such services of consultants, such information, and (through contracts or other arrangements) such administrative support services and facilities, as the Secretary determines are necessary for the Advisory Board to carry out its functions.

"(g) Each Advisory Board shall meet at the call of the chairman or upon request of the Director of the Institute, but not less often than four times a year.

"(h) The National Diabetes Advisory Board and the National Digestive Diseases Advisory Board shall—

"(1) review and evaluate the implementation of the plan (referred to in section 433) respecting the diseases with respect to which the Advisory Board was established and periodically update the plan to ensure its continuing relevance;

"(2) for the purpose of assuring the most effective use and organization of resources respecting such diseases, advise and make recommendations to the Congress, the Secretary, the Director of NIH, the Director of the Institute, and the heads of other appropriate Federal agencies for the implementation and revision of such plan; and

"(3) maintain liaison with other advisory bodies related to Federal agencies involved in the implementation of such plan, the coordinating committee for such diseases, and with key non-Federal entities involved in activities affecting the control of such diseases.

"(i) In carrying out its functions, each Advisory Board may establish subcommittees, convene workshops and conferences, and collect data. Such subcommittees may be composed of Advisory Board members and nonmember consultants with expertise in the particular area addressed by such subcommittees. The subcommittees may hold such meetings as are necessary to enable them to carry out their activities.

"(j) Each Advisory Board shall prepare an annual report for the Secretary which—

"(1) describes the Advisory Board's activities in the fiscal year for which the report is made;

"(2) describes and evaluates the progress made in such fiscal year in research, treatment, education, and training with respect to the diseases with respect to which the Advisory Board was established;

"(3) summarizes and analyzes expenditures made by the Federal Government for activities respecting such diseases in such fiscal year; and

"(4) contains the Advisory Board's recommendations (if any) for changes in the plan referred to in section 433.

"(k) Each Advisory Board shall expire on September 30, 1988.

"(l) The National Diabetes Advisory Board and the National Digestive Diseases Advisory Board in existence on the date of enactment of the Health Research Extension Act of 1985 shall terminate upon the appointment of a successor Board under subsection (a). The Secretary shall make appointments to the Advisory Boards established under subsection (a) before the expiration of 90 days after such date. The members of the Boards in existence on such date may be appointed, in accordance with subsections (b) and (d), to the Boards established under subsection (a) for diabetes and digestive diseases, except that at least one-half of the members of the National Diabetes Advisory Board in existence on the date of enactment of the Health Research Extension Act of 1985 shall be appointed to the National Diabetes Advisory Board first established under subsection (a).

"RESEARCH AND TRAINING CENTERS

"SEC. 431. (a)(1) Consistent with applicable recommendations of the National Commission on Diabetes, the Director of the Institute shall provide for the development or substantial expansion of centers for research and training in diabetes mellitus and related endocrine and metabolic diseases. Each center developed or expanded under this subsection shall—

"(A) utilize the facilities of a single institution, or be formed from a consortium of cooperating institutions, meeting such research and training qualifications as may be prescribed by the Secretary; and

"(B) conduct—

"(i) research in the diagnosis and treatment of diabetes mellitus and related endocrine and metabolic diseases and the complications resulting from such diseases;

"(ii) training programs for physicians and allied health personnel in current methods of diagnosis and treatment of such diseases and complications, and in research in diabetes; and

"(iii) information programs for physicians and allied health personnel who provide primary care for patients with such diseases or complications.

"(2) A center may use funds provided under paragraph (1) to provide stipends for nurses and allied health professionals enrolled in research training programs described in paragraph (1)(B)(ii).

"(b) Consistent with applicable recommendations of the National Digestive Diseases Advisory Board, the Director shall provide for the development or substantial expansion of centers for research in digestive diseases and related functional, congenital, metabolic disorders, and normal development of the digestive tract. Each center developed or expanded under this subsection—

"(1) shall utilize the facilities of a single institution, or be formed from a consortium of cooperating institutions, meeting such research qualifications as may be prescribed by the Secretary;

"(2) shall develop and conduct basic and clinical research into the cause, diagnosis, early detection, prevention, control, and treatment of digestive diseases and nutritional disorders and related functional, congenital, or metabolic complications resulting from such diseases or disorders;

"(3) shall encourage research into and programs for—

"(A) providing information for patients with such diseases and the families of such patients, physicians and others who care for such patients, and the general public;

"(B) model programs for cost effective and preventive patient care; and

"(C) training physicians and scientists in research on such diseases, disorders, and complications; and

"(4) may perform research and participate in epidemiological studies and data collection relevant to digestive diseases and disorders and disseminate such research, studies, and data to the health care profession and to the public.

"(c) The Director shall provide for the development or substantial expansion of centers for research in kidney and urologic diseases. Each center developed or expanded under this subsection—

"(1) shall utilize the facilities of a single institution, or be formed from a consortium of cooperating institutions, meeting such research qualifications as may be prescribed by the Secretary;

"(2) shall develop and conduct basic and clinical research into the cause, diagnosis, early detection, prevention, control, and treatment of kidney and urologic diseases;

"(3) shall encourage research into and programs for—

"(A) providing information for patients with such diseases, disorders, and complications and the families of such patients, physicians and others who care for such patients, and the general public;

"(B) model programs for cost effective and preventive patient care; and

"(C) training physicians and scientists in research on such diseases; and

"(4) may perform research and participate in epidemiological studies and data collection relevant to kidney and urologic diseases in order to disseminate such research, studies, and data to the health care profession and to the public.

"(d) Insofar as practicable, centers developed or expanded under this section should be geographically dispersed throughout the United States and in environments with proven research capabilities. Support of a center under this section may be for a period of not to exceed five years and such period may be extended by the Director of the Institute for additional periods of not more than five years each if the operations of such center have been reviewed by an appropriate technical and scientific peer review group established by the Director and if such group has recommended to the Director that such period should be extended.

"ADVISORY COUNCIL SUBCOMMITTEES

"SEC. 432. There are established within the advisory council for the Institute appointed under section 406 a subcommittee on diabetes and endocrine and metabolic diseases, a subcommittee on digestive diseases and nutrition, and a subcommittee on kidney, urologic, and hematologic diseases. The subcommittees shall be composed of members of the advisory council who are outstanding in the diagnosis, prevention, and treatment of the diseases for which the subcommittees are established and members of the advisory council who are leaders in the fields of education and public affairs. The subcommittees are authorized to review applications made to the Director of the Institute for grants for research and training projects relating to the diagnosis, prevention, and treatment of the diseases for which the subcommittees are established and shall recommend to the advisory council those applications and contracts that the subcommittees determine will best carry out the purposes of the Institute. The subcommittees shall also review and evaluate the diabetes and endocrine and metabolic diseases, digestive diseases and nutrition, and kidney, urologic, and hematologic diseases programs of the Institute and recommend to the advisory council such changes in the administration of such programs as the subcommittees determine are necessary.

"BIENNIAL REPORT

"SEC. 433. The Director of the Institute shall prepare for inclusion in the biennial report made under section 407 a description of the Institute's activities—

"(1) under the current diabetes plan under the National Diabetes Mellitus Research and Education Act; and

"(2) under the current digestive diseases plan formulated under the Arthritis, Diabetes, and Digestive Diseases Amendments of 1976.

The description submitted by the Director shall include an evaluation of the activities of the centers supported under section 431.

"Subpart 4—National Institute of Arthritis and Musculoskeletal and Skin Diseases

"PURPOSE OF THE INSTITUTE

"SEC. 435. The general purpose of the National Institute of Arthritis and Musculoskeletal and Skin Diseases (hereafter in this subpart referred to as the 'Institute') is the conduct and support of research and training, the dissemination of health information, and other programs with respect to arthritis and musculoskeletal and skin diseases, including sports-related disorders.

"NATIONAL ARTHRITIS AND MUSCULOSKELETAL DISEASES PROGRAM

"SEC. 436. (a) The Director of the Institute, with the advice of the Institute's advisory council, shall prepare and transmit to the Director of NIH a plan for a national arthritis and musculoskeletal diseases program to expand, intensify, and coordinate the activities of the Institute respecting arthritis and musculoskeletal diseases. The plan shall include such comments and recommendations as the Director of the Institutes determines appropriate. The Director of the Institute shall periodically review and revise such plan and shall transmit any revisions of such plan to the Director of NIH.

"(b) Activities under the national arthritis and musculoskeletal diseases program shall be coordinated with the other national research institutes to the extent that such institutes have responsibilities respecting arthritis and musculoskeletal diseases, and shall, at least, provide for—

"(1) investigation into the epidemiology, etiology, and prevention of all forms of arthritis and musculoskeletal diseases, including sports-related disorders, primarily through the support of basic research in such areas as immunology, genetics, biochemistry, microbiology, physiology, bioengineering, and any other scientific discipline which can contribute important knowledge to the treatment and understanding of arthritis and musculoskeletal diseases;

"(2) research into the development, trial, and evaluation of techniques, drugs, and devices used in the diagnosis, treatment, including medical rehabilitation and prevention of arthritis and musculoskeletal diseases;

"(3) research on the refinement, development, and evaluation of technological devices that will replace or be a substitute for damaged bone, muscle, and joints and other supporting structures; and

"(4) the establishment of mechanisms to monitor the causes of athletic injuries and identify ways of preventing such injuries on scholastic athletic fields.

"(c) The Director of the Institute shall carry out the national arthritis and musculoskeletal diseases program in accordance with the plan prepared under subsection (a) and any revisions of such plan made under such subsection.

"RESEARCH AND TRAINING

"SEC. 437. The Director of the Institute shall—

"(1) carry out programs of support for research and training (other than training for which National Research Service Awards may be made under section 487) in the diagnosis, prevention, and treatment of arthritis and musculoskeletal and skin diseases, including support for training in medical schools, graduate clinical training, graduate training in epidemiology, epidemiology studies, clinical trials, and interdisciplinary research programs; and

"(2) establish programs of evaluation, planning, and dissemination of knowledge related to such research and training.

"DATA SYSTEM AND INFORMATION CLEARINGHOUSE

"SEC. 438. (a) The Director of the Institute shall establish the National Arthritis and Musculoskeletal and Skin Diseases Data System for the collection, storage, analysis, retrieval, and dissemination of data derived from patient populations with arthritis and musculoskeletal and skin diseases, including where possible, data involving general populations for the purpose of detection of individuals with a risk of developing arthritis and musculoskeletal and skin diseases.

"(b) The Director of the Institute shall establish the National Arthritis and Musculoskeletal and Skin Diseases Information Clearinghouse to facilitate and enhance, through the effective dissemination of information, knowledge and understanding of arthritis and musculoskeletal and skin diseases by health professionals, patients, and the public.

"INTERAGENCY COORDINATING COMMITTEES

"SEC. 439. (a) For the purpose of—

"(1) better coordination of the research activities of all the national research institutes relating to arthritis, musculoskeletal diseases, and skin diseases, including sports-related disorders; and

"(2) coordinating the aspects of all Federal health programs and activities relating to arthritis, musculoskeletal diseases, and skin diseases in order to assure the adequacy and technical soundness of such programs and activities and in order to provide for the full communication and exchange of information necessary to maintain adequate coordination of such programs and activities,

the Secretary shall establish an Arthritis and Musculoskeletal Diseases Interagency Coordinating Committee and a Skin Diseases Interagency Coordinating Committee (hereafter in this section individually referred to as a 'Committee').

"(b) Each Committee shall be composed of the Directors of each of the national research institutes and divisions involved in research regarding the diseases with respect to which the Committee is established, the Chief Medical Director of the Veterans' Administration, and the Assistant Secretary of Defense for Health Affairs (or the designees of such officers), and representatives of all other Federal departments and agencies (as determined by the Secretary) whose programs involve health functions or responsibilities relevant to arthritis and musculoskeletal diseases or skin diseases, as the case may be. Each Committee shall be chaired by the Director of NIH (or the designee of the Director). Each Committee shall meet at the call of the chairman, but not less often than four times a year.

"(c) Not later than 120 days after the end of each fiscal year, each Committee shall prepare and transmit to the Secretary, the Director of NIH, the Director of the Institute, and the advisory council for the Institute a report detailing the activities of the Committee in such fiscal year in carrying out paragraphs (1) and (2) of subsection (a).

"ARTHRITIS AND MUSCULOSKELETAL DISEASES DEMONSTRATION PROJECTS

"SEC. 440. (a) The Director of the Institute may make grants to public and private nonprofit entities to establish and support projects for the development and demonstration of methods for screening, detection, and referral for treatment of arthritis and musculoskeletal diseases and for the dissemination of information on such methods to the health and allied health professions. Activities under such projects shall be coordinated with Federal, State, local, and regional health agencies, centers assisted under section 441, and the data system established under subsection (c).

"(b) Projects supported under this section shall include—

"(1) programs which emphasize the development and demonstration of new and improved methods of screening and early de-

tection, referral for treatment, and diagnosis of individuals with a risk of developing arthritis and musculoskeletal diseases;

"(2) programs which emphasize the development and demonstration of new and improved methods for patient referral from local hospitals and physicians to appropriate centers for early diagnosis and treatment;

"(3) programs which emphasize the development and demonstration of new and improved means of standardizing patient data and recordkeeping;

"(4) programs which emphasize the development and demonstration of new and improved methods of dissemination of knowledge about the programs, methods, and means referred to in paragraphs (1), (2), and (3) of this subsection to health and allied health professionals;

"(5) programs which emphasize the development and demonstration of new and improved methods for the dissemination to the general public of information—

"(A) on the importance of early detection of arthritis and musculoskeletal diseases, of seeking prompt treatment, and of following an appropriate regimen; and

"(B) to discourage the promotion and use of unapproved and ineffective diagnostic, preventive treatment, and control methods for arthritis and unapproved and ineffective drugs and devices for arthritis and musculoskeletal diseases; and

"(6) projects for investigation into the epidemiology of all forms and aspects of arthritis and musculoskeletal diseases, including investigations into the social, environmental, behavioral, nutritional, and genetic determinants and influences involved in the epidemiology of arthritis and musculoskeletal diseases.

"(c) The Director shall provide for the standardization of patient data and recordkeeping for the collection, storage, analysis, retrieval, and dissemination of such data in cooperation with projects assisted under this section, centers assisted under section 441, and other persons engaged in arthritis and musculoskeletal disease programs.

"MULTIPURPOSE ARTHRITIS AND MUSCULOSKELETAL DISEASES CENTERS

"SEC. 441. (a) The Director of the Institute shall, after consultation with the advisory council for the Institute, provide for the development, modernization, and operation (including staffing and other operating costs such as the costs of patient care required for research) of new and existing centers for arthritis and musculoskeletal diseases. For purposes of this section, the term 'modernization' means the alteration, remodeling, improvement, expansion, and repair of existing buildings and the provision of equipment for such buildings to the extent necessary to make them suitable for use as centers described in the preceding sentence.

"(b) Each center assisted under this section shall—

"(1)(A) use the facilities of a single institution or a consortium of cooperating institutions, and (B) meet such qualifications as may be prescribed by the Secretary; and

"(2) conduct—

"(A) basic and clinical research into the cause, diagnosis, early detection, prevention, control, and treatment of arthritis and musculoskeletal diseases and complications resulting from arthritis and musculoskeletal diseases, including research into implantable biomaterials and biomechanical and other orthopedic procedures;

"(B) training programs for physicians, scientists, and other health and allied health professionals;

"(C) information and continuing education programs for physicians and other health and allied health professionals who provide care for patients with arthritis and musculoskeletal diseases; and

"(D) programs for the dissemination to the general public of information—

"(i) on the importance of early detection of arthritis and musculoskeletal diseases, of seeking prompt treatment, and of following an appropriate regimen; and

"(ii) to discourage the promotion and use of unapproved and ineffective diagnostic, preventive, treatment, and control methods and unapproved and ineffective drugs and devices.

A center may use funds provided under subsection (a) to provide stipends for health professionals enrolled in training programs described in paragraph (2)(B).

"(c) Each center assisted under this section may conduct programs to—

"(1) establish the effectiveness of new and improved methods of detection, referral, and diagnosis of individuals with a risk of developing arthritis and musculoskeletal diseases;

"(2) disseminate the results of research, screening, and other activities, and develop means of standardizing patient data and recordkeeping; and

"(3) develop community consultative services to facilitate the referral of patients to centers for treatment.

"(d) The Director of the Institute shall, insofar as practicable, provide for an equitable geographical distribution of centers assisted under this section. The Director shall give appropriate consideration to the need for centers especially suited to meeting the needs of children affected by arthritis and musculoskeletal diseases.

"(e) Support of a center under this section may be for a period of not to exceed five years. Such period may be extended by the Director of the Institute for one or more additional periods of not more than five years if the operations of such center have been reviewed by an appropriate technical and scientific peer review group established by the Director and if such group has recommended to the Director that such period should be extended.

"ADVISORY BOARD

"SEC. 442. (a) The Secretary shall establish in the Institute the National Arthritis Advisory Board (hereafter in this section referred to as the 'Advisory Board').

"(b) The Advisory Board shall be composed of eighteen appointed members and nonvoting, ex officio members, as follows:

"(1) The Secretary shall appoint—

"(A) twelve members from individuals who are scientists, physicians, and other health professionals, who are not officers or employees of the United States, and who represent the specialties and disciplines relevant to arthritis, musculoskeletal diseases, and skin diseases; and

"(B) six members from the general public who are knowledgeable with respect to such diseases, including at least one member who is a person who has such a disease and one member who is a parent of a person who has such a disease.

Of the appointed members at least five shall by virtue of training or experience be knowledgeable in health education, nursing, data systems, public information, or community program development.

"(2) The following shall be ex officio members of the Advisory Board:

"(A) The Assistant Secretary for Health, the Director of NIH, the Director of the National Institute of Arthritis and Musculoskeletal and Skin Diseases, the Director of the Centers for Disease Control, the Chief Medical Director of the Veterans' Administration, and the Assistant Secretary of Defense for Health Affairs (or the designees of such officers), and

"(B) such other officers and employees of the United States as the Secretary determines necessary for the Advisory Board to carry out its functions.

"(c) Members of the Advisory Board who are officers or employees of the Federal Government shall serve as members of the Advisory Board without compensation in addition to that received in their regular public employment. Other members of the Advisory Board shall receive compensation at rates not to exceed the daily equivalent of the annual rate in effect for grade GS-18 of the General Schedule for each day (including traveltime) they are engaged in the performance of their duties as members of the Advisory Board.

"(d) The term of office of an appointed member of the Advisory Board is four years. Any member appointed to fill a vacancy for an unexpired term shall be appointed for the remainder of such term. A member may serve after the expiration of the member's term until a successor has taken office. If a vacancy occurs in the Advisory Board, the Secretary shall make an appointment to fill the vacancy not later than 90 days after the date the vacancy occurred.

"(e) The members of the Advisory Board shall select a chairman from among the appointed members.

"(f) The Secretary shall, after consultation with and consideration of the recommendations of the Advisory Board, provide the Advisory Board with an executive director and one other professional staff member. In addition, the Secretary shall, after consultation with and consideration of the recommendations of the Advisory Board, provide the Advisory Board with such additional professional staff members, such clerical staff members, and (through contracts or other arrangements) with such administrative support services and facilities, such information, and such services of consultants, as the Secretary determines are necessary for the Advisory Board to carry out its functions.

"(g) The Advisory Board shall meet at the call of the chairman or upon request of the Director of the Institute, but not less often than four times a year.

"(h) The Advisory Board shall—

"(1) review and evaluate the implementation of the plan prepared under section 436(a) and periodically update the plan to ensure its continuing relevance;

"(2) for the purpose of assuring the most effective use and organization of resources respecting arthritis, musculoskeletal diseases and skin diseases, advise and make recommendations to the Congress, the Secretary, the Director of NIH, the Director of the Institute, and the heads of other appropriate Federal agencies for the implementation and revision of such plan; and

"(3) maintain liaison with other advisory bodies for Federal agencies involved in the implementation of such plan, the interagency coordinating committees for such diseases established under section 439, and with key non-Federal entities involved in

activities affecting the control of such diseases.

"(i) In carrying out its functions, the Advisory Board may establish subcommittees, convene workshops and conferences, and collect data. Such subcommittees may b*** BAD MAG TAPE ***e composed of Advisory Board members and nonmember consultants with expertise in the particular area addressed by such subcommittees. The subcommittees may hold such meetings as are necessary to enable them to carry out their activities.

"(j) The Advisory Board shall prepare an annual report for the Secretary which—

"(1) describes the Advisory Board's activities in the fiscal year for which the report is made;

"(2) describes and evaluates the progress made in such fiscal year in research, treatment, education, and training with respect to arthritis, musculoskeletal diseases, and skin diseases;

"(3) summarizes and analyzes expenditures made by the Federal Government for activities respecting such diseases in such fiscal year for which the report is made; and

"(4) contains the Advisory Board's recommendations (if any) for changes in the plan prepared under section 436(a).

"(k) The National Arthritis Advisory Board in existence on the date of enactment of the Health Research Extension Act of 1985 shall terminate upon the appointment of a successor Board under subsection (a). The Secretary shall make appointments to the Advisory Board established under subsection (a) before the expiration of 90 days after such date. The member of the Board in existence on such date may be appointed, in accordance with subsections (b) and (d), to the Advisory Board established under subsection (a).

"Subpart 5—National Institute on Aging

"PURPOSE OF THE INSTITUTE

"SEC. 443. The general purpose of the National Institute on Aging (hereafter in this subpart referred to as the 'Institute') is the conduct and support of biomedical, social, and behavioral research, training, health information dissemination, and other programs with respect to the aging process and the diseases and other special problems and needs of the aged.

"SPECIAL FUNCTIONS

"SEC. 444. (a) In carrying out the training responsibilities under this Act or any other Act for health and allied health professions personnel, the Secretary shall take appropriate steps to insure the education and training of adequate numbers of allied health, nursing, and paramedical personnel in the field of health care for the aged.

"(b) The Director of the Institute shall conduct scientific studies to measure the impact on the biological, medical, social, and psychological aspects of aging of programs and activities assisted or conducted by the Department of Health and Human Services.

"(c) The Director of the Institute shall carry out public information and education programs designed to disseminate as widehy as possible the findings of research sponsored by the Institute, other relevant aging research and studies, and other information about the process of aging which may assist elderly and near-elderly persons in dealing with, and all Americans in understanding, the problems and processes associated with growing older.

"(d) The Director of the Institute shall make grants to public and private nonprofit institutions to conduct research relating to Alzheimer's Disease.

"ALZHEIMER'S DISEASE CENTERS

"SEC. 445. (a)(1) The Director of the Institute may enter into cooperative agreements with and make grants to public or private nonprofit entities to pay all or part of the cost of planning, establishing, or strengthening, and providing basic operating support for centers for basic and clinical research into, training in, and demonstration of advanced diagnostic, prevention, and treatment methods for Alzheimer's Disease.

"(2) A cooperative agreement or grant under paragraph (1) shall be entered into in accordance with policies established by the Director of NIH and after consultation with the Institute's advisory council.

"(b) Federal payments made under a cooperative agreement or grant under subsection (a) may be used for—

"(1) construction (notwithstanding any limitation under section 496);

"(2) staffing and other basic operating costs, including such patient care costs as are required for research;

"(3) training, including training for allied health professionals; and

"(4) demonstration purposes.

As used in this subsection, the term 'construction' does not include the acquisition of land, and the term 'training' does not include research training for which National Research Service Awards may be provided under section 487.

"(c) Support of a center under subsection (a) may be for a period of not to exceed five years. Such period may be extended by the Director for additional periods of not more than five years each if the operations of such center have been reviewed by an appropriate technical and scientific peer review group established by the Director and if such group has recommended to the Director that such period should be extended.

"Subpart 6—National Institute of Allergy and Infectious Diseases

"PURPOSE OF THE INSTITUTE

"SEC. 446. The general purpose of the National Institute of Allergy and Infectious Diseases is the conduct and support of research, training, health information dissemination, and other programs with respect to allergic and immunologic diseases and disorders and infectious diseases.

"Subpart 7—National Institute of Child Health and Human Development

"PURPOSE OF THE INSTITUTE

"SEC. 448. The general purpose of the National Institute of Child Health and Human Development (hereafter in this subpart referred to as the 'Institute') is the conduct and support of research, training, health information dissemination, and other programs with respect to maternal health, child health, mental retardation, human growth and development, including prenatal development, population research, and special health problems and requirements of mothers and children.

"SUDDEN INFANT DEATH SYNDROME

"SEC. 449. The Director of the Institute shall conduct and support research which specifically relates to sudden infant death syndrome.

"MENTAL RETARDATION RESEARCH

"SEC. 450. The Director of the Institute shall conduct and support research and related activities into the causes, prevention, and treatment of mental retardation.

"ASSOCIATE DIRECTOR FOR PREVENTION

"SEC. 451. (a) There shall be in the Institute an Associate Director for Prevention to coordinate and promote the programs in the Institute concerning the prevention of health problems of mothers and children. The Associate Director shall be appointed by the Director of the Institute from individuals who because of their professional training or experience are experts in public health or preventive medicine.

"(b) The Associate Director for Prevention shall prepare for inclusion in the biennial report made under section 407 a description of the prevention activities of the Institute, including a description of the staff and resources allocated to those activities.

"Subpart 8—National Institute of Dental Research

"PURPOSE OF THE INSTITUTE

"SEC. 453. The general purpose of the National Institute of Dental Research is the conduct and support of research, training, health information dissemination, and other programs with respect to the cause, prevention, and methods of diagnosis and treatment of dental and oral diseases and conditions.

"Subpart 9—National Eye Institute

"PURPOSE OF THE INSTITUTE

"SEC. 455. The general purpose of the National Eye Institute (hereafter in this subpart referred to as the 'Institute') is the conduct and support of research, training, health information dissemination, and other programs with respect to blinding eye diseases, visual disorders, mechanisms of visual function, preservation of sight, and the special health problems and requirements of the blind. The Director of the Institute may carry out a program of grants for public and private nonprofit vision research facilities.

"Subpart 10—National Institute of Neurological and Communicative Disorders and Stroke

"PURPOSE OF THE INSTITUTE

"SEC. 457. The general purpose of the National Institute of Neurological and Communicative Disorders and Stroke (hereafter in this subpart referred to as the 'Institute') is the conduct and support of research, training, health information dissemination, and other programs with respect to neurological disease and disorder, stroke, and disorders of human communication.

"SPINAL CORD REGENERATION RESEARCH

"SEC. 458. The Director of the Institute shall conduct and support research into spinal cord regeneration.

"BIOENGINEERING RESEARCH

"SEC. 459. The Director of the Institute shall make grants or enter into contracts for research on the means to overcome paralysis of the extremities through electrical stimulation and the use of computers.

"Subpart 11—National Institute of General Medical Sciences

"PURPOSE OF THE INSTITUTE

"SEC. 461. The general purpose of the National Institute of General Medical Sciences is the conduct and support of research, training, and, as appropriate, health information dissemination, and other programs with respect to general or basic medical sciences and related natural or behavioral sciences which have significance for two or more other national research institutes or are outside the general area of responsibility of any other national research institute.

51-059 O-86-12 (Pt. 20)

"Subpart 12—National Institute of Environmental Health Sciences

"PURPOSE OF THE INSTITUTE

"SEC. 463. The general purpose of the National Institute of Environmental Health Sciences is the conduct and support of research, training, health information dissemination, and other programs with respect to factors in the environment that affect human health, directly or indirectly.

"PART D—NATIONAL LIBRARY OF MEDICINE

"Subpart 1—General Provisions

"PURPOSE, ESTABLISHMENT, AND FUNCTIONS OF THE NATIONAL LIBRARY OF MEDICINE

"SEC. 465. (a) In order to assist the advancement of medical and related sciences and to aid the dissemination and exchange of scientific and other information important to the progress of medicine and to the public health, there is established the National Library of Medicine (hereafter in this part referred to as the 'Library').

"(b) The Secretary, through the Library and subject to subsection (d), shall—

"(1) acquire and preserve books, periodicals, prints, films, recordings, and other library materials pertinent to medicine;

"(2) organize the materials specified in paragraph (1) by appropriate cataloging, indexing, and bibliographical listings;

"(3) publish and disseminate the catalogs, indexes, and bibliographies referred to in paragraph (2);

"(4) make available, through loans, photographic or other copying procedures, or otherwise, such materials in the Library as the Secretary determines appropriate;

"(5) provide reference and research assistance; and

"(6) engage in such other activities as the Secretary determines appropriate and as the Library's resources permit.

"(c) The Secretary may exchange, destroy, or otherwise dispose of any books, periodicals, films, and other library materials not needed for the permanent use of the Library.

"(d)(1) The Secretary may, after obtaining the advice and recommendations of the Board of Regents, prescribe rules under which the Library will—

"(A) provide copies of its publications or materials,

"(B) will make available its facilities for research, or

"(C) will make available its bibliographic, reference, or other services,

to public and private entities and individuals.

"(2) Rules prescribed under paragraph (1) may provide for making available such publications, materials, facilities, or services—

"(A) without charge as a public service,

"(B) upon a loan, exchange, or charge basis, or

"(C) in appropriate circumstances, under contract arrangements made with a public or other nonprofit entity.

"(e) Whenever the Secretary, with the advice of the Board of Regents, determines that—

"(1) in any geographic area of the United States there is no regional medical library adequate to serve such area;

"(2) under criteria prescribed for the administration of section 475, there is a need for a regional medical library to serve such area; and

"(3) because there is no medical library located in such area which, with financial assistance under section 475, can feasibly be developed into a regional medical library adequate to serve such area,

the Secretary may establish, as a branch of the Library, a regional medical library to serve the needs of such area.

"(f) Section 2101 shall be applicable to the acceptance and administration of gifts made for the benefit of the Library or for carrying out any of its functions, and the Board of Regents shall make recommendations to the Secretary relating to establishment within the Library of suitable memorials to the donors.

"(g) For purposes of this part, the terms 'medicine' and 'medical', except when used in section 466, include preventive and therapeutic medicine, dentistry, pharmacy, hospitalization, nursing, public health, and the fundamental sciences related thereto, and other related fields of study, research, or activity.

"BOARD OF REGENTS

"SEC. 466. (a)(1)(A) The Board of Regents of the National Library of Medicine consists of ex officio members and ten members appointed by the Secretary.

"(B) The ex officio members are the Surgeons General of the Public Health Service, the Army, the Navy, and the Air Force, the Chief Medical Director of the Veterans' Administration, the Dean of the Uniformed Services University of the Health Sciences, the Assistant Director for Biological, Behavioral, and Social Sciences of the National Science Foundation, the Director of the National Agricultural Library, and the Librarian of Congress (or their designees).

"(C) The appointed members shall be selected from among leaders in the various fields of the fundamental sciences, medicine, dentistry, public health, hospital administration, pharmacology, health communications technology, or scientific or medical library work, or in public affairs. At least six of the appointed members shall be selected from among leaders in the fields of medical, dental, or public health research or education.

"(2) The Board shall annually elect one of the appointed members to serve as chairman until the next election. The Secretary shall designate a member of the Library staff to act as executive secretary of the Board.

"(b) The Board shall advise, consult with, and make recommendations to the Secretary on matters of policy in regard to the Library, including such matters as the acquisition of materials for the Library, the scope, content, and organization of the Library's services, and the rules under which its materials, publications, facilities, and services shall be made available to various kinds of users. The Secretary shall include in the annual report of the Secretary to the Congress a statement covering the recommendations made by the Board and the disposition thereof. The Secretary may use the services of any member of the Board in connection with matters related to the work of the Library, for such periods, in addition to conference periods, as the Secretary may determine.

"(c) Each appointed member of the Board shall hold office for a term of four years, except that any member appointed to fill a vacancy occurring prior to the expiration of the term for which the predecessor of such member was appointed shall be appointed for the remainder of such term. None of the appointed members shall be eligible for reappointment within one year after the end of the preceding term of such member.

"LIBRARY FACILITIES

"SEC. 467. There are authorized to be appropriated amounts sufficient for the erection and equipment of suitable and adequate buildings and facilities for use of the Library. The Administrator of General Services may acquire, by purchase, condemnation, donation, or otherwise, a suitable site or sites, selected by the Secretary in accordance with the direction of the Board, for such buildings and facilities and to erect thereon, furnish, and equip such buildings and facilities. The amounts authorized to be appropriated by this section include the cost of preparation of drawings and specifications, supervision of construction, and other administrative expenses incident to the work. The Administrator of General Services shall prepare the plans and specifications, make all necessary contracts, and supervise construction.

"Subpart 2—Financial Assistance

"AUTHORIZATION OF APPROPRIATIONS

"SEC. 469. For the purpose of grants and contracts under sections 472, 473, 474, 475, and 476, there are authorized to be appropriated $12,000,000 for fiscal year 1986, $13,000,000 for fiscal year 1987, and $14,000,000 for fiscal year 1988. Funds appropriated under this section shall remain available for such purposes until the end of the fiscal year immediately following the fiscal year for which they were appropriated.

"DEFINITIONS

"SEC. 470. As used in this subpart—

"(1) the term 'medical library' means a library related to the sciences related to health; and

"(2) the term 'sciences related to health' includes medicine, osteopathy, dentistry, and public health, and fundamental and applied sciences when related thereto.

"NATIONAL MEDICAL LIBRARIES ASSISTANCE ADVISORY BOARD

"SEC. 471. (a) The Board of Regents of the National Library of Medicine shall also serve as the National Medical Libraries Assistance Advisory Board (hereafter in this subpart referred to as the 'Board').

"(b) The Board shall advise and assist the Secretary in the preparation of general regulations and with respect to policy matters arising in the administration of this subpart.

"(c) The Secretary may use the services of any member of the Board, in connection with matters related to the administration of this part for such periods, in addition to conference periods, as the Secretary may determine.

"(d) Appointed members of the Board who are not otherwise in the employ of the United States, while attending conferences of the Board or otherwise serving at the request of the Secretary in connection with the administration of this subpart, shall be entitled to receive compensation, per diem in lieu of subsistence, and travel expenses in the same manner and under the same conditions as that prescribed under section 208(c) when attending conferences, traveling, or serving at the request of the Secretary in connection with the Board's function under this section.

"GRANTS FOR TRAINING IN MEDICAL LIBRARY SCIENCES

"SEC. 472. The Secretary shall make grants—

"(1) to individuals to enable them to accept traineeships and fellowships leading to postbaccalaureate academic degrees in the field of medical library science, in related fields pertaining to sciences related to health, or in the field of the communication of information;

"(2) to individuals who are librarians or specialists in information on sciences relating to health, to enable them to undergo intensive training or retraining so as to attain greater competence in their occupations (including competence in the fields of automatic data processing and retrieval);

"(3) to assist appropriate public and private nonprofit institutions in developing, expanding, and improving training programs in library science and the field of communications of information pertaining to sciences relating to health; and

"(4) to assist in the establishment of internship programs in established medical libraries meeting standards which the Secretary shall prescribe.

"ASSISTANCE FOR SPECIAL SCIENTIFIC PROJECTS, AND FOR RESEARCH AND DEVELOPMENT IN MEDICAL LIBRARY SCIENCE AND RELATED FIELDS

"SEC. 473. (a) The Secretary shall make grants to physicians and other practitioners in the sciences related to health, to scientists, and to public or nonprofit private institutions on behalf of such physicians, other practitioners, and scientists for the compilation of existing, or the writing of original, contributions relating to scientific, social, or cultural advancements in sciences related to health. In making such grants, the Secretary shall make appropriate arrangements under which the facilities of the Library and the facilities of libraries of public and private nonprofit institutions of higher learning may be made available in connection with the projects for which such grants are made.

"(b) The Secretary shall make grants to appropriate public or private nonprofit institutions and enter into contracts with appropriate persons, for purposes of carrying out projects of research, investigations, and demonstrations in the field of medical library science and related activities and for the development of new techniques, systems, and equipment, for processing, storing, retrieving, and distributing information pertaining to sciences related to health.

"GRANTS FOR ESTABLISHING, EXPANDING, AND IMPROVING THE BASIC RESOURCES OF MEDICAL LIBRARIES AND RELATED INSTRUMENTALITIES

"SEC. 474. (a) The Secretary shall make grants of money, materials, or both, to public or private nonprofit medical libraries and related scientific communication instrumentalities for the purpose of establishing, expanding, and improving their basic medical library or related resources. A grant under this subsection may be used for—

"(1) the acquisition of books, journals, photographs, motion picture and other films, and other similar materials;

"(2) cataloging, binding, and other services and procedures for processing library resource materials for use by those who are served by the library or related instrumentality;

"(3) the acquisition of duplication devices, facsimile equipment, film projectors, recording equipment, and other equipment to facilitate the use of the resources of the library or related instrumentality by those who are served by it; and

"(4) the introduction of new technologies in medical librarianship.

"(b)(1) The amount of any grant under this section to any medical library or related instrumentality shall be determined by the Secretary on the basis of the scope of library or related services provided by such library or instrumentality in relation to the population and purposes served by it. In making a determination of the scope of services served by any medical library or related instrumentality, the Secretary shall take into account—

"(A) the number of graduate and undergraduate students making use of the resources of such library or instrumentality;

"(B) the number of physicians and other practitioners in the sciences related to health utilizing the resources of such library or instrumentality;

"(C) the type of supportive staffs, if any, available to such library or instrumentality;

"(D) the type, size, and qualifications of the faculty of any school with which such library or instrumentality is affiliated;

"(E) the staff of any hospital or hospitals or of any clinic or clinics with which such library or instrumentality is affiliated; and

"(F) the geographic area served by such library or instrumentality and the availability within such area of medical library or related services provided by other libraries or related instrumentalities.

"(2) Grants to such medical libraries or related instrumentalities under this section shall be in such amounts as the Secretary may by regulation prescribe with a view to assuring adequate continuing financial support for such libraries or instrumentalities from other sources during and after the period for which grants are provided, except that in no case shall any grant under this section to a medical library or related instrumentality for any fiscal year exceed $500,000.

"GRANTS AND CONTRACTS FOR ESTABLISHMENT OF REGIONAL MEDICAL LIBRARIES

"SEC. 475. (a) The Secretary, with the advice of the Board, shall make grants to and enter into contracts with existing public or private nonprofit medical libraries so as to enable each of them to serve as the regional medical library for the geographical area in which it is located.

"(b) The uses for which grants and contracts under this section may be employed include the—

"(1) acquisition of books, journals, and other similar materials;

"(2) cataloging, binding, and other procedures for processing library resource materials for use by those who are served by the library;

"(3) acquisition of duplicating devices and other equipment to facilitate the use of the resources of the library by those who are served by it;

"(4) acquisition of mechanisms and employment of personnel for the speedy transmission of materials from the regional library to local libraries in the geographic area served by the regional library; and

"(5) planning for services and activities under this section.

"(c)(1) Grants and contracts under this section shall only be made to or entered into with medical libraries which agree—

"(A) to modify and increase their library resources, and to supplement the resources of cooperating libraries in the region, so as to be able to provide adequate supportive services to all libraries in the region as well as to individual users of library services; and

"(B) to provide free loan services to qualified users and make available photoduplicated or facsimile copies of biomedical materials which qualified requesters may retain.

"(2) The Secretary, in awarding grants and contracts under this section, shall give priority to medical libraries having the greatest potential of fulfilling the needs for regional medical libraries. In determining the priority to be assigned to any medical library, the Secretary shall consider—

"(A) the adequacy of the library (in terms of collections, personnel, equipment, and other facilities) as a basis for a regional medical library; and

"(B) the size and nature of the population to be served in the region in which the library is located.

"(d) Grants and contracts under this section for basic resource materials to a library may not exceed—

"(1) 50 percent of the library's annual operating expense (exclusive of Federal financial assistance under this part) for the preceding year; or

"(2) in case of the first year in which the library receives a grant under this section for basic resource materials, 50 percent of its average annual operating expenses over the past three years (or if it had been in operation for less than three years, its annual operating expenses determined by the Secretary in accordance with regulations).

"FINANCIAL SUPPORT OF BIOMEDICAL SCIENTIFIC PUBLICATIONS

"SEC. 476. (a) The Secretary, with the advice of the Board, shall make grants to, and enter into appropriate contracts with, public or private nonprofit institutions of higher education and individual scientists for the purpose of supporting biomedical scientific publications of a nonprofit nature and to procure the compilation, writing, editing, and publication of reviews, abstracts, indices, handbooks, bibliographies, and related matter pertaining to scientific works and scientific developments.

"(b) Grants under subsection (a) in support of any single periodical publication may not be made for more than three years, except in those cases in which the Secretary determines that further support is necessary to carry out the purposes of subsection (a).

"GRANT PAYMENTS, RECORDS, AND AUDIT

"SEC. 477. (a) Payments under grants made under sections 472, 473, 474, 475, and 476 may be made in advance or by way of reimbursement and in such installments as the Secretary shall prescribe by regulation after consultation with the Board.

"(b)(1) Each recipient of a grant under this subpart shall keep such records as the Secretary shall prescribe, including records which fully disclose the amount and disposition by such recipient of the proceeds of such grant, the total cost of the project or undertaking in connection with which such grant is given or used, and the amount of that portion of the cost of the project or undertaking supplied by other sources, and such other records as will facilitate an effective audit.

"(2) The Secretary and the Comptroller General of the United States, or any of their duly authorized representatives, shall have access for the purpose of audit and examination to any books, documents, papers, and records of such recipients that are pertinent to any grant received under this subpart.

"PART E—OTHER AGENCIES OF NIH

"Subpart 1—Division of Research Resources

"GENERAL PURPOSE

"SEC. 479. The general purpose of the Division of Research Resources is to strengthen and enhance the research environments of entities engaged in health-related research by developing and supporting essential research resources.

"ADVISORY COUNCIL

"SEC. 480. (a)(1) The Secretary shall appoint an advisory council for the Division of Research Resources which shall advise,

assist, consult with, and make recommendations to the Secretary and the Director of the Division on matters related to the activities carried out by and through the Division and the policies respecting such activities.

"(2) The advisory council for the Division of Research Resources may recommend to the Secretary acceptance, in accordance with section 2101, of conditional gifts for study, investigations, and research and for the acquisition of grounds or construction, equipping, or maintenance of facilities for the Division.

"(3) The advisory council for the Division—

"(A)(i) may make recommendations to the Director of the Division respecting research conducted at the Division,

"(ii) may review applications for grants and cooperative agreements for research or training and recommend for approval applications for projects which show promise of making valuable contributions to human knowledge, and

"(iii) may review any grant, contract, or cooperative agreement proposed to be made or entered into by the Division;

"(B) may collect, by correspondence or by personal investigation, information as to studies which are being carried on in the United States or any other country as to the diseases, disorders, or other aspects of human health with respect to which the Division is concerned and with the approval of the Director of the Division make available such information through appropriate publications for the benefit of public and private health entities and health professions personnel and scientists and for the information of the general public; and

"(C) may appoint subcommittees and convene workshops and conferences.

"(b)(1) The advisory council shall consist of ex officio members and not more than eighteen members appointed by the Secretary.

"(2) The ex officio members of the advisory council shall consist of—

"(A) the Secretary, the Director of NIH, the Director of the Division of Research Resources, the Chief Medical Director of the Veterans' Administration, and the Assistant Secretary of Defense for Health Affairs (or the designees of such officers), and

"(B) such additional officers or employees of the United States as the Secretary determines necessary for the advisory council to effectively carry out its functions.

"(3) The members of the advisory council who are not ex officio members shall be appointed as follows:

"(A) Two thirds of the members shall be appointed by the Secretary from among the leading representatives of the health and scientific disciplines (including public health and the behavioral or social sciences) relevant to the activities of the Division.

"(B) One third of the members shall be appointed by the Secretary from the general public and shall include leaders in fields of public policy, law, health policy, economics, and management.

"(4) Members of the advisory council who are officers or employees of the United States shall not receive any compensation for service on the advisory council. The other members of the advisory council shall receive, for each day (including traveltime) they are engaged in the performance of the functions of the advisory council, compensation at rates not to exceed the daily equivalent of the annual rate in effect for grade GS-18 of the General Schedule.

"(c) The term of office of an appointed member of the advisory council is four years, except that any member appointed to fill a vacancy for an unexpired term shall be appointed for the remainder of such term and the Secretary shall make appointments to an advisory council in such a manner as to ensure that the terms of the members do not all expire in the same year. A member may serve after the expiration of the member's term until a successor has taken office. A member who has been appointed for a term of four years may not be reappointed to an advisory council before two years from the date of expiration of such term of office. If a vacancy occurs in the advisory council among the appointed members, the Secretary shall make an appointment to fill the vacancy within 90 days from the date the vacancy occurs.

"(d) The chairman of the advisory council shall be selected by the Secretary from among the appointed members, except that the Secretary may select the Director of the Division of Research Resources to be the chairman of the advisory council. The term of office of the chairman shall be two years.

"(e) The advisory council shall meet at the call of the chairman or upon the request of the Director of the Division of Research Resources, but at least three times each fiscal year. The location of the meetings of the advisory council is subject to the approval of the Director of the Division.

"(f) The Director of the Division of Research Resources shall designate a member of the staff of the Division to serve as the executive secretary of the advisory council. The Director of the Division shall make available to the advisory council such staff, information, and other assistance as it may require to carry out its functions. The Director of the Division shall provide orientation and training for new members of the advisory council to provide them with such information and training as may be appropriate for their effective participation in the functions of the advisory council.

"(g) The advisory council may prepare, for inclusion in the biennial report made under section 481, (1) comments respecting the activities of the advisory council in the fiscal years respecting which the report is prepared, (2) comments on the progress of the Division of Research Resources in meeting its objectives, and (3) recommendations respecting the future directions and program and policy emphasis of the Division. The advisory council may prepare such additional reports as it may determine appropriate.

"(h) This section does not terminate the membership of the advisory council for the Division of Research Resources which was in existence on the date of enactment of the Health Research Extension Act of 1985. After such date—

"(1) the Secretary shall make appointments to such advisory council in such a manner as to bring about as soon as practicable the composition for such council prescribed by this section;

"(2) the advisory council shall organize itself in accordance with this section and exercise the functions prescribed by this section; and

"(3) the Director of the Division of Research Resources shall perform for such advisory council the functions prescribed by this section.

"BIENNIAL REPORT

"SEC. 481. The Director of the Division of Research Resources, after consultation with the advisory council for the Division, shall prepare for inclusion in the biennial report made under section 403 a biennial report which shall consist of a description of the activities of the Division and program policies of the Director of the Division in the fiscal years respecting which the report is prepared. The Director of the Division may prepare such additional reports as the Director determines appropriate. The Director of the Division shall provide the advisory council of the Division an opportunity for the submission of the written comments referred to in section 480(g).

"Subpart 2—John E. Fogarty International Center for Advanced Study in the Health Sciences

"GENERAL PURPOSE

"SEC. 482. The general purpose of the John E. Fogarty International Center for Advanced Study in the Health Sciences is to—

"(1) facilitate the assembly of scientists and others in the biomedical, behavioral, and related fields for discussion, study, and research relating to the development of health science internationally;

"(2) provide research programs, conferences, and seminars to further international cooperation and collaboration in the life sciences;

"(3) provide postdoctorate fellowships for research training in the United States and abroad and promote exchanges of senior scientists between the United States and other countries;

"(4) coordinate the activities of the National Institutes of Health concerned with the health sciences internationally; and

"(5) receive foreign visitors to the National Institutes of Health.

"SUBPART 3—NATIONAL CENTER FOR NURSING RESEARCH

"PURPOSE OF THE CENTER

"SEC. 483. The general purpose of the National Center for Nursing Research (hereafter in this subpart referred to as the 'Center') is the conduct and support of, and dissemination of information respecting, basic and clinical nursing research, training, and other programs in patient care research.

"SPECIFIC AUTHORITIES

"SEC. 484. To carry out section 483, the Director of the Center may provide research training and instruction and establish, in the Center and other nonprofit institutions, research traineeships and fellowships in the study and investigation of the prevention of disease, health promotion, and the nursing care of individuals with and the families of individuals with acute and chronic illnesses. The Director of the Center may provide individuals receiving such training and instruction or such traineeships or fellowships with such stipends and allowances (including amounts for travel and subsistence and dependency allowances) as the Director determines necessary. The Director may make grants to nonprofit institutions to provide such training and instruction and traineeships and fellowships.

"ADVISORY COUNCIL

"SEC. 485. (a)(1) The Secretary shall appoint an advisory council for the Center which shal. advise, assist, consult with, and make recommendations to the Secretary and the Director of the Center on matters related to the activities carried out by and through the Center and the policies respecting such activities.

"(2) The advisory council for the Center may recommend to the Secretary acceptance, in accordance with section 2101, of conditional gifts for study, investigations, and research and for the acquisition of

grounds or construction, equipping, or maintenance of facilities for the Center.

"(3) The advisory council for the Center—

"(A)(i) may make recommendations to the Director of the Center respecting research conducted at the Center,

"(ii) may review applications for grants and cooperative agreements for research or training and recommend for approval applications for projects which show promise of making valuable contributions to human knowledge, and

"(iii) may review any grant, contract, or cooperative agreement proposed to be made or entered into by the Center;

"(B) may collect, by correspondence or by personal investigation, information as to studies which are being carried on in the United States or any other country as to the diseases, disorders, or other aspects of human health with respect to which the Center is concerned and with the approval of the Director of the Center make available such information through appropriate publications for the benefit of public and private health entities and health professions personnel and scientists and for the information of the general public; and

"(C) may appoint subcommittees and convene workshops and conferences.

"(b)(1) The advisory council shall consist of ex officio members and not more than eighteen members appointed by the Secretary.

"(2) The ex officio members of the advisory council shall consist of—

"(A) the Secretary, the Director of NIH, the Director of the Center, the Chief Nursing Officer of the Veterans' Administration, the Assistant Secretary of Defense for Health Affairs, the Director of the Division of Nursing of the Health Resources and Services Administration (or the designees of such officers), and

"(B) such additional officers or employees of the United States as the Secretary determines necessary for the advisory council to effectively carry out its functions.

"(3) The members of the advisory council who are not ex officio members shall be appointed as follows:

"(A) Two thirds of the members shall be appointed by the Secretary from among the leading representatives of the health and scientific disciplines (including public health and the behavioral or social sciences) relevant to the activities of the Center. Of the members appointed pursuant to this subparagraph, at least seven shall be professional nurses who are recognized experts in the area of clinical practice, education, or research.

"(B) One third of the members shall be appointed by the Secretary from the general public and shall include leaders in fields of public policy, law, health policy, economics, and management.

"(4) Members of the advisory council who are officers or employees of the United States shall not receive any compensation for service on the advisory council. The other members of the advisory council shall receive, for each day (including traveltime) they are engaged in the performance of the functions of the advisory council, compensation at rates not to exceed the daily equivalent of the annual rate in effect for grade GS-18 of the General Schedule.

"(c) The term of office of an appointed member of the advisory council is four years, except that any member appointed to fill a vacancy for an unexpired term shall be appointed for the remainder of such term and the Secretary shall make appointments to an advisory council in such a manner as to ensure that the terms of the members do not all expire in the same year. A member may serve after the expiration of the member's term until a successor has taken office. A member who has been appointed for a term of four years may not be reappointed to an advisory council before two years from the date of expiration of such term of office. If a vacancy occurs in the advisory council among the appointed members, the Secretary shall make an appointment to fill the vacancy within 90 days from the date the vacancy occurs.

"(d) The chairman of the advisory council shall be selected by the Secretary from among the appointed members, except that the Secretary may select the Director of the Center to be the chairman of the advisory council. The term of office of the chairman shall be two years.

"(e) The advisory council shall meet at the call of the chairman or upon the request of the Director of the Center, but at least three times each fiscal year. The location of the meetings of the advisory council is subject to the approval of the Director of the Center.

"(f) The Director of the Center shall designate a member of the staff of the Center to serve as the executive secretary of the advisory council. The Director of the Center shall make available to the advisory council such staff, information, and other assistance as it may require to carry out its functions. The Director of the Center shall provide orientation and training for new members of the advisory council to provide them with such information and training as may be appropriate for their effective participation in the functions of the advisory council.

"(g) The advisory council may prepare, for inclusion in the biennial report made under section 486, (1) comments respecting the activities of the advisory council in the fiscal years respecting which the report is prepared, (2) comments on the progress of the Center in meeting its objectives, and (3) recommendations respecting the future directions and program and policy emphasis of the Center. The advisory council may prepare such additional reports as it may determine appropriate.

"BIENNIAL REPORT

"SEC. 486. The Director of the Center after consultation with the advisory council for the Center, shall prepare for inclusion in the biennial report made under section 403 a biennial report which shall consist of a description of the activities of the Center and program policies of the Director of the Center in the fiscal years respecting which the report is prepared. The Director of the Center may prepare such additional reports as the Director determines appropriate. The Director of the Center shall provide the advisory council of the Center an opportunity for the submission of the written comments referred to in section 485(g).

"PART F—AWARDS AND TRAINING

"NATIONAL RESEARCH SERVICE AWARDS

"SEC. 487. (a)(1) The Secretary shall—

"(A) provide National Research Service Awards for—

"(i) biomedical and behavioral research at the National Institutes of Health and the Alcohol, Drug Abuse, and Mental Health Administration in matters relating to the cause, diagnosis, prevention, and treatment of the diseases or other health problems to which the activities of the National Institutes of Health and Administration are directed;

"(ii) training at the National Institutes of Health and at the Administration of individuals to undertake such research;

"(iii) biomedical and behavioral research and health services research (including research in primary medical care) at public and nonprofit private entities; and

"(iv) pre-doctoral and post-doctoral training at public and private institutions of individuals to undertake biomedical and behavioral research; and

"(B) make grants to public and nonprofit private institutions to enable such institutions to make National Research Service Awards for research (and training to undertake biomedical and behavioral research) in the matters described in subparagraph (A)(i) to individuals selected by such institutions. A reference in this subsection to the National Institutes of Health or the Alcohol, Drug Abuse, and Mental Health Administration shall be considered to include the institutes, agencies, divisions, and bureaus included in the National Institutes of Health or under the Administration, as the case may be.

"(2) National Research Service Awards may not be used to support residency training of physicians and other health professionals.

"(3) In awarding National Research Service Awards under this section, the Secretary shall take account of the Nation's overall need for biomedical research personnel by giving special consideration to physicians who agree to undertake a minimum of two years of biomedical research.

"(b)(1) No National Research Service Award may be made by the Secretary to any individual unless—

"(A) the individual has submitted to the Secretary an application therefor and the Secretary has approved the application;

"(B) the individual provides, in such form and manner as the Secretary shall by regulation prescribe, assurances satisfactory to the Secretary that the individual will meet the service requirement of subsection (c); and

"(C) in the case of a National Research Service Award for a purpose described in subsection (a)(1)(A)(iii), the individual has been sponsored (in such manner as the Secretary may by regulation require) by the institution at which the research or training under the award will be conducted.

An application for an award shall be in such form, submitted in such manner, and contain such information, as the Secretary may by regulation prescribe.

"(2) The making of grants under subsection (a)(1)(B) for National Research Service Awards shall be subject to review and approval by the appropriate advisory councils within the Department of Health and Human Services (A) whose activities relate to the research or training under the awards, or (B) for the entity at which such research or training will be conducted.

"(3) No grant may be made under subsection (a)(1)(B) unless an application therefor has been submitted to and approved by the Secretary. Such application shall be in such form, submitted in such manner, and contain such information, as the Secretary may by regulation prescribe. Subject to the provisions of this section (other than paragraph (1)), National Research Service Awards made under a grant under subsection (a)(1)(B) shall be made in accordance with such regulations as the Secretary shall prescribe.

"(4) The period of any National Research Service Award made to any individual under subsection (a) may not exceed—

"(A) five years in the aggregate for predoctoral training; and

"(B) three years in the aggregate for postdoctoral training;

unless the Secretary for good cause shown waives the application of such limit to such individual.

"(5) National Research Service Awards shall provide for such stipends, tuition, fees, and allowances (including travel and subsistence expenses and dependency allowances), adjusted periodically to reflect increases in the cost of living, for the recipients of the awards as the Secretary may deem necessary. A National Research Service Award made to an individual for research or research training at a non-Federal public or nonprofit private institution shall also provide for payments to be made to the institution for the cost of support services (including the cost of faculty salaries, supplies, equipment, general research support, and related items) provided such individual by such institution. The amount of any such payments to any institution shall be determined by the Secretary and shall bear a direct relationship to the reasonable costs of the institution for establishing and maintaining the quality of its biomedical and behavioral research and training programs.

"(c)(1) Each individual who is awarded a National Research Service Award (other than an individual who is a pre-baccalaureate student who is awarded a National Research Service Award for research training) shall, in accordance with paragraph (3), engage in health research or teaching or any combination thereof which is in accordance with the usual patterns of academic employment, for a period computed in accordance with paragraph (2).

"(2) For each month for which an individual receives a National Research Service Award which is made for a period in excess of twelve months, such individual shall engage in one month of health research or teaching or any combination thereof which is in accordance with the usual patterns of academic employment.

"(3) The requirement of paragraph (1) shall be complied with by any individual to whom it applies within such reasonable period of time, after the completion of such individual's award, as the Secretary shall by regulation prescribe. The Secretary shall by regulation prescribe the type of research and teaching in which an individual may engage to comply with such requirement and such other requirements respecting research and teaching as the Secretary considers appropriate.

"(4)(A) If any individual to whom the requirement of paragraph (1) is applicable fails, within the period prescribed by paragraph (3), to comply with such requirements, the United States shall be entitled to recover from such individual an amount determined in accordance with the formula—

$$A=\phi(t-\sigma/t)$$

in which 'A' is the amount the United States is entitled to recover; 'ϕ' is the sum of the total amount paid under one or more National Research Service Awards to such individual; 't' is the total number of months in such individual's service obligation; and 's' is the number of months of such obligation served by such individual in accordance with paragraphs (1) and (2) of this subsection.

"(B) Any amount which the United States is entitled to recover under subparagraph (A) shall, within the three-year period beginning on the date the United States becomes entitled to recover such amount, be paid to the United States. Until any amount due the United States under subparagraph (A) on account of any National Research Service Award is paid, there shall accrue to the United States interest on such amount at a rate fixed by the Secretary of the Treasury after taking into consideration private consumer rates of interest prevailing on the date the United States becomes entitled to such amount.

"(5)(A) Any obligation of an individual under paragraph (1) shall be canceled upon the death of such individual.

"(B) The Secretary shall by regulation provide for the waiver or suspension of any such obligation applicable to any individual whenever compliance by such individual is impossible or would involve substantial hardship to such individual or would be against equity and good conscience.

"(d) There are authorized to be appropriated to make payments under National Research Service Awards and under grants for such awards $244,000,000 for fiscal year 1986, $260,000,000 for fiscal year 1987, and $275,000,000 for fiscal year 1988. Of the amounts appropriated under this subsection—

"(1) not less than 15 percent shall be made available for payments under National Research Service Awards provided by the Secretary under subsection (a)(1)(A);

"(2) not less than 50 percent shall be made available for grants under subsection (a)(1)(B) for National Research Service Awards;

"(3) one-half of one percent shall be made available for payments under National Research Service Awards which (A) are made to individuals affiliated with entities which have received grants or contracts under section 780, 784, or 786, and (B) are for research in primary medical care; and one-half of one percent shall be made available for payments under National Research Service Awards made for health services research by the National Center for Health Services Research and Health Care Technology Assessment under section 304(a)(3); and

"(4) not more than 4 percent may be obligated for National Research Service Awards for periods of three months or less.

"VISITING SCIENTIST AWARDS

"SEC. 488. (a) The Secretary may make awards (hereafter in this section referred to as 'Visiting Scientist Awards') to outstanding scientists who agree to serve as visiting scientists at institutions of postsecondary education which have significant enrollments of disadvantaged students. Visiting Scientist Awards shall be made by the Secretary to enable the faculty and students of such institutions to draw upon the special talents of scientists from other institutions for the purpose of receiving guidance, advice, and instruction with regard to research, teaching, and curriculum development in the biomedical and behavioral sciences and such other aspects of these sciences as the Secretary shall deem appropriate.

"(b) The amount of each Visiting Scientist Award shall include such sum as shall be commensurate with the salary or remuneration which the individual receiving the award would have been entitled to receive from the institution with which the individual has, or had, a permanent or immediately prior affiliation. Eligibility for and terms of Visiting Scientist Awards shall be determined in accordance with regulations the Secretary shall prescribe.

"STUDIES RESPECTING BIOMEDICAL AND BEHAVIORAL RESEARCH PERSONNEL

"SEC. 487. (a) The Secretary shall, in accordance with subsection (b), arrange for the conduct of a continuing study to—

"(1) establish (A) the Nation's overall need for biomedical and behavioral research personnel, (B) the subject areas in which such personnel are needed and the number of such personnel needed in each such area, and (C) the kinds and extent of training which should be provided such personnel;

"(2) assess (A) current training programs available for the training of biomedical and behavioral research personnel which are conducted under this Act, at or through national research institutes under the National Institutes of Health and institutes under the Alcohol, Drug Abuse, and Mental Health Administration, and (B) other current training programs available for the training of such personnel;

"(3) identify the kinds of research positions available to and held by individuals completing such programs;

"(4) determine, to the extent feasible, whether the programs referred to in clause (B) of paragraph (2) would be adequate to meet the needs established under paragraph (1) if the programs referred to in clause (A) of paragraph (2) were terminated; and

"(5) determine what modifications in the programs referred to in paragraph (2) are required to meet the needs established under paragraph (1).

"(b)(1) The Secretary shall request the National Academy of Sciences to conduct the study required by subsection (a) under an arrangement under which the actual expenses incurred by such Academy in conducting such study will be paid by the Secretary. If the National Academy of Sciences is willing to do so, the Secretary shall enter into such an arrangement with such Academy for the conduct of such study.

"(2) If the National Academy of Sciences is unwilling to conduct such study under such an arrangement, then the Secretary shall enter into a similar arrangement with other appropriate nonprofit private groups or associations under which such groups or associations will conduct such study and prepare and submit the reports thereon as provided in subsection (c).

"(3) The National Academy of Sciences or other group or association conducting the study required by subsection (a) shall conduct such study in consultation with the Director of NIH.

"(c) A report on the results of the study required under subsection (a) shall be submitted by the Secretary to the Committee on Energy and Commerce of the House of Representatives and the Committee on Labor and Human Resources of the Senate at least once every four years.

"PART G—GENERAL PROVISIONS

"INSTITUTIONAL REVIEW BOARDS; ETHICS GUIDANCE PROGRAM

"SEC. 491. (a) The Secretary shall by regulation require that each entity which applies for a grant, contract, or cooperative agreement under this Act for any project or program which involves the conduct of biomedical or behavioral research involving human subjects submit in or with its application for such grant, contract, or cooperative agreement assurances satisfactory to the Secretary that it has established (in accordance with regulations which the Secretary shall prescribe) a board (to be known as an 'Institutional Review Board') to review biomedical and behavioral research involving

human subjects conducted at or supported by such entity in order to protect the rights of the human subjects of such research.

"(b)(1) The Secretary shall establish a program within the Department of Health and Human Services under which requests for clarification and guidance with respect to ethical issues raised in connection with biomedical or behavioral research involving human subjects are responded to promptly and appropriately.

"(2) The Secretary shall establish a process for the prompt and appropriate response to information provided to the Director of NIH respecting incidences of violations of the rights of human subjects of research for which funds have been made available under this Act. The process shall include procedures for the receiving of reports of such information from recipients of funds under this Act and taking appropriate action with respect to such violations.

"PEER REVIEW REQUIREMENTS

"SEC. 492. (a)(1) The Secretary, acting through the Director of NIH, shall by regulation require appropriate technical and scientific peer review of—

"(A) applications made for grants and cooperative agreements under this Act for biomedical and behavioral research; and

"(B) applications made for biomedical and behavioral research and development contracts to be administered through the National Institutes of Health.

"(2) Regulations promulgated under paragraph (1) shall require that the review of applications made for grants, contracts, and cooperative agreements required by the regulations be conducted—

"(A) to the extent practical, in a manner consistent with the system for technical and scientific peer review applicable on the date of the date of enactment of the Health Research Extension Act of 1985 to grants under this Act for biomedical and behavioral research, and

"(B) to the extent practical, by technical and scientific peer review groups performing such review on or before such date,

and shall authorize such review to be conducted by groups appointed under sections 402(b)(6) and 405(c)(3).

"(b) The Director of NIH shall establish procedures for periodic technical and scientific peer review of research at the National Institutes of Health. Such procedures shall require that—

"(1) the reviewing entity be provided a written description of the research to be reviewed, and

"(2) the reviewing entity provide the advisory council of the national research institute involved with such description and the results of the review by the entity,

and shall authorize such review to be conducted by groups appointed under sections 402(b)(6) and 405(c)(3).

"PROTECTION AGAINST SCIENTIFIC FRAUD

"SEC. 493. (a) The Secretary shall by regulation require that each entity which applies for a grant, contract, or cooperative agreement under this Act for any project or program which involves the conduct of biomedical or behavioral research submit in or with its application for such grant, contract, or cooperative agreement assurances satisfactory to the Secretary that such entity—

"(1) has established (in accordance with regulations which the Secretary shall prescribe) an administrative process to review reports of scientific fraud in connection with biomedical and behavioral research conducted at or sponsored by such entity; and

"(2) will report to the Secretary any investigation of alleged scientific fraud which appears substantial.

"(b) The Director of NIH shall establish a process for the prompt and appropriate response to information provided the Director of NIH respecting scientific fraud in connection with projects for which funds have been made available under this Act. The process shall include procedures for the receiving of reports of such information from recipients of funds under this Act and taking appropriate action with respect to such fraud.

"RESEARCH ON PUBLIC HEALTH EMERGENCIES

"SEC. 494. (a) If the Secretary determines, after consultation with the Director of NIH, the Commissioner of the Food and Drug Administration, or the Director of the Centers for Disease Control, that a disease or disorder constitutes a public health emergency, the Secretary, acting through the Director of NIH—

"(1) shall expedite the review by advisory councils under section 406 and by peer review groups under section 492 of applications for grants for research on such disease or disorder or proposals for contracts for such research;

"(2) shall exercise the authority in section 3709 of the Revised Statutes (41 U.S.C. 5) respecting public exigencies to waive the advertising requirements of such section in the case of proposals for contracts for such research;

"(3) may provide administrative supplemental increases in existing grants and contracts to support new research relevant to such disease or disorder; and

"(4) shall disseminate, to health professionals and the public, information on the cause, prevention, and treatment of such disease or disorder that has been developed in research assisted under this section.

The amount of an increase in a grant or contract provided under paragraph (3) may not exceed one-half the original amount of the grant or contract.

"(b) Not later than 90 days after the end of a fiscal year, the Secretary shall report to the Committee on Energy and Commerce of the House of Representatives and the Committee on Labor and Human Resources of the Senate on actions taken under subsection (a) in such fiscal year.

"ANIMALS IN RESEARCH

"SEC. 495. (a) The Secretary, acting through the Director of NIH, shall establish guidelines for the following:

"(1) The proper care of animals to be used in biomedical and behavioral research.

"(2) The proper treatment of animals while being used in such research. Guidelines under this paragraph shall require—

"(A) the appropriate use of tranquilizers, analgesics, anesthetics, paralytics, and euthanasia for animals in such research; and

"(B) appropriate pre-surgical and post-surgical veterinary medical and nursing care for animals in such research.

Such guidelines shall not be construed to prescribe methods of research.

"(3) The organization and operation of animal care committees in accordance with subsection (b).

"(b)(1) Guidelines of the Secretary under subsection (a)(3) shall require animal care committees at each entity which conducts biomedical and behavioral research with funds provided under this Act (including the National Institutes of Health and the national research institutes) to assure compliance with the guidelines established under subsection (a).

"(2) Each animal care committee shall be appointed by the chief executive officer of the entity for which the committee is established, shall be composed of not fewer than three members, and shall include at least one individual who has no association with such entity and at least one doctor of veterinary medicine.

"(3) Each animal care committee of a research entity shall—

"(A) review the care and treatment of animals in all animal study areas and facilities of the research entity at least semi-annually to evaluate compliance with applicable guidelines established under subsection (a) for appropriate animal care and treatment;

"(B) keep appropriate records of reviews conducted under subparagraph (A); and

"(C) for each review conducted under subparagraph (A), file with the Director of NIH at least annually (i) a certification that the review has been conducted, and (ii) reports of any violations of guidelines established under subsection (a) or assurances required under paragraph (1) which were observed in such review and which have continued after notice by the committee to the research entity involved of the violations.

Reports filed under subparagraph (C) shall include any minority views filed by members of the committee.

"(c) The Director of NIH shall require each applicant for a grant, contract, or cooperative agreement involving research on animals which is administered by the National Institutes of Health or any national research institute to include in its application or contract proposal, submitted after the expiration of the twelve-month period beginning on the date of enactment this section—

"(1) assurances satisfactory to the Director of NIH that—

"(A) the applicant meets the requirements of the guidelines established under paragraphs (1) and (2) of subsection (a) and has an animal care committee which meets the requirements of subsection (b); and

"(B) scientists, animal technicians, and other personnel involved with animal care, treatment, and use by the applicant have available to them instruction or training in the humane practice of animal maintenance and experimentation, and the concept, availability, and use of research or testing methods that limit the use of animals or limit animal distress; and

"(2) a statement of the reasons for the use of animals in the research to be conducted with funds provided under such grant or contract.

Notwithstanding subsection (a)(2) of section 553 of title 5, United States Code, regulations under this subsection shall be promulgated in accordance with the notice and comment requirements of such section.

"(d) If the Director of NIH determines that—

"(1) the conditions of animal care, treatment, or use in an entity which is receiving a grant, contract, or cooperative agreement involving research on animals under this title do not meet applicable guidelines established under subsection (a);

"(2) the entity has been notified by the Director of NIH of such determination and has been given a reasonable opportunity to take corrective action; and

"(3) no action has been taken by the entity to correct such conditions;

the Director of NIH shall suspend or revoke such grant or contract under such conditions as the Director determines appropriate.

"(e) No guideline or regulation promulgated under subsection (a) or (c) may require a research entity to disclose publicly trade secrets or commercial or financial information which is privileged or confidential.

"USE OF APPROPRIATIONS UNDER THIS TITLE

"SEC. 496. Appropriations to carry out the purposes of this title shall be available for the acquisition of land or the erection of buildings only if so specified. Such appropriations, unless otherwise expressly provided, may be expended in the District of Columbia for—

"(1) personal services;

"(2) stenographic recording and translating services;

"(3) travel expenses (including the expenses of attendance at meetings when specifically authorized by the Secretary);

"(4) rental;

"(5) supplies and equipment;

"(6) purchase and exchange of medical books, books of reference, directories, periodicals, newspapers, and press clippings;

"(7) purchase, operation, and maintenance of passenger motor vehicles;

"(8) printing and binding (in addition to that otherwise provided by law); and

"(9) all other necessary expenses in carrying out this title.

Such appropriations may be expended by contract if deemed necessary, without regard to section 3709 of the Revised Statutes (41 U.S.C. 5).

"GIFTS

"SEC. 497. The Secretary may, in accordance with section 2101, accept conditional gifts for the National Institutes of Health or a national research institute or for the acquisition of grounds or for the erection, equipment, or maintenance of facilities for the National Institutes of Health or a national research institute. Donations of $50,000 or over for the National Institutes of Health or a national research institute for carrying out the purposes of this title may be acknowledged by the establishment within the National Institutes of Health or national research institute of suitable memorials to the donors.

"FETAL RESEARCH

"SEC. 498. (a) The Secretary may not conduct or support any research or experimentation, in the United States or in any other country, on a nonviable living human fetus ex utero or a living human fetus ex utero for whom viability has not been ascertained unless the research or experimentation—

"(1) may enhance the well-being or meet the health needs of the fetus or enhance the probability of its survival to viability; or

"(2) will pose no added risk of suffering, injury, or death to the fetus and the purpose of the research or experimentation is the development of important biomedical knowledge which cannot be obtained by other means.

"(b) In administering the regulations for the protection of human research subjects which—

"(1) apply to research conducted or supported by the Secretary;

"(2) involve living human fetuses in utero; and

"(3) are published in section 46.208 of part 46 of title 45 of the Code of Federal Regulations;

or any successor to such regulations, the Secretary shall require that the risk standard (published in section 46.102(g) of such part 46 or any successor to such regulations) be the same for fetuses which are intended to be aborted and fetuses which are intended to be carried to term.

"(c)(1) The Biomedical Ethics Advisory Committee appointed under section 381 shall conduct a study of the nature, advisability, and biomedical and ethical implications of exercising any waiver of the risk standard published in section 46.102(g) of such part 46 (or any successor to such regulations). The Committee shall complete the study and report its findings to the Biomedical Ethics Board established under section 381 not later than the expiration of thirty months after the date of enactment of this section. The report shall include the recommendations, if any, of the Committee on the advisability of the authority for such a waiver and the circumstances under which such a waiver might be granted. The Biomedical Ethics Board shall transmit the report to the Secretary, the Committee on Energy and Commerce of the House of Representatives, and the Committee on Labor and Human Resources of the Senate.

"(2) During the thirty-six-month period beginning on the date of enactment of this section, the Secretary may not grant (under section 46.211 of part 45 of title 46 of the Code of Federal Regulations or any successor to such section) a modification or waiver for fetal research.

"(3) Effective October 31, 1988, paragraph (2) is repealed.

"CONSTRUCTION OF TITLE

"SEC. 499. This title shall not be construed as limiting (1) the functions or authority of the Secretary under section 301 or of any officer or agency of the United States, relating to the study, prevention, diagnosis, and treatment of any disease for which a separate national research institute is established under this title, or (2) the expenditure of any funds therefor.".

SEC. 3. CONFORMING AMENDMENTS.

(a) ADVISORY COUNCILS.—(1) The National Advisory Health Council established under section 217 is terminated.

(2) Section 217(a) (42 U.S.C. 218(a)) is amended—

(A) in the first sentence—

(i) by striking out "National Advisory Health Council, the National Advisory Mental Health Council, the National Advisory Council on Alcohol Abuse and Alcoholism, and the National Advisory Dental Research Council" and inserting in lieu thereof "National Advisory Mental Health Council and the National Advisory Council on Alcohol Abuse and Alcoholism"; and

(ii) by striking out "by the Surgeon General with the approval of the Secretary of Health, Education, and Welfare" and inserting in lieu thereof "by the Secretary";

(B) in the second sentence—

(i) by striking out "in the case of the National Advisory Health Council, are skilled in the sciences related to health, and";

(ii) by striking out "the National Advisory Mental Health Council, the National Advisory Council on Alcohol Abuse and Alcoholism, the National Advisory Heart Council, and the National Advisory Dental Research Council" and inserting in lieu thereof "the National Advisory Mental Health Council and the National Advisory Council on Alcohol Abuse and Alcoholism"; and

(iii) by striking out ", alcohol abuse and alcoholism, and dental diseases and conditions" and inserting in lieu thereof "and alcohol abuse and alcoholism"; and

(C) by striking out the third sentence.

(3) Subsection (b) of section 217 is repealed and subsections (c) through (e) and subsection (g) are redesignated as subsections (b) through (e), respectively.

(4) Section 222(c) (42 U.S.C. 217a(c)) is amended to read as follows:

"(c) Upon appointment of any such council or committee, the Secretary may delegate to such council or committee such advisory functions relating to grants-in-aid for research or training projects or programs, in the areas or fields with which such council or committee is concerned, as the Secretary determines to be appropriate.".

(5) Section 301(a) (42 U.S.C. 241(a)) is amended—

(A) in paragraph (3), by striking out "as are recommended" through "for such fiscal year" and inserting in lieu thereof "as are recommended by the advisory council to the entity of the Department supporting such projects or, in the case of mental health projects, by the National Advisory Mental Health Council; and make, upon recommendation of the advisory council to the appropriate entity of the Department or the National Advisory Mental Health Council, grants-in-aid to public or nonprofit universities, hospitals, laboratories, and other institutions for the general support of their research"; and

(B) in paragraph (8), by striking out "recommendations of the National Advisory Health Council" through "as he deems" and inserting in lieu thereof "recommendations of the advisory councils to the appropriate entities of the Department or, with respect to mental health, the National Advisory Mental Health Council, such additional means as the Secretary considers".

(6) Section 1122(a) (42 U.S.C. 300c-12(a)) is amended by striking out "under section 441".

(b) NATIONAL LIBRARY OF MEDICINE.—Parts I and J of title III are repealed.

(c) ALCOHOL, DRUG ABUSE, AND MENTAL HEALTH RESEARCH.—Section 506 is amended by adding at the end the following:

"(e)(1) If the direct cost of a grant, cooperative agreement, or contract (described in subsection (a)) to be made does not exceed $50,000, the Secretary may make such grant, cooperative agreement, or contract only if such grant, cooperative agreement, or contract is recommended after technical and scientific peer review required by regulations under subsections (a) and (b).

"(2) If the direct cost of a grant, cooperative agreement, or contract (described in subsection (a)) to be made exceeds $50,000, the Secretary may make such grant, cooperative agreement, or contract only if such grant, cooperative agreement, or contract is recommended—

"(A) after technical and scientific peer review required by regulations under subsections (a) and (b), and

"(B) by the National Advisory Council on Alcohol Abuse and Alcoholism, the National Advisory Council on Drug Abuse, or the National Mental Health Advisory Council, as is appropriate.".

(d) ORPHAN DRUG ACT.—Section 8(w) of the Orphan Drug Act (Public Law 97-414) is repealed.

SEC. 4. PLAN FOR RESEARCH INVOLVING ANIMALS.

(a) ESTABLISHMENT OF PLAN.—The Director of the National Institutes of Health shall establish a plan for—

(1) research to be conducted by or through the National Institutes of Health and the national research institutes into methods of biomedical research and experimentation—

(A) which do not require the use of animals;

(B) which reduce the number of animals used in such research; or

(C) which produce less pain and distress in such animals than methods currently in use;

(2) establishing the validity and reliability of the methods described in subparagraph (A);

(3) the development of such methods which have been found to be valid and reliable; and

(4) the training of scientists in the use of such methods.

The plan required by this paragraph shall be prepared not later than October 1, 1986.

(b) DISSEMINATION OF INFORMATION.—The Director of the National Institutes of Health shall take such actions as may be appropriate to convey to scientists and others involved with research or experimentation involving animals information respecting the methods found to be valid and reliable under subsection (a)(2).

(c) INTERAGENCY COORDINATING COMMITTEE.—The Director of the National Institutes of Health shall establish within the National Institutes of Health an Interagency Coordinating Committee to assist the Director of the National Institutes of Health in the development of the plan required by subsection (a). The Director of each national research institute shall serve on the Committee.

SEC. 5. RESEARCH ON LUPUS ERYTHEMATOSUS.

(a) ESTABLISHMENT OF COMMITTEE.—The Secretary shall establish a Lupus Erythematosus Coordinating Committee to plan, develop, coordinate, and implement comprehensive Federal initiatives in research on Lupus Erythematosus.

(b) COMMITTEE COMPOSITION AND MEETINGS.—(1) The Committee shall be composed of—

(A) the Director of the National Institute of Neurological and Communicative Disorders and Stroke (or the designee of such Director);

(B) the Director of the National Institute of Allergy and Infectious Diseases (or the designee of such Director);

(C) the Director of the National Institute of Arthritis and Musculoskeletal and Skin Diseases (or the designee of such Director);

(D) the Director of the National Institute of General Medical Sciences (or the designee of such Director);

(E) the Director of the National Heart, Lung, and Blood Institute (or the designee of such Director);

(F) the Director of the National Institute of Diabetes and Digestive and Kidney Diseases (or the designee of such Director); and

(G) the Director of the Centers for Disease Control (or the designee of such Director).

(2) The Committee shall meet at least four times a year. The Secretary shall designate as chairman of the Committee the Director of the National Institute of Arthritis and Musculoskeletal and Skin Diseases.

(c) REPORT.—The Committee shall prepare a report for Congress on its activities. The report shall include a description of research projects on Lupus Erythematosus conducted or supported by Federal agencies in the fiscal year for which the report is made, the nature and purpose of each such project, the amounts expended for each such project, and an identification of the entity which conducted the research under each such project. Such report shall be submitted not later than 18 months after the date of the date of enactment of this Act. The Committee shall terminate one month after the report is submitted.

SEC. 6. NATIONAL RESEARCH SERVICE AWARD STUDY.

The Secretary of Health and Human Services shall conduct a study of—

(1) the effect of the service obligation requirement of section 487(c) of the Public Health Service Act on the number and quality of individuals who apply for National Research Service Awards;

(2) the effect of section 487(c)(4) of such Act on the number of persons who engage in health research or training as a career;

(3) the number of persons who receive National Research Service Awards and who engage in health research or training as a career; and

(4) the effectiveness of the grant authority under section 487(a)(1)(B) of such Act in encouraging individuals to engage in health research and training as a career.

The Secretary shall complete the study within one year after the date of enactment of this Act and shall report the results of the study to the Committee on Energy and Commerce of the House of Representatives and the Committee on Labor and Human Resources of the Senate.

SEC. 7. INTERAGENCY COMMITTEE ON SPINAL CORD INJURY.

(a) ESTABLISHMENT.—Within 90 days after the date of enactment of this Act, the Secretary of Health and Human Services shall establish in the National Institute of Neurological and Communicative Diseases and Stroke an Interagency Committee on Spinal Cord Injury (hereafter in this section referred to as the "Interagency Committee"). The Interagency Committee shall plan, develop, coordinate, and implement comprehensive Federal initiatives in research on spinal cord injury and regeneration.

(b) COMMITTEE COMPOSITION AND MEETINGS.—(1) The Interagency Committee shall consist of representatives from—

(A) the National Institute on Neurological and Communicative Disorders and Stroke;

(B) the Department of Defense;

(C) the Department of Education;

(D) the Veterans' Administration;

(E) the Office of Science and Technology Policy; and

(F) the National Science Foundation;

designated by the heads of such entities.

(2) The Interagency Committee shall meet at least four times. The Secretary of Health and Human Services shall select the Chairman of the Interagency Committee from the members of the Interagency Committee.

(c) REPORT.—Within the 18 months after the date of enactment of this Act, the Interagency Committee shall prepare and transmit to the Congress a report concerning its activities under this section. The report shall include a description of research projects on spinal cord injury and regeneration conducted or supported by Federal agencies during such 18-month period, the nature and purpose of each such project, the amounts expended for each such project, and an identification of the entity which conducted the research under each such project.

(d) TERMINATION.—The Interagency Committee shall terminate 90 days after the date on which the Interagency Committee transmits the report required by subsection (c) to the Congress.

SEC. 8. STUDY OF PERSONNEL FOR HEALTH NEEDS OF THE ELDERLY.

(a) STUDY.—The Secretary shall conduct a study on the adequacy and availability of personnel to meet the current and projected health needs (including needs for home and community-based care) of elderly Americans through the year 2020.

(b) REPORT.—The Secretary shall report the results of the study to the Congress by March 1, 1987. The report on the study shall contain recommendations on—

(1) the number of primary care physicians, dentists, and other health personnel needed to provide adequate care for the elderly;

(2) the training needs of other physicians, dentists, and health personnel to provide care responsive to the particular needs of the elderly;

(3) necessary changes in medicare and other third party reimbursement programs necessary to support training of primary care and other physicians to meet the needs of the elderly; and

(4) necessary program changes in third party reimbursement programs (including changes in medicare programs) to support training of other health personnel in the care of the elderly.

SEC. 9. INTERAGENCY COMMITTEE ON LEARNING DISABILITIES.

(a) ESTABLISHMENT.—Not later than 90 days after the date of enactment of this Act, the Director of the National Institutes of Health shall establish an Interagency Committee on Learning Disabilities to review and assess Federal research priorities, activities, and findings regarding learning disabilities (including central nervous system dysfunction in children).

(b) COMPOSITION.—The Committee shall be composed of such representatives as the Director may designate, but shall include representatives from the National Institute of Neurological and Communicative Disorders and Stroke, the National Institute of Child Health and Human Development, the National Institute of Allergy and Infectious Diseases, the National Eye Institute, the National Institute of Environmental Health Sciences, the Division of Research Resources of the National Institutes of Health, the Food and Drug Administration, the National Institute of Mental Health, and the Department of Education.

(c) REPORT.—Not later than 18 months after the date of enactment of this Act, the Committee shall report to the Congress on its activities under subsection (a) and shall include in the report—

(1) the number of persons affected by learning disabilities and the demographic data which describes such persons;

(2) a description of the current research findings on the cause, diagnosis, treatment, and prevention of learning disabilities; and

(3) recommendations for legislation and administrative actions—

(A) to increase the effectiveness of research on learning disabilities and to improve the dissemination of the findings of such research; and

(B) respecting specific priorities for research in the cause, diagnosis, treatment, and prevention of learning disabilities.

(d) TERMINATION.—The Committee shall terminate 90 days after the date of the submission of the report under subsection (c).

SEC. 10. REVIEW OF DISEASE RESEARCH PROGRAMS OF THE NATIONAL INSTITUTE OF DIABETES AND DIGESTIVE AND KIDNEY DISEASES.

The Secretary of Health and Human Services shall conduct an administrative review of the disease research programs of the National Institute of Diabetes and Digestive and Kidney Diseases to determine if any of such programs could be more effectively and efficiently managed by other national research institutes. The Secretary shall complete such review within the one-year period

beginning on the date of enactment of this Act.

SEC. 11. BIOMEDICAL ETHICS.

Title III (as amended by section 3) is amended by adding at the end the following:

"PART I—BIOMEDICAL ETHICS

"SEC. 381. (a) There is established in the legislative branch of the Government the Biomedical Ethics Board (hereinafter referred to as the 'Board').

"(b)(1) The Board shall consist of twelve members as follows:

"(A) Six Members of the Senate appointed as follows: Three members appointed by the Majority Leader of the Senate from the majority party and three members appointed by the Minority Leader from the minority party.

"(B) Six Members of the House of Representatives appointed by the Speaker of the House of Representatives, three from the majority party and three from the minority party.

"(2) The term of office of a member of the Board shall expire when the member leaves the office of Senator or Representative, as the case may be, or upon the expiration of eight years after the date of the member's appointment to the Board, whichever occurs first.

"(3) Vacancies in the membership of the Board shall not affect the power of the remaining members to execute the functions of the Board and shall be filled in the same manner as in the case of the original appointment.

"(4) The Board shall select a chairman and a vice chairman from among its members at the beginning of each Congress. The vice chairman shall act as chairman in the absence of the chairman or in the event of the incapacity of the chairman. The chairmanship and vice chairmanship shall alternate between the Senate and the House of Representatives with each Congress. The chairman during each even-numbered Congress shall be selected by the Members of the House of Representatives on the Board from among their number. The vice chairman during each Congress shall be chosen in the same manner from that House of Congress other than the House of Congress of which the chairman is a Member.

"(5) The Board shall meet once every three months unless such meeting is dispensed with by the chairman, and may meet at any time upon the request of four or more members of the Board or upon the call of the chairman.

"(c)(1) The Board shall study and report to the Congress on a continuing basis on the ethical issues arising from the delivery of health care and biomedical and behavioral research, including the protection of human subjects of such research and developments in genetic engineering (including activities in recombinant DNA technology) which have implications for human genetic engineering.

"(2)(A) Except as provided in subparagraph (B), an annual report shall be transmitted to the Congress identifying the issues which were the subject of the study conducted under paragraph (1) and identifying areas, programs, and practices of medicine and biomedical and behavioral research which have significant ethical implications and which would be appropriate subjects for study.

"(B) A report on research and developments in genetic engineering (including activities in recombinant DNA technology) which have implications for human genetic engineering shall be transmitted to the Congress not later than eighteen months after the appointment of the Committee under subsection (d).

"(d)(1) To conduct the studies and make the reports required by subsection (c), the Board shall appoint a Biomedical Ethics Advisory Committee (hereinafter referred to as the 'Committee'). The Committee shall consist of fourteen members as follows:

"(A) Four of the members shall be appointed by the Board from individuals who are distinguished in biomedical or behavioral research.

"(B) Three of the members shall be appointed by the Board from individuals who are distinguished in the practice of medicine or otherwise distinguished in the provision of health care.

"(C) Five of the members shall be appointed by the Board from individuals who are distinguished in one or more of the fields of ethics, theology, law, the natural sciences (other than the biomedical or behavioral sciences), the social sciences, the humanities, health administration, government, and public affairs.

"(D) Two of the members shall be appointed by the Board from individuals who are representatives of citizens with an interest in biomedical ethics but who possess no specific expertise.

"(2)(A) The Committee, by majority vote, shall elect from its members a chairman and a vice chairman and appoint an executive director who shall serve for such time and under such conditions as the Committee may prescribe. In the absence of the chairman, or in the event of the incapacity of the chairman, the vice chairman shall act as chairman.

"(B) The term of office of each member of the Committee shall be four years, except that any such member appointed to fill a vacancy occurring prior to the expiration of the term for which such member's predecessor was appointed shall be appointed for the remainder of such term. Terms of the members shall be staggered so as to establish a rotating membership.

"(C) The members of the Committee shall receive no pay for their services as members of the Committee, but shall be allowed necessary travel expenses (or, in the alternative, mileage for use of privately owned vehicles and a per diem in lieu of subsistence at not to exceed the rate prescribed in sections 5702 and 5704 of title 5, United States Code) and other necessary expenses incurred by them in the performance of duties as a member of the Committee, without regard to the provisions of subchapter 1 of chapter 57 and section 5731 of title 5, United States Code, and regulations promulgated thereunder.

"(D) The executive director of the Committee, with the approval of the Committee, may employ such staff and consultants as necessary to prepare studies and reports for the Committee.

"(3)(A) The Committee may, for the purpose of carrying out its functions, hold such public hearings, sit and act at such times and places, and take such testimony, as the Committee considers appropriate.

"(B) Upon request of the Committee, the head of any Federal agency is authorized to detail, on a reimbursable basis, any of the personnel of such agency to the Committee to assist the Committee in carrying out its functions.

"(C) The Committee may secure directly from any department or agency of the United States information necessary to enable it to carry out its functions. Upon request of the chairman of the Committee, the head of such department or agency shall furnish such information to the Committee.

"(D) The Committee may accept, use, and dispose of gifts or donations or services or property.

"(E) The Committee may use the United States mails in the same manner and under the same conditions as other departments and agencies of the United States.

"(e) To enable the Board and the Committee to carry out their functions there are authorized to be appropriated $2,000,000 for fiscal year 1986, $2,500,000 for fiscal year 1987, and $3,000,000 for fiscal year 1988.".

SEC. 12. ALZHEIMER'S DISEASE REGISTRY.

(a) GRANT AUTHORITY.— The Director of the National Institute on Aging may make a grant to develop a registry for the collection of epidemiological data about Alzheimer's disease and its incidence in the United States, to train personnel in the collection of such data, and for other matters respecting such disease.

(b) QUALIFICATIONS.—To qualify for a grant under subsection (a) an applicant shall—

(1) be an accredited school of medicine or public health which has expertise in the collection of epidemiological data about individuals with Alzheimer's disease and in the development of disease registries, and

(2) have access to a large patient population, including a patient population representative of diverse ethnic backgrounds.

(c) AUTHORIZATION.—For grants under subsection (a), there are authorized to be appropriated $2,500,000 which shall remain available until expended or through fiscal year 1989, whichever occurs first.

And the Senate agree to the same.

JOHN D. DINGELL,
HENRY A. WAXMAN,
JAMES SCHEUER,
EDWARD MADIGAN,
Managers on the Part of the House.

ORRIN G. HATCH,
DAN QUAYLE,
DON NICKLES,
EDWARD M. KENNEDY,
CHRIS DODD,
Managers on the Part of the Senate.

JOINT EXPLANATORY STATEMENT OF THE COMMITTEE OF CONFERENCE

The managers on the part of the House and the Senate at the conference on the disagreeing votes of the two Houses on the amendment of the Senate to the bill (H.R. 2409) to amend the Public Health Service Act to revise and extend the authorities under that Act relating to the National Institutes of Health and National Research Institutes, and for other purposes, submit the following joint statement to the House and the Senate in explanation of the effect of the action agreed upon by the managers and recommended in the accompanying conference report:

The Senate amendment struck out all of the House bill after the enacting clause and inserted a substitute text.

The House recedes from its disagreement to the amendment of the Senate with an amendment which is a substitute for the House bill and the Senate amendment. The difference between the House bill, the Senate amendment, and the substitute agreed to in conference are noted below, except for clerical corrections, conforming changes made necessary by agreements reached by the conferees, and minor drafting and clarifying changes.

INTRODUCTORY STATEMENT

House and Senate conferees met to consider the text of H.R. 2409, as amended by the Senate amendment reflecting the provisions of S. 1309 which passed the Senate on July 19, 1985.

The purpose of the conference agreement is to preserve America's preeminence in medical research. The legislation does this by extending for three fiscal years the programs administered by the National Institutes of Health (NIH) and making technical revisions in the statutory authority for NIH programs.

The conference agreement extends the authorization of appropriations for the National Cancer Institute, the National Heart, Lung and Blood Institute, the National Library of Medicine's Medical Library Assistance Act and the National Research Service Award Program. The NIH is also required to conduct and support research in Alzheimer's Disease, spinal cord regeneration, mental retardation and bioengineering as a means to overcome paralysis.

The conference agreement provides explicit statutory authority for the NIH and its institutes and agencies. In addition, while there are provisions under current law for the appointment of the NIH Director, no statutory duties are prescribed or assigned. By clarifying the authority of NIH in statute, the conference agreement recognizes the importance and permanence of the NIH and its institutes and agencies. The conferees believe that give the critical role of health research in understanding the causes of human disease and the development of more effective treatments, this recognition is long overdue.

The conference agreement promotes the more effective and efficient management of the NIH by strengthening procedures for peer review of intramural research and the investigation of scientific misconduct involving NIH grantees.

The conference agreement authorizes the Secretary to establish additional national research institutes administratively and to reorganize or abolish unnecessary institutes after submitting a report, six months in advance of such changes, to the Committee on Energy and Commerce in the House and the Committee on Labor and Human Resources in the Senate. The agreement describers the method of appointment and delineates the authorities of the NIH Director.

The conferees have also agreed on the need to establish at long last the National Institute of Arthritis and Musculoskeletal and Skin Diseases. The new institute will provide a national focus on research into the cause and treatment of these widely prevalent, often debilitating and sometimes fatal diseases.

RECODIFICATION OF NIH AUTHORITY

The conferees note that the statutory authority of the NIH was last revised in 1944 and now requires technical revisions to provide consistent, coordinated authority for all of the national research institutes and associated programs. The recodification is a significant step in clarifying and delineating the research function of the national research institutes and other agencies of the NIH. This rewrite of the law does not change the general authority of the Secretary of Health and Human Services to conduct research, investigations, experiments, and demonstrations relating to physical and mental diseases provided under Section 301 of the Public Health Service Act.

ESTABLISHMENT OF NEW NATIONAL RESEARCH INSTITUTES

The conference agreement establishes a new National Institute of Arthritis and Musculoskeletal and Skin Diseases. Establishment of this new institute necessitates revisions in current law to also establish a National Institute of Diabetes and Digestive and Kidney Diseases (NIDDKD). The conference agreement will assure ongoing and improved research efforts in these disease categories.

Arthritis is actually more than 100 different disorders which afflict some 49 million of our citizens and, along with skin disorders, collectively result in an extraordinary loss to our economy from lost productivity as well as from medical expense. The conferees agree with the motto of the Arthritis Foundation—"It's time we took arthritis seriously." This new institute will provide a major increased focus on arthritis and musculoskeletal and skin diseases.

The conferees note that there is much promise held by research devoted to finding a cure for diabetes. Youngsters who develop diabetes early in life may, in fact, be suffering the consequences of an infectious disease which could be entirely preventable. Persons who already have insulin-dependent diabetes may eventually be cured if improved methods of pancreatic cell transplantation can be found. There is justifiable optimism about finding a cure for diabetes; we may dare to begin hoping that diabetes may soon join the ranks of other diseases which have become part of medical history.

Revisions made in the authorities of NIDDKD are necessary to assure that the three clusters have adequate and parallel authority to conduct and support necessary research and education activities. Accordingly, the conference agreement establishes in statute a new Interagency Coordinating Committee for Kidney, Urologic and Hematologic Diseases in addition to the existing committees for Diabetes Mellitus and for Digestive Diseases. In addition, a new Kidney and Urologic Diseases Advisory Board is created to parallel the Natianl Diabetes Advisory Board and the National Digestive Diseases Advisory Board. The authorization for each advisory board is extended for three fiscal years and expires on September 30, 1988.

The conference agreement provides for establishment of research center programs for digestive diseases and related disorders and kidney and urologic diseases to parallel those for diabetes and related endocrine and metabolic diseases. The conferees intend that these new centers be developed on a timetable that will promote research endeavors of the highest quality.

Section 10 of the conference agreement requires the Secretary to conduct an administrative review of the disease research programs of NIDDKD to determine if any program might, from both scientific and management standpoints, be more effectively and efficiently administered by other existing NIH institutes.

In revising the authorities for the National Diabetes Advisory Board and the National Digestive Diseases Advisory Board, the conferees intend to give the Secretary broad discretion in determining which present members of these Boards will be reappointed for additional terms. The conferees expect that the Secretary will give full consideration to present Board members in making appointments to the Boards. Advisory Board members will be appointed to four year terms, although the Secretary may stagger the appointment of new members as permitted under the current Board charters and consistent with the rotational membership patterns of NIH advisory councils.

NATIONAL CENTER FOR NURSING RESEARCH

The House bill provided for the establishment of a National Institute of Nursing at the National Institutes of Health. The Senate amendment did not contain a similar provision.

The Senate receded to the House with an amendment establishing a National Center for Nursing Research located within the National Institutes of Health. The Center is intended to be administered in a fashion similar to the Fogarty International Center and will be headed by a Director. The Center is intended to provide a focal point for promoting the growth and quality of research related to nursing and patient care, to provide leadership to expand the pool of experienced nursing researchers and to promote closer interaction with other bases of health care research. The conferees intend that nursing research and research training activities supported by the Division of nursing in the Health Resources and Services Administration be transferred to the NIH's National Center for Nursing Research.

The conferees believe that nursing research should be included in the mainstream of scientific investigation. The conferees are convinced that a significant amount of our health care dollars could be saved if research related to improved patient care, patient education, and health promotion wer substantially supported. The conferees believe nursing plays a vital role in the delivery of health care in many underserved areas and as such should play a significant role in health services research.

The conferees anticipate that the programs of the new Center will be directed primarily toward basic and applied research related to patient care, the promotion of health, the prevention of illness, and the understanding of individual, family, and community responses to acute and chronic illness and disability. Patient care research may also address ethical and public policy concerns that will have a profound effect on the delivery of patient care. The Center may sponsor training of nursing research personnel, career development of new and established scientists, evaluation of specific nursing interventions, dissemination of new information about nursing and health, and demonstrations of alternatives means of delivery of nursing care.

PEER REVIEW OF INTRAMURAL RESEARCH

The conference agreement requires the Director of NIH to establish procedures for periodic technical and scientific peer review of all intramural research conducted at the National Institutes of Health. It is not the conferees' intent that the review procedures for intramural research be the same as those for extramural research. The conferees recognize that there are significant differences between intramural and extramural activities. The conferees do not intend that the review procedures established by the Director rely on the extramural model of prospective peer review of research on a project-by-project basis as a condition for support of future work. Peer review of intramural research should consider the work—past, present and future—conducted by either an entire laboratory or section of a laboratory.

Peer review may encompass the research projects of several investigators. Peer review should be conducted and reported on to the

Congress at regular intervals but not less than every three years. The conferees agreed that the Director of NIH should submit, as part of the biennial report required by section 403 of the Act, an analysis of the Institute's intramural peer review procedures.

The entity conducting the peer review of an intramural laboratory is to be provided a written description of the overall research to be reviewed prior to the time of the review. This written description should present the overall past accomplishment of the laboratory and its investigators since the last review was conducted. The written description might also present: the general aims, objectives and projected directions of the research projects to be conducted; appropriate background information on possible future research projects; a brief summary of the general research plan; and an indication of the importance of the research projects.

An entity conducting peer review of intramural research is to provide the institute's advisory council with a written description of the research, the results of the review and the recommendations of the reviewing entity. The conference agreement authorizes, but does not require, the advisory council to make recommendations to the institute director regarding intramural activities conducted by the institute.

The conferees note that the NIH has in place a review mechanism to evaluate its intramural research programs. Each institute has a Board of Scientific Counselors composed of outside scientists who meet two or three times a year to appraise the work of its laboratories and scientists. The written reports prepared by the Boards and submitted to the Institute Director summarize the research and the Boards' judgments of its quality. The reports are also reviewed by the Director and Deputy Director for Intramural Research of NIH. The bill's requirement that these reports be furnished to the appropriate National Advisory Council is intended to encourage Council members to review the Board's efforts in program evaluation.

REVIEW OF RESEARCH CONTRACTS

Sections 490(a)(1)(B) and 405(b)(2) include provisions requiring technical and scientific peer review of applications for research contracts. The conferees long have recognized the invaluable role of peer review in ensuring high quality in the research activities funded and conducted by NIH. By referring to "contracts" and not to "contract projects" it is intended that peer review of research contracts not be limited to review at the concept-development phase. The conference agreement requires peer review and approval by peer review groups and all applications for research, training and demonstration contracts. It is expected that peer review by nonfederal employees will provide for more careful scrutiny of contracting practices by the national research institutes.

Regulations now require that agency heads, including the Director of NIH, "identify individual contracts or classes of contracts which may not be awarded unless all pertinent contract proposals have been reviewed by a peer review group . . ." It is not the conferees intent that scientific peer review of contracts for "research resources" such as the purchase of laboratory equipment, materials and supplies used in the conduct or support of research would be necessary. Such review is not required by these provisions.

BIENNIAL REPORT

The conference agreement consolidates current NIH reporting requirements to Congress by providing for the submission once every two years of a single, comprehensive report from the NIH Director. The conferees intend that the report be written, edited and organized in a manner that will assist the Congress in its oversight responsibilities, and that it be submitted on a timetable that will permit the report to be useful to the Congress.

The biennial report submitted by the NIH Director will contain separate reports from the Directors of each national research institute. Reports from the individual directors of the national research institutes should include reports from their respective advisory councils if the council desires to submit such a report. Comments included in the biennial report from the advisory councils of the individual national research institutes should present candid discussions of controversies regarding institute policies. The advisory council reports should indicate those research programs that its members consider to be no longer important to the missions of the institutes. Reports and comments from institute advisory councils should be submitted to Congress unchanged, except that comments by officials or officers of the government may be included as clearly identified and ascribed "additional views". Reports prepared by the Directors of the national research institutes under Section 407 should include an analysis of the rationale for the institute's policy recommendations and priorities as well as possible alternatives to policy recommendations considered or proposed by the advisory councils to the national research institutes.

The conferees do not intend that Section 407 of the revisions to Title IV be construed to prevent individual institute directors or advisory councils from reporting on their activities to the Congress on a more frequent basis, so long as they comply fully with the requirements of the biennial report. Section 407 and Section 406(g) authorize each institute director and advisory council to prepare, as they deem appropriate, additional reports to the Congress.

HEALTH PROMOTION AND DISEASE PREVENTION

The conferees believe it is time for NIH to place greater emphasis on research on health maintenance and the prevention of disease. To emphasize this aspect of the research spectrum, the conference agreement requires that the Director of the National Cancer Institute, the Director of the National Institute of Child Health and Human Development and the Director of NIH appoint an Associate Director for Prevention. A similar position is now provided by current law, and has functioned well for many years, in the National Heart, Lung and Blood Institute.

The conferees do not believe the position of Associate Director for Prevention at an individual institute should duplicate an existing administrative unit. Existing institute activities, programs and personnel involved with prevention activities should be incorporated, as appropriate, into a revised administrative framework.

Individuals appointed to these positions should be selected from among the nation's outstanding health promotion and public health professionals. They should not be appointed from those current NIH officials who have little or no background in the prevention field. Each Associate Director should devote full time to prevention-related activities and not have significant responsibilities for other non-prevention activities.

Among the principal responsibilities of the Associate Directors should be assuring that research regarding the prevention of disease is a high priority of their respective institutes. Prevention research refers to research that is directly related to reducing the incidence of diseases or disorders within the authority of the respective national research institutes, reducing the high-risk precursors of such diseases or disorders, and reducing the adverse consequences of such precursors and early manifestations of such diseases or disorders.

The Associate Directors for Prevention should assure that each institute's research plan include sections dealing with such prevention related research as: investigations into the epidemiology of disease; studies of the etiology of diseases (including the effect of diet and other personal habits on the development of disease, and the effect of environmental factors, including air, water, radiation, and toxic substances, on the development of disease); research into immunizations against disease (particularly toward development of an improved pertussis vaccine); studies of the means to preclude the development of disease through changes in personal habits and environmental factors; and studies of methods for, and the cost-effectiveness of, population screening programs. The Associate Directors should submit recommendations annually to the Director of the institute for the specific activities and resources required by the institute to carry out the prevention-related activities.

The Associate Director for Prevention within the Office of the NIH Director has responsibility for promoting and coordinating the research programs of the national research institutes regarding the prevention of disease. The Associate Director is also responsible for coordinating NIH prevention activities with similar programs in other entities of the Department of Health and Human Services. The conferees believe the Associate Director should be a forceful, competent representative for research regarding the prevention of disease. In appointing the Associate Director, the Director of NIH should seek an individual from among the nation's outstanding public health and prevention researchers.

Although the conference agreement does not provide for establishment of a position of Associate Director for Prevention in all the national research institutes, each institute should give serious consideration to establishing such a position administratively.

Section 402(f) of the conference agreement requires the Associate Director to report annually to the Director of NIH on the prevention related activities undertaken during the previous year. Section 403 provides that these annual reports should be included in the NIH Director's biennial report to the Congress.

The conferees reduced the frequency of required NIH reports to biennial but have required the new reports on prevention activities to be submitted annually. The House Committee on Energy and Commerce and the Senate Committee on Labor and Human Resources will closely monitor these reports and the activities of the Associate Directors. It is the conferees intent to require this report on a biennial basis if it is evident that sufficient progress has been made in the prevention area.

ADVISORY COUNCILS

Section 406 of the conference agreement provides for the establishment of an advisory council consisting of up to 18 appointed members for each of the national research institutes. Currently, each national research institute has an advisory council, established either by statute or by regulation, consisting of 12 to 18 appointed members.

The purpose of the advisory councils is to advise and consult with the Director of each national research institute on the complete spectrum of activities and policies of the institute. The conference agreement retains provisions of existing law requiring the Directors of national research institutes to consult with advisory councils in carrying out institute functions related to education and research. Advisory councils are also permitted to review intramural research and contracts, although this authority is optional and advisory council approval of contracts is not required.

As in existing law or regulation, advisory councils are required to review applications for grants and to recommend for approval those applications that show promise of making valuable contributions to human knowledge. Advisory councils may review any grant application, but are only requried to review those applications requesting over $50,000 in direct costs per annum. No grants with direct costs in excess of $50,000 may be awarded without approval of an Institute's Advisory Council. The conference agreement is consistent with but represents an increase of $15,000 over the existing statutory and administrative requirements that advisory councils review and approve all grants with direct costs in excess of $35,000.

Each advisory council may periodically review intramural research programs being carried out at the institute and make recommendations to the Director respecting such program. Based on materials provided to the advisory council pursuant to Section 490(b)(2) from entities charged with assessing the technical and scientific merits of intramural research, the advisory councils may review and make recommendations to the respective directors of the institutes regarding the importance and quality of the various intramural research programs.

Advisory council review of the intramural program under Section 406(a)(3)(A)(i) is not intended to be equivalent to advisory council review of grants and cooperative agreements. For example, while prospective advisory council review is required before grants are awarded, advisory council review of intramural work might be performed on a retrospective basis. The conferees believed advisory council review and recommendations can provide useful advice to the institute directors and the Director of NIH respecting the operation of the intramural program. Section 406 does not provide advisory councils approval authority over intramural research projects.

Section 406(b)(1) revises the composition of institute advisory councils to increase representation by experts in public health and the behavioral or social sciences. The membership of each advisory council must include two-thirds scientists with expertise in the disciplines of the respective institute and include experts in public health and the behavioral or social sciences. The remaining one-third should be from the general public who are knowledgeable with respect to diseases funded under the respective institutes, including leaders in such fields as social policy, law, health policy, economics and management. Ex officio members of the councils include the Secretary, the Director of NIH, the Director of the national research institute for which the council is established, the Chief Medical or Dental Director of the Veterans' Administration and the Assistant Secretary of Defense for Health Affairs.

It is intended that the chair of each advisory council be selected from among the appointed members. The director of a national research institute is not precluded from chairing an advisory council if the Secretary chooses to select the institute director. The Chairman of an advisory council may be reappointed.

The proposal also provides for staff assistance to the advisory councils and should include the services of an executive secretary to assist the council in its review of the activities and policies of the institute. The position of executive secretary need not be a full-time position, although some advisory council activities may require a greater allocation of staff resources than others. The functions of advisory councils will necessitate a minimum of three meetings per year and, in the case of the larger national research institutes, a minimum of four meetings per year.

NATIONAL CANCER INSTITUTE

The conference agreement revises and extends for three fiscal years the authorities for the National Cancer Institute. These sections are, for the most part, identical to provisions currently found in Sections 401 through 409 and commonly known as the "National Cancer Program." The conference agreement reemphasizes the importance of the National Cancer Act by maintaining the special authorities of the Director of the National Cancer Institute (NCI). The special authorities that have enabled the NCI to become one of the most productive of the national research institutes have been retained in their entirety. These authorities include the guidance of the President's Cancer Panel (Section 415), the submission of an annual budget request directly to the Congress (Section 413(b)(10)(A)) and the appointment of special peer review groups (Section 405(c)(3)) to evaluate the scientific merit of NCI research.

The conference agreement revises current law to extend the support period for cancer centers from three years to five years and removes the annual limitation on support for individual cancer centers.

The basic mission of the NCI was revised to require sponsorship of research on the continuing care of cancer patients and their families. The conferees agreed that a critical problem in cancer research is the growing number of patients suffering from cancer who seek alternative and unproven therapies when they have not responded to traditional methods of treatment. The cost and emotional suffering to dying patients and their families is significant. The conferees believe the Institute should give high priority to research related to the long term care of cancer patients and to the training of physicians in providing compassionate care to the terminally ill in addition to efforts to find cures and means of preventing malignant disease.

The proposal provides explicit authority under Section 412 for support of clinical cancer education programs. The achievements of these programs in medical and dental schools across the nation is well known and it is intended that support for such programs be extended through fiscal year 1988. Activities funded under this authority are distinct from support for the training of future researchers under the provisions of the National Research Service Award Program. This section does not authorize NCI funds to be used in any way to support individuals, or institutions to operate residency or fellowship post-graduate physician programs in the various medical, surgical or other specialties or subspecialties.

The conferees also believe that the National Cancer Institute should increase the emphasis it places upon research on the relationship between diet and cancer. Under Section 416, one of the initial activities of the Associate Director for Prevention should be to conduct a thorough review of the current understanding of the relationship between diet and cancer, and consider appropriate means to increase NCI support for research in this area.

The conference agreement continues support for the NCI cancer center program. The conferees believe the centers program to be among the NCI's most important activities and that the Institute should expand the number of centers of excellence in underserved or demographically unique areas.

For example, the conferees recognize the lack of an organized, state-of-the-art cancer research and treatment center in the Appalachia region. It is estimated that about one-third of those West Virginians dying from cancer might have been saved by earlier diagnosis and treatment. The lack of organized statewide approaches to cancer prevention, detection, and accessibility to specialized care underscores the need for an academically based cancer center program for the State of West Virginia and the region of Appalachia that it would serve.

Another example of need is the state of Utah, which offers a number of specialized opportunities for cancer research. Scientific literature has documented that the Mormon population offers unique research opportunities in cancer prevention related to diet and nutrition. Low rates of cancer in this population appear to be related to specific dietary factors. Utah is also the site of exposure to low-level radiation which occurred secondary to above ground testing of nuclear weapons in the 1940's and 1950's. Therefore, this state's population offers distinct opportunities for epidemiologic studies of the consequence of radiation exposure. Cancer screening is a logical extenson of this activity, and the establishment of a cancer center in Utah will assist in serving not only the state, but the central northwest region of the country, by providing treatment now unavailable to patients in large rural areas in this region of the country.

NATIONAL RESEARCH SERVICE AWARDS

The conference agreement emphasizes the importance of a continued commitment to the research training programs necessary to ensure an adequate number of able, highly trained investigators. New scientists are essential to continue the excellence of this country's biomedical, behavioral and health services research programs into the next century. The success of the nation's research program is closely tied to the number and quality of young professionals choosing research as a career. Since 1974, the National Research Service Award (NRSA) program has been a vital part of the Federal effort to support the quality and integrity of biomedical and behavioral research.

Subsection 485(d) authorizes appropriations for NRSA awards and requires that portions of such appropriations be allocated for four specific programs. These authorizations for NRSA appropriations are $244 million in fiscal year 1986, $260 million in 1987 and $275 million in 1988. The following mandatory set-asides apply to funds appropriated under this authority: (1) Not less than 15% individual investigator awards; (2) Not less than 50% for institutional awards; (3) One-half of one percent for awards in family medicine and primary care; and (4) one-half of one percent for awards in health services research under the auspices of the National Center for Health Services Research and Health Care Technology Assessment. Thus, if in fiscal year 1986 the full $244 million authorized were appropriated, not less than $36.6 million could be used only for individual investigator awards, not less than $122 million only for institutional awards, $1.22 million only for family medicine and primary care awards and $1.22 million only for health services research awards.

The conference agreement reflects a long overdue broadening of the health and scientific research disciplines whose trainees will benefit from the availability of research training opportunities. By placing a restriction on the provision of National Research Service Awards for individuals involved in family medicine, primary medical care and health services research, the conferees recognize that during Fiscal Years 1986, 1987 and 1988 the pool of such persons is likely to be limited. The requirement that one percent of NRSA appropriations be evenly divided between NRSAs for researchers in family medicine, primary care and health services research is intended to represent a strict floor and ceiling on use of NRSA awards for these purposes. Compliance with these requirements does not require additional appropriations.

It is intended that funds appropriated under this authority for National Research Service Awards be used for research training and not for the support of research for which funds are available under sections 405 and 408 of this Title.

The conference agreement also requires the Secretary to undertake a study of the NRSA program. A major focus of the study is to determine the effect of the payback requirement, both benefits and problems, on the number and quality of individuals who apply for National Research Service Awards and become career researchers.

FETAL RESEARCH

The conference agreement includes provisions to define the circumstances under which research involving living human fetuses may be conducted.

In the case of living human nonviable fetuses ex utero or living human fetuses for whom viability has not yet been determined, the Secretary may support only those research projects that (1) may enhance the well-being or meet the health needs of the fetus, (2) enhance the probability of the fetus' survival to viability, or (3) whose purpose is to develop important biomedical knowledge that cannot be obtained by other means and that will pose no added risk of suffering, injury, or death to the fetus. This standard is to be applied equally to fetuses that are aborted spontaneously or by induced abortion. It is not the intention of the Conferees that the phrase "no added risk of suffering" be construed to restrict routine diagnostic or medical procedures, such as the drawing of blood, that may themselves involve transient pain but pose no risk to the fetus of long-term suffering or injury.

In the case of living human fetuses in utero, the agreement requires that the Secretary administer regulations regarding the standard of risk in such a manner that a fetus that is intended for abortion is exposed to no greater risk than that to which a fetus that is intended to be carried to term may be exposed.

The conference agreement further provides that the Biomedical Ethics Advisory Committee, created by this legislation, is to conduct a study of the nature, advisability, and biomedical and ethical implications of exercising any waiver of the current "minimal risk" standard (or any successor to this standard) in research involving fetuses. The Committee is to complete its report within thirty months of the enactment of this legislation and shall report its findings to the Biomedical Ethics Board. The Board is to transmit the Committee's report to the Secretary, as well as to the Senate Committee on Labor and Human Resources and the House Committee on Energy and Commerce. The Conferees note that while the charge to the Biomedical Ethics Advisory Committee is limited under this provision, that Committee is empowered under other provisons of this legislation to review and investigate other issues involving the protection of human subjects, including fetuses.

The conference agreement also prohibits the Secretary from granting a waiver of the requirements of current regulations regarding research that is of unknown or greater-than-minimal risk. In addition, the conference agreement does not prohibit the Secretary from revising any regulations in effect on the day prior to the enactment of this legislation, including the waiver provision. This prohibition is intended to last for three years and is repealed as of October 31, 1988.

BIOMEDICAL ETHICS

The conference agreement amends Title 3 of the Public Health Service Act to establish an independent Congressional Biomedical Ethics Board patterned after the Office of Technology Assessment. The activities of the Biomedical Ethics Board (Board) would be supported by a Biomedical Ethics Advisory Committee. The Board would examine a broad range of biomedical issues and report to the Congress and the public. Two studies are specifically mandated in the legislation: (1) an examination of the nature, advisability, and biomedical and ethical implications of exercising any waiver of existing Federal protections of human fetuses in research and (2) a study of the ethical implications of developments in genetic engineering for human genetic engineering. The legislation authorizes appropriations of $2 million for the activities of the Board in Fiscal Year 1986, $2.5 million in 1987 and $3.0 in 1988.

JOHN E. FOGARTY INTERNATIONAL CENTER

Section 483 of the conference agreement authorizes the John E. Fogarty International Center for Advanced Study in the Health Sciences to facilitate the assembly of scientists and others in the biomedical, behavioral, and related fields. To do this the Fogarty Center will require appropriate facilities which the Director of NIH should make available for such purposes. The conferees believe such NIH facilities as the "Stone House" would be appropriate sites for such activities.

INSTITUTIONAL REVIEW BOARDS

Section 489 restates existing Section 474, which requires the Secretary, by regulation, to obtain assurances of Institutional Review Board (IRB) review of behavioral or biomedical research. Effective IRBs are an important safeguard against abuse of human subjects involved in federally assisted or conducted research or demonstration projects.

In 1974 and 1978 Congress created special commissions on biomedical and behavioral research to address concerns about the dangers associated with experiments and demonstrations conducted or supported by the Department of Health and Human Services or other Federal agencies. Commission recommendations serve as an official record on the issue of safeguards for human subjects. The Secretary of the Department of Health and Human Services was required to accept the findings and recommendations of the commissions or give substantial reasons for rejecting their views. One basic safeguard in the resulting regulations is IRB review of research or demonstrations which may have an impact on the rights or benefits conferred by Federal law and which pose more than a minimal risk for subjects.

SCIENTIFIC MISCONDUCT

Published reports detailing instances of scientific misconduct by Federal research grantees are rare, but are of serious concern to the public, the Congress and scientific community. While such instances are relatively infrequent, they are destructive of the public trust so necessary for the continued growth and expansion of scientific inquiry and Federal support for health research. Biomedical research—particularly that supported with public funds—must be conducted with the highest ethical and intellectual standards.

At present, NIH's procedures regarding scientific misconduct are informal and investigations of specific cases of alleged scientific misconduct have been handled on an *ad hoc* basis. Even cases in which the subject of an NIH investigation has admitted wrong-doing, the agency has taken months, and in some cases over a year, to complete its reviews, announce its findings and impose sanctions. The current debarment process of the Department of Health and Human Services does not adequately meet the need of NIH for a prompt, fair response to allegations of misconduct.

The Director of NIH should now take appropriate steps to establish a system for standardizing investigative procedures and post-investigatory sanctions in this area. Section 491 requires the Director of NIH to establish a process for responding promptly to information concerning scientific fraud and violations of the rights of human subjects. The Conferees expect the system established to supplement existing Department-wide debarment regulations. The system should include procedures for the recover of Federal funds when appropriate.

Section 4901 requires each institution which receives NIH funds to establish an administrative process to review reports of scientific fraud. The conferees note that an institution need not have a standing committee to review reports of misconduct. Such institutions must, however, have a formal mechanism to establish such a committee quickly to investigate specific reports of fraudulent activity. Many institutions will find it appropriate to establish a standing committee on scientific misconduct. It is not the intent of the conferees to specify in detail the requirements for institutional procedures, but rather to underscore the responsibility of awardees promptly to investi-

gate and report evidence of misconduct in publicly funded research programs.

The conference agreement also requires institutions to report to the Secretary any investigation of scientific fraud at such time that it appears that the report is substantial. It is not the Conferees' intent that the institution conclude its investigation prior to notifying the NIH. The NIH has a substantial interest in preserving the integrity of the research it supports and accordingly should become involved in misconduct inquiries as soon as there is reasonable evidence that an allegation of scientific fraud is substantive. The conferees expect the Director of NIH to ensure that the provisions of this system are widely publicized within the scientific and lay community.

RESEARCH AND PUBLIC HEALTH EMERGENCIES

Section 492 provides authority for the Secretary to expedite NIH's response to a disease or disorder that constitutes a public health emergency. The mission of NIH is not generally the day-to-day control or treatment of disease. In the case of complex biomedical emergencies, however, the resources of NIH are sometimes necessary for the Public Health Service to provide a comprehensive response to threats to the public health.

In conducting or supporting research on diseases or disorders that create a health crisis, the routine reviews that have served NIH so well in its development of a strong and diverse research portfolio have resulted in inappropriate delays. The conference agreement requires the Secretary—after determining that a public health emergency exists—to expedite scientific peer review and advisory council review of research grants, exercise exigency contract authority, and disseminate relevant information.

The Secretary is also authorized to provide administrative supplemental increases to existing grants and contracts of up to 50 percent of the original amount of such grants and contracts. The conferees believe that administrative supplemental increases to scientists working on related questions are a particularly appropriate way to initiate quickly research concerning a public health emergency.

The Secretary should use all of the components of this authority to provide a strong research response to public health emergencies. In doing so, the Secretary should coordinate efforts of NIH with those of other agencies of the Public Health Service.

CARE AND TREATMENT OF ANIMALS IN RESEARCH

Section 493 provides certain conditions with respect to the proper care and treatment of animals used in research which must be met by institutions that conduct reseach supported by NIH.

For the past twenty years, institutions receiving NIH grants and contracts have been required to meet NIH guidelines regarding the treatment of laboratory animals. These guidelines are presently based on the "Guide for the Care and Use of Laboratory Animals" developed by the Institute of Laboratory Animal Resources of the National Research Council.

It is important to provide statutory authority and recognition for these requirements. In order to ensure professionally appropriate direction for these conditions, the guidelines should remain under the control and direction of the Director of the NIH.

Subsection (b) requires entities that receive NIH support for research involving animals to establish and maintain animal-care committees to monitor care and treatment of animals used in research. The membership of these committees would consist of at least three members, of which one must be a veterinarian and one an individual with no financial ties to the institution. This "outside" member is intended to provide representation for the general community interest in the proper care and treatment of animals.

The animal care committees are responsible for reviewing semi-annually the care and treatment of animals in all animal study areas and facilities for compliance with NIH guidelines, for keeping appropriate records of such reviews, and for certifying to NIH that such reviews have been conducted. Animal care committees must report violations of NIH guidelines first to their institutions and, if a violation continues, then to NIH. The committees must only certify to NIH that reviews have taken place. Paperwork and reporting requirements are therefore minimal.

The requirement to establish animal care committees is intended to provide the most constructive assurance that NIH guidelines for the care and treatment of animals are met. It is far preferable to place primary responsibility for assuring compliance with NIH guidelines on committees within institutions rather than relying on intrusive Federal inspections as is presently the case. Testimony presented to the Subcommittee on Health and the Environment indicates that the cost of complying with this requirement would be minimal because service on animal care committees in many institutions is voluntary.

Under subsection (b)(2), the Chief Executive Officer of each research institution is charged with the authority to appoint all members of the animal care committees. As a result, the committees will serve as a constructive element within their institutions. The animal care committees' role will be to assure compliance with the NIH guidelines. The animal care committees have no authority to interfere with research decisions, goals or methods. The committees have no authority to "second guess" or review the appropriateness of research. The authority of the committees is limited to review of the care and treatment of animals pursuant to guidelines established by the NIH.

The animal care committees are important because their presence will create an ongoing discussion within the nation's research institutions of sensitivity to the care and treatment of research animals. This ongoing process recognizes that such sensitivity cannot be captured in any set of rules, that standards of care will change in the future as science advances, and that the value of medical research requires such judgments to be professionally and scientifically sound. The consultation inherent in the review of the care and treatment of animals by animal care committees is essential. Within such a framework, the public can have confidence that the proper sensitivity, whatever the sensitivity may be, to the care and treatment of animals will occur.

Two out of three research institutions receiving NIH funds already have animal care committees. Further, many of the nation's most respected research institutions already include a veterinarian and an "outside" member on their animal care committees.

Under subsection (c) the Secretary, acting through the NIH Director, shall issue regulations requiring applicants for NIH funds to provide assurances that the applicant will meet the NIH guidelines for the care and treatment of animals and that the applicant's institution has an animal care committee. Applicants must also assure NIH of the availability of instruction at their institution in humane practices of animal care and in research methods that minimize the use of animals and limit animal distress. All applications for NIH support will include a statement of the reasons for using animals in the research project in order to allow peer review committees to consider possible alternatives to or duplication of research.

If NIH determines that a research entity is not meeting the guidelines, and if after notification of its noncompliance, no action is taken, subsection (d) provides that the Director of NIH shall suspend or revoke a grant or contract. Since all institutions will make a commitment to meet the guidelines, effective animal care committees will virtually eliminate the possibility of revocation of funds. Animal care committees and NIH should give research institutions and grant recipients maximum opportunity to correct any instances of noncompliance. However, if after appropriate notification and consultation, inappropriate activities continue, NIH is authorized to suspend funds or revoke grants and contracts under such conditions as the Director of NIH determines are appropriate.

Subsection (e) provides that no guideline or regulation promulgated under subsection (a) or (c) may require a research entity to disclose trade secrets or commercial or financial information which is privileged or confidential. This provision is intended to prevent the improper disclosure of trade secrets and other confidential information. Guidelines established by the Secretary under subsection (a) and regulations promulgated by the Director of NIH under subsection (c), should affirm the authority of the Secretary to assure compliance with guidelines on the proper care and treatment of laboratory animals and assure that trade secrets or proprietary research information in the possession of a research entity is protected. The conferees do not intend that subsection (e) be applied so as to restrict effective functioning of the animal care committees or inhibit authorized NIH investigations into allegations of improper care or use of laboratory animals involved in research supported by the NIH.

These requirements are consistent with both the values of humane treatment of animals and criteria for high quality scientific research. Both are already common practices in many research institutions.

NATIONAL LIBRARY OF MEDICINE

Part D (Sections 468-480) of the conference agreement technically revises the existing statutory authority of the National Library of Medicine (NLM). In addition, the conference agreement extends the authorization of appropriations for the important programs of the Medical Library Assistance Act through Fiscal Year 1988. This will ensure the continuation of a coordinated national effort to establish library and information services to improve the dissemination of health knowledge.

The support provided by the conference agreement represents an investment in promoting rapid transfer of medical information. Such rapid transfer is essential to reduce the critical time lag between discovery and practice. The conferees believe the continuing "information explosion" calls for innovative methodologies, technologies and systems and trained manpower to meet the information needs of medical science.

Rapid advances in medical science and technology and in human genetics require the thoughtful attention of scholars and students who must explore and learn about the beneficial as well as potentially harmful consequences of these developments. Bioethical issues require in-depth attention, for clinical and educational purposes as well as for the purposes of scholarly activities. During the last four to five years, there has been an explosion of literature related to bioethics that is not readily available to interested parties throughout the United States and around the world.

The Director of NIH, acting through the National Library of Medicine or the national research institutes, should take steps to support the acquisition and dissemination of information on bioethical issues. Such steps might include providing support for a centralized referral center, including library resources, through which the public, scholars, theologians and health personnel may obtain ready access to information on bioethics.

A 1982 General Accounting Office study [HRD-82-66] reported on the National Library of Medicine's (NLM) pricing policies for MEDLARS services. That study concludes that the NLM's pricing policies for establishing user charges to recover costs associated with accessing the MEDLARS data bases are consistent with existing statutes and regulations. The present cost-sharing arrangement, wherein the Federal government supports the creation of the MEDLARS system and the users in the biomedical community pay the full costs to access the system, has been effective and should be continued.

Section 475(c) of the authority for the National Library of Medicine authorizes grants to medical libraries. Potential grantees must assure that they will provide free library loan services to qualified users. The conferees do not intend this requirement to be unduly burdensome but believe that libraries should be public institutions and that their services, to the extent practicable, should be available to the general public at no cost.

RESEARCH ON ALTERNATIVE RESEARCH METHODS

As a result of recent important advancements in the understanding of the mechanisms of cell biology, there is great potential for the development of new research methods. These methods would, in certain instances, provide more accurate research results and reduce the costs of research while concurrently reducing the number of laboratory animals required and reducing the pain and distress to animals involved in such research.

Research involving the use of animals should and will continue. Nevertheless, the development of non-animal research methods deserves the focused attention of the NIH. Section 4 of the conference agreement directs the Director of NIH to develop and implement a plan for research on research methods which do not require the use of animals, reduce the number of animals used in research or reduce the pain and distress of animals used in research. Some research in this area is presently supported by the National Toxicology Program administered by the National Institute of Environmental Health Sciences. Funds allocated pursuant to this new authority are intended to increase the prevent level of effort by NIH.

The conferees note that the NIH has recently received a report entitled "Models for Biomedical Research: A New Perspective" which was prepared by the National Academy of Sciences under NIH contract. This report should be of use to the Director of NIH in developing the plan called for in this section.

INTERAGENCY COMMITTEE ON SPINAL CORD INJURY

The conferees believe that research on spinal cord regeneration should receive more attention within the Federal government. The Federal government is the only entity capable of supporting a major effort to find a cure for spinal cord injury.

In 1980, the Council of State Vocational Rehabilitation Administrators testified before the Subcommittee on Health and the Environment that: "Much more research will be required to develop and perfect techniques and to determine how such regeneration can be applied in cases of traumatic spinal cord injury to humans, but the findings at this point are most encouraging. With adequate financial support to enable this research to continue and to expand, a cure may be possible."

Similarly, the National Spinal Cord Injury Foundation testified that more than $20 million will be needed each year to conduct the research to meet presently identified research opportunities.

In 1980, President Carter established an Interagency Task Force on Spinal Cord Injury to coordinate the programs of the various Federal agencies and to develop and implement Federal medical initiatives related to spinal cord injury. The conferees are disappointed that this Task Force was not continued despite the continuing need for this kind of effort.

The conference agreement recognizes the need for Federal agencies to bring increased and concentrated attention to research on spinal cord injury. The section establishes a temporary Interagency Committee on Spinal Cord Injury to continue the work of the previous Task Force. This Interagency Committee is to be composed of representatives from the National Institute of Neurological and Communicative Disorders and Stroke, the Department of Defense, the Department of Education, the Veterans Administration, the Office of Science and Technology Policy and the National Science Foundation. The Interagency Committee is intended to prompt all Federal agencies to give research regarding spinal cord regeneration a higher priority as they set their research agendas. The Committee is directed to report to Congress on related research being conducted by the various agencies. The tenure of the Committee is time limited in order to give the Congress the opportunity to review its activities. The Committee will terminate 18 months after the effective date of this Act.

STUDY OF PERSONNEL TO MEET THE HEALTH NEEDS OF THE ELDERLY

The conference agreement requires the Secretary to conduct a study which will provide a description of the health personnel needed to meet the health needs of the elderly for the next four decades.

The rapidly increasing number of persons over 65, and especially of those over 75, has been accompanied by increasing demand both for general medical care and for care directed specifically to diseases of the aging. Unfortunately, there has been inadequate attention paid to the need to train doctors and other health professionals to deal with both those aspects of the health needs of the elderly.

The Subcommittee on Health and the Environment held a hearing on this issue in September 1981, to gain insight into the dimensions of the problem and to receive some ideas for its solution. Testimony indicated that the medical profession is indeed aware that a problem exists in ensuring an adequate number of doctors working with the elderly and providing appropriate training for doctors, both in primary care and in the specialties most often needed by the elderly. There are, however, many barriers to implementing needed changes.

Among those barriers are long-held negative attitudes about the elderly and patterns of reimbursement both for training and care, which support treatment for acute illnesses in a hospital. Much of the care of the elderly is for chronic conditions and many elderly need to be treated in settings other than hospitals.

Personnel other than physicians are vital to good treatment. Nurses and social workers, in particular, need to be trained to provide appropriate intervention to ensure high level health care.

This report is to be presented to the Congress by March 1, 1987. The report is to include recommendations for specific numbers of personnel that will be required, including primary care physicians, psychiatrists and other physician specialists, as well as other health personnel.

There is growing recognition of the need to develop leadership cadres of teachers and researchers in geriatrics. The Secretary's report should indicate ways such individuals may be developed and whether current demonstrations such as long-term care gerontology centers and teaching nursing homes should be continued.

The study should include legislative and other policy recommendations necessary to assure the training of an adequate supply of health personnel to meet the expected health care needs of the elderly.

INTERAGENCY COMMITTEE ON LEARNING DISABILITIES

Over the past years, much of the research into learning disabilities has centered on the educational and behavioral aspects of the problem. Neurophysiological investigations are emerging as crucial to the understanding and treatment of this disorder. Learning disabilities are now seen as among the most complicated of neurological impairments. While the incidence of learning disabilities exceeds that of all other neurologically handicapping conditions, they often go unrecognized and are among the ones least researched. Many agencies within NIH are involved in neurophysiological research into some aspects of this dysfunction, as are several other government institutions, yet efforts are fragmented and information is neither shared nor integrated among the various research groups.

Therefore, the conference agreement mandates the Director of NIH to appoint a task force composed of members of national research institutes which have been involved in research efforts into learning disabilities. These include the National Institute of Neurological and Communicative Disorders and Stroke (NINCDS), the National Institute of Child Health and Human Development (NICHD), the National Institute of Allergy and Infectious Diseases (NIAID), the National Institute of Environmental Health Sciences (NIEHS), and the Division of Research Resources (DRR) of NIH; the National Institute of Mental Health of the Alcohol, Drug Abuse, and Mental Health Administration; the Food and Drug Administration; and the Depart-

ment of Education. The Director also may appoint others to the task force, including public members who have expertise and interest in this area. It is expected as well that appropriate representatives from the Centers for Disease Control and the Environmental Protection Agency will be included on the task force.

The role of this task force is to bring to the attention of Congress the best thinking in the field on the incidence of learning disabilities, and any available epidemiological information; current research findings into the cause, diagnosis and treatment of these disorders; and administrative and legislative recommendations to focus research efforts more clearly, and to disseminate research findings.

A report of the task force is due to be presented to Congress within 18 months of enactment and should include specific research priorities on learning disabilities to ensure that future efforts represent the best thinking in the field. The task force is temporary and will terminate 90 days after the date of the submission of the report to Congress.

DIET THERAPY AND CHRONIC KIDNEY DISEASE

The conferees are encouraged with recent progress following up on a meeting of a panel of distinguished nephrologists convened by the National Institute of Arthritis, Diabetes, Digestive and Kidney Diseases to review the state of research on the role of diet therapy in the treatment of end stage renal disease. The panel concluded, in a May 1982 letter to the Secretary of Health and Human Services, that "there is a distinct possibility that nutritional therapy can significantly retard the progression of chronic renal failure, as well as reducing uremic symptoms." Following this report the institute issued a request for cooperative agreements to explore this possibility. The planning phase of this study is being completed.

The conferees continue to be interested in the scope of the work to be conducted. In particular, as extremely low-protein diets are studied, supplementation, not only with keto analogues but also with essential amino acids, should be considered, as it now appears will be the case. In addition, action on the nephrology panel's recommendation for studies on the effects of nutritional therapy upon growth, development and renal function in children has only recently been initiated. The conferees look forward to progress on these important studies, including the important issues related to renal failure in childhood.

ACQUIRED IMMUNE DEFICIENCY SYNDROME

In the summer of 1981, a new syndrome of acquired immune deficiency syndrome (AIDS) was indentified in the United States. The House Committee on Energy and Commerce first reported on the incidence of this disease in 1983, and by April of that year almost 1,400 cases had been identified and over 500 people had died. By 1985, the incidence of this disease has risen to frightening proportions. As of October 1985, some 14,000 cases have been identified and over 7,000 people have died.

The outbreak is continuing, with twenty to twenty-five new cases per day being reporting to the Centers for Disease Control (CDC). As yet, there is little knowledge of either the prevention or treatment of the disease.

The conferees anticpate that CDC will continue its epidemiological and laboratory investigations into the cause and scope of the outbreak. The conferees intend that NIH—in cooperation with CDC's investigation—undertake and significantly expand intramural and extramural multidisciplinary research on the nature of the immune deficiency and its treatment. Continued progress of the outbreak dictates a sense of urgency in supporting and conducting research into AIDS. The conferees intend that research funds be made available as quickly as possible, both through the provisions made by this legislation for research on public health emergencies and through routine research solicitations and proposals, as well as interagency agreements and contracts. NIH should act with dispatch in funding clinical trials on pharmaceutical agents which are promising as effective remedies for AIDS related illness.

SEXUALLY TRANSMITTED DISEASES

From information received in legislative an oversight hearings, the conferees have concluded that sexually transmitted diseases have become a major public health threat to this nation. In 1980 the National Institute of Allergy and Infectious Diseases Sexually Transmitted Diseases Study Group stated that more babies are affected each year by a sexually transmitted disease than children affected by polio during the entire polio epidemic.

The conferees are concerned that control of these diseases has been hampered by a lack of information and adequate diagnostic and treatment techniques regarding these diseases and by the lack of priority ascribed this area of investigation by NIH. Despite strong report language in appropriations bills each year, very little growth in research on these diseases has taken place, although their spread through the population has been rapid. The conferees intend that a strong, well-defined research program be developed and believe that the National Institute of Allergy and Infectious Diseases must begin to take a more aggressive and responsible posture in confronting this epidemic through basic and clinical investigation as well as prevention research strategies.

LEAVE OF ABSENCE

By unanimous consent, leave of absense was granted to:

Mr. CHAPPELL (at the request of Mr. WRIGHT), on account of a death in the family.

SPECIAL ORDERS GRANTED

By unanimous consent, permission to address the House, following the legislative program and any special orders heretofore entered, was granted to:

(The following Members (at the request of Mrs. BENTLEY) to revise and extend their remarks and include extraneous material:)

Mr. GEKAS, for 5 minutes, today.

Mr. GROTBERG, for 5 minutes, today.

(The following Members (at the request of Mrs. BOGGS) to revise and extend their remarks and include extraneous material:)

Mr. KILDEE, for 5 minutes, today.

Mr. ANNUNZIO, for 5 minutes, today.

Mr. NELSON of Florida, for 5 minutes, today.

Mrs. BOGGS, for 15 minutes, today.

EXTENSION OF REMARKS

By unanimous consent, permission to revise and extend remarks was granted to:

(The following Members (at the request of Mrs. BENTLEY) and to include extraneous matter:)

Mr. JEFFORDS.
Mr. FRANKLIN.
Mr. BROOMFIELD.
Mr. BROYHILL.
Mr. GALLO.
Mr. MADIGAN.
Mr. PORTER.
Mr. CONTE.

(The following Members (at the request of Mrs. BOGGS) and to include extraneous matter:)

Mr. KILDEE.
Mr. HAMILTON.
Mr. CHAPMAN.
Mr. DOWNEY of New York in two instances.
Mr. RANGEL.
Mrs. BOGGS in two instances.
Mr. MILLER of California.
Mr. VENTO in two instances.
Ms. OAKAR.
Mr. LANTOS.
Mr. OBEY.
Mr. KANJORSKI.
Mr. STARK in two instances.

SENATE ENROLLED JOINT RESOLUTION SIGNED

The SPEAKER announced his signature to an enrolled joint resolution of the Senate of the following title:

S.J. Res. 72. Joint resolution to designate October 16, 1985, as "World Food Day."

ADJOURNMENT

Mrs. BOGGS. Madam Speaker, I move that the House do now adjourn.

The motion was agreed to; accordingly (at 2 o'clock and 9 minutes p.m.), under its previous order, the House adjourned until Tuesday, October 15, 1985, at 12 o'clock noon.

EXECUTIVE COMMUNICATIONS, ETC.

2136. Under clause 2 of rule XXIV, a letter from the Secretary of Agriculture, transmitting the 1984 annual report on the Youth Conservation Corps Program, pursuant to Public Law 92-597, section 5, was taken from the Speaker's table and referred to the Committee on Education and Labor.

REPORTS OF COMMITTEES ON PUBLIC BILLS AND RESOLUTIONS

Under clause 2 of rule XIII, reports of committees were delivered to the Clerk for printing and reference to the proper calendar, as follows:

Mr. HOWARD: Committee on Public Works and Transportation. H.R. 3066. A bill to authorize the Architect of the Capitol to redesign and reconstruct the East Plaza of the U.S. Capitol in order to provide increased security and for esthetic purposes; with an amendment (Rept. 99-308). Referred to the Committee of the Whole House on the State of the Union.

Mr. DINGELL: Committee of Conference. Conference report on H.R. 2409 (Rept. 99-309). Ordered to be printed.

PUBLIC BILLS AND RESOLUTIONS

Under clause 5 of rule X and clause 4 of rule XXII, public bills and resolutions were introduced and severally referred as follows:

By Mr. BENNETT (for himself and Mr. WRIGHT):

H.R. 3558. A bill to establish the title of States in certain abandoned shipwrecks, and for other purposes; jointly, to the Committees on Interior and Insular Affairs, and Merchant Marine and Fisheries.

By Mrs. BOGGS (for herself and Mr. CRANE):

H.R. 3559. A bill to amend the act establishing a Commission on the Bicentennial of the Constitution of the United States to clarify the status of employees of the Commission, to raise the limits on private contributions, and for other purposes: to the Committee on Post Office and Civil Service.

By Mr. DYMALLY:

H.R. 3560. A bill to require criminal prosecutions concerning violations of the laws of the District of Columbia to be conducted in the name of the District, to provide permanent authority for hearing commissioners in the District of Columbia courts. to modify certain procedures of the District of Columbia Judicial Nomination Commission and the District of Columbia Commission on Judicial Disabilities and Tenure, and for other purposes; to the Committee on the District of Columbia.

By Mr. EVANS of Iowa:

H.R. 3561. A bill to amend the Farm Credit Act of 1971 to authorize the farm credit system to repurchase certain of the system's obligations and to pay certain costs associated with that repurchase; to the Committee on Agriculture.

By Mr. GEKAS:

H.R. 3562. A bill to establish rational criteria for the imposition of the sentence of death for the offense of hostage taking; to the Committee on Judiciary.

By Mr. GUARINI:

H.R. 3563. A bill to require applicants for passports to provide their Social Security account number, and for other purposes; to the Committee on Foreign Affairs.

By Mr. JEFFORDS:

H.R. 3564. A bill to amend the Nuclear Waste Policy Act of 1982 to require the Secretary of Energy to consider certain additional factors in selecting sites for repositories for the disposal of high-level radioactive waste and spent nuclear fuel, and for other purposes; jointly, to the Committees on Interior and Insular Affairs and Energy and Commerce.

By Mr. McCOLLUM (for himself and Mr. GEKAS):

H.R. 3565. A bill to amend title 18 of the United States Code to establish a Federal death penalty for hostage taking and terrorist acts; to the Committee on Judiciary.

By Mr. SEIBERLING:

H.R. 3566. A bill to amend the Internal Revenue Code of 1954 to provide a refundable credit of $30 to any taxpayer who votes in a Federal election; to the Committee on Ways and Means.

By Mr. MARLENEE (for himself, Mr. HAMILTON, Mr. BROOMFIELD, Mr. GILMAN, Mr. CONTE, Mr. KEMP, Mr. LOTT, Mr. BOLAND, Mr. GOODLING, Mr. DORNAN of California, Mr. LAGOMARSINO, Mr. FEIGHAN, Mr. MICHEL, Mr. DREIER of California, Mr. HOYER, Mr. DURBIN, Mr. HUGHES, Mr. BENNETT, Mr. SMITH of Florida, Mrs. SCHROEDER, Mr. LEVINE of California, Mr. SCHEUER, Mr. SCHUMER, Mr. MINETA, Mr. GLICKMAN, Mr. GARCIA, Mr. SMITH of New Hampshire, Mr. HUNTER, Mrs. SMITH of Nebraska, and Mrs. BENTLEY):

H. Res. 294. Resolution to commend the President for acting forcefully and successfully in ordering the apprehension of the terrorists who hijacked the Italian cruise liner the *Achille Lauro* and killed a citizen of the United States; to the Committee on Foreign Affairs; the Committee on Foreign Affairs discharged; considered and agreed to.

ADDITIONAL SPONSORS

Under clause 4 of rule XXII, sponsors were added to public bills and resolutions as follows:

H.R. 780: Mr. STALLINGS.

H.R. 979: Mr. SHAW.

H.R. 983: Mr. HARTNETT, Mr. BONER of Tennessee, Mr. SOLARZ, Mr. MARKEY, and Mr. ROE.

H.R. 1348: Mr. GLICKMAN, Mr. LEVIN of Michigan, Mr. CROCKETT, Mr. MARTINEZ, and Mr. WEAVER.

H.R. 1950: Mr. LEHMAN of Florida, Mr. ORTIZ, Mr. STARK, Mr. VENTO, Mr. MARKEY, Mr. LUKEN, Mr. RINALDO, Mr. GINGRICH, Mr. MCGRATH, Mr. HORTON, Mr. STALLINGS, Mr. LUJAN, Mr. MOODY, Mr. WORTLEY, and Mr. NEAL.

H.R. 2857: Mr. CONYERS, Mr. HAWKINS, Mr. ANDREWS, Mr. MARTINEZ, Mr. VENTO, and Mr. FISH.

H.R. 3028: Mr. WILLIAMS and Mr. FORD of Michigan.

H.R. 3035: Mr. ATKINS and Mr. GUNDERSON.

H.R. 3258: Mr. FRANK, Mr. MORRISON of Connecticut, Mr. BARNES, Mr. WORTLEY, Mr. SMITH of Florida, Mrs. BOXER, Mrs. BOGGS, Mr. GREEN, Mr. GILMAN, Mr. SCHUMER, Mr. BUSTAMANTE, Mr. LEVINE of California, and Mr. KOSTMAYER.

H.R. 3505: Mr. BURTON of Indiana, Mr. WHITEHURST, Mr. GINGRICH, Mr. KINDNESS, and Mr. LAGOMARSINO.

H.R. 3515: Mr. FAWELL.

H.J. Res. 131: Mr. SHELBY, Mr. WHITTAKER, and Mr. KOSTMAYER.

H.J. Res. 230: Mr. COLEMAN of Missouri.

H.J. Res. 282: Mr. FRANK, Mr. ARMEY, Mr. OLIN, Mrs. BENTLEY, Mr. PACKARD, Mr. LANTOS, Mr. BILIRAKIS, Mrs. COLLINS, Mr. KINDNESS, Mr. SMITH of Florida, Mr. MOODY, Mr. MCKINNEY, Mr. COOPER, Mr. COELHO, Mr. ANDERSON, Mr. BOUCHER, Mr. MOAKLEY, Mr. YOUNG of Alaska, Mr. HERTEL of Michigan, Mr. SYNAR, Mr. DWYER of New Jersey, Mr. DURBIN, Mr. SPRATT, Mr. COYNE, Mr. GAYDOS, Mr. MARKEY, Mr. GARCIA, Mr. GEJDENSON, Mr. HENDON, Mr. BUSTAMANTE, Mr. BROYHILL, Mr. BONIOR of Michigan, Mr. ROSE, Mr. CALLAHAN, Mr. TRAXLER, Mr. PERKINS, Mr. DE LA GARZA, Mr. STRATTON, Mr. SKELTON, Mr. MATSUI, Mr. SHELBY, Mr. O'BRIEN, Mr. MORRISON of Connecticut, Mr. HAYES, Mr. UDALL, Mr. RICHARDSON, Mr. MOLLOHAN, Mr. MCCANDLESS, Mr. FOGLIETTA, Mr. LOTT, Mr. CONTE, Mr. PORTER, Mr. STRANG, Mr. LEVINE of California, Mr. SOLOMON, Mr. EARLY, Mr. CARPER, Mr. GUARINI, Mr. LEVIN of Michigan, Mr. BOSCO, Mr. WOLF, Mr. EDGAR, Mr. KANJORSKI, Mr. WALGREN, Mr. BEREUTER, Mr. RALPH M. HALL, Mr. SABO, Mr. BARNES, Mr. TAUKE, Mr. MACK, Mr. DASCHLE, Mr. DAVIS, Mr. FEIGHAN, Mrs. JOHNSON, Mr. GREEN, Mr. DOWDY of Mississippi, Mr. DYMALLY, Mr. FOLEY, Mr. DE LUGO, Mr. CARR, Mr. FRENZEL, Mr. DIOGUARDI, Mr. MONTGOMERY, Mr. GRAY of Pennsylvania, Mr. HENRY, Mr. ACKERMAN, Mr. TORRICELLI, Mr. HYDE, Mr. LEACH of Iowa, Mr. MCDADE, Mr. SCHULZE, Mr. SCHUMER, Mr. SCHEUER, Mr. HOYER, Mr. ASPIN, Mr. MURTHA, Mr. SOLARZ, Mr. KEMP, Mr. LATTA, Mr. CLINGER, Mrs. LLOYD, Mr. HOWARD, Mr. LUNGREN, Mr. SIKORSKI, Mr. HALL of Ohio, Mr. RANGEL, and Mr. MRAZEK.

H.J. Res. 308: Mr. BARNES, Mr. FASCELL, Mr. MACK, Mr. STRATTON, and Mr. SPRATT.

H. Con. Res. 180: Mr. ANDERSON, Mr. EDWARDS of California, and Mrs. BURTON of California.

H. Res. 112: Mr. LANTOS, Mr. FOGLIETTA, Mr. ROE, Mr. FRANKLIN, Mr. ORTIZ, Mr. CONYERS, Ms. MIKULSKI, Mr. CROCKETT, Mr. PORTER, Mr. PANETTA, Mr. FEIGHAN, Mr. OWENS, Mr. LEHMAN of Florida, Mr. RICHARDSON, Ms. KAPTUR, Mr. TOWNS, Mr. VENTO, Mr. DOWNEY of New York, Mrs. BOXER, Mrs. BOGGS, Mr. FOWLER, Mr. WOLPE, Mr. PURSELL, and Mr. MITCHELL.

EXTENSIONS OF REMARKS

U.S. ARMS CONTROL POLICY

HON. LEE H. HAMILTON
OF INDIANA
IN THE HOUSE OF REPRESENTATIVES

Friday, October 11, 1985

Mr. HAMILTON. Mr. Speaker, on March 25, 1985, I initiated correspondence with the Department of State concerning U.S. policy in the arms control negotiations in Geneva. It is my belief that the substance of our policy deserves greater public attention and exposition than it has heretofore received.

I was disappointed that the State Department delayed replies to my letter until September 11, 1985, and sought to provide briefings in the interim instead of a written reply. This reply is useful, but I believe that several aspects of the reply to my letter need to be answered or further clarified. For this reason I am writing a followup letter.

In the meantime I would like to share with my colleagues the correspondence to date:

COMMITTEE ON FOREIGN AFFAIRS,
Washington, DC, March 25, 1985.

Hon. GEORGE P. SHULTZ,
Secretary, Department of State,
Washington, DC.

DEAR MR. SECRETARY: I am writing you to request a statement of our policy toward the new arms control negotiations in Geneva including specific reference to our short- and long-term objectives for the negotiations. So far, your discussions with Members of the Committee on Foreign Affairs have focused primarily on the background and procedures of the talks. I am anxious to know the substance of our policy and the specific goals we are seeking through negotiations.

I would like answers to the following questions with as much detail as possible in unclassified form and a second reply, if necessary, in classified form:

1. Does the United States seek a comprehensive agreement in Geneva or a more limited agreement?

Can an agreement in one of the three negotiating areas be completed while negotiations in the other areas continue?

Will accords reached in Geneva, whether comprehensive or limited, be submitted to Congress as treaties or agreements?

2. For each of the three sets of negotiations—strategic weapons, intermediate-range weapons, and space-defense weapons—I would like your answers to the following questions:

What are the current weapons in U.S. and Soviet arsenals?

What future weapons systems are planned, and how will they affect the quantitative and qualitative arms balance?

What is the U.S. objective, both in the interim and in the long-term structure of force levels?

What is the Soviet proposal on the table?

What is the U.S. proposal on the table?

What are the chief differences between these proposals?

Which will be the most difficult to resolve?

What are the prospects for agreement? When?

What is the verification capability of the U.S. in each area?

Can we get adequate verification without on-site inspection?

3. Is it our objective in Geneva to build on the SALT II agreement, to incorporate the basic limitations of SALT, respect its provisions, and extend them?

Will we adhere to the SALT II limits as long as the Soviet Union does?

If the Soviet Union adheres to SALT II limits until the end of 1985, will it be our policy to try to extend the limits beyond the expiration date?

4. What is our response to the new Soviet deployment of mobile SS-24 and SS-25 missiles?

Are the SS-24s and SS-25s barred by SALT II or are they replacements for the old SS-11s and SS-13s?

Do you intend to address this issue with a proposal in Geneva?

What is our view of the development of new mobile missiles by the Soviets?

Do our views differ if those mobile missiles are single rather than multi-warhead?

5. Is the "build-down" idea still part of our strategic arms proposal in Geneva?

What is our policy with respect to the Midgetman missile?

Would deployment of the MX and the Midgetman be within SALT limits?

6. What is the purpose of the Strategic Defense Initiative—to protect people or missiles?

Which aspects, if any, in the space-defense program are open to limitation in the negotiations—research, developmemt, testing, production or deployment?

Have you ruled out any limits on SDI at this time?

Will decisions to continue development of the Strategic Defense Initiative be based on Ambassador Nitze's requirement that it be a survivable and cost-effective system?

Why would the Soviet Union ever want to reduce its offensive missiles when the U.S. is working on its missile defense?

7. Does our policy allow trading off reductions or limitations between the three groupings of strategic, intermediate-range, and space-defense weapons?

If so, what systems are we prepared to trade off?

What systems are we not prepared to trade off?

Are deep cuts in Soviet land-based missiles one of our primary objectives in Geneva?

What systems are we willing to trade for those deep cuts—MX, bombers, Cruise missiles?

8. The Soviet Union has linked "radical" reductions in offensive arms to curtailment of space-based defense. Are we willing to consider some possible trade-offs between offensive weapons and the space-based program, such as limitations on development and/or testing if not on research?

9. British and French nuclear missiles continue to be an issue of concern to the Soviet Union. In which working group will these systems be discussed?

What is our policy related to these systems?

Will our policy position recognize the existence of these systems and allow for some accounting for these systems?

10. Do you plan to raise the question of the future of the 1972 ABM Treaty at these talks?

Is it our policy to continue to adhere to this treaty?

Do you plan to discuss any modifications of the ABM Treaty?

11. To what extent do you intend to raise treaty compliance at the Geneva talks?

If so, why do you choose to raise them at this set of talks rather than address them in the forum of the Standing Consultative Commission?

Have any of the Soviet violations jeopardized the national security of the U.S.?

If so, which ones?

12. Do you plan to propose a limitation or a ban on anti-satellite weapons systems (ASAT)?

What limitations on ASAT weapons do you believe are verifiable?

What is the Soviet view of an ASAT ban at this time?

I appreciate your attention to these questions regarding our policy and objectives in the Geneva arms control negotiations and I look forward to receiving your responses soon.

Sincerely yours,

LEE H. HAMILTON,
Chairman, Subcommittee on
Europe and the Middle East.

U.S. DEPARTMENT OF STATE,
Washington, DC, September 11, 1985.

Hon. LEE H. HAMILTON,
Chairman, Subcommittee on Europe and the Middle East, House of Representatives.

DEAR MR. CHAIRMAN: I am replying on behalf of the Secretary to your letter of March 25, 1985, which contains a list of questions related to United States arms control policy and objectives. I have tried to answer your questions as succinctly as possible.

1. The United States seeks a "comprehensive" agreement in Geneva in the sense that the whole range of questions concerning nuclear and outer space arms will be addressed and accounted for in three negotiating groups. It is our view that if an agreement can be reached on some issues in one negotiating forum then formalizing that agreement should not be delayed pending the completion of negotiations in the other fora. Accords reached in Geneva will be submitted to Congress in accordance with US law. The form of such accords has not been determined.

2. In the strategic offensive arms area, the Soviet Union has about 9,000 warheads on ballistic missiles in its operational inventory. The US currently has about 7,600 warheads on ballistic missiles in the operational inventory. The Soviet Union has 170 Bear and Bison strategic aviation aircraft and about 250 Backfire bombers. The US has 264 B-52s in the active inventory. Of the

operational Soviet bomber inventory about 25 Bears are ALCM carriers while the US has ALCMs deployed on 98 B-52s.

Soviet strategic capabilities today reflect more than a decade of major qualitative and quantitative force improvements that have significantly altered the strategic balance. Current Soviet ICBM forces pose concern for strategic stability because of the counterforce capability that is not available on the US side. The new Soviet ICBMs, the SS-X-24 and SS-X-25, will afford the USSR significant improvements in survivability and reliability. Their mobility will most likely significantly complicate US targeting and the verification of future arms control agreements.

Planned US force improvements, including the D-5 SLBM, the MX ICBM, and the small ICBM, will only partially redress that imbalance. Continued deployment of the Trident SSBN will also help insure the continued effectiveness of our sea-based deterrent. The deployment of the MX will significantly improve the capability, accuracy and reliability of the ICBM force, and the deterrent credibility of the Triad as a whole. The deployment of the small ICBM will add significantly to the survivability of US ICBM forces as a whole, and will enhance stability.

The Soviets are also continuing to modernize their bomber force, through the addition of the Bear H ALCM carrier and the development and expected deployment of the new Blackjack bomber. The US is continuing to deploy long-range ALCMs on B-52 bombers in order to ensure the continued effectiveness of these bombers by providing them a stand-off capability against increasingly capable Soviet air defenses.

The US objective is to establish a more stable balance between US and Soviet strategic forces than exists today. In order to do this, it is essential that we continue to modernize our aging nuclear deterrent in order to maintain its credibility. At the same time, we seek significant and verifiable reductions in the START negotiations.

To achieve these arms control objectives, the United States has tabled a draft treaty detailing our proposed approach for strategic arms reduction. The US has emphasized in Geneva that it is flexible on the means by which an agreement achieves enhanced strategic stability at substantially reduced levels of arms. The US has consistently conveyed its commitment to reductions in ballistic missile throw-weight and warhead numbers and has also proposed limitations on long-range ALCMs. The Soviets so far has been unwilling to offer any specific proposal on reductions until the US accepts a number of preconditions including a proposed ban on SDI research and the elimination of NATO's LRINF deployments. The Soviets have only presented a broad and, regrettably, vague concept dealing with possible reductions in strategic forces. No indications of how this concept might address US concerns has been provided.

In the INF area, the Soviet system of greatest concern is the SS-20 MIRVed LRINF missile. The Soviets now have 423 launchers, having a total of over 1,260 nuclear warheads. In addition, the Soviets have continued to construct additional SS-20 bases in both the eastern and western areas of the USSR.

In response to this major Soviet deployment of advanced LRINF range ballistic missiles, NATO has begun the deployment of 108 Pershing II ballistic missiles and 464 LRINF cruise missiles.

The US objective in the INF negotiations is to eliminate the entire class of longer-range INF missiles. Failing that, the US seeks an equal global level of LRINF missile warheads at the lowest possible level. On the other hand, the Soviets' current proposal would eliminate US deployments of LRINF missiles in Europe, while the Soviets would actually be free to increase their missile force in Europe. The Soviets have offered to freeze the level of SS-20 deployments in Asia provided an agreement on INF systems in Europe is reached, and there is no change in the Asian "strategic situation". The Soviets have also proposed, as a temporary measure "to improve the negotiating climate", a freeze on further LRINF missile deployments in Europe.

The current Soviet proposal would leave the Soviet Union with a monopoly in LRINF missile warheads. The Soviets have been unwilling to accept the principle that the US has a right to LRINF missile deployments in Europe. There are no immediate prospects for agreement because of this Soviet intransigence and their refusal to accept NATO's right to respond to Soviet nuclear missile deployments. Persistence and patience will be required, but the US hopes that the Soviets will seriously negotiate when their public posturing has failed.

In the space and defense area, the Soviets maintain vigorous research programs in the field of ballistic missile defense and space weaponry, including ASATs, beam weapons such as lasers and other advanced ballistic missile defense technologies; they probably have the technological ability to conduct electronic warfare against space weapons.

Operational Soviet space and defense weapons include an anti-satellite weapon and the world's only operational ABM system, (around Moscow), which is currently being upgraded, as well as a huge defensive network of anti-aircraft radars, surface-to-air missiles, and interceptor aircraft.

In contrast, the US is engaged in a research program in support of the President's announced Space Defense Initiative (SDI). This research program is fully consistent with the ABM Treaty and will examine the feasibility of advanced technologies to create a defense against ballistic missiles which would strengthen deterrence and increase our security and that of our Allies. The US has no operational space weapons and no operational ballistic missile defense system. We maintain only a small number of air defense interceptor aircraft.

The President has made clear that the US goal is to seek military stability at the lowest possible force levels that can be effectively verified.

The Geneva negotiations are conducted in strict confidence and it would thus be inappropriate to discuss specific proposals under discussion. However, the general characteristics of both the US and Soviet positions are covered above.

Information about US verification capabilities is among the most sensitive in the government. The most complete unclassified discussion of verification associated with ASAT arms control can be found in the President's Report to Congress on ASAT Arms Control, dated March 31, 1984, which I previously sent to you. In the case of limitations on nuclear forces to date, we have relied principally on National Technical Means (NTM) to monitor treaty compliance. With the introduction of mobile missile systems such as the Soviet road-mobile SS-X-25 and the rail-mobile SS-X-24, and small, dual-capable systems such as the various types of cruise missiles being deployed by both sides, it is likely that we will require cooperative verification measures that supplement NTM to improve our ability to verify Soviet compliance with limits on these systems. Further, Soviet non-compliance and probable non-compliance with many provisions of existing arms control agreements highlights the need for tighter treaty drafting and more comprehensive verification measures in future agreements.

To this end, as the President has stated, we are analyzing the utility of cooperative measures that go beyond NTM; on-site inspection is one area we are examining. While the Soviets have long been opposed to on-side inspection, we have had recent indications—in both actions and public statements by responsible Soviet officials—that they would not rule out on-site inspection under all circumstances.

3. It is the Administration's objective to draw from the SALT experience where it is beneficial. However, the Administration's objectives in Geneva are far more ambitious than were those that resulted in the SALT agreements. As for adhering to SALT II, the Soviets have violated significant portions of the agreement. Despite Soviet actions, the President announced on June 10, 1985 that the US would "go the extra mile" by dismantling a Poseidon SSBN when the 7th Trident goes on sea trials. This is to allow the USSR additional time to come into compliance with its arms control obligations.

4. The Soviets have declared the SS-X-24 ICBM to be their one new type of ICBM permitted under SALT II. Thus, the President concluded in his two reports to the Congress on Soviet non-compliance that the SS-X-25 is a second new ICBM and a violation of the Soviet's political commitment to observe the provisions of the SALT II agreement.

5. The Administration is pursuing with the Soviets all paths that lead to substantial and verifiable reductions in the levels of strategic arms. The US first proposed the build-down concept to the Soviets in 1983, and that offer remains on the table for their consideration.

6. The Strategic Defense Initiative (SDI) is a research program to assess the feasibility of advanced technologies to support an effective defense against ballistic missiles. In the event relevant technologies prove feasible, we envisage that defenses might provide a more stable basis for deterrence in the future. The current strategic regime seeks to deter through the threat of imposing unacceptable costs for aggression and, indirectly, through denying gains. This is accomplished primarily through offensive force retaliation. Effective defenses would increase the role of goal denial in the deterrent relationship. Therefore, the dichotomy that some observers draw between deterrence and defense is false. We would seek to protect people through deterring attack in the first place.

Nor would a defense-reliant environment seek to defend US ICBM silos per se. Through the capability to degrade some substantial portion of attacking weapons, defenses would enhance deterrence by denying an aggressor any likelihood of launching a militarily significant first strike.

The SDI research program is not open to negotiated constraints. Neither US nor Soviet advanced technology research programs are suited to verifiable limitations. The US is committed to determining whether defenses can provide a more stable and long-term basis for national security.

If SDI demonstrates that defensive systems should figure prominently in future US national security strategy, deployment decisions would be based on criteria that defensive systems be survivable and cost-effective at the margin.

We are attempting to secure Soviet cooperation in a transition to greater defensive reliance. While we hope a transition could be jointly-managed and subject to negotiations, the USSR would not be given a veto over US deployment decisions. Reductions in offensive systems would likely play an integral role in such a transition. On the one hand, substantial reductions could limit the threat with which defenses would have to cope; on the other, sufficiently robust defenses might themselves motivate arms reductions, since there would be little value in retaining obsolete forces, and since defenses would negate any advantage accruing to the clandestine stockpiling of weapons.

7. We believe that the best route to progress in the current negotiations is to move forward in each negotiating group whenever possible, rather than trying to resolve all issues at once. The primary US goal in the START negotiating group is to achieve an agreement which reduces ballistic missiles and their warheads in a way that enhances stability, especially by reducing incentives for a first strike. With this in mind, we have proposed, as part of our plan to achieve deep reductions, to explore tradeoffs based on areas of advantage and concern in offensive nuclear weapons.

Our negotiators have been granted unparalleled flexibility to work with the Soviets toward the achievement of effective arms control agreements that will enhance our national security. Our goal in START is significant and verifiable reductions in strategic force numbers and throw-weight to achieve a stable nuclear balance. At the same time, to achieve the desired objectives, it is necessary to modernize our forces in light of Soviet force modernizations.

8. The Geneva talks are not served by Soviet intransigence and attempts to link progess in one negotiating forum with that in another. As noted, a research program does not lend itself to negotiated, verifiable constraints. In any case, we are not going to abandon the possibility of a more secure future—based on defenses which threaten no one—to current Soviet propaganda exercises.

9. Third-country nuclear systems are not a subject for negotiation in Geneva. As was our policy during the negotiation of both SALT I and II, we would not presume to, and cannot legally, negotiate limitations on systems which belong to nations not party to the negotiations. The Soviet argument for the inclusion of British and French systems appears to be a tactical negotiation ploy designed to justify unequal limits between the United States and the Soviet Union. Britain and France are sovereign nations, each with strategic security interests of their own. The US does not determine the composition of, or control the employment of, their independent forces. Soviet demands that the US negotiate an agreement which includes these forces in a US ceiling are unacceptable not only to the US but also to the Allies concerned. The forces of Britain and France represent independent national deterrents. They differ in role and characteristics from the US and Soviet longer-range INF missiles which are the focus of the INF negotiations. In essence, the Soviet position that UK and French nuclear forces be included in INF amounts to a demand that the Soviet Union be granted the right to have nuclear forces equal to those of all other powers combined. Such a demand completely contradicts the principle of equality which is fundamental to US-Soviet arms control and, thus, this demand is patently unacceptable.

10. The US is committed to reversing the erosion of the ABM Treaty caused by Soviet treaty violations. We have repeatedly expressed in Geneva our serious concern about the large phased array radar (LPAR) at Krasnoyarsk which violates the Soviet legal obligation under the ABM Treaty. We have also raised many other ABM related compliance concerns with the Soviets. If we can ever hope to move forward in a cooperative manner to a reliance on defense, the Soviet must take a more constructive approach to resolving our compliance concerns.

If, at some time in the future, SDI technologies prove feasible, modifications of the ABM Treaty would be a subject for negotiations with the Soviets in accordance with the Treaty provision on revisions. This commitment was reconfirmed by President Reagan and Prime Minister Thatcher when they agreed to their four points in December 1984.

11. The US has repeatedly raised compliance questions with the Soviet Union in diplomatic channels, at the US-USSR Standing Consultative Commission, and during the current Geneva talks. Raising Soviet noncompliance issues in the Geneva Nuclear and Space Talks underscores the importance we attach to the resolution of these issues, in that it clearly indicates to the Soviet Union that the prospects for reaching new arms control agreements will be affected by their record of compliance with existing treaties.

While all of the Soviet non-compliance activities have some degree of military significance, several are particularly noteworthy.

The large phased-array radar being constructed near Krasnoyarsk in central Siberia is assessed to be a radar whose siting, orientation, and capability make it a violation of the ABM Treaty and, together with other Soviet activities, suggests that the Soviet Union may be preparing an ABM defense of its national territory which is prohibited by the Treaty. Such a defensive system, for which the Krasnoyarsk radar may be a first step, would create a dangerously unstable situation if the US continued to adhere to the ABM Treaty.

The SS-X-25 ICBM, which has been flight-tested and deployed contrary to the Soviet political commitment under SALT II, represents a significant modernization of the Soviet ICBM force.

Soviet chemical and toxin weapons activities have potentially great military significance since they have allowed the Soviet Union to increase its chemical and biological war-fighting capabilities.

The US approach to ASAT arms control is to seek measures that will reduce the risk of conflict and enhance international stability. This requires measures that are equitable, verifiable, and compatible with our national interest.

While for some time, the United States has been examining possible ASAT arms control measures, we have been unable, to date, to identify a specific ASAT proposal which meets the requirements identified by the Congress in 1984 that it be verifiable and contribute to US national security. We will continue to study possible ASAT limitations in good faith to see whether such limitations are consistent with the national security interests of the United States.

The recent Soviet proposal to destroy existing "space strike arms," to including ASAT weapons, would preserve existing Soviet advantages in ASATs, constrain US programs, and be virtually impossible to verify effectively.

I hope that this has been responsive to your request. Please let me know if I can be of further assistance.

With best wishes,

Sincerely,

WILLIAM L. BALL III,
Assistant Secretary Legislative and Intergovernmental Affairs.

PROGRESS IN CYSTIC FIBROSIS RESEARCH

HON. SILVIO O. CONTE

OF MASSACHUSETTS

IN THE HOUSE OF REPRESENTATIVES

Friday, October 11, 1985

Mr. CONTE. Mr. Speaker, cystic fibrosis, the most lethal genetic disease in children, has been one of the most intractable and mysterious diseases facing biomedical research. I am pleased today to make note of an article in the Wall Street Journal indicating that a key step has been taken in developing a diagnostic test for cystic fibrosis. Cystic fibrosis is beginning to yield to all of the effort being put in to research in this area, and it becomes even more important that we persevere in our research efforts until we have the answers to this disease.

[From the Wall Street Journal, Oct. 10, 1985]

SCIENTISTS CLOSER TO DEVELOPING TEST FOR CYSTIC FIBROSIS

(By Jerry E. Bishop)

Geneticists in the U.S. and Canada said they have taken a key step toward developing a prenatal diagnostic test for cystic fibrosis.

Scientists from Collaborative Research Inc., a small biotechnology company in Lexington, Mass., and from Toronto's Hospital for Sick Children, said they had pinpointed a genetic abnormality, or "marker," that appears to accompany the still-undiscovered genetic defect that causes cystic fibrosis. If a second genetic market can be found, then the scientists said they could devise a relatively simple test that could determine whether a fetus has cystic fibrosis.

Cystic fibrosis is an inherited disease that afflicts the pancreas and other glands. A patient suffers crippling breathing and digestive problems. The disease is incurable, although with adequate treatment about half of the patients live to young adulthood and many lead productive lives.

The disease occurs in one of every 2,000 births. If both parents, who may be healthy, carry the genetic defect, there's a 25% chance that their children will have cystic fibrosis. It is believed about 10 million people in the U.S. carry the genetic defect, and about 33,000 people have the disease.

Several medical centers and biotechnology companies have been racing to develop a diagnostic test for cystic fribrosis. The test would be useful primarily for families who are known to carry the cystic fibrosis genetic defect by virtue of having had a close relative born with the disease. The test would allow the prospective parents to make a de-

cision about an abortion or to be reassured that the fetus is healthy.

In a report to a meeting in Salt Lake City of the American Society of Human Genetics, the U.S. and Canadian scientists said a genetic probe developed by Collaborative Research had been tested on the genes of 50 Canadian families who had had two or more children with cystic fibrosis. The probe binds to a genetic abnormality that appears to occur only in carriers of the cystic fibrosis genetic defect.

The newly discovered genetic marker doesn't itself cause cystic fibrosis. Scientists know only that, on a strand of genetic material, it lies near the cystic fibrosis defect. To make the test accurate, a second abnormality lying on the opposite side of the cystic fibrosis defect must be found. By having two markers that straddle the cystic fibrosis gene, the scientists said they can be positive that the presence of both markers signifies the presence of the defect. How soon the second marker will be found is uncertain, although at the current rate of progress in genetic research, it could be within one or two years, the researchers indicated.

INJUSTICE UNDER ATTORNEY GENERAL MEESE

HON. BRUCE F. VENTO

OF MINNESOTA

IN THE HOUSE OF REPRESENTATIVES

Friday, October 11, 1985

Mr. VENTO. Mr. Speaker, I was recently astonished and outraged to read a statement published in U.S. News & World Report by our Attorney General, Edwin Meese, regarding his views of the Miranda ruling and the rights of criminal suspects. In response to the U.S. News & World Report question, "You criticize the Miranda ruling, which gives suspects the right to have a lawyer present before police questioning. Shouldn't people, who may be innocent, have such protection?", Mr. Meese states, "Suspects who are innocent of a crime should. But the thing is, you don't have many suspects who are innocent of a crime. That's contradictory. If a person is innocent of a crime, then he is not suspect."

Mr. Meese has publicly stated that innocent people are not suspects, thus assuming that all suspects are guilty. The proposition in our Bill of Rights that one is innocent until proven guilty is obviously foreign to Mr. Meese. Suspicion does not prove guilt. It is inconceivable to me that the person who has taken an oath to uphold the Constitution has made such an abhorrent statement which contradicts the Bill of Rights, the document which was created to protect the innocent people who may become suspects.

This statement cannot be left to fade with the passage of time. Our civil liberties are at stake. This Miranda ruling protects our basic right to due process. Mr. Meese believes not only that this decision was wrong, but that the fifth amendment of our Constitution is wrong.

The position of Attorney General is much too important to the preservation of our civil liberties to be left in unknowledgeable hands. Mr. Meese should take a beginners course in our Constitution and if he does not agree with the basic tenets of our Nation and constitutional rights we are guaranteed, he should submit his resignation!

At this time I would like to bring to the attention of my colleagues an Aaron Epstein news report on the Meese statement.

[From the St. Paul Press and Dispatch, Oct. 10, 1985]

PRESUMPTION OF INNOCENCE ROTATED 180 DEGREES BY MEESE—SUSPECTS ARE GUILTY BY HIS DEFINITION

(By Aaron Epstein)

WASHINGTON.—Legal scholars and civil libertarians are reacting with bewilderment and outrage to a published statement by Attorney General Edwin Meese that criminal suspects are not innocent and therefore should not have the right to an attorney when the police question them.

Meese made the statement in an interview appearing in the current issue of U.S. News & World Report. It includes this dialogue:

"Q. You criticize the Miranda ruling, which gives suspects the right to have a lawyer present before police questioning. Shouldn't people, who may be innocent, have such protection?

"A. Suspects who are innocent of a crime should. But the thing is, you don't have many suspects who are innocent of a crime. That's contradictory. If a person is innocent of a crime, then he is not a suspect."

Harvard law professor Laurence Tribe, an expert in constitutional law, said Wednesday that Meese "obviously does not believe in the presumption of innocent. Mere accusation does not transform one into a criminal. Civilized society could not long survive if Mr. Meese's views became prevalent."

"It's dangerous to have the attorney general spouting such nonsense," declared Paul Hoeber, professor of criminal law at the University of California's Boalt School of Law. "Obviously, many people are suspected who turn out to be innocent of a crime. The fact of suspicious is not the equivalent of guilt."

"For an attorney general of the United States to be speaking that way shows an unbelievable lack of understanding of the Bill of Rights, and he should be ashamed of himself," agreed Arthur Spitzer, legal director of the American Civil Liberties Union office in Washington, DC.

"Not everyone who is arrested is guilty. Innocent people are arrested every day, mostly by mistake and occasionally by frameup. The Bill of Rights is meant to protect those innocent people who become suspects," Spitzer said.

"He's got the whole thing backwards," said University of Michigan criminal law professor Yale Kamisar. "It's incredible. A person who is a suspect does not have to do anything to establish his innocence; the government has to come up with the evidence to justify prosecuting you and proving you guilty beyond a reasonable doubt."

Kamisar said he found it "mind-boggling" that the statement came from a man who recently benefited from the presumption of innocence himself. Before being confirmed as attorney general early this year, Meese was cleared by a special prosecutor of "what amounted to criminal activity," Kamisar recalled.

Terry Eastland, chief spokesman for Meese, said that U.S. News had permitted Meese to examine his answers before they were published.

Eastland said that Meese believed that the first part of his response to the Miranda question, though accurate, "was not very clear." Meese asked the magazine editors to omit it, but "they declined, as they had a right to do," Eastland said.

Actually, he added, the attorney general "believes that a person is innocent until proven guilty. . . . What he's trying to say is that there are suspects who turn out to be criminals but that Miranda is used in a way as to release them . . . on a technicality."

Sen. Joseph Biden, top Democrat on the Senate Judiciary Committee, after learning of Meese's published statement, exclaimed:

"My God . . . Ed Meese's answer is the overwhelming proof of why we need Miranda . . . because there are people like Ed Meese who believe that anyone who's a suspect is guilty until proven innocent. My God, this guy's beginning to worry me."

GLICKMAN HAS EYES ON DOLE SENATE SEAT

HON. MARY ROSE OAKAR

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

Friday, October 11, 1985

Ms. OAKAR. Mr. Speaker, my friend and colleague Representative DAN GLICKMAN is being urged to run for the Senate from the State of Kansas. I believe that Congressman GLICKMAN would pose a worthy challenge to the majority leader of the Senate, Mr. DOLE. DAN GLICKMAN is one of the strong voices and fine leaders in the House. We will sorely miss him if he decides to seek the Senate seat.

I would like to submit to the RECORD an article which appeared in the Washington Times on my colleague from the State of Kansas:

GLICKMAN HAS EYES ON DOLE SENATE SEAT

(By Thomas D. Brandt)

Down the street from the Kansas State Fair in Hutchinson last month, in the heart of the home turf of Senate Majority Leader Robert Dole, about 500 folks gathered for an increasingly common Midwestern affair, a "Farm Crisis Rally."

The organizer was Rep. Dan Glickman, a slightly built fellow with a perpetual 5 o'clock shadow, a sunflower lapel pin and a 12-year string of electoral wins all the more remarkable because he is a Democrat in a Republican state.

Somebody pushed in a wheelbarrow of fresh manure labeled "Administration Farm Policy." Somebody else wrote in "Dump Dole," which is the name of an organization started in February after Mr. Dole helped President Reagan kill an emergency farm relief bill.

Imported Democrats like Sen. Tom Harkin of Iowa and Texas Agriculture Secretary Jim Hightower attacked Reagan administration farm policy and gave fulsome praise to Mr. Glickman, the five-term congressman most capable of challenging Mr. Dole for re-election next year.

Such is life around Mr. Dole, one of the dominant figures of American politics whose concerns go from the earthy to the international, from the farm house to the White House. If there is one mandatory checkpoint in the legislative go-round between

the White House and Capitol Hill, it is probably in the chambers of Mr. Dole.

While few serious observers now think Mr. Dole could be beaten by Mr. Glickman in next fall's elections, the majority leader's status demonstrates a fact of American politics: The higher one's career rises inside the Beltway, the greater the strains in the hometown base.

Back at home there is always a Glickman chipping away at the foundation.

Few lawmakers have an ambitious an agenda as Mr. Dole, which falls into four political divisions: getting re-elected next year; running the Senate; getting enough Republicans elected to the Senate so they remain the majority and he remains majority leader; and using that post as a base for a probable presidential bid in 1988.

To protect the base of this pyramid Mr. Dole has taken the political veteran's approach:

In August he sent a top Washington aide, John Peterson, back to Kansas to supervise the state staff who operate four permanent and one mobile office.

He already has amassed nearly $2 million of the $3 million that his state political advisers recommended. He spent $1 million for his 1980 re-election. The formidible size of the fund—Mr. Glickman has less than $200,000—makes it more an insurance policy that can be converted into a campaign warchest. If no challenge materializes the fund can be converted for a 1988 presidential bid.

He has tried to include at least two trips a month back to Kansas in his heavy national and international travel schedule.

He has worked to repair the damage to his farm record caused by his February support of the president's veto of emergency farm credit.

He has criticized Mr. Glickman's record.

"Somebody like Glickman, all he ever does is go around and criticize what everyone does," Mr. Dole said in August. "He can criticize me, criticize whatever, but he's never met a federal program he didn't like. As far as I know he never voted to cut spending anywhere."

The support Mr. Dole gave to the president's February farm veto spawned a Kansas movement against him that demonstrates the hazards of pyramid building. A leader maneuvering on the national stage might not always do what Kansas wants. Potomac Fever can be life threatening to a Kansan.

"He [Dole] certainly has lost favor in the rural areas of Kansas," said Charles Hardenburger, 49, a Republican and lifelong farmer who helped found "Dump Dole." But in a recent telephone interview, he said "some decent farm legislation would temper the situation considerably."

Mr. Glickman, in an interview in his House office, concedes that if he were to run against Mr. Dole today, "I would lose."

Mr. Dole has maintained his standing with the large, powerful and conservative Farm Bureau.

Still, Mr. Glickman believes that farm policy strikes at the soft underbelly of Mr. Dole and many other Midwestern Republicans in the 1986 elections.

"The plight of rural America and its ability to survive would be at probably the heart of any campaign that I or anybody in our region of the country would run," Mr. Glickman said.

"It [farm economy] wasn't perfect before 1981 [when Republicans took over the White House and Senate], but it's a heck of a lot worse today and it's gone down hill much faster than anyone would have anticipated in terms of crop prices, farm land values, small towns, banks, just the whole process.

Meanwhile back at the fairgrounds, while Mr. Glickman was having his nearby rally, Mr. Dole had returned to the core practice of politicians—working the crowd. Because of a minor flap in the Kansas press a few days before, Mr. Dole's office had canceled plans for a fairgrounds press conference scheduled for exactly the same time as the Glickman rally, 2:30 p.m.

Mr. Dole's office said the timing had been an oversight by a junior staff member, but the episode was another sign of the long-term friction between Mr. Dole and Mr. Glickman.

The flap illustrates that while Mr. Glickman cannot yet draw blood from Mr. Dole, he can raise a welt at a time when the senator wants to remain focused on running the Senate and laying a base for a presidential bid.

To challenge Mr. Dole, Mr. Glickman must convince Democratic party operatives that he is not a fool's mission before they invest funds, Mr. Glickman also said that he will not run as a "sacrificial lamb," beneficial as it might be to Democrats in Congress to have Mr. Dole distracted by a strong challenge in Kansas.

This party and candidate examination process will move ahead on Wednesday when the Democratic National Committee, as one of the events around their largest annual fundraising dinner, will have Mr. Glickman address a policy council in Washington on "the farm crisis."

Commenting on the many demands on Mr. Dole, his press spokesman, Walt Riker, said, "It's a very difficult juggling act. It's the price of leadership. You've got to be a very special person to pull it off."

By many accounts he is so far succeeding.

Sen. Phil Gramm, Texas Republican, who said he did not vote for Mr. Dole for majority leader in the first round of party balloting last year, now says "my opinion of and respect for Bob Dole has grown every day I've been in the Senate."

Sen. Slade Gorton, R-Wash., said, "I haven't heard a whisper of criticism of his leadership." Among Senate Republicans, he said. Mr. Dole is "rock solid."

Sen. Daniel Evans, Washington Republican, commenting on a Dole trip to the Far East in August for delicate talks on trade, said he did a "masterful job. He represented the United States very well. He represented the Senate very well."

During his first nine months as majority leader, the Senate has lurched steadily through enormously controversial issues such as the MX missile, funds for the anti-Sandinista Nicaraguan rebels, the budget wars and South African economic sanctions. It has been done with a relative minimum of floor debate and minor use of the filibuster, the sledgehammer of parliamentary tools that had been overworked during the frustrating last two years of the term of Mr. Dole's predecessor, Sen. Howard Baker, Tennessee Republican.

There was a maximum of closed-door conferences in Mr. Dole's chambers, and a remarkable level of independence from the White House.

All this has apparently kept his Senate Republicans happy, which is critical to Mr. Dole's short and long-term political plans as he works to maintain the GOP's 53-47 majority control of the Senate.

Should the Democrats regain the majority, which could happen since they have only 12 seats up for reelection next year compared with 22 for Republicans, Mr. Dole would suffer a double blow that could cripple his hopes for a presidential run in 1988.

Blame for loss of the Senate would be partly laid to him. Also he would no longer be majority leader, one of the premier posts for commanding headlines, second only to the president and equal to the speaker of the House.

Mr. Glickman, while relatively unknown in Washington, has excellent political capital in Kansas. His hometown is Wichita which is the major city and media market in his district and the state. He was elected to the school board there when he was 28.

He is an activist member of the House Agriculture Committee, which endears him to Kansas' farm bloc.

Wichita also is the nation's center for production of general aviation aircraft—everything short of jetliners—with Cessna, Piper, Beechcraft and Boeing having plants there.

Mr. Glickman happens to be chairman of the House aviation subcommittee that oversees general aviation. He also enjoys the prestige of service on the Judiciary Committee.

In 1980 he was re-elected with a 69 percent margin, which grew to 74 percent in both 1982 and 1984. He campaigns well and is an effective debater on the floor of the House where he is seen as a champion of farm interests. The record of this 40-year-old politician has created the assumption that he is destined for greater things.

In July the Congressional Quarterly, handicapping Senate races, said "Dole is secure unless Rep. Dan Glickman runs." CQ's political editor, Alan Ehrenhalt, stood by the assessment last week. "There's no question people are angry in Kansas," he said.

As things stand now, Mr. Dole would be expected to beat but not crush Mr. Glickman, Mr. Ehrenhalt said.

"I am cognizant that he is a very clever, creative individual that I would be dealing with who has bundles and bundles of money," Mr. Glickman said in speculating on a challenge to Mr. Dole.

"But he's never dealt with anyone like me before either. I'm a pretty creative, clever person myself, and pretty non-traditional. One does not win a race like this by being traditional."

None of this is lost on Mr. Dole who, as a veteran politician, takes nothing for granted. "He never understimates his opponent," his spokesman, Mr. Riker, said

The Dole organization has done its own polling, especially on the farm issue and how the senator stands relative to President Reagan. The results, according to Mr. Riker, are that Mr. Dole has twice the approval of the president, about 30 percent to 60 percent, on farm policy.

"No doubt it's an issue and it's a big issue," Mr. Riker said. By most accounts Mr. Dole is regaining much of the ground he lost in February when he took a stand that was based on his anti-deficit commitment.

He has pushed a farm bill to the Senate floor, expected to come up within the next two weeks, that is much more generous to agricultural interests than anything the Reagan administration had supported.

"In the end they [Kansans] know that he will do what is right," Mr. Riker said.

HATS OFF TO EDDIE ROBINSON

HON. LINDY (MRS. HALE) BOGGS
OF LOUISIANA

IN THE HOUSE OF REPRESENTATIVES

Friday, October 11, 1985

Mrs. BOGGS. Mr. Speaker, I would like to join in offering my congratulations to the "King of Collegiate Coaches," Eddie Robinson of Grambling State University in Louisiana. Coach Robinson has surpassed Alabama Coach Bear Bryant's miraculous record by coaching 324 winning football games during his career. Eddie Robinson has become college football's all-time winningest coach.

Coach Robinson and Grambling State University are synonymous with success and are legends in their own right. When Eddie Robinson joined Grambling, then Louisiana Negro Normal College, in 1941, he had no assistants; there was no budget; and training equipment was scarce. Attracting college football players who had the potential of becoming professional football stars was not easy. Today, 45 years later, Robinson has produced one of the most successful collegiate football programs in history. He has recruited for collegiate play more future NFL players than any other college in the United States. Willie Davis, Charlie Joiner, and Willie Brown are among the many well-known professional football players who have nothing but praise for their mentor, Coach Robinson. Louisiana loves him and he certainly is an outstanding role model for our young people.

This most recent issue of Sports Illustrated highlights his exemplary work Mr. Speaker, I would like to insert the article on our wonderful college football coach into the CONGRESSIONAL RECORD for my colleagues' consideration. I am sure everyone will agree that it is the national recognition Coach Eddie Robinson deserves.

HERE'S TO YOU, MR. ROBINSON

(By Rick Reilly)

Set 'em up bartender and pour it like you don't own it. Tonight we toast Eddie Robinson, college football's Old Man River, flowing sweeter and stronger than ever. Here's to what he helped us forget. In a year when it's an upset if a game comes off without an IRS audit, Robinson hit us with a stadium wave of nostalgia: a good coach with a simple program proving that with a little luck and 44 years of hard work a man can still win his way onto the front page.

And here's to sport, which has a funny way of making amends. From the muck of baseball's worst drug scandal rose Pete and 4,192. From the dank of college football's Dole Bowls comes Robinson and win No. 324, the magic number that put him one ahead of Alabama's Paul (Bear) Bryant and made him history's winningest college football coach, bit or small, thin or stout, black or white. The victory came on Saturday night at the Cotton Bowl, where Robinson's Grambling Tigers beat Prairie View A&M 27-7 before an almost entirely black crowd of 36,652, 35,908 of whom had purloined sideline passes as the clock counted down to history . . . 3 . . . 2 . . . 1. . . . Sensing impending mayhem, Grambling's players formed a human retaining wall around the 66-year-old Robinson, chanting "No mo' Bear!" and inching their way to the tunnel like a giant, 160-pod beetle. The sight was so strange that, as they moved, Robinson abandoned his worried look and loosed a lovely grin.

Once inside the locker room, the incurable sentimentalist tried to keep his ducts dry. He had already cried that day at an 11 a.m. team meeting. Now, with the full realization in his throat of what he had done, Robinson scarcely made it past a postgame paragraph. "It has been my privilege [pause] to coach [pause] you young men. . . ." With that, the players began hollering, "Let it out, Coach! Let it out!" He did, and let it be written that he was not the only one.

This day's tears had been a long time coming. To begin with, Robinson's father, Frank, was gravely ill with Hodgkin's disease in Baton Rouge General Hospital, and with the hoopla of the record, Robinson couldn't visit him last week. "He doesn't know what's going on," Robinson said. Too, the nation's media had crammed into tiny Grambling, and elbows were knocking.

"Seems like every writer and TV man in the country has been here the last two weeks," Robinson's wife, Doris, said one day in their four-bedroom brick house, less than a long punt from the practice field. "And every one of 'em is hoping Eddie doesn't drop dead before he does *their* piece." Nightly, Robinson apologized to his team for being tardy to practice. "I believe I've been late more this week than in my previous 43 years coachin'," he said. That, says Doris, "Makes him like an old soreheaded bear."

The record would soon be broken, but when it was, would Bear loyalists be soreheaded themselves? Before the game they had seemed not. Robinson insists that he received not a single hate letter. Perhaps the only skittish moment came in Robinson's office two days before the game. A white man with a goatee, a black leather vest and a Johnny Cash hat showed up unannounced. "Coach, I drove all the way from Hartselle, Alabama to do this," he said. The room became quiet. Then the man stuck out his hand to shake. "I just want to tell you that if somebody has to beat the Bear, we are shore 'nuff glad it's you, 'cause you are a gentleman, sir."

Whether the South goes as Hartselle goes is unknown, but even Robinson—especially Robinson—knows that legends don't budge easily. And when the budgee is one of the most beloved names in the South and the new King of Coaches happens to be black, collars could get tight. Robinson worked hard to loosen them. "I could win 1,000 games and never replace the Bear," Robinson said, and he meant it.

Indeed, the Bear and the Heir were friends. Bryant presented Robinson with the Walter Camp Foundation's 1982 Distinguished American Award, though somebody else was scheduled to do it. When Bryant died, Robinson couldn't get a flight, so he drove 400 miles through the night to Tuscaloosa, Ala. to attend the funeral. Once there, Robinson could not get past church guards and might have missed it had not some Alabama players escorted him into the service.

Still, not everybody was ready to let Robinson have his coronation, humble as he tried to make it. Enter the Asterisk Army, the writers and fans who sit in dimly lit booths in the backs of bars and try to stop time with pocket calculators. Their asterisk dogs Roger Maris and Henry Aaron, and now it hunts Robinson, charging that more than 300 of his victories came against Division I-AA caliber teams.

Robinson doesn't try to refute that. "I grew up in the South," he says. "I was told where to attend elementary school, where to attend junior high school, where to attend high school. When I became a coach, I was told who I could recruit, who I could play, where I could play and when I could play. I did what I could within the system." More simply, Booker T. Washington once said, "Cast down your bucket where you are." Robinson's bucket is right where he left it—at the end of the rainbow.

According to Grambling associate athletic director Fred Hobdy, Bryant told the Grambling staff in the late 1970s, "Whatever league you're in, whatever level, win there." At times that required extraordinary perseverance at Grambling. "No man but Eddie would have worked under these conditions," says Hobdy, who played for him in 1942 and '46-48 and hasn't left since. In the '40s, Robinson was a one-man athletic department. He would mow the football field, mark the lines, drill the drill squad, tape ankles, drive the injured to the doctor and write the game story for the local papers. One started, "Outlined against a blue-gray October sky. . . ."

The not so good old days lasted a long time. "Guys would come back to visit us, and they'd say, 'Hey, you guys got *grass* to practice on?'" says defensive coordinator Fred Collins. True enough. Says Tank Younger, now the assistant general manager of the San Diego Chargers, "We practiced on dirt."

Sometimes even dirt was a luxury. Once, in Montgomery, Ala., Grambling wasn't allowed to work out on a football field the day before the game, so Robinson stopped the bus on an empty parking lot and held practice there. Another time, after a Friday dinner, Robinson got the players to push the tables and chairs aside and practice right there, in a hotel ballroom. *Do a down-and-out to the raisin salad and I'll fake it to you.*

Discrimination and anorexic budgets were just two of the trapdoors the Bear didn't encounter. Robinson recruited some 200 future NFL players—more than any other school—with a yearly budget about equal to Alabama's outlay for stamps. He has recruited against major colleges offering prestigious scholarships, luxurious dorm rooms, plentiful training tables, big-time bowls, TV exposure and, as the NCAA is loath to find out, Lord knows what else.

Robinson's achievement is that he worked for 44 seasons within the white system and then, on a Saturday night in Dallas, beat that system. "He has overcome the shackles," Hobdy says. "He won in spite of the handicaps."

Now he was winging toward more wins than any other man, courtesy of Prairie View, the team he had beaten 17 of the previous 18 years, but the team he was suddenly likening to Leahy's Irish. During one interview, Robinson got a sour look on his face and said, "I'll just bet you Prairie View is practicin' right this minute." If Prairie View was, it didn't help. Grambling scored on its first and third possessions to go ahead 14-0. Tiger defensive backs intercepted five passes, returning one for a touchdown and a 20-0 halftime lead. All that remained was to wait and wonder how to act when The Moment came, a feeling not unlike holding a pose while waiting for the electronic flash to warm up.

Still, all one had to do was look down the Grambling sideline to get a jolt: Young and old Robinson products had come to the Cotton Bowl, from Younger, the first NFL star from an all-black school, to Hall-of-Famer Willie Davis to Doug Williams, the most successful black NFL quarterback, to Grambling president Dr. Joseph B. Johnson, who had been recruited by Robinson. "This is a record made of players," Robinson told his team before the game. "It's a record made up of men like you for the last 40 years. This is your chance to leave your footprints in the sands of time."

Footprints were fine for some, but as The Moment drew nigh, one player, defensive end Chris Adams, wanted something more tangible. He had sneaked a Kodak Instamatic onto the bench and was snapping his own pictures of Robinson as the seconds dwindled down. "I want to have something to remember this by," he said.

"People can do what they want with the record," Robinson said. "They can put an asterisk on it if they want. That's their business. But look, I got my inspiration from all coaches, from college coaches and high school coaches, black and white. I remember Willie Davis would come back and tell me all about Vince Lombardi. Man, that lit *fires* under me. That got me *burnin'*. I took my inspiration from the great American coaches—Warner and Stagg. Man, I got to watch the Bear work! And I worked hard, too. I busted my butt. I always knew my part to play, and if my part ended up having something to do with history, then I'm happy. I never let anybody change my faith in this country. All I want is for my story to be an American story, not black and not white. Just American. I want it to belong to everybody."

When will the story end? Robinson's record may stand as long as Rose's. He can coach four more seasons—Louisiana state law requires that he retire at 70—but by then, he could have 360 wins, a fur piece from No. 2 John Gagliardi of St. Johns-Minnesota at 235, No. 3 Bo Schembechler of Michigan at 190 and No. 4 Joe Paterno of Penn State at 180. "I hope somebody will break it," says Robinson. "I'd like to see it."

Here's hoping. And here's to you, Mr. Robinson. You grow old like a river, deeper and swifter every day. And we, lucky we, are carried away with you.

WE NEED A COMPREHENSIVE TRADE POLICY

HON. BRUCE F. VENTO

OF MINNESOTA

IN THE HOUSE OF REPRESENTATIVES

Friday, October 11, 1985

Mr. VENTO. Mr. Speaker, the House approved H.R. 1562, the Textile and Trade Enforcement Act. I voted for this legislation for several reasons.

The primary reason is the inability of the President and his administration to come to grips with our trade deficit and particularly the impact of imports on our own domestic industries.

To be sure, the President has finally come to realize the devastating impacts of our projected record $150 billion trade deficit and has proposed a series of steps to increase U.S. international exports. Certainly we should support these steps and I have cosponsored legislation designed to carry out some of these goals.

However, these policies will not benefit our textile industry, our machine tool industry and many of those other industries so crucial to our manufacturers industrial base. To effectively meet the needs of those industries, we must develop a comprehensive trade policy.

As I stated earlier, I did support the textile measure. However, we in Congress must realize that this bill is limited in nature and does not address the entire equation of our foreign trade deficit. It is rather a temporary solution to the very real problems facing our textile and apparel industries.

It is my hope that the President will use H.R. 1562 and the overwhelming expression of congressional concern about our trade imbalance to build upon his limited trade program and develop a comprehensive trade policy. In the long run, such an approach can benefit America, consumers, business, workers, and farmers, who need the security and certainty such a trade policy would provide.

Mr. Speaker, at this time I would like to share with my colleagues a statement by the Business Roundtable on the U.S. trade crisis. Finally even business groups are beginning to understand the urgency, concern, and horrors visited upon our economy because of the lack of a clear deliberate U.S. administration trade policy. While I do not agree with every aspect of this statement, I believe it is an appropriate formulation of the problem and a responsible recommendation for action. It is my hope that the administration and we in Congress will use this statement as a reference in tackling the trade deficit and lack of trade policy in a meaningful manner.

STATEMENT BY THE BUSINESS ROUNDTABLE ON THE TRADE CRISIS

As Congress and the Administration consider major actions on the trade crisis, the Business Roundtable has developed the following statement of principles to guide U.S. actions on trade. The statement is also being used by the Roundtable Task Force on International Trade & Investment to develop positions on specific trade proposals that are before Congress.

STATEMENT

The United States today faces a crisis in international trade. Unless strong leadership is provided by the President and Congress, this country's response to the crisis could trigger a disastrous trade war and permanently weaken the competitiveness of American industry.

In 1985, the United States trade deficit is expected to reach $150 billion.

In 1986, the United States will become the largest foreign debtor in the world. Total foreign debt could exceed $1 trillion in 1990.

Growth in the U.S. economy has slowed and unemployment remains high.

Nearly every major industry sector in this country is facing intense foreign competition, and an alarming number are seeking some form of import relief.

The value of the dollar remains at unacceptably high levels.

To date, the Administration has not been sufficiently responsive to the crisis. It has not made reduction of the trade deficit a major priority, nor has it demonstrated that it considers the trade crisis to be a serious problem.

Congress, on the other hand, has grown increasingly impatient with the lack of leadership by the Administration. It now appears likely to respond by enacting trade legislation which could threaten the international trading system.

The trade crisis urgently calls for strong and creative leadership by the President and the Congress. The Business Roundtable strongly urges the President to develop, announce and implement a detailed and aggressive trade policy that responds to the trade crisis. The Roundtable is encouraged by reports that the President intends to make a major statement on trade shortly. At the same time, we urge Congress as it reconvenes this fall to evaluate carefully trade proposals on the basis of facts, not emotions or perceptions. It is essential that the long-term implications of trade proposals be clearly understood.

U.S. trade policy should:

1. First and foremost, recognize that the trade deficit is linked to, and impacted by, budget, fiscal and monetary policy. Significant further reductions in the budget deficit and enactment of tax policies that encourage investment and savings are necessary steps to restoring U.S. international competitiveness and reducing the trade deficit.

2. Make restoration of U.S. international competitiveness a top priority and designate as a national goal the reduction of our current and trade account deficits.

3. More aggressively use existing U.S. trade laws, including Section 301 and the other trade laws directed at unfair trade practices, and more expeditiously resolve trade disputes.

4. Make better use of Section 201 (the "escape clause"), and utilize truly effective adjustment mechanisms, to enable U.S. industries to adjust more effectively to foreign competition.

5. Support a new round of multilateral trade negotiations. Such trade negotiations should be part of, and not a substitute for, a more aggressive trade policy.

6. Initiate parallel discussions with our major trading partners on economic and monetary issues affecting trade, including the exchange rate system.

7. Give higher priority to the promotion of exports through the adoption of export control policies and export finance programs that respond to international competition.

The U.S. Government should urge our trading partners to do the following:

8. Foreign governments need to act more quickly to reduce and eliminate their own tariff and non-tariff trade barriers. Japan should take more aggressive steps to increase imports and thereby reduce the bilateral trade imbalance.

9. Developed countries, most notably West Germany and Japan, should shift their domestic policies to encourage expansion of their domestic consumption and to achieve better balance in international accounts.

10. Newly industrialized countries, in recognition of their increased role in international trade, must also take prompt action to remove investment and trade barriers.

MR. MEESE—THERE YOU GO AGAIN

HON. THOMAS J. DOWNEY

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Friday, October 11, 1985

Mr. DOWNEY of New York. Mr. Speaker, over the past 5 years we have become accustomed to the startling views of Edwin Meese. Yet, today, the Attorney General surpassed even himself.

This morning's Washington Post reported the following remarks of the Attorney General, which are part of a longer interview with U.S. News & World Report:

But the thing is, you don't have many suspects who are innocent of a crime. That's contradictory. If a person is innocent of a crime, then he is not a suspect.

Mr. Speaker, in a single stroke the Attorney General of the United States removed one of our cherished constitutional provisions—that a person is innocent until proven guilty. We now have an Attorney General who believes in the presumption of guilt.

Before Mr. Meese rounds up the usual suspects, I really hope he stops and thinks about his own experience last year. Was he one of the chosen few—an innocent person who was wrongly suspected of improper conduct? Didn't he learn anything about the rights of the accused?

I am not sure which is more frightening: To have an Attorney General who cares so little for the Constitution of the United States, or to have one who learns so little from his own tragic experience. I urge Mr. Meese to repudiate his comments, or at least to allow them to be clarified by someone with a clearer sense of what is demanded of the Nation's chief law enforcement official.

THE NUCLEAR WASTE POLICY IMPROVEMENT ACT OF 1985

HON. JAMES M. JEFFORDS

OF VERMONT

IN THE HOUSE OF REPRESENTATIVES

Friday, October 11, 1985

Mr. JEFFORDS. Mr. Speaker, today I am introducing legislation to refine and improve the Nuclear Waste Policy Act of 1982. This legislation is specifically designed to revise the Department of Energy's [DOE] implementation of the 1982 act.

Under the provisions of the Nuclear Waste Policy Act, my home State of Vermont is one of 17 Eastern States with crystalline rock bodies being assessed as potential candidate sites for a high-level nuclear waste repository. As you can well imagine, the prospect of a nuclear waste site being located in Vermont has caused a furor in the State as intense as I can remember on any one single issue. The Department of Energy has held three public information meetings that were very well attended, to say the least, and a consortium of interested parties held a statewide meeting that was attended by some 900 people. I have been personally involved in these meetings and I can safely say that the overwhelming reaction at each meeting was one of concern and fear.

I voted in favor of the Nuclear Waste Policy Act because I feel strongly that the continued storage of nuclear waste materials in temporary facilities at nuclear powerplants across the Nation is the worst possible answer to the waste disposal problem. Before supporting this act, however, I insisted that the Governor of a chosen State have veto power over the final site selection. And as you know, this veto can only be overridden by a majority vote of both Houses of Congress.

At the present time, we are at a stage where the Department of Energy has identified approximately 200 rock bodies for further consideration and final guildelines for the screening of these sites has just been announced. This screening process, as outlined by the 1982 act, considers various environmental, geological, and socioeconomic parameters to determine the suitability of an area as a potential waste site. Reviewing these guidelines has revealed not only deficiencies in the screening process but also basic inadequacies in the original law.

It is clear that the Nuclear Waste Policy Act did not place enough emphasis on the importance of considering the adequacy of regional and local transportation systems, and the potential transboundary impacts of a waste site in the population centers and hydrogeological resources of our foreign neighbors. In interpreting the act's requirements regarding population centers, DOE's screening guidelines creates a bias against the unique rural population centers that are prevalent in Vermont and throughout New England.

Mr. Speaker, I think you would agree that the immense task of finding a safe, suitable location for a high-level nuclear waste facility is equaled only by devising a safe and effective means of transporting this waste to the repository. With this in mind, I feel it is imperative that the condition of a region's transportation routes be fully assessed and considered a potential disqualifying factor if found to be inadequate. This survey must include an assessment of the status of these routes under varying climatic conditions.

In assigning various factors that would disqualify a location as a waste site, the 1982 act did not include any reference to the potential impacts of a site on the physical and biological environment of our foreign neighbors. This is an unfortunate oversight. As we all know, environmental and geological features know no political boundaries. This point was voiced by numerous Canadian citizens and officials attending the informational meetings held in Vermont.

The act did identify proximity to highly populated areas as a factor that would disqualify an area for further consideration as a potential waste site. The guidelines established by the Department of Energy regarding population, unfortunately, are not sensitive to the distribution of population in a rural area like Vermont. The Department has decided that municipaiities of 2,500 or more that meet the Bureau of Census definition of "incorporated place" will be considered a highly populated area. This census classification excludes the incorporated towns of Vermont.

The result of DOE's decision to use this classification is to ignore 3: Vermont municipalities with populations of 2,500 or more. Unless the problem with the definition of a highly populated area is corrected, these Vermont municipalities will be treated on a different basis then comparable municipalities in other States in the crystalline rock study area. The safety of those living in these uncounted populated areas requires that the guidelines be adjusted to include their consideration.

It would be inappropriate to locate a waste site in Vermont due to the fractured, water-saturated nature of our granite formations, the proximity of these rock regions to our rural community centers, and our relative location, geologically and along surface water routes, to major United States and Canadian population centers. I am confident that the screening process established by the DOE will bear out these obvious flaws and limitations in a Vermont site.

However to ensure that all sites in the crystalline rock study area are fully assessed on their limitations and merits, the legislation I am introducing today will refine the Nuclear Waste Policy Act to include a better assessment of the adequacy of a region's transportation routes, a more equitable consideration of rural population centers and an assessment of the impacts of a repository on Canadian population centers and hydrogeologic resources. This is indeed a very hazardous and dangerous undertaking and we must proceed with the utmost caution.

Mr. Speaker, I urge all my colleagues to give this initiative their full consideration and support.

PUBLIC SENTIMENT IN WHITE SOUTH AFRICA

HON. CHARLES B. RANGEL

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Friday, October 11, 1985

Mr. RANGEL. Mr. Speaker, I rise to bring to my colleagues' attention a little known element in the antiapartheid equation. This element is the widespread desire among South Africa's whites for sweeping change in that country's racial policies.

President Botha has indicated that he has been forced into a balancing act between those who want an immediate end to apartheid, and those who would fight to the bitter end. If one is to accept Botha's argument, one would believe that he has been exceedingly flexible in turning South Africa away from racial separation. The problem is, of course, that Botha's sup-

posed middle course is nothing more than maintenance of the status quo.

Most white South Africans now favor the dismantling of racial separation as the fundamental tenet of apartheid. They have not taken the next step of favoring universal franchise, but they are certainly not in step with Botha's hardline policies. Our colleague STEPHEN SOLARZ has written an excellent article on this subject. I would like to submit it for inclusion in the CONGRESSIONAL RECORD, and urge my colleagues to give it close scrutiny.

[From the New York Times, Oct. 8, 1985]

TACKLING APARTHEID FROM THE INSIDE

(By Stephen J. Solarz)

WASHINGTON.—Defenders of the status quo in South Africa have resorted to the convenient fiction that the unyielding resistance of the white electorate prevents Pretoria from abolishing apartheid. In fact, the Government actually trails white opinion rather than being constrained by it. Public opinion polls indicate that roughly 70 percent of English-speaking whites and 40 percent of Afrikaners—or a slight majority of the white population—would support a unified South Africa with a universal franchise and a multiracial parliament. They would also back the elimination of such essential elements of apartheid as pass laws and influx controls, which separate blacks from their families.

This significant shift in white opinion can be traced in part to the movement of many Afrikaners from the country to the city. This has created a new class of businessmen and technocrats, who are more sophisticated and more skeptical of the illusions and sophistries of apartheid. The secret organization of Afrikaners known as the Broederhood, which has long been a bulwark of apartheid, now favors genuine power-sharing with blacks. And leading Afrikaner businessmen have joined their English-speaking counterparts in calling for fundamental political, social and economic changes.

To be sure, most South African whites would reject a unitary state based on the principle of one-man, one-vote, in which 51 percent of the voters could work their untrammeled will. But they might well accept a system of checks and balances based on a combination of majority rule and minority rights, with Federal arrangements providing for a devolution of power to regional and local authorities. While such a formula clearly falls short of maximum black aspirations, it would probably be an acceptable starting point for a long overdue dialogue between the races.

A move by the Government to enter into negotiations for power-sharing with blacks would undoubtedly trigger a backlash from hardline Afrikaners, leading to a fundamental political realignment among whites. The resulting fragmentation of the National Party's Afrikaner base might well deprive it of an absolute majority in Parliament. But it could still remain in power by forming a governing coalition—committed to ending apartheid—with the main opposition party, the Progressive Federal Party.

Unfortunately, such an act of surpassing statesmanship seems beyond the ability—or even the imagination—of President P.W. Botha. The Government is unwilling to further divide the Afrikaner community and risk relying on English-speaking whites for its parliamentary majority. Most importantly, the Government fears that sharing power with blacks would be the first step on a slippery slope toward the political chaos and economic disintegration that have overcome other African countries.

But whites in South Africa have a highly selective vision of the rest of Africa. They focus on Uganda under Idi Amin but forget about the Ivory Coast under Félix Houphouët-Boigny. They recall civil war in Nigeria but not social stability in Kenya. They remember internecine tribal conflicts in Burundi but overlook political pluralism in Botswana.

In fact, the chances that genuine power-sharing will be compatible with prosperity and stability are probably greater in South Africa than anywhere else on the continent. South Africa benefits from extraordinarily rich natural resources and an advanced industrial infrastructure. Furthermore, compared to most other African nations, South Africa has a substantially larger number of educated and urbanized blacks—and thus much less chance of being plagued by the kinds of tribal conflicts that have created problems elsewhere in Africa.

Yet the Government clearly has no intention of sharing significant political power with blacks, let alone negotiating with recognized black leaders. Its list of appropriate negotiators is comprised primarily of coopted blacks, such as homeland leaders, who are acceptable to whites but anathema to blacks. Meanwhile, it keeps Nelson Mandela in jail, excoriates white business leaders for talking to the head of the African National Congress, Oliver Tambo, charges the Rev. Allen Bosesak with treason and ignores Bishop Desmond Tutu.

Pretoria has recently tried to create the impression that it is prepared to fundamentally alter the political system. Yet it has declared it would permit the independence of additional homelands, even though the reintegration of the existing ones into South Africa is an essential condition for a peaceful settlement. And it has insisted that any future black political participation must reflect tribal affiliations—something that is utterly unacceptable to moderate as well as radical blacks.

What about the reforms that Pretoria has initiated, such as the repeal of the Mixed Marriages and Immorality Act? Whites see them as cosmic, but blacks feel they are merely cosmetic. For blacks, the issue is no longer the segregation of the races but the distribution of political power. Arrangements designed to create the illusion of black participation while preserving the reality of white domination are a formula not for peaceful reconciliation but for prolonged resistance.

Only South Africans can rescue their country from the looming abyss of civil war. Just as President Reagan's policy of constructive engagement could not bring Pretoria to its senses, American economic sanctions alone will not bring it to its knees. It will take a combination of increasing internal and international pressure to convince the South African Government that the price of maintaining apartheid exceeds the cost of abandoning it.

Here, the United States is poised to play a useful role, as anti-apartheid actions spread from Capitol Hill to the White House, and from college campuses to the board rooms of some of our largest banks. We can only hope that Pretoria will heed the calls from within and outside the country to abolish apartheid and share real political power with blacks. Such an initiative would undoubtedly unleash bitter opposition from many of the Government's traditional supporters. But it would also generate widespread support abroad and, most importantly, surprising sympathy from much of the white community at home.

DEMOCRATIZATION OF THE PHILIPPINES

HON. GEORGE MILLER

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Friday, October 11, 1985

Mr. MILLER of California. Mr. Speaker, during the last election, President Reagan said that the choice for America in the Philippines was between the Government and the Communists. It would certainly have been interesting to have the President explain his statement to the widow and followers of assassinated opposition leader Benigno S. Aquino, Jr., who was far from being a Communist.

While clearly the statement was not true at the time the President made it, it may very well become true in the not-too-distant future. The failure of the Reagan administration to send strong clear signals to the Marcos government that its current policies are unacceptable will lead to a strengthening of New Peoples Army. This failure will also undermine the ability of non-Communist opposition forces to offer leadership for the post-Marcos era which hopefully will be the dawning of the democratization of the Philippines.

Recent articles in the New Republic point out the all too familiar patterns occurring in the Philippines that could undermine the interests of the United States. While the administration fails to take action, the position of moderates is threatened. As American taxpayer aid continues to flow to the Philippines, the privileged class sends an almost equal amount of money out of the country.

It will be a shame if America should stand in the way of those opposition factions which are seeking to bring democracy and economic justice to the people of the Philippines.

The article by Pete Carey, Katherine Ellison, and Lewis M. Simons, which elaborates on these observations, follows:

MARCOS'S NEST EGG

As the Philippines sink deeper into poverty, foreign debt, and political unrest, many of their most prominent citizens are systemically draining vast amounts of wealth from their nation and hiding it overseas. These political and business leaders, who largely determine the Philippines' economic destiny, have poured their personal fortunes into investments in the United States, including condominiums, luxury homes, office buildings, businesses, and banks in California and New York.

Overseas investments have emerged as a potent political issue in the Philippines. President Ferdinand Marcos and his so-called "cronies" have used their leadership position to accumulate large fortunes in the 20 years Marcos has been in power. Some opposition leaders abroad have made it their bitter vocation to track the holdings of the Marcos circle. Over articles last June in

the San Jose, California, *Mecury News* about the extensive U.S. investments of Marcos and his associates were reprinted in major opposition newspapers and discussed in radio broadcasts and sermons. More than 50 members of parliament signed a resolution calling for impeachment hearings. Marcos countered the resolution with a threat to dissolve Parliament and hold presidential elections in November. Marcos has now apparently dropped the idea of early elections, but the political fallout continues.

At the center of the controversy are Marcos and his wife, Imelda. Like many Filipinos who have invested overseas, they use holdings corporations or business associates to handle their transactions. The complex system makes it difficult to identify the real owners and to identify the relationships between business involved in the investments. But Pablo Figueroa, a former business partner of Mrs. Marcos, charged in a lawsuit filed in March 1984 that Mrs. Marcos "does business in New York State systematically and continuously" and that her activities included "extensive real estate purchasing, improving, developing and managing." Figueroa also said that Mrs. Marcos used agents and nominees "to keep hidden her personal . . . involvement" in the transactions.

Figueroa said that in 1981 Mrs. Marcos and several partners, using a Curaçao corporation called Ancor Holdings N.V., bought an estate on several acres of property in suburban Long Island known as Lindenmere, planning to expand it into a $19 million resort. Mrs. Marcos abandoned those plans and converted Lindenmere into a private estate. In the process, Figueroa said that she failed to pay him one million dollars she had promised as his share in the deal.

Figueroa has since agreed to drop his lawsuit, according to his attorney. (Mrs. Marco's attorney refused to comment on the suit.) But Figueroa's suit was identical to its allegations to one filed in 1984 by a partner of Figueroa, August M. Camacho. That suit, which also named Mrs. Marcos as defendant, ended with a substantial settlement for Camacho.

There is also evidence to support allegations that the Marcoses own other properties in the United States. A home in Princeton, New Jersey, is owned by an offshore corporation that is represented by the same law firm that represents Ancor Holdings. Police officials in Princeton say the home is used by Marcos family members.

The Marcoses are also linked to three condominiums in a Fifth Avenue apartment building in Manhattan. According to real estate records, the adjoining condominiums are owned by a Hong Kong corporation whose agent is a woman named Vilma Bautista. Bautista is also Mrs. Marcos's personal secretary in New York and a staff member for the Philippines U.N. delegation. She denies knowing about the condominiums. "There are so many names, there are so many numbers," she told us. "This could be another Vilma Bautista."

Other prominent Filipino government officials also often employed surrogates or offshore corporations for their overseas investments. Defense Minister Juan Ponce Enrile and his wife, for example, purchased a $1.8 million mansion in San Francisco through a company called Renatsac Inc., which is Enrile's wife's maiden name spelled backward. Enrile claims the mansion "was bought by a company and has been sold. We—my wife—was acting for someone. I won't tell you who it was. It's since been sold." Geronimo Velasco, Marcos's energy minister, occasionally resides at a $925,000 estate in a suburb of San Francisco, whose registered owner is a Hong Kong company called Decision Research Management Ltd.

Businessmen intimate with Marcos rely on the same methods. Antonio Floirendo is a banana baron of the Philippines. His business has thrived since Marcos came to power in 1972. Floirendo is also a director of Ancor Holdings N.V. Floirendo's own properties in the United States include three sugar refineries in Boston, Chicago, and Brooklyn, for which he paid $11.7 million, according to U.S. Securities Exchange Commission documents. He owns a one-million-dollar mansion in the Makaki Heights area of Honolulu and maintains a residence in the same Fifth Avenue apartment building where the three condominiums linked to Mrs. Marcos are located. A company called United Motors is listed as the owner of the condominium; Philippine records show that United Motors & Equipment is owned by Floirendo. Jose Y. Campos, a businessman said to be a close financial adviser to Marcos, used a firm called UNAM Investment Corp., registered in the Netherlands Antilles, to buy nine million dollars in property in downtown Seattle.

In other cases, real estate is held in the name of trusted American lawyers or agents. "I 'own' more goddamn property," said one American lawyer in San Francisco who has invested for prominent Filipinos for 15 years. "Tomorrow, if I wanted, I could sell $50 million worth of real property, get the money, and abscond. I could go to Rio and just say, 'Bye-bye, baby.' I just wouldn't 'cause they trust me."

Capital flight from the Philippines surged shortly after the assassination of opposition leader Benigno S. Aquino Jr. in 1983, according to a special study last year by the Northern California Interfaith Committee on Corporate Responsibility in San Francisco. The study found, "Out of fear of political and economic turbulence, over a billion dollars left the Philippines" in three months after the Aquino assassination. Marcos has issued a decree making it illegal for Filipinos to export large sums of cash or hold foreign exchange accounts without approval from the nation's Central Bank. But even Philippine government officials acknowledge deficiencies in the laws, which do not forbid overseas investments per se.

In fact, U.S. real estate agents relate instances in which their Filipino clients have plopped shopping bags stuffed with cash on their desks, no questions asked, to be used for investment in property. "It is illegal, and every once in a while, there'll be fines and confiscations," said the San Francisco lawyer who represents Filipinos and who insisted on anonymity. "But if the Philippine government really did anything about this, they'd be indicting all their own officials. They're the biggest offenders."

In the view of the opposition, extravagant foreign purchases compound the injustice of a regime that has favored a loyal few at the expense of millions of others. As reports of corruption proliferated between 1971 and 1979, the Philippines' large income-distribution gap widened even further. According to a study released last year by economists at the University of the Philippines, the poorest 60 percent of the households, which had received only 25 percent of total income in 1971, saw their share drop to 22.5 percent in 1979. The richest ten percent of the population, on the other hand, increased their share of total income to 41.7 percent from 37.1 percent in the same period.

Capital flight has probably made matters worse. According to Verne Dickey, an economist at the State Department, some Philippine factories have laid off workers or closed because there were no foreign currency reserves with which to buy raw materials and spare parts. U.S. Ambassador Stephen Bosworth relayed official American concern over the problem at a news conference in Manila in August 1984. Citing a leading Filipino economist's estimate that residents had removed more than ten billion dollars in recent years, Bosworth said, "Now, if even half of that would return to the Philippines for private investment, it would make a considerable difference here."

Some Filipino officials, including the Marcoses, denied that they owned any property in the United States. But the Marcos's statement added that the government's policy is to allow overseas investment: "So long as the acquisitions are legal, nobody can question the owner's right to these properties."

Energy Minister Velasco also flatly denied owning any property abroad, although his nephew Patrick de Borja told us that the Woodside mansion is a family house," and that Velasco stays there when he is in the area. Soon after the Mercury News series was published, Velasco offered to resign, but was reportedly persuaded to stay on by Marcos.

Defense Minister Enrile said that the propriety of U.S. investment "depends on the magnitude of money." In the past Enrile and his wife have owned three San Francisco properties, and Enrile acknowledged currently owning one condominium there. "If the holdings are of such a magnitude as billions of dollars, I'd say it would be just to get it out of the Philippines and I'd agree that it was harmful. But when I acquired mine, the economy of the Philippines was not what it is today. It was stable and strong," he said.

One Filipino leader who spoke freely was Nemesio I. Yabut, mayor of Makati, the financial district of Manila. A former policeman and cargo handler, Yabut has served as major of Makati since 1971 and is a strong supporter of Marcos. He comes to the Bay Area twice a year for medical checkups at Stanford University Medical Center.

Early one evening in May, Yabut answered the door of his $520,000 pink-stucco home in San Francisco's exclusive St. Francis Woods in pajamas and a bathrobe, and agreed to discuss his properties. He confirmed real estate records indicating he has owned, over the past few years, not only the two-story home, in his wife's name, but a $900,000 apartment building, at least two condominiums, and a San Francisco seafood restaurant called the Old Clam House. "But I'm only a lowly mayor," Yabut said. "I have very little money. . . .I'm small-fry."

Yabut confessed that he worried about publicity concerning his U.S. holdings, most of which have been in his own name, but insisted he had done nothing illegal. Although he has taken money out of the Philippines, he said, he also has brought money back. Nor, he said, has he illegally traded currency or neglected to pay U.S. taxes. "I remember the story of Al Capone," he said. "Al Capone was never convicted of anything but tax evasion."

U.S. real estate investments by Marcos' inner circle are merely the "tip of the iceberg," according to a senior executive with one of the largest banks in the Philippines. "You're not seeing the securities, the Swiss

bank vaults," he said in an interview in Manila. "The important thing is, it's unlikely that any of this money will return to the Philippines when transition is complete and we have stability. When their patron saint [Marcos] goes, most of them will go overseas to stay; most of them already hold green cards. These people have not bought U.S. real estate as a financial investment; it's for their retirement when they can no longer stay in the Philippines."

SHORT-TERM PROTECTIONISM VERSUS LONG-TERM SOLUTIONS

HON. DEAN A. GALLO

OF NEW JERSEY

IN THE HOUSE OF REPRESENTATIVES

Friday, October 11, 1985

Mr. GALLO. Mr. Speaker, I rise today to clarify my position with regard to our trade policy.

Earlier this year, representatives of both labor and management from within the textile industry visited my office to describe the impact that foreign competition has had on their industry.

The impact has been devastating. Our textile trade balance is substantially in the red. This situation has caused the loss of thousands of jobs.

At the time that these individuals visited my office, I was asked to join as a cosponsor of H.R. 1562. I glady joined this bill because there was no other alternative approach, and certainly our trade deficit needs to be addressed.

But now there is an alternative. Now, after very careful consideration and development, a real approach to balancing our foreign trade exists.

That alternative measure is actually the combination of a number of positive steps which will create a long-term solution to our foreign trade problems. These steps are all embodied in H.R. 3522, sponsored by Mr. MICHEL and 99 original cosponsors, of which I am one.

Protectionism just won't work. While we may have a large deficit, we are also the largest exporter in the world. A protectionist trade battle would ultimately harm American exporters more than it would encourage foreign nations to increase their American imports.

While I sympathize with our textile workers and manufacturers, I am convinced that the best way to encourage a recovery in the textile industry is not a part of the bill before the the House today.

The best means to encourage a recovery in the textile industry is not to start a trade war. Rather, the answer is to once again forge a working partnership that fosters growth for all of our exports.

The answer is in H.R. 3522.

The well-conceived package of ideas in H.R. 3522 would improve the international trade climate by causing adjustments to our monetary policy and interest rates. It would call for the enforcement of international trade laws, the strengthening of unfair trade and counterfitting restrictions, and the use of north shore oil as an inducement to the Japanese to bring about greater trade concessions.

Mr. Speaker, 1 month ago there was little else but to support a protectionist approach to our trade deficit. Today there is an alternative. The alternative is correct and is worthy of the support of all of the Members of this House.

ACTION NEEDED ON FIREARMS OWNERS PROTECTION ACT

HON. THOMAS A. DASCHLE

OF SOUTH DAKOTA

IN THE HOUSE OF REPRESENTATIVES

Friday, October 11, 1985

Mr. DASCHLE. Mr. Speaker, over 8 months ago our colleague, Mr. VOLKMER, introduced the Firearms Owners Protection Act. In July, the Senate passed its version of this act by a wide margin.

The Firearms Owners Protection Act is badly needed; it has bipartisan support; it has passed the other body. And yet, Members of our House are being denied the opportunity to even consider it.

I strongly support this legislation. As an original cosponsor, I share its author's belief that the way to curb firearm abuse is by attacking criminal abusers, not miring law abiding sports people in redtape.

I can understand and respect, Mr. Speaker, the views of those Members who may disagree with me on this issue. But I can neither understand nor accept those who would deny me and the other Members of the House of Representatives the opportunity to debate the merits of this legislation and to cast votes on behalf of our constituents.

The plain fact is that this bill does just what it says it will do; it protects law abiding gun owners. It does not weaken protection against law breakers; in fact, it strengthens it. The people of South Dakota understand the folly of trying to stop criminals with paperwork. They understand that paperwork may hinder them in enjoying a sport, but it will never stop the determined criminal. They resent the fact they can be jailed as felons for inadvertent errors in complying with current gun laws and, most of all, they demand that their voice receive a fair hearing on this issue.

I have been elected to be their voice. I desire to speak for South Dakota by voting in favor of the Firearms Owners Protection Act. Like the vast majority of the Members of this House who favor this bill, I would like to know why my rights, and those of my State, are being denied.

UPDATE ON THE COMMISSION ON THE BICENTENNIAL OF THE UNITED STATES CONSTITUTION

HON. LINDY (MRS. HALE) BOGCS

OF LOUISIANA

IN THE HOUSE OF REPRESENTATIVES

Friday, October 11, 1985

Mrs. BOGGS. Mr. Speaker, I would like to report that the Commission on the Bicentennial of the United States Constitution is now in full operation under the leadership of its chairman, Chief Justice Warren Burger. The 23-member Commission now has a full complement of members, its core staff has been selected, and it issued its first report to the President and Congress.

The members of the Commission are:

LIST OF MEMBERS

Warren E. Burger (Chairman), Frederick K. Biebel, LINDY BOGGS, Herber Brownell, Lynne V. Cheney, PHILIP M. CRANE, William J. Green, Edward Victor Hill, Cornelia G. Kennedy, EDWARD M. KENNEDY, Harry McKinley Lightsey, Jr., William Lucas, Edward P. Morgan, Betty Southard Murphy, Thomas H. O'Connor, Phyllis Schlafly, Bernard H. Siegen, TED STEVENS, Obert C. Tanner, STROM THURMOND, Ronald H. Walker, Charles E. Wiggins, and Charles Alan Wright.

The Commission has selected Mark W. Cannon as staff director and Ronald Mann as deputy staff director. The Commission's offices are located at 734 Jackson Place NW., Washington, DC, and its telephone number is USA-1789.

Last month the Commission submitted its first report on its activities to the President and Congress. A summary of this report follows:

EXECUTIVE SUMMARY OF FIRST REPORT: COMMISSION ON THE BICENTENNIAL OF THE UNITED STATES CONSTITUTION

The twenty-three member Commission on the Bicentennial of the United States Constitution was established by Act of Congress, Public Law 98-101. The President designated Chief Justice Warren E. Burger as Chairman of the Commission, and 20 members of the Commission were sworn in by Vice President Bush on July 30, 1985. The Commission appointed Mark W. Cannon as Staff Director and Ronald Mann as Deputy Staff Director.

The Commission met July 29-30 in Washington, D.C., and August 22-23 in Salt Lake City, Utah. Today, September 17, the Commission conducts public hearings at the Supreme Court of the United States at which 19 public and private organizations describe their plans and activities to commemorate the Bicentennial of the Constitution. This meeting helps inform the Commission as well as interested groups about current and contemplated Bicentennial activities.

The Commission will emphasize the educational opportunities afforded by the Bicentennial of the United States Constitution. The most lasting honor we can bestow upon the generation that gave us our form of government is to foster among the people of the United States a just appreciation and a clearer understanding of their constitutional heritage. In the words of the Com-

mission's Chairman it is an occasion for "a history and civics lesson for all of us." This commemoration can help us understand better the conditions that underlie human freedom, and it can enlighten our approaches to constitutional and policy issues that lie ahead.

The Commission proposes that the celebration of the historical aspects of the Constitution's Bicentennial have three phases, corresponding to the three-year period from 1987 through 1989. From now until September 17, 1987—the Bicentennial of the signing of the Constitution in the Philadelphia Convention—some emphasis will be placed on the events leading up to the Convention, the writings of the Founders, and analysis of the Constitution itself. The year 1988 should be one of public enlightenment about the deliberations during 1788 by the people in every State on the merits of the proposed Constitution, which led to ratification. The year 1989 will be dedicated to the formation of the first government and to the 200 years of the historical development of the three branches of government under the Constitution, and will prepare the way for a celebration of the Bicentennial of the Bill of Rights.

The success of the commemoration of the Bicentennial of the Constitution depends in a major way on the widespread and enthusiastic involvement of private groups and organizations to enlarge public understanding and appreciation of the Constitution. Accordingly, a major goal of the Commission will be to stimulate pervasive activity by thousands of organizations at the grass roots level that will educate their members and others about the Constitution and the unique aspects of that document to ensure freedom under law. The Commission will also work closely with State Bicentennial Commissions, federal agencies, and Congress in planning and coordinating government support and involvement.

A TRIBUTE TO T. JOHN CAREY

HON. WILLIAM J. HUGHES

OF NEW JERSEY

IN THE HOUSE OF REPRESENTATIVES

Friday, October 11, 1985

Mr. HUGHES. Mr. Speaker, I rise today to pay tribute to an outstanding civic leader of Ocean City, NJ, Mr. T. John Carey, who passed away on August 30, 1985. A longtime personal friend, "T.J." as he was called by many, will be sorely missed by the community he so dearly loved.

John lived in Ocean City since the age of 2. He set numerous sports records at the same high school where he was later a teacher and football coach. He loved the water and became south Jersey's champion rower. In 1935, John won the National Life Guard Championship. Later he was to become a moving force in the founding of the beach patrol and over the years he was its greatest booster.

As one of Ocean City's most prominent realtors, John is best remembered for his community work. He truly cared about his community and its people. His contributions to the city are numerous, the respect he received was great. John was the foremost expert on beach nourishment—a term he coined—to describe sand replenishment. He studied the ocean currents and wave action from boyhood days, and he had a deep understanding of the natural process that takes place along our coastal area. I would often see John on the beach after a severe Northeaster inspecting the damage and checking the effect of the groins, jetties, and wings that he helped to make possible.

As an avid conservationist, it was natural that he became a leader on the beach erosion committees in Ocean City and Cape May County. He coordinated projects for the build-up of dunes on the beachfront, and encouraged experimentation with innovative techniques to reduce the erosion of our beaches—one of our most precious natural resources.

John will also be remembered by the many wooden art plaques commemorating people and events that he so skillfully crafted in his shop. Several of his plaques have been presented here in Washington to Presidents of the United States, the Speaker of the House, to Senators and other dignitaries. I am proud of the one he presented to me many years ago.

John was one of Ocean City's leading citizens. He won the City's Community Service Award in 1966 and the Mason Lodge's Citizen of the Year Award in 1983.

To say that John will be sadly missed is really inadequate. He was one of a kind—a man whose life exemplified decency, a sense of community, personal integrity, kindness and commitment. His hardworking wife, Betty, was the perfect partner—loving, supportive, principled and public spirited.

I know that I speak for all who knew him when I say we will miss him greatly. Ocean City will feel this loss. I extend to Betty, his two brothers, Fenton of Ocean City, and Lewis Z. of Houston, and sister, Acelia Hall of Greenville, ME, my heartfelt sympathy on the passing of T. John Carey—a most remarkable man.

TRIBUTE TO BILL GAY, FOUNDER OF THE COTTON-PICKIN' FAIR

HON. RICHARD RAY

OF GEORGIA

IN THE HOUSE OF REPRESENTATIVES

Friday, October 11, 1985

Mr. RAY. Mr. Speaker, this past weekend, the 23d Cotton-Pickin' Fair was held in Gay, GA. Over the years, this twice yearly fair has become a big event in Georgia, attracting visitors and exhibitors from throughout the South.

There was a change at this month's fair, however, which was noticed by all who attended. For the first time, the fair's founder, Bill Gay, was not present.

In May of this year, Bill Gay died after an extended illness. Although he wasn't in Gay on Saturday and Sunday for the festival, his memory and presence was strongly felt by those who have worked with him to organize the event over the years.

Bill was always active in protecting the interests and concerns of the people of Gay, and he served as mayor of the town for 8 years.

With the decline in the value of cotton—one of Gay's major products—Bill and his wife, Joanne, looked for a way to bolster the community's falling economy.

By 1972, they had formulated a plan and put it into action—and the Cotton-Pickin' Fair was born.

The couple turned the old family cotton gin complex into a fairground. Twice a year, the first week in May and October, the area is open for an enormous fair, featuring exhibitions including crafts, food, antiques, personal items, and household goods. Almost anything anyone wants can be found in Gay during the Cotton-Pickin' Fair. But, the thousands of visitors who make their way to this rural Georgia town each year are impressed by more than simply the size of the fair. The most notable aspect of the Cotton-Pickin' Fair is the efficiency with which it's run.

The area is well-laid out, and every possible circumstance is planned for. A visit to the Cotton-Pickin' Fair is a pleasant and enjoyable day, and the planning done by Bill and Joanne Gay has made it that way.

This weekend, at the church service held on the fairgrounds, a memorial stone honoring Bill Gay was unveiled. Contributions for this tribute came from the exhibitors who have worked with Bill Gay over the years.

There is no location more fitting to place a memorial to Bill Gay than the site of the fair he planned, organized, and loved.

The Cotton-Pickin' Fair will continue even though Bill Gay is gone, for his hard work has established its reputation through the South. Although the stone will be a reminder to new visitors of the man who dreamed of this event, those of us who have been going to Gay for years will think of Bill Gay each time we join the thousands of others who come to the Cotton-Pickin' Fair to enjoy a day in the sunshine in one of the most beautiful areas of rural Georgia.

1986—TEXAS SESQUICENTENNIAL/SOUTH AUSTRALIA JUBILEE

HON. JIM CHAPMAN

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Friday, October 11, 1985

Mr. CHAPMAN. Mr. Speaker, as you know, Texas and South Australia are both celebrating their 150th anniversary in 1986. It is our sesquicentennial and their jubilee.

I would like to take this opportunity to join with my fellow Texans, the Vice President of the United States and the Governor of Texas in paying tribute to the grit and determination of a group of horse men and women who are celebrating this joint 150th anniversary of the States of Texas and South Australia.

This weekend, two of my constituents, Vickie Speir and Leana Rideout of Marshall, will begin a 600-mile trail ride on

horseback across Texas in commemoration of the independence of the Republic of Texas. Last month, Ms. Speir joined with two riders in Australia, Peter Knudsen and Mickey McKeown, in a 600-mile ride to celebrate the 150th anniversary of the founding of South Australia. Dubbed the "Jubilee Overlanders," these men and women are recreating the conditions that existed on the trail in the 1830's to help demonstrate the importance of horses to the heritage of our States and the conquering of the Texan and Australian frontiers.

The Texas ride, which begins this weekend, will cover some of the wildest and most scenic frontier country in my State. Beginning in San Antonio, the Overlanders will ride to YO Ranch—between Kerrville and Mountain Home—then down to Del Rio and Langtry, across to Marathon and down through Big Bend National Park, ending the ride along El Camino del Rio at Presidio.

With the inspiration of our forefathers who established our independence on the San Jacinto battlefield in 1836, let us all renew our commitment to building a stronger community, a stronger Texas—a stronger and safer world for all—so that our children—and our children's children as well—may dream of a future that has no bounds.

God speed.

VOTING TAX CREDIT

HON. JOHN F. SEIBERLING

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

Friday, October 11, 1985

Mr. SEIBERLING. Mr. Speaker, today I am reintroducing legislation, by request, which would amend the Internal Revenue Code of 1954 to provide a $30 refundable tax credit to taxpayers who vote in Federal general elections.

The concept of a voting tax credit is the brainchild of Frank Martino, president of the International Chemical Workers Union. The ICWU proposal puts forth a voting tax credit as a method to get more Americans out to vote in Federal elections. According to the ICWU, the credit "is designed to provide an incentive for all Americans, rich and poor alike, to exercise their franchise as reponsible citizens of our country."

The low percentage of voter turnout in Federal elections has become a deplorable situation in this country. Apathy on the part of eligible voters has soared, and more and more Americans seem to believe that their vote is not really important anymore.

The extent of voter alienation is apparent in statistics compiled by the Census Bureau. In the 1968 Presidential election there was a 60.9-percent voter turnout, while in 1972, after 18-year-olds got the vote, turnout dropped to 55.6 percent. Voter participation in the 1980 election was 52.6 percent, down 1 percent from the level of the 1976 election and well below the highest participation level of 62.8 percent in the 1960 Kennedy-Nixon election. In 1984, of the 173.9 million Americans eligible to vote, only 92.65 million did vote or 53.3 percent. The figures are even more alarming for off-year elections. In 1970 there was a 43.5-percent turnout compared to 35.5 percent in 1978—with a population increase of 21 percent.

The nationwide decline in voting should be of serious concern to anyone who believes in democracy. One of our basic freedoms as Americans is to choose our public officials through the election process. Then if we are not satisfied with those in office we can make changes by exercising our right to vote. Those who cite disillusionment or disgust with the system as their reason for not casting a ballot are simply perpetuating the situation they dislike. We cannot stand back. It is time for all American's to realize that our votes do count, and we must do something to encourage eligible voters to participate.

The voting tax credit is one way to encourage eligible voters to take the time to vote. Taxpayers who vote in a Federal general election, or the equivalent thereto, would receive the credit—$60 for a joint return—by attaching their ballot stub to their Federal income tax return. In those States where a ballot stub is not used, a stamp or other document which is evidence of voting should be issued.

Critics of a voting tax credit argue that increased voter turnout does not guarantee an improvement in the quality of legislators being elected. Certainly there is some merit to that argument, but we have to examine the overall picture. We all have to work for improved voter turnout, but at the same time we have to help educate voters so that they can cast a responsible vote.

I think we owe it to the country to give this proposal our attention.

HONORING JOHN J. MEEHAN

HON. FORTNEY H. (PETE) STARK

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Friday, October 11, 1985

Mr. STARK. Mr. Speaker, I rise today to honor a constituent and friend of mine, John J. Meehan, the Alameda County District Attorney.

For the past 4½ years, Jack Meehan has led what is generally recognized as one of the finest district attorney's offices in the country. He is tough, smart, honest, and fair, and his energy for his job is complemented by his scholarly legal acumen, his administrative ability and his sense of community involvement.

Jack's father was a member of the San Francisco Police Department for 40 years, retiring as a captain, and he passed on to Jack his concern with law enforcement. Jack joined the district attorney's office in 1960 and has held every trial and administrative position, including chief assistant. He successfully prosecuted over 150 felony jury trials in superior court without ever having a prosecutorial or trial error cited by the court of appeals. He has supervised, briefed, and presented a number of cases to the California Supreme Court, many relating to rules governing the collection and presentation of evidence. In 1980, Jack received the prestigious "Prosecutor of the Year Award" from the California District Attorney's Association.

Jack has passed on the benefits of his experience and education to others. As assistant district attorney, he organized and headed the training/education division. He created, edits and authors Point of View, a law journal distributed to local legal and peace officers. He created and edits Point and Authorities, a weekly videotape presentation of appellate decisions with analysis and perspective. And, he established a "Brief Bank" of research and legal memoranda with over 6,000 entries, which is available to all deputies.

In addition, Jack has lectured extensively on all aspects of criminal law and has been certified as a criminal law specialist by the State bar. He has testified many times before the State legislature and is a recognized expert on substantive, evidentiary, and procedural criminal law. He has authored numerous amicus curiae briefs to the California Supreme Court dealing with the constitutionality of the death penalty, the exclusionary rule and like topics. Jack is a true scholar.

Jack and his wife, Janet, live in Alameda. They have three sons, Matthew, James, and Mark, and I am pleased to be included in their long list of friends. Mr. Speaker, Jack Meehan is a scholar and an activist. A man of toughness and a man of compassion. A community man and a family man. He is an excellent district attorney and a superior person. I am proud to have Jack as a constituent and a friend, and I am pleased to salute him before my colleagues in the House of Representatives.

A DAY OF HOPE

HON. THOMAS J. DOWNEY

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Friday, October 11, 1985

Mr. DOWNEY of New York. Mr. Speaker, two very fine things happened yesterday which give us all hope for the future.

One was the remarkable performance of the U.S. Navy and its intelligence support in capturing four terrorist murderers over the Mediterranean.

This operation appears to have been carried out to perfection. It shows us that technically the United States has the means to deal with the problem of terrorism. It sends a clear and unmistakeable message that terrorists will no longer be able to slink away into the night, unnoticed and unpunished. In the aftermath of the tragic murder of Leon Klinghoffer, the Navy has delivered the murderers into the hands of justice. Surely this offers us hope that we will see an end to the international plague of terrorism.

The second event which gives us hope, Mr. Speaker, is the announcement that the

International Physicians Against Nuclear War have been awarded the Nobel Prize for Peace. This organization fully deserves this award for the splendid work they've done in trying to alert the governments and the people of the world to the horror of nuclear war. Clearly there is much to be done, but with groups such as the International Physicians Against Nuclear War working to bring peace to the world, there is hope that the nuclear arms race can be brought to an end.

Mr. Speaker, I congratulate the U.S. Navy and the International Physicians Against Nuclear War.

TAX REFORM

HON. NEWT GINGRICH

OF GEORGIA

IN THE HOUSE OF REPRESENTATIVES

Friday, October 11, 1985

Mr. GINGRICH. Mr. Speaker, I would like to have the following article placed in the CONGRESSIONAL RECORD. As Congress begins to consider the House Ways and Means tax reform proposal, we must not forget the impact tax reform can have on all sections of the economy.

[From the Wall Street Journal, Oct. 10, 1985]

TAX REFORM AIMS AT VERY INDUSTRIES UP FOR PROTECTION

(By Paul Craig Roberts and Gary Robbins)

Washington is practicing a new form of economics that has replaced both demand-side and supply-side economics. It is called blind-side. Policy makers in both the administration and Congress have failed to make the obvious connection between taxation and international competitiveness. A tax-reform package is taking shape that will further erode the U.S. competitive position, especially in those sectors of the economy where the demand for production is strongest.

Taxation is a major factor in the cost of production. Countries with tax systems that raise the cost of labor and capital relative to their trading partners suffer a self-imposed competitive disadvantage. Since the U.S. already suffers such a disadvantage—particularly with regard to the Japanese—tax reform is an opportunity to improve the U.S. competitive position.

However, the opportunity is being lost. The original impetus within the Reagan administration for tax reform was the supply-side emphasis on lowering the cost of production and increasing economic growth. However, this goal was largely subordinated in favor of making the tax code "fairer." In the hands of its proponents, fairness means the redistribution of income from business and upper-income taxpayers to lower-income taxpayers.

In the regard Treasury I was so "fair" that the administration realized, belatedly, that it was a threat to the investment climate in the U.S., and it was replaced by Treasury II. But it was too late. The Reagan administration had already unleased the fairness issue. Claiming that Treasury II is not fair enough, the Ways and Means Committee staff and Chairman Dan Rostenkowski have developed a tax-reform plan that by our calculations would raise the cost of capital by 14% overall, compared with current law.

Moreover, it would hit the hardest those industries that are suffering the most on the trade front. Agriculture, for example, which is in line for a budget-busting multi-billion-dollar bailout, would find its cost of capital raised 22%. Textiles and shoes, which are in the forefront of protectionist legislation, would be further undermined competitively by a 14% higher cost of capital. Primary metals would be saddled with a cost of capital about 15.5% higher, and semiconductors would experience a 12.5% increase.

Protection forces consumers to pay higher prices and is a high-cost program for temporarily saving jobs in the protected industries. Protection makes no sense whatsoever when nullified by changes in tax law that raise the cost of capital. It is extraordinary that an administration that intended to renovate U.S. economic performance is on the verge of protectionist legislation and a tax reform that would increase protectionist pressures. Somewhere along the way the politics of policy making crowded out the substance.

JUDGE BROMINSKI NAMED MAN OF THE YEAR

HON. PAUL E. KANJORSKI

OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES

Friday, October 11, 1985

Mr. KANJORSKI. Mr. Speaker, it is a great pleasure for me to bring to your attention the accomplishments of Bernard C. Brominski, judge of the Court of Common Pleas of Luzerne County, PA. Judge Brominski personifies the best qualities of America's judicial system, and this evening he will be honored as the recipient of the annual "Man of the Year Award" by the General Pulaski Day Committee of Wyoming Valley.

As a practicing attorney in Luzerne County, I have known Judge Brominski for more than 20 years and have always held him in the highest esteem. Rarely does one come across a man of such high integrity and with such unwavering dedication to the ideals of his profession. Originally appointed to the Court of Common Pleas of Luzerne County by Gov. George Leader in 1958, Judge Brominski was reelected to 10-year terms in 1959, 1969, and 1979. He was named president judge of the Court of Common Pleas of Luzerne County in 1968 and resigned this position in 1981.

A lifelong resident of the Wyoming Valley, Judge Brominski was born in Swoyersville, PA, and is a graduate of Swoyersville High School, Blair Academy, Franklin and Marshall College, and Dickinson College. He received his doctor of jurisprudence and doctor of laws degrees from the Dickinson School of Law. His experiences include general law practice, serving as special deputy attorney general, as well as judge of Domestic Court and Juvenile Court of Luzerne County. During World War II he served his country in the Navy aboard a destroyer in the Pacific theater.

As a leader in his community, Judge Brominski is a past grand knight of Assumpta Council, Knights of Columbus; a past district deputy of district No. 19, Pennsylvania; a member of Bishop Hafey Assembly, fourth degree Knights of Columbus; Tatra Club of Wyoming Valley, General Pulaski Day Committee of Wyoming Valley and president from 1960 to 1968. He is a member of the American Bar Association, Pennsylvania State Bar Association, Wilkes-Barre Law and Library Association and Luzerne County Bar Association.

Mr. Speaker, it is an honor for me to take this opportunity to draw the attention of my colleagues in the House of Representatives to an excellent judge, an outstanding member of the community, and a personal friend, Judge Bernard C. Brominski. I join with the Pulaski Committee in congratulating Judge Brominski, and I commend the committee for its fine choice of "Man of the Year."

JOE ANDRY—AN OUTSTANDING FEDERAL EMPLOYEE

HON. BOB McEWEN

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

Friday, October 11, 1985

Mr. McEWEN. Mr. Speaker, this week Joe Andry, the State Director for Veterans' Employment and Training Service, in Columbus, OH was honored by the Federal Government as one of the 10 outstanding handicapped Federal employees for 1985.

Joe was selected for this award because of his dedication, hard work and commitment to helping America's veterans secure employment. Because of his effectiveness and positive approach to this job, Joe has earned the title, "Mr. Can Do." Ohio currently ranks fifth nationally in job placements under the Emergency Veterans Job Training Act. The process and success can be directly attributed to Joe's community involvement and ability to provide the maximum assistance to veterans.

Mr. Speaker, I would be remiss if I did not comment on Joe's contribution to America's veterans organizations. He is a lifetime member of the Disabled American Veterans [DAV] and has served as Ohio's State commander of this fine organization. He is active and plays a leading role in the Veterans of Foreign Wars, AMVETS, and the Military Order of the Purple Heart.

Throughout the years, Joe has demonstrated a tremendous capacity for giving of himself to others. He serves on several civic advisory committees and is also the publicity chairman of the Boy Scouts of America, pack 191. But perhaps the most noteworthy comment one can make about Joe Andry is that he is a man of great character. I join with his wife, Pat, and their children, Bret, Kristin, Ryan and Tommy, and their proud parents and friends in congratulating Joe for his latest achievement. His work and high standards serve as a model for all citizens to exemplify.

JOSEPH E. ANDRY

Joseph E. Andry has overcome personal adversity to assist other veterans through his work as the State Director for Veterans' Employment and Training Service (VETS). He was promoted to his position because of the outstanding job he did as Assistant State Director for VETS.

Since assuming his current position, the Department of Labor's VETS has become a positive force in Ohio's veterans' programs. Ohio currently ranks 5th nationally in job placements under the Emergency Veterans Job Training Act of 1983. The progress and success in Ohio can be directly attributed to Mr. Andry's community involvement. He uses his broad knowledge of services and benefits of other agencies and organizations and coordinates them to maximize assistance given to veterans. Because of this positive approach, he earned the title, "Mr. Can Do."

Previously employed with the Veterans' Administration (VA), he was recognized as the Outstanding Handicapped VA Employee in 1976, 1977, and 1978, for performance on the job and in service to veterans. Additionally, he received recognition and honor from city, State, and National elected officials and community leaders. In 1979, he received from the President, the Disabled American Veteran (DAV) of the Year Award. In 1980, he was honored by the President's Committee on Employment of the Handicapped for meritorious service.

Mr. Andry has been interviewed by television and radio stations covering such topics as VETS programs, Americanism, disabled persons, and POW/MIAs. PM Magazine did a television feature in March of 1982 focusing on Mr. Andry's handicap and his ability to rise above it.

Mr. Andry is also actively involved in community service. From 1982-1984, he was voluntary chairman of Service to Military Families and Veterans for the American Red Cross. He assisted in counseling in personal and family problem areas and received recognition for his efforts by Ohio's House of Representatives.

He is a life member of the Disabled American Veterans, and held the top post of Commander of the Ohio Department in 1984-85. He also coordinated the POW/MIA observance in 1984 and 1985. He has contributed to the success of many organizations. He serves on The Rehabilitation and Employment Committees on State and National levels; as State Department Employment Director of the DAV; on Mercy Hospital's "Project Pride" Advisory Council; with the DAV Amputation Chapter; with the American Legion and Italian War Veterans; and as Boy Scouts of America, Pack 191, Publicity Chairman. He is active with all and plays a leading part in many organizations. He is active in the AMVETS (American Veterans of World War II, Korea, and Vietnam), Veteran of Foreign Wars, and Military Order of the Purple Heart, and is currently President of the Veterans Association of State Commanders and Adjutants, and of the Mayor's (of Columbus) Veterans Advisory Committee.

Mr. Andry is a Vietnam veteran retired from active duty due to the nature of his many war wounds. He received a BBA degree in 1974 and a BSBE in 1975 from Cleveland State University. His hobbies include public speaking, horseback riding, coaching baseball, basketball, and soccer, and ink sketches. He and his wife Patricia have four children: Bret, Kristin, Ryan, and Tommy.

ADMINISTRATION PROPOSES TAXING STATE AND LOCAL TAXES

HON. EDWARD F. FEIGHAN

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

Friday, October 11, 1985

Mr. FEIGHAN. Mr. Speaker, under the guise of tax reform, the administration is proposing to impose a new tax on State and local taxes. The administration would transfer needed revenues from State and local treasuries to special interests which currently enjoy special tax treatment. This give-away could cripple our ability to revive our industrial base and to maintain the recent improvements in our educational system.

The administration places an inordinate burden on taxpayers in the Northeast and Midwest; 44 percent of America's population lives in that region, yet they bear 57 percent of the increased tax burden, draining resources that are desperately needed to rebuild our industrial base. Yet, even worse, the administration's double taxation proposal will place an untolerable burden on America's educational needs; 36 percent of all State and local revenues in our country are spent on educating our children. By taxing those revenues, the administration would be cutting school revenues nationwide by 20 percent. We should also note that the States hit hardest by this proposal use the least Federal funding for education. While the effects of cutting funds for education may first be felt only locally, in the long term the effects on our economic vitality may be devastating.

Mr. Speaker, there is a certain irony in the administration's defense of a double tax that hits America's educational and industrial potential. While willing to fight for this totally misguided proposal, they ignore the tax credit used by corporations and individuals who pay taxes abroad. The credit cost the U.S. Treasury $22 billion each year. Yet, the administration opposes a repeal of the credit, claiming that a repeal would be double taxation.

Clearly, Mr. Speaker, taxing local and State taxes can only have a disasterous effect on the United States.

A TRIBUTE TO DR. AARON HENRY

HON. WEBB FRANKLIN

OF MISSISSIPPI

IN THE HOUSE OF REPRESENTATIVES

Friday, October 11, 1985

Mr. FRANKLIN. Mr. Speaker, for many years, Dr. Aaron Henry of Clarksdale, MS, has been a champion on behalf of black people in Mississippi and throughout the United States.

Next month will mark the 25th year that Dr. Henry has served as chairman of the Mississippi chapter of the National Association for the Advancement of Colored People, and I want to recognize him at this time for his many years of hard work.

As NAACP chairman, as a State legislator and as an adviser to many of the agencies of our Federal Government, Aaron Henry has helped to contribute in a number of ways toward improving the quality of life for the Mississippians he represents. He has shown courageous leadership in working to call attention to the interests of minorities and poor people, and that leadership has helped to make a difference in the lives of many Americans. His work on behalf of programs such as the Aaron Henry Health Center, the Job Corps and the National Center for Black Aged speaks for itself.

Dr. Henry's commitment to improving the opportunities available to all the people of Mississippi remains as strong as ever. I congratulate him on his years of service to the NAACP.

NATIONAL DAY OF JUSTICE FOR IMMIGRANTS AND REFUGEES

HON. ROBERT GARCIA

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Friday, October 11, 1985

Mr. GARCIA. Mr. Speaker, Saturday, October 19 is the "National Day of Justice for Immigrants and Refugees." At least 19 cities across the Nation are holding activities on immigrants and refugees, discussing their problems and their contributions to the United States.

There will be a press conference on Thursday, October 17 at 10 a.m. in room 1310 of the Longworth House Office Building to better explain planned activities. If any of my colleagues are interested in finding out more about activities in their districts, I urge them to either attend the press conference or send a staff person to get further information.

I am submitting a press release put out by the Steering Committee for the day's activities for my colleagues' perusal so that they better understand the purpose of this commemoration:

NATIONAL DAY OF JUSTICE FOR IMMIGRANTS AND REFUGEES

October 19, 1985 has been designated the National Day of Justice for Immigrants and Refugees. We call upon all who support equality and justice for immigrants and refugees to join in nationwide activities on October 19 to both honor our immigrant population and to draw attention to the many problems which continue to plague those who have come to the United States seeking economic survival and freedom from repression.

Today, while millions of dollars are being spent to refurbish the Statue of Liberty, a much-heralded symbol of the "generous welcome" the United States has extended to the "tired . . . poor . . . huddled masses" of the world, immigrants to this country—both documented and undocumented—have been met with a growing distrust for "foreigners."

In recent years, the number of immigrants from underdeveloped countries has dramati-

cally increased, a response to the growing improvement and political repression of their homelands. For these people, the U.S. government's relations—politically and economically—to their countries has largely determined their immigration status and fate. While millions of dollars in U.S. military and economic aid go to the Salvadoran and Guatemalan regimes and the threat of direct U.S. intervention hangs in the balance, refugees from the civil turmoil in these and other countries have consistently been denied political asylum. Less than 1% of Guatemalan asylum claims and less than 3% of Salvadoran asylum claims are granted in the United States.

The present immigration bill pending before Congress could potentially undermine the democratic rights of all immigrants and legislate further exploration of their cheap labor. In addition Government cutbacks on bilingual education, bilingual social and health services, termination of free legal services to the undocumented, and limiting immigrants' access to public benefits are all part of the growing move to make immigrants and refugees more vulnerable.

The many activities organized in recognition of the National Day of Justice for Immigrants and Refugees will bring to the U.S. public an exposure of these and other violations of the democratic and civil rights of immigrants and refugees, and create a vehicle to reach the immigrant population by launching a nationwide "Know Your Rights" campaign in conjunction with the National Day of Justice. These efforts will be an important contribution to building a national movement united to defend the rights of all immigrants and refugees.

Join us in endorsing and actively participating in the National Day of Justice for Immigrants and Refugees on October 19, 1985.

Join us in our efforts to:

Prevent the passage of repressive immigration legislation.

Condemn all INS abuses

Stop the deportation of Central American and Caribbean refugees.

Stop the attacks on the sanctuary movement and others seeking to defend the rights of immigrants and refugees.

Support the movement to gain democratic and civil rights for all immigrants.

LOSS OF JACK PARADEE

HON. EDWARD R. MADIGAN

OF ILLINOIS

IN THE HOUSE OF REPRESENTATIVES

Friday, October 11, 1985

Mr. MADIGAN. Mr. Speaker, for over 10 years Jack Paradee worked among us representing the United Transportation Union. Jack was State director of the UTU for the State of Delaware. From 1972 to 1982 Jack worked with Jim Snyder, the national legislative director of the UTU, here in Washington. In 1982 he retired after 42 years of service in the railroad industry.

During his years in Washington, Jack was a friend and advisor to those of us in Congress who worked on problems affecting the railroad industry. Jack also gave us advice and counsel concerning the treatment of alcoholism and drug abuse. He was an active member of Alcoholics Anonymous for 25 years. He used his own experience and strength gained from AA in helping us provide legislation to tackle the problems of alcoholism both within society in general and the railroad industry in particular.

Yesterday Jack died in Wilmington, DE. At the time of his death he was helping another alcoholic gain sobriety. In recent months he was also helping Norfolk Southern Corp. in its efforts to buy Conrail.

We shall all miss Jack Paradee. I extend to his family and many friends my condolences and want them to know that Jack's contributions to the railroad industry and his fellow man will not be forgotten.

CONGRATULATIONS TO EDDIE ROBINSON

HON. AUGUSTUS F. HAWKINS

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Friday, October 11, 1985

Mr. HAWKINS. Mr. Speaker, I wish to pay a special tribute to a truly remarkable individual, Eddie Robinson, the coach of the Grambling College football team. With his team's victory at the Cotton Bowl against Prairie View A&M, Robinson surpassed Alabama's Paul (Bear) Bryant and became the winningest college football coach of all time.

The road was not easy as the article in the October 14, 1985 issue of Sports Illustrated indicated:

Sometimes even dirt was a luxury. Once, in Montgomery, AL, Grambling wasn't allowed to work out on a football field the day before the game, so Robinson stopped the bus on a empty parking lot and held practice there. Another time, after a Friday dinner, Robinson got the players to push the tables and chairs aside and practice right there, in a hotel ballroom.

I think I speak for all my colleagues in wishing coach Eddie Robinson our special congratulations for attaining such a significant milestone. His unique character and contributions have added immeasurably to sports in America.

EXPLANATION OF VOTES NOT CAST

HON. JOHN EDWARD PORTER

OF ILLINOIS

IN THE HOUSE OF REPRESENTATIVES

Friday, October 11, 1985

Mr. PORTER. Mr. Speaker, yesterday I had the honor of accompanying the President on his visit to my district in Illinois. For this reason I was necessarily absent and did not vote on three rollcalls. Had I been present and voting, I would have voted "nay" on rollcall No. 353, "nay" on rollcall No. 354, and "aye" on rollcall No. 355.

STRIKING BACK!

HON. BOB McEWEN

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

Friday, October 11, 1985

Mr. MCEWEN. Mr. Speaker, terrorism is the umbrella term for the most heinous and despicable crimes imaginable. For its victims, it is a chilling and frightening experience whose scar remains long after the incident itself.

The descriptions yesterday and this morning of those aboard the Italian cruise ship *Achille Lauro* are a terrifying account of a ship of fear.

One woman reported going into her cabin after hearing shots and remaining cowering under her bed for 62 hours. Another said, "one minute they would try to be kind, the next minute they would do the cruelist things."

These Palestinian thugs displayed their terrorist power with total disregard for human feelings and life. They fired their weapons intermittently; released pins from grenades held near huddled hostages; beat and threatened crew and passengers; and finally, in the ultimate act of horror and contempt for human life—murdered an elderly and disabled American—Leon Klinghoffer—throwing him and his wheelchair into the Mediterrean.

Well, this morning, Mr. Speaker, we struck back. The long arm of American justice reached out and grabbed these murderous thugs so that they may be subject to swift retribution.

Let this serve as a reminder to those around the globe thinking of similar acts. They had better think twice. The freedom loving people of the world have had enough.

TRIBUTE TO INTERNATIONAL PHYSICIANS FOR THE PREVENTION OF NUCLEAR WAR

HON. CHESTER G. ATKINS

OF MASSACHUSETTS

IN THE HOUSE OF REPRESENTATIVES

Friday, October 11, 1985

Mr. ATKINS. Mr. Speaker, it is with great pleasure that I rise to offer much-deserved congratulations to the International Physicians for the Prevention of Nuclear War, the newly named recipients of the Nobel Peace Prize. As a representative from the great Commonwealth of Massachusetts, it gives me special pride that this Boston-based group has been honored for its work to spread the message of the medical consequences of nuclear war.

The two copresidents of the group are Dr. Bernard Lown of the Harvard School of Public Health and Dr. Evgueny Chavof, director of the cardiological institute in the U.S.S.R. Together, they have pursued a course that, in Dr. Lown's words, is neither left-wing nor right-wing, neither East nor

West, but that seek to advance the politics of human survival.

The Nobel committee noted that the IPPNW doesn't take positions on the specific policies of any government, but does advocate steps to prevent nuclear war. One of those steps is the end of nuclear weapons testing, including approvel of the Comprehensive Test Ban Treaty. As we congratulate the IPPNW, let's make our own contribution to reducing the dangers of nuclear war by ending the testing that adds momentum to the nuclear arms race.

HOUSE OF REPRESENTATIVES—*Tuesday, October 15, 1985*

The House met at 12 o'clock noon and was called to order by the Speaker pro tempore [Mr. FOLEY].

DESIGNATION OF SPEAKER PRO TEMPORE

The SPEAKER pro tempore laid before the House the following communication from the Speaker:

WASHINGTON, DC,
October 11, 1985.

I hereby designate the Honorable THOMAS S. FOLEY to act as Speaker pro tempore on Tuesday, October 15, 1985.

THOMAS P. O'NEILL, Jr.,
Speaker of the House of Representatives.

PRAYER

The Reverend Charles A. Mallon, Holy Family Church, Mitchellville, MD, offered the following prayer:

Deign, O God, to rescue me; O Lord, make haste to help me. Let them be put to shame and confounded who seek my life. Let them be turned back in disgrace who desire my ruin.—(Psalm 70:2-3)

Father, we ask that Your spirit be upon us and that Your wisdom counsel us. Protect us from vengeful acts of frustration by giving us a pluralistic mind capable of anticipating unconscionable acts of human behavior.

Father, help us to act in the peoples interest by having an inspired awareness of the brotherhood of man. We ask You to raise the level of moral consciousness within all nations and grant that this sense of family within the global community will secure world peace.

We ask this through Christ Our Lord. Amen.

THE JOURNAL

The SPEAKER pro tempore. The Chair has examined the Journal of the last day's proceedings and announces to the House his approval thereof.

Pursuant to clause 1, rule I, the Journal stands approved.

MESSAGE FROM THE SENATE

A message from the Senate by Mr. Sparrow, one of its clerks, announced that the Senate had passed bills of the following titles, in which the concurrence of the House is requested:

S. 1726. An act to amend section 51(b) of the Arms Export Control Act, relating to the funding of the Special Defense Acquisition Fund, and

S. 1760. An act to extend the authority to compute hourly rates of basic pay of employees of the Federal Government in the manner provided in the Omnibus Budget Reconciliation Act of 1982.

DISPENSING WITH CALL OF PRIVATE CALENDAR

Mr. SYNAR. Mr. Speaker, I ask unanimous consent that the call of the Private Calendar be dispensed with today.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Oklahoma?

There was no objection.

CONDEMNING EGYPTIAN ACTIONS IN THE "ACHILLE LAURO" AFFAIR

(Mr. REID asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. REID. Mr. Speaker, over the past several years, Egypt and the United States have built an extremely deep and important friendship—one not susceptible to easy dissolution. Egypt is the only Arab country to have directly negotiated a peace agreement with Israel and the Congress has not forgotten this courageous act. Nonetheless, I have been greatly disappointed by Egypt's conduct in the recent *Achille Lauro* affair.

International terrorism is a scourge all nations must unite against to guarantee a measure of civility in international affairs. Those who attacked the *Achille Lauro*, whom the PLO admits came from their own ranks, claimed their actions were justified by a political cause. I am sorry. People who kill an innocent aged cripple deserve nothing except their due punishment in a court of law. It is therefore incomprehensible how Egypt could have negotiated safe conduct for Leon Klinghoffer's four murderers.

The Egyptian Government asserts it did not know the terrorists had killed Mr. Klinghoffer. This does not excuse Egypt's conduct, especially when we consider how the Egyptians gave the United States Government false information regarding the status of the terrorists whereabouts.

President Mubarak of Egypt understands the insidious threat that international terrorism poses to everyone. His very predecessor, Anwar Sadat, was gunned down by Islamic fundamentalist terrorists. This makes Mubarak's actions in the *Achille Lauro* incident all the more difficult to accept.

The Egyptian-United States friendship is still important, still strong. The *Achille Lauro* affair must not alter this relationship. Egypt must understand, however, that capitulation to terrorist will serve neither our purposes nor theirs.

SPECIAL ORDERS GRANTED

By unanimous consent, permission to address the House, following the legislative program and any special orders heretofore entered, was granted to:

(The following Member (at the request of Mr. MCKERNAN) to revise and extend his remarks and include extraneous material:)

Mr. IRELAND, for 5 minutes, on October 16.

(The following Members (at the request of Mr. SYNAR) to revise and extend their remarks and include extraneous material:)

Mr. ANNUNZIO, for 5 minutes, today.

Mr. GAYDOS, for 30 minutes, today.

Mr. OBEY, for 60 minutes, today.

Mr. GONZALEZ, for 60 minutes, today.

Mr. OBEY, for 60 minutes, on October 16.

Mr. OBEY, for 60 minutes, on October 17.

EXTENSION OF REMARKS

By unanimous consent, permission to revise and extend remarks was granted to:

(The following Members (at the request of Mr. SYNAR) and to include extraneous matter:)

Mr. ANDERSON in 10 instances.

Mr. GONZALEZ in 10 instances.

Mr. BROWN of California in 10 instances.

Mr. ANNUNZIO in six instances.

Mr. JONES of Tennessee in 10 instances.

Mr. BONER of Tennessee in five instances.

Mr. LELAND.

SENATE BILL REFERRED

A bill of the Senate of the following title was taken from the Speaker's table and, under the rule, referred as follows:

S. 1760. An act to extend the authority to compute hourly rates of basic pay of employees of the Federal Government in the manner provided in the Omnibus Budget Reconciliation Act of 1982; to the Committee on Post Office and Civil Service.

BILL PRESENTED TO THE PRESIDENT

Mr. ANNUNZIO, from the Committee on House Administration, reported that that committee did on the following day present to the President, for his approval, a bill of the House of the following title:

On October 11, 1985:

H.R. 2410. An Act to amend the Public Health Service Act to revise and extend the programs under title VII of that act.

ADJOURNMENT

Mr. SYNAR. Mr. Speaker, I move that the House do now adjourn.

The motion was agreed to; accordingly (at 12 o'clock and 5 minutes p.m.), under its previous order, the House adjourned until tomorrow, Wednesday, October 16, 1985, at 12 o'clock noon.

ADDITIONAL SPONSORS

Under clause 4 of rule XXII, sponsors were added to public bills and resolutions as follows:

H.R. 72: Mr. SHUMWAY and Mr. HAMMERSCHMIDT.

H.R. 79: Mr. MILLER of Ohio.

H.R. 1587: Mr. GONZALEZ, Mr. CLAY, and Mr. BEREUTER.

H.R. 1710: Mr. BIAGGI, Mr. MRAZEK, and Mrs. LLOYD.

H.R. 1719: Mr. THOMAS of California.

H.R. 1769: Mr. WEBER, Mr. MURPHY, and Mr. MCCAIN.

H.R. 2778: Mr. LEHMAN of Florida, Mr. CONYERS, Mr. NOWAK, Mr. TOWNS, Mr. FRANK, Mr. FUSTER, Mr. MURPHY, Mr. ADDABBO, Mr. BERMAN, Mr. DIXON, Ms. KAPTUR, Mr. BIAGGI, Mr. TORRES, Mr. VENTO, Mr. RANGEL, Mr. LELAND, Mrs. BENTLEY, Mr. MITCHELL, Mr. RICHARDSON, Mr. STOKES, Mr. CROCKETT, Mr. FAZIO, Mr. OWENS, Mr. KOLTER, Ms. MIKULSKI, Ms. OAKAR, Mrs. BURTON of California, Mr. STUDDS, Mr. LANTOS, and Mr. DUNCAN.

H.R. 3298: Mr. SCHAEFER, Mr. LIVINGSTON, and Mrs. LLOYD.

H.J. Res. 127: Mr. ROWLAND of Georgia, Mr. CONTE, Mr. BROOMFIELD, Mr. BOLAND, and Mr. FRANK.

H. Con. Res. 117: Mr. PRICE.

SENATE—*Tuesday, October 15, 1985*

The Senate met at 10 a.m. and was called to order by the President pro tempore [Mr. THURMOND].

PRAYER

The Chaplain, the Reverend Richard C. Halverson, D.D., offered the following prayer:

Let us pray.

Father in Heaven, the Senate is back and the problems are still here—waiting. They will not go away! Help the Senators to get a good start on their work and grant that these next weeks will be productive in ways which will be a source of satisfaction to the Senators and their staffs.

Some Senators have been busier than if they had remained in Washington, but we trust, Lord, that one change of venue has at least been refreshing. Some were under necessity to change their plans, but we trust the change proved to be constructive. Some families were disappointed, but we trust Your grace compensated and blessed.

Meanwhile, Lord, as the Senate convenes, the problems are here to challenge, to frustrate, to anger—and to be solved. Give to our leaders all the grace, wisdom, and patience they will need to guide their parties and the Senate to progress and fulfillment as the Senate addresses a heavy agenda and works its way through profound issues as well as conflict and trivia. In His name Whose agenda was always for others. Amen.

RECOGNITION OF THE MAJORITY LEADER

The PRESIDENT pro tempore. The distinguished majority leader is recognized.

RESERVATION OF LEADERSHIP TIME

Mr. DOLE. Mr. President, I ask unanimous consent that the time for the distinguished minority leader (Mr. BYRD), be reserved.

The PRESIDENT pro tempore. Without objection, it is so ordered.

Mr. DOLE. I ask unanimous consent that any time I do not use be reserved.

The PRESIDING OFFICER. Without objection, it is so ordered.

SCHEDULE

Mr. DOLE. Mr. President, under the standing order, the leaders have 10 minutes each.

Following the leaders' standing order, there will be a special order in favor of the Senator from Wisconsin [Mr. PROXMIRE] for not to exceed 15 minutes, followed by routine morning business not to extend beyond 11 o'clock, with statements therein limited to 5 minutes each.

Following that, it is my intention to begin consideration H.R. 3037, the Agriculture appropriations bill and, later in the afternoon, to turn to the reconciliation bill, S. 1730. There will be no rollcall votes during today's session, but we do hope to conduct business. I urge my colleagues who have amendments to either proposal to be available.

It is my hope that we can have general consent to double track this week, with appropriations bills in the mornings and the reconciliation bill in the afternoons.

It seems to me that there will not be any question about a Friday session. I think it will be all day Friday and probably a very late evening Thursday evening. Tomorrow evening, I know, there is a function which many Senators on each side will be attending. I guess we will not go much beyond 6:30 tomorrow evening, and probably not too late this evening.

I alert my colleagues that there will probably be a late Thursday night session and probably all day on Friday, so they can make plans accordingly, but no Saturday session this week.

We shall try to advise what may be the program between now and Thanksgiving. I hope we can indicate that sometime today. I shall indicate to the distinguished minority leader as soon as we have some idea what we might be able to do by that time.

It now seems that we will not be able to finish our work prior to the Thanksgiving Day recess, but we shall see how quickly it goes in the next 2 or 3 weeks.

Hopefully, the Agriculture appropriations bill can be disposed of today, with the exception of one or two amendments, where I understand Senators are not in town. I hope we could reach some agreement to conclude that early tomorrow morning, because we have seven appropriations bills—HUD, District of Columbia, Agriculture, Interior, State-Justice-Commerce, Labor-HHS, and Department of Transportation—and we would like to double track until we have completed action on all the appropriations bills and reconciliation.

Then, as I promised, we still have the textile bill to turn to and dispose of, favorably or unfavorably. Finally, I hope that we will have the farm bill before us by next week. It should not take 2 weeks, but it probably will take 2 weeks.

Mr. President, I reserve the remainder of my time.

RECOGNITION OF SENATOR PROXMIRE

The PRESIDING OFFICER (Mr. ANDREWS). Under the previous order, the Senator from Wisconsin is recognized for not to exceed 15 minutes.

WHY WE SHOULD END ANTI-SATELLITE RESEARCH AND DEVELOPMENT NOW

Mr. PROXMIRE. Mr. President, why does it make a difference if the superpowers proceed with their antisatellite technology? First and above all, it means the nuclear arms race continues. It also means the antisatellite superpower competition now extends the arms race into space with a vengeance. So what's wrong with that? Why will we, with our far better technology not win the antisatellite arms race? Well, we will not. Here we have a race in which there can only be losers. Consider: what is the most critical ingredient in any arms control agreement?

It is that both sides be able to verify compliance, so that they know whether the other side is cheating. Each side should have confidence that it can determine whether the adversary is in fact complying with the arms control treaty or violating it.

How do we determine whether we and the Soviets can verify the arms control agreements already reached and that we hope to reach in the future? One kind of equipment and only one is quintessential for verification of arms control on which we can rely. What is it? It is satellite observation. Here is a technology that provides truly magical observation of any significant production or deployment of nuclear weapons by either superpower.

As expert and experienced an authority as William Colby, the former head of the Central Intelligence Agency, has testified to the Senate Appropriations Committee as recently as this year that satellites provide far and away our prime source of reliable intelligence on the Soviet record of compliance with arms control treaties. On the basis of the Colby testimony and other evidence, this Senator concludes that if both superpowers develop an antisatellite capability, we can virtually kiss off arms control.

● This "bullet" symbol identifies statements or insertions which are not spoken by the Member on the floor.

If an opponent of arms control wanted to develop a technology that would surely kill arms control, the antisatellite program would be it. Here is why: Obviously, an antisatellite technology that worked would make verification of arms control agreements by both sides highly vulnerable. We could almost certainly not enter into future arms agreements because verification could disappear instantly with the destruction by the Russians of our verification satellites. Why is the administration insisting on pursuing this destructive policy? The answer is simple. The administration believes American antisatellite technology is vastly superior to Soviet technology. Is it? Absolutely. The administration believes that the United States will develop a far superior technology well before the Russians do. That technology will give this country a clear advantage over the Russians.

Is this a race we cannot lose. Think about it. We will have the capability of destroying Soviet reconnaissance satellites no matter how high their altitude or how sophisticated their construction. But will we win? No way.

Here is a race we cannot win. Both superpowers are sure to be losers. Here is why. In the case of just about every nuclear weapon, the United States makes the first breakthrough. We did, for example, with the multiindependently targeted reentry vehicles or MIRV's that enabled this country to achieve a spectacular weapons breakthrough. The United States was first, No. 1, in the race that enabled us to arm missiles with several warheads on every missile. That break-through swiftly permitted a vast increase in nuclear power and on the cheap. We zoomed ahead of the U.S.S.R. with this technology. But did we win or did we lose? Within a very few years the U.S.S.R., too, mastered the MIRV technology. When they did they found it even more advantageous. Because of the greater size and throw-weight of the Soviet missiles than U.S. missiles they could deploy more warheads per missile than we could. So what was the consequence of this "winning" arms race? Our technological breakthrough armed both sides with new, more devastating nuclear weapons. The United States lost its advantage. Both superpowers became losers. Sure, both ended up with greater nuclear power. But because each adversary was more destructive and more dangerous than before, each superpower lost a big measure of security.

Our vigorous pursuit of an antisatellite technology and our success in achieving it will truly and surely drive a spike into the heart of arms control for another reason. Suppose the fondest dreams of the antisatellite proponents come true. Suppose we soar ahead of the Soviet Union and stay ahead. Won't that be a triumph? No. Why not? Well, think about it. What would be our reaction if the Soviet Union developed and lead in antisatellite capability?

Suppose they could at will destroy our quintessential verification instrument and we could not kill theirs. Would we enter into new arms control agreements that would inevitably have to depend on satellites for verification? Of course not. So, will the Soviets agree to further arms control agreements if we nullify their satellites? No way. In fact, if we proceed with antisatellite research the Soviet Union might renounce most of the arms control agreements now in effect on the grounds that they cannot in the future expect to be able to verify them. So, is our antisatellite program a sure loser? Absolutely.

HIRELINGS AND ACCOMPLICES

Mr. PROXMIRE. Mr. President, the Congressional Coalition for Soviet Jews has shown a documentary I would recommend to anyone concerned about human rights. This documentary, "Hirelings and Accomplices," is an excellent example of the virulent anti-Semitic propaganda the Soviet Union has been issuing under the guise of anti-Zionism. The title alone explains a great deal about the level of this propaganda.

The Soviet Union has been pursuing policies which seem to be designed to destroy the last remaining remnants of Jewish culture in the U.S.S.R.

Emigration to Israel has dropped drastically over the past few years, from a high of 50,000 in 1979 to less than 1,000 last year. The KGB has threatened persons requesting to emigrate and has even placed some in psychiatric hospitals. Over 20,000 Jews have applied to emigrate and have been refused. Some families have been waiting as long as 10 years. Who knows how many wish to emigrate but are afraid to apply?

The Soviet Union's most concentrated effort has been against Hebrew teachers in an attempt to eliminate Jewish culture and education. Soviet authorities have arrested Hebrew teachers, sent them to labor camps, and even tortured them. The police and other authorities have planted drugs and weapons on teachers in an effort to discredit them. Many teachers have been fired from their jobs and, when they can't find work, they are arrested for "parasitism."

The United States should condemn this systematic destruction of Jewish culture. The U.S.S.R. has ratified the Genocide Convention, yet violates it; the United States follows its tenets but has not ratified the treaty.

Let us condemn the Soviets from equal moral ground. Let us ratify the Genocide Convention.

MYTH OF THE DAY

Mr. PROXMIRE. Mr. President, a powerful myth sometimes stalks this body—the idea that we should be part-time legislators. Our real interests should be with our farms, law practices, businesses or whatever we did before being elected to this body. Our Senate work would be best approached as though we were skilled amateurs.

What makes this myth so attractive is that it has a grounding in American history. Thomas Jefferson was not only a great President but also a farmer. Whenever he was in Washington, he always wanted to return to his native Virginia.

That view of Jefferson—the skilled amateur—has a continuing hold on our imaginations. But is it a realistic view of Jefferson, even during his time, and does it apply to today's world—a far different place.

To begin with, politics, a very practical politics, were never far from Mr. Jefferson's mind. He extolled the virtues of agriculture not only because he loved to farm but also because small farmers were an important constituency.

During his time, he could best advance his political interests by being away from Washington. But he wrote letter after letter explaining his politics, justifying his position on the issues. Those letters were as effective a political instrument as this country has ever seen.

Such an approach would fail today. In Jefferson's time, the Nation had a population about the size of a medium-sized State today. Where Jefferson could speak to one person, today's politician must reach 50. Working with newspapers and television—the media—has allowed us to adjust to this exploding population.

Mr. President, one other hurdle stands in the way of a part-time legislator—conflict of interest. In Jefferson's day, society was simple and so was the Government. Even so, many a part-time legislator was up to his neck in scandal. In fact, if we apply today's standards, many of the Founding Fathers were truly founding finaglers.

Imagine the potential for scandal today. What lawyer, what businessman, what farmer can do business today without an intimate involvement with the Federal Government? Who would believe that the part-time legislator was voting for the public good and not for his private interest?

Mr. President, like it or not, we have a big, complicated, far-reaching Government to go along with our big, complicated society. And we need full-time legislators to oversee a full-time Government.

Mr. President, I yield the floor.

ROUTINE MORNING BUSINESS

The PRESIDING OFFICER. Under the previous order, there will now be a period for the transaction of routine morning business not to extend beyond 11 a.m., with statements therein limited to 5 minutes each.

MRS. DESSIE DEAN PITTS—A ONE-OF-A-KIND TEACHER

Mr. THURMOND. Mr. President, the Greenwood Index-Journal of Greenwood, SC, and the Edgefield Citizen News of Edgefield, SC, recently carried an editorial in tribute of a one-of-a-kind teacher, the late Mrs. Dessie Dean Pitts.

This fine individual is to be remembered and commended for her selfless efforts and dedication to her students, church, and community. It is refreshing to know that she touched so many lives in her 91 years, and not only left a positive imprint, but inspired many to enjoy and benefit from the educational experience.

Mr. President, I ask unanimous consent that the following editorial be printed in the RECORD as a tribute to this great American.

There being no objection, the editorial was ordered to be printed in the RECORD, as follows:

[From the Greenwood Index-Journal, Greenwood, SC, and the Edgefield Citizen News, Edgefield, SC]

ONE-OF-A-KIND TEACHER

(The following editorial from the Greenwood Index-Journal is of interest to many people, particularly in the Johnston area where Mrs. Pitts was a teacher for a number of years. She also lived a goodly number of her retirement years in Johnston, was a member of St. John's Lutheran Church, and made many friends among those of a later generation as well as renewing friendships and associations that went back to earlier times before she left for other fields.)

Mrs. Dessie Dean Pitts was special. When she died here recently at age 91, she left her imprint on the lives of many.

That imprint was all positive. She had a good word for everyone with whom she came in contact. And they were many during the half century of teaching in Ninety Six, Saluda, Johnston, Orangeburg and Erskine College.

In today's world, when there's so much discussion about the qualifications of teachers, it's a joy to note how "Miss Dessie" approached her profession. She received numerous honors, but none to compare with the pleasure she got from helping her students. Shortly after her retirement she wrote, "Really it seems presumptive for me to try to present a data sheet. To teach so many years and enjoy every day of it, and to love every student as a special individual, reaching for some kind of goal in life, is to create memories that bless one's days of retirement. The teacher loses herself in every success of the young men and women. One's only success is the student's achievement."

Those are refreshing words. But they weren't merely words to Miss Dessie . . . they were a way of life. She backed them up, too, by giving of herself and all the finances she could muster for scholarships.

She was truly one of a kind. Always finding a positive word for everyone and everything is a rare quality that's rarer to find in today's world. She did indeed create memories to bless her retirement. She also created good memories for those students who benefitted from her caring.

NATIONAL 4-H WEEK

Mr. ANDREWS. Mr. President, last week during our continuing discussions on the debt ceiling, a special event inadvertently passed by, so today I rise in honor of the 85th anniversary of the founding of one of our Nation's most creative, forward-looking organizations, the 4-H. 4-H has become the model of harmonious interaction between the private sector, educators, individuals, and the Government in an effort to better the lives of both the community and its people.

4-H was founded in 1900 and currently has a nationwide membership of 4,979,846 individuals. Almost every rural and urban county in the United States, the District of Columbia, Puerto Rico, Guam, and the Virgin Islands has a 4-H program. In this broad spectrum, there is amazing interaction between the Extension Service of the U.S. Department of Agriculture, State land-grant universities, and counties.

The four H's stand for head, heart, hands, and health. This pledge should be the motto of every youth and adult in our nation. It reads:

I pledge
my head to clearer thinking
my heart to greater loyalty
my hands to larger service,
and
my health to better living
for my club, my community, and my country.
for my club, my community, my country, and my world.

These words ring true for Americans of all ages—to strive to improve one's mental, physical, and moral strength, not only for themselves, but for their community and world as well. This is truly a noble goal. Through this experience, young people by the millions are learning how to be competent, productive citizens in an ever-changing world.

In North Dakota, my home State, many of our young people have grown both spiritually and emotionally with the help of 4-H. Melissa Tronson of Hillsboro has served faithfully in the 4-H and now participates in an ambassadorship program. As an ambassador, Melissa serves as the youth representative on the North Dakota Board of Higher Education. With her training, she is helping to ensure that 4-H'ers and other young people have the opportunity to expand their minds as the pledge encourages them to do.

Two other North Dakotans, Jeff Willer of Gladstone and Randi Larson of Grand Forks, have taken 4-H fundamentals and carried them abroad. Jeff Willer has recently participated in the InterAmerican Rural Youth Conference. He conveyed the virtues taught by 4-H to an international group in a conference of representatives from the Americas and Spain. In similar fashion, Randi Larson participated in an exchange program that took her to Japan. Both of these young people have diligently completed one of the most significant requirements of their pledge—they have shared their knowledge with peoples of other countries in an effort to build a better world.

There are numerous other self-improvement and community programs offered by the 4-H. For example, in 1983, there were 9,214,111 young people enrolled in 4-H projects; most young men and women were enrolled in an average of two projects per member. The nature of these projects range from animal and poultry husbandry, energy, citizenship and community involvement, and individual and family resources.

Through this training, 4-H has guided several generations to a better understanding of themsevles, their community, and their society. Only with a better, clearer understanding of ourselves and others can we expect to improve our ties with the world community. This to me is the greatest contribution of the 4-H.

ANNUAL 8TH AIR FORCE REUNION

Mr. DOLE. Mr. President, the veterans of the 8th Air Force will be celebrating their 11th annual reunion in Wichita, KS, October 17-20. This is an especially exciting reunion because it coincides with the 50th anniversary of the Boeing B-17 Flying Fortress.

I am pleased to include a brief history of the 8th Air Force from the 8th Air Force Historical Society:

The Eighth Air Force was constituted in the U.S. Army Air Forces on 19 January 1942. The 8AF was activated on 28 January 1942 in the Chatham Armory, 1108 Bull Street, Savannah, Georgia (Hunter Field). Colonel Asa N. Duncan was named the first commander.

In World War Two, the 8th Air Force became the greatest air armada of any country in any war, reaching a total strength of nearly 200,000 persons by mid-1944. By conservative estimate, it is believed that more than 350,000 Americans served in the 8AF in the three years of that war in Europe. At peak strength, the 8AF could put up more than 2,000 four-engined bombers and more than 1,000 fighters on a mission. For these reasons the 8AF has become known as The Mighty Eighth.

Half of the casualties in World War Two were suffered by the 8AF (over 47,000 casualties including more than 26,000 dead). Seventeen Medals of Honor were awarded to 8AFers in WWII. By war's end, 8AFers were awarded a number of other medals: 220 Distinguished Service Crosses, 850 Silver Stars, 7,000 Purple Hearts, 46,000 Distinguished Flying Crosses, and 442,300 Air Medals.

Many more awards were made after the war. They remain uncounted. There were 261 fighter aces in the 8AF in WWII. 31 of them had more than 15 aircraft kills.

The 8AF has continued in active service, with its units serving in every armed conflict the USA has faced since WWII. It is estimated that 650,000 persons have been assigned or attached to the 8AF since WWII. It presently consists of most of the Strategic Air Command units in the eastern half of the USA, plus Greenland, England, Germany and Turkey. The headquarters is located at Barksdale AFB, Shreveport, Louisiana. About 50,000 persons are presently assigned to the 8AF. 8AFers fly B-52's, FB-111's, tankers, reconnaissance and command-and-control aircraft. Titan, Minuteman and Air-Launched Cruise Missiles are also in the 8AF arsenal. Without doubt, the 8AF remains the most powerful air striking force in the world.

I know I speak for my colleagues in wishing the nearly 3,000 veterans gathered in Wichita for the 8th Air Force reunion a successful meeting. We must never lose sight of the tremendous debt owed to our Nation's veterans.

INNOCENT UNTIL PROVEN GUILTY

Mr. METZENBAUM. Mr. President, the October 14 issue of U.S. News & World Report magazine contains an interview with Attorney General Edwin Meese in which Mr. Meese asserts a philosophy of criminal justice that is shocking to anyone who believes in our system of constitutional government.

One of the first things that an elementary school child learns about the U.S. system of government is that all persons are considered innocent of a crime until proven guilty.

It is the rock on which our system of justice rests.

But Mr. Meese has his own theory of justice.

In the interview, Mr. Meese was asked:

You criticize the *Miranda* ruling, which gives suspects the right to a lawyer before police questioning. Shouldn't people, who may be innocent, have such protection?

Here is his amazing answer:

Suspects who are innocent of a crime should. But the thing is, you don't have many suspects who are innocent of a crime. That's contradictory. If a person is innocent of a crime, then he is not a suspect.

Mr. Meese goes on to say that he opposes the Supreme Court's Miranda decision because it prevents police "from talking to the person who knows the most about the crime—namely, the perpetrator."

That is the new "Meese system of justice"—you are guilty until proven innocent.

This would be troublesome if it was uttered by any member of the legal profession. It would be offensive if said by any public officeholder. For that matter, it would be of concern if stated by any private citizen.

But for the Attorney General of the United States to hold to such a code of criminal justice is irreconcilable with the oath of office for that position.

Mr. Meese owes the Nation, the administration, his legal profession, and the American people not only an apology for making such an outrageous statement, but also must give an unqualified assurance that "innocent until proven guilty" remains as the hallmark of justice in this country.

Mr. President, I ask unanimous consent that the text of the Meese interview in U.S. News & World Report be printed in the RECORD, along with editorials from the October 8 edition of the New York Times and the October 9 edition of the Los Angeles Times regarding the interview.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

REAGAN SEEKS JUDGES WITH "TRADITIONAL APPROACH"

[Interview with Edwin Meese, Attorney General of the United States]

Q. Mr. Attorney General, what are the factors that this administration considers in selecting a federal judge?

A. Our objective is to find people of the highest quality, and this includes, obviously, intellectual ability, experience on the bench or in law practice and the highest standards of integrity. We also want people who have what we consider to be a proper judicial approach to the bench—that is, an understanding that the function of a judge is to interpret the law, not to make the law.

Q. Could someone who advocates a woman's right to an abortion be named a judge by this administration?

A. I doubt we would ask a candidate about how he or she would rule on a particular case or disqualify someone based on that person's view of a narrow issue. We are not trying to influence the administration of justice or individual cases beyond insuring we have people who have a traditional approach to the judiciary.

Q. Critics say the Supreme Court has established a sound Constitutional basis for rulings on abortion, affirmative action and religion. Why re-examine these rulings?

A. Most decisions of the Supreme Court are relatively new in these categories. They're not settled law, because cases in these areas keep coming up time and time again. Also, in these issues the Supreme Court has gotten itself involved in matters that previously had been left primarily to the legislative branch, including legislative branches of states. That's why we have a problem, for example, with *Roe v. Wade.* Even if it did not relate to abortion at all, the case, we feel, is wrongly decided because it usurped both a legislative function and a function that has traditionally been handled by the states.

We have taken a strong position that government should not get involved in matters of religion. This stance does not prevent government from doing such things as giving special educational assistance to church-affiliated schools, when such aid is available to all private shcools. To do otherwise would discriminate against schools sponsored by religious organizations.

Q. Didn't you label as "racist" court rulings that order school busing and endorse job quotas giving preferences to minorities?

A. I never said that. What I said was that job quotas that discriminate against any person on the basis of race or gender are wrong. The Supreme Court has held that way, so I was commending the Supreme Court for that. The only thing I've said about busing is that almost everyone now agrees that busing has been an ineffective and often counterproductive tool for achieving integration.

Q. You criticize the Miranda ruling, which gives suspects the right to have a lawyer present before police questioning. Shouldn't people, who may be innocent, have such protection?

A. Suspects who are innocent of a crime should. But the thing is, you don't have many suspects who are innocent of a crime. That's contradictory. If a person is innocent of a crime, then he is not a suspect.

The Miranda decision was wrong. We managed very well in this country for 175 years without it. Its practical effect is to prevent the police from talking to the person who knows the most about the crime—namely, the perpetrator. As it stands now under Miranda, if the police obtain a statement from that person in the course of the initial interrogation, the statement may be thrown out at the trail. Therefore, Miranda only helps guilty defendants. Most innocent people are glad to talk to the police. They want to establish their innocence so that they're no longer a suspect.

Remember, Miranda has nothing to do with coercive or abusive police tactics. Those are outlawed by other cases. So it only has to do with the normal questioning of suspects, the people who have information about a crime.

Q. Is the government being tougher on the poor and disadvantaged than on corporate executives?

A. No. We have prosecuted more individuals for white-collar crime, as well as more corporations, than in any other period in recent history. So far as I know, the only case where we were not able to prosecute individuals was in the E.F. Hutton check-kiting case. No high corporate officials were involved in that case, and prosecutors and the investigators had to grant immunity to several others in order to determine the details of a very complex operation.

Q. By seeking to end the Legal Services Corporation, aren't you blocking the needy from access to the justice system—

A. We have continued to be vigilant in protecting the needs of the poor, but we were faced when we took office with tremendous abuses by the Legal Services Corporation, such as illegal lobbying, as well as class-action suits that primarily benefits specific political groups or political causes. Much of that has been cleaned up by more-effective management of the Legal Services Corporation and new regulations. I'm a great advocate of the concept of providing legal services to the poor, but the Legal Services Corporation through the years hasn't been doing that job in a cost-effective and capable way. The money that goes to Legal Services could be better used by bar associations and law schools to expand their own legal-aid programs for the poor.

Q. What lasting impact will this administration have on the nation's system of justice?

A. First of all, we think our communities will be safer from crime. Secondly, I would hope that we would be able to make a major advance against drug trafficking, not only be effective enforcement actions but also by public-information programs aimed at re-

ducing the demand for narcotcis. I also hope that we will be known as an administration that protected constitutional values and restored meaning to the concept of federalism, separation of powers and religious liberty. Finally, I hope we will have appointed the best possible judges to enhance the entire judiciary.

[From the New York Times, Oct. 8, 1985]

VERDICT NOW, TRIAL LATER

Attorney General Edwin Meese has a vision of justice that would eliminate court backlogs and facilitate the cumbersome process of deciding guilt and innocence. It would even end argument about innovative versus strict-constructionist judges—by eliminating judges altogether. Let the police adjudicate, Mr. Meese says. Consider this exchange in the current U.S. News & World Report:

Q. You criticize the Miranda ruling, which gives suspects the right to have a lawyer present before police questioning. Shouldn't people, who may be innocent, have such protection?

A. Suspects who are innocent of crime should. But the thing is, you don't have many suspects who are innocent of a crime. That's contradictory. If a person is innocent of a crime, then he is not a suspect.

From this strange perception flows the Attorney General's further wisdom: Miranda's practical effect is "to prevent the police from talking to the person who knows the most about the crime—namely, the perpetrator. . . . Miranda only helps guilty defendants."

In the 1966 case of Miranda v. Arizona, the Supreme Court ruled that arrested suspects are entitled to warnings of their rights to silence and a lawyer. The police are not prevented from talking to suspects who know they have those rights and voluntarily waive them. Mr. Meese fears that some suspects will learn that they have those rights.

"We managed very well in this country for 175 years without it," says Mr. Meese. Americans have had a constitutional privilege against forced self-incrimination for two centuries, but it took a long line of cases, culminating in Miranda, to make it available to everyone. Enforcing that privilege undoubtedly frees a few guilty persons, but it benefits all Americans by elevating police practices and deterring interrogation and arrest on mere suspicion.

The classic police warning that "anything you say may be used against you," familiar to everyone who has seen a television arrest, was part of America's ideal of justice long before the Supreme Court made it legally binding. The Miranda rule has not seriously inhibited police work. Even those who think it does would be ashamed of the Attorney General's concept of justice.

[From the Los Angeles Times, Oct. 9, 1985]

MARSHAL MEESE

Atty. Gen. Edwin Meese III seems to go out of his way to demonstrate his unfitness for the high office he holds. Virtually everything he says in public about legal issues flies in the face of good sense, accepted jurisprudence and the American system of government.

Meese's latest foray into absurdity appears in an interview in this week's issue of U.S. News & World Report. He was asked to explain his opposition to the Supreme Court's Miranda ruling, which requires that before the police question a suspect, they must advise him of his right to have a lawyer and to remain silent. Meese was asked, whether a suspect, who may be innocent, shouldn't have that protection. He replied:

"Suspects who are innocent of a crime should. But the thing is, you don't have many suspects who are innocent of a crime. That's contradictory. If a person is innocent of a crime, then he is not a suspect."

If it weren't the attorney general speaking, this would be a joke. In fact, there is such a joke: Everyone who is arrested is guilty or he wouldn't have been arrested. But coming from the attorney general, this view evokes more tears than laughter. Surely it is beyond the pale for the nation's highest legal officer to say such things or even to think them. It is an outrage against the rule of law for anyone so insensitive to the basic principles of American justice to run the Justice Department.

Hasn't he heard of "innocent until proven guilty?" Apparently not. His view is guilty until proven innocent, and he also wants to limit the ability of an accused person to mount a defense in the first place. Following Meese's logic would mean doing away with trials. What's the point in all that rigmarole if we know from the outset that suspects are guilty or they wouldn't be suspects?

Meese has said many other nonsensical things recently. He opposes the exclusionary rule; he opposes applying the Bill of Rights against the states; he opposes a strict separation of church and state. All of these positions are bad enough. But the latest takes the prize. This man is a menace to the administration of justice and an embarrassment to the ideal of "Equal Justice Under Law."

Mr. METZENBAUM. Mr. President, I would like to read separately into the RECORD the last line of the Los Angeles Times editorial of October 9, 1985.

This man is a menace to the administration of justice and an embarrassment to the idea of "equal justice under law."

CONGRATULATIONS TO REV. C. DENNIS EDWARDS

Mr. BUMPERS. Mr. President, this Sunday, October 20, marks the 17th anniversary of distinguished service at St. John's Missionary Baptist Church in Little Rock for Rev. C. Dennis Edwards. Reverend Edwards has spent 17 of his 37 years as pastor of St. Johns, a congregation 1,200 strong. He is a remarkable man who is a living example of the Biblical admonitions to love the Lord with all your heart and love your neighbor as yourself.

Reverend Edwards is widely loved, admired, and respected in his community and throughout Arkansas. In addition to tending to the spiritual needs of his congregation at St. Johns, he is president of the Greater Little Rock Baptist Pastor's Conference, which under his direction raised $21,000 this year to aid the people of Ethiopia. The conference worked closely in this project with the 6 million member National Baptist Convention, U.S.A. Reverend Edwards has also found time to serve on the board of the Criminal Justice Ministry, as an instructor for the Union District Association Sunday School and Baptist Training Union, and as a member of the board of directors of Madison Guaranty Savings & Loan.

It is truly an honor and privilege for me to take this time to congratulate Reverend Edwards on this occasion and to commend him for his fine and effective work in the community and State. I wish him Godspeed, and he will be in my thoughts and prayers.

TRIBUTE TO MR. EDWARD DONLEY

Mr. SPECTER. Mr. President, I would like to recognize a fellow Pennsylvanian, a leader both in the business community of my State and the Nation as a whole, who will be honored tomorrow with a special award. Edward Donley, chairman and chief executive officer of Air Products & Chemicals, Inc., based in Allentown, PA, will be recognized as a top business leader and manager by the Pennsylvania Chamber of Commerce during its annual day in Washington, DC.

Edward Donley stands out as casebook example of business success. He joined Air Products in 1943 following his graduation from Lawrence Institute of Technology, where he received a bachelor of mechanical engineering degree. Rather than climbing the normal corporate ladder, Mr. Donley leapt upwards, being elected a director in 1957, president in 1966, chief executive officer in 1973, and chairman in 1978.

Mr. President, under Mr. Donley's guidance, Air Products now represents a model of industry success. It is one of America's largest companies, responsible for much technological innovation, providing many products at home and abroad, and employing thousands of persons.

At the same time, Mr. Donley has been active in many community organizations, including the U.S. Chamber of Commerce. Mr. Donley was elected a member of the U.S. Chamber's board of directors in 1982 and to vice chairman in 1985. I have every expectation that he will be selected to lead the chamber next year.

The U.S. Chamber of Commerce, as the world's largest federation of companies, chambers of commerce and trade/professional associations, is one of the principal groups speaking for the American business community. More than 85 percent of the members are small firms with fewer than 100 employees. Yet, virtually all of the Nation's largest companies are also active members.

The mission of the chamber is to "advance human progress through an economic, political and social system based on individual freedom, incentive,

initiative, opportunity, and responsibility."

After analyzing economic and social problems that are national in scope, the chamber seeks ways of resolving them by making optimum use of the free enterprise economic system and, through its membership, works to put its resolutions into effect.

It informs Congress and the administration of the views and recommendations of the business community on important legislative issues and government policies, showing why these views and recommendations are sound and in the public interest.

While the chamber's major activities are domestic, its international reach is substantial as well. The organization believes that global economic and business interdependence provide greater opportunity for all.

In recognition of this, Mr. Donley has undertaken great efforts to study America's competitiveness in the global economy. The chamber is now seeking different ways in which U.S. companies can secure greater and greater foreign markets—increasing employment at home and ensuring realistic value of our dollars. Mr. President, I am sure you and all of our colleagues applaud him in this effort.

Justly, Mr. Donley's many accomplishments have not gone unrecognized. The numerous degrees he has been awarded include a doctor of industrial management from Lawrence Institute of Technology; doctor of laws from Lehigh University and Allentown College; doctor of commercial science from Villanova University; doctor of humane letters from Muhlenberg College; and doctor of science from Cedar Crest College.

A member of the Economic Club of New York, Mr. Donley has received a number of professional and civic awards, including the Chemical Industry Medal Award by the Society of Chemical Industry, Allentown-Lehigh County Chamber Distinguished Service Award, Distinguished Pennsylvanian Award, Lawrence Institute of Technology Alumni Achievement Award, and the Commercial Development Association Man of the Year Award.

Mr. President, it is with great pride that I join with the Pennsylvania Chamber of Commerce in honoring Mr. Donley and wishing him continued success in these important endeavors which so vitally affect Pennsylvania and America.

Mr. PROXMIRE. Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The bill clerk proceeded to call the roll.

Mr. COCHRAN. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

DEATH OF FORMER GOV. PAUL JOHNSON, JR., OF MISSISSIPPI

Mr. COCHRAN. Mr. President, during this weekend Mississippi lost one of its outstanding citizens when former Gov. Paul Johnson, Jr., died.

Governor Johnson served as Governor of our State during a period of its most turbulent history. He was chief executive of our State from 1964 to 1968. He had served as Lieutenant Governor during the previous administration of former Gov. Ross Barnett.

Governor Johnson came to office at a time when there were those who were seeking to dominate our State through the use of violence, intimidation, fear, and hatred. But because of his calm and confident leadership, our State overcame the turbulence of that era; and he led us into a new era of pride, growth, and of economic progress, for which we all in Mississippi are very grateful.

Of course, he did not do this by himself. There were many who contributed to the new image that our State began to enjoy during that period. But his leadership was very, very important.

To me, Mr. President, Governor Johnson was not only a personal friend but a friend of my family's, and he and his wife had been our friends for many years.

In thinking back over some of the experiences I had as a young boy growing up in Mississippi, I could not help but recall yesterday as I was calling the family to extend my condolences, that it had been in 1951 in Governor Johnson's first race for Governor that I first became active in a political campaign. I recall my mother, who was a very close friend of Dorothy Power Johnson, the widow of Governor Johnson, assuming the responsibility for canvassing some of the towns and communities in our county in behalf of the Johnson candidacy. We folded up newspapers that had been published by the campaign entitled "Election Truths," and we passed those out door to door in Utica, Raymond, in the community of Learned and in our own community of Byram. All of these communities are in Hinds County, MS.

Paul Johnson was defeated in the Democratic primary for Governor in 1951 and again in 1955. But he was eventually elected Lieutenant Governor in 1959, and then became Governor in the election of 1963.

There were many who assumed that his Governorship would be characterized by more of the same—intransigence, efforts to frustrate progress in racial relations, and sluggish economic development. As it turned out, however, his service was very progressive. His administration was characterized by calm, progressive leadership.

During his term of office and with the cooperation of the members of the State legislature, he created the State's research and development center, which is located in Jackson. The Agricultural and Industrial Board was begun, along with the Board of Economic Development, both of which were designed to attract industry, to help create new jobs, and they did.

I suppose the centerpiece for economic development in that period, Mr. President, was the legislative work and contract negotiations that culminated in the locating and constructing of the "shipyard of the future" in Pascagoula, MS, by Litton Industries. It is now know as the Ingalls Shipbuilding Division of Litton Industries and is one of the Nation's most modern, well equipped shipyards.

As Members of the Senate know, it constructs some of the best ships for our Navy, and enjoys one of the best reputations of any shipyard in the United States.

It was because of Paul Johnson's leadership and his ability to work with others to get things done that brought together the legislative leaders, businessmen and women, both with Litton Industries and in our State of Mississippi, and locally elected officials, to put together a legislative package and a group of contracts and agreements that made it possible for our State to be the home of this great manufacturing enterprise. It is our State's largest single employer today.

I recall, too, that in spite of some criticism in the legislature, Governor Johnson urged that we establish in our State a statewide educational television system that would be owned by the State and operated by the State. Today there is located at the site of the research and development center, which was also created in his administration, the educational television system that was the first to have statewide coverage of any educational television system in the United States. It actually became a statewide system during the administration of former Gov. John Bell Williams.

Incidentally, my father had the pleasure and honor of serving as chairman of the Educational Television Authority under the administration of Governor Williams when that system became operational statewide.

It was a pleasure for me just recently, on the occasion of the dedication of the Federal Courthouse in Jackson, MS, to former Senator James O. Eastland, to be with Governor and Mrs. Johnson. I am so happy I got to see them that day. I will remember Governor Johnson always as a person of strong character, commitment, and courage as a political leader. He was also a person of great warmth, person-

al charm, and wonderful ability as a speaker.

I join with his many friends throughout the State of Mississippi today in wishing comfort for the family of Gov. Paul Johnson, his lovely wife, Dot, and his three children as well, our good friends.

Mississippi has truly lost one of its great leaders.

Mr. President, I ask unanimous consent that articles from the Jackson Daily News of Jackson, MS, and the Washington Post concerning the death of former Gov. Paul Johnson be printed in the RECORD immediately following my remarks on that subject.

There being no objection, the articles were ordered to be printed in the RECORD, as follows:

FORMER GOVERNOR OF MISSISSIPPI—PAUL B. JOHNSON JR.

Former Gov. Paul B. Johnson Jr., who led Mississippi through the often-violent civil rights conflicts of the mid-1960s, died early today at Forrest General Hospital in Hattiesburg of apparent cardiac arrest. He was 69.

Johnson, son of the former Gov. Paul B. Johnson Sr., served as the state's 54th chief executive from 1964 to 1968.

Johnson was brought to the hospital from his Hattiesburg home Sunday night and died about 12:30 a.m., officials said. Officials said Johnson has suffered a stroke several years ago and had been in ill health and in a wheelchair for some time.

"In his passing, Mississippi has lost one of its most outstanding sons. It was my privilege to serve in state government for about 44 years, and I can truly say he rendered excellent service to the people of Mississippi while he was governor," said former Secretary of State Heber Ladner, who was in office during Johnson's 1964-68 term.

Johnson, born Jan. 23, 1916 in Hattiesburg where he lived most of his life, started his political career as the only sophomore elected student body president at the University of Mississippi.

He married his Ole Miss sweetheart, Dorothy Power, in the governor's mansion in 1941 during the term of his father. They had three children.

Armed with a law degree from Ole Miss, Johnson practiced law in Jackson and Hattiesburg and from 1948 to 1951 served as assistant U.S. attorney for the Southern District of Mississippi.

Johnson enlisted in the Marine Corps shortly after the Japanese attack on Pearl Harbor and rose from the rank of private to captain, having an outstanding combat record in the South Pacific. He later earned the rank of major in the Marine Corps Inactive Reserve.

In 1959, Johnson was elected lieutenant governor in the first primary and served under former Gov. Ross Barnett.

In the 1963 run for governor, Johnson defeated former Gov. J. P. Coleman and Republican Rubel Phillips with the help of the slogan "Stand Tall With Paul." The slogan referred to Johnson physically blocking James Meredith from integrating all-white Ole Miss in September 1962.

The lanky Johnson stood head and shoulders above Meredith, keeping him from entering the admissions building before Barnett arrived.

Johnson mellowed on his racial stance once assuming the job of governor. "Hate or prejudice will not lead Mississippi while I sit in the governor's chair," he said in his inaugural address.

Johnson was responsible for steering the state through much-needed industrial and agricultural growth. More than 500 new or expanded industries located in the state, creating more than 40,000 new jobs during his term in office.

Johnson is also remembered for his role in locating the multimillion-dollar Ingalls Shipbuilding yard at Pascagoula.

His record reflected his campaign promises of economic growth through industry and research and development. Johnson helped create the state's Research and Development Center, the Agricultural and Industrial Board, now the Board of Economic Development, and expanded the role of the state Marketing Council.

Johnson's administration saw the development of the state parks system, the construction of the Sillers and Gartin state office buildings in Jackson, and the creation of the Air and Water Pollution Control Committee.

In much-disputed moves, the former governor proposed consolidating counties to streamline state government. He also attempted to create a powerful state police force in 1964 to combat racial disorder.

Johnson persuaded the legislature to remove voting restrictions on blacks before the federal Voting Rights Act of 1965 was passed into law. Johnson also urged the FBI to pursue the Philadelphia civil rights murders through federal court, knowing state courts would produce no substantial results.

"In my opinion, he made a mighty fine governor. He was the son of former governor. That put an extra burden on him to do well as a governor. I feel a great loss," said Hinds Circuit Judge Charles T. Barber, who had known Johnson for almost 40 years and was appointed to his first judgeship by him.

"He was a man of his word," Barber said. "If he told you something, you could bank on it. He didn't let politics get in his way."

"Any man's death diminishes me. I'm sorry that he's dead," said state NAACP President Aaron Henry of Clarksdale.

Attorney General Ed Pittman, who served in the Mississippi Senate during Johnson's term, said the death is "a tremendous loss for the state and his family."

He said the former governor was proud of his economic developments for the state but it should also be remembered that "Johnson served during the difficult civils rights era, Johnson kept the peace."

Survivors include his wife, Dorothy Power, sons Pual "Chipper" B. Johnson III and Shelby V. Johnson of Hattiesburg, daughter Patricia Ross of the Gulf Coast, sister Peggy H. Segrest of Athens, Ala., and great aunt Mary Venable of Hattiesburg.

EX-MISSISSIPPI GOV. PAUL JOHNSON

HATTIESBURG, MISS.—Paul B. Johnson Jr., 69, a former governor of Mississippi whose moderate policies were credited with a decrease in violence tied to racial desegregation, died Oct. 14 at a hospital in Hattiesburg, Miss., after an apparent heart attack. He lived in Hattiesburg.

A Democrat and son of former governor Paul B. Johnson Sr., he was the state's chief executive from 1964 to 1968 after serving a term as lieutenant governor during the administration of Ross Barnett.

Gov. Johnson's approach was credited with ending violence that had marked the middle years of the civil rights struggle. He deplored violence and chose "Pursuit of Excellence" as the theme of his four-year term.

But he was unable to read off violence early in his administration. Nightrider attacks, church burnings and beatings erupted as thousands of civil rights workers flocked to Mississippi from across the nation to join local blacks in what became known as "Freedom Summer—1964," the year Michael Schwerner, Andrew Goodman and James Chaney were killed on a dark and isolated road in Neshoba County.

If his governorship began in days of racial turmoil, it evolved into a time of economic and industrial growth, including approval of a $130 million bond issue to finance a major expansion of Ingalls Shipyard in Pascagoula.

Gov. Johnson was a graduate of the University of Mississippi and its law school. He practiced law in Jackson and Hattiesburg and served with the Marine Corps in the South Pacific during World War II before entering politics. He ran losing races for governor in 1947 and for the U.S. Senate in a special election the same year. He then spent three years as assistant U.S. attorney for the southern district of Mississippi.

He also lost gubernatorial bids in 1951 and 1955. He won the post in 1963, defeating Reubel Phillips, Mississippi's first serious Republican gubernatorial candidate of this century.

Gov. Johnson served as a member of the executive committee of the National Governors' Conference and as vice chairman of the Southern Governors' Conference. In 1966, he was elected chairman of the Tennessee-Tombigbee Waterway Authority.

He married his college sweetheart, Dorothy Power, in the governor's mansion in 1941. They had three children.

Mr. COCHRAN. Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. COCHRAN. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDENT pro tempore. Without objection, it is so ordered.

RECESS UNTIL 12:15 P.M.

Mr. COCHRAN. Mr. President, I ask unanimous consent that the Senate stand in recess until 12:15 today.

There being no objection, the Senate, at 11:39 a.m., recessed until 12:15 p.m.; whereupon, the Senate reassembled when called to order by the Presiding Officer [Mrs. KASSEBAUM].

Mr. BYRD. Madam President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. COCHRAN. Madam President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

CONCLUSION OF MORNING BUSINESS

The PRESIDING OFFICER. Morning business is closed.

AGRICULTURE APPROPRIATIONS, 1986

Mr. COCHRAN. Madam President, I ask unanimous consent that the Senate now turn to Calendar No. 311, H.R. 3037, the Agriculture appropriations bill.

The PRESIDING OFFICER. The bill will be stated by title.

The legislative clerk read as follows:

A bill (H.R. 3037) making appropriations for Agriculture, Rural Development, and Related Agencies Programs for the fiscal year ending September 30, 1986, and for other purposes.

There being no objection, the Senate proceeded to consider the bill (H.R. 3037) making appropriations for Agriculture, Rural Development, and Related Agencies Programs for the fiscal year ending September 30, 1986, and for other purposes, which had been reported from the Committee on Appropriations, with amendments, as follows:

(The parts of the bill intended to be stricken are shown in boldface brackets, and the parts of the bill intended to be inserted are shown in italic.)

H.R. 3037

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That the following sums are appropriated, out of any money in the Treasury not otherwise appropriated, for Agriculture, Rural Development, and Related Agencies programs for the fiscal year ending September 30, 1986, and for other purposes; namely:

TITLE I—AGRICULTURAL PROGRAMS

PRODUCTION, PROCESSING AND MARKETING

OFFICE OF THE SECRETARY

For necessary expenses of the Office of the Secretary of Agriculture, including not to exceed $75,000 for employment under 5 U.S.C. 3109, **[**$1,750,000**]** *$5,360,000: Provided,* That not to exceed **[**$8,000**]** *$15,000* of this amount shall be available for official reception and representation expenses, not otherwise provided for, as determined by the Secretary.

[OFFICE OF THE ASSISTANT SECRETARY FOR ADMINISTRATION

[For necessary expenses of the Office of the Assistant Secretary for Administration to carry out the programs funded in this Act, $484,000.**]**

STANDARD LEVEL USER CHARGES (USDA)

(INCLUDING TRANSFERS OF FUNDS)

For payment of Standard Level User Charges pursuant to Public Law 92-313 for programs and activities of the Department of Agriculture which are included in this Act, **[**$49,454,000**]** *$57,100,000: Provided,* That in the event an agency within the Department of Agriculture should require modification of space needs, the Secretary of Agriculture may transfer a share of that agency's appropriation made available by this Act to this appropriation, or may transfer a share of this appropriation to that agency's appropriation, but such transfers shall not exceed 10 per centum of the funds made available for Standard Level User Charges to or from this account.

BUILDING OPERATIONS AND MAINTENANCE

For the operation, maintenance, and repair of the Washington, D.C. Agriculture building complex pursuant to the delegation of authority from the Administrator of General Services authorized by 40 U.S.C. 486, $17,800,000.

ADVISORY COMMITTEES (USDA)

For necessary expenses for activities of Advisory Committees of the Department of Agriculture which are included in this Act, $1,323,000: *Provided,* That no other funds in this Act shall be available to the Department of Agriculture for support of activities of Advisory Committees.

DEPARTMENTAL ADMINISTRATION

(INCLUDING TRANSFERS OF FUNDS)

For Budget and Program Analysis, $3,796,000; for Personnel, Finance and Management, Operations, Information Resources Management, Equal Opportunity, Small and Disadvantaged Business Utilization, and Administrative Law Judges and Judicial Officer, $15,334,000; making a total of $19,130,000 for Departmental Administration to provide for necessary expenses for management support services to offices of the Department of Agriculture and for general administration of the Department of Agriculture, repairs and alterations, and other miscellaneous supplies and expenses not otherwise provided for and necessary for the practical and efficient work of the Department of Agriculture, of which not to exceed $10,000 is for employment under 5 U.S.C. 3109: *Provided,* That this appropriation shall be reimbursed from applicable appropriations in this Act for travel expenses incident to the holding of hearings as required by 5 U.S.C. 551-558.

WORKING CAPITAL FUND

An amount of $6,000,000 is hereby appropriated to the Departmental Working Capital Fund to increase the Government's equity in this fund and to provide for the purchase of automated data processing, data communication, and other related equipment necessary for the provision of Departmental centralized services to the agencies.

[OFFICE OF THE ASSISTANT SECRETARY FOR GOVERNMENTAL AND PUBLIC AFFAIRS

[For necessary expenses of the Office of the Assistant Secretary for Governmental and Public Affairs to carry out the programs funded in this Act, $337,000.

PUBLIC AFFAIRS**]**

OFFICE OF GOVERNMENTAL AND PUBLIC AFFAIRS

For necessary expenses to carry on services relating to the coordination of programs involving public affairs, and for the dissemination of agricultural information and the coordination of information, work and programs authorized by Congress in the Department, $6,758,000, of which not to exceed $10,000 shall be available for employment under 5 U.S.C. 3109, and not to exceed $2,000,000 may be used for farmers' bulletins and not fewer than two hundred thirty-two thousand two hundred and fifty copies for the use of the Senate and House of Representatives of part 2 of the annual report of the Secretary (known as the Yearbook of Agriculture) as authorized by 44 U.S.C. 1301: *Provided,* That in the preparation of motion pictures or exhibits by the Department, this appropriation shall be available for employment pursuant to the second sentence of section 706(a) of the Organic Act of 1944 (7 U.S.C. 2225).

[LEGISLATIVE LIAISON**]**

For necessary expenses for liaison with the Congress on legislative matters, $495,000.

[INTERGOVERNMENTAL AFFAIRS**]**

For necessary expenses for programs involving intergovernmental affairs, emergency preparedness, and liaison within the executive branch, $467,000.

OFFICE OF THE INSPECTOR GENERAL

(INCLUDING TRANSFERS OF FUNDS)

For necessary expenses of the Office of the Inspector General, including employment pursuant to the second sentence of section 706(a) of the Organic Act of 1944 (7 U.S.C. 2225), $30,756,000, including such sums as may be necessary for contracting and other arrangements with public agencies and private persons pursuant to section 6(a)(8) of the Inspector General Act of 1978 (Public Law 95-452), and including a sum not to exceed $50,000 for employment under 5 U.S.C. 3109; and including a sum not to exceed $75,000 for certain confidential operational expenses including the payment of informants, to be expended under the direction of the Inspector General pursuant to Public Law 95-452 and section 1337 of Public Law 97-98; and in addition, $15,924,000 shall be derived by transfer from the appropriation, "Food Stamp Program", and merged with this appropriation.

OFFICE OF THE GENERAL COUNSEL

(INCLUDING TRANSFERS OF FUNDS)

For necessary expenses, $15,077,000; and in addition, $786,000 shall be derived by transfer from the appropriation, "Food Stamp Program", and merged with this appropriation.

[OFFICE OF THE ASSISTANT SECRETARY FOR ECONOMICS

[For necessary expenses of the Office of the Assistant Secretary for Economics to carry out the programs funded in this Act, $418,000.**]**

ECONOMIC RESEARCH SERVICE

For necessary expenses of the Economic Research Service in conducting economic research and service relating to agricultural production, marketing, and distribution, as authorized by the Agricultural Marketing Act of 1946 (7 U.S.C. 1621-1627), and other laws, including economics of marketing; analyses relating to farm prices, income and population, and demand for farm products, use of resources in agriculture, adjustments, costs and returns in farming, and farm finance; research relating to the economic and marketing aspects of farmer cooperatives; and for analyses of supply and demand for farm products in foreign countries and their effect on prospects for United States exports, progress in economic development and its relation to sales of farm products, assembly and analysis of agricultural trade statistics and analysis of international financial and monetary programs and policies as they affect the competitive position of United States farm products; $46,305,000; of which not less than $200,000 shall be available for investigation, determination and finding as to the effect upon the production of food and upon the agricultural economy of any proposed action affecting such subject matter pending before the Administrator of the Environmental Protection Agency for presenta-

tion, in the public interest, before said Administrator, other agencies or before the courts: *Provided*, That not less than $350,000 of the funds contained in this appropriation shall be available to continue to gather statistics and conduct a special study on the price spread between the farmer and consumer: *Provided further*, That this appropriation shall be available for employment pursuant to the second sentence of section 706(a) of the Organic Act of 1944 (7 U.S.C. 2225): *Provided further*, That not less than $145,000 of the funds contained in this appropriation shall be available for analysis of statistics and related facts on foreign production and full and complete information on methods used by other countries to move farm commodities in world trade on a competitive basis.

STATISTICAL REPORTING SERVICE

For necessary expenses of the Statistical Reporting Service in conducting statistical reporting and service work, including crop and livestock estimates, statistical coordination and improvements, and marketing surveys, as authorized by the Agricultural Marketing Act of 1946 (7 U.S.C. 1621-1627) and other laws, $59,079,000: *Provided*, That no part of the funds herein appropriated shall be available for any expense incident to publishing estimates of apple production for other than the commercial crop: *Provided further*, That this appropriation shall be available for employment pursuant to the second sentence of section 706(a) of the Organic Act of 1944 (7 U.S.C. 2225), and not to exceed $40,000 shall be available for employment under 5 U.S.C. 3109.

WORLD AGRICULTURAL OUTLOOK BOARD

For necessary expenses of the World Agricultural Outlook Board to coordinate and review all commodity and aggregate agricultural and food data used to develop outlook and situation material within the Department of Agriculture, as authorized by the Agricultural Marketing Act of 1946 (7 U.S.C. 1622g), $1,680,000: *Provided*, That this appropriation shall be available for employment pursuant to the second sentence of section 706(a) of the Organic Act of 1944 (7 U.S.C. 2225).

[OFFICE OF THE ASSISTANT SECRETARY FOR SCIENCE AND EDUCATION

[For necessary salaries and expenses for the Office of the Assistant Secretary for Science and Education to administer the laws enacted by the Congress for the Agricultural Research Service, Cooperative State Research Service, Extension Service, and National Agricultural Library, $371,000.]

AGRICULTURAL RESEARCH SERVICE

(INCLUDING TRANSFERS OF FUNDS)

For necessary expenses to enable the Agricultural Research Service to perform agricultural research and demonstration relating to production, utilization, marketing, and distribution (not otherwise provided for), home economics or nutrition and consumer use, and to coordinate and provide program leadership for higher education work of the Department, and for acquisition of lands by donation, exchange, or purchase at a nominal cost not to exceed $100; [$492,806,000] *$501,043,000*: *Provided*, That appropriations hereunder shall be available for field employment pursuant to the second sentence of section 706(a) of the Organic Act of 1944 (7 U.S.C. 2225), and not to exceed $115,000 shall be available for employment under 5 U.S.C. 3109: *Provided further*, That funds appropriated herein can be used to provide financial assistance to the organizers of national and international conferences, if such conferences are in support of agency programs: *Provided further*, That appropriations hereunder shall be available for the operation and maintenance of aircraft and the purchase of not to exceed one for replacement only: *Provided further*, That uniform allowances for each uniformed employee of the Agricultural Research Service shall not be in excess of $400 annually: *Provided further*, That of the appropriations hereunder not less than $10,526,600 shall be available to conduct marketing research: *Provided further*, That appropriations hereunder shall be available pursuant to 7 U.S.C. 2250 for the construction, alteration, and repair of buildings and improvements, but unless otherwise provided the cost of constructing any one building shall not exceed $150,000, except for headhouses connecting greenhouses which shall each be limited to $500,000, and except for ten buildings to be constructed or improved at a cost not to exceed $275,000 each, and the cost of altering any one building during the fiscal year shall not exceed 10 per centum of the current replacement value of the building or $150,000 whichever is greater: *Provided further*, That the limitations on alterations contained in this Act shall not apply to a total of $250,000 for facilities at Beltsville, Maryland: *Provided further*, That the foregoing limitations shall not apply to replacement of buildings needed to carry out the Act of April 24, 1948 (21 U.S.C. 113a): *Provided further*, That the limitation on purchase of land shall not apply to the purchase of land at Fresno, California, or to an option to purchase land at Florence, South Carolina, for a term of not to exceed one year: *Provided further*, That the limitations on construction contained in this Act shall not apply to the establishment of the National Clonal Germplasm Repository for Citrus, Riverside, California: *Provided further*, That not to exceed $200,000 of this appropriation may be transferred to and merged with the appropriation for the Office of the [Assistant Secretary for Science and Education] *Secretary* for the scientific review of international issues involving agricultural chemicals and food additives.

Special fund: To provide for additional labor, subprofessional, and junior scientific help to be employed under contracts and cooperative agreements to strengthen the work at Federal research installations in the field, $2,000,000.

BUILDINGS AND FACILITIES

For acquisition of land, construction, repair, improvement, extension, alteration, and purchase of fixed equipment or facilities of or used by the Agricultural Research Service, where not otherwise provided, [$3,600,000] *$3,350,000*.

COOPERATIVE STATE RESEARCH SERVICE

For payments to agricultural experiment stations, for cooperative forestry and other research, for facilities, and for other expenses, including $156,484,000 to carry into effect the provisions of the Hatch Act approved March 2, 1887, as amended by the Act approved August 11, 1955 (7 U.S.C. 361a-361i), and further amended by Public Law 92-318 approved June 23, 1972, and further amended by Public Law 93-471 approved October 26, 1974, including administration by the United States Department of Agriculture, and penalty mail costs of agricultural experiment stations under section 6 of the Hatch Act of 1887, as amended, and payments under section 1361(c) of the Act of October 3, 1980 (7 U.S.C. 301n.); $13,053,000 for grants for cooperative forestry research under the Act approved October 10, 1962 (16 U.S.C. 582a—582a-7), as amended by Public Law 92-318 approved June 23, 1972, including administrative expenses, and payments under section 1361(c) of the Act of October 3, 1980 (7 U.S.C. 301n.); $23,474,000 for payments to the 1890 land-grant colleges, including Tuskegee Institute, for research under section 1445 of the National Agricultural Research, Extension, and Teaching Policy Act of 1977 (Public Law 95-113), as amended, including administration by the United States Department of Agriculture, and penalty mail costs of the 1890 land-grant colleges, including Tuskegee Institute; [$27,310,000] *$26,718,000* for contracts and grants for agricultural research under the Act of August 4, 1965, as amended (7 U.S.C. 450i); [$34,000,000] *$46,500,000* for competitive research grants, including administrative expenses; $5,760,000 for the support of animal health and disease programs authorized by section 1433 of Public Law 95-113, including administrative expenses; $1,202,000 for research authorized by the Critical Agricultural Materials Act of 1984; $500,000 for rangeland research grants as authorized by subtitle M of the National Agricultural Research, Extension, and Teaching Policy Act of 1977, as amended; $10,000,000 for grants to upgrade 1890 land-grant college research facilities as authorized by section 1433 of Public Law 97-98, to remain available until expended; [$3,000,000] *$5,000,000* for higher education strengthening grants under section 1417(a)[(2)(A)] of Public Law 95-113, as amended (7 U.S.C. 3152(a)[(2)(A)]); and $1,645,000 for necessary expenses of Cooperative State Research Service activities, including administration of payments to State agricultural experiment stations, funds for employment pursuant to the second sentence of section 706(a) of the Organic Act of 1944 (7 U.S.C. 2225), and not to exceed [$50,000] *$150,000* for employment under 5 U.S.C. 3109; in all, [$276,428,000] *$290,336,000*.

EXTENSION SERVICE

(INCLUDING TRANSFERS OF FUNDS)

Payments to States, Puerto Rico, Guam, the Virgin Islands, Micronesia, and American Samoa: For payments for cooperative agricultural extension work under the Smith-Lever Act, as amended by the Act of June 26, 1953, the Act of August 11, 1955, the Act of October 5, 1962 (7 U.S.C. 341-349), section 506 of the Act of June 23, 1972, and the Act of September 29, 1977 (7 U.S.C. 341-349), as amended, and section 1361(c) of the Act of October 3, 1980 (7 U.S.C. 301n.), to be distributed under sections 3(b) and 3(c) of the Act, for retirement and employees' compensation costs for extension agents, and for costs of penalty mail for cooperative extension agents and State extension directors, $241,484,000; payments for the nutrition and family education program for low-income areas under section 3(d) of the Act, $60,354,000[, of which $38,627,000 shall be derived by transfer from the appropriation, "Food Stamp Program", and merged with this appropriation]; payments for the urban gardening program under section 3(d) of the Act, [$3,500,000] *$1,750,000*; payments for the pest management program under section 3(d) of the Act, $7,531,000; [payments for the farm safety program under section 3(d) of the Act, $1,020,000; payments for the integrated re-

productive management program under section 3(d) of the Act, $50,000;] payments for the pesticide impact assessment program under section 3(d) of the Act, $1,716,000; *payments for the rural development centers under section 3(d) of the Act, $1,000,000;* payments for a financial management assistance program under section 3(d) of the Act, [$1,000,000] *$2,000,000*; payments for extension work under section 209(c) of Public Law 93-471, $983,000; *payments for carrying out the provisions of the Renewable Resources Extension Act of 1978, $2,500,000;* payments for extension work by the colleges receiving the benefits of the second Morrill Act (7 U.S.C. 321-326, 328) and Tuskegee Institute, $17,741,000; in all, [$296,752,000] *$337,059,000*; of which not less than $79,400,000 is for Home Economics: *Provided*, That funds hereby appropriated pursuant to section 3(c) of the Act of June 26, 1953, and section 506 of the Act of June 23, 1972, as amended, shall not be paid to any State, Puerto Rico, Guam, or the Virgin Islands, Micronesia, and American Samoa prior to availability of an equal sum from non-Federal sources for expenditure during the current fiscal year.

Federal administration and coordination: For administration of the Smith-Lever Act, as amended by the Act of June 26, 1953, the Act of August 11, 1955, the Act of October 5, 1962, section 506 of the Act of June 23, 1972, section 209(d) of Public Law 93-471, and the Act of September 29, 1977 (7 U.S.C. 341-349), as amended, and section 1361(c) of the Act of October 3, 1980 (7 U.S.C. 301n.), and to coordinate and provide program leadership for the extension work of the Department and the several States and insular possessions, [$5,979,000] *$5,279,000*; of which not less than $2,300,000 is for Home Economics.

NATIONAL AGRICULTURAL LIBRARY

For necessary expenses of the National Agricultural Library, $11,340,000: *Provided*, That this appropriation shall be available for employment pursuant to the second sentence of section 706(a) of the Organic Act of 1944 (7 U.S.C. 2225), and not to exceed $35,000 shall be available for employment under 5 U.S.C. 3109: *Provided further*, That not to exceed $575,000 shall be available pursuant to 7 U.S.C. 2250 for the alteration and repair of buildings and improvements.

[OFFICE OF THE ASSISTANT SECRETARY FOR MARKETING AND INSPECTION SERVICES

[For necessary salaries and expenses for the Office of the Assistant Secretary for Marketing and Inspection Services to administer programs under the laws enacted by the Congress for the Animal and Plant Health Inspection Service, Food Safety and Inspection Service, Federal Grain Inspection Service, Agricultural Cooperative Service, Agricultural Marketing Service, (including Office of Transportation) and Packers and Stockyards Administration, $347,000.]

ANIMAL AND PLANT HEALTH INSPECTION SERVICE

SALARIES AND EXPENSES

(INCLUDING TRANSFERS OF FUNDS)

For expenses, not otherwise provided for, including those pursuant to the Act of February 28, 1947, as amended (21 U.S.C. 114b-c), necessary to prevent, control, and eradicate pests and plant and animal diseases; to carry out inspection, quarantine, and regulatory activities; and to protect the environment, as authorized by law, [$281,165,000] *$309,502,000*; of which $3,000,000 shall be available for the control of outbreaks of insects, plant diseases and animal diseases to the extent necessary to meet emergency conditions: *Provided*, That $1,000,000 of the funds for control of the fire ant shall be placed in reserve for matching purposes with States which may come into the program: *Provided further*, That no funds shall be used to formulate or administer a brucellosis eradication program for the current fiscal year that does not require minimum matching by the States of at least 40 per centum: *Provided further*, That this appropriation shall be available for field employment pursuant to the second sentence of section 706(a) of the Organic Act of 1944 (7 U.S.C. 2225), and not to exceed $40,000 shall be available for employment under 5 U.S.C. 3109: *Provided further*, That this appropriation shall be available for the operation and maintenance of aircraft and the purchase of not to exceed two, of which one shall be for replacement only: *Provided further*, That, in addition, in emergencies which threaten any segment of the agricultural production industry of this country, the Secretary may transfer from other appropriations or funds available to the agencies or corporations of the Department such sums as he may deem necessary, to be available only in such emergencies for the arrest and eradication of contagious or infectious diseases or pests of animals, poultry, or plants, and for expenses in accordance with the Act of February 28, 1947, as amended, and section 102 of the Act of September 21, 1944, as amended, and any unexpended balances of funds transferred for such emergency purposes in the next preceding fiscal year shall be merged with such transferred amounts: *Provided further, That effective upon the date of enactment of this Act and notwithstanding any other provision of law, the authorities of the Secretary of Agriculture under the Act of March 2, 1931 (46 Stat. 1468; 7 U.S.C. 426-426b), (transferred to the Secretary of the Interior pursuant to section 4(f) of 1939 Reorganization Plan No. II) and all personnel, property, records, unexpended balances of appropriations, allocations and other funds of the Fish and Wildlife Service, United States Department of the Interior used, held, available or to be made available in connection with the administration of such Act, are hereby transferred from the Secretary of the Interior to the Secretary of Agriculture, and this appropriation shall be available to carry out such authorities.*

BUILDINGS AND FACILITIES

For plans, construction, repair, improvement, extension, alteration, and purchase of fixed equipment or facilities, as authorized by 7 U.S.C. 2250, and acquisition of land as authorized by 7 U.S.C. 428a, $4,262,000.

FOOD SAFETY AND INSPECTION SERVICE

For necessary expenses to carry on services authorized by the Federal Meat Inspection Act, as amended, and the Poultry Products Inspection Act, as amended, [$358,494,000] *$370,000,000*: *Provided*, That this appropriation shall be available for field employment pursuant to section 706(a) of the Organic Act of 1944 (7 U.S.C. 2225), and not to exceed $75,000 shall be available for employment under 5 U.S.C. 3109: *Provided further*, That this appropriation shall be available pursuant to law (7 U.S.C. 2250) for the alteration and repair of buildings and improvements, but the cost of altering any one building during the fiscal year shall not exceed 10 per centum of the current replacement value of the building.

FEDERAL GRAIN INSPECTION SERVICE

SALARIES AND EXPENSES

For necessary expenses to carry out the provisions of the United States Grain Standards Act, as amended, and the standardization activities related to grain under the Agricultural Marketing Act of 1946, as amended, including field employment pursuant to section 706(a) of the Organic Act of 1944 (7 U.S.C. 2225), and not to exceed $20,000 for employment under 5 U.S.C. 3109, $7,045,000: *Provided*, That this appropriation shall be available pursuant to law (7 U.S.C. 2250) for the alteration and repair of buildings and improvements, but, unless otherwise provided, the cost of altering any one building during the fiscal year shall not exceed 10 per centum of the current replacement value of the building: *Provided further*, That none of the funds provided by this Act may be used to pay the salaries of any person or persons who require, or who authorize payments from fee-supported funds to [persons] *any person* or persons who require, nonexport, nonterminal interior elevators to maintain records not involving official inspection or official weighing in the United States under Public Law 94-582 other than those necessary to fulfill the purposes of such Act.

INSPECTION AND WEIGHING SERVICES

LIMITATION ON ADMINISTRATIVE EXPENSES

Not to exceed $36,856,000 (from fees collected) shall be obligated during the current fiscal year for Inspection and Weighing Services.

AGRICULTURAL COOPERATIVE SERVICE

For necessary expenses to carry out the Cooperative Marketing Act of July 2, 1926 (7 U.S.C. 451-457), and for activities relating to the marketing aspects of cooperatives, including economic research and analysis and the application of economic research findings, as authorized by the Agricultural Marketing Act of 1946 (7 U.S.C. 1621-1627), and for activities with institutions or organizations throughout the world concerning the development and operation of agricultural cooperatives (7 U.S.C. 3291), $4,713,000; of which $139,000 shall be available for a field office in Hawaii: *Provided*, That this appropriation shall be available for employment pursuant to the second sentence of section 706(a) of the Organic Act of 1944 (7 U.S.C. 2225), and not to exceed $15,000 shall be available for employment under 5 U.S.C. 3109.

AGRICULTURAL MARKETING SERVICE

MARKETING SERVICES

For necessary expenses to carry on services related to consumer protection, agricultural marketing and distribution and regulatory programs as authorized by law, and for administration and coordination of payments to States; including field employment pursuant to section 706(a) of the Organic Act of 1944 (7 U.S.C. 2225), and not to exceed $70,000 for employment under 5 U.S.C. 3109, [$31,455,000] *$32,208,000*; of which not less than $1,582,000 shall be available for the Wholesale Market Development Program for the design and development of wholesale and farmer market facilities for the major metropolitan areas of the country: *Provided*, That this appropriation shall be available pursuant to law (7 U.S.C. 2250) for the alteration and repair of buildings and improvements, but, unless otherwise provided, the cost of altering any one building during the fiscal year shall not

exceed 10 per centum of the current replacement value of the building.

LIMITATION ON ADMINISTRATIVE EXPENSES

Not to exceed $27,253,000 (from fees collected) shall be obligated during the current fiscal year for administrative expenses.

FUNDS FOR STRENGTHENING MARKETS, INCOME, AND SUPPLY (SECTION 32)

(INCLUDING TRANSFERS OF FUNDS)

Funds available under section 32 of the Act of August 24, 1935 (7 U.S.C. 612c) shall be used only for commodity program expenses as authorized therein, and other related operating expenses, except for: (1) transfers to the Department of Commerce as authorized by the Fish and Wildlife Act of August 8, 1956; (2) transfers otherwise provided in this Act; and (3) not more than $6,193,000 for formulation and administration of Marketing Agreements and Orders pursuant to the Agricultural Marketing Agreement Act of 1937, as amended, and the Agricultural Act of 1961.

PAYMENTS TO STATES AND POSSESSIONS

For payments to departments of agriculture, bureaus and departments of markets, and similar agencies for marketing activities under section 204(b) of the Agricultural Marketing Act of 1946 (7 U.S.C. 1623(b)), $990,000.

OFFICE OF TRANSPORTATION

For necessary expenses to carry on services related to agricultural transportation programs as authorized by law; including field employment pursuant to section 706(a) of the Organic Act of 1944 (7 U.S.C. 2225), and not to exceed $20,000 for employment under 5 U.S.C. 3109, $2,466,000: *Provided*, That this appropriation shall be available pursuant to law (7 U.S.C. 2250) for the alteration and repair of buildings and improvements, but, unless otherwise provided, the cost of altering any one building during the fiscal year shall not exceed 10 per centum of the current replacement value of the building.

PACKERS AND STOCKYARDS ADMINISTRATION

For necessary expenses for administration of the Packers and Stockyards Act, as authorized by law, including field employment pursuant to section 706(a) of the Organic Act of 1944 (7 U.S.C. 2225), and not to exceed $5,000 for employment under 5 U.S.C. 3109, $9,201,000.

FARM INCOME STABILIZATION

[OFFICE OF THE UNDER SECRETARY FOR INTERNATIONAL AFFAIRS AND COMMODITY PROGRAMS

[For necessary salaries and expenses for the Office of the Under Secretary for International Affairs and Commodity Programs to administer the laws enacted by Congress for the Agricultural Stabilization and Conservation Service, Office of International Cooperation and Development, Foreign Agricultural Service, and the Commodity Credit Corporation, $502,000.]

AGRICULTURAL STABILIZATION AND CONSERVATION SERVICE

SALARIES AND EXPENSES

(INCLUDING TRANSFERS OF FUNDS)

For necessary administrative expenses of the Agricultural Stabilization and Conservation Service, including expenses to formulate and carry out programs authorized by title III of the Agricultural Adjustment Act of 1938, as amended (7 U.S.C. 1301-1393); the Agricultural Act of 1949, as amended (7 U.S.C. 1421 et seq.); sections 7 to 15, 16(a), 16(f), and 17 of the Soil Conservation and Domestic Allotment Act, as amended and supplemented (16 U.S.C. 590g-590o, 590p(a), 590p(f), and 590q); sections 1001 to 1004, 1006 to 1008, and 1010 of the Agricultural Act of 1970 as added by the Agriculture and Consumer Protection Act of 1973 (16 U.S.C. 1501 to 1504, 1506 to 1508, and 1510); the Water Bank Act, as amended (16 U.S.C. 1301-1311); the Cooperative Forestry Assistance Act of 1978 (16 U.S.C. 2101); sections 401, 402, and 404 to 406 of the Agricultural Credit Act of 1978 (16 U.S.C. 2201 to 2205); and laws pertaining to the Commodity Credit Corporation, [$395,119,000] *$406,524,000*: *Provided*, That not to exceed [$395,119,000] *$406,524,000* may be transferred to this account from the Commodity Credit Corporation fund: *Provided further*, That other funds made available to the Agricultural Stabilization and Conservation Service for authorized activities may be advanced to and merged with this account: *Provided further*, That these funds shall be available for employment pursuant to the second sentence of section 706(a) of the Organic Act of 1944 (7 U.S.C. 2225), and not to exceed $100,000 shall be available for employment under 5 U.S.C. 3109: *Provided further*, That no part of the funds appropriated or made available under this Act shall be used (1) to influence the vote in any referendum; (2) to influence agricultural legislation, except as permitted in 18 U.S.C. 1913; or (3) for salaries or other expenses of members of county and community committees established pursuant to section 8(b) of the Soil Conservation and Domestic Allotment Act, as amended, for engaging in any activities other than advisory and supervisory duties and delegated program functions prescribed in administrative regulations.

DAIRY INDEMNITY PROGRAM

For necessary expenses involved in making indemnity payments to dairy farmers for milk or cows producing such milk and manufacturers of dairy products who have been directed to remove their milk or dairy products from commercial markets because it contained residues of chemicals registered and approved for use by the Federal Government, and in making indemnity payments for milk, or cows producing such milk, at a fair market value to any dairy farmer who is directed to remove his milk from commercial markets because of (1) the presence of products of nuclear radiation or fallout if such contamination is not due to the fault of the farmer, or (2) residues of chemicals or toxic substances not included under the first sentence of the Act of August 13, 1968, as amended (7 U.S.C. 450j), if such chemicals or toxic substances were not used in a manner contrary to applicable regulations or labeling instructions provided at the time of use and the contamination is not due to the fault of the farmer, $100,000, *to remain available until expended*: *Provided*, That none of the funds contained in this Act shall be used to make indemnity payments to any farmer whose milk was removed from commercial markets as a result of his willful failure to follow procedures prescribed by the Federal Government.

CORPORATIONS

The following corporations and agencies are hereby authorized to make such expenditures, within the limits of funds and borrowing authority available to each such corporation or agency and in accord with law, and to make such contracts and commitments without regard to fiscal year limitations as provided by section 104 of the Government Corporation Control Act, as amended, as may be necessary in carrying out the programs set forth in the budget for the current fiscal year for such corporation or agency, except as hereinafter provided:

FEDERAL CROP INSURANCE CORPORATION

ADMINISTRATIVE AND OPERATING EXPENSES

For administrative and operating expenses, as authorized by the Federal Crop Insurance Act, as amended (7 U.S.C. 1516), [$200,502,000] *$240,194,000*: *Provided*, That not to exceed $700 shall be available for official reception and representation expenses, as authorized by 7 U.S.C. 1506(i).

FEDERAL CROP INSURANCE CORPORATION FUND

For payments as authorized by section 508(b) of the Federal Crop Insurance Act, as amended, $135,000,000.

COMMODITY CREDIT CORPORATION

REIMBURSEMENT FOR NET REALIZED LOSSES

[To reimburse the Commodity Credit Corporation for net realized losses sustained, but not previously reimbursed, pursuant to the Act of August 17, 1961 (15 U.S.C. 713a-11, 713a-12), $9,195,240,000.]

For fiscal year 1986, there is appropriated an amount sufficient to reimburse the Commodity Credit Corporation for net realized losses sustained, but not previously reimbursed, pursuant to the Act of August 17, 1961 (15 U.S.C. 713a-11, 713a-12).

GENERAL SALES MANAGER

(ALLOTMENT FROM COMMODITY CREDIT CORPORATION)

(INCLUDING TRANSFERS OF FUNDS)

Not to exceed $6,089,000 may be transferred from the Commodity Credit Corporation funds to support the General Sales Manager who shall work to expand and strengthen sales of United States commodities (including those of the Corporation) in world markets pursuant to existing authority (including that contained in the Corporation's charter), and that such funds shall be used by the General Sales Manager to carry out the above activities. The General Sales Manager shall report directly to the Board of Directors of the Corporation of which the Secretary of Agriculture is a member. The General Sales Manager shall obtain, assimilate, and analyze all available information on developments related to private sales, as well as those funded by the Corporation, including grade and quality as sold and as delivered, including information relating to the effectiveness of greater reliance by the General Sales Manager upon loan guarantees as contrasted to direct loans for financing commercial export sales of agricultural commodities out of private stocks on credit terms, as provided in titles I and II of the Agricultural Trade Act of 1978, Public Law 95-501, and shall submit quarterly reports to the appropriate committees of Congress concerning such developments.

TITLE II—RURAL DEVELOPMENT PROGRAMS

RURAL DEVELOPMENT ASSISTANCE

[OFFICE OF THE UNDER SECRETARY FOR SMALL COMMUNITY AND RURAL DEVELOPMENT

[For necessary salaries and expenses for the Office of the Under Secretary for Small Community and Rural Development to administer programs under the laws enacted by the Congress for the Farmers Home Administration, Rural Electrification Administration, Office of Rural Development Policy, and Federal Crop Insurance Corporation, $415,000.

[OFFICE OF RURAL DEVELOPMENT POLICY

[For necessary expenses, not otherwise provided for, of the Office of Rural Development Policy in providing leadership, coordination, and related services in carrying out the rural development activities of the Department of Agriculture, as authorized by section 603 of the Rural Development Act of 1972, as amended (7 U.S.C. 2204b); section 2 of the Rural Development Policy Act of 1980 (7 U.S.C. 1921), and grants pursuant to the Consolidated Farm and Rural Development Act, as amended (7 U.S.C. 1926(a)(11) and 7 U.S.C. 1932(c)), $2,037,000: *Provided*, That this appropriation shall be available for employment pursuant to the second sentence of section 706(a) of the Organic Act of 1944 (7 U.S.C. 2225), and not to exceed $5,000 of this appropriation shall be available for employment under 5 U.S.C. 3109.]

FARMERS HOME ADMINISTRATION

RURAL HOUSING INSURANCE FUND

For direct loans and related advances pursuant to section 517(m) of the Housing Act of 1949, as amended, [$17,000,000] *$10,200,000* shall be available from funds in the Rural Housing Insurance Fund, and for insured loans as authorized by title V of the Housing Act of 1949, as amended, [$3,221,000,000] *$1,932,600,000*; of which not less than [$3,220,000,000] *$1,932,000,000* shall be available for subsidized interest loans to low-income borrowers, as determined by the Secretary, and for subsequent loans to existing borrowers or to purchasers under assumption agreements or credit sales; and not to exceed $10,000,000 to enter into collection and servicing contracts pursuant to the provisions of section 3(f)(3) of the Federal Claims Act of 1966 (31 U.S.C. 952).

[During fiscal year 1986, no more than 15,000 units may be assisted under rental assistance agreements entered into or extended during the year pursuant to authority under section 521(a)(2) of the Housing Act of 1949, as amended, and the total new obligation incurred over the life of these agreements shall not exceed $198,000,000 to be added to and merged with the authority provided for this purpose in prior fiscal years: *Provided*, That the life of the agreements entered into or extended during fiscal year 1986 shall not exceed five years.]

For rental assistance agreements entered into are renewed pursuant to the authority under section 521(a)(2) of the Housing Act of 1949, as amended, total new obligations shall not exceed $132,513,000 to be added to and merged with the authority provided for this purpose in prior fiscal years: Provided, that agreements entered into or renewed during fiscal year 1986 shall be funded for a five-year period, although the life of any such agreement may be extended to fully utilize amounts obligated: Provided further, That agreements entered into or renewed during fiscal years 1983, 1984, and 1985, may also be extended beyond five years to fully utilize amounts obligated.

For an additional amount to reimburse the Rural Housing Insurance Fund for interest subsidies and losses sustained in prior years, but not previously reimbursed, in carrying out the provisions of title V of the Housing Act of 1949, as amended (42 U.S.C. 1483, 1487e, and 1490a(c)), including $2,757,000 as authorized by section 521(c) of the Act, [$1,843,927,000] *$2,136,784,000*, and for an additional amount as authorized by section 521(c) of the Act as may be necessary to reimburse the fund to carry out a rental assistance program under section 521(a)(2) of the Housing Act of 1949, as amended.

AGRICULTURAL CREDIT INSURANCE FUND

Loans may be insured, or made to be sold and insured, under this fund in accordance with and subject to the provisions of 7 U.S.C. 1928–1929, or guaranteed, as follows: real estate loans, [$732,000,000] *$532,000,000*, including not less than [$700,000,000] *$500,000,000* for farm ownership loans of which [$200,000,000] *$250,000,000* shall be guaranteed loans; and not less than $28,000,000 for water development, use, and conservation loans of which $6,000,000 shall be guaranteed loans; operating loans, [$3,400,000,000] *$4,772,000,000* of which [$1,480,000,000] *$1,772,000,000* shall be guaranteed loans; and emergency insured and guaranteed loans in amounts necessary to meet the needs resulting from natural disasters.

For an additional amount to reimburse the Agricultural Credit Insurance Fund for interest subsidies and losses sustained in prior years, but not previously reimbursed, in carrying out the provisions of the Consolidated Farm and Rural Development Act, as amended (7 U.S.C. 1988(a)), [$1,089,943,000] *$1,477,565,000*.

RURAL DEVELOPMENT INSURANCE FUND

For loans to be insured, or made to be sold and insured, under this fund in accordance with and subject to the provisions of 7 U.S.C. 1928 and 86 Stat. 661–664, as follows: insured water and sewer facility loans, $340,000,000; guaranteed industrial development loans, $100,000,000; and insured community facility loans, [$115,000,000] *$75,000,000*.

For an additional amount to reimburse the Rural Development Insurance Fund for interest subsidies and losses sustained in prior years, but not previously reimbursed, in carrying out the provisions of the Consolidated Farm and Rural Development Act, as amended (7 U.S.C. 1988(a)), [$560,005,000] *$612,098,000*.

RURAL WATER AND WASTE DISPOSAL GRANTS

For grants pursuant to sections 306(a)(2) and 306(a)(6) of the Consolidated Farm and Rural Development Act, as amended (7 U.S.C. 1926), $115,000,000, to remain available until expended, pursuant to section 306(d) of the above Act.

VERY LOW-INCOME HOUSING REPAIR GRANTS

For grants to the very low-income elderly for essential repairs to dwellings pursuant to section 504 of the Housing Act of 1949, as amended, $12,500,000.

RURAL HOUSING FOR DOMESTIC FARM LABOR

For financial assistance to eligible nonprofit organizations for housing for domestic farm labor, pursuant to section 516 of the Housing Act of 1949, as amended (42 U.S.C. 1486), $10,000,000.

MUTUAL AND SELF-HELP HOUSING

For grants and contracts pursuant to section 523(b)(1)(A) of the Housing Act of 1949 (42 U.S.C. 1490c), $8,000,000.

RURAL COMMUNITY FIRE PROTECTION GRANTS

For grants pursuant to section 7 of the Cooperative Forestry Assistance Act of 1978 (Public Law 95-313), $3,250,000 to fund up to 50 per centum of the cost of organizing, training, and equipping rural volunteer fire departments.

COMPENSATION FOR CONSTRUCTION DEFECTS

For compensation for construction defects as authorized by section 509(c) of the Housing Act of 1949, as amended, [$1,000,000] *$500,000*.

RURAL HOUSING PRESERVATION GRANTS

Funds made available by Public Laws 98-396 and 98-473 for rural housing preservation grants shall remain available through September 30, 1986.

SALARIES AND EXPENSES

(INCLUDING TRANSFERS OF FUNDS)

For necessary expenses of the Farmers Home Administration, not otherwise provided for, in administering the programs authorized by the Consolidated Farm and Rural Development Act (7 U.S.C. 1921-1995), as amended; title V of the Housing Act of 1949, as amended (42 U.S.C. 1471-1490h); the Rural Rehabilitation Corporation Trust Liquidation Act, approved May 3, 1950 (40 U.S.C. 440-444), for administering the loan program authorized by title III A of the Economic Opportunity Act of 1964 (Public Law 88-452 approved August 20, 1964), as amended, and such other programs for which Farmers Home Administration has the responsibility for administering, [$356,297,000] *$394,197,000*, together with not more than $3,000,000 of the charges collected in connection with the insurance of loans as authorized by section 309(e) of the Consolidated Farm and Rural Development Act, as amended, and section 517(i) of the Housing Act of 1949, as amended, or in connection with charges made on borrowers under section 502(a) of the Housing Act of 1949, as amended: *Provided*, That, in addition, not to exceed $1,000,000 of the funds available for the various programs administered by this agency may be transferred to this appropriation for temporary field employment pursuant to the second sentence of section 706(a) of the Organic Act of 1944 (7 U.S.C. 2225), to meet unusual or heavy workload increases: *Provided further*, That not to exceed $500,000 of this appropriation may be used for employment under 5 U.S.C. 3109: *Provided further*, That not to exceed [$1,600,000] *$2,100,000* of this appropriation shall be available for contracting with the National Rural Water Association or other equally qualified national organization for a circuit rider program to provide technical assistance for rural water systems: *Provided further*, That, in addition to any other authority that the Secretary may have to defer principal and interest and forego foreclosure, the Secretary may permit, at the request of the borrower, the deferral of principal and interest on any outstanding loan made, insured, or held by the Secretary under this title, or under the provisions of any other law administered by the Farmers Home Administration, and may forego foreclosure of any such loan, for such period as the Secretary deems necessary upon a showing by the borrower that due to circumstances beyond the borrower's control, the borrower is temporarily unable to continue making payments of such principal and interest when due without unduly impairing the standard of living of the borrower. The Secretary may permit interest that accrues during the deferral period on any loan deferred under this section to bear no interest during or after such period: *Provided further*, That if the security instrument securing such loan is foreclosed, such interest as is included in the purchase price at such foreclosure shall become part of the principal and draw interest from the date of foreclosure at the rate prescribed by law.

RURAL ELECTRIFICATION ADMINISTRATION

To carry into effect the provisions of the Rural Electrification Act of 1936, as amended (7 U.S.C. 901-950(b)), as follows:

RURAL ELECTRIFICATION AND TELEPHONE REVOLVING FUND LOAN AUTHORIZATIONS

Insured loans pursuant to the authority of section 305 of the Rural Electrification Act of 1936, as amended (7 U.S.C. 935), shall be made as follows: rural electrification loans, not less than $650,000,000 nor more than [$1,100,000,000] *$850,000,000*; and rural telephone loans, not less than $250,000,000 nor more than $325,000,000; to remain available until expended: *Provided*, That loans made pursuant to section 306 of that Act are in addition to these amounts but during 1986 total commitments to guarantee loans pursuant to section 306 shall be not less than $975,000,000 nor more than [$2,345,000,000] *$2,045,000,000* of contingent liability for total loan principal: *Provided further*, That as a condition of approval of insured electric loans during fiscal year 1986, borrowers shall obtain concurrent supplemental financing in accordance with the applicable criteria and ratios in effect as of July 15, 1982*: Provided further, That no funds appropriated in this Act may be used to deny or reduce loans or loan advances based upon a borrower's level of general funds.*

[REIMBURSEMENT TO THE RURAL ELECTRIFICATION AND TELEPHONE REVOLVING FUND

[For an additional amount to reimburse the rural electrification and telephone revolving fund for interest subsidies and losses sustained in prior years, but not previously reimbursed, in carrying out the provisions of the Rural Electrification Act of 1936, as amended (7 U.S.C. 901-950(b)), $225,395,000.]

RURAL TELEPHONE BANK

For the purchase of Class A stock of the Rural Telephone Bank, $30,000,000, to remain available until expended (7 U.S.C. 901-950(b)).

The Rural Telephone Bank is hereby authorized to make such expenditures, within the limits of funds and borrowing authority available to such corporation in accord with law, and to make such contracts and commitments without regard to fiscal year limitations as provided by section 104 of the Government Corporation Control Act, as amended, as may be necessary in carrying out its authorized programs for the current fiscal year. During 1986, and within the resources and authority available, gross obligations for the principal amount of direct loans shall be not less than $185,000,000 nor more than $220,000,000*: Provided, That no funds appropriated in this Act may be used to deny or reduce loans or loan advances based upon a borrower's level of general funds.*

RURAL COMMUNICATION DEVELOPMENT FUND

To reimburse the Rural Communication Development Fund for interest subsidies and losses sustained in prior years, but not previously reimbursed, in making Community Antenna Television loans and loan guarantees under sections 306 and 310B of the Consolidated Farm and Rural Development Act, as amended, $1,203,000.

SALARIES AND EXPENSES

For administrative expenses to carry out the provisions of the Rural Electrification Act of 1936, as amended (7 U.S.C. 901-950(b)), and to administer the loan and loan guarantee programs for Community Antenna Television facilities as authorized by the Consolidated Farm and Rural Development Act (7 U.S.C. 1921-1995), and for which commitments were made prior to fiscal year 1985, including not to exceed $7,000 for financial and credit reports, funds for employment pursuant to the second sentence of section 706(a) of the Organic Act of 1944 (7 U.S.C. 2225), and not to exceed $103,000 for employment under 5 U.S.C. 3109, $30,990,000.

CONSERVATION

[OFFICE OF THE ASSISTANT SECRETARY FOR NATURAL RESOURCES AND ENVIRONMENT

[For necessary salaries and expenses for the Office of the Assistant Secretary for Natural Resources and Environment to administer the laws enacted by the Congress for the Forest Service and the Soil Conservation Service, $386,000.]

SOIL CONSERVATION SERVICE

CONSERVATION OPERATIONS

For necessary expenses for carrying out the provisions of the Act of April 27, 1935 (16 U.S.C. 590a-590f) including preparation of conservation plans and establishment of measures to conserve soil and water (including farm irrigation and land drainage and such special measures for soil and water management as may be necessary to prevent floods and the siltation of reservoirs and to control agricultural related pollutants); operation of conservation plant materials centers; classification and mapping of soil; dissemination of information; acquisition of lands by donation, exchange, or purchase at a nominal cost not to exceed $100; purchase and erection or alteration or improvement of permanent and temporary buildings; and operation and maintenance of aircraft, [$365,629,000] *$365,400,000*; of which not less than $3,973,000 is for snow survey and water forecasting and not less than $4,089,000 is for operation of the plant materials centers: *Provided*, [That of the foregoing amounts $290,204,000 is for personnel compensation and benefits and $75,425,000 is for other expenses: *Provided further*,] That the cost of any permanent building purchased, erected, or as improved, exclusive of the cost of constructing a water supply or sanitary system and connecting the same to any such building and with the exception of buildings acquired in conjunction with land being purchased for other purposes, shall not exceed $10,000, except for one building to be constructed at a cost not to exceed $100,000 and eight buildings to be constructed or improved at a cost not to exceed $50,000 per building and except that alterations or improvements to other existing permanent buildings costing $5,000 or more may be made in any fiscal year in an amount not to exceed $2,000 per building: *Provided further*, That when buildings or other structures are erected on non-Federal land that right to use such land is obtained as provided in 7 U.S.C. 2250a: *Provided further*, That no part of this appropriation may be expended for soil and water conservation operations under the Act of April 27, 1935 (16 U.S.C. 590a-590f) in demonstration projects: *Provided further*, That this appropriation shall be available for field employment pursuant to the second sentence of section 706(a) of the Organic Act of 1944 (7 U.S.C. 2225) and not to exceed $25,000 shall be available for employment under 5 U.S.C. 3109: *Provided further*, That qualified local engineers may be temporarily employed at per diem rates to perform the technical planning work of the Service.

RIVER BASIN SURVEYS AND INVESTIGATIONS

For necessary expenses to conduct research, investigations and surveys of the watersheds of rivers and other waterways, in accordance with section 6 of the Watershed Protection and Flood Prevention Act approved August 4, 1954, as amended (16 U.S.C. 1006-1009), $14,906,000: *Provided*, That this appropriation shall be available for field employment pursuant to the second sentence of section 706(a) of the Organic Act of 1944 (7 U.S.C. 2225), and not to exceed $60,000 shall be available for employment under 5 U.S.C. 3109.

WATERSHED PLANNING

For necessary expenses for small watershed investigations and planning, in accordance with the Watershed Protection and Flood Prevention Act, as amended (16 U.S.C. 1001-1008), $8,922,000: *Provided*, That this appropriation shall be available for field employment pursuant to the second sentence of section 706(a) of the Organic Act of 1944 (7 U.S.C. 2225), and not to exceed $50,000 shall be available for employment under 5 U.S.C. 3109.

WATERSHED AND FLOOD PREVENTION OPERATIONS

For necessary expenses to carry out preventive measures, including but not limited to research, engineering operations, methods of cultivation, the growing of vegetation, rehabilitation of existing works and changes in use of land, in accordance with the Watershed Protection and Flood Prevention Act approved August 4, 1954, as amended (16 U.S.C. 1001-1005, 1007-1009), the provisions of the Act of April 27, 1935 (16 U.S.C. 590a-f), and in accordance with the provisions of laws relating to the activities of the Department, $183,843,000 (of which $27,617,000 shall be available for the watersheds authorized under the Flood Control Act approved June 22, 1936 (33 U.S.C. 701, 16 U.S.C. 1006a), as amended and supplemented): *Provided*, That this appropriation shall be available for field employment pursuant to the second sentence of section 706(a) of the Organic Act of 1944 (7 U.S.C. 2225), and not to exceed $5,000,000 shall be available for emergency measures as provided by sections 403-405 of the Agricultural Credit Act of 1978 (16 U.S.C. 2203-2205), and not to exceed $200,000 shall be available for employment under 5 U.S.C. 3109: *Provided further*, That $14,000,000 in loans may be insured, or made to be sold and insured, under the Agricultural Credit Insurance Fund of the Farmers Home Administration (86 Stat. 663): *Provided further*, That not to exceed $1,000,000 of this appropriation is available to carry out the purposes of the Endangered Species Act of 1973 (Public Law 93-205), as amended, including cooperative efforts as contemplated by that Act to relocate endangered or threatened species to other suitable habitats as may be necessary to expedite project construction.

RESOURCE CONSERVATION AND DEVELOPMENT

For necessary expenses in planning and carrying out projects for resource conservation and development and for sound land use pursuant to the provisions of section 32(e) of title III of the Bankhead-Jones Farm Tenant Act, as amended (7 U.S.C. 1010-1011; 76 Stat. 607), and the provisions of the Act of April 27, 1935 (16 U.S.C. 590a-f), and the provisions of the Agriculture and Food Act of 1981 (16 U.S.C. 3451-3461), $26,320,000: *Provided*, That $2,000,000 in loans may be insured, or made to be sold and insured, under the Agricultural Credit

Insurance Fund of the Farmers Home Administration (86 Stat. 663): *Provided further,* That this appropriation shall be available for field employment pursuant to the second sentence of section 706(a) of the Organic Act of 1944 (7 U.S.C. 2225), and not to exceed $50,000 shall be available for employment under 5 U.S.C. 3109.

GREAT PLAINS CONSERVATION PROGRAM

For necessary expenses to carry into effect a program of conservation in the Great Plains area, pursuant to section 16(b) of the Soil Conservation and Domestic Allotment Act, as added by the Act of August 7, 1956, as amended (16 U.S.C. 590p(b)), $21,531,000, to remain available until expended.

AGRICULTURAL STABILIZATION AND CONSERVATION SERVICE

AGRICULTURAL CONSERVATION PROGRAM

For necessary expenses to carry into effect the program authorized in sections 7 to 15, 16(a), 16(f), and 17 of the Soil Conservation and Domestic Allotment Act approved February 29, 1936, as amended and supplemented (16 U.S.C. 590g–590o, 590p(a), 590p(f), and 590q), and sections 1001–1004, 1006–1008, and 1010 of the Agricultural Act of 1970, as added by the Agriculture and Consumer Protection Act of 1973 (16 U.S.C. 1501–1504, 1506–1508, and 1510), and including not to exceed $15,000 for the preparation and display of exhibits, including such displays at State, interstate, and international fairs within the United States, [$190,000,000] *$165,000,000,* to remain available until expended for agreements, excluding administration but including technical assistance and related expenses, except that no participant in the Agricultural Conservation Program shall receive more than $3,500 *per year,* except where the participants from two or more farms or ranches join to carry out approved practices designed to conserve or improve the agricultural resources of the community, *or where a participant has a long-term agreement, in which case the total payment shall not exceed the annual payment limitation multiplied by the number of years of the agreement*: *Provided,* That no portion of the funds for the current year's program may be utilized to provide financial or technical assistance for drainage on wetlands now designated as Wetlands Types 3 (III) through 20 (XX) in United States Department of the Interior, Fish and Wildlife Circular 39, Wetlands of the United States, 1956: *Provided further,* That such amounts shall be available for the purchase of seeds, fertilizers, lime, trees, or any other conservation materials, or any soil-terracing services, and making grants thereof to agricultural producers to aid them in carrying out approved farming practices as authorized by the Soil Conservation and Domestic Allotment Act, as amended, as determined and recommended by the county committees, approved by the State committees and the Secretary, under programs provided for herein: *Provided further,* That such assistance will not be used for carrying out measures and practices that are primarily production-oriented or that have little or no conservation or pollution abatement benefits: *Provided further,* That not to exceed 5 per centum of the allocation for the current year's program for any county may, on the recommendation of such county committee and approval of the State committee, be withheld and allotted to the Soil Conservation Service for services of its technicians in formulating and carrying out the Agricultural Conservation Program in the participating counties, and shall not be utilized by the Soil Conservation Service for any purpose other than technical and other assistance in such counties, and in addition, on the recommendation of such county committee and approval of the State committee, not to exceed 1 per centum may be made available to any other Federal, State, or local public agency for the same purpose and under the same conditions: *Provided further,* That for the current year's program $2,500,000 shall be available for technical assistance in formulating and carrying out rural environmental practices: *Provided further,* That no part of any funds available to the Department, or any bureau, office, corporation, or other agency constituting a part of such Department, shall be used in the current fiscal year for the payment of salary or travel expenses of any person who has been convicted of violating the Act entitled "An Act to prevent pernicious political activities" approved August 2, 1939, as amended, or who has been found in accordance with the provisions of title 18 U.S.C. 1913 to have violated or attempted to violate such section which prohibits the use of Federal appropriations for the payment of personal services or other expenses designed to influence in any manner a Member of Congress to favor or oppose any legislation or appropriation by Congress except upon request of any Member or through the proper official channels.

FORESTRY INCENTIVES PROGRAM

For necessary expenses, not otherwise provided for, to carry out the program of forestry incentives, as authorized in the Cooperative Forestry Assistance Act of 1978 (16 U.S.C. 2101), including technical assistance and related expenses, $12,500,000, to remain available until expended, as authorized by that Act.

WATER BANK PROGRAM

For necessary expenses to carry into effect the provisions of the Water Bank Act (16 U.S.C. 1301–1311), $8,800,000, to remain available until expended.

[EMERGENCY CONSERVATION PROGRAM

[For necessary expenses to carry into effect the program authorized in sections 401, 402, and 404 of title IV of the Agricultural Credit Act of 1978 (16 U.S.C. 2201–2205), $5,000,000, to remain available until expended, as authorized by 16 U.S.C. 2204.]

TITLE III—DOMESTIC FOOD PROGRAMS

[OFFICE OF THE ASSISTANT SECRETARY FOR FOOD AND CONSUMER SERVICES

[For necessary salaries and expenses for the Office of the Assistant Secretary for Food and Consumer Services to administer the laws enacted by the Congress for the Food and Nutrition Service and the Human Nutrition Information Service, $350,000.]

FOOD AND NUTRITION SERVICE

CHILD NUTRITION PROGRAMS

(INCLUDING TRANSFERS OF FUNDS)

For necessary expenses to carry out the National School Lunch Act (42 U.S.C. 1751–1761, and 1766), and the applicable provisions other than section 3 of the Child Nutrition Act of 1966 (42 U.S.C. 1773–1785, and 1788); $4,114,140,000, to remain available through fiscal year 1987, of which $842,548,000 is hereby appropriated and $3,271,592,000 shall be derived by transfer from funds available under section 32 of the Act of August 24, 1935 (7 U.S.C. 612c): *Provided,* That, of funds provided herein, $665,015,000 shall be available only to the extent an official budget request is transmitted to the Congress: *Provided further,* That funds appropriated for the purpose of section 7 of the Child Nutrition Act of 1966 shall be allocated among the States but the distribution of such funds to an individual State is contingent upon that State's agreement to participate in studies and surveys of programs authorized under the National School Lunch Act and the Child Nutrition Act of 1966, when such studies and surveys have been directed by the Congress and requested by the Secretary of Agriculture: *Provided further,* That if the Secretary of Agriculture determines that a State's administration of any program under the National School Lunch Act or the Child Nutrition Act of 1966 (other than section 17), or the regulations issued pursuant to these Acts, is seriously deficient, and the State fails to correct the deficiency within a specified period of time, the Secretary may withhold from the State some or all of the funds allocated to the State under section 7 of the Child Nutrition Act of 1966 and under section 13(k)(1) of the National School Lunch Act; upon a subsequent determination by the Secretary that the programs are operated in an acceptable manner some or all of the funds withheld may be allocated: *Provided further,* That if the funds available for Nutrition Education and Training grants authorized under section 19 of the Child Nutrition Act of 1966, as amended, require a ratable reduction in those grants, the minimum grant for each State shall be $50,000: *Provided further,* That only final reimbursement claims for service of meals, supplements, and milk submitted to State agencies by eligible schools, summer camps, institutions, and service institutions within sixty days following the month for which the reimbursement is claimed shall be eligible for reimbursement from funds appropriated under this Act. States may receive program funds appropriated under this Act for meals, supplements, and milk served during any month only if the final program operations report for such month is submitted to the Department within ninety days following that month. Exceptions to these claims or reports submission requirements may be made at the discretion of the Secretary.

SPECIAL MILK PROGRAM

For necessary expenses to carry out the special milk program, as authorized by section 3 of the Child Nutrition Act of 1966 (42 U.S.C. 1772), $11,500,000, to remain available through September 30, 1987: *Provided,* That only final reimbursement claims for milk submitted to State agencies within sixty days following the month for which the reimbursement is claimed shall be eligible for reimbursement from funds appropriated under this Act. States may receive program funds appropriated under this Act only if the final program operations report for such month is submitted to the Department within ninety days following that month. Exceptions to these claims or reports submission requirements may be made at the discretion of the Secretary.

FEEDING PROGRAM FOR WOMEN, INFANTS AND CHILDREN (WIC)

For necessary expenses to carry out the special supplemental food program as authorized by section 17 of the Child Nutrition Act of 1966 (42 U.S.C. 1786), $1,570,000,000: *Provided,* That funds provided herein shall remain available through September 30, 1987.

COMMODITY SUPPLEMENTAL FOOD PROGRAM

For necessary expenses to carry out the commodity supplemental food program as authorized by section 4(a) of the Agriculture and Consumer Protection Act of 1973 (7 U.S.C. 612c (note)), including not less than $2,950,000 for the projects in Detroit, New Orleans, and Des Moines, $36,999,000: *Provided*, That funds provided herein shall remain available through September 30, 1987.

FOOD STAMP PROGRAM

For necessary expenses to carry out the Food Stamp Act (7 U.S.C. 2011-2027, 2029) $11,891,570,000: *Provided*, That funds provided herein shall remain available through September 30, 1986, in accordance with section 18(a) of the Food Stamp Act: *Provided further*, That up to 5 per centum of the foregoing amount may be placed in reserve to be apportioned pursuant to section 3679 of the Revised Statutes, as amended, for use only in such amounts and at such times as may become necessary to carry out program operations: *Provided further*, That funds provided herein shall be expended in accordance with section 16 of the Food Stamp Act: *Provided further*, That this appropriation shall be subject to any work registration or workfare requirements as may be required by law: *Provided further*, That $345,000,000 of the funds provided herein shall be available only to the extent necessary after the Secretary has employed the regulatory and administrative methods available to him under the law to curtail fraud, waste and abuse in the program.

NUTRITION ASSISTANCE FOR PUERTO RICO

For monthly payments to the Commonwealth of Puerto Rico for nutrition assistance as authorized by 7 U.S.C. 2028, $825,000,000.

FOOD DONATIONS PROGRAMS

For necessary expenses to carry out section 4(a) of the Agriculture and Consumer Protection Act of 1973 (7 U.S.C. 612c (note)) and section 4(b) of the Food Stamp Act (7 U.S.C. 2013), [$187,622,000] *$194,573,000, of which up to $7,000,000 may be used to pay outstanding claims for meals served in fiscal year 1985.*

TEMPORARY EMERGENCY FOOD ASSISTANCE PROGRAM

For necessary expenses to carry out the Temporary Emergency Food Assistance Act of 1983, as amended, $50,000,000: *Provided*, That, in accordance with section 202 of Public Law 98-92, these funds shall be available only if the Secretary determines the existence of excess commodities.

FOOD PROGRAM ADMINISTRATION

For necessary administrative expenses of the Domestic Food Programs funded under this Act, $82,502,000; of which $5,000,000 shall be available only for simplifying procedures, reducing overhead costs, tightening regulations, improving food stamp coupon handling, and assistance in the prevention, identification and prosecution of fraud and other violations of law: *Provided*, That this appropriation shall be available for employment pursuant to the second sentence of section 706(a) of the Organic Act of 1944 (7 U.S.C. 2225), and not to exceed $150,000 shall be available for employment under 5 U.S.C. 3109.

HUMAN NUTRITION INFORMATION SERVICE

For necessary expenses to enable the Human Nutrition Information Service to perform applied research and demonstrations relating to human nutrition and consumer use and economies of food utilization, $13,562,000: *Provided*, That this appropriation shall be available for employment pursuant to the second sentence of section 706(a) of the Organic Act of 1944 (7 U.S.C. 2225).

TITLE IV—INTERNATIONAL PROGRAMS

FOREIGN AGRICULTURAL SERVICE

For necessary expenses of the Foreign Agricultural Service, including carrying out title VI of the Agricultural Act of 1954, as amended (7 U.S.C. 1761-1768), market development activities abroad, and for enabling the Secretary to coordinate and integrate activities of the Department in connection with foreign agricultural work, including not to exceed $110,000 for representation allowances and for expenses pursuant to section 8 of the Act approved August 3, 1956 (7 U.S.C. 1766), $83,547,000: *Provided*, That not less than $255,000 of the funds contained in this appropriation shall be available to obtain statistics and related facts on foreign production and full and complete information on methods used by other countries to move farm commodities in world trade on a competitive basis.

PUBLIC LAW 480

(INCLUDING TRANSFERS OF FUNDS)

For expenses during the current fiscal year, not otherwise recoverable, and unrecovered prior years' costs, including interest thereon, under the Agricultural Trade Development and Assistance Act of 1954, as amended (7 U.S.C. 1691, 1701-1715, 1721-1726, 1727-1727f, 1731-1736g), as follows: (1) financing the sale of agricultural commodities for convertible foreign currencies and for dollars on credit terms pursuant to titles I and III of said Act, not more than $1,030,000,000; of which $657,000,000 is hereby appropriated and the balance derived from proceeds from sales of foreign currencies and dollar loan repayments, repayments on long-term credit sales and carryover balances, and (2) commodities supplied in connection with dispositions abroad, pursuant to title II of said Act, not more than $650,000,000, of which $650,000,000 is hereby appropriated: *Provided*, That not to exceed [10] *15* per centum of the funds made available to carry out any title of this paragraph may be used to carry out any other title of this paragraph.

OFFICE OF INTERNATIONAL COOPERATION AND DEVELOPMENT

For necessary expenses of the Office of International Cooperation and Development to coordinate, plan, and direct activities involving international development, technical assistance and training, and international scientific and technical cooperation in the Department of Agriculture, including those authorized by the Food and Agriculture Act of 1977 (7 U.S.C. 3291), [$3,917,000] *$5,417,000*; and the Office may utilize advances of funds, or reimburse this appropriation for expenditures made on behalf of Federal agencies, public and private organizations and institutions under agreements executed pursuant to the agricultural food production assistance programs (7 U.S.C. 1736) and the foreign assistance programs of the International Development Cooperation Administration (22 U.S.C. 2392).

SCIENTIFIC ACTIVITIES OVERSEAS (FOREIGN CURRENCY PROGRAM)

For payments in foreign currencies owed to or owned by the United States for market development research authorized by section 104(b)(1) and for agricultural and forestry research and other functions related thereto authorized by section 104(b)(3) of the Agricultural Trade Development and Assistance Act of 1954, as amended (7 U.S.C. 1704(b)(1), (3)), $5,000,000: Provided, That this appropriation shall be available, in addition to other appropriations for these purposes, for payments in the foregoing currencies: Provided further, That funds appropriated herein shall be used for payments in such foreign currencies as the Department determines are needed and can be used most effectively to carry out the purposes of this paragraph: Provided further, That not to exceed $25,000 of this appropriation shall be available for payments in foreign currencies for expenses of employment pursuant to the second sentence of section 706(a) of the Organic Act of 1944 (7 U.S.C. 2225), as amended by 5 U.S.C. 3109.

TITLE V—RELATED AGENCIES

FOOD AND DRUG ADMINISTRATION

SALARIES AND EXPENSES

For necessary expenses of the Food and Drug Administration; for rental of special purpose space in the District of Columbia or elsewhere; and for miscellaneous and emergency expenses of enforcement activities, authorized and approved by the Secretary and to be accounted for solely on the Secretary's certificate, not to exceed $25,000; [$392,370,000] *$394,044,000*[: *Provided*, That none of the funds in this Act shall be used to develop, establish, or operate any program of user fees authorized by 31 U.S.C. 9701]: *Provided, That not to exceed $5,000,000 in collections from user fees may be credited to this appropriation, and shall remain available until expended.*

BUILDINGS AND FACILITIES

For plans, construction, repair, improvement, extension, alteration, and purchase of fixed equipment or facilities of or used by the Food and Drug Administration, where not otherwise provided, $1,450,000.

STANDARD LEVEL USER CHARGES (FDA)

(INCLUDING TRANSFERS OF FUNDS)

For payment of Standard Level User Charges pursuant to Public Law 92-313 for programs and activities of the Food and Drug Administration which are included in this Act, $25,888,000: *Provided*, That in the event the Food and Drug Administration should require modification of space needs, a share of the salaries and expenses appropriation may be transferred to this appropriation, or a share of this appropriation may be transferred to the salaries and expenses appropriation, but such transfers shall not exceed 10 per centum of the funds made available for Standard Level User Charges to or from this account.

COMMODITY FUTURES TRADING COMMISSION

For necessary expenses to carry out the provisions of the Commodity Exchange Act, as amended (7 U.S.C. 1 et seq.), including the purchase and hire of passenger motor vehicles; the rental of space (to include multiple year leases) in the District of Columbia and elsewhere; and not to exceed $25,000 for employment under 5 U.S.C. 3109; [$28,416,000] *$30,307,000*; including not to exceed $700 for official reception and representation expenses.

FARM CREDIT ADMINISTRATION

LIMITATION ON REVOLVING FUND FOR ADMINISTRATIVE EXPENSES

Not to exceed $21,175,000 (from assessments collected from farm credit system

banks) shall be obligated during the current fiscal year for administrative expenses, as authorized under 12 U.S.C. 2249.

TITLE VI—GENERAL PROVISIONS

SEC. 601. The expenditure of any appropriation under this Act for any consulting service through procurement contract, pursuant to 5 U.S.C. 3109, shall be limited to those contracts where such expenditures are a matter of public record and available for public inspection, except where otherwise provided under existing law, or under existing Executive Order issued pursuant to existing law.

SEC. 602. Within the unit limit of cost fixed by law, appropriations and authorizations made for the Department of Agriculture for the fiscal year 1986 under this Act shall be available for the purchase, in addition to those specifically provided for, of not to exceed seven hundred thirty-four (734) passenger motor vehicles of which seven hundred six (706) shall be for replacement only, and for the hire of such vehicles.

SEC. 603. Funds in this Act available to the Department of Agriculture shall be available for uniforms or allowances therefore as authorized by law (5 U.S.C. 5901-5902).

SEC. 604. Not less than $1,500,000 of the appropriations of the Department of Agriculture in this Act for research and service work authorized by the Acts of August 14, 1946, July 28, 1954, and September 6, 1958 (7 U.S.C. 427, 1621-1629; 42 U.S.C. 1891-1893), shall be available for contracting in accordance with said Acts.

SEC. 605. No part of the funds contained in this Act may be used to make production or other payments to a [person, persons, or corporations who harvest or knowingly permit to be harvested for illegal use, marihuana, or other] *person, persons or corporations who grow, cultivate, harvest, process or store or knowingly permit to be grown, cultivated, harvested, processed or stored for illegal use, marijuana, or other* such prohibited drug-producing plants on any part of lands owned or controlled by such persons or corporations.

SEC. 606. Advances of money from any appropriation in this Act for the Department of Agriculture may be made by authority of the Secretary of Agriculture to chiefs of field parties.

SEC. 607. The cumulative total of transfers to the Working Capital Fund for the purpose of accumulating growth capital for data services and National Finance Center operations shall not exceed $2,000,000: *Provided*, That no funds in this Act appropriated to an agency of the Department shall be transferred to the Working Capital Fund without the approval of the agency administrator[: *Provided further*, That not to exceed $40,001,000 shall be charged against the Working Capital Fund for personnel compensation and benefits].

SEC. 608. New obligational authority provided for the following appropriation items in this Act shall remain available until expended: Public Law 480; Mutual and Self-Help Housing; Watershed and Flood Prevention Operations; Resource Conservation and Development; Animal and Plant Health Inspection Service, Buildings and Facilities; Agricultural Stabilization and Conservation Service Salaries and Expenses funds made available to county committees; the Federal Crop Insurance Corporation Fund; *Rural Housing for Domestic Farm Labor; Agricultural Research Service, Buildings and Facilities; Scientific Activities Overseas (Foreign Currency Program);* and Buildings and Facilities, Food and Drug Administration.

SEC. 609. No part of any appropriation contained in this Act shall remain available for obligation beyond the current fiscal year unless expressly so provided herein.

SEC. 610. Not to exceed $50,000 of the appropriation available to the Department of Agriculture in this Act shall be available to provide appropriate orientation and language training pursuant to Public Law 94-449.

SEC. 611. Notwithstanding any other provision of law, employees of the agencies of the Department of Agriculture, including employees of the Agricultural Stabilization and Conservation county committees, may be utilized to provide part-time and intermittent assistance to other agencies of the Department, without reimbursement, during periods when they are not otherwise [full] *fully* utilized, and ceilings on full-time equivalent staff years established for or by the Department of Agriculture shall exclude overtime as well as staff years expended as a result of carrying out programs associated with natural disasters, such as forest fires, droughts, floods, and other acts of God.

SEC. 612. Funds provided by this Act for personnel compensation and benefits shall be available for obligation for that purpose only.

SEC. 613. No part of any appropriation contained in this Act shall be expended by any executive agency, as referred to in the Office of Federal Procurement Policy Act (41 U.S.C. 401 et seq.), pursuant to any obligation for services by contract, unless such executive agency has awarded and entered into such contract as provided by law.

SEC. 614. None of the funds appropriated or otherwise made available by this Act shall be available to implement, administer, or enforce any regulation which has been disapproved pursuant to a resolution of disapproval duly adopted in accordance with the applicable law of the United States.

[SEC. 615. Certificates of beneficial ownership sold by the Farmers Home Administration in connection with the Agricultural Credit Insurance Fund, Rural Housing Insurance Fund, and the Rural Development Insurance Fund shall be not less than 75 per centum of the value of the loans closed during the fiscal year.]

SEC. [616.] *615.* No funds appropriated by this Act may be used to pay negotiated indirect cost rates on cooperative agreements or similar arrangements between the United States Department of Agriculture and nonprofit institutions in excess of 10 per centum of the total direct cost of the agreement when the purpose of such cooperative arrangements is to carry out programs of mutual interest between the two parties. This does not preclude appropriate payment of indirect costs on grants and contracts with such institutions when such indirect costs are computed on a similar basis for all agencies for which appropriations are provided in this Act.

SEC. [617.] *616.* None of the funds in this Act shall be used to carry out any activity related to phasing out the Resource Conservation and Development Program.

SEC. [618.] *617.* None of the funds in this Act shall be used to prevent or interfere with the right and obligation of the Commodity Credit Corporation to sell surplus agricultural commodities in world trade at competitive prices as authorized by law.

SEC. [619.] *618.* Notwithstanding any other provision of this Act, commodities acquired by the Department in connection with Commodity Credit Corporation and section 32 price support operations may be used, as authorized by law (15 U.S.C. 714c and 7 U.S.C. 612c), to provide commodities to individuals in cases of hardship as determined by the Secretary of Agriculture.

SEC. [620.] *619.* During fiscal year 1986, notwithstanding any other provision of law, no funds may be paid out of the Treasury of the United States or out of any fund of a Government corporation to any private individual or corporation in satisfaction of any assurance agreement or payment guarantee or other form of loan guarantee entered into by any agency or corporation of the United States Government with respect to loans made and credits extended to the Polish People's Republic, unless the Polish People's Republic has been declared to be in default of its debt to such individual or corporation or unless the President has provided a monthly written report to the Speaker of the House of Representatives and the President of the Senate explaining the manner in which the national interest of the United States has been served by any payments during the previous month under loan guarantee or credit assurance agreement with respect to loans made or credits extended to the Polish People's Republic in the absence of a declaration of default.

SEC. [621.] *620.* None of the funds in this Act shall be available to reimburse the General Services Administration for payment of Standard Level User Charges in excess of the amounts specified in this Act.

SEC. [622.] *621.* In fiscal year 1986, the Secretary of Agriculture shall initiate construction on not less than twenty new projects under the Watershed Protection and Flood Prevention Act (Public Law 566) and not less than five new projects under the Flood Control Act (Public Law 534).

SEC. [623.] *622.* Funds provided by this Act may be used for translation of publications of the Department of Agriculture into foreign languages when determined by the Secretary to be in the public interest.

SEC. [624.] *623.* None of the funds appropriated by this or any other Act may be used to relocate the Hawaii State Office of the Farmers Home Administration from Hilo, Hawaii, to Honolulu, Hawaii.

SEC. [625.] *624.* Provisions of law prohibiting or restricting personal services contracts shall not apply to veterinarians employed by the Department to take animal blood samples, test and vaccinate animals, and perform branding and tagging activities on a fee-for-service basis.

SEC. [626.] *625.* None of the funds provided in this Act may be used to reduce programs by establishing an end-of-year employment ceiling on full-time equivalent staff years below the level set herein for the following agencies: Farmers Home Administration, 12,400; Agricultural Stabilization and Conservation Service, 2,550; and Soil Conservation Service, 14,177.

SEC. [627.] *626.* Funds provided in this Act may be used for one-year contracts which are to be performed in two fiscal years so long as the total amount for such contracts is obligated in the year for which the funds are appropriated.

SEC. [628.] *627.* Funds appropriated by this Act shall be applied only to the objects for which the appropriations were made except as otherwise provided by law, as required by 31 U.S.C. 1301.

SEC. 628. None of the funds provided for fiscal year 1986 in this or any other act shall be available to restrict the authority of the Commodity Credit Corporation to lease space for its own use or to lease space on

behalf of other agencies of the Department of Agriculture when such space will be jointly occupied.

Mr. COCHRAN. Madam President, the bill now before the Senate is the appropriations bill for Agriculture, Rural Development, and Related Agencies.

The bill funds all of the activities of the Department of Agriculture, except the Forest Service. It also provides funding for the Food and Drug Administration and the Commodity Futures Trading Commission. And it sets a limitation on the administrative expenses of the Farm Credit Administration. The bill represents many hours of very careful consideration to determine the funding levels necessary to permit these agencies and the Department of Agriculture to fulfill their responsibilities as directed by the Congress. We have received very important advice and counsel from many quarters, including the administration, fellow Senators, and from persons who are directly affected by or interested in the programs funded by the bill.

We have also tried to keep the funding levels within the targets that have previously been set by the Congress for spending this year. The total budget authority contained in the bill is $28.1 billion. In our efforts to stay below fiscal year 1985 levels, we are recommending funding which is $185 million below last year's levels.

There is one particular change that we have made in this bill which I need to describe in some detail. This year we are recommending a current, indefinite appropriation for the reimbursement of the Commodity Credit Corporation. Traditionally, the committee has recommended a specific amount of funding that is approved in this appropriations bill to reimburse the CCC for losses which it has sustained in its operation. These are not realized losses that occur when deficiency payments are made, when loans that have been extended are not repaid, or other expenses incurred under the charter and the authority of the Commodity Credit Corporation. Last year, Senators may remember that the Commodity Credit Corporation actually shut down its operation in July because it ran out of spending authority or funding that was to be made available through the passage of a supplemental appropriations bill.

But that bill got bogged down in conference and the CCC ran out of money.

We hope that the new appropriations process we have included in the Senate bill, will prevent that kind of crisis from occurring again.

We make available the authority for the Commodity Credit Corporation to spend an indefinite amount, but we retain the right to monitor and to have oversight over the spending of the CCC.

The administration, some may recall, had recommended a permanent indefinite appropriation for the CCC, but I am afraid that if we granted that request we would lose authority over the spending of the CCC and this would be an inappropriate relinquishment of authority by the Congress to the administration over the operations of the Commodity Credit Corporation. So we are not recommending that to the Senate.

In comparing, therefore, the $28.1 billion funding level of this bill with the House-passed bill, Senators will notice that the total amount of our bill is substantially less than the total amount of the House-passed bill. As a matter of fact, the difference largely is reflected by the difference that I have just described in that $9,396,240,000 is not included in the Senate bill for CCC reimbursement.

Let me also point out a number of factors in addition to that which should be considered when comparing the Senate bill to the bill passed by the other body.

The House provides a specific amount for CCC reimbursement. But let me mention, too, that the amount provided by the House is $201 million less than the amount estimated to be needed for reimbursement of the CCC for net realized losses.

It appears that the House has intentionally used a figure lower than that estimated to be needed in that account. It could be that that $201 million is then used by the other body to fund other accounts in larger amounts than would otherwise have been possible.

It is also noticed that in the House-passed bill the reimbursement accounts for the Farmers Home Administration are funded at less than the amount estimated to be needed to provide fully for those accounts.

It seems that the Farmers Home Administration accounts may be funded at a figure that is really $733 million less than the amount that will eventually be needed to operate those revolving funds.

The legislative notice which has been circulated by the U.S. Senate Republican Policy Committee does an excellent job of pointing out some of the differences between our committee bill and the bill passed by the other body, particularly as it relates to the way the House funds these revolving accounts.

I would like to read into the RECORD this excellent treatment of the subject and commend editor Judy Myers and the Republican Policy Committee, and its chairman, BILL ARMSTRONG, for the work that they do, particularly on this subject because it is very complicated.

The Legislative Notice says:

Committee Recommendations: The Committee has made every attempt to stay within the limits in the first concurrent budget resolution. Probably the most difficult decision by the Committee to conform to the budget resolution was the reduction of FmHA rural housing programs to 60 percent of the levels appropriated last year. Because of the complexity of the bill and the variety of on-budget, off-budget, entitlement, and discretionary programs, the various parties (OMB, CBO, Senate Budget Committee and Appropriations Committee) which must score this bill disagree on many issues.

Another difficulty is the appearance that the bill grossly exceeds the House bill in budget authority. The House arrived at its lower numbers and false savings by reducing certain accounts which will have to be replenished later in the fiscal year. The House reduced the reimbursement accounts of FmHA revolving funds which provided an additional $732.6 million to fund other programs, while claiming to be under the budget request. Similar treatment of the Commodity Credit Corporation reimbursement for net realized losses provided an additional $201 million and a transfer from the Food Stamp Program to the Expanded Food and Nutrition Education Program provided $38.6 million. Thus, in just these accounts, the House bill total is understated by $972,199,000.

That is a quotation from the legislative notice.

The Appropriations Committee has included in our recommendation funding for many programs at the fiscal year 1985 or current law level. For the Food Stamp Program and Child Nutrition Program, including the School Lunch Program, the committee included sufficient funds to carry out these programs based on current law, although pending authorization bills could eventually change those programs.

The committee appropriated funds for the Women, Infants, and Children Feeding Program based on the fiscal year 1985 caseload level, about 3 million participants.

In other programs, the committee provides roughly the fiscal year 1985 levels of fundings. These include research programs, most of the extension service programs, the Soil Conservation Service programs, and most of the cost-sharing programs of the Agricultural Stabilization and Conservation Service.

The bill as recommended by the committee is within the subcommittee's 302(b) allocation for both budget authority and outlays.

Madam President, I am convinced that this bill represents fiscal restraint on the one hand and funding levels on the other that will provide needed assistance for distressed farmers and important assistance in the nutrition areas for those who need that assistance. I urge the Senate to support the bill as reported by the committee.

Before yielding the floor, I want to express my appreciation to the ranking minority member of the subcommittee, the distinguished Senator from North Dakota [Mr. BURDICK]. He has

done an excellent job. He has been most helpful to me and to the committee in developing this bill and bringing it to the floor for the consideration of the Senate. I thank him for that cooperation and for that important assistance.

I shall be happy, Madam President, to yield the floor to the Senator from North Dakota at this point.

The PRESIDING OFFICER. The Senator from North Dakota.

Mr. BURDICK. Madam President, I would like to extend my sincere appreciation and commendation to the chairman of the Agricultural Appropriations Subcommittee for his hard and thoughtful work on this bill. As he has indicated, the bill contains overall funding levels below those of last year. In addition, the budget resolution calls for substantial cuts in agriculture programs and charges that we find unspecified savings in our bill. Given the dire straits of agriculture today, this would seem an almost insurmountable task, but the chairman, as well as the other members of the committee, have done so, and I hope my colleagues will approve the bill.

Madam President, I would like briefly to mention some of the highlights of the bill as I see them.

I believe we have done a good job of addressing the funding needs of the nutrition programs. The administration proposed legislative savings in child nutrition programs which would save $685,960,000. Since these changes have not been made, we have made this funding available upon the submission of a budget request so that these programs would not be interrupted. The bill contains a $70 million increase for the WIC Program so that the current caseload level will not have to be cut. The WIC Program is one of the most effective nutrition assistance programs we have.

We have also provided full funding for the Commodity Supplemental Food Program and for the Food Stamp Program. Like Child Nutrition, the administration proposed legislative changes in the Food Stamp Program which have not been enacted, and the committee therefore provides for full funding under current law. The administration's budget also proposed terminating the Temporary Emergency Food Assistance Program and capping the Elderly Feeding Program. The committee has wisely rejected both of these proposals.

This bill also contains substantial funding for conservation over the budget request. The administration proposed cutting over $366,000,000 out of conservation, or roughly 45 percent. This ill-advised reduction was proposed at a time when the conservation of our land and water is more important than ever and fundamental to the future of agriculture in this country. Although I am disappointed that the bill does not contain the full amount of funding that was provided in 1985, it restores the great majority of the cuts proposed by the President.

I am also pleased that the committee has seen fit to transfer the Animal Damage Control Program from the Department of the Interior to the Department of Agriculture. The purpose of the program is the protection of agriculture; the original act rests authority for ADC with the Secretary of Agriculture; in short, USDA is the proper administrator of this important program.

This bill provides an additional $1,920 million in credit for our farmers over what the President requested. We are all aware, or at least we should be, of the serious problems our farmers are facing. We are also aware that the situation has not improved at all, and if we expect our farmers to stay in business this next year, we need to provide the financial assistance to keep them in business. Therefore, this bill makes $5,320 million available in farm loans—the same amount as was provided in 1985 due in large part to the transfer of over $2 billion from the Emergency Disaster Loan Program.

The bill also provides an additional $41,900,000 over 1985 available for Farmers Home Administration salaries and expenses. This increase is necessary in order to have sufficient staff available to process the increased number of loan applications on a timely basis. When a farmer is set to put in his crop, time does not stand still waiting for his loan application to be approved. With this level of funding, FmHA will be able to meet these needs.

Madam President, I am especially pleased that the committee has accepted my recommendation that we preclude the Rural Electrification Administration from denying loans, or refusing to make loan funds available, to qualified electric and telephone borrowers under a general funds policy. While the REA claims that it cannot meet the minimum loan levels set by Congress, it continues to deny these funds to borrowers who desperately need the money. This practice is merely an attempt by the administration to phase out the REA Program, which is still desperately needed today and whose purpose Congress has consistently supported.

The productivity of agriculture in the United States is a model which the whole world can emulate. This preeminence is due, in large part, to the tremendous achievements we have made in research on growing techniques, pest and disease control, food and fiber use, genetics, and every other facet of agriculture. The committee has continued funding for the Agricultural Research Service, the Cooperative State Research Service, the Animal and Plant Health Inspection Service, and the Extension Service. If we want to maintain our status in world agriculture; and keep our farmers and agribusinesses competitive with the rest of the world, these programs are essential.

Madam President, these are a few of the highlights of this year's bill. I congratulate Senator Cochran for the job he has done in bringing the bill to the floor. And I urge my colleagues to support it.

(Senator STEVENS assumed the chair.)

Mr. COCHRAN. Mr. President, I ask unanimous consent that the committee amendments to H.R. 3037 be considered and agreed to en bloc and that the bill as thus amended be treated as original text for the purpose of further amendment and that no point of order be waived thereby.

The PRESIDING OFFICER. Is there objection? Without objection, it is so ordered.

Mr. COCHRAN. Mr. President, the distinguished Senator from North Dakota has provided, I think, a very helpful overview of the provisions of this appropriations bill. We have sought, by providing funding for many programs administered by the Department of Agriculture, to be sure that essential services and technical assistance in both the farm credit and soil conservation areas, which are very critical to our farmers throughout the country, be maintained at levels that will permit them to have a chance to work their way out of this current economic difficulty. We realized in working on this bill that we were not going to be able to solve all of the problems of agriculture by bringing one appropriations bill to the floor and seeing it passed and signed by the President. So we did not seek to solve every problem confronting agriculture. There are some that are not within our jurisdiction. The problem that exporters encounter when trying to deal with the imbalance in the value of the dollar with foreign currencies is one example. We can try, however, to make a contribution toward reducing our own budget deficit by having a bill that is responsible from a fiscal policy point of view. I think this bill is a responsible appropriations bill.

We have stayed very near to the funding levels that were provided for these activities and programs in 1985. To do so and provide the needed assistance in some program areas, we have had to make changes in some of the more popular programs. One that I personally have a great deal of difficulty with is the reduction in funding that we have provided in this bill for the Farmers Home Rural Housing Program. I know of no program that is more popular from a political point of view than the Rural Housing Program. We know many people in this country

live out in the rural areas who are not able to provide fully for their own housing needs without some assistance with interest rates as high as they are, and so this program meets a special need with which we are all familiar. Yet we recommend to the Senate that we reduce the funding level in that program this year by 40 percent so that we can bring to the floor and we can pass and have enacted a bill which makes an important contribution toward deficit reduction.

I hope Senators will refrain from offering amendments which undo these changes that are so important to the bill now before the Senate. I know some Senators have changes or suggestions they would like to discuss and present to the Senate and that since we are probably not having any votes today, a number of Senators who have amendments are not here. But I hope those who do have amendments which they would like to discuss or present to the Senate and they are able to bring them to the attention of the Senate today, will take advantage of this opportunity to present them and see if we can discuss them and resolve the issues that are raised.

In some other specific areas, I want to let Senators know that we are aware of special problems which have been brought to our attention. In the animal and plant health inspection service area, the brucellosis program, which is of particular concern in the South I know and many other areas of the country as well, is funded at a level of $63.5 million. We are encouraged that the 5-year eradication program that has now been approved and put into place by the Department of Agriculture will be successful and that those interested and involved in the cattle industry will have that problem resolved. We cannot solve the problem with a 1-year appropriation. It is going to take some more time and a continual effort to ensure compliance with a controlled program for us to be successful in eradicating this infection.

Senator McCLURE, during committee consideration of the bill, brought to our attention the terrible problem with the pest grasshoppers out in his part of the country, Idaho and the West. We have provided $18 million in the bill, more than ever at this stage in a year, for eradication work, pest control to help in that area.

In the agriculture credit area, one that has been discussed and is the subject of hearings in the legislative committees in the Senate as well as the other body this month, we have provided funding levels for Farmers Home Administration credit to farmers at the same levels which were used last year, the 1985 fiscal year. Almost $5 billion in lending authority is made available to the Farmers Home Administration. What we hope to see, though, is a transition from direct lending by the Farmers Home Administration to guaranteed lending. This is going to take I think some imaginative work by the Department of Agriculture to administer a credit program that moves toward a guaranteed lending program where loans are actually processed and handled by loan officers who are affiliated with the traditional lenders—banks, production credit associations, insurance companies, and others who might be involved in making loans to agriculture customers. What we are finding is that the Farmers Home Administration offices, because of shortages in personnel and other difficulties, are simply not able to handle the increasing problem. Senator BURDICK pointed out that we are adding money in this bill over and above that provided in the House for salaries and expenses for Farmers Home Administration office employees, $38 million over the amount provided in the House, to try to provide the personnel levels necessary to handle this increased volume of business.

More and more farmers are having to turn to the Farmers Home Administration as a lender of last resort because adequate credit is not available from the traditional sources. And this needs the attention of the legislative committees. They have hearings scheduled and I hope, with the cooperation of the financial community, farm credit problems can be solved.

It does not appear that the way to solve the problem is simply to provide more direct lending through the Farmers Home Administration. Nonetheless, we are not cutting that program. We are not recommending any reduction in funding in farm credit in this bill. We are recommending that the same amount be made available in 1986 as was used in 1985 for Farmers Home lending. We are suggesting a division between operating loans and guaranteed loans, direct and guaranteed loans that will begin a transition toward more guaranteed lending and less direct lending.

In conservation, which is another very important area, we know that the Agriculture Committee has reported a bill to the Senate which provides one of the most ambitious soil and water conservation programs in the history of this country, and it is going to take some money to get it started. We are providing authority for Commodity Credit Corporation funding in the initial stages of this conservation program. We hope this helps. We hope this gives impetus to the effort to remove from cultivation fragile, marginal lands, lands that are highly erodible, that should not be in the production of row crops, some of which should not be in pasture but should be in pine trees or wildlife habitat. Incentives are being written into the law now to encourage better use, sounder management of land resources than we have seen in the past.

We have had the incentives upside down in many areas of the country. The incentives have been to cultivate and get Government income support, soil conservation, technical assistance programs. Be the beneficiary of the Federal Government's largesse and get into farming. Those who act on those incentives have ruined some very fragile lands. Those lands will never be what they once were, and they are being washed away, blown away. They are not producing the yields they did at first, because the nutrients in the soil are gone.

We are trying to do something about that in this bill, too, by providing the authority to begin this new program to take out of cultivation and put into conservation use or better use much of the land that is in production now or in cultivation that should not be.

In these other programs administrated by the Soil Conservation Service and the ASCS, we are providing funding at current levels. The nutrition programs, as was pointed out by the Senator from North Dakota, are funded at levels that will permit the current caseload to be served. This means that we have had to increase the amount allocated to those accounts in some cases in order to achieve that current caseload of assistance.

We notice here, again, that the other body has underfunded the Food Stamp Program by transferring funds from that account to the EFNET Program, the Nutrition Education Program. That may require a supplemental.

We are recommending that we not go along with that funding level. We are suggesting that the current estimates of need be used and funding be made available on the basis of current facts and information. We have done that in the nutrition programs—WIC, Food Stamps, Child Nutrition.

We are trying to bring to the Senate a recommendation that is consistent with the facts as we know them and that contains funding levels based on that information. The same is true for the Farmers Home Administration revolving accounts and the Commodity Credit Corporation.

I will be glad to respond to any questions. I know that the Senator from North Dakota is prepared to try to help answer questions that Senators may have about the bill. If any suggestions are made for changes, we will be happy to discuss and debate those with Senators who may want to offer amendments.

I know there are some who have said they intend to offer amendments.

We hope there will not be many amendments. We hope there will not be any amendments that seek to add

funding to the bill, because right now we are at the 302(b) allocation level, and we hope that this bill will help show that the Senate is serious about fiscal restraint. We think it does at this time.

Mr. President, I see no other Senators seeking recognition, and I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The bill clerk proceeded to call the roll.

Mr. COCHRAN. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER [Mr. SIMPSON]. Without objection, it is so ordered.

(By request of Mr. COCHRAN, the following statement was ordered printed in the RECORD:)

TRANSFER OF ANIMAL DAMAGE CONTROL FROM INTERIOR TO USDA

● Mr. SYMMS. Mr. President, I rise today to commend the Senate Appropriations Committee for funding the Federal Animal Damage Control Program in the Department of Agriculture.

The measure reported by the committee also provides for the transfer of all personnel, property, aircraft, and so forth currently used in the U.S. Fish and Wildlife Service for administration of the program. This action on the part of the committee will be welcomed by producers of food and fiber across the Nation.

It is under this program that the U.S. Government fulfills its responsibility to minimize the losses caused by wildlife coming off Federal lands. In Idaho, where almost two-thirds of the land is federally owned, those losses can be costly. The Idaho sheep industry suffered $1.37 million in predator-caused losses last year. In an industry which often operates with a negative margin of profit, losses of that magnitude can be devastating. If the Federal Government is not willing to relinquish its ownership of such a large portion of Idaho, it must be least fulfill the duties of a responsible landlord.

The sheepman is not the only one who needs protection against wildlife depredations. Animals cause damage to many areas of agriculture and forestry. Blackbirds and starlings in the South, pocket gophers in eastern forests, rats and mice in Hawaii—this program affects the entire Nation.

In 1931, Congress authorized the Secretary of Agriculture to carry out a cooperative program to reduce the losses caused by predatory animals, birds and rodents. At the time, the program was used as a basic wildlife management tool to protect deer and elk populations. Predators were considered a liability to the wildlife resource, and predator control was an inherent part of the wildlife managers job.

When President Roosevelt transferred what is now the Fish and Wildlife Service from Agriculture to Interior, animal damage control responsibilities related to wildlife conservation were transferred along with it. In 1939, the Secretaries of each Department signed a memorandum of understanding, making the Department of Interior lead agency in animal damage control.

Since that time, however, wildlife management philosophy has changed dramatically. Congress has passed numerous laws mandating conservation of wildlife, and assigning the Fish and Wildlife Service primary responsibility for enforcement. Since the reduction of animal damages is no longer considered essential to conservation efforts—as noted wildlife biologist Dr. Walter Howard commented:

Placing animal damage control in a fish and wildlife organization makes as much sense as putting weed control under the supervision of the national arboretum.

The transfer of the ADC Program, as it is called, better reflects our current wildlife conservation philosophy. Because of this, conservation interests across the Nation have supported the transfer of the program. Mr. President, I ask that the paper entitled "A Conservationist's View of Why ADC Should Be in the USDA" be printed in the RECORD.

The material follows:

A CONSERVATIONIST'S VIEW OF WHY ADC SHOULD BE IN THE USDA—THE PROBLEMS OF INTERIOR'S ADC PROGRAM

1. As long as animal damage control is a responsibility of a wildlife management agency, the program will inherently be directed at the management of wildlife. Alternatives which involve the management of agriculture will be discouraged.

2. Interior is not responsible to show any positive results from its control work. Animals are killed without adequately determining whether this will effectively reduce the agricultural damages being sustained.

3. Interior cannot constructively criticize its own program. The conflict of interests present within the agency results in the stifling of both ADC and conservation interests.

4. Interior's ADC funding must be prioritized against programs for wildlife conservation, competing for resources that would otherwise be devoted to conservation.

5. The controversy of Interior's ADC authority has deflected congressional scrutiny from the program itself. Needed program reforms will be delayed as long as the issue of jurisdiction is in question.

HOW AN ADC PROGRAM IN AGRICULTURE SOLVES THESE PROBLEMS

1. The USDA has extensive expertise in livestock and crop management. Its approach to ADC has historically centered more in prevention and protection against damages.

2. The USDA has already announced its plan to implement "a risk management mode of animal damage, measuring productivity gains against target species damage."

3. Agriculture's program would be carefully reviewed and regulated by objective agencies such as the Fish and Wildlife Service or the Environmental Protection Agency.

4. ADC would be appropriately prioritized among other Government programs for the benefit of farmers and ranchers.

5. With the question of jurisdiction out of the way, program activities would be open for review. The USDA has already proposed that a task force of conservation and agriculture interests be established to recommend possible future program reforms.

Ninety cents of every Federal ADC dollar go to purchase protection for farmers and ranchers. While the ADC Program is in the U.S. Fish and Wildlife Service, that 90 cents must come from a basically wildlife conservation budget. Funding ADC out of the USDA budget puts the program in perspective with other programs which benefit agriculture. This, in turn, will help Congress to prioritize ADC funds more consistently and with much less controversy.

In 1939, Secretary of Agriculture Henry Wallace noted "the wildlife resource is just one of several important resources of the public domain. It must be managed on the multiple use principle under which the management of all resources and all uses of Government lands are coordinated. No one resource, or use, can be given an exclusive right-of-way or managed independently of the others."

"If turned over to any other agency, predator control goals will likely be lost in a vacuum of responsibility. The reduction of predator damages is as much agricultural as any other function of the Department (of Agriculture). If these damages are not controlled, our ability to produce food and fiber is threatened. It was for the protection against such threats that this Department was created."

Time has proven the truth of Henry Wallace's warning. The replacement of animal damage control in the Department of Agriculture is now 20 years overdue. It was 20 years ago that former Senator Tower introduced legislation to re-establish the ADC Program in agriculture.

Since 1965, an attempt has been made to transfer the ADC Program to Agriculture at least once in every session of Congress. Now, due to the cooperative efforts of many of my Senate and House colleagues, the Secretaries of Interior and Agriculture, and Agricultural interests throughout the Nation, the program has finally arrived at its original and most appropriate home in the Department of Agriculture.●

● Mr. SARBANES. Mr. President, will my distinguished colleague from Mississippi yield for a question?

● Mr. COCHRAN. I am glad to yield to my good friend from Maryland.

● Mr. SARBANES. I thank the Senator.

During consideration of the fiscal year 1985 supplemental appropriations bill, language was included which prohibited the closing of local and State Agricultural Stabilization and Conservation Service [ASCS] offices for the remainder of the fiscal year. This language was included in the bill to prevent the Department of Agriculture from proceeding with their ASCS office consolidation and relocation plan.

Although the bill we are now considering does not include similar language regarding ASCS offices, the management efficiency initiatives section of the committee report states on page 8 the following:

. . . The Committee, however, remains concerned about the closing of any State or county offices and will expect the Department to notify the appropriate committees of Congress at least 4 months in advance of any proposed changes in organization or location of offices.

It is my understanding that this language applies to all ASCS offices and the Department's consolidation and relocation plan. Is that my distinguished colleague's understanding of this language?

● Mr. COCHRAN. Yes. By including that language in the report, it was the intention of the committee that before any action is taken to close or relocate any ASCS offices, the Department should notify the appropriate committees of Congress, including the Subcommittee on Agriculture, Rural Development, and Related Agencies, at least 4 months in advance.

● Mr. SARBANES. I thank my good friend from Mississippi for clarifying this matter for me.●

AGRICULTURAL STABILIZATION AND CONSERVATION SERVICE OFFICES

Mr. COCHRAN. I yield to my distinguished colleague from New Jersey.

Mr. LAUTENBERG. I am pleased that my distinguished colleague from Mississippi concurs that the language contained in the fiscal year 1986 agriculture appropriations bill referring to closing of State or county offices refers to all ASCS offices, and that the proposed changes in organization or location of offices refers to the Department's consolidation and relocation plan. It was my intention in offering this language in the Senate Appropriations Committee that it be so understood.

I agree with my colleagues that the Agricultural Stabilization and Conservation Service [ASCS] offices play an important role in assisting our States' agricultural communities. The New Jersey ASCS center serves as a valuable link between the U.S. Department of Agriculture and the State of New Jersey. It has worked closely with the New Jersey Department of Agriculture and the Department of Environmental Protection to ensure that New Jersey's agricultural needs are addressed. Conservation programs, water quality assessments, and price stabilization plans, all vital to the health of New Jersey's farm community have been effectively administered through the ASCS State office.

Regionalization of the State offices would cause great problems, forcing New Jersey farmers to travel to another State to get assistance from the ASCS. New Jersey and other States will be better served by having their own ASCS offices in their own States.

My intention in seeking to include this language in the bill was to protect that right by providing for adequate notice in the event that the Department of Agriculture seeks to consolidate or close the New Jersey ASCS office. I thank my colleague from Mississippi for engaging in this colloquy on the intent and meaning of the committee report language. I very much appreciate his acceptance of my language in committee.

Mr. BRADLEY. I thank the Senator. I would also like to thank the distinguished Senator from Mississippi for clarifying this passage of the committee report.

I know that my good friend from Maryland agrees that the Agricultural Stabilization and Conservation Service [ASCS] offices play a vital role in assisting each State's agricultural community. A move to regionalize or close New Jersey's ASCS centers would directly effect the 4,000 farm operators who rely on broad range of sevices provided by the ASCS.

Furthermore, a regionalization of the State offices would result in a breakdown of Federal agricultural programs administered at the State level. Today, if a farmer living in Cumberland County, NJ, needs the help of the ASCS, he or she need only travel to the ASCS office located in Rosehayn. There a person familiar with the country's agricultural community can offer assistance. Regionalization of the ASCS offices would only create inefficiency in a system that is charged with helping widely divergent needs and interests. It is not difficult to imagine the problems New Jersey farmers would encounter if they had to travel to another State in order to get assistance from the ASCS.

Simply put, each State can be served best by its own ASCS center. I would like to thank my colleague from Mississippi for taking the time to address the questions posed by my friend from Maryland, and for allowing me a moment to relay my concern for this important program.

ON THE USDA SURPLUS COMMODITIES PROGRAM FOR THE ELDERLY

Mr. GRASSLEY. Mr. President, this bill includes a provision offered as an amendment by Senator COCHRAN, the chairman of the Subcommittee on Agriculture of the Appropriations Committee, during full committee markup of the bill on September 24, 1985, which should enable the Older Americans Act network to avoid what could have been a cutback in the coming months of 18 million meals nationwide in congregate and home-delivered meals.

As chairman of the Subcommittee on Aging, which oversees the Older Americans Act programs, I can assure my colleagues that the congregate and home-delivered meals programs provide a vital service for older people, most of whom are needy. I thank my colleague from Mississippi for responding to the concerns about this program expressed to him by myself and others.

There is one question I would like to address to Senator COCHRAN about his amendment:

As I understand it, his amendment states that the Department of Agriculture may use up to $7 million in fiscal year 1986 funds to meet obligations incurred by the States in fiscal year 1985 for this program. Was it the committee's intention that the Department should spend up to all of the $7 million to retire fiscal year 1985 obligations for this program?

Mr. COCHRAN. This is correct. It was the intention that the Department should pay for outstanding fiscal year 1985 obligations incurred by the States for this program. I am aware that area agencies on aging are reporting substantial increases in need for the meals programs, and particularly for the home-delivered program; therefore, this hardly seems the time to permit substantial cutbacks in this program.

Mr. GORTON. Mr. President, I am concerned that one small part of the committee bill may do serious damage to the effort to provide low-income farmworkers with decent housing, both in my State and across the Nation. The level of funding for rental assistance payments contained in the committee's bill provides no assistance for new units that will be constructed under the farmworker housing program. What this means is that new units will be completed, and we will not be able to put families into them, because the small additional rental assistance funding is not available. Not only will this mean that some low-income farmworkers will not be housed, but it appears to be inconsistent with the committee's overall goal of preserving the program—we are appropriating 90 percent of the money for this effort in the construction program, but the overall effort only makes sense if we provide the small rental assistance moneys that go with it.

I understand that the House bill has a higher appropriation figure for rental assistance, but also neglects to set aside any funds for assistance attached to new construction coming on stream this year. Quite apart from the question of the funding level, I hope that the chairman of the committee can try to get the conference committee to address this issue, and see if a small amount of assistance—on the order of 500 units—can be set aside for farmworker housing new construction units.

Mr. COCHRAN. I appreciate the Senator's raising this issue. I understand his concern. It is always difficult, as I am sure the Senator understands, to be certain going into a conference just how a problem is going to be dealt with. But I assure the Senator that I will keep this problem in mind during the conference.

Mr. GORTON. I thank the Senator.

Mr. COCHRAN. Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. DOLE. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER (Mr. COCHRAN). Without objection, it is so ordered.

Mr. DOLE. Mr. President, I thank the distinguished Presiding Officer for bringing up H.R. 3037, the agriculture appropriations bill.

I only wish now that some of the Members who have amendments would come to the Chamber and offer those amendments.

We have seven appropriations bills on which we need fairly immediate action because we will have another continuing resolution in the next 2 or 3 weeks and we have a number of other matters, including reconciliation, the so-called textile bill, the farm bill, a number of other matters we hope to bring up before the Thanksgiving break which starts on November 22.

But there are amendments of Senators QUAYLE, GORE, CHILES, LEVIN, DIXON, DOLE/EXON, LAUTENBERG, GRASSLEY, METZENBAUM, and PROXMIRE.

It seems to me that some of those can be disposed of today.

I can only indicate to my colleagues that I do not know anything else to do but come in at 8 a.m. in the morning and have a vote at 8:30 a.m. on attendance check. Otherwise, we will never get started.

We have been on this bill since 11:15 a.m. It is now 3 p.m. and, as I understand it, there have been opening statements made and the managers, both the distinguished Presiding Officer and the distinguished Senator from North Dakota, Senator BURDICK, have been cooling their heels most of the day.

So I urge my colleagues to come to the Chamber because we must dispose of a number of these appropriations bills and reconciliation this week.

I know there are some Members who prefer to do their amendments tomorrow, but if they can do it today, we can order the votes, have the rollcall vote tomorrow, and move on to the next appropriations bill as well as reconciliation.

So I say to my colleagues, some of whom have indicated an interest in recessing or adjourning this year, this is a good example why we will probably be here until after Thanksgiving.

AMENDMENT NO. 775

(Purpose: To appropriate funds to carry out the orphan drug grant and contract program)

Mr. METZENBAUM. Mr. President, I rise to offer an amendment, but first I wish to talk for about a minute and then I will submit the amendment.

The amendment that I offer is supported by the Alexander Medical Foundation, the American Narcolepsy Association, the Amyotrophic Lateral Sclerosis Society of America, the Center for Neurologic Study, the Cornelia de Lange Syndrome Association, and about 35 other organizations, a total list of which I ask unanimous consent be printed in the RECORD at this point.

There being no objection, the list was ordered to be printed in the RECORD, as follows:

The Alexander Medical Foundation.
American Narcolepsy Association.
Amyotrophic Lateral Scleriosis Society of America.
Center for Neurologic Study.
Cornelia de Lange Syndrome Association.
Cystic Fibrosis Foundation.
Cystinosis Foundation.
Dysautonomia Foundation, Inc.
Dystrophic Epidermolysis Bullosa Research Association.
Epilepsy Foundation of America.
Family Survival Project for Brain Damaged Adults.
Friedreich's Atazia Group in America, Inc.
Gaucher's Disease Registry.
Guillain-Barre Syndrome Support Group.
Huntington's Disease Foundation of America.
International Joseph Diseases Foundation.
Myoclonus Families United.
National Association for Sickle Cell Disease.
National Ataxia Foundation.
National Head Injury Foundation.
National Huntington's Disease Association.
National Multiple Sclerosis Society.
National Neurofibromatosis Foundation.
National Foundation for Ectodermal Dysplasias.
National Retinitis Pigmentosa Foundation.
National Tay-Sachs & Allied Diseases Association, Inc.
National Tuberous Sclerosis Association.
Osteogenesis Imperfecta-N.C.A., Inc.
Paget's Disease Foundation.
Parkinson's Disease Foundation.
Parkinson's Educational Program ● USA (PEP●USA).
Prader-Willi Syndrome Association.
The Sarcoidosis Family Aid & Medical Research Foundation.
Scleraderma Society, Inc.
Tourette Syndrome Association, Inc.
United Leukodystrophy Foundation, Inc.
United Parkinson Foundation.
Wilson's Disease Association.

Mr. METZENBAUM. Mr. President, I might say that it includes the National Head Injury Foundation, the National Huntington's Disease Association, the Tourette Syndrome Association, Inc., the United Parkinson Foundation, and many others.

Then what is this amendment that I am about to offer? It is an amendment having to do with additional appropriation of $4 million in research in connection with the subject of orphan drugs. What are orphan drugs?

Orphan drugs are used to treat rare diseases that afflict a relatively small number of people.

An estimated 8 million Americans suffer from over 5,000 rare diseases. Over half of these are childhood diseases.

Drugs for rare diseases are not profitable for pharmaceutical companies to develop, and we can all well understand that.

But the bottom line is and the result is many drugs which could be used to treat these afflictions never get developed.

The Orphan Drug Act was originally signed into law in January 1983. It authorized $4 million a year for research grants. That was the congressional intent, that was the law.

This $4 million authorization, however, has never been appropriated. A small amount for grants has been available through the Agriculture Committee.

Again, this was a separate appropriation, and it was not under the Orphan Drug Act authorization bill.

In the years between 1983 and 1985 combined, less than $4 million has been spent on research grants—Congress intended to spend $4 million a year.

The word going around in the scientific community is that the Orphan Drug Program is dying, due to the lack of funding. Fewer researchers are bothering to submit applications for this program.

For instance: in 1983, only one-half of a million dollars was appropriated for research; 55 applications were received; 44 were approved; but only 8 of the 44 were funded.

In 1984, only $1.03 million was appropriated, 43 applications were received; 33 were approved; and again only 11 were funded.

In 1985, only $1.42 million was appropriated; 41 applications were received; and 34 were approved.

I offered an amendment to the appropriations bill which gave the program an additional $1 million, and with that 19 new grants were awarded.

Obviously, many of the grants awarded must be funded for more than 1 year. Therefore, obligations for money are often committed before new projects are even considered.

In order for a research program to be viable, it must be able to award grants annually, not once every 2 or 3 years.

This amendment simply carries out the intent of the Congress.

It appropriates a funding authority that has been denied for over 3 years.

It breathes life into a program that desperately needs it.

It gives hope to millions of Americans who today have nowhere else to turn.

To those who would talk about costs, first let me point out we are talking about a very, very small amount of money. When you are dealing with a subject such as illness of children, illness of adults, $4 million is but a drop in the bucket when we talk about the billions that are spent for medical research in this country.

But that $4 million can be extremely valuable in coming up with some of the answers for the rare diseases about which we are speaking. And I would say to those who are managing the bill, $4 million does not even become a decimal point let alone a number on any appropriations bill. It is such an insignificant amount compared with the amount of dollars that are in this bill and in the other bills that we deal with in the U.S. Congress that I would urge upon you, I would beseech you, I would entreat you, and I would also ask you if you would be good enough to accept this amendment which I have not as yet been able to send to the desk because I am waiting for legislative counsel to get the draft of it over to me.

Under those circumstances, Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. METZENBAUM. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. METZENBAUM. Mr. President, I send an amendment to the desk and ask for its immediate consideration.

The PRESIDING OFFICER. The clerk will report.

The legislative clerk read as follows:

The Senator from Ohio [Mr. METZENBAUM] proposes an amendment numbered 775.

On page 57, line 10, strike out "$394,044,000" and insert in lieu thereof "$398,044,000, of which $4,000,000 shall be available for grants and contracts under section 5 of the Orphan Drug Act".

(Mr. HELMS assumed the chair.)

Mr. COCHRAN. Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. COCHRAN. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER (Mr. GRAMM). Without objection, it is so ordered.

Mr. COCHRAN. Mr. President, the Senator from Ohio [Mr. METZENBAUM] has brought to the attention of the Senate a subject matter area that is very important and needs the attention of Congress, in my opinion. His amendment seeks to add $4 million to a drug grants program administered by the Food and Drug Administration. Specifically the reason this program exists is to encourage research and development of drugs to combat rare diseases.

The economic problem for drug manufacturers and research scientists is that even if you find a drug that is effective against a rare disease there is not much market for it. It is hard to generate revenue after such a drug is developed and put on the market, and so the economic consequences are such that there is not much research being done in this area since drug manufacturers and retailers are in business to make money and you cannot make money doing research and marketing drugs to deal with the effects and problems of rare diseases.

I recall joining with the distinguished Senator from Kansas [Mrs. KASSEBAUM] a few years ago in sponsoring legislation to create a program to encourage more research in these areas. That bill was enacted into law as Public Law 97-414. It was enacted January 4, 1983. It amends the Federal Food, Drug and Cosmetic Act to facilitate the development of drugs for rare diseases and conditions and for other purposes. Among the provisions of this act is a Drug Grants Program, and that is the program the Senator from Ohio hopes we will fund. For just a matter of history we have made available under this bill, the committee recommends, the sum of $1.8 million in the Food and Drug Administration appropriation.

This is specifically for the Orphan Product Grants Program.

The amendment, therefore, we hope can be modified so that we do add some funds for this program. Even though we have recommended this prior level of $1.8 million, we think that it is an important program. It is meritorious. The only issue really before the Senate as I see it is the budget constraint problem. We are operating under a budget resolution, for instance, which assumes $409 million for the Food and Drug Administration for this next fiscal year.

But the President's budget requested $420,995,000. Our committee has brought a bill here that provides $421,382,000 for the operation of the Food and Drug Administration for this year. And within that, as I say, we have the $1.8 million.

Incidentally, there is another provision of this act I referred to that provides a tax credit to corporations who conduct research and testing of drugs for rare diseases to encourage more work in that area, and that tax credit is available as an incentive in addition to the grant program which is sought to be fully funded by this amendment.

May I suggest, Mr. President, that rather than accepting the amendment of the Senator from Ohio, which would add $4 million to the bill, I would be prepared to recommend that the Senate accept an amendment that would add $2.2 million to this account which would bring up to the authorized level of $4 million the appropriation for research grants for orphan products and orphan drugs to be administered by the Food and Drug Administration.

I hope the Senator can consider that request and that suggestion as a way to resolve the issue. It is an important problem. It does need solving, and I commend and thank the Senator from Ohio for bringing this important subject to the attention of the Senate.

The PRESIDING OFFICER (Mr. GRASSLEY). The Senator from Ohio is recognized.

Mr. METZENBAUM. Mr. President, I wish to respond two ways to my friend and colleague from Mississippi, a man for whom I have tremendous respect. I appreciate what he is saying and I appreciate his willingness to compromoise the issue. But I point out that if the agriculture appropriations measure stands as is, no new grants will be funded, and some multiyear projects may not survive.

So, as a consequence, we are talking about new grants for orphan drug research of $1.8 million that is presently in the bill itself, and the fact that some of that can be used for research but some of it also can be used for other purposes as well. It is not limited alone to research.

It is my strong feeling that having anything less than a minimum of $4 million for research would do violence to the needs that are to be found in this area. There are so many different organizations and so many different illnesses about which we are speaking, and I would feel that to cut back the $4 million to $2.2 million would be less than it should be.

But being a conciliatory human being, I am prepared to compromise and see if my colleague would be willing instead of the $2.2 million and my $4 million perhaps we could compromise at $3.2 million and make it a total of $5 million.

Mr. COCHRAN. Mr. President, if the Senator will yield, let me suggest this: he and I have no quarrel over the fact that $4 million ought to be used from the funds appropriated in the act for the Food and Drug Administration for the Orphan Drug Grants Program. I agree with the Senator on that issue.

The only disagreement and the only suggestion of difference that might exist is that instead of writing in, as this amendment seeks to do, that the appropriated level on page 57, line 10 should be $398,044,000, this Senator is suggesting that instead that figure should be $396,244,000.

If I could get the Senator to agree to make simply that change and leave the rest of the amendment as it is, which would leave the earmarking of $4 million unchanged, so that the amendment would then read: "On page 57, line 10, strike out $394,044,000 and insert in lieu thereof $396,244,000, of which $4 million shall be available for grants and contracts of section 5 of the Orphan Drug Act," then he and I would have no disagreement.

Mr. METZENBAUM. Mr. President, I think that is all right. As I understand the shaving of the extra $2 million, we would find that in some other programs or the Department would be expected to find it. Is that what the Senator is suggesting?

Mr. COCHRAN. Mr. President, our suggestion is that we specifically earmark $4 million, the authorized level, for the Orphan Drug Grants Program, and that we make that total number simply $2.2 million more than was provided by the committee. This requires the FDA to make some adjustments; it certainly does. They have to make some adjustments. They have to make some choices. But it requires them to have a program, to administer a program of $4 million for that Orphan Drug Grant Program.

Mr. METZENBAUM. What concerns me is whether or not this $4 million would encompass the $1.8 million that is already in the bill, and that concerns me because the need for that $1.8 million is so demanding that it will be required just to cover those programs that are ongoing on a year-to-year basis. I believe that I would, in effect, be cutting back an addition of $2.2 million, and I am frankly reluctant to do that.

Let me make another suggestion. Could we add a line, and I do not know where the $1.8 million figure is, could we add a line indicating that this $4 million shall specifically not include those funds heretofore or hereafter appropriated in some section of the bill?

Mr. COCHRAN. Mr. President, I am reluctant to include language like that. The fact of the matter is we have identified the public law that is the authority for the Orphan Drug Grant Program. It provided, when it was enacted, a $4 million a year grant program. It was reauthorized and the authorized limits are $4 million each year.

Mr. METZENBAUM. I accept the Senator's suggestion.

Mr. President, I send a modification of my pending amendment to the desk.

The PRESIDING OFFICER. The Senator has the right to change or modify his amendment.

Mr. METZENBAUM. Mr. President, I do not need the Chair's permission. The yeas and nays have not been asked for.

The PRESIDING OFFICER. The Senator has the right. The amendment at this point is modified because of the author's right to so modify.

The amendment (No. 775), as modified, reads as follows:

On page 57, line 10, strike out "$394,044,000" and insert in lieu thereof "$396,244,000, of which $4,000,000 shall be available for grants and contracts under section 5 of the Orphan Drug Act".

Mr. METZENBAUM. Mr. President, the modification is just the language that the manager of the bill has suggested. If he is prepared to accept it, I am prepared to bring this matter to a conclusion.

Mr. COCHRAN. Mr. President, let me thank the distinguished Senator from Ohio for the modification to his amendment. I am prepared to recommend that the amendment be accepted.

The PRESIDING OFFICER. Is there further debate? If not, the question is on agreeing to the amendment of the Senator from Ohio [Mr. METZENBAUM].

The amendment (No. 775), as modified, was agreed to.

Mr. COCHRAN. Mr. President, I move to reconsider the vote by which the amendment was agreed to.

Mr. METZENBAUM. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

Mr. METZENBAUM. Mr. President, I wish to express my appreciation for the cooperation of the managers on both sides of the aisle in connection with the handling of this amendment.

Mr. COCHRAN. Mr. President, I yield the floor.

Mr. HELMS addressed the Chair.

The PRESIDING OFFICER. The Senator from North Carolina.

Mr. HELMS. Mr. President, I thank the Chair.

Mr. President, first, I wish to express my admiration and gratitude to the distinguished managers of this bill. I know of the enormous amount of work that they have done and the incredible detail that is involved in preparing an appropriations measure for agricultural development and related agencies.

I do want to pose this inquiry to the distinguished manager of the bill, Mr. COCHRAN. I have run some figures through my head and on paper and I asked staff to use the computer, and I find what appears to be a $1.8 billion differential in what the Agriculture Committee authorized for farm credit and food stamps. I wonder if the distinguished Senator would comment on what appeared to be a $1.8 billion overage for these two items alone.

Mr. COCHRAN. Mr. President, if the Senator will yield, I would be happy to provide the information that we have about the cost of these programs, the way they are estimated, and the way that the committee is recommending funding.

The Senator speaks of an authorizing level, I believe.

Mr. HELMS. Correct.

Mr. COCHRAN. The authorized level that this committee is bringing its bill to the floor under is current law level. The Agriculture Committee, as I understand the Senator, has written the farm bill. It is on the calendar, and will be taken up by the Senate next week. The work done by the Appropriations Committee is based on the law as it exists now—as it has been enacted, and signed by the President. If changes are made in the law, and funding is not authorized it cannot be used; that is, the controlling authority is the legislative process. Or, if changes are made to require additional funding, a supplemental appropriations bill may have to be considered. But I think the bill as presented to the Senate, if I am not mistaken, is consistent with current law levels of authorization both in the farm credit area and in the food stamp area.

Mr. HELMS. Mr. President, I thank the Senator. I want the Senator to know that in no way am I being critical. I was just interested in what appeared to me to be a $1.8 billion overage.

I wonder if I might ask the Senator to do this. Can a member of the Senator's staff confer with a member of mine about these figures overnight and let me take a look at it? Of course, the distinguished chairman of the subcommittee wants the same thing. But I look at the components of the appropriation. For example, it says the bill as reported to the Senate, amount of change by the Senate subcommittee, and so forth. But in any case, overnight let us run the computers and see if there is that overage. If there is, the Senator knows that I have some problem with the cost of the farm bill. When it was reported out of the Agriculture Committee I became first chairman of that committee in history to have to vote against the reported bill simply because of the cost of it. But I know the Senator is acting in completely good faith. If the Senator will accord me the consultation between his staff and mine, I would appreciate it.

Mr. COCHRAN. Mr. President, I will be very happy to instruct the staff to meet with the Senator's staff to go over the figures. We want the appropriations bill to be consistent with cur-

rent legal authority, statutory authority, and we think it is.

I might say in this farm credit area I know the distinguished chairman of the Agriculture Committee has scheduled a hearing to look into the farm credit difficulties, to analyze, and consider the suggestions that may be made by lending institutions, administration officials, and others about reform in that area. We will be following very closely those hearings and hope that we will be able to come up with some solutions to these farm credit problems.

We hear about farmers having difficulty getting credit. I know in my State we have almost 60 percent of the farm credit being extended directly to borrowers through the Farmers Home Administration. That is how bad the situation is in just one State. I know there are others where you can point to situations where there are very real difficulties in the farm credit area. In this bill we brought to the floor, for instance, we are recommending a level of lending authority through the Farmers Home Administration of almost $5 billion. That is the same level of lending that is available, was available this past fiscal year that just ended September 30—$4.7 billion; some of that in direct operating loan moneys and some in guaranteed lending authority.

We are suggesting in this legislation—and in our committee report—that we phase in a guaranteed loan assistance program as an alternative to the direct lending program of the Farmers Home Administration. That, I know, is consistent with the bill as reported from the Agriculture Committee. That is a suggestion that is being made by the Senator from North Carolina.

The question, I guess, is, How much authority do you provide under the bill for the Farmers Home Administration? We do not have jurisdiction over the Farm Credit Administration, over the banks, or over insurance companies, or any other lenders. But we can provide a limit to the authority of the Farmers Home Administration.

Last year they borrowed from other accounts and loaned money directly to farmers under this program. That, I was told, was consistent with current law. We are trying to make available an adequate amount of money here to relieve the distress of the farmers, but at the same time make a contribution toward deficit reduction because that is important, too. I recognize that.

I am certainly hoping that the Senate will be restrained as we deal with this bill and other appropriations bills to be sure that we stay within our targets, and that we give effect to the rhetoric about reducing the deficit because I think that is about as important a contribution as we can make right now toward bringing down interest rates and creating a better economic environment—environment for growth, more exports, and more chance of farmers operating at a profit. I know that is what the distinguished Senator from North Carolina wants, too.

In the food stamp area, we have provided funding that will ensure that the existing caseload—those who are deriving benefits under that program in the 1985 fiscal year—will be eligible and able to participate in the program in 1986. Our funding authority is a little over that of the House because the House basically underfunds the estimated expense in that program. And they use the money, it appears, for other purposes. And then that lays the stage, lays the predicate, for a supplemental later on to add to the program. We are trying not to do that in this bill. We are trying to state what the estimates are, what the facts are, and then recommend a level of funding that is based on those facts as they exist today.

So we hope we have not overfunded that program. We do not think we have any of the other nutrition programs. But to be sure that our figures are consistent with those of the legislative committee staff, we will be happy to get together, go over them, and try to answer any questions that anybody has about them.

Mr. HELMS. I thank the Senator, Mr. President, and I say to him that trying to get these hearings moving on the credit situation is something else again. I have now scheduled for the third time; each time the credit system has said we need a little more time to get up our analysis. Now the distinguished Secretary of the Treasury, Mr. Baker, has sent word that he would like for us to defer a few more days. So we have had to reschedule for the third time our credit period. I do not like that because I think we ought to get about the business of finding out what is the scope of the problems, and what the possible remedies are.

But I thank the Senator for his kindness, his tolerance with raising questions about this amount of money; $1.8 billion is not so much any more, but I think as Senator Dirksen said one time, a billion here and a billion there, it soon adds up to real money. I would like to have the answer to it. I know the Senator would.

I thank the Senator for his accommodations.

Thank you, Mr. President. I yield the floor.

Mr. COCHRAN. Mr. President, I know that we have other Senators who are interested in bringing up amendments to the bill. A few have discussed suggested changes in the bill with me. I know we will be considering amendments—if not later today, then certainly tomorrow. We are prepared to debate those amendments, consider them, and try to resolve the issues that are raised by those amendments. I hope Senators who do have amendments can come to the floor at this time and offer them.

I see no other Senators in the Chamber who are seeking recognition or who have amendments.

Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. EXON. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER (Mr. ABDNOR). Without objection, it is so ordered.

AMENDMENT NO. 777.

(Purpose: To extend the termination date for loan guarantees under the Biomass Energy and Alcohol Fuels Act of 1980 and affirm the authority of the Secretary of Energy to modify conditional loan guarantees)

Mr. EXON. Mr. President, I send an amendment to the desk, on behalf of myself and Mr. DOLE, Mr. ZORINSKY, Mr. DURENBERGER, Mr. BOSCHWITZ, Mr. COHEN, and Mr. MITCHELL, and ask for its immediate consideration.

The PRESIDING OFFICER. The amendment will be stated.

The legislative clerk read as follows:

The Senator from Nebraska [Mr. EXON], for himself, Mr. DOLE, Mr. ZORINSKY, Mr. DURENBERGER, Mr. BOSCHWITZ, Mr. COHEN, and Mr. MITCHELL, proposes an amendment numbered 777.

Mr. EXON. Mr. President, I ask unanimous consent that reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment is as follows:

At the appropriate place in the bill insert the following:

SEC. . Section 221 of the Biomass Energy and Alcohol Fuels Act of 1980 (Public Law 96-294; 42 U.S.C. 8821) is amended by—

(1) striking out "September 30, 1984" and inserting in lieu thereof "June 30, 1986"; and

(2) adding at the end thereof the following: "The Secretary may modify the terms and conditions of any conditional commitment for a loan guarantee under this subtitle made before October 1, 1984, including the amount of the loan guarantee. Enactment of this section shall not be interpreted as indicating Congressional approval with respect to any pending conditional commitments under this act."

Mr. EXON. Mr. President, today I join the majority leader in offering an amendment to extend for 9 months the authority of the Department of Energy to negotiate three remaining Federal loan guarantees to construct ethanol plants in the United States. I believe a brief summation would be in order, and I will be brief.

In 1980, Congress passed a Biomass Energy and Alcohol Fuels Act, which set this Loan Guarantee Program in place. When this program initially expired on September 30, 1984, four proposed projects were still being considered by the Energy Department. Rather than having those four projects die while there was still a chance for them to be approved, I introduced legislation at that time, with the help of the majority leader, to extend the approval deadline to September 30, 1985. The Senate passed this legislation on March 28, and the President signed it into law on October 16.

Since then, unfortunately, only one of the four remaining projects has been approved. Three others, in Nebraska, Minnesota and Maine, are still the subject of negotiation. What today's amendment will accomplish is to further extend the deadline and clarify the authority of the Secretary of Energy to give him sufficient flexibility so these three projects can continue to be considered. This measure involves no new program and it does not approve these projects. It simply provides more time for the Energy Department to complete its evaluation of these proposals which have been pending for so long.

The majority leader, Senator BOB DOLE of Kansas, has been enormously helpful through these last several months and has joined me in monitoring this program and the negotiations involved. My Nebraska colleague, Senator ED ZORINSKY, has also been very helpful. Additionally, I want to thank Senator METZENBAUM for his cooperation.

If eventually approved, these facilities will help expand the domestic fuel ethanol industry's ability to provide critically needed domestic outlets for U.S. farm commodities. In addition, fuel ethanol is a proven octane enhancer and a leading replacement for lead additives which the Environmental Protection Agency is rapidly phasing out of gasoline.

Time is of the essence. These projects have spent a great deal of money each in a good faith response to the Energy Department solicitation and deserve the opportunity to finalize those efforts. The Congress did not intend to bring these projects to the brink of completion only to abandon them in the midst of ongoing negotiations.

Again, Mr. President, this measure does not provide approval of the loan guarantees for these projects. It merely gives each project the opportunity to meet the Energy Department's financial scrutiny and hopefully close on the loan guarantee. These projects offer a valuable contribution to our Nation's energy supply and new markets for our hard-pressed farmers.

Mr. President, I appreciate the consideration of the Senate and everyone concerned with this matter and hope we can act expeditiously and provide this clarification so the evaluation and approval process can go ahead.

Mr. METZENBAUM. Mr. President, I hope that this is the last time that we have to extend the negotiation period for these three ethanol projects. It is time for both DOE and the sponsors to come to some final decision.

I would like to make two points for the record.

First, this amendment clearly states that its adoption should not be interpreted as indication of congressional approval of any of the projects in question. Nor should it be viewed as a direct order to DOE to make award to projects if they have not fulfilled all requirements of the conditional contracts.

Second, I strongly agree with my colleagues that it is still important for this Nation to encourage the development of alternative energy sources. Therefore, if these projects fulfill the terms and conditions of the preliminary contracts, and show themselves to be economically viable and in the national interest, DOE should not delay in awarding assistance.

It is time to come to a final decision on these projects, and I hope that this amendment will facilitate a sound decision.

Mr. EXON. Mr. President, this matter has been cleared on this side of the aisle and I understand that there have been no objections from the other side that I know of. I have talked with the majority leader about this. I assume that we can pass the amendment by voice vote.

Therefore, I would say that I think a rollcall would not be necessary, but I would like to hear at this time from the managers of the bill.

Mr. BURDICK. Mr. President, will the Senator from Nebraska yield for a question?

Mr. EXON. Mr. President, I am pleased to yield to my friend and colleague from North Dakota for a question.

Mr. BURDICK. Mr. President, it is my understanding that the total cost of the three remaining projects would be about $150 million and that the Department of Energy would be expected to guarantee 90 percent of that amount, or $135 million.

Mr. EXON. In answer to that question, I believe that the figures just stated by my colleague from North Dakota are essentially correct. This was the way that the program was set up in the original instance.

I would only remind the Senator, of course, these are loan guarantee programs with 10 percent cash up front by the originators of the project.

I would certainly emphasize at this time that all that this amendment extending time would do—not to change any of the projects whatsoever, but it certainly would not give the stamp of approval to any one or all three of the projects—all that it would do is extend the time for the Department of Energy to make the determination as to whether or not one or all three of these projects were feasible and if they were they would have the authority under the law to make the loan guarantee.

Mr. BURDICK. Is the able Senator from Nebraska aware that this sum would exceed the balance left in the DOE loan guarantee default reserve by $10 million?

Mr. EXON. I was not aware of that fact. We are not so advised by the Department of Energy. There is some indication that the Department of Energy may not be in a position to guarantee all three of these loans. They may not concede to guarantee for any of them. I would not be particularly worried at this particular juncture as to whether or not there is $10 million over the committed amount.

If that were the case, I suppose that the Department of Energy might have to so notify Congress for any appropriate action before they made the final of the three guarantees, if indeed it is their determination that they are loans worthy of acceptance.

Mr. BURDICK. Could the Senator advise me what subcommittee the scoring would take place—Agriculture or Interior?

Mr. EXON. It would take place in the Department of Energy. We are using the vehicle of the agriculture appropriation because this is a matter, as the Senator from North Dakota knows, that has a great deal to do with regard to agriculture and, therefore, we think this is a proper vehicle to simply grant the extension of time.

Further to enlighten the Senator with regard to the matter at hand, it could be that the loan guarantees on one or more of these contracts may have to be increased somewhat because of the extensive delay, and many of those delays not as a result of what the applicants have done but because the Department of Energy has not been timely in their determination of either go or no go on the project.

Mr. BURDICK. My question really is which subcommittee will the defaults be scored against, Agriculture or Interior?

Mr. EXON. It would be in Interior. It is my feeling that it would be in the Interior Department. This comes under Energy and therefore under the Department of Interior, and it would take some cooperation between those agencies to get this handled, it seems to me.

Mr. BURDICK. I thank the Senator.

Mr. COCHRAN. Mr. President, I know the distinguished Senator from Nebraska has worked with the distinguished majority leader, Mr. DOLE, in the development and presentation of this amendment to the Senate.

I am also aware of the fact that there has been a discussion between the distinguished Senator from Idaho who not only is chairman of the Energy Committee but also is chairman of the Interior Appropriations Subcommittee.

I have no objection to the amendment personally. I do feel some concern, however, for this amendment being attached to the agriculture appropriations bill since we do not normally exercise jurisdiction over this subject matter area.

I hope the Senate will nonetheless understand this is an unusual circumstance; it is not the usual problem that is considered.

Is the Senator seeking recognition? I will be happy to yield.

Mr. EXON. I appreciate the remarks by my friend from Mississippi. I think they have been well stated. The facts of the matter are, as I stated in my opening remarks, that this expired September 30 last. So in the meantime everything is in abeyance. If, for example, the decision were made today that all three, and this is limited to just these three projects—none others can be considered—the Department of Energy would decide right today that all three of these projects should go ahead, they do not have the legal authority to do it.

So we are using this agriculture appropriations vehicle as a means merely to extend the time that they have to work out if these are feasible and if the Department feels that they are loans that should be made they could go ahead and authorize them.

So, we are using this as a vehicle. It may not be an appropriate vehicle. But under the circumstances, with the delicate negotiations that are going on between them who propose to build these plants, their financial interests, right now they are tied up because even if all agreed today they should be made, they could not be and, therefore, after my visitation with the majority leader we felt that this was something that is deserving of enough credit to put this on the agriculture appropriations bill, although I would agree that the agriculture bill itself is not directly connected therewith but indirectly, since this further would lend further stability to the agriculture sector that the two managers of the bill know very well is in deep difficulty today.

Mr. DURENBERGER. Mr. President, I rise in support of the amendment offered by the distinguished majority leader and my friend, Senator DOLE. I appreciate his leadership in finding an appropriate vehicle to move this vital legislation.

This amendment is particularly important to the farmers in Minnesota. The ethanol industry is an infant industry, we have two facilities operating at a capacity of 4.5 million gallons a year. We are poised on the edge of a growing, booming, ethanol market in Minnesota which provides a valuable outlet for our agricultural surpluses.

In December 1984, only 1.5 percent of the gasoline burned in Minnesota was gasohol. That increased to 2.4 percent in February and to 6.4 percent in May. Then it took off. Consumption was 9.2 percent in June and shot up to 21 percent.

The demand for ethanol is there and it is only going one way, up. It is growth and the market it creates for surplus agricultural commodities is a critical stimulant to the faltering farm economy.

The Minnesota alcohol producer's facility in Mankato which is salvaged by this extension is a 15 million gallon per year project. It would consume 6.3 million bushels of corn annually, which would put roughly $15 billion into Minnesota's farm economy. It would create 55 permanent jobs and about 250 to 300 construction jobs.

This project is supported not only by the local community and developers but by the State of Minnesota. I appreciate Senator DOLE's leadership in bringing about the timely passage of this legislation which is vitally important to the people of Minnesota.

Mr. DOLE. Mr. President, I believe I join all the Senators from Nebraska, Minnesota, and Maine, in offering an amendment which extends the time for the Department of Energy to close loan guarantee agreements on certain alcohol fuels projects for which conditional commitments were made prior to October 1, 1984. In addition, this amendment would settle a question relative to the flexibility of the Secretary's authority in closing these deals by making clear that he has all the authority he had on September 30, 1984, the day the program originally expired.

A brief history is in order so that this reference to 1984 makes sense. In 1980, Congress passed the Biomass Energy and Alcohol Fuels Act which originally established this Loan Guarantee Program. When this program initially expired on September 30, 1984, four proposed projects were still being considered by the Energy Department and in fact conditional commitments by the Department had been made. In order to allow for these four projects to close, and only these four, Congress extended the law last spring to allow for up until September 30, 1985, for the projects to close.

For a variety of reasons, these projects couldn't all close by the end of fiscal year 1985—and in fact the only one which did close was a controversial agrifuels plant in Louisiana. In part because all of the resources of the Department of Energy and of the Bank of New England, which is the lead bank in financing these projects, were focused on closing the agrifuels closing, it was impossible to close the other projects—the Circle Energies project, the Minnesota Alcohol Producers [MAP] project, and the New England Energy Producers project [NEEP], by the end of fiscal year 1985.

It is anticipated that the Department of Energy will need most if not all of this 9-month period to review the complicated documents involved in the closing of the remaining loan guarantee agreements. But it is the hope of this Senator that the Department can close those projects they find economically viable.

Mr. President, let me briefly amplify section two of the amendment. On September 30, 1984, the parties to whom conditional commitments were made were asked by the Department how large of a loan guarantee would be needed. In the Circle Energies project, the principals responded that $35 million was the appropriate amount. Subsequent to that time, conditions changed somewhat and the owners of the circle plant found that insurance requirements and construction costs had increased slightly. When they asked the Department of Energy to increase the amount of the loan guarantee, the Department concluded that it did not have sufficient authority to do so. Had Circle asked for $45 or $50 million on September 30, 1984, the Department admittedly would have set aside that amount. This amendment thus reaffirms that the Secretary has all the authority he had prior to October 1, 1984, including the authority to increase the amount of the loan guarantee.

Mr. President, this program does not reopen the Alcohol Fuels Program. It only gives the Department of Energy the authority and the flexibility to close the remaining projects for which conditional commitments have been made.

It is fitting that we consider the Alcohol Fuels Program as part of the Agriculture appropriations bill. As we ponder solutions to the troubled ag economy, we'd be delighted to invent a program involving the potential for large increases in U.S. demand for agricultural products. While alcohol fuels is certainly not a magic solution, it is a ray of hope for farmers that we will continue to seek alternative ways to build demand for their products. It would be exceedingly bad judgment for the administration to turn its back on the alcohol fuels industry at this time. Mr. President, I urge the adoption of this amendment.

ETHANOL FUEL PROJECTS

Mr. BOSCHWITZ. Mr. President, I am very pleased to cosponsor and support the amendment offered by my distinguished colleague from Nebraska, Senator EXON, to extend the alcohol fuels loan guarantee program. I greatly appreciate the work of Senator DOLE on this matter and the support of my colleagues from Nebraska and Maine to achieve a workable extension of this important program. Our amendment effectively extends by 9 months the date of termination for the alcohol fuel loan guarantee program under the Biomass Energy and Alcohol Fuels Act of 1980. Unfortunately, the program expired on September 30 without time for a number of alcohol fuels projects, which had already received conditional commitments by the Department of Energy, to be issued loan guarantees. Among these projects is an ethanol plant targeted for Mankato, MN.

Congress passed the Biomass Energy and Alcohol Fuels Act to promote alternative energy production and lessen our dependence on foreign fuel supplies. The alcohol fuels loan guarantees program under the act was intended to assist the private sector in securing loans to construct energy facilities to meet this valuable objective. Initial goals established by this legislation called for production of 60,000 barrels a day after 2 years and a minimum production level by 1990 to meet 10 percent of our domestic gasoline consumption needs.

In Minnesota, the Minnesota Alcohol Producers (MAP) have planned to build a significant alcohol plant in Mankato. A 90-percent DOE loan guarantee under the act was requested to secure a $45 million project loan to initiate this $63 million alcohol plant.

Mr. President, the support for this project in Minnesota is strong. Already, Minnesota project backers have spent considerable time, effort, and resources on project development. By authority of the Minnesota Department of Energy and Economic Development, additional loan guarantees have also been approved. However, Department delays have postponed the project's approval. Although the project could have been closed and approved prior to the termination of the program, without today's extension, the Minnesota project and several others cannot proceed.

The need for ethanol fuel production in Minnesota is clear. It is reported that ethanol consumption is dramatically on the rise. In February of this year, ethanol fuel represented 2.4 percent of Minnesota's total gasoline consumption. That increased to 6.4 percent in May and 9.2 percent in June. July's figures show a record ethanol consumption of 21 percent. Nationally, due to the EPA's phaseout of lead in our gasoline, domestic ethanol needs are expected to reach 60 billion gallons over the next decade. However, our domestic industry presently has a capacity of only 60 million gallons a year. Estimates suggest that total 1985 ethanol demand will surpass 1984 levels by 10 percent and by the early 1990's, it is predicted that ethanol fuel will capture up to 25 percent of the entire gasoline market.

In Minnesota, the project will produce over 15 million gallons per year of alcohol fuel and initially consume some 6.3 million bushels of surplus corn. Between 200 to 300 construction jobs and 55 permanent jobs will also be created.

Mr. President, the Midwest agricultural community is clearly hurting. Corn producers need markets for their corn and reliable outlets to consume corn surpluses. Ethanol fuel industry consumption is clearly an attractive and appropriate alternative. Accordingly, I strongly support this amendment which will allow the alcohol fuels projects to continue.

The PRESIDING OFFICER. Is there further debate on the amendment?

Mr. BURDICK. Mr. President, I will not object, either. I have some reservations about the jurisdiction. But I will not object.

Mr. EXON. I thank the managers of the bill.

The PRESIDING OFFICER. The question is on agreeing to the amendment.

The amendment (No. 777) was agreed to.

Mr. DOLE. Mr. President, will the Senator from Mississippi yield?

Mr. COCHRAN. I am happy to yield to the distinguished majority leader.

Mr. DOLE. Mr. President, I have indicated to the Senator from Mississippi, and the record should reflect, that there should not be a motion to reconsider made at this time because if the distinguished chairman of the Energy Committee has a question, he could properly raise that tomorrow and could move to reconsider and it would be back before the body.

Senator MCCLURE may have a question. I know he feels it ought to be on the Interior bill plus he has a couple of other areas he has an interest in. I think the distinguished Senator from Nebraska intends to visit with him personally in the morning, and if he wants to reconsider it, we would be happy to do that.

Mr. EXON. Mr. President, I also want to thank at this time the distinguished majority leader for his help and assistance, in addition to the managers of the bill, in accepting the amendment that we have just accepted. We have made it clear that we will not proceed at this time to a motion to reconsider.

There is some question as to what the feelings are of Senator MCCLURE on this matter and we certainly want to protect his rights. He has not placed a hold on this bill. I hope that he will not. But with the actions we have agreed to, he would have an opportunity to bring this up if he feels very strongly about it.

What I understand is at issue here is whether or not we tie an ethanol assistance package in with a synfuels package. I happen to generally be a supporter of some moderate means of providing for research and development, at a minimum to protect this country in case we should have a sudden cutoff of important oil import supplies from certain parts of the world.

I would think that maybe we ought to learn a lesson sometime, Mr. President. It was only a few days ago that we had the greatest of relations with both Egypt and Italy. Developments happen very quickly. Things can change very quickly in the uncertain world in which we live today.

While it is true that we have relatively "cheap" imports of oil today, I am not sure, as one Senator, that is always going to remain. And if there is one way we could cripple America and cripple it in a hurry, it seems to me, is if the traditional oil imports to this country were suddenly cut off by some presently unforeseen developments in the international situation.

Therefore, I would think and hope that ethanol and ethanol plants and ethanol guarantees should stand by themselves on the strength of those programs and, likewise, we should separate from that the synfuels law which this Senator has generally supported. Although I would say, obviously, we are going to have to make some drastic cuts in that program, I do not think it should be eliminated.

So I hope that all of my colleagues will agree that it would be best to have ethanol fuel additive programs stand on their own, as they always have in the past, and have the synfuels program, the merits or demerits of that program, what we are going to do with that now and in the future, stand on its own and not have a marriage of the two as we try to run some kind of a fast track through the Congress.

Mr. President, I yield the floor.

Mr. COCHRAN. Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. DOMENICI. Mr. President, I ask unaimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

51-059 O-86-14 (Pt. 20)

THE CONSOLIDATED OMNIBUS BUDGET RECONCILIATION ACT OF 1985

Mr. DOMENICI. Mr. President, I ask unanimous consent that the Senate now turn to the consideration of Calendar No. 333, Senate bill 1730, the reconciliation bill, for not to exceed 30 minutes today to be equally divided for debate only.

The PRESIDING OFFICER. The bill will be stated by title.

The legislative clerk read as follows:

A bill (S. 1730) to provide for reconciliation pursuant to section 2 of the first concurrent resolution on the budget for fiscal year 1986 (S. Con. Res. 32, Ninety-ninth Congress).

There being no objection, the Senate proceeded to consider the bill which had been reported from the Committee on the Budget as follows:

S. 1730

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That this Act may be cited as the "Consolidated Omnibus Budget Reconciliation Act of 1985".

TITLE I—COMMITTEE ON AGRICULTURE, NUTRITION, AND FORESTRY

AGRICULTURE, FORESTRY, AND RELATED PROGRAMS

Subtitle A—Agricultural Exports

Sec. 101. Export sales of dairy products

Subtitle B—Food Stamps and Commodity Distribution

PART 1—FOOD STAMPS

Sec. 111. Publicly operated community health centers.
Sec. 112. Thrifty food plan.
Sec. 113. Disabled members.
Sec. 114. Food distribution program on Indian reservations.
Sec. 115. Third-party payments.
Sec. 116. Educational loans.
Sec. 117. Nonrecurring lump-sum payments.
Sec. 118. Child support payments.
Sec. 119. Homeownership component of shelter costs.
Sec. 120. Energy assistance payments.
Sec. 121. Self-employment income.
Sec. 122. Monthly reporting and retrospective budgeting.
Sec. 123. Burial plots.
Sec. 124. Categorical eligibility.
Sec. 125. Job training benefits.
Sec. 126. Employment and training program.
Sec. 127. Aliens.
Sec. 128. Sales tax.

Sec. 186. Emergency loans.
Sec. 187. Settlement of claims.
Sec. 188. Transfer of loan accounts.
Sec. 189. Oil and gas royalties.
Sec. 190. Processing of loan applications.
Sec. 191. Appeals.
Sec. 192. Disposition and leasing of farmland.
Sec. 193. Release of normal income security.
Sec. 194. Loan summary statements.
Sec. 195. Authorization of loan amounts.
Sec. 196. Interest rate reduction program.
Sec. 197. Study of Farm and Home Plan.
Sec. 198. Study of Farm Credit System.

TITLE I—AGRICULTURE, FORESTRY, AND RELATED PROGRAMS

Subtitle A—Agricultural Exports

EXPORT SALES OF DAIRY PRODUCTS

SEC. 101. (a) In each of the fiscal years ending September 30, 1986, September 30, 1987, and September 30, 1988, the Secretary of Agriculture shall sell for export, at such prices as the Secretary determines appropriate, not less than 150,000 metric tons of dairy products owned by the Commodity Credit Corporation.

(b) Such sales shall be made through the Commodity Credit Corporation under existing authority available to the Secretary or the Commodity Credit Corporation.

(c) Through September 30, 1988, the Secretary shall report semiannually to the Committee on Agriculture of the House of Representatives and the Committee on Agriculture, Nutrition, and Forestry of the Senate on the volume of sales made under this section.

Subtitle B—Food Stamps and Commodity Distribution

PART 1—FOOD STAMPS

PUBLICLY OPERATED COMMUNITY HEALTH CENTERS

SEC. 111. (a) Section 3 of the Food Stamp Act of 1977 (7 U.S.C. 2012) is amended—

(1) in subsection (f), by striking out "which" and all that follows through "providing" and inserting in lieu thereof ", or a publicly operated community health center, under part B of title XIX of the Public Health Service Act (42 U.S.C. 300x et seq.) to provide"; and

(2) by inserting ", or a publicly operated community health center," after "private nonprofit institution" in the last sentence of subsection (i).

(b) Section 10 of such Act (7 U.S.C. 2019) is amended by inserting "publicly operated community health centers or" after "purchased, and".

THRIFTY FOOD PLAN

SEC. 112. The first sentence of section 3(o) of the Food Stamp Act of 1977 (7 U.S.C. 2012(o)) is amended by striking out "fifty-four" and inserting in lieu thereof "fifty".

DISABLED MEMBERS

SEC. 113. Section 3(r) of the Food Stamp Act of 1977 (7 U.S.C. 2012(r)) is amended—

(1) by inserting "or" after the semicolon at the end of clause (1); and

(2) by striking out clauses (2) through (6) and inserting in lieu thereof the following new clause:

"(2) receives benefits, assistance, or payments under a Federal law based on a determination of blindness or disability, or for whom such determination is made, under criteria that the Secretary determines are the same as, or provide for substantially the same degree of disability or blindness as, the criteria for disability or blindness established under sections 216(i), 221(i), and 223(d) of the Social Security Act (42 U.S.C. 416(i), 421(i), and 423(d)).".

FOOD DISTRIBUTION PROGRAM ON INDIAN RESERVATIONS

SEC. 114. (a) Section 4(b) of the Food Stamp Act of 1977 (7 U.S.C. 2013(b)) is amended by inserting after the third sentence the following new sentence: "For purposes of preventing dual participation in the food stamp program and the commodity distribution program established under section 4(a) of the Agriculture and Consumer Protection Act (7 U.S.C. 612c note), the Secretary and State agencies may match the social security account numbers of participants in the food stamp program against the account numbers of applicants for assistance under the commodity distribution program.".

(b) Section 4(a) of the Agriculture and Consumer Protection Act (7 U.S.C. 612c note) is amended—

(1) by inserting "(1)" after the subsection designation; and

(2) by adding at the end thereof the following new paragraph:

"(2) In carrying out the program described in paragraph (1), the Secretary shall—

"(A) require, as a condition of eligibility for participation in such program, that each household member furnish to the State agency the social security account number or numbers of such member; and

"(B) use such account numbers in the administration of such program.".

THIRD-PARTY PAYMENTS

SEC. 115. Section 5 of the Food Stamp Act of 1977 (7 U.S.C. 2014) is amended—

(1) by inserting "except as provided in subsection (k)," after "household," in subsection (d)(1); and

(2) by adding at the end thereof the following new subsection:

"(k)(1) For purposes of subsection (d)(1), except as provided in paragraph (2), assistance provided to a third party on behalf of a household by a State or local government shall be considered money payable directly to the household if the assistance is provided in lieu of—

"(A) a regular benefit payable to the household for living expenses under a State plan for aid to families with dependent children approved under part A of title IV of the Social Security Act (42 U.S.C. 601 et seq.); or

"(B) a benefit payable to the household for living expenses under—

"(i) a State or local general assistance program; or

"(ii) other basic assistance program (as determined by the Secretary).

"(2) Paragraph (1) shall not apply to—

"(A) medical assistance;

"(B) child care assistance;

"(C) energy assistance;

"(D) assistance provided by a State or local housing authority; or

"(E) emergency and special assistance, to the extent excluded in regulations prescribed by the Secretary.".

EDUCATIONAL LOANS

SEC. 116. (a) The proviso of section 5(d)(5) of the Food Stamp Act of 1977 (7 U.S.C. 2014(d)(5)) is amended by inserting after "child care expenses," the following: "and no portion of any educational loans on which payment is deferred, grants, scholarships, fellowships, veterans' educational benefits, and the like,".

(b) Section 5(k) of such Act (as added by section 115(2)) is amended by adding at the end thereof the following new paragraph:

"(3) For purposes of subsection (d)(1), educational loans on which payment is deferred, grants, scholarships, fellowships, veterans' educational benefits, and the like, provided to a third party on behalf of a household, shall be treated as money payable directly to the household.".

NONRECURRING LUMP-SUM PAYMENTS

SEC. 117. Section 5 of the Food Stamp Act of 1977 (7 U.S.C. 2014) (as amended by section 115(2)) is further amended—

(1) by inserting ", except as provided in subsection (l)" after "settlements" in subsection (d)(8); and

(2) by adding at the end thereof the following new subsection:

"(l) If the amount of benefits received by a household under a State plan for aid to families with dependent children approved under part A of title IV of the Social Security Act (42 U.S.C. 601 et seq.) or the supplemental security income program established under title XVI of such Act (42 U.S.C. 1381 et seq.) is reduced or terminated as the result of the receipt of a nonrecurring lump-sum payment, the income of the household for purposes of the food stamp program shall include the amount of such benefits the household would have received but for such payment.".

CHILD SUPPORT PAYMENTS

SEC. 118. Section 5 of the Food Stamp Act of 1977 (7 U.S.C. 2014) (as amended by section 117(2)) is further amended—

(1) in subsection (d)—

(A) by striking out "and" at the end of clause (11); and

(B) by inserting before the period at the end thereof the following: ", and (13) at the option of a State agency and subject to subsection (m), child support payments that are excluded under section 402(a)(8)(A)(vi) of the Social Security Act (42 U.S.C. 602(a)(8)(A)(vi))"; and

(2) by adding at the end thereof the following new subsection:

"(m) If a State agency excludes payments from income for purposes of the food stamp program under subsection (d)(13), such State agency shall pay to the Federal Government, in a manner prescribed by the Secretary, the cost of any additional benefits provided to households in such State that arise under such program as the result of such exclusion.".

HOMEOWNERSHIP COMPONENT OF SHELTER COSTS

SEC. 119. Section 5(e) of the Food Stamp Act of 1977 (7 U.S.C. 2014(e)) is amended—

(1) by striking out "the homeownership component of shelter costs" in clause (1) of the second sentence and inserting in lieu thereof "the homeowners' cost, maintenance, and repair component of shelter costs"; and

(2) by striking out "homeownership costs" in subclause (i) of the proviso of clause (2) of the fourth sentence and inserting in lieu thereof "the homeowners' cost, maintenance, and repair component of shelter costs".

ENERGY ASSISTANCE PAYMENTS

SEC. 120. Section 5(e) of the Food Stamp Act of 1977 (7 U.S.C. 2014(e)) is amended—

(1) by inserting ", excluding expenses of the household paid (directly or indirectly) under the Low-Income Home Energy Assistance Act of 1981 (42 U.S.C. 8621 et seq.)," after "for shelter" each place it appears in clause (2) of the fourth sentence and subclause (C) of the last sentence; and

(2) by inserting after the fifth sentence the following new sentences: "If a State agency elects to use a standard utility allowance, the agency shall use a separate allowance for households receiving assistance under the Low-Income Home Energy Assistance Act of 1981 (42 U.S.C. 8621 et seq.) and a separate allowance for other households or a combined allowance for all such households. In the case of a standard utility allowance that applies to households receiving such assistance, such allowance shall reflect utility expenses in excess of such expenses paid, directly or indirectly, under such Act.".

SELF-EMPLOYMENT INCOME

SEC. 121. Section 5(f)(1) of the Food Stamp Act of 1977 (7 U.S.C. 2014(f)(1)) is amended—

(1) by redesignating subparagraph (B) as subparagraph (C); and

(2) by inserting after subparagraph (A) the following new subparagraph:

"(B) If the average amount of self-employment income of a household does not reflect accurately the actual monthly circumstances of such household because such household experienced a substantial increase or decrease in business earnings, the self-employment income of such household shall be calculated on the basis of the anticipated earnings of such household.".

MONTHLY REPORTING AND RETROSPECTIVE BUDGETING

SEC. 122. (a) Section 5(f)(2) of the Food Stamp Act of 1977 (7 U.S.C. 2014(f)(2)) is amended—

(1) by amending subparagraph (A) to read as follows:

"(A) Household income shall be calculated on a prospective basis, as provided in paragraph (3)(A), in the case of—

"(i) migrant farmworker households; and

"(ii) households—

"(I) that have no earned income; and

"(II) in which all adult members are elderly or disabled members.";

(2) in subparagraph (B)—

(A) in clause (i)—

(i) by inserting "under the first sentence of section 6(c)(1)" after "permitted"; and

(ii) by striking out "under section 6(c)(1) of this Act,";

(B) by striking out "(ii)" and all that follows through "members,"; and

(C) in clause (iii)—

(i) by striking out "(iii)" and inserting in lieu thereof "(ii)";

(ii) by striking out "other than a migrant household" and inserting in lieu thereof "other than a household described in subparagraph (A)";

(iii) by inserting "under the first sentence of section 6(c)(1)" after "not required"; and

(iv) by striking out "under section 6(c)(1) of this Act"; and

(3) by striking out subparagraph (C) and inserting in lieu thereof the following new subparagraphs:

"(C) Except as provided in subparagraphs (A) and (B), household income for households that have earned income, and for households that include any member who has recent work history, shall be calculated on a retrospective basis, as provided in paragraph (3)(B).

"(D) Household income for all other households may be calculated, at the option of the State agency, on a prospective basis as provided in paragraph (3)(A) or on a retrospective basis as provided in paragraph (3)(B).".

(b) Section 6(c)(1) of such Act (7 U.S.C. 2015(c)(1)) is amended—

(1) in the first sentence, by striking out "certain" and all that follows through "members," and inserting in lieu thereof "households with respect to which household income is required by section 5(f)(2)(C) to be determined on a retrospective basis"; and

(2) by inserting after the second sentence the following new sentence: "State agencies may require households, other than households with respect to which household income is required by section 5(f)(2)(A) to be calculated on a prospective basis, to file periodic reports of household circumstances in accordance with standards prescribed under the preceding provisions of this paragraph by the Secretary.".

BURIAL PLOTS

SEC. 123. Section 5(g) of the Food Stamp Act of 1977 (7 U.S.C. 2014(g)) is amended by adding at the end thereof the following new sentence: "The Secretary shall exclude from financial resources the value of a burial plot for each member of a household.".

CATEGORICAL ELIGIBILITY

SEC. 124. (a) Subsection (j) of section 5 of the Food Stamp Act of 1977 (7 U.S.C. 2014(j)) is amended to read as follows:

"(j) Notwithstanding subsections (a) through (i), a State agency may consider a household to have satisfied the income and resource limitations for participation in the food stamp program prescribed under this section if—

"(1) each member of the household receives benefits under—

"(A) a State plan for aid to families with dependent children approved under part A of title IV of the Social Security Act (42 U.S.C. 601 et seq.);

"(B) the supplemental security income program established under title XVI of such Act (42 U.S.C. 1381 et seq.); or

"(C) a State plan approved under title I, X, XIV, or XVI of such Act (42 U.S.C. 301 et seq.); and

"(2) the income of the household does not exceed the applicable income standards of eligibility established under subsection (c)(2).".

(b) Section 11(i) of such Act (7 U.S.C. 2020(i)) is amended by adding at the end thereof the following new sentence: "A State agency may not deny or terminate benefits to a household under the food stamp program solely on the basis of the denial or termination of benefits to such household under a State plan for aid to families with dependent children approved under part A of title IV of the Social Security Act (42 U.S.C. 601 et seq.), the supplemental security income program established under title XVI of such Act (42 U.S.C. 1381 et seq.), or a State plan approved under title I, X, XIV, or XVI of such Act (42 U.S.C. 301 et seq.) without a separate determination by such agency that such household has failed to satisfy the eligibility requirements for participation in the food stamp program.".

(c) Section 17 of such Act (7 U.S.C. 2026) is amended—

(1) by striking out subsection (d); and

(2) by redesignating subsections (e) and (f) as subsections (d) and (e), respectively.

JOB TRAINING BENEFITS

SEC. 125. Section 5 of the Food Stamp Act of 1977 (7 U.S.C. 2014) (as amended by section 118(2)) is further amended by adding at the end thereof the following new subsection:

"(n) Notwithstanding section 142(b) of the Job Training Partnership Act (29 U.S.C. 1552(b)), allowances, earnings, and payments received by individuals as a result of participation in a program authorized under such Act shall be considered income for purposes of the food stamp program.".

EMPLOYMENT AND TRAINING PROGRAM

SEC. 126. (a) Section 6(d) of the Food Stamp Act of 1977 (7 U.S.C. 2015(d)) is amended—

(1) in paragraph (1)—

(A) by striking out "eighteen" in the matter preceding clause (i) of the first sentence and inserting in lieu thereof "sixteen";

(B) by striking out clause (ii) of the first sentence and inserting in lieu thereof the following new clause: "(ii) refuses without good cause to participate in an employment and training program under paragraph (4), to the extent required under such paragraph, including such reasonable employment requirements as are prescribed by the State agency in accordance with such paragraph, except that the period of ineligibility under this clause shall be two months;"; and

(C) by adding at the end thereof the following new sentences: "A period of ineligibility for a violation of a requirement of this paragraph shall terminate when the household member who committed the violation complies with such requirement. If the household member who committed the violation leaves the household during the period of ineligibility, such household shall no longer be subject to a sanction for such violation and, if the household is otherwise eligible, may resume participation in the program. Any other household that such person thereafter joins shall be ineligible for the balance of the period of ineligibility.";

(2) in paragraph (2)—

(A) by striking out "a dependent child under age six or of an incapacitated person" in clause (B) and inserting in lieu thereof "(i) a dependent child under age six, except that a State agency may require such parent or guardian to comply with such work requirements if the child is age three or over and adequate child care is available, or (ii) an incapacitated person";

(B) by striking out "or" at end of clause (D); and

(C) by inserting before the period at the end thereof the following: "; or (F) a person between the ages of sixteen and eighteen who is not a head of a household or who is attending school on a full-time basis"; and

(3) by adding at the end thereof the following new paragraph:

"(4)(A) A State agency shall implement an employment and training program designed by the State agency, pursuant to guidelines established by the Secretary, to assist members of households receiving benefits under this Act in gaining skills, training, or experience that will increase their ability to obtain regular employment.

"(B) In the case of persons who participated in the food stamp program for a period of more than 30 consecutive days and who are subject to employment requirements under this section, a State agency shall place in such program not less than—

"(i) by September 30, 1987, 25 percent of such persons;

"(ii) by September 30, 1988, 35 percent of such persons; and

"(iii) by September 30, 1990 and thereafter, 45 percent of such persons.

"(C) For purposes of this Act, an 'employment and training program' means a program that—

"(i) contains one or more of the components described in subparagraph (D), (E), (F), or (G); and

"(ii) meets criteria established by the Secretary.

"(D) A job search training program described in this subparagraph shall include, to the extent determined appropriate by the State agency, reasonable job search training and support activities that may consist of jobs skills assessments, job finding clubs, training in techniques for employability, job placement services, or other direct training or support activities, including education programs, determined by the State agency to expand the job search abilities or employability of persons subject to the program.

"(E)(i) A program described in this subparagraph shall be designed—

"(I) to improve the employability of household members through actual work experience or training, or both; and

"(II) to enable individuals employed under such program to become employed promptly in regular public or private employment.

"(ii) A State agency may use a facility of a State public employment office or agency operating a program under the Job Training Partnership Act (29 U.S.C. 1501 et seq.) to find employment and training opportunities for household members under the program described in this subparagraph.

"(iii) A State agency shall limit an employment or training experience assignment under such program to a project that serves a useful public purpose in a field such as health, social services, environmental protection, education, urban and rural development and redevelopment, welfare, recreation, public facilities, public safety, or day care.

"(iv) To the extent possible, a State agency shall use the prior training, experience, and skills of a member participating in such program in making appropriate employment experience assignments under such program.

"(v) In carrying out a program under this subparagraph, a State agency—

"(I) shall not provide any work that has the effect of replacing the employment of an individual not participating in such program; and

"(II) shall provide the same benefits and working conditions that are provided at the job site to employees performing comparable work for comparable hours.

"(F) A program described in this subparagraph shall include a workfare program operated under section 20.

"(G) A program described in this subparagraph shall include other programs, projects, and experiments (such as a supported work program), approved by the Secretary, that are aimed at accomplishing the purposes of employment and training programs established under this paragraph.

"(H) A State agency may provide that participation in an employment and training program established under this paragraph may supplement or supplant other requirements imposed on individuals subject to such program.

"(I)(i) In carrying out a program under this paragraph, a State agency may exempt, in accordance with criteria established by the Secretary, a category of household members from a requirement imposed under such program if the State agency determines that the application of such requirement to such category is impracticable due to factors such as the availability of work opportunities and the cost effectiveness of employment requirements.

"(ii) In making a determination under clause (i), a State agency may designate a category consisting of all such household members residing in a specified area of a State.

"(iii) A State agency shall also exempt from such requirement, or suspend the application of such requirement to, an individual household member not included in such category but with respect to whom the State agency determines that the application of such requirement is impracticable due to personal circumstances such as a lack of job readiness and employability, the remote location of work opportunities, and unavailability of dependent care.

"(iv) An exemption of a category or member by a State agency under this subparagraph shall not affect the requirement of such agency to comply with subparagraph (B).

"(J)(i) The total number of hours of work in an employment and training program carried out under this paragraph required of members of a household in any month collectively, together with the hours of work of such members in any program carried out under section 20, may not exceed a number of hours equal to the allotment of the household for such month divided by the higher of the applicable State minimum wage or the Federal minimum hourly rate under the Fair Labor Standards Act of 1938 (29 U.S.C. 201 et seq.).

"(ii) The total number of hours of participation in such program required of any member of a household, individually, in any

month, together with any hours worked in any program carried out under section 20 and any hours worked for compensation (in cash or in kind) in any other capacity, may not exceed 120 hours per month.

"(K)(i) A State agency shall establish such requirements as the State agency determines to be appropriate for individuals required to participate in a program described in subparagraph (C) that the State agency has not selected as a result of such subparagraph. Such requirements may vary among participants.

"(ii) A State agency may operate a program described in subparagraph (C) that the State agency has not selected as a result of such subparagraph.

"(iii) A State agency shall permit individuals not required to participate in an employment and training program, or who have completed or are in the process of participating in such program, to participate in any program established under this paragraph.

"(L) The Secretary shall issue guidelines that, to the maximum extent practicable, enable a State agency to design and operate an employment and training program under this paragraph that is compatible and consistent with similar programs operated within the State.

"(M) A State agency shall reimburse participants for the actual costs of transportation, and other actual costs, that are reasonably necessary and directly related to participation in the program but not to exceed $25 in the aggregate per month.

"(N)(i) The Secretary shall assure that State agencies comply with the requirements of this paragraph and section 11(e)(22).

"(ii) If the Secretary determines that a State agency has failed to comply with such a requirement, the Secretary may withhold from such State in accordance with section 16 (a), (c), and (h) such funds as the Secretary determines to be appropriate, subject to administrative and judicial review under section 14.

"(O) The Secretary shall ensure, to the extent practicable and in cooperation with the Secretary of Labor, that employment and training programs are provided to Indians residing on an Indian reservation in proportion to the number of persons described in subparagraph (B) that reside on such reservation.".

(b) Section 11(e) of such Act (7 U.S.C. 2020(e)) is amended—

(1) by striking out "and" at the end of paragraph (20);

(2) by striking out the period at the end of paragraph (21) and inserting in lieu thereof a semicolon; and

(3) by adding at the end thereof the following new paragraph:

"(22) the plans of the State agency for carrying out employment and training programs under section 6(d)(4), including the nature and extent of such programs and the geographic areas and households to be covered under such programs;".

(c) Section 16 of such Act (7 U.S.C. 2025) is amended by adding at the end thereof the following new subsection:

"(h)(1) For the payment to each State agency of the full cost (except as otherwise provided in this subsection) of carrying out an employment and training program under section 6(d)(4), the Secretary shall allocate from funds appropriated for such fiscal year under section 18(a)(1)—

"(A) for the fiscal year ending September 30, 1986, $40,000,000;

"(B) for the fiscal year ending September 30, 1987, $50,000,000;

"(C) for the fiscal year ending September 30, 1988, $60,000,000; and

"(D) for the fiscal year ending September 30, 1989, $75,000,000.

"(2) If in carrying out such program a State agency incurs costs that exceed the amount payable to the State agency under paragraph (1), the Secretary shall pay such State agency in accordance with subsection (a) an amount equal to 50 percent of such additional costs.

"(3) The Secretary shall in accordance with subsection (a) reimburse each State agency in an amount equal to 50 percent of the total amount of payments made or costs incurred by the State agency to reimburse participants for the actual costs of transportation, and other actual costs, that are reasonably necessary and directly related to participation in an employment and training program established under section 6(d)(4) but not to exceed $25 in the aggregate per month.

"(4) Funds provided to a State agency under this subsection—

"(A) may be used only for operating an employment and training program under section 6(d)(4); and

"(B) may not be used for carrying out other provisions of this Act.

"(5)(A) The Secretary shall monitor the employment and training programs carried out by State agencies under section 6(d)(4) to measure their effectiveness in terms of—

"(i) the increase in the numbers of household members who obtain employment; and

"(ii) the numbers of such members who retain such employment,

as a result of their participation in such programs.

"(B) Not later than January 1, 1989, the Secretary shall report to the Committee on Agriculture of the House of Representatives and the Committee on Agriculture, Nutrition, and Forestry of the Senate on the effectiveness of such employment and training programs.".

(d) Subsection (b) of section 20 of such Act (7 U.S.C. 2029(b)) is amended to read as follows:

"(b)(1) A household member shall be exempt from workfare requirements imposed under this section if such member is—

"(A) exempt from section 6(d)(1) as the result of clause (B), (C), (D), (E), or (F) of section 6(d)(2); or

"(B) at the option of the operating agency, subject to and currently actively and satisfactorily participating at least 20 hours a week in a work training program required under title IV of the Social Security Act (42 U.S.C. 601 et seq.).

"(2)(A) Subject to subparagraphs (B) and (C), in the case of a household that is exempt from work requirements imposed under this Act as the result of participation in a community work experience program established under section 409 of the Social Security Act (42 U.S.C. 609), the number of hours in a month for which all members of such household may be required to participate in such program shall equal the result obtained by dividing—

"(i) the amount of assistance paid to such household for such month under title IV of such Act, together with the value of the food stamp allotment of such household for such month; by

"(ii) the higher of the Federal or State minimum wage in effect for such month.

"(B) In no event may any such member be required to participate in such program more than 120 hours per month.

"(C) For the purpose of subparagraph (A)(i), the value of the food stamp allotment of a household for a month shall be determined in accordance with regulations governing the issuance of an allotment to a household that contains more members than the number of members in an assistance unit established under title IV of such Act.".

ALIENS

SEC. 127. (a) Clause (2) of the first sentence of section 6(f) of the Food Stamp Act of 1977 (7 U.S.C. 2015(f)) is amended—

(1) in subclause (D), by striking out "section" and all that follows through "calamity" and inserting in lieu thereof "sections 207 and 208 of the Immigration and Nationality Act (8 U.S.C. 1157 and 1158)"; and

(2) in subclause (F), by striking out "because" and all that follows through "opinion".

(b) The last sentence of section 6(f) of such Act is amended by striking out "(less a pro rata share)".

SALES TAX

SEC. 128. (a) Section 7(b) of the Food Stamp Act of 1977 (7 U.S.C. 2106(b)) is amended by inserting ", except that the transaction of coupons may not be a taxable event" after "such stores".

(b) The amendment made by subsection (a) shall apply to a State (or political subdivision thereof) beginning on the first day of the fiscal year that commences in the calendar year during which the first session of the legislature of such State is convened following the date of enactment of this Act.

ALTERNATIVE MEANS OF COUPON ISSUANCE

SEC. 129. Section 7(g)(1) of the Food Stamp Act of 1977 (7 U.S.C. 2016(g)(1)) is amended by striking out "may" in the matter preceding clause (A) and inserting in lieu thereof "shall".

SIMPLIFIED APPLICATIONS AND STANDARDIZED BENEFITS

SEC. 130. Section 8 of the Food Stamp Act of 1977 (7 U.S.C. 2017) is amended by adding at the end thereof the following new subsection:

"(e)(1) The Secretary may permit a State, on request, to operate a program under which a household shall be considered to have satisfied the application requirements prescribed under section 5(a) and the income and resource requirements prescribed under subsections (d) through (g) of section 5 if such household—

"(A) includes one or more members who are recipients of—

"(i) aid to families with dependent children under part A of title IV of the Social Security Act (42 U.S.C. 601 et seq.);

"(ii) supplemental security income under title XVI of such Act (42 U.S.C. 1381 et seq.); or

"(iii) medical assistance under title XIX of such Act (42 U.S.C. 1396 et seq.); and

"(B) has an income that does not exceed the applicable income standard of eligibility described in section 5(c).

"(2) Except as provided in paragraph (3), a State that elects to operate a program under this subsection shall base the value of an allotment provided to a household under subsection (a) on—

"(A)(i) the size of the household; and

"(ii)(I) benefits paid to such household under a State plan for aid to families with

dependent children approved under part A of title IV of the Social Security Act; or

"(II) the income standard of eligibility for medical assistance under title XIX of such Act; or

"(B) at the option of the State, the standard of need for such size household under the programs referred to in clause (A)(ii).

"(3) The Secretary shall adjust the value of allotments received by households under a program operated under this subsection to ensure that the average allotment by household size for households participating in such program and receiving such aid to families with dependent children, such supplemental security income, or such medical assistance, as the case may be, is not less than the average allotment that would have been provided under this Act but for the operation of this subsection, for each category of households, respectively, in a State, for any period during which such program is in operation.

"(4) The Secretary shall evaluate the impact of programs operated under this subsection on recipient households, administrative costs, and error rates.

"(5) The administrative costs of such programs shall be shared in accordance with section 16.

"(6) In implementing this section, the Secretary shall consult with the Secretary of Health and Human Services to ensure that to the extent practicable, in the case of households participating in such programs, the processing of applications for, and determinations of eligibility to receive, food stamp benefits are simplified and are unified with the processing of applications for, and determinations of eligibility to receive, benefits under such titles of the Social Security Act (42 U.S.C. 601 et seq.).".

REDEMPTION OF COUPONS

SEC. 131. Section 10 of the Food Stamp Act of 1977 (7 U.S.C. 2019) is amended by adding at the end thereof the following new sentence: "A financial institution may not impose on, or collect from, a retail food store a fee or other charge for the redemption of coupons that are submitted to the financial institution in order to defray the costs of complying with a requirement, other than a requirement relating to the cancellation of coupons, for the presentation of coupons by the financial institution to a Federal Reserve bank.".

ELIGIBILITY OF THE HOMELESS

SEC. 132. Section 11(e)(2) of the Food Stamp Act of 1977 (7 U.S.C. 2020(e)(2)) is amended—

(1) by striking out the semicolon at the end thereof and inserting in lieu thereof a period; and

(2) by adding at the end thereof the following new sentences: "The State agency shall provide a method of certifying and issuing coupons to eligible households that do not reside in permanent dwellings or who do not have fixed mailing addresses. In carrying out the preceding sentence, the State agency shall take such steps as are necessary to ensure that participation in the food stamp program is limited to eligible households.".

CERTIFICATION OF INFORMATION

SEC. 133. Section 11(e)(2) of the Food Stamp Act of 1977 (7 U.S.C. 2020(e)(2)) (as amended by section 132) is further amended by adding at the end thereof the following: "Each adult member of a household that is applying for a coupon allotment (or in the case of a household described in paragraph (9)(A), an adult member of such household that is applying for a coupon allotment) or is required to file a periodic or other report under section 6(c)(1) shall be required to certify in writing, under penalty of perjury, the truth of the information contained in the application for the allotment or the report, respectively;".

VERIFICATION

SEC. 134. Section 11(e)(3) of the Food Stamp Act of 1977 (7 U.S.C. 2020(e)(3)) is amended—

(1) by striking out "only" after "verification";

(2) by inserting ", household size (in any case such size is questionable)," after "Act)"; and

(3) by striking out "any factors" and all that follows through "by the Secretary" and inserting in lieu thereof "such other eligibility factors as the State agency determines are necessary".

PHOTOGRAPHIC IDENTIFICATION CARDS

SEC. 135. Section 11(e)(16) of the Food Stamp Act of 1977 (7 U.S.C. 2020(e)(16)) is amended—

(1) by striking out "last sentence" and inserting in lieu thereof "fourth sentence";

(2) by inserting "and would be cost effective" after "integrity";

(3) by striking out the semicolon at the end thereof and inserting in lieu thereof a period; and

(4) by adding at the end thereof the following: "The State agency may permit a member of a household to comply with this paragraph by presenting a photographic identification card used to receive assistance under a welfare or public assistance program;".

STAGGERED ISSUANCE OF COUPONS

SEC. 136. Section 11(e) of the Food Stamp Act of 1977 (7 U.S.C. 2020(e)) (as amended by section 126(b)) is further amended by adding at the end thereof the following new paragraph:

"(23) at the option of the State agency, for the staggered issuance of coupons to recipients throughout a month, except that not more than 40 days may elapse between the issuance of coupons to a household as a result of such staggered issuance;".

FRAUD DETECTION

SEC. 137. Section 11(e) of the Food Stamp Act of 1977 (7 U.S.C. 2020(e)) (as amended by section 136) is further amended by adding at the end thereof the following new paragraph:

"(24) in a project area in which 5,000 or more households participate in the food stamp program, for the establishment and operation of a unit for the detection of fraud in the food stamp program, including the investigation, and assistance in the prosecution, of such fraud; and".

FOOD STAMP INFORMATION AND APPLICATIONS AT SOCIAL SECURITY ADMINISTRATION OFFICES

SEC. 138. (a) Clause (2) of the first sentence of section 11(i) of the Food Stamp Act of 1977 (7 U.S.C. 2020(i)) is amended—

(1) by inserting "applicants for or" after "members are"; and

(2) by striking out "permitted" and all that follows through "office" and inserting in lieu thereof "informed of the availability of benefits under the food stamp program, and the availability of assistance in making a simple application to participate in such program, at a local office of the Social Security Administration".

(b) Subsection (j) of section 11 of such Act is amended to read as follows:

"(j)(1) Under regulations prescribed by the Secretary in conjunction with the Secretary of Health and Human Services, an individual who is an applicant for or recipient of benefits under title II of the Social Security Act (42 U.S.C. 401 et seq.) shall be informed of the availability of benefits under the food stamp program, and the availability of a simple application to participate in such program, at a local office of the Social Security Administration.

"(2) The Secretary and the Secretary of Health and Human Services shall revise the memorandum of understanding in effect on the date of enactment of the Consolidated Omnibus Budget Reconciliation Act of 1985, regarding services to be provided in such an office under this subsection and subsection (i), in a manner to ensure that—

"(A) an applicant for or recipient of benefits under title II of the Social Security Act is adequately notified in such office that assistance may be available to such applicant or recipient under this Act;

"(B) an application for assistance under this Act received from a household in which all members of such household are applicants for or recipients of assistance under the supplemental security income program established under title XVI of the Social Security Act (42 U.S.C. 1381 et seq.) be forwarded immediately after receipt to the State agency in an efficient and timely manner; and

"(C) the Secretary of Health and Human Services receives from the Secretary reimbursement for costs incurred to carry out this subsection and subsection (i).".

(c) Not later than 180 days after the date of the enactment of this Act, the Secretary of Health and Human Services shall submit to the Committee on Agriculture of the House of Representatives and the Committee on Agriculture, Nutrition, and Forestry of the Senate a report that describes the nature and extent of costs incurred by such Secretary to comply with subsections (i) and (j) of section 11 of the Food Stamp Act of 1977 (as amended by subsections (a) and (b), respectively).

SPECIAL SUPPLEMENTAL FOOD PROGRAM

SEC. 139. (a) Section 12 of the Food Stamp Act of 1977 (7 U.S.C. 2021) is amended by adding at the end thereof the following new subsection:

"(e) Notwithstanding section 17 of the Child Nutrition Act of 1966 (42 U.S.C. 1786), a retail food store or wholesale food concern that has been disqualified under subsection (a) shall be ineligible during the period of disqualification to participate in the special supplemental food program established under section 17 of such Act.".

(b) The second sentence of section 9(c) of the Food Stamp Act of 1977 (7 U.S.C. 2018(c)) is amended by striking out "this Act or the regulations issued pursuant to this Act" and inserting in lieu thereof "this Act or section 17 of the Child Nutrition Act of 1966 (42 U.S.C. 1786) or the regulations issued to carry out this Act or such section".

DISQUALIFICATION OF RETAIL FOOD STORES AND CIVIL MONEY PENALTIES

SEC. 140. (a) Section 12 of the Food Stamp Act of 1977 (7 U.S.C. 2021) (as amended by section 139(a)) is further amended by adding at the end thereof the following new subsection:

"(f)(1)(A) If a retail food store or wholesale food concern disqualified under subsection (a) is sold or otherwise transferred, such store or concern shall be subject to a civil money penalty.

"(B) The amount of such penalty shall—

"(i) be established by the Secretary through regulations; and

"(ii) reflect that portion of the disqualification period that has not yet expired.

"(C) If such store or concern has been disqualified permanently, the amount of such penalty shall be double the penalty imposed for a 10-year disqualification period, as determined under regulations issued by the Secretary.

"(D) Notwithstanding the imposition of such penalty, the disqualification period imposed under subsection (b) shall continue in effect as to the seller or transferor of such store or concern.

"(2)(A) After a civil money penalty imposed under paragraph (1) has become final pursuant to section 14(a), the Secretary may request the Attorney General to institute a civil action to collect such penalty in a district court of the United States for any district in which the person against whom the penalty is imposed is found, resides, or transacts business.

"(B) Such court shall have jurisdiction to hear and decide such action.

"(C) The validity and amount of such penalty shall not be subject to review in such action.".

(b) Section 9(b) of such Act (7 U.S.C. 2018(b)) is amended—

(1) by inserting "(1)" after the subsection designation; and

(2) by adding at the end thereof the following new paragraph:

"(2)(A) If a buyer or transferee of a retail food store or wholesale food concern has actual or constructive notice of an outstanding civil penalty imposed under section 12(f) at the time of the sale or transfer of such store or concern, such store or concern may not accept or redeem coupons until the Secretary receives full payment of such penalty.

"(B) To the extent permitted under law, the Secretary shall ensure that an encumbrance created under this paragraph is recorded in an appropriate State or local public office.

"(C) The seller or transferor of such store or concern shall advise a buyer or transferee prior to the sale or transfer of the limitation imposed by this paragraph.

"(D) The store or concern of the buyer or transferee may not, as a result of the sale or transfer of such store or concern, be required to furnish a bond under section 12(d).".

LIABILITY FOR OVERISSUANCE OF COUPONS

SEC. 141. Section 13(a) of the Food Stamp Act of 1977 (7 U.S.C. 2022(a)) is amended—

(1) by inserting "(1)" after the subsection designation; and

(2) by adding at the end thereof the following new paragraph:

"(2) Each adult member of a household shall be jointly and severally liable for the value of any overissuance of coupons.".

INTEREST ON CLAIMS AGAINST STATE AGENCIES

SEC. 142. Section 13(a) of the Food Stamp Act of 1977 (7 U.S.C. 2022(a)) (as amended by section 141) is further amended by adding at the end thereof the following new paragraph:

"(3) A State agency shall be liable for interest on a claim assessed against the State agency under this Act from the date of the final administrative determination made with respect to such claim under section 14(a).".

COLLECTION OF CLAIMS

SEC. 143. (a) Section 13(b)(1)(B) of the Food Stamp Act of 1977 (7 U.S.C. 2022(b)(1)(B)) is amended—

(1) by striking out "may" and inserting in lieu thereof "shall"; and

(2) by inserting ", unless the State agency demonstrates to the satisfaction of the Secretary that such other means are not cost effective" before the period at the end thereof.

(b) Section 13(b)(2)(A) of such Act is amended—

(1) by inserting after the first sentence the following new sentence: "State agencies may collect any claim against a household arising from the overissuance of coupons as the result of an error of the State agency by reducing the monthly allotments of the household."; and

(2) by striking out "These collections" in the last sentence and inserting in lieu thereof "Collections under this subparagraph".

FOOD STAMP INTERCEPT OF UNEMPLOYMENT BENEFITS

SEC. 144. (a) Section 13 of the Food Stamp Act of 1977 (7 U.S.C. 2022) is amended by adding at the end thereof the following new subsection:

"(c)(1) As used in this subsection, the term 'uncollected overissuance' means the amount of an overissuance of coupons, as determined under subsection (b)(1), that has not been recovered pursuant to subsection (b)(1).

"(2) A State agency may determine on a periodic basis, from information supplied pursuant to section 3(b) of the Wagner-Peyser Act (29 U.S.C. 49b(b)), whether an individual receiving compensation under the State's unemployment compensation law (including amounts payable pursuant to an agreement under a Federal unemployment compensation law) owes an uncollected overissuance.

"(3) A State agency may recover an uncollected overissuance—

"(A) by—

"(i) entering into an agreement with an individual described in paragraph (2) under which specified amounts will be withheld from unemployment compensation otherwise payable to the individual; and

"(ii) furnishing a copy of the agreement to the State agency administering the unemployment compensation law; or

"(B) in the absence of an agreement, by obtaining a writ, order, summons, or other similar process in the nature of garnishment from a court of competent jurisdiction to require the withholding of amounts from the unemployment compensation.".

(b)(1) Section 11(e) of the Food Stamp Act of 1977 (7 U.S.C. 2020(e)) (as amended by section 137) is further amended by adding at the end thereof the following new paragraph:

"(25) at the option of the State, for procedures necessary to obtain payment of uncollected overissuance of coupons from unemployment compensation pursuant to section 13(c).".

(2) Section 3(b) of the Wagner-Peyser Act (29 U.S.C. 49b(b)) is amended—

(A) by striking out "or" the second place it appears and inserting in lieu thereof a comma; and

(B) by inserting after "such Act," the following: "or of a State agency charged with the administration of the food stamp program in a State under the Food Stamp Act of 1977 (7 U.S.C. 2011 et seq.),".

(3) Section 303(d) of the Social Security Act (42 U.S.C. 503(d)) is amended—

(A) by redesignating paragraphs (2) and (3) as paragraphs (3) and (4), respectively; and

(B) by inserting after paragraph (1) the following new paragraph:

"(2)(A) For purposes of this paragraph, the term 'unemployment compensation' means any unemployment compensation payable under the State law (including amounts payable pursuant to an agreement under a Federal unemployment compensation law).

"(B) The State agency charged with the administration of the State law—

"(i) may require each new applicant for unemployment compensation to disclose whether the applicant owes an uncollected overissuance (as defined in section 13(c)(1) of the Food Stamp Act of 1977) of food stamp coupons,

"(ii) may notify the State food stamp agency to which the uncollected overissuance is owed that the applicant has been determined to be eligible for unemployment compensation if the applicant discloses under clause (i) that the applicant owes an uncollected overissuance and the applicant is determined to be so eligible,

"(iii) may deduct and withhold from any unemployment compensation otherwise payable to an individual—

"(I) the amount specified by the individual to the State agency to be deducted and withheld under this clause,

"(II) the amount (if any) determined pursuant to an agreement submitted to the State food stamp agency under section 13(c)(3)(A) of the Food Stamp Act of 1977, or

"(III) any amount otherwise required to be deducted and withheld from the unemployment compensation pursuant to section 13(c)(3)(B) of such Act, and

"(iv) shall pay any amount deducted and withheld under clause (iii) to the appropriate State food stamp agency.

"(C) Any amount deducted and withheld under subparagraph (B)(iii) shall for all purposes be treated as if it were paid to the individual as unemployment compensation and paid by the individual to the State food stamp agency to which the uncollected overissuance is owed as repayment of the individual's uncollected overissuance.

"(D) A State food stamp agency to which an uncollected overissuance is owed shall reimburse the State agency charged with the administration of the State unemployment compensation law for the administrative costs incurred by the State agency under this paragraph that are attributable to repayment of uncollected overissuance to the State food stamp agency to which the uncollected overissuance is owed.".

(c)(1) The proviso of the first sentence of section 16(a) of the Food Stamp Act of 1977 (7 U.S.C. 2025(a)) is amended by striking out "13(b)(1) of this Act" and inserting in lieu thereof "13 (b)(1) and (c)".

(2) The first sentence of section 18(e) of such Act (7 U.S.C. 2027(e)) is amended by striking out "13(b) of this Act" and inserting in lieu thereof "13 (b) and (c)".

ADMINISTRATIVE AND JUDICIAL REVIEW

SEC. 145. The last sentence of section 14(a) of the Food Stamp Act of 1977 (7 U.S.C. 2023(a)) is amended—

(1) by striking out "an application" and inserting in lieu thereof "on application"; and

(2) by striking out "showing of irreparable injury" and inserting in lieu thereof "show-

ing that the applicant is likely to prevail on the merits of the case".

HOURS OF OPERATION

SEC. 146. Section 16(b)(1) of the Food Stamp Act of 1977 (7 U.S.C. 2025(b)(1)) is amended by inserting ", including standards for the periodic review of the hours that food stamp offices are open during the day, week, or month to ensure that employed individuals are adequately served by the food stamp program," after "States".

ERROR RATE REDUCTION PROGRAM

SEC. 147. Section 16(d) of the Food Stamp Act of 1977 (7 U.S.C. 2025(d)) is amended—

(1) by striking out paragraphs (2) and (3) and inserting in lieu thereof the following new paragraphs:

"(2) If the payment error rate of a State agency for a fiscal year exceeds 5 percent, the State agency shall, other than for good cause shown, be liable to the Secretary for such fiscal year in an amount equal to—

"(A) the sum of—

"(i) the product obtained by multiplying—

"(I) the number of percentage points (or a fraction thereof) by which such rate exceeds 5 percent (but not to exceed 2 points); by

"(II) 75 percent of the total value of all coupons issued by the State agency for such fiscal year; and

"(ii) the product obtained by multiplying—

"(I) the number of percentage points (or a fraction thereof) by which such rate exceeds 7 percent; by

"(II) the total value of all coupons issued by the State agency for such fiscal year; less

"(B) 75 percent of the value of any amounts that—

"(i) are recovered or collected by the State agency during such fiscal year under this Act for allotments—

"(I) issued to ineligible households; or

"(II) overissued to eligible households; and

"(ii) are not retained by the State agency in accordance with subsection (a).

"(3) If the liability of a State agency under this subsection is not contested by such agency or is ultimately determined to be valid, such penalty shall be collected by the Secretary by means of—

"(A) payment by such State agency;

"(B) withholding amounts otherwise payable to such agency under subsection (a); or

"(C) other means of collection authorized under chapter 37 of title 31, United States Code.";

(2) by striking out "the appropriate level of a State agency's federally funded share of administrative costs under this subsection" in paragraph (4) and inserting in lieu thereof "the payment error rate of a State agency"; and

(3) by striking out "reduces a State agency's federally funded share of administrative costs" in paragraph (5) and inserting in lieu thereof "determines that a State agency is liable".

GEOGRAPHICAL ERROR-PRONE PROFILES

SEC. 148. Section 16 of the Food Stamp Act of 1977 (7 U.S.C. 2025) (as amended by section 126(c)) is further amended by adding at the end thereof the following new subsection:

"(i)(1) The Inspector General of the Department of Agriculture may use quality control information made available under this section to determine which project areas have payment error rates (as defined in subsection (d)(1)) that impair the integrity of the food stamp program.

"(2) The Secretary may require a State agency to carry out new or modified procedures for the certification of households in areas identified under paragraph (1) if the Secretary determines such procedures would improve the integrity of the food stamp program and be cost effective.

"(3) Not later than 12 months after the date of enactment of the Consolidated Omnibus Budget Reconciliation Act of 1985, and each 12 months thereafter, the Secretary shall submit to the Committee on Agriculture of the House of Representatives and the Committee on Agriculture, Nutrition, and Forestry of the Senate a report that lists project areas identified under paragraph (1) and describes any procedures required to be carried out under paragraph (2).".

CASH PAYMENT PILOT PROJECTS

SEC. 149. The last sentence of section 17(b)(1) of the Food Stamp Act of 1977 (7 U.S.C. 2026(b)(1)) is amended by striking out "1985" and inserting in lieu thereof "1989".

CASH CHANGE PILOT PROJECT

SEC. 150. Section 17 of the Food Stamp Act of 1977 (7 U.S.C. 2026) (as amended by section 124(c)) is further amended by adding at the end thereof the following new subsection:

"(f) The Secretary may conduct a pilot project to test the effect on households and retail food stores that participate in the food stamp program of requiring households that use coupons to purchase food to pay cash for the amount of such purchase that exceeds the value of the lowest coupon denomination issued.".

AUTHORIZATION FOR APPROPRIATIONS

SEC. 151. The first sentence of section 18(a)(1) of the Food Stamp Act of 1977 (7 U.S.C. 2027(a)(1)) is amended—

(1) by striking out "and" after "1984;"; and

(2) by inserting before the period at the end thereof the following: "; not in excess of $12,984,000,000 for the fiscal year ending September 30, 1986; not in excess of $13,572,000,000 for the fiscal year ending September 30, 1987; not in excess of $14,154,000,000 for the fiscal year ending September 30, 1988; and not in excess of $14,695,000,000 for the fiscal year ending September 30, 1989".

TRANSFER OF FUNDS

SEC. 152. (a) Section 18 of the Food Stamp Act of 1977 (7 U.S.C. 2027) is amended by adding at the end thereof the following new subsection:

"(f) No funds appropriated to carry out this Act may be transferred to the Office of the Inspector General, or the Office of the General Counsel, of the Department of Agriculture.".

(b) The amendment made by this section shall become effective on October 1, 1986.

PUERTO RICO BLOCK GRANT

SEC. 153. Section 19 of the Food Stamp Act of 1977 (7 U.S.C. 2028) is amended—

(1) by striking out "noncash" in subsection (a)(1)(A); and

(2) in the second sentence of subsection (b)(1)(A)—

(A) by striking out "July 1" and inserting in lieu thereof "April 1"; and

(B) by striking out "a single agency which shall be" in clause (i) and inserting in lieu thereof "the agency or agencies directly".

PART 2—COMMODITY DISTRIBUTION

TRANSFER OF SECTION 32 COMMODITIES

SEC. 160. Section 32 of the Act entitled "An Act to amend the Agricultural Adjustment Act, and for other purposes", approved August 24, 1935 (7 U.S.C. 612c), is amended by adding at the end thereof the following new sentence: "A public or private nonprofit organization that receives agricultural commodities or the products thereof under clause (2) of the second sentence may transfer such commodities or products to another public or private nonprofit organization that agrees to use such commodities or products to provide, without cost or waste, nutrition assistance to individuals in low-income groups.".

COMMODITY DISTRIBUTION PROGRAM

SEC. 161. (a) Section 4(a)(1) of the Agriculture and Consumer Protection Act of 1973 (7 U.S.C. 612c note) (as amended by section 114(b)) is amended by striking out "during fiscal years 1982, 1983, 1984, and 1985" and inserting in lieu thereof "during the period beginning October 1, 1985, and ending September 30, 1989".

(b) Section 4(b) of such Act is amended by striking out "18" and inserting in lieu thereof "19".

COMMODITY SUPPLEMENTAL FOOD PROGRAM

SEC. 162. (a) Section 5(a) of the Agriculture and Consumer Protection Act of 1973 (7 U.S.C. 612c note) is amended—

(1) in clause (1)—

(A) by striking out "two pilot projects" and inserting in lieu thereof "three pilot projects"; and

(B) by striking out "two years" and inserting in lieu thereof "September 30, 1989"; and

(2) by striking out "1985" in clause (2) and inserting in lieu thereof "1989".

(b) Section 5 of such Act is amended by adding at the end thereof the following new subsections:

"(f)(1) If the Secretary determines that the amount of funds appropriated to carry out this section exceeds the requirement for operating sites in existence, and at levels of assistance, in effect on the date of such determination, the Secretary shall approve additional applications made for eligible projects to participate in the commodity supplemental food program.

"(2) In making such determination, the Secretary shall consider the funding needs of existing operating sites for both the current and succeeding fiscal years.

"(g) If a local agency that administers the commodity supplemental food program determines that the amount of funds made available to the agency to carry out this section exceeds the amount of funds necessary to provide assistance under such program to women, infants, and children, the agency, with the approval of the Secretary, may permit low-income elderly persons to participate in and be served by such program under such terms and conditions as are prescribed by the Secretary.".

TEMPORARY EMERGENCY FOOD ASSISTANCE PROGRAM

SEC. 163. (a) Section 202 of the Temporary Emergency Food Assistance Act of 1983 (7 U.S.C. 612c note) is amended by adding at the end thereof the following new subsections:

"(c) In addition to any commodities described in subsection (a), in carrying out this Act, the Secretary may use agricultural commodities and the products thereof made available under clause (2) of the second sen-

tence of section 32 of the Act entitled 'An Act to amend the Agricultural Adjustment Act, and for other purposes', approved August 24, 1935 (7 U.S.C. 612c).

"(d) Commodities made available under this Act shall include, but not be limited to, dairy products, wheat or the products thereof, rice, honey, and cornmeal.

"(e) Effective January 1, 1986, the Secretary shall submit semiannually to the Committee on Agriculture of the House of Representatives and the Committee on Agriculture, Nutrition, and Forestry of the Senate a report on the types and amounts of commodities made available for distribution under this Act.".

(b) Section 203B(b) of such Act is amended by adding at the end thereof the following new sentence: "Each State agency shall encourage distribution of such commodities in rural areas.".

(c) Section 203C(a) of such Act is amended by adding at the end thereof the following new sentence: "The Secretary shall submit annually to the Committee on Agriculture of the House of Representatives and the Committee on Agriculture, Nutrition, and Forestry of the Senate a report on the existence and extent of such displacements and substitutions.".

(d) Section 204(b) of such Act is amended—

(1) by inserting "(1)" after the subsection designation;

(2) by striking out "the fiscal years ending September 30, 1984, and September 30, 1985" and inserting in lieu thereof "each of the fiscal years ending September 30, 1984, through September 30, 1987"; and

(3) by adding at the end thereof the following new paragraph:

"(2) Effective January 1, 1986, to be eligible to receive payments for storage and distribution costs under paragraph (1), a State must match on a dollar for dollar basis the amount of such payments made to such State.".

(e) Subsection (c) of section 210 of such Act is amended to read as follows:

"(c)(1) Not later than October 1, 1985, and October 1, 1986, the Secretary shall publish in the Federal Register an estimate of the types and quantities of commodities that the Secretary anticipates are likely to be made available under this Act during each of the fiscal years ending September 30, 1986, and September 30, 1987, respectively.

"(2) The actual types and quantities of commodities made available under this Act may differ from such estimates.".

(f) Section 212 of such Act is amended to read as follows:

"PROGRAM TERMINATION

"SEC. 212. (a) Except for section 207 and as provided in subsections (b) and (c), this Act shall terminate on September 30, 1987.

"(b) Section 203 shall terminate on June 30, 1987.

"(c) The amendment made by section 209 shall terminate on September 30, 1989.".

DISTRIBUTION OF SURPLUS COMMODITIES TO SPECIAL NUTRITION PROJECTS

SEC. 164. Section 1114(a) of the Agriculture and Food Act of 1981 (7 U.S.C. 1431e) is amended by adding at the end thereof the following new sentence: "Commodities made available under this section shall include, but not be limited to, dairy products, wheat or the products thereof, rice, honey, and cornmeal.".

DONATIONS BY MILITARY COMMISSARIES

SEC. 165. (a) Section 2482 of title 10, United States Code, is amended—

(1) by inserting "(a)" after the section designation; and

(2) by adding at the end thereof the following new subsection:

"(b) A commissary store of the Department of Defense may donate surplus, unmarketable food to a local food bank.".

(b) The caption of section 2482 of such title is amended by striking out ": private operation".

PART 3—EFFECTIVE DATES

EFFECTIVE DATES

SEC. 170. (a) Except as otherwise provided in this subtitle, this subtitle and the amendments made by this subtitle shall become effective on the date of enactment of this Act.

(b) Notwithstanding any provision of the Food Stamp Act of 1977 (7 U.S.C. 2011 et seq.) or chapter 5 of part I of title 5, United States Code—

(1) the Secretary of Agriculture shall prescribe interim regulations to ensure that this subtitle and the amendments made by this subtitle are implemented as soon as practicable after such date, but in no event later than March 1, 1986; and

(2) any change in such interim regulations that is made in final regulations issued by the Secretary to implement this subtitle and the amendments made by this subtitle shall be effective on such date as is prescribed by the Secretary.

Subtitle C—Agricultural Credit

ELIGIBILITY FOR REAL ESTATE AND OPERATING LOANS

SEC. 181. (a) Section 302 of the Consolidated Farm and Rural Development Act (7 U.S.C. 1922) is amended—

(1) by inserting "(a)" after the section designation; and

(2) by adding at the end thereof the following new subsection:

"(b) The Secretary may not restrict eligibility for loans made or insured under this subtitle for purposes set forth in section 303 solely to borrowers of loans that are outstanding on the date of enactment of the Consolidated Omnibus Budget Reconciliation Act of 1985.".

(b) Section 311 of such Act (7 U.S.C. 1941) is amended by adding at the end thereof the following new subsection:

"(c) The Secretary may not restrict eligibility for loans made or insured under this subtitle for purposes set forth in section 312 solely to borrowers of loans that are outstanding on the date of enactment of the Consolidated Omnibus Budget Reconciliation Act of 1985.".

WATER, WASTE FACILITY, AND COMMUNITY FACILITY LOANS AND GRANTS

SEC. 182. (a) Section 306(a) of the Consolidated Farm and Rural Development Act (7 U.S.C. 1926(a)) is amended by adding at the end thereof the following paragraph:

"(16)(A) In the approval and administration of a loan made under paragraph (1) for a water or waste disposal facility, the Secretary shall consider fully any recommendation made by the loan applicant or borrower concerning the technical design and choice of materials to be used for such facility.

"(B) If the Secretary determines that a design or materials, other than those that were recommended, should be used in the water or waste disposal facility, the Secretary shall provide such applicant or borrower with a comprehensive justification for such determination.".

(b) Section 307(a)(3)(A) of such Act (7 U.S.C. 1927(a)(3)(A)) is amended—

(1) by striking out "the poverty line prescribed by the Office of Management and Budget as adjusted under section 624 of the Economic Opportunity Act of 1964 (42 U.S.C. 2971d)" and inserting in lieu thereof "the higher of (i) 80 percent of the statewide nonmetropolitan median household income, or (ii) the poverty line as defined in section 673(2) of the Community Services Block Grant Act (42 U.S.C. 9902(2),"; and

(2) by adding at the end thereof the following new sentence: "The interest rate on a loan for such facility may not exceed 7 percent per annum if such facility does not qualify for the 5 percent per annum interest rate, but is located in an area where the median household income of the persons to be served by the facility does not exceed 100 percent of the statewide nonmetropolitan median household income.".

(c)(1) The Secretary of Agriculture shall conduct a study of the practicality and cost effectiveness of making loans and grants under section 306 of the Consolidated Farm and Rural Development Act (7 U.S.C. 1926) for the construction of water and waste disposal facilities in rural areas at individual locations, rather than central or community locations.

(2) Not later than 120 days after the date of enactment of this Act, the Secretary shall submit a report on the results of the study required under paragraph (1) to the Committee on Agriculture of the House of Representatives and the Committee on Agriculture, Nutrition, and Forestry of the Senate.

SALE OF NOTES AND SECURITY

SEC. 183. (a) Section 309(d) of the Consolidated Farm and Rural Development Act (7 U.S.C. 1929(d)) is amended by striking out the period at the end of the second sentence and inserting in lieu thereof the following: ", including sale on a nonrecourse basis. The Secretary and any subsequent purchaser of such notes sold by the Secretary on a nonrecourse basis shall be relieved of any responsibilities that might have been imposed, had the borrower remained indebted to the Secretary. All such notes sold on a nonrecourse basis must have been held in the fund for at least 4 years.".

(b) Section 309A(e) of such Act (7 U.S.C. 1929a(e)) is amended by striking out the period at the end of the second sentence and inserting in lieu thereof the following: ", including sale on a nonrecourse basis. The Secretary and any subsequent purchaser of such notes sold by the Secretary on a nonrecourse basis shall be relieved of any responsibilities that might have been imposed, had the borrower remained indebted to the Secretary.".

RURAL INDUSTRIALIZATION ASSISTANCE

SEC. 184. (a) Section 310B of the Consolidated Farm and Rural Development Act (7 U.S.C. 1932) is amended—

(1) in subsection (a)—

(A) in the first sentence—

(i) by striking out "also make and insure loans" and inserting in lieu thereof "guarantee loans made"; and

(ii) by striking out "(1)" and all that follows through the period and inserting in lieu thereof "financing the production and distribution of ethanol in rural areas."; and

(B) by striking out the second and fourth sentences;

(2) by striking out subsections (b) and (c);

(3) by striking out the sentence preceding paragraph (1) of subsection (d);

(4) by striking out subsection (e); and

(5) by redesignating subsection (d) (as amended by clause (3)) as subsection (b).

(b)(1) Section 307(a)(4) of such Act (7 U.S.C. 1927(a)(4)) is amended by striking out "sections 304(b), 306(a)(1), and 310B" and inserting in lieu thereof "sections 304(b) and 306(a)(1)".

(2) Section 307(a)(6)(B) of such Act is amended—

(A) by inserting "and" at the end of clause (v);

(B) by striking out clauses (vi) and (vii); and

(C) by redesignating clause (viii) as clause (vi).

(3) Section 309A(g)(8) of such Act (7 U.S.C. 1929a(g)(8)) is amended by striking out "sections 306(a) and 310B" and inserting in lieu thereof "section 306(a)".

FARM RECORDKEEPING TRAINING FOR LIMITED RESOURCE BORROWERS

SEC. 185. The first sentence of section 312(a) of the Consolidated Farm and Rural Development Act (7 U.S.C. 1942(a)) is amended—

(1) by striking out "and" at the end of clause (10); and

(2) by inserting before the period at the end thereof the following new clause: ", and (12) training in maintaining records of farming and ranching operations for limited resource borrowers receiving loans under section 310D".

EMERGENCY LOANS

SEC. 186. (a) Subsection (b) of section 321 of the Consolidated Farm and Rural Development Act (7 U.S.C. 1961(b)) is amended to read as follows:

"(b) An applicant shall be ineligible for financial assistance under this subtitle for crop losses if crop insurance was available to the applicant for such crop under the Federal Crop Insurance Act (7 U.S.C. 1501 et seq.).".

(b) Subsection (a) of section 324 of such Act (7 U.S.C. 1964(a)) is amended to read as follows:

"(a)(1) No loan made or insured under this subtitle may exceed the amount of the actual loss caused by the disaster or $200,000, whichever is less, for each disaster.

"(2) The total principal indebtedness outstanding at any one time for loans made or insured to a borrower under this subtitle may not exceed $400,000.".

(c) Section 324(b)(1) of such Act (7 U.S.C. 1964(b)(1)) is amended by striking out "but (A)" and all that follows through "Secretary" and inserting in lieu thereof "but not in excess of 8 percent per annum".

(d) Section 330 of such Act (7 U.S.C. 1971) is repealed.

(e) The amendment made by subsection (a) shall not apply to a person whose eligibility for an emergency loan is the result of damage to an annual crop planted before the date of enactment of this Act.

SETTLEMENT OF CLAIMS

SEC. 187. Subsection (d) of the second paragraph of section 331 of the Consolidated Farm and Rural Development Act (7 U.S.C. 1981(d)) is amended to read as follows:

"(d) compromise, adjust, reduce, or charge-off claims, and adjust, modify, subordinate, or release the terms of security instruments, leases, contracts, and agreements entered into or administered by the Farmers Home Administration under any of its programs, as circumstances may require, to carry out this title. The Secretary may release borrowers or others obligated on a debt incurred under this title from personal liability with or without payment of any consideration at the time of the compromise, adjustment, reduction, or charge-off of any claim, except that no compromise, adjustment, reduction, or charge-off of any claim may be made or carried out—

"(1) on terms more favorable than those recommended by the appropriate county committee utilized pursuant to section 332; or

"(2) after the claim has been referred to the Attorney General, unless the Attorney General approves;".

TRANSFER OF LOAN ACCOUNTS

SEC. 188. Subtitle D of the Consolidated Farm and Rural Development Act is amended by inserting after section 331B (7 U.S.C. 1981b) the following new section:

"SEC. 331C. The Secretary shall permit a borrower of a loan made or insured under this title, with the approval of the head of the appropriate State office of the Farmers Home Administration, to transfer, on a one-time basis, the accounts of such borrower for such loans to a county office of the Farmers Home Administration in an adjacent county.".

OIL AND GAS ROYALTIES

SEC. 189. (a) Subtitle D of the Consolidated Farm and Rural Development Act (as amended by section 188) is amended by inserting after section 331C the following new section:

"SEC. 331D. (a) The Secretary shall permit a borrower of a loan made or insured under this title to make a prospective payment on such loan with proceeds from—

"(1) the leasing of oil, gas, or other mineral rights to real property used to secure such loan; or

"(2) the sale of oil, gas, or other minerals removed from real property used to secure such loan if—

"(A) the value of the rights to such oil, gas, or other minerals has not been used to secure such loan; and

"(B) the security for such loan is otherwise adequate.

"(b) Subsection (a) shall not apply to a borrower of a loan made or insured under this title with respect to which a liquidation or foreclosure proceeding is pending on the date of enactment of the Consolidated Omnibus Budget Reconciliation Act of 1985.".

(b) Section 204 of the Emergency Agricultural Credit Adjustment Act of 1978 (7 U.S.C. 1947 note) is amended by adding at the end thereof the following new subsection:

"(e)(1) The Secretary shall permit a borrower of a loan made or insured under this title to make a prospective payment on such loan with proceeds from—

"(A) the leasing of oil, gas, or other mineral rights to real property used to secure such loan; or

"(B) the sale of oil, gas, or other minerals removed from real property used to secure such loan if—

"(i) the value of the rights to such oil, gas, or other minerals has not been used to secure such loan; and

"(ii) the security for such loan is otherwise adequate.

"(2) Paragraph (1) shall not apply to a borrower of a loan made or insured under this title with respect to which a liquidation or foreclosure proceeding is pending on the date of enactment of the Consolidated Omnibus Budget Reconciliation Act of 1985.".

PROCESSING OF LOAN APPLICATIONS

SEC. 190. (a) Subtitle D of the Consolidated Farm and Rural Development Act is amended by inserting after section 333 (7 U.S.C. 1983) the following new section:

"SEC. 333A. (a)(1) The Secretary shall approve or disapprove an application for a loan or loan guarantee made under this title, and notify the applicant of such action, not later than 90 days after the Secretary has received a complete application for such loan or loan guarantee.

"(2) If an application for a loan or loan guarantee under this title is incomplete, the Secretary shall inform the applicant of the reasons such application is incomplete not later than 20 days after the Secretary has received such application.

"(3) If an application for a loan or loan guarantee under this title is disapproved by the Secretary, the Secretary shall state the reasons for the disapproval in the notice required under paragraph (1).

"(b)(1) Except as provided in paragraph (2), if an application for an insured loan under this title is approved by the Secretary, the Secretary shall provide the loan proceeds to the applicant not later than 15 days (or such longer period as the applicant may approve) after the application for the loan is approved by the Secretary.

"(2) If the Secretary is unable to provide the loan proceeds to the applicant within such 15-day period because sufficient funds are not available to the Secretary for such purpose, the Secretary shall provide the loan proceeds to the applicant as soon as practicable (but in no event later than 15 days unless the applicant agrees to a longer period) after sufficient funds for such purpose become available to the Secretary.

"(c) In carrying out the approved lender program established by exhibit A to subpart B of part 1980 of title 7, Code of Federal Regulations, the Secretary shall ensure that each request of a lending institution for designation as an approved lender under such program is reviewed, and a decision made on the application, not later than 15 days after the Secretary has received a complete application for such designation.

"(d)(1) As soon as practicable after the date of enactment of the Consolidated Omnibus Budget Reconciliation Act of 1985, the Secretary shall take such steps as are necessary to make personnel and other resources of the Department of Agriculture available to the Farmers Home Administration as are sufficient to enable the Farmers Home Administration to expeditiously process loan applications that are submitted by farmers and ranchers.

"(2) In carrying out paragraph (1), the Secretary may use any authority of law provided to the Secretary, including—

"(A) the Agricultural Credit Insurance Fund established under section 309; and

"(B) the employment procedures used in connection with the emergency loan program established under subtitle C.".

(b) Section 333A (a), (b), and (c) of the Consolidated Farm and Rural Development Act (as added by subsection (a)) shall be effective with respect to applications received by the Secretary of Agriculture after the date of enactment of this Act.

APPEALS

SEC. 191. (a) Subtitle D of the Consolidated Farm and Rural Development Act is amended by inserting after section 333A (as added by section 190) the following new section:

"SEC. 333B. (a) The Secretary shall provide an applicant for or borrower of a loan, or an applicant for or recipient of a loan guarantee, under this title who has been directly and adversely affected by a decision of the Secretary made under this title (here-

after in this section referred to as the 'appellant') with written notice of the decision, an opportunity for an informal meeting, and an opportunity for a hearing with respect to such decision, in accordance with regulations issued by the Secretary consistent with this section.

"(b)(1) Not later than 10 days after such adverse decision, the Secretary shall provide the appellant with written notice of the decision, an opportunity for an informal meeting, an opportunity for a hearing, and the procedure to appeal such decision (including any deadlines for filing appeals).

"(2) Upon the request of the appellant and in order to provide an opportunity to resolve differences and minimize formal appeals, the Secretary shall hold an informal meeting with the appellant prior to the initiation of any formal appeal of the decision of the Secretary.

"(c)(1) An appellant shall have the right to have—

"(A) access to the personal file of the appellant maintained by the Secretary, including a reasonable opportunity to inspect and reproduce the file at an office of the Farmers Home Administration located in the area of the appellant; and

"(B) representation by an attorney or nonattorney during the inspection and reproduction of files under subparagraph (A) and at any informal meeting or hearing.

"(2) The Secretary may charge an appellant for any reasonable costs incurred in reproducing files under paragraph (1)(A).".

(b)(1) The Secretary of Agriculture shall conduct a study concerning the administrative appeals procedure used in the farm loan programs of the Farmers Home Administration.

(2) In conducting such study, the Secretary shall examine—

(A) the number and type of appeals initiated by loan applicants and borrowers;

(B) the extent to which initial administrative actions are reversed on appeal;

(C) the reasons that administrative actions are reversed, modified, or sustained on appeal;

(D) the number and disposition of appeals in which the loan applicant or borrower is represented by legal counsel;

(E) the quantity of time required to complete action on appeals and the reasons for delays;

(F) the feasibility of the use of administrative law judges in the appeals process; and

(G) the desirability of electing members of county committees established under section 332 of the Consolidated Farm and Rural Development Act (7 U.S.C. 1982).

(c) Not later than September 1, 1986, the Secretary shall submit a report describing the results of the study required under this section to the Committee on Agriculture of the House of Representatives and the Committee on Agriculture, Nutrition, and Forestry of the Senate.

DISPOSITION AND LEASING OF FARMLAND

SEC. 192. Section 335 of the Consolidated Farm and Rural Development Act (7 U.S.C. 1985) is amended—

(1) by striking out "Real" in subsection (b) and inserting in lieu thereof "Except as provided in subsection (e), real";

(2) by striking out "The" in the first sentence of subsection (c) and inserting in lieu thereof "Except as provided in subsection (e), the"; and

(3) by adding at the end thereof the following new subsection:

"(e)(1) The Secretary shall to the extent practicable sell or lease farmland administered under this title in the following order of priority:

"(A) Sale of such farmland to operators (as of the time immediately before such sale) of not larger than family-size farms.

"(B) Lease of such farmland to operators (as of the time immediately before such lease is entered into) of not larger than family-size farms.

"(2)(A) The Secretary shall consider granting, and may grant, to an operator of not larger than a family-size farm, in conjunction with paragraph (3), a lease with an option to purchase farmland administered under this title.

"(B) The Secretary shall issue regulations providing for leasing such land, or leasing such land with an option to purchase, on a fair and equitable basis.

"(C) In leasing such land, the Secretary shall give special consideration to a previous owner or operator of such land if such owner or operator has financial resources, and farm management skills and experience, that the Secretary determines are sufficient to assure a reasonable prospect of success in the proposed farming operation.

"(3)(A)(i) The Secretary may sell farmland administered under this title through an installment sale or similar device that contains such terms as the Secretary considers necessary to protect the investment of the Federal Government in such land.

"(ii) The Secretary may subsequently sell any contract entered into to carry out clause (i).

"(B) The Secretary shall offer such land for sale to operators of not larger than family-size farms at a price that reflects the average annual income that may be reasonably anticipated to be generated from farming such land.

"(C) If two or more qualified operators of not larger than family-size farms desire to purchase, or lease with an option to purchase, such land, the appropriate county committee shall, by majority vote, select the operator who may purchase such land, on such basis as the Secretary may prescribe by regulation.

"(4)(A) If the Secretary determines that farmland administered under this title is not suitable for sale or lease to an operator of not larger than a family-size farm because such farmland is in a tract or tracts that the Secretary determines to be larger than that necessary for family-size farms, the Secretary shall subdivide such land into tracts suitable for such operator.

"(B) The Secretary shall dispose of such subdivided farmland in accordance with this subsection.

"(5) If suitable farmland is available for disposition under this subsection, the Secretary shall—

"(A) publish an announcement of the availability of such farmland in at least one newspaper that is widely circulated in the county in which the farmland is located; and

"(B) post an announcement of the availability of such farmland in a prominent place in the local office of the Farmers Home Administration that serves the county in which the farmland is located.

"(6) In the case of farmland administered under this title that is highly erodible land (as defined in paragraph (7)), the Secretary may require the use of specified conservation practices on such land as a condition of the sale or lease of such land.

"(7) As used in paragraph (6), the term 'highly erodible land' means land classified by the Soil Conservation Service as class IIIe, IVe, VI, VII, or VIII land under the land capability classification system in effect on the date of enactment of the Consolidated Omnibus Budget Reconciliation Act of 1985.".

(b) The Secretary of Agriculture shall implement the amendment made by this section not later than 90 days after the date of enactment of this Act.

RELEASE OF NORMAL INCOME SECURITY

SEC. 193. Section 335 of the Consolidated Farm and Rural Development Act (7 U.S.C. 1985) (as amended by section 192(3)) is further amended by adding at the end thereof the following new subsection:

"(f)(1) As used in this subsection, the term 'normal income security' has the same meaning given such term in section 1962.17(b) of title 7, Code of Federal Regulations (as of January 1, 1985).

"(2) Until such time as the Secretary determines that a loan made or insured under this title should be liquidated, the Secretary shall release from the normal income security provided for such loan an amount sufficient to pay the essential household and farm operating expenses of the borrower, as determined by the Secretary.".

LOAN SUMMARY STATEMENTS

SEC. 194. Section 337 of the Consolidated Farm and Rural Development Act (7 U.S.C. 1987) is amended—

(1) by inserting "(a)" after the section designation; and

(2) by adding at the end thereof the following new subsection:

"(b)(1) As used in this subsection, the term 'summary period' means—

"(A) the period beginning on the date of enactment of the Consolidated Omnibus Budget Reconciliation Act of 1985 and ending on the date on which the first loan summary statement is issued after such date of enactment; or

"(B) the period beginning on the date of issuance of the preceding loan summary statement and ending on the date of issuance of the current loan summary statement.

"(2) On the request of a borrower of a loan made or insured (but not guaranteed) under this title, the Secretary shall issue to such borrower a loan summary statement that reflects the account activity during the summary period for each loan made or insured under this title to such borrower, including—

"(A) the outstanding amount of principal due on each such loan at the beginning of the summary period;

"(B) the interest rate charged on each such loan;

"(C) the amount of payments made on and their application to each such loan during the summary period and an explanation of the basis for the application of such payments;

"(D) the amount of principal and interest due on each such loan at the end of the summary period;

"(E) the total amount of unpaid principal and interest on all such loans at the end of the summary period;

"(F) any delinquency in the repayment of any such loan;

"(G) a schedule of the amount and date of payments due on each such loan; and

"(H) the procedure the borrower may use to obtain more information concerning the status of such loans.".

AUTHORIZATION OF LOAN AMOUNTS

SEC. 195. (a) Subsection (b) of section 346 of the Consolidated Farm and Rural Development Act (7 U.S.C. 1994(b)) is amended to read as follows:

"(b)(1)(A) For each of the fiscal years ending September 30, 1986, through September 30, 1988, real estate and operating loans may be insured, made to be sold and insured, or guaranteed in accordance with subtitles A and B, respectively, from the Agricultural Credit Insurance Fund established under section 309 in an amount equal to $4,000,000,000, of which not less than $520,000,000 shall be for farm ownership loans under subtitle A.

"(B) Subject to subparagraph (C), such amount shall be apportioned as follows:

"(i) For the fiscal year ending September 30, 1986—

"(I) $2,000,000,000 for insured loans, of which not less than $260,000,000 shall be for farm ownership loans; and

"(II) $2,000,000,000 for guaranteed loans, of which not less than $260,000,000 shall be for guarantees of farm ownership loans.

"(ii) For the fiscal year ending September 30, 1987—

"(I) $1,500,000,000 for insured loans, of which not less than $195,000,000 shall be for farm ownership loans; and

"(II) $2,500,000,000 for guaranteed loans, of which not less than $325,000,000 shall be for guarantees of farm ownership loans.

"(iii) For the fiscal year ending September 30, 1988—

"(I) $1,000,000,000 for insured loans, of which not less than $130,000,000 shall be for farm ownership loans; and

"(II) $3,000,000,000 for guaranteed loans, of which not less than $390,000,000 shall be for guarantees of farm ownership loans.

"(C) For each of the fiscal years referred to in subparagraph (A), the Secretary may transfer not more than 25 percent of the amounts authorized for guaranteed loans to amounts authorized for insured loans.

"(D) For each of the fiscal years ending September 30, 1986, through September 30, 1988, emergency loans may be insured, made to be sold and insured, or guaranteed in accordance with subtitle C from the Agricultural Credit Insurance Fund in such amounts as are necessary to meet the needs resulting from natural disasters.

"(2)(A) For each of the fiscal years ending September 30, 1986, through September 30, 1988, loans for the production and distribution of ethanol in rural areas may be guaranteed in accordance with section 310B from the Rural Development Insurance Fund established under section 309A in the amount of $150,000,000.

"(B) For the fiscal year ending September 30, 1986, water and waste facility loans may be insured, or made to be sold and insured, in accordance with section 306 from the Rural Development Insurance Fund in the amount of $75,000,000.".

(b) Section 346(e)(1) of such Act is amended—

(1) by striking out "20" each place it appears and inserting in lieu thereof "25"; and

(2) by striking out "fiscal year 1984" and inserting in lieu thereof "each fiscal year".

(c) Section 346 of such Act (as amended by subsection (b)) is amended—

(1) by striking out subsection (d); and

(2) by redesignating subsection (e) as subsection (d).

INTEREST RATE REDUCTION PROGRAM

SEC. 196. Effective only for the period beginning on the date of enactment of this Act and ending September 30, 1988, the Consolidated Farm and Rural Development Act (7 U.S.C. 1921 et seq.) is amended by adding at the end thereof the following new section:

"SEC. 349. (a) The Secretary shall establish and carry out in accordance with this section an interest rate reduction program for loans guaranteed under this title.

"(b) Under such program, the Secretary shall enter into a contract with, and make payments to, a legally organized institution to reduce during the term of such contract the interest rate paid by a borrower on a guaranteed loan made by such institution if—

"(1) the borrower—

"(A) is unable to obtain sufficient credit elsewhere to finance the actual needs of the borrower at reasonable rates and terms, taking into consideration private and cooperative rates and terms for a loan for a similar purpose and period of time in the community in or near which the borrower resides;

"(B) is otherwise unable to make payments on such loan in a timely manner; and

"(C) has a total estimated cash income during the 12-month period beginning on the date such contract is entered into (including all farm and nonfarm income) that will equal or exceed the total estimated cash expenses to be incurred by the borrower during such period (including all farm and nonfarm expenses); and

"(2) the lender reduces during the term of such contract the annual rate of interest payable on such loan by a minimum percentage specified in such contract.

"(c) In return for a contract entered into by a lender under subsection (b) for the reduction of the interest rate paid on a loan, the Secretary shall make payments to the lender in an amount equal to not more than 50 percent of the cost of reducing the annual rate of interest payable on such loan, except that such payments may not exceed the cost of reducing such rate by more than 2 percent.

"(d) The term of a contract entered into under this section to reduce the interest rate on a guaranteed loan may not exceed the outstanding term of such loan, or 3 years, whichever is less.

"(e)(1) Notwithstanding any other provision of this title, the Agricultural Credit Insurance Fund established under section 309 may be used by the Secretary to carry out this section.

"(2) The total amount of funds used by the Secretary to carry out this section may not exceed $490,000,000.".

STUDY OF FARM AND HOME PLAN

SEC. 197. (a) The Secretary of Agriculture shall conduct a study of the appropriateness of the Farm and Home Plan (Form FmHA 431-2) used by the Farmers Home Administration in connection with loans made or insured under the Consolidated Farm and Rural Development Act (7 U.S.C. 1921 et seq.).

(b) After carrying out such study, if the Secretary finds the plan is inappropriate, the Secretary shall—

(1) evaluate other alternative farm plan forms for use in connection with such loans;

(2) evaluate the need to develop a new farm plan form for such use; and

(3) specify the steps that should be taken to improve or replace the current form.

(c) Not later than 120 days after the date of enactment of this Act, the Secretary shall report the results of the study required under subsection (a) to the Committee on Agriculture of the House of Representatives and the Committee on Agriculture, Nutrition, and Forestry of the Senate.

STUDY OF FARM CREDIT SYSTEM

SEC. 198. (a) The Governor of the Farm Credit Administration shall conduct a study of the need for the establishment of a fund to be used—

(1) to insure institutions of the Farm Credit System against losses on loans made by such institutions; or

(2) for any other purpose that would—

(A) assist in stabilizing the financial condition of such System; and

(B) provide for the protection of the capital that borrowers of such loans have invested in such System.

(b) In conducting such study, the Governor shall—

(1) consider the advisability of using the revolving funds provided for under section 4.1 of the Farm Credit Act of 1971 (12 U.S.C. 2152) to provide initial capital for the fund referred to in subsection (a); and

(2) estimate the amount and level of future assessments levied on institutions of the Farm Credit System that would be necessary to ensure the long-term liquidity of such fund.

(c) Not later than 180 days after the date of enactment of this Act, the Farm Credit Administration shall submit a report containing the results of the study required under subsection (a) to the Committee on Agriculture of the House of Representatives and the Committee on Agriculture, Nutrition, and Forestry of the Senate.

TITLE II—COMMITTEE ON ARMED SERVICES

SEC. 201. LIMITATION ON AMOUNTS AVAILABLE FOR OBLIGATION FOR BASIC PAY AND FOR RETIRED PAY ACCRUAL CHARGE.

From amounts appropriated or otherwise available to the Department of Defense for military personnel accounts for fiscal year 1986, the total amount obligated from each such account for military basic pay and payments into the Department of Defense Military Retirement Fund pursuant to section 1466(a) of title 10, United States Code, may not exceed the following:

(1) For the Department of the Army—

(A) for payments from the appropriation account "Military Personnel, Army", $15,951,800,000;

(B) for payments from the appropriation account "Reserve Personnel, Army", $1,595,500,000; and

(C) for payments from the appropriation account "National Guard Personnel, Army", $2,503,600,000.

(2) For the Department of the Navy—

(A) for payments from the appropriation account "Military Personnel, Navy", $11,689,900,000;

(B) for payments from the appropriation account "Military Personnel, Marine Corps", $3,659,600,000;

(C) for payments from the appropriation account "Reserve Personnel, Navy", $939,300,000; and

(D) for payments from the appropriation account "Reserve Personnel, Marine Corps", $202,200,000.

(3) For the Department of the Air Force—

(A) for payments from the appropriation account "Military Personnel, Air Force", $13,533,500,000;

(B) for payments from the appropriation account "Reserve Personnel, Air Force", $437,300,000; and

(C) for payments from the appropriation account "National Guard Personnel, Air Force", $754,500,000.

SEC. 202. LEGISLATIVE PROPOSAL TO AMEND MILITARY RETIREMENT SYSTEM FOR NEW ENTRANTS.

(a) REQUIREMENT FOR SUBMISSION OF LEGISLATIVE PROPOSAL MAKING CHANGES IN MILITARY RETIREMENT SYSTEM.—(1) Not later than 10 days after the date of the enactment of this Act, the Secretary of Defense shall submit to Congress a report (including draft legislation) proposing two separate sets of changes in the military nondisability retirement system.

(2)(A) Each of the sets of changes to be proposed in the report under paragraph (1) shall include changes which, if enacted, would result in reductions in the amount required to be paid by the Secretary of Defense into the Department of Defense Military Retirement Fund pursuant to sect'on 1466(a) of title 10, United States Code, during fiscal year 1986 in a total amount that would enable the Department of Defense to remain within the limits on obligations for basic pay and payments into such Fund prescribed by section 201 solely through such reductions.

(B) One of the sets of changes to be proposed in such report shall consist only of changes in the military retirement system other than changes in the procedure for periodic cost-of-living adjustments in retired or retainer pay which, if enacted, would result in the required reductions.

(3) Structural changes in the military retirement system to be proposed by the Secretary of Defense in either set of changes proposed in the report under paragraph (1)—

(A) should apply only to individuals who initially become members of the Armed Forces after the effective date of such changes; and

(B) should, to the maximum extent possible and consistent with military requirements, encourage members who are eligible for retirement to remain on active duty beyond 20 years of service.

(4) At the same time the Secretary of Defense submits the report required by paragraph (1), the Secretary shall submit separate reports on the following:

(A) The anticipated effects that the changes proposed in the report under paragraph (1) would have on recruiting and retention in the Armed Forces.

(B) Proposals for additional changes in other elements of the military compensation system or in other military personnel programs, including changes in promotion and retention policies.

(C) A description of the changes in military retirement, compensation or personnel programs that would be necessary if the reductions resulting from the funding limitations set forth in section 201 were $1,800,000,000, $2,900,000,000, $3,600,000,000, $4,000,000,000, or $5,400,000,000, as well as an evaluation of the effects such changes would have on recruiting and retention in the Armed Forces.

(D) A plan that could be used to implement over a period of four or more years the changes proposed in the report under paragraph (1).

(b) SPECIFICATION OF ACTUARIAL METHODS AND ASSUMPTIONS FOR FY86 RETIREMENT LEGISLATION.—In determining the cost, or the amount to be saved, as the result of the enactment of any legislative proposal that would make changes in the military retirement system effective during fiscal year 1985 or 1986, the actuarial methods and assumptions used shall be the same as those approved by the Board of Actuaries (in accordance with section 1465(d) of title 10, United States Code) for use in calculating the military retirement accrual percentage for the President's budget for fiscal year 1986.

(c) RECALCULATION OF ACCRUAL PERCENTAGE UPON CHANGE IN BENEFITS.—(1) If a significant change in the military retirement system is enacted into law that takes effect during fiscal year 1985 or 1986, the accrual percentage shall be recalculated taking into account that change in law. Any such recalculation shall be made using the actuarial methods and assumptions described in subsection (b).

(2) In making determinations under section 1466(a) cf title 10, United States Code, for months during fiscal years 1985 and 1986 beginning on or after the effective date of any such change in law, the accrual percentage as recalculated under paragraph (1) shall be used in lieu of the accrual percentage that would otherwise be applicable.

(d) DEFINITION OF ACCRUAL PERCENTAGE.—For purposes of this section, the term "accrual percentage" means the single level percentage of basic pay determined under section 1465(c)(1) of title 10, United States Code, for the purposes of computations under sections 1465(b) and 1466(a) of that title.

SEC. 203. DELAY IN EFFECTIVE DATE OF PAY RAISE FOR MEMBERS OF THE UNIFORMED SERVICES.

In the enrollment of the bill (S. 1160) to authorize appropriations for the military functions of the Department of Defense and to prescribe personnel levels for the Department of Defense for fiscal year 1986, to authorize certain construction at military installations for such fiscal year, to authorize appropriations for the Department of Energy for national security programs for such fiscal year, and for other purposes, the Secretary of the Senate is directed to make the following change:

In the section relating to an increase in the basic pay, basic allowance for subsistence, and basic allowance for quarters for members of the uniformed services, strike out the effective date "October 1, 1985" and insert in lieu thereof "November 1, 1985".

SEC. 204. STUDY OF USE BY CHAMPUS OF MEDICARE PROSPECTIVE PAYMENT SYSTEM.

(a) CONGRESSIONAL FINDINGS.—The Congress finds that—

(1) costs of providing medical care under the program administered by the Department of Defense known as the Civilian Health and Medical Program of the Uniformed Services (CHAMPUS) have escalated rapidly in recent years;

(2) new and innovative methods for control and containment of costs under the CHAMPUS program must be explored; and

(3) the adoption for the CHAMPUS program of a prospective payment system for inpatient hospital services like that used by Department of Health and Human Services under title XVIII of the Social Security Act for the Medicare program could provide significant savings for the CHAMPUS program.

(b) STUDY REQUIREMENT.—The Secretary of Defense and the Secretary of Health and Human Services shall jointly study the possible effects of the adoption for the CHAMPUS program of a prospective payment system for inpatient hospital services such as that used by the Department of Health and Human Services for the Medicare program. The study shall address—

(1) the advisability and feasibility of requiring by law that a hospital participate in the CHAMPUS program as a condition of participating in Medicare and whether such a requirement is needed in order to ensure adequate participation by hospitals in the CHAMPUS program if a prospective payment system were to be adopted for the CHAMPUS program; and

(2) the changes that might be expected if such a system were adopted in the CHAMPUS patient workload and the CHAMPUS aggregate payment levels to various segments of the provider community (including private, public, nonprofit, and teaching facilities).

(c) REPORT.—Not later than December 1, 1985, the Secretaries shall submit a report to the Committees on Armed Services and Finance of the Senate and the Committees on Armed Services and Ways and Means of the House of Representatives of their findings under the study under subsection (b). The report shall include—

(1) such recommendations for changes in the CHAMPUS system of reimbursement as the Secretaries consider appropriate; and

(2) the recommendations of the Secretaries on the need for and appropriateness of a requirement by law relating to hospital participation in the CHAMPUS and Medicare programs such as that described in subsection (b)(1).

SEC. 205. REQUIREMENT FOR MEDICARE PROVIDERS OF HOSPITAL SERVICES TO PARTICIPATE IN CHAMPUS AND CHAMPVA PROGRAMS.

(a) AMENDMENTS TO THE SOCIAL SECURITY ACT.—Section 1866(a)(1) of the Social Security Act (42 U.S.C. 1395cc(a)(1)), relating to agreements to provide care for the aged and disabled, is amended—

(1) by striking out "and" at the end of subparagraph (G);

(2) by striking out the period at the end of subparagraph (H) and inserting in lieu thereof ", and"; and

(3) by inserting after subparagraph (H) the following new subparagraph:

"(I) in the case of hospitals which provide inpatient hospital services for which payment may be made under this title, to be a participating provider of medical care under any health plan contracted for under section 1079 or 1086 of title 10, United States Code, or section 613 of title 38, United States Code, in accordance with admission practices, payment methodology, and amounts as prescribed under joint regulations issued by the Secretaries of Defense, Health and Human Services, and Transportation in implementation of sections 1079 and 1086 of title 10, United States Code, and under regulations issued by the Administrator of Veterans' Affairs in implementation of section 613 of title 38, United States Code.".

(b) EFFECTIVE DATE.—The amendments made by subsection (a) shall take effect on October 1, 1986, and shall apply to inpatient admissions at hospitals subject to section 1866(a)(1) of the Social Security Act (42 U.S.C. 1395cc(a)(1)) (as amended by subsection (a) of this section) that occur on and after such date.

TITLE III—COMMITTEE ON BANKING, HOUSING, AND URBAN AFFAIRS

TABLE OF SECTIONS

Sec. 301. Short title.
Sec. 302. Purchase of CDBG guaranteed obligations by the Federal Financing Bank.
Sec. 303. Public housing operating subsidies.
Sec. 304. Public and Indian housing financ-

ing reforms.
Sec. 305. Rural housing authorizations.
Sec. 306. Management of insured loans.
Sec. 307. Urban development action grants.

SHORT TITLE

SEC. 301. This title may be cited as the "Housing and Community Development Reconciliation Amendments of 1985".

PURCHASE OF CDBG GUARANTEED OBLIGATIONS BY THE FEDERAL FINANCING BANK

SEC. 302. (a) Section 108 of the Housing and Community Development Act of 1974 is amended by adding at the end thereof the following:

"(l) Notes or other obligations guaranteed under this section may not be purchased by the Federal Financing Bank.".

(b) The amendment made by paragraph (1) shall take effect on July 1, 1986.

(c) The Secretary of Housing and Urban Development shall take such administrative actions as are necessary to provide by the effective date of subsection (a) private sector financing of loans guaranteed under section 108 of the Housing and Community Development Act of 1974.

PUBLIC HOUSING OPERATING SUBSIDIES

SEC. 303. Section 9(c) of such Act is amended by striking out "and by" after "1983," and by inserting after "1984" the following ", and not to exceed $1,279,000,000 on or after October 1, 1985".

PUBLIC AND INDIAN HOUSING FINANCING REFORMS

SEC. 304. (a) Section 4 of the United States Housing Act of 1937 is amended by adding at the end thereof the following new subsection:

"(c)(1) On September 30, 1985, or the date of enactment of the Housing and Community Development Reconciliation Amendments of 1985, whichever is later, in accordance with such accounting and other procedures as the Secretary may prescribe, each loan made by the Secretary pursuant to subsection (a) that has any principal amount outstanding or any interest amount outstanding or accrued shall be forgiven; the terms and conditions of any contract, or any amendment to a contract, for such loan with respect to any promise to repay such principal and interest shall be canceled. This cancellation shall not affect any other terms and conditions of such contract, which shall remain in effect as if the cancellation had not occurred. This paragraph shall not apply to any loan, the repayment of which was not to be made using annual contributions, or to any loan, all or part of the proceeds of which are due a public housing agency from contractors or others.

"(2) On September 30, 1985, or on the date of enactment of the Housing and Community Development Reconciliation Amendments of 1985 into law, whichever is later, each note or other obligation issued by the Secretary to the Secretary of the Treasury pursuant to subsection (b), together with any promise to repay the principal and unpaid interest which has accrued on each obligation, is forgiven; and any other term or condition specified by each such obligation is canceled.

"(3) Nothing in paragraph (1) or (2) shall be construed to terminate the obligations of a public housing agency with respect to the management or operation of, or tenant eligibility for, units financed with the notes or obligations canceled earlier than such obligations would have terminated without such cancellation.".

RURAL HOUSING AUTHORIZATIONS

SEC. 305. (a) Section 513 of the Housing Act of 1949 is amended to read as follows:

"PROGRAM LEVELS AND AUTHORIZATIONS

"SEC. 513. (a)(1) The Secretary may insure and guarantee loans under this part during fiscal year 1986 in an aggregate amount not to exceed $2,027,180,000, of which—

"(A) $1,370,580,000 shall be for loans under section 502; and

"(B) $630,000,000 shall be for loans under section 515.

"(2) Notwithstanding any other provision of law, insured and guaranteed loan authority in this title for any fiscal year beginning after September 30, 1984, shall not be transferred or used for any purpose not specified in this part.

"(b) There are authorized to be appropriated for fiscal year 1986—

"(1) $13,000,000 for grants pursuant to section 504;

"(2) $1,000,000 for the purposes of section 509(c);

"(3) such sums as may be necessary to meet payments on notes or other obligations issued by the Secretary under section 511 equal to (A) the aggregate of the contributions made by the Secretary in the form of credits on principal due on loans made pursuant to section 503, and (B) the interest due on a similar sum represented by notes or other obligations issued by the Secretary;

"(4) $12,000,000 for financial assistance pursuant to section 516; and

"(5) $8,000,000 for the purposes of section 523.

"(c) The Secretary may enter into rental assistance contracts aggregating $240,200,000 under section 521(a)(2)(A) during fiscal year 1986.".

(b) Section 523(g) of the Housing Act of 1949 is amended—

(A) by striking out "$5,000,000" and inserting in lieu thereof "$700,000"; and

(B) by striking out "fiscal year 1985" and inserting in lieu thereof "fiscal year 1986".

MANAGEMENT OF INSURED LOANS

SEC. 306. (a) Section 517(d) of the Housing Act of 1949 is amended—

(1) by inserting "(1)" after the subsection designation; and

(2) by adding at the end thereof the following:

"(2) The Secretary shall, to the extent practicable, sell loans insured or guaranteed under this part to the public. Each loan made by the Secretary or other lender under this part that is insured in accordance with this subsection shall, when offered for sale to the public, be accompanied by an agreement by the Secretary to pay to the holder of such loan (through an agreement to purchase such loan or through such other means as the Secretary determines to be appropriate) the difference between the rate of interest paid by the borrower of such loan and the market rate of interest (as determined by the Secretary) on obligations having comparable periods to maturity on the date of such sale.

"(3) Each loan made by the Secretary or other lender under this part that is insured in accordance with this subsection shall, when offered for sale to the public, be accompanied by agreements for the benefit of the borrower under the loan that provide that—

"(A) the purchaser or any assignee of the loan shall not diminish any substantive or procedural right of the borrower arising under this part;

"(B) upon any substantial default of the borrower, but prior to foreclosure, the loan shall be assigned to the Secretary for the purpose of avoiding foreclosure; and

"(C) following any assignment under subparagraph (B) and before commencing any action to foreclose or otherwise dispossess the borrower, the Secretary shall afford the borrower all substantive and procedural rights arising under this part, including consideration for interest subsidy, moratorium, reamortization, refinancing, and appeal of any adverse decision to an impartial officer.

"(4) From the proceeds of loan sales under paragraph (2), the Secretary shall set aside as a reserve against future losses not less than 5 per centum of the outstanding face amount of the loans held by the public at any time.".

(b) Section 517(j) of the Housing Act of 1949 is amended—

(1) by striking out "and" at the end of paragraph (4);

(2) by striking out the period at the end of paragraph (5) and inserting in lieu thereof "; and"; and

(3) by adding at the end thereof the following new paragraph:

"(6) to make payments and take other actions in accordance with agreements entered into under paragraphs (2) and (3) of subsection (d).".

(c) Section 517 of the Housing Act of 1949 is amended by striking out subsection (n).

URBAN DEVELOPMENT ACTION GRANTS

SEC. 307. (a) Section 119(a) of the Housing and Community Development Act of 1974 is amended by striking out the last sentence and inserting in lieu thereof the following: "There are authorized to be appropriated to carry out the provisions of this section not to exceed $440,000,000 for each of the fiscal years 1984 and 1985, not to exceed $352,000,000 for fiscal year 1986, and not to exceed $366,000,000 for fiscal year 1987. Any amount appropriated under the preceding sentence shall remain available until expended.".

(b)(1) Section 119(d) of the Housing and Community Development Act of 1974 is amended—

(A) by indenting clauses (A) and (B) of paragraph (1);

(B) by striking out "as the primary criterion," in clause (A);

(C) by striking out clause (C) of paragraph (1) and inserting in lieu thereof the following:

"(C) at least the following other criteria:

"(i) the extent to which the grant will stimulate economic recovery by leveraging private investment;

"(ii) the number of permanent jobs to be created and their relation to the amount of grant funds requested;

"(iii) the proportion of permanent jobs accessible to lower income persons and minorities, including persons who are unemployed;

"(iv) the impact of the proposed activities on the fiscal base of the city or urban county and its relation to the amount of grant funds requested;

"(v) the extent to which State or local government funding or special economic incentives have been committed;

"(vi) the extent to which the project is located in the portion of the applicant city or urban county with the highest comparative degree of economic distress and the project will directly improve the quality of housing or employment opportunities for low and moderate income residents of that portion;

"(vii) the extent to which the project will produce goods or services the majority of

which can be expected to be exported from the applicant's economy; and

"(viii) to the extent the Secretary deems appropriate, the extent to which other Federal assistance is to be made available shall be considered in applying the criteria referred to in clauses (i), (ii), and (iv) of this subparagraph;

"(D) additional consideration for the extent to which the project, in the determination of the Secretary, would—

"(i) retain jobs which would be lost without the provision of a grant under this section; and

"(ii) relieve the applicant's most pressing employment or residential needs by—

"(I) reemploying workers in a skill that has recently suffered a sharp increase in unemployment locally,

"(II) retraining recently unemployed residents in new skills,

"(III) providing training to increase the local pool of skilled labor; or

"(IV) producing decent housing for low- and moderate-income persons in cases where such housing is in severe shortage in the applicant's area and where Federal assistance for production of such housing would not otherwise be available; and

"(E) additional consideration for projects with the following characteristics:

"(i) projects to be located within a city or urban county to which no grant under this section was made during the preceding twelve-month period; and

"(ii) twice the amount of the additional consideration provided under clause (i) in the case of a grant for projects to be located in cities or urban counties to which no grant under this section was made during the preceding twenty-four month period."; and

(D) by adding at the end thereof the following:

"(3) The Secretary may not award a grant under paragraph (1) unless he determines that the project would have a substantial impact on physical and economic development of the city or urban county, that the proposed activities are likely to be accomplished in a timely fashion within the grant amount available, and that the city or urban county has demonstrated performance in housing and community development programs.

"(4) The Secretary shall award points to each application as follows:

"(A) not more than 35 points on the basis of the factors referred to in subparagraph (A) of paragraph (1);

"(B) not more than 35 points on the basis of the factors referred to in subparagraph (B) of paragraph (1);

"(C) not more than 30 points on the basis of the factors referred to in subparagraph (C) of paragraph (1), of which not more than 3 points in the aggregate shall be awarded for the factors referred to in clauses (vi) and (vii) of subparagraph (C);

"(D) not more than 3 additional points as the Secretary deems appropriate for projects described in subparagraph (D) of paragraph (1); and

"(E) not more than 2 additional points as the Secretary deems appropriate for projects described in subparagraph (E) of paragraph (1).

"(5) The Secretary shall distribute grant funds under this section so that to the extent practicable during each funding cycle—

"(A) two-thirds of the funds are first made available utilizing all of the criteria set forth in paragraph (1); and

"(B) one-third of the funds is then made available solely on the basis of the factors referred to in subparagraphs (C), (D), and (E) of paragraph (1).".

(2) Notwithstanding any provision of section 119 of the Housing and Community Development Act of 1974, for purposes of funding decisions made before February 1, 1986, the Secretary of Housing and Urban Development shall give additional consideration, equal to the points otherwise awarded under clause (C) of paragraph (1) of section 119(d) of the Housing and Community Development Act of 1974, as amended by paragraph (1) of this subsection, in the case of a project to be located in a city or urban county to which no grant under section 119 of such Act was made during the preceding twenty-four month period if such project has met the criteria for preliminary approval in the three consecutive funding cycles immediately preceding the date of enactment of this paragraph.

(3) The provisions of paragraphs (1)(E), (4)(E), and (5) of section 119(d) of the Housing and Community Development Act of 1974, as amended by paragraph (1) of this subsection, and the provisions of paragraph (2) of this subsection shall take effect on the date of enactment of this Act, except that in applying section 119(d)(5)(B) of such Act prior to the issuance of implementing regulations under the second sentence of this paragraph, the Secretary shall exclude those criteria for which regulations are required to be issued. The remainder of the amendments made by paragraph (1) shall take effect upon the issuance of implementing regulations, which the Secretary shall issue not later than four months after the date of enactment of this Act.

(4) Not later than March 15, 1986, the Secretary of Housing and Urban Development shall prepare and submit to the Congress a report evaluating the Urban Development Action Grant standards for eligibility and project selection under section 119 of the Housing and Community Development Act of 1974. Such report shall include an evaluation of the effect of those standards, taken individually and as a whole, in targeting eligibility on the Nation's economically most distressed cities and in stimulating the maximum economic development activity, as well as any legislative recommendations of the Secretary for improvement and the reasons for such recommendations.

(c) Section 119(f) of the Housing and Community Development Act of 1974 is amended by adding at the end thereof the following: "In any case where the project proposes the repayment to the applicant of the grant funds, such funds shall be made available by the applicant for economic development activities which are or would be eligible activities under this section or section 104. The applicant shall annually provide the Secretary with a statement of the projected receipt and use of repaid grant funds during the next year together with a report acceptable to the Secretary on the use of such funds during the most recent preceding full fiscal year of the applicant.".

(d) Section 119(n)(1) of the Housing and Community Development Act of 1974 is amended by adding at the end thereof the following: "Such term also includes the counties of Kauai, Maui, and Hawaii in the State of Hawaii, except that in the case of such counties grants shall be made only to assist projects that, in the determination of the Secretary, are located in and will improve the employment base of urban areas within such counties.".

(e) Section 119(r) of the Housing and Community Development Act of 1974 is amended by striking out "among programs" and inserting in lieu thereof "against projects".

TITLE IV—COMMITTEE ON COMMERCE, SCIENCE, AND TRANSPORTATION

LOCAL RAIL SERVICE ASSISTANCE

SEC. 401. Notwithstanding any other provision of law, no appropriation shall be made for purposes of section 5 (f) through (p) of the Department of Transportation Act (49 App. U.S.C. 1654 (f) through (p)) which, for the fiscal year ending September 30, 1986, is in excess of $11,800,000; for the fiscal year ending September 30, 1987, is in excess of $12,200,000; and for the fiscal year ending September 30, 1988, is in excess of $12,800,000.

NATIONAL RAILROAD PASSENGER CORPORATION

SEC. 402. Notwithstanding any other provision of law, no appropriation in excess of $582,000,000 for the fiscal year ending September 30, 1986, $606,100,000 for the fiscal year ending September 30, 1987, and $630,300,000 for the fiscal year ending September 30, 1988, shall be made for purposes of carrying out activities of the National Railroad Passenger Corporation under the Rail Passenger Service Act (45 U.S.C. 501 et seq.).

CORPORATION FOR PUBLIC BROADCASTING

SEC. 403. (a) Section 391 of the Communications Act of 1934 (47 U.S.C. 391) is amended—

(1) by striking "and" after "1983,"; and

(2) by inserting ", $24,000,000 for fiscal year 1986, $28,000,000 for fiscal year 1987, and $32,000,000 for fiscal year 1988," immediately after "1984,".

(b) Section 393 of the Communications Act of 1934 (47 U.S.C. 393) is amended—

(1) by striking subsection (c); and

(2) by redesignating subsection (d) as subsection (c).

(c)(1) Section 396(k)(1)(C) of the Communications Act of 1934 (47 U.S.C. 396(k)(1)(C)) is amended—

(A) by striking "and 1986" and inserting in lieu thereof "1986, 1987, 1988, 1989, and 1990";

(B) by striking "and" after "fiscal year 1985,"; and

(C) by inserting ", $200,000,000 for fiscal year 1987, $214,000,000 for fiscal year 1988, $238,000,000 for fiscal year 1989, and $254,000,000 for fiscal year 1990" immediately before the period at the end thereof.

(2) Section 396(k)(3)(A)(i)(II) of the Communications Act of 1934 (47 U.S.C. 396(k)(3)(A)(i)(II)) is amended by striking "research, training, technical assistance, engineering, instructional support, payment of interest on indebtedness,".

(d) Section 396(k) of the Communications Act of 1934 (47 U.S.C. 396(k)) is amended—

(1) by striking paragraph (8); and

(2) by redesignating paragraphs (9) and (10) as paragraphs (8) and (9), respectively.

FEDERAL COMMUNICATIONS COMMISSION

SEC. 404. (a)(1) Section 6 of the Communications Act of 1934 (47 U.S.C. 156) is amended to read as follows:

"AUTHORIZATION OF APPROPRIATIONS

"SEC. 6. There are authorized to be appropriated for the administration of this Act by the Commission $98,100,000 for fiscal year 1986 and $97,600,000 for fiscal year 1987, together with such sums as may be necessary for increases resulting from adjustments in salary, pay, retirement, other employee benefits required by law, and other nondiscre-

tionary costs, for each of the fiscal years 1986 and 1987.".

(2) The amendment made by paragraph (1) of this subsection shall apply with respect to fiscal years beginning after September 30, 1985.

(b) Section 4(g)(2) of the Communications Act of 1934 (47 U.S.C. 154(g)(2)) is amended—

(1) in subparagraph (D), by striking "1985" and inserting in lieu thereof "1987"; and

(2) by adding at the end thereof the following new subparagraph:

"(E) Funds which are received by the Commission as reimbursements under the provisions of this paragraph after the close of a fiscal year shall remain available for obligation.".

(c) Section 5(g) of the Communications Act of 1934 (47 U.S.C. 155(g)) is amended by striking "January 31" and inserting in lieu thereof "March 31".

(d) For provisions of law which, through relocation of the Fort Lauderdale, Florida, Monitoring Station of the Federal Communications Commission, reduce spending for fiscal year 1986 in satisfaction of the reconciliation requirements imposed by section 2(e) of S. Con. Res. 32 (99th Congress), see the material under the heading "FEDERAL COMMUNICATIONS COMMISSION" in the Supplemental Appropriations Act, 1985 (Public Law 99-88).

(e) The Communications Act of 1934 (47 U.S.C. 151 et seq.) is amended by inserting immediately after section 7 the following new section:

"CHARGES

"SEC. 8. (a) The Commission shall assess and collect charges listed in this subsection at the rates listed or at such modified rates as it shall establish pursuant to the provisions of subsection (b) of this section.

	c. Hearing Charge	6,000.00
	d. License Fee	
	(1) AM	325.00
	(2) FM	100.00
	e. Directional Antenna License Fee (AM only).	375.00
3.	FM/TV Translators and LPTV Stations (New & Major Change Construction Permits)	
	a. Application Fee	375.00
	b. License Fee	75.00
4.	Station Assignment and Transfer Fees	
	a. AM, FM and TV Commercial Stations	
	(1) Application Fee (Forms 314/315).	500.00
	(2) Application Fee (Form 316).	70.00
	b. FM/TV Translators & LPTV Stations.	75.00
5.	Auxiliary Services Major Actions—Application Fee.	75.00
6.	Renewals—All Services	30.00
7.	Cable Television Service	
	a. Cable Television Relay Service—Construction Permits, Assignments & Transfers, Renewals & Modifications.	135.00
	b. Cable Special Relief Petitions—Filing Fee.	700.00
8.	Direct Broadcast Satellite New & Major Change CPs	
	a. Application for Authorization to Construct a Direct Broadcast Satellite.	1,800.00
	b. Issuance of CP & Launch Authority.	17,500.00
	c. License to Operate Satellite.	500.00
	d. Hearing Charge	6,000.00
	COMMON CARRIER BUREAU	
1.	Domestic Public Land Mobile Stations (Base, Dispatch, Control & Repeater Stations)	
	a. New or Additional Facility Authorizations, Assignments & Transfers (Per transmitter/per station).	200.00
	b. Renewals and Minor Modifications (Per station).	20.00
	c. Air-Ground Individual License Renewals & Modifications.	20.00
2.	Cellular Systems	
	a. Initial Construction Permits & Major Modification Applications (Per cellular systems).	200.00
	b. Assignments & Transfers (Per station).	200.00
	c. Initial covering license (Per cellular system).	
	(1) Wireline carrier	525.00
	(2) Nonwireline carrier.	50.00
	d. Renewals	20.00
	e. Minor modifications and additional licenses.	50.00
3.	Rural Radio (Central Office, Interoffice or Relay Facilities)	
	a. Initial Construction Permit, Assignments & Transfers (Per transmitter).	90.00
	b. Renewals & Modifications (Per station).	20.00
4.	Offshore Radio Service	
	a. Initial Construction Permit, Assignments & Transfers (Per transmitter).	90.00
	b. Renewals & Modifications (Per station).	20.00
5.	Local Television or Point To Point Microwave Radio Service	
	a. Construction Permits, Modifications of Construction Permits, and Renewals of Licenses.	135.00
	b. Assignments & Transfers of Control (Per Station).	45.00
	c. Initial License for New Frequency.	135.00
6.	International Fixed Public Radio (Public & Control Stations)	
	a. Initial Construction Permits, Assignments & Transfers.	450.00
	b. Renewals & Modifications.	325.00
7.	Satellite Services	
	a. Transmit Earth Stations	
	(1) Initial Station Authorization.	1,350.00
	(2) Assignments & Transfers of Station Authorizations.	450.00
	(3) All Other Applications.	90.00
	b. Small Transmit/Receive Earth Stations (2 meters or less).	
	(1) Lead Authorization.	3,000.00
	(2) Routine Authorization.	30.00
	(3) All Other Applications.	90.00
	c. Receive Only Earth Stations.	
	(1) Initial Station Authorization.	200.00
	(2) All Other Applications.	90.00
	d. Applications For Authority To Construct a Space Station.	1,800.00
	e. Applications For Authority To Launch & Operate a Space Station.	18,000.00
	f. Satellite System Application.	
	(1) Initial Station Authorization.	5,000.00
	(2) Assignments & Transfers of Systems.	1,333.00
	(3) All Other Applications.	90.00
8.	Multipoint Distribution Service	
	a. Construction Permits, Renewals & Modifications of Construction Permits.	135.00
	b. Assignments & Transfers of Control (Per Station).	45.00
	c. Initial License (per channel).	400.00
9.	Section 214 Applications	
	a. Applications for Overseas Cable Construction.	8,100.00
	b. Applications for Domestic Cable Construction.	540.00
	c. All Other 214 Applications.	540.00
10.	Tariff Filings	
	a. Filing Fee	250.00
	b. Special Permission Filings.	200.00
11.	Telephone Equipment Registration	135.00
12.	Digital Electronic Message Service	
	a. Construction Permits, Renewals & Modifications of Construction Permits.	135.00
	b. Assignments & Transfers of Control (Per Station).	45.00

Schedule of Charges—Continued

Service	Fee amount
c. Initial License (First License or License Adding a New Frequency).	135.00

The Schedule of Charges established by this subsection shall be implemented not later than 360 days after the date of enactment of this subsection.

"(b)(1) The Schedule of Charges established by this section shall be reviewed by the Commission every two years after the date of enactment of this section and adjusted by the Commission to reflect changes in the Consumer Price Index. Increases or decreases in charges shall apply to all categories of charges, except that individual fees shall not be adjusted until the increase or decrease, as determined by the net change in the Consumer Price Index since the date of enactment of this section, amounts to at least $5.00 in the case of fees under $100.00, or 5 percent in the case of fees of $100.00 or more. All fees which require adjustment will be rounded upward to the next $5.00 increment. The Commission shall transmit to the Congress notification of any such adjustment not later than 90 days before the effective date of such adjustment.

"(2) Increases or decreases in charges made pursuant to this subsection shall not be subject to judicial review.

"(c)(1) The Commission shall prescribe by regulation an additional charge which shall be assessed as a penalty for late payment of charges required by subsection (a) of this section. Such penalty shall be 25 percent of the amount of the charge which was not paid in a timely manner.

"(2) The Commission may dismiss any application or other filing for failure to pay in a timely manner any charge or penalty under this section.

"(d)(1) The charges established in this section shall not be applicable to the following radio services: Local Government, Police, Fire, Highway Maintenance, Forestry-Conservation, Public Safety, and Special Emergency Radio, or to governmental entities licensed in other services.

"(2) The Commission may waive or defer payment of a charge in any specific instance for good cause shown, where such action would promote the public interest.

"(e) Moneys received from charges established in or prescribed pursuant to this section shall be deposited in the general fund of the Treasury to reimburse the United States for amounts appropriated for use by the Commission in carrying out its functions under this Act.

"(f) The Commission shall prescribe appropriate rules and regulations to carry out the provisions of this section.".

CONSTRUCTION-DIFFERENTIAL SUBSIDY

SEC. 405. For provisions of law which, through repayment of construction-differential subsidies made for the purpose of assisting the construction of certain new vessels, reduce spending for fiscal year 1986 in an amount not to exceed $200,000,000 in satisfaction of the reconciliation requirements imposed by section 2(e) of S. Con. Res. 32 (99th Congress), see sections 204(b), 207, 506 and 714 of the Merchant Marine Act, 1936 (46 App. U.S.C. 1114(b), 1117, 1156 and 1204, respectively), and regulations promulgated pursuant to such sections.

NATIONAL OCEANIC AND ATMOSPHERIC ADMINISTRATION

SEC. 406. (a) There are authorized to be appropriated to the Department of Commerce to enable the National Oceanic and Atmospheric Administration to carry out its executive direction and administration duties under law, $47,954,000 for fiscal year 1986 and $50,111,930 for fiscal year 1987. Moneys appropriated pursuant to this authorization shall be used to fund those duties relating to executive direction and administration specified by the Act entitled "An Act to clarify the status and benefits of commissioned officers of the National Oceanic and Atmospheric Administration, and for other purposes", approved December 31, 1970 (33 U.S.C. 857-1 et seq.), and any other law involving such duties. Such duties include management, administrative support, retired pay of National Oceanic and Atmospheric Administration commissioned officers, and policy development.

(b) There are authorized to be appropriated to the Department of Commerce to enable the National Oceanic and Atmospheric Administration to carry out its marine services duties under law, $64,886,000 for fiscal year 1986 and $67,805,870 for fiscal year 1987. Moneys appropriated pursuant to this authorization shall be used to fund those duties relating to marine services specified by the Act entitled "An Act to define the functions and duties of the Coast and Geodetic Survey, and for other purposes", approved August 6, 1947 (33 U.S.C. 883a et seq.), and any other law involving such duties. Such duties include ship operations, maintenance, and support.

(c) There are authorized to be appropriated to the Department of Commerce to enable the National Oceanic and Atmospheric Administration to carry out its aircraft services duties under law, $12,744,000 for fiscal year 1986 and $13,317,480 for fiscal year 1987. Moneys appropriated pursuant to this authorization shall be used to fund those duties relating to aircraft services specified by the Act entitled "An Act to increase the efficiency and reduce the expenses of the Signal Corps of the Army, and to transfer the Weather Service to the Department of Agriculture", approved October 1, 1890 (15 U.S.C. 311 et seq.), and any other law involving such duties. Such duties include aircraft operations, maintenance, and support.

(d) For the purpose of enabling the National Oceanic and Atmospheric Administration to carry out its duties under the National Advisory Committee on Oceans and Atmosphere Act of 1977 (33 U.S.C. 857-13 et seq.), there are authorized to be appropriated to the Department of Commerce $630,000 for fiscal year 1986 and $658,350 for fiscal year 1987.

(e) There are authorized to be appropriated to the Department of Commerce to enable the National Oceanic and Atmospheric Administration to carry out its programs at current levels such sums as may be necessary to accommodate salary, pay, and other employee benefits authorized by law for fiscal years 1986 and 1987.

(f) For the purpose of enabling the National Oceanic and Atmospheric Administration to carry out its duties under title II of the Marine Protection, Research, and Sanctuaries Act of 1972 (33 U.S.C. 1441 et seq.), there are authorized to be appropriated to the Department of Commerce $10,635,000 for fiscal year 1986 and $11,113,575 for fiscal year 1987.

(g) For the purpose of enabling the National Oceanic and Atmospheric Administration to carry out its duties under the National Ocean Pollution Planning Act of 1978 (33 U.S.C. 1701 et seq.), there are authorized to be appropriated to the Department of Commerce $3,571,000 for fiscal year 1986 and $3,731,695 for fiscal year 1987.

(h)(1) There are authorized to be appropriated to the Department of Commerce to enable the National Oceanic and Atmospheric Administration to carry out its nonliving marine resource duties under law, $2,000,000 for fiscal year 1986 and $2,090,000 for fiscal year 1987. Moneys appropriated pursuant to this authorization shall be used to fund those duties relating to nonliving marine resources specified by the Act entitled "An Act to define the functions and duties of the Coast and Geodetic Survey, and for other purposes", approved August 6, 1947 (33 U.S.C. 883a et seq.), and any other law involving such duties. Such duties include research, development, and licensing responsibilities pertaining to ocean thermal energy conversion and the seabed mining of manganese nodules, and polymetallic sulfide analyses and research.

(2) The authorization provided for under paragraph (1) of this subsection shall be in addition to moneys authorized under the Deep Seabed Hard Minerals Resources Act (30 U.S.C. 1401 et seq.), and the Ocean Thermal Energy Conversion Act of 1980 (42 U.S.C. 9101 et seq.), for the purpose of carrying out such duties relating to nonliving marine resources.

(i)(1) There are authorized to be appropriated to the Department of Commerce to enable the National Oceanic and Atmospheric Administration to carry out its ocean research duties under law, $28,471,000 for fiscal year 1986 and $29,752,195 for fiscal year 1987. Moneys appropriated pursuant to this authorization shall be used to fund those duties relating to ocean research specified by the Act entitled "An Act to define the functions and duties of the Coast and Geodetic Survey, and for other purposes", approved August 6, 1947 (33 U.S.C. 883a et seq.), and any other law involving such duties. Such duties include undersea marine resources, air-sea interaction, and ocean and Great Lakes environmental research.

(2) The authorization provided for under paragraph (1) of this subsection shall be in addition to ocean research moneys authorized under the National Ocean Pollution Planning Act of 1978 (33 U.S.C. 1701 et seq.) for the purpose of carrying out such duties relating to ocean research.

(j)(1) There are authorized to be appropriated to the Department of Commerce to enable the National Oceanic and Atmospheric Administration to carry out its ocean service duties under law, $20,314,000 for fiscal year 1986 and $21,228,130 for fiscal year 1987. Moneys appropriated pursuant to this authorization shall be used to fund those duties relating to ocean services specified by the Act entitled "An Act to define the functions and duties of the Coast and Geodetic Survey, and for other purposes", approved August 6, 1947 (33 U.S.C. 883a et seq.), and any other law involving such duties. Such duties include coordination of interagency research in ocean dumping and marine pollution, and provision of tide and current data for the safe and efficient use of the oceans and Great Lakes by government, commerce, and the private sector.

(2) The authorization provided for under paragraph (1) of this subsection shall be in addition to moneys authorized under the

Marine Protection, Research, and Sanctuaries Act of 1972 (33 U.S.C. 1441 et seq.), the Coastal Zone Management Act of 1972 (16 U.S.C. 1451 et seq.), and the National Ocean Pollution Planning Act of 1978 (33 U.S.C. 1701 et seq.), for the purpose of carrying out such duties relating to ocean services.

(k)(1) There are authorized to be appropriated to the Department of Commerce to enable the National Oceanic and Atmospheric Administration to carry out its mapping, charting, and geodesy duties under law, $50,474,000 for fiscal year 1986 and $52,745,330 for fiscal year 1987. Moneys appropriated pursuant to this authorization shall be used to fund those duties relating to mapping, charting, and geodesy specified by the Act entitled "An Act to define the functions and duties of the Coast and Geodetic Survey, and for other purposes", approved August 6, 1947 (33 U.S.C. 883a et seq.), and any other law involving such duties. Such duties include aeronautical and nautical mapping and charting activities, and geodetic data collection and analysis.

(2) Section 1307 of title 44, United States Code, is amended to read as follows:

"§ 1307. National Oceanic and Atmospheric Administration: charts, sale and distribution

"(a)(1) All aeronautical and nautical charts, tide and tidal current tables, tidal current charts, coast pilots, water level products and associated data bases (nautical and aeronautical products) created or published by the National Oceanic and Atmospheric Administration shall be sold at such prices as the Secretary of Commerce shall establish annually, in accordance with the provisions of this subsection. The Secretary shall publish annually the prices at which nautical and aeronautical products are sold to the public.

"(2)(A) Subject to subparagraph (B) of this paragraph, the prices of nautical and aeronautical products may be increased over a period of not less than three years after the date of enactment of this section so as to recover all costs attributable to data base management, compilation, printing, and distribution of such products. The prices of such products may be maintained to recover all such costs thereafter. At the end of such period and every three years thereafter, the Secretary shall report to the Congress on the effect of imposing or maintaining such increased prices, including any impact on air and marine safety.

"(B) The Secretary shall adjust the prices of nautical or aeronautical products in such manner as is necessary to avoid any adverse impact on air and marine safety attributable to the prices specified in subparagraph (A) of this paragraph.

"(3) This section shall not be construed to require the establishment of any price for a nautical or aeronautical product where, in the judgment of the Secretary, furnishing of that product to a recipient is a reasonable exchange for voluntary contribution of information by the recipient to a program of the National Oceanic and Atmospheric Administration.

"(b) Fees collected from the sale of nautical or aeronautical products under this section and from any licensing of such products which is permitted under any other provision of law shall be deposited in the miscellaneous receipts fund of the United States Treasury.

"(c) The Secretary may distribute nautical and aeronautical products—

"(1) without charge to each foreign government or international organization with which the Secretary or a Federal department or agency has an agreement for exchange of these products without cost; and

"(2) at prices which the Secretary establishes, to the departments and officers of the United States requiring them for official use.

"(d) The fees provided for in this section are for the purpose of reimbursing the United States Government for the costs of creating, publishing or distributing aeronautical and nautical products of the National Oceanic and Atmospheric Administration. The collection of fees authorized by this section shall not alter or expand any duty or liability of the United States under existing law for the performance of functions for which fees are collected, nor shall the collection of fees constitute an express or implied undertaking by the United States to perform any activity in a certain manner.".

(3) The item relating to section 1307 in the analysis of chapter 13 of title 44, United States Code, is amended to read as follows:

"1307. National Oceanic and Atmospheric Administration: charts, sale and distribution.".

MARITIME PROGRAMS

SEC. 407. (a) Funds are authorized to be appropriated without fiscal year limitation as the appropriation Act may provide for the use of the Department of Transportation for fiscal year 1986 as follows:

(1) for payment of obligations incurred for operating-differential subsidy, not to exceed $335,084,000;

(2) for expenses necessary for research and development activities, not to exceed $9,900,000; and

(3) for expenses necessary for operations and training activities, not to exceed $71,967,000, including not to exceed—

(A) $34,847,000 for maritime education and training expenses, including not to exceed $19,633,000 for maritime training at the Merchant Marine Academy at Kings Point, New York, $10,915,000 for financial assistance to State maritime academies, $3,000,000 for fuel oil assistance to State maritime academy training vessels, and $1,299,000 for expenses necessary for additional training;

(B) $9,277,000 for national security support capabilities, including not to exceed $7,932,000 for reserve fleet expenses, and $1,345,000 for emergency planning/operations; and

(C) $27,843,000 for other operations and training expenses.

(b) Funds are authorized to be appropriated for the use of the Federal Maritime Commission, in the amount of $11,940,000 for fiscal year 1986.

(c) Section 2342(3) of title 28, United States Code, is amended to read as follows:

"(3) all final orders of the Federal Maritime Commission entered under title 46, United States Code;".

UNITED STATES TRAVEL AND TOURISM ADMINISTRATION

SEC. 408. Section 304 of the International Travel Act of 1961 (22 U.S.C. 2126) is amended by inserting immediately after "1982" the following: ", not to exceed $12,000,000 for the fiscal year ending September 30, 1986, not to exceed $13,000,000 for the fiscal year ending September 30, 1987, and not to exceed $14,000,000 for the fiscal year ending September 30, 1988".

TITLE V—COMMITTEE ON ENERGY AND NATURAL RESOURCES

Subtitle A—Department of Energy Programs

PART 1—STRATEGIC PETROLEUM RESERVE

AUTHORIZATIONS OF APPROPRIATIONS FOR FISCAL YEARS 1986, 1987, AND 1988

SEC. 501. Funds are hereby authorized to be appropriated in accordance with section 660 of the Department of Energy Organization Act for operating expenses for the Strategic Petroleum Reserve—

(1) to carry out part B of title I of the Energy Policy and Conservation Act, except acquisition, transportation, and injection of petroleum products for the Reserve and the carrying out of any drawdown and distribution of the Reserve—

(A) for the fiscal year ending September 30, 1986, $135,912,000;

(B) for the fiscal year ending September 30, 1987, $358,996,000; and

(C) for the fiscal year ending September 30, 1988, $156,692,000; and

(2) for the acquisition, transportation, and injection of petroleum products for the Reserve and the carrying out of any drawdown and distribution of the Reserve—

(A) for the fiscal year ending September 30, 1986, $357,548,000;

(B) for the fiscal year ending September 30, 1987, $333,695,000; and

(C) for the fiscal year ending September 30, 1988, $357,454,000.

CONFORMING AMENDMENTS

SEC. 502. (a) Section 160(c) of the Energy Policy and Conservation Act, as amended (42 U.S.C. 6240), is amended by adding the following new paragraph as follows:

"(3) Notwithstanding paragraph (2), during each of fiscal years 1986, 1987 and 1988, the President shall immediately seek to undertake, and thereafter continue, petroleum acquisition, transportation, and injection activities at a level sufficient to assure a minimum average annual fill-rate of 35,000 barrels per day.".

(b) Section 160(d)(1) of the Energy Policy and Conservation Act (42 U.S.C. 6240), is amended by—

(1) replacing the period with a semicolon and the word "or" and adding the following new subparagraph:

"(D) for each of the fiscal years 1986, 1987 and 1988, acquisition, transportation, and injection activities for the Strategic Petroleum Reserve are being undertaken for that fiscal year at a level sufficient to assure that petroleum products in storage in the Strategic Petroleum Reserve will be increased at an average annual rate of at least 35,000 barrels per day for that fiscal year.".

PART 2—URANIUM ENRICHMENT PROGRAM

AUTHORIZATION OF APPROPRIATIONS

SEC. 521. (a) In accordance with section 660 of the Department of Energy Organization Act (42 U.S.C. 7270), there is authorized to be appropriated to the Department of Energy for each of fiscal years 1986, 1987, and 1988 to carry out uranium enrichment activities amounts equal to the revenues to be received during each such fiscal year by the Department of Energy in providing uranium and enrichment service activities, as estimated in the applicable budget submitted by the President to the Congress for such fiscal year.

(b) In partial repayment of amounts appropriated from the general fund of the Treasury of the United States for uranium enrichment service activities, the Secretary

of Energy shall deposit in the general fund any revenues in excess of expenditures in the provision of such activities over the three-year period referred to in subsection (a).

URANIUM ENRICHMENT REPORT

SEC. 522. The Secretary of Energy shall report within 60 days after the date of the enactment of this section to the Committee on Energy and Natural Resources of the Senate and the Committees on Energy and Commerce and on Interior and Insular Affairs of the House of Representatives regarding the effects of the September 19, 1985 decision of the U.S. District Court for the District of Colorado holding that the Department's Utility Services Uranium Enrichment Contracts are null and void (Western Nuclear Inc. v. F. Clark Huffman, Civil No. 84-C-2315). To the extent that it would not compromise the appeals process or DOE's competitive position in uranium enrichment, the report shall identify what the effects, if any, of the decision will be (1) on the operation of the Department's uranium enrichment facilities, (2) on the revenues of the uranium enrichment program, and (3) how the Department's response may mitigate these effects.

PART 3—ENERGY CONSERVATION

SEC. 523. This Part may be cited as the "Federal Energy Cost Reduction Act of 1985."

SEC. 524. Part 3 of title V of the National Energy Conservation Policy Act (P.L. 95-619) is amended by adding a new section after section 551 to read as follows:

"SEC. 552. ENERGY SAVINGS CONTRACTS.

"(a) Notwithstanding any other law, the head of a Federal agency may contract for energy savings for periods of not more than 25 years. As used in this section "energy savings" means a reduction in the energy consumption or in energy-related costs of an existing building or community of buildings caused by new equipment or supplies, altered operation and maintenance, technical services, or other means or the increased efficient use of existing energy sources by cogeneration, heat recovery, or other means.

"(b) The costs of contracts authorized under this section for any year may be paid from moneys made available for utility costs and related operations and maintenance costs.

"(c) In the event funds are not made available for the continuance of a contract authorized by this section for a subsequent fiscal year, the contract shall be cancelled or terminated and the costs of cancellation or termination may be paid from—

"(1) funds appropriated for the performance of the contract concerned;

"(2) appropriated funds otherwise available for the payment of those costs; or

"(3) funds appropriated for those costs.

"(d) The Secretary's annual report under section 550 and the information each Federal agency is required to furnish to the Secretary under section 550 shall include:

"(1) a description of the progress made in conforming to this section the regulations applicable to each Federal agency so as to permit contracts for energy savings, and

"(2) a description of each Federal agency's progress in the use of such contracts.".

PART 4—FEDERAL ENERGY REGULATORY COMMISSION

PROHIBITION

SEC. 525. The Federal Energy Regulatory Commission may issue a final rule pursuant to its Notice of Proposed Rulemaking on Regulation of Natural Gas Pipelines After Partial Wellhead Decontrol (RM 85-1-000) only insofar as such rule is necessary to provide nondiscriminatory transportation. This section expires six months after the date of enactment of this Act.

Subtitle B—Department of the Interior Programs

SHORT TITLE

SEC. 531. This subtitle may be referred to as the "Outer Continental Shelf Lands Act Amendments of 1985".

REVISION OF SECTION 8(g)

SEC. 532. Delete paragraphs 8(g) (2) through (4) of the Outer Continental Shelf Lands Act, as amended (43 U.S.C. 1337(g)) and insert in lieu thereof—

"(2) Notwithstanding any other provision of this Act, the Secretary shall deposit into a separate account in the Treasury of the United States all bonuses, rents, and royalties derived from any lease of any Federal tract which lies wholly or partially within three nautical miles of the seaward boundary of any coastal State. Except as provided in paragraph (5), not later than the last business day of the month following the month in which those revenues are deposited in the Treasury, the Secretary shall transmit to such coastal State 27 percent of those revenues, together with all accrued interest thereon. The remaining balance of such revenues shall be transmitted simultaneously to the miscellaneous receipts account of the United States Treasury.

"(3) Whenever the Secretary or the Governor of a coastal State determines that a common potentially hydrocarbon-bearing area may underlie the Federal and State boundary, the Secretary or the Governor shall notify the other party in writing of his determination and the Secretary shall provide to the Governor notice of the current and projected status of the tract or tracts containing the common potentially hydrocarbon-bearing area. If the Secretary has leased or intends to lease such tract or tracts, the Secretary and the Governor of the coastal State may enter into an agreement to divide the revenues from production of any common potentially hydrocarbon-bearing area, by unitization or other royalty sharing agreement, pursuant to existing law. If the Secretary and the Governor do not enter into an agreement, the Secretary may nevertheless proceed with the leasing of the tract or tracts. Any revenues received by the United States under such an agreement shall be subject to the requirements of paragraph (2).

"(4) The deposits in the Treasury account described in this section shall be invested by the Secretary of the Treasury in securities backed by the full faith and credit of the United States having maturities suitable to the needs of the account and yielding the highest reasonably available interest rates as determined by the Secretary of the Treasury.

"(5)(A) When there is a boundary dispute between the United States and a State under section 7 of this Act, the Secretary shall credit to the account referred to in section 533 of the Outer Continental Shelf Lands Act Amendments of 1985 revenues from oil and gas lease sales in the area within three nautical miles of the boundary asserted by the State, if that money has not otherwise been deposited in the separate account established under section 7. Proceeds of the account established under section 7, and the account referred to in section 533 of the Outer Continental Shelf Lands Act Amendments of 1985 shall be distributed as follows:

"(i) If a State is wholly successful in its claim under section 7, such claim shall be satisfied by the money deposited in the escrow account established by section 7. Any excess monies in the section 7 account attributable to such State shall be transferred to the 8(g) account, and any monies due that State, both retrospectively and prospectively, as a result of the 8(g) zone created by the newly established boundary shall be distributed to the State in accordance with the terms of section 533 of the Outer Continental Shelf Lands Act Amendments of 1985.

"(ii) If the United States is wholly successful in its claim under section 7, the amount of money that is necessary to satisfy the State's share as set forth under section 533 of the Outer Continental Shelf Lands Act Amendments of 1985 shall be distributed from the revenues deposited in the section 7 escrow account. The amounts remaining after the distributions described in this subparagraph shall be paid to the United States pursuant to this section.

"(iii) If the United States or the affected State is partially successful in its claim under section 7, after the distribution under that result, the amount of money that is necessary to satisfy the State as set forth under section 533 of the Outer Continental Shelf Lands Act Amendments of 1985 shall be distributed first from the remaining monies in the section 7 escrow account, and then from the amounts deposited or credited in the account referred to in section 533 of the Outer Continental Shelf Lands Act Amendments of 1985. For amounts credited, the distribution shall be in accordance with clause (iv). The amounts remaining after the distributions described in this subparagraph shall be paid to the United States pursuant to this section.

"(iv) If there is insufficient money from the applicable oil and gas lease sales deposited in either the account established by section 7 or the account referred to in section 533 of the Outer Continental Shelf Lands Act Amendments of 1985, the recoupment provisions of section 535 of the Outer Continental Shelf Lands Act Amendments of 1985 shall be applicable.

"(B) This paragraph applies to all Federal oil and gas lease sales, under this Act, including joint lease sales, occurring after September 18, 1978.

"(6) This section shall be deemed to take effect on October 1, 1985, for purposes of determining the amounts to be deposited in the separate account and the States' shares described in paragraph (2).

"(7) When the Secretary leases any tract which lies wholly or partially within three miles of the seaward boundary of two or more States, the revenues from such tract shall be distributed as otherwise provided by this section, except that the State's share of such revenues that would otherwise result under this section shall be divided equally among such States.".

DISTRIBUTION OF 8(g) ACCOUNT

SEC. 533. (a) Prior to January 1, 1986, the Secretary shall distribute to the designated coastal States the sum of:

(1) The amounts due and payable to each such State under paragraph (2) of section 8(g) of the Outer Continental Shelf Lands Act, as amended by this Act, for the period between October 1, 1985, and the date of such distribution, and

(2) The amounts due each such State under subsection (b) for the period prior to October 1, 1985.

(b)(1) The funds which were deposited in the separate account in the Treasury of the United States under section 8(g)(4) of the Outer Continental Shelf Lands Act, as amended (43 U.S.C. 1337(g)(4)), as it was in effect prior to the date of enactment of Section 532 of this Act shall be distributed in the following manner as a fair and equitable disposition of such funds derived from bonuses and rents and accrued interest thereon through September 30, 1985:

State	(In millions of dollars)
Louisiana	635
Texas	424
California	375
Alabama	73
Alaska	46
Mississippi	15
Florida	0.03

(2) The Secretary shall distribute to each coastal State 27 percent of the royalties derived from any lease of Federal lands within three miles of the seaward boundary of such coastal State and accrued interest thereon which have been deposited through September 30, 1985, in the separate account described in paragraph (1), as a fair and equitable disposition of such royalties.

(3) The amounts derived from bonuses, rents and royalties and accrued interest thereon through September 30, 1985, remaining in the account after distribution to the States under this subsection shall be transmitted to the miscellaneous receipts account of the United States Treasury.

(c) The acceptance of payment under this section shall satisfy and release any and all claims against the United States arising under, or related to, section 8(g) of the Outer Continental Shelf Lands Act, as amended, as it was in effect prior to the date of enactment of Section 532 of this Act.

IMMOBILIZATION OF BOUNDARIES

SEC. 534. Section 2(b) of the Submerged Lands Act (43 U.S.C. 1301(b)) is amended by inserting before the semicolon at the end of the subsection add a comma and the following: "except that any boundary between a State and the United States under this Act which has been or is hereafter fixed by coordinates under a final decree of the United States Supreme Court shall remain immobilized at the coordinates provided under such decree and shall not be ambulatory.".

RECOUPMENT

SEC. 535. (a) As a fair and equitable disposition of revenues derived between September 18, 1978, and September 30, 1985, from all bonuses, rents, and royalties from any Federal leases within three miles of the seaward boundary of any coastal State, including all such revenues which should have been, but which were not, deposited in the separate account in the Treasury of the United States under section 8(g)(4) of the Outer Continental Shelf Lands Act, as amended (43 U.S.C. 1337(g)(4)) as it was in effect prior to the date of enactment of section 532 of this Act, such coastal State shall be entitled to an additional amount equal to:

(1) 27 percent of all bonuses, rents, and royalties derived from any lease of any Federal tract which lies wholly or partially within three nautical miles of the seaward boundary of such coastal State, less

(2) The amounts paid to such coastal State under section 533(b) of this Act.

(b) The additional amount due each State under subsection (a) shall be paid from a separate Treasury account which is constituted as set forth in subsection (c). The total amount contained in such account on the last business day of each month shall be paid to each State in an amount proportional to that State's share of the total additional amounts due to all States under subsection (a).

(c) Beginning on October 1, 1986, the Secretary shall deposit into the account described in subsection (b) from the separate account described in section 8(g)(2) of the Outer Continental Shelf Lands Act, as amended by this Act, 10 percent of all bonuses, rents, and royalties deposited after October 1, 1986, into the account described in such section 8(g)(2) until such time as the additional amounts due to all coastal States under subsection (a) have been paid.

TITLE VI—COMMITTEE ON ENVIRONMENT AND PUBLIC WORKS

OBLIGATION LIMITATION

SEC. 601. (a) Notwithstanding any other provisions of law, the total of all obligations for Federal-aid highways and highway safety construction programs shall not exceed $12,750,000,000 for fiscal year 1986, $13,250,000,000 for fiscal year 1987, and $13,800,000,000 for fiscal year 1988. These limitations shall not apply to obligations for emergency relief under section 125 of title 23, United States Code, obligations under section 157 of title 23, United States Code, projects covered under section 147 of the Surface Transportation Assistance Act of 1978, section 9 of the Federal-Aid Highway Act of 1981, section 118 of the National Visitors Center Facilities Act of 1968, or section 320 of title 23, United States Code.

(b) For the fiscal years 1986, 1987, and 1988, the Secretary of Transportation shall distribute the limitation imposed by subsection (a) by allocation in the ratio which sums authorized to be appropriated for Federal-aid highways and highway safety construction which are apportioned or allocated to each State for such fiscal years bears to the total of the sums authorized to be appropriated for Federal-aid highways and highway safety construction which are apportioned or allocated to all the States for such fiscal years.

(c) During the period October 1 through December 31, 1985, October 1 through December 31, 1986, and October 1 through December 31, 1987, no State shall obligate more than 35 per centum of the amount distributed to such State under subsection (b) for fiscal years 1986, 1987 and 1988 respectively, and the total of all State obligations during such period shall not exceed 25 per centum of the total amount distributed to all States under such subsection for such fiscal year.

(d) Notwithstanding subsections (b) and (c), the Secretary shall—

(1) provide all States with authority sufficient to prevent lapses of sums authorized to be appropriated for Federal-aid highways and highway safety construction which have been apportioned or allocated to a State, except in those instances in which a State indicates its intention to lapse sums apportioned under section 104(b)(5)(A) of title 23, United States Code;

(2) after August 1, 1986, August 1, 1987, and August 1, 1988, revise a distribution of the funds made available under subsection (b) for such fiscal year if a State will not obligate the amount distributed during such fiscal year and redistribute sufficient amounts to those States able to obligate amounts in addition to those previously distributed during such fiscal year giving priority to those States having large unobligated balances of funds apportioned under section 104 of title 23, United States Code, and giving priority to those States which, because of statutory changes made by the Surface Transportation Assistance Act of 1982 and the Federal-Aid Highway Act of 1981, have experienced substantial proportional reductions in their apportionments and allocations; and

(3) not distribute amounts authorized for administrative expenses and Federal lands highways.

TITLE VII—COMMITTEE ON FINANCE

TABLE OF CONTENTS

Subtitle A—Medicare

PART 1—PROVISIONS RELATING TO PART A OF MEDICARE

Subpart A—Hospital Reimbursement

Sec. 701. Rate of increase in payments for inpatient hospital services.
Sec. 702. Application of revised hospital wage index.
Sec. 703. Payments to hospitals for indirect costs of medical education.
Sec. 704. Adjustment of indirect costs of teaching hospitals related to outpatient activities.
Sec. 705. Payments for hospitals which serve a disproportionate share of low-income medicare patients.
Sec. 706. Payments to hospitals for direct costs of medical education.
Sec. 707. Continuation of medicare reimbursement waivers for certain hospitals participating in regional hospital reimbursement demonstrations.
Sec. 708. Continuation of hospital cost control systems for certain States.
Sec. 709. Valuation of assets for donations of State property to nonprofit corporations.
Sec. 710. Indirect teaching adjustment for certain clinics.
Sec. 711. Psychologists' services.

Subpart B—Provisions Relating to Benefits

Sec. 712. Extension and payment for hospice care.
Sec. 713. Moratorium on laboratory payment demonstration.
Sec. 714. Home health waiver of liability.
Sec. 715. Moratorium on implementation of home health payment regulations.
Sec. 716. Studies relating to physical therapists and other professionals.

PART 2—PROVISIONS RELATING TO PARTS A AND B OF MEDICARE

Sec. 717. Extension of working aged provision.
Sec. 718. Continuation of end stage renal disease networks.
Sec. 719. Extension of certain medicare municipal health services demonstration projects.
Sec. 720. Coverage of respiratory care services for ventilator-dependent individuals.
Sec. 721. Audit and medical claims review.
Sec. 722. Access to skilled nursing facilities.
Sec. 723. Charges by physicians for services billed to a health maintenance organization.
Sec. 724. Timely publication of payment rates for health maintenance organizations.

PART 3—PROVISIONS RELATING TO PART B OF MEDICARE

Sec. 725. Extension of physician fee freeze

for nonparticipating physicians and improvements in the participating physician program.
Sec. 726. Part B premium.
Sec. 727. Correction of inappropriate medicare reasonable charge determinations for hospital-based physicians.
Sec. 728. Payments for medical and other health services.
Sec. 729. Payment for assistants at surgery for certain cataract operations and other operations.
Sec. 730. Limitation on medicare payment for post-cataract surgery patients.
Sec. 731. Demonstration of preventive health services under medicare.
Sec. 732. Ambulatory surgery.

PART 4—MISCELLANEOUS MEDICARE PROVISIONS

Sec. 733. Extension of On Lok waiver.
Sec. 734. Additional members of Prospective Payment Assessment Commission.
Sec. 735. Removal of prohibition on comments by medicare and Social Security actuaries relating to economic assumptions.
Sec. 736. Extension of GAO reporting date.

PART 5—PEER REVIEW ORGANIZATIONS

Sec. 737. Health maintenance organization membership on peer review organization boards.
Sec. 738. Peer review organization reimbursement.
Sec. 739. Peer review organization review of health maintenance organizations.
Sec. 740. Substitute review pending termination of a peer review organization contract.
Sec. 741. Denial of payment for substandard care.

Subtitle B—Medicaid and Maternal and Child Health

PART 1—MEDICAID

Sec. 742. Services for pregnant women.
Sec. 743. Technology dependent children.
Sec. 744. Optional hospice care.
Sec. 745. Extension of Texas long-term care waiver.
Sec. 746. Third-party liability.
Sec. 747. Optional targeted case management services.
Sec. 748. Revaluation of assets under medicaid program.
Sec. 749. Beginning date of optional coverage for individuals in medical institutions.
Sec. 750. Optional coverage of children.
Sec. 751. Overpayment recovery rules.
Sec. 752. Waiver extensions for home and community-based services.
Sec. 753. Waiver renewals for home and community-based services.
Sec. 754. Coordinated services between MCH program and home and community-based service programs.
Sec. 755. Expansion of services under waiver authority.
Sec. 756. Life safety code recognition.
Sec. 757. Regulations for intermediate care facilities.
Sec. 758. Modifying application of medicaid HMO provisions for certain health centers.
Sec. 759. Annual calculation of Federal medical assistance percentage.
Sec. 759A. Use of sampling for review of mental hospitals, skilled nursing facilities, and intermediate care facilities.
Sec. 759B. Wisconsin health maintenance organization waiver.
Sec. 759C. Clarification of medicaid moratorium provisions of Deficit Reduction Act of 1984.
Sec. 759D. Home and community-based services demonstrations.
Sec. 759E. Participants under home and community-based service waivers.
Sec. 759F. New Jersey demonstration project relating to training of AFDC recipients as home health aides.
Sec. 759G. Intermediate care facility correction plans.

PART 2—MATERNAL AND CHILD HEALTH

Sec. 759H. Elimination of two-year limit for obligation of funds under maternal and child health block grant.
Sec. 759I. Children with special health care needs.

Subtitle C—OASDI

Sec. 760. Demonstration projects involving the disability insurance program.
Sec. 761. Disability Advisory Council.
Sec. 762. Taxation of social security benefits received by certain citizens of possessions of the United States.
Sec. 763. Application of dependency test to adopted great-grandchildren for purposes of child's insurance benefits.
Sec. 764. Elimination of requirement for publication of revisions in pre-1979 benefit table.
Sec. 765. Formula clarification.
Sec. 766. Extension of 15-month reentitlement period to childhood disability beneficiaries subsequently entitled.
Sec. 767. Charging of work deductions against auxiliary benefits in disability cases.
Sec. 768. Perfecting amendments to disability offset provision.
Sec. 769. State coverage agreements.
Sec. 769A. Effect of early delivery of benefit checks.
Sec. 769B. Preservation of benefit status for disabled widows and widowers who lost SSI benefits because of 1983 changes in actuarial reduction formula.
Sec. 769C. Exemption from social security coverage for retired Federal judges on active duty.
Sec. 769D. Recovery of overpayments.
Sec. 769E. Study of benefit formula notch.
Sec. 769F. General effective date.

Subtitle D—AFDC, SSI, Adoption Assistance, Foster Care, and Unemployment Compensation

Sec. 770. Quality control studies and penalty moratorium.
Sec. 771. AFDC automation requirements.
Sec. 772. Treatment of per capita payments to Indians.
Sec. 773. SSI passthrough relating to State supplementation.
Sec. 774. Provisions relating to medicaid coverage under the adoption assistance program.
Sec. 775. Extension of voluntary placement, and ceiling and trigger provisions, relating to foster care.
Sec. 776. Independent living initiatives.
Sec. 776A. Recovery of unemployment compensation overpayments.

Subtitle E—Customs Fees

Sec. 777. Fees for certain customs services.

Subtitle F—Trade Adjustment Assistance

Sec. 778. Short title.
Sec. 778A. Eligibility of workers and firms for trade adjustment assistance.
Sec. 778B. Cash assistance for workers.
Sec. 778C. Job training for workers.
Sec. 778D. Job search allowances.
Sec. 778E. Adjustment assistance for firms.
Sec. 778F. Termination of trade adjustment assistance.
Sec. 778G. Funding of trade adjustment assistance.
Sec. 778H. Imposition of small uniform duty on all imports.
Sec. 778I. Taxation of trade readjustment assistance.
Sec. 778J. Effective dates.

Subtitle G—Revenue Sharing

Sec. 779. Termination of general revenue sharing.

Subtitle H—Pension Benefit Guarantee Corporation

Sec. 779A. Increase in Pension Benefit Guarantee Corporation premiums for single employer plans.

Subtitle I—Revenue Provisions

Sec. 780. Short title; amendment of 1954 Code.

PART 1—INCOME TAX PROVISIONS

Sec. 781. Full-time students not eligible for income averaging.
Sec. 782. Employers required to provide certain employees and family members with continued health insurance coverage at group rates.
Sec. 783. Application of fringe benefit rules to airlines and their affiliates.
Sec. 784. Tax treatment of faculty housing.
Sec. 785. Certain insolvent taxpayers allowed to reduce capital gains preference item for purposes of the individual minimum tax.
Sec. 786. Treatment of certain pollution control bonds.
Sec. 787. Treatment of the netting of gains and losses by cooperatives.
Sec. 788. Allocation under section 861 of research and experimental expenditures.

PART 2—SUPERFUND

Sec. 789. Short title.
Sec. 789A. 5-year extension of tax on petroleum and certain chemicals; certain exemptions.
Sec. 789B. Imposition of Superfund excise tax.
Sec. 789C. Hazardous substance Superfund.
Sec. 789D. Repeal of post-closure tax and trust fund.
Sec. 789E. Industrial development bonds for hazardous waste treatment facilities.
Sec. 789F. Report on methods of funding Superfund.
Sec. 789G. Certain costs of private foundation in removing hazardous substances treated as qualifying distributions.

PART 3—TOBACCO PROVISIONS

Subpart A—Tobacco Products Excise Taxes

Sec. 790. Increase in tax on cigarettes made permanent.
Sec. 791. Tax on smokeless tobacco.

Subpart B—Tobacco Program Improvements
Sec. 792. Findings and purposes.
Sec. 792A. Price support adjustments.
Sec. 792B. Determination of marketing quotas for flue-cured and burley tobacco.
Sec. 792C. Marketing quota announcement date.
Sec. 792D. Reduction in excess tobacco not subject to marketing penalty.
Sec. 792E. Purchase requirements; penalty.
Sec. 792F. Assessments to no net cost funds or accounts.
Sec. 792G. Purchase of inventory stock.
Sec. 792H. Review of tobacco grading system and disaster crop designation.
Sec. 792I. Investment of tobacco inspection fees.
Sec. 792J. Effective date.
PART 4—EMPLOYMENT TAX PROVISIONS
Sec. 793. Medicare coverage of, and application of hospital insurance tax to, State and local governmental employment.
Sec. 794. Railroad unemployment insurance reform.
Sec. 795. Termination of repayable advances to Black Lung Disability trust fund.
Sec. 796. Certain permanent exemptions from the Federal Unemployment Tax Act.
PART 5—MISCELLANEOUS PROVISIONS
Sec. 797. Authorization of additional funds to Internal Revenue Service for revenue enforcement and related purposes.
Sec. 798. Limitation on issuance of United States bonds.
Sec. 799. Limitations on awarding of court costs and certain fees modified.
Sec. 799A. Additional customs personnel.

Subtitle A—Medicare

PART 1—PROVISIONS RELATING TO PART A OF MEDICARE

Subpart A—Hospital Reimbursement

SEC. 701. RATE OF INCREASE IN PAYMENTS FOR INPATIENT HOSPITAL SERVICES.

(a) APPLICABLE PERCENTAGE INCREASE.—Section 1886(b)(3)(B) of the Social Security Act is amended to read as follows:

"(B)(i) For purposes of subparagraph (A) and subsection (d), the 'applicable percentage increase' for any 12-month cost reporting period or fiscal year shall be—

"(I) 0.5 percent with respect to discharges occurring in any cost reporting period or fiscal year beginning on or after October 1, 1985, and before October 1, 1986;

"(II) a percentage determined by the Secretary pursuant to subsection (e)(4), but which does not exceed the 'market basket percentage increase', with respect to discharges occurring in any cost reporting period or fiscal year beginning on or after October 1, 1986, and before October 1, 1988; and

"(III) the percentage determined by the Secretary pursuant to subsection (e)(4) with respect to discharges occurring in any cost reporting period or fiscal year beginning on or after October 1, 1988.

"(ii) For purposes of clause (i), the term 'market basket percentage increase' means the percentage, estimated by the Secretary before the beginning of the period or year, by which the cost of the mix of goods and services (including personnel costs but excluding nonoperating costs) comprising routine, ancillary, and special care unit inpatient hospital services, based on an index of appropriately weighted indicators of changes in wages and prices which are representative of the mix of goods and services included in such inpatient hospital services, for such cost reporting period or fiscal year will exceed the cost of such mix of goods and services for the preceding 12-month cost reporting period or fiscal year.".

(b) CONFORMING AMENDMENTS.—(1) Section 1886(e) of such Act is amended by striking out "fiscal year 1986" each place it appears in paragraphs (2), (3), (4), and (5), and inserting in lieu thereof in each instance "fiscal year 1987".

(2) Section 1886(e)(3) of such Act is amended by striking out "(instead of the applicable percentage increase described in subsection (b)(3)(B))".

(c) EFFECTIVE DATE.—The amendments made by this section shall apply to discharges occurring in any cost reporting period or fiscal year beginning on or after October 1, 1985.

SEC. 702. APPLICATION OF REVISED HOSPITAL WAGE INDEX.

(a) APPLICATION OF REVISED INDEX PROSPECTIVELY.—Section 2316(b) of the Deficit Reduction Act of 1984 is amended to read as follows:

"(b) The Secretary shall adjust the payment amounts for hospitals for discharges occurring during fiscal year 1986 to reflect the changes the Secretary has promulgated in final regulations (on September 3, 1985) relating to the hospital wage index under section 1886(d)(3)(E) of the Social Security Act, as that provision relates to the use of total gross hospital wages. For discharges occurring after September 30, 1986, the Secretary shall provide for such periodic adjustments in the appropriate wage index used under that section as may be necessary, taking into account changes in the wage differences of full-time and part-time workers.".

(b) EFFECTIVE DATE.—The amendment made by this section shall be effective as if it had been included in the Deficit Reduction Act of 1984.

SEC. 703. PAYMENTS TO HOSPITALS FOR INDIRECT COSTS OF MEDICAL EDUCATION.

(a) PAYMENT FOR INDIRECT COSTS OF MEDICAL EDUCATION.—Section 1886(d)(5)(B) of the Social Security Act is amended to read as follows:

"(B) Effective with respect to discharges occurring on or after October 1, 1985, the Secretary shall provide for an additional payment amount for subsection (d) hospitals with indirect costs of medical education, in an amount computed in the same manner as the adjustment for such costs under regulations (in effect as of January 1, 1983) under subsection (a)(2), except as follows:

"(i) The amount of such additional payment shall be equal to the DRG payment multiplied by an educational adjustment factor equal to—

"(I) in the case of discharges occurring on or after October 1, 1985, and before October 1, 1987, $((1+r)^{.467}-1)(1.67)$, and

"(II) in the case of discharges occurring on or after October 1, 1987, $((1+r)^{.5795}-1)(1.50)$,

with r being the ratio of interns and residents to beds.

"(ii) In determining such adjustment the Secretary shall not distinguish between those interns and residents who are employees of a hospital and those interns and residents who furnish services to a hospital but are not employees of such hospital.

"(iii) Effective on and after July 1, 1986, such additional payments shall not be made with respect to any intern or resident whose costs are not recognized as reasonable by reason of clauses (ii), (iii), and (iv) of section 1861(v)(1)(P).".

(b) EFFECTIVE DATE.—The amendment made by this section shall apply to discharges occurring on or after October 1, 1985.

SEC. 704. ADJUSTMENT FOR INDIRECT COSTS OF TEACHING HOSPITALS RELATED TO OUTPATIENT ACTIVITIES.

(a) INCLUSION OF OUTPATIENT ACTIVITIES.—Section 1886(d)(5)(B) of the Social Security Act (as amended by section 703 of this Act) is further amended by adding at the end thereof the following new clause:

"(iv) The Secretary shall continue to count interns and residents-in-training assigned to outpatient services of the hospital as part of the calculation of the full-time equivalent number of interns and residents-in-training.".

(b) EFFECTIVE DATE.—The amendment made by this section shall become effective on October 1, 1985.

SEC. 705. PAYMENTS FOR HOSPITALS WHICH SERVE A DISPROPORTIONATE SHARE OF LOW-INCOME MEDICARE PATIENTS.

(a) PAYMENT FOR HOSPITALS WHICH SERVE A DISPROPORTIONATE SHARE OF LOW-INCOME MEDICARE PATIENTS.—Section 1886(d)(5) of the Social Security Act is amended by adding at the end thereof the following new subparagraph:

"(F)(i) For fiscal years 1986 and 1987, the Secretary shall provide for an additional payment amount for subsection (d) hospitals which serve a significantly disproportionate number of low-income patients entitled to benefits under part A of this title.

"(ii) A payment under this subparagraph for a fiscal year shall be made to any hospital described in clause (i) which—

"(I) has 100 or more beds, and for which, for such fiscal year, the percentage determined under clause (iii) is 15 percent or greater, or

"(II) has fewer than 100 beds, and for which, for such fiscal year, the percentage determined under clause (iii) is 55 percent or greater.

"(iii) The percentage for a hospital is the fraction (expressed as a percentage), the numerator of which is the number of such hospital's patient days for such fiscal year which were made up of patients who (for such days) were entitled to benefits under part A of this title and were entitled to supplementary security income benefits (excluding any State supplementation) under title XVI of this Act, and the denominator of which is the number of such hospital's patient days for such fiscal year which were made up of patients who (for such days) were entitled to benefits under part A of this title.

"(iv) The amount of the additional payment under this subparagraph for each of the fiscal years 1986 and 1987 shall be equal to a percentage of the hospital's DRG payment, determined as follows: $((P-15)(.25))+2$, where P is the lesser of the hospital's percentage under clause (iii) or 55.".

(b) STATISTICAL FILE.—For purposes of implementing section 1886(d)(5)(F) of the Social Security Act, the Secretary of Health and Human Services shall, prior to October 1, 1986, develop for each State statistical files of individuals in such State who are eligible under both title XVIII of such Act and under title XVI of such Act (excluding any State supplementation). For purposes of establishing such files, any State having a

plan approved under title XIX of such Act shall provide to the Secretary any data necessary to carry out this subsection.

(c) RATES.—(1) For the 12-month period beginning on October 1, 1985, the Secretary of Health and Human Services shall make payments under section 1886(d)(5)(F) of the Social Security Act on the basis of rates developed on the basis of available historical data, such as data available from the Congressional Budget Office. In the case of any hospital where historical data is not available for purposes of determining such rates, the Secretary shall make such payments on the basis of historical data available with respect to similar hospitals in the same region.

(2) Any hospital may have payments under section 1886(d)(5)(F) of the Social Security Act made on the basis of data provided by such hospital if the hospital shows, and the Secretary agrees, that such data is more accurate than the data which would otherwise be used by the Secretary.

(d) CONFORMING AMENDMENT.—Section 1886(d)(5)(C)(i) of the Social Security Act is amended by striking out ", and of public or other hospitals that serve a significantly disproportionate number of patients who have low income or are entitled to benefits under part A of this title".

(e) PAPERWORK REDUCTION.—Chapter 35 of title 44, United States Code, shall not apply to information required for purposes of carrying out this section and the amendments made by this section.

(f) EFFECTIVE DATE.—The amendments made by this section shall become effective on October 1, 1985.

SEC. 706. PAYMENTS TO HOSPITALS FOR DIRECT COSTS OF MEDICAL EDUCATION.

(a) FREEZE AND LIMITATIONS.—Section 1861(v)(1) of the Social Security Act is amended by adding at the end thereof the following new subparagraph:

"(P) Payments relating to the direct costs of approved educational activities at hospitals shall be made in accordance with the regulations in effect on January 1, 1985, except as follows:

"(i) For a hospital's first cost accounting period which begins on or after July 1, 1985 (the freeze accounting period), the amount of such costs recognized as reasonable by the Secretary shall not exceed the amount so recognized with respect to such hospital for such hospital's most recent cost accounting period ending prior to October 1, 1985 (the base accounting period), disregarding any salary or wage increases, and any cost center shifting or reallocation, implemented after May 1, 1985. If a hospital's cost accounting periods do not begin on July 1, the Secretary shall increase the limit established under the preceding sentence by an appropriate factor to reflect general increases in the costs of approved educational activities which took place between the end of the hospital's base accounting period and the beginning of its freeze accounting period, disregarding any increases in salaries or wages after May 1, 1985.

"(ii)(I) Effective on and after July 1, 1986, the Secretary shall not recognize as reasonable any such costs incurred with respect to any intern or resident-in-training for years in training which exceed the lesser of—

"(a) five years, or

"(b) the minimum number of years of formal training necessary to satisfy the requirements (as specified in the 1985-1986 Directory of Residency Training Programs published by the Accreditation Council on Graduate Medical Education) for initial board eligibility in the particular specialty for which such intern or resident-in-training is preparing, or, after July 1, 1989, in the event that the required number of years in training increases, the number of years which the Secretary may specify, after consultation with the Accreditation Council on Graduate Medical Education.

"(II) Notwithstanding subclause (I), the Secretary may recognize costs incurred with respect to additional years of training of interns or residents-in-training who are participating in geriatric fellowship programs which meet such criteria as the Secretary may establish, and who began their participation in such programs prior to July 1, 1991.

"(iii) Effective on and after July 1, 1986, the Secretary shall not recognize as reasonable any such costs incurred with respect to any intern or resident who is not a graduate of a school of medicine accredited by the Liaison Committee on Medical Education of the American Medical Association and the Association of American Medical Colleges (or approved by such Committee as meeting the standards necessary for such accreditation), or of a school of osteopathy accredited by the American Osteopathic Association (or approved by such Association as meeting the standards necessary for such accreditation), or of a school of dentistry or podiatry which is accredited (or meets the standards for accreditation) by an organization recognized by the Secretary for such purpose; except that—

"(I) for the 12-month period beginning on July 1, 1986, there shall be included, on an average cost per intern and resident basis, a number of interns and residents equal to the lesser of—

"(a) two-thirds of the number of such hospital's interns and residents for such 12-month period who are not graduates of such a school but who began their formal training required for initial board eligibility in the specialty for which they are preparing prior to July 1, 1986, or

"(b) two-thirds of the number of interns and residents who are not graduates of such a school, but with respect to whom such hospital received payments under this subparagraph for the 12-month period beginning July 1, 1985; and

"(II) for the 12-month period beginning on July 1, 1987, there shall be included, on an average cost per intern and resident basis, a number of interns and residents equal to the lesser of—

"(a) one-third of the number of such hospital's interns and residents for such 12-month period who are not graduates of such a school but who began their formal training required for initial board eligibility in the specialty for which they are preparing prior to July 1, 1986, or

"(b) one-third of the number of interns and residents who are not graduates of such a school, but with respect to whom such hospital received payments under this subparagraph for the 12-month period beginning July 1, 1985.

"(iv) In the case of a hospital at which, on October 1, 1985, more than 50 percent of the interns and residents-in-training for which such hospital receives payments under this subparagraph are not graduates of a school described in clause (iii), the provisions of clause (iii)(I) shall apply for the 24-month period beginning on July 1, 1986, and the provisions of clause (iii)(II) shall apply to the 36-month period beginning on July 1, 1988.".

(b) STUDIES BY SECRETARY.—(1) The Secretary of Health and Human Services shall conduct a study with respect to approved educational activities relating to nursing and other health professions for which reimbursement is made to hospitals under title XVIII of the Social Security Act. The study shall address—

(A) the types and numbers of such programs, and number of students supported or trained under each program;

(B) the fiscal and administrative relationships between the hospitals involved and the schools with which the programs and students are affiliated; and

(C) the types and amounts of expenses of such programs for which reimbursement is made, and the financial and other contributions which accrue to the hospital as a consequence of having such programs.

The Secretary shall report the results of such study to the Congress prior to December 31, 1986.

(2) The Secretary shall conduct a separate study of the advisability of continuing the exemption under section 1861(v)(1)(P)(ii)(II) of the Social Security Act for geriatric fellowships, and of expanding such exemption to cover other educational activities, particularly those which are necessary to meet the projected health care needs of Medicare beneficiaries. Such study shall also examine the adequacy of the supply of faculty in the field of geriatrics. The Secretary shall report the results of such study to the Congress prior to July 1, 1990.

(c) GAO STUDY.—(1) The Comptroller General shall conduct a study of the difference between the amounts of payments made under title XVIII of the Social Security Act with respect to inpatients in teaching hospital settings and the amounts of such payments which are made with respect to comparable patients who are treated in a nonteaching hospital setting. Such study shall identify the components of such payments (including payments with respect to inpatient hospital services, physicians' services, and capital costs, and, in the case of teaching hospital patients, payments with respect to direct and indirect teaching costs) and shall account, to the extent feasible, for any differences between the amounts of the payment components in teaching and nonteaching settings.

(2) In carrying out such study, the Comptroller General may utilize a sample of teaching hospital patients and any other data sources which he deems appropriate, and shall, to the extent feasible, control for differences in severity of illness levels, area wage levels, levels of physician reasonable charges for like services and procedures, and for other factors which could affect the comparability of patients and of payments between teaching and nonteaching settings. The information obtained in the study shall be coordinated with the information obtained in conducting the study of teaching physicians' services under section 2307(c) of the Deficit Reduction Act of 1984.

(3) The Comptroller General shall report the results of the study to the Congress prior to December 31, 1986.

(d) PAPERWORK REDUCTION.—Chapter 35 of title 44, United States Code, shall not apply to information required for purposes of carrying out this section and the amendments made by this section.

SEC. 707. CONTINUATION OF MEDICARE REIMBURSEMENT WAIVERS FOR CERTAIN HOSPITALS PARTICIPATING IN REGIONAL HOSPITAL REIMBURSEMENT DEMONSTRATIONS.

(a) CONTINUATION OF WAIVERS.—A hospital reimbursement control system which, on January 1, 1985, was carrying out a demonstration under a contract which had been approved by the Secretary of Health and Human Services pursuant to section 222(a) of the Social Security Amendments of 1972 shall be deemed to meet the requirements of section 1886(c)(1)(A) of the Social Security Act if such system applies—

(1) to substantially all non-Federal acute care hospitals (as defined by the Secretary) in the geographic area served by such system on January 1, 1985, and

(2) to the review of at least 75 percent of—

(A) all revenues or expenses in such geographic area for inpatient hospital services, and

(B) revenues or expenses in such geographic area for inpatient hospital services provided under the State's plan approved under title XIX.

(b) APPROVAL.—The Secretary shall approve the request for a system under paragraph (1) of section 1886(c) of the Social Security Act with respect to a hospital cost control system if—

(1) the requirements of subparagraphs (B), (C), (D), and (E) of such paragraph are met with respect to the system; and

(2) the requirements of subparagraph (A) of such paragraph are met with respect to the geographic area served by such system by reason of subsection (a) of this section.

(c) EFFECTIVE DATE.—This section shall become effective on the date of the enactment of this Act, and shall continue to be effective with respect to a hospital cost control system for so long as such system continues to be approved pursuant to subsection (b).

SEC. 708. CONTINUATION OF HOSPITAL COST CONTROL SYSTEMS FOR CERTAIN STATES.

(a) CONTINUATION OF STATE SYSTEMS.—Section 1886(c) of the Social Security Act is amended by adding at the end thereof the following new paragraph:

"(7) If a State makes a request under paragraph (5) prior to December 31, 1984, for approval of a State hospital reimbursement control system, and such request is approved, the Secretary may not discontinue payments under the system pursuant to paragraph (3)(B) prior to July 1, 1986, for so long as such State is taking steps to assure that such State will meet the requirements of paragraph (1)(C) for the applicable 36-month period.".

(b) EFFECTIVE DATE.—The amendment made by this section shall become effective on the date of the enactment of this Act.

SEC. 709. ASSET VALUATION FOR DONATIONS OF STATE PROPERTY TO NONPROFIT CORPORATIONS.

(a) GENERAL RULE.—Section 1861(v)(1)(O) of the Social Security Act is amended—

(1) by inserting ", except as provided in clause (iv)," in clause (i) after "such regulations shall provide", and

(2) by adding at the end the following new clause:

"(iv) In the case of the transfer of a hospital from ownership by a State to ownership by a nonprofit corporation without monetary consideration, the basis for capital allowances to the new owner shall be the book value of the hospital to the State at the time of the transfer.".

(b) EFFECTIVE DATE.—The amendments made by subsection (a) shall be applied as though they were originally included in the Deficit Reduction Act of 1984.

SEC. 710. INDIRECT TEACHING ADJUSTMENT FOR CERTAIN CLINICS.

In the case of a hospital which is receiving payments under title XVIII of the Social Security Act pursuant to a waiver under section 602(k) of the Social Security Amendments of 1983, payment of the adjustment for indirect costs of approved educational activities shall be made as if such hospital were receiving under part A of such title all the payments which are made under part B of such title solely by reason of such waiver.

SEC. 711. PSYCHOLOGISTS' SERVICES.

(a) CLARIFICATION OF INCLUSION AS INPATIENT HOSPITAL SERVICE.—Section 1861(b)(3) of the Social Security Act is amended by inserting before the semicolon at the end thereof "(including the services of a clinical psychologist, as defined by the Secretary)".

(b) EFFECTIVE DATE.—The amendment made by this section shall become effective on the date of the enactment of this Act.

Subpart B—Benefits

SEC. 712. EXTENSION AND PAYMENT FOR HOSPICE CARE.

(a) ELIMINATION OF SUNSET.—Section 122(h)(1) of the Tax Equity and Fiscal Responsibility Act of 1982 is amended—

(1) in subparagraph (A)—

(A) by striking out "(h)(1)(A) Subject to subparagraph (B), the" and inserting in lieu thereof "(h)(1) The", and

(B) by striking out ", and before October 1, 1986", and

(2) by striking out subparagraph (B).

(b) INCREASE IN PAYMENT OF DAILY RATES FOR HOSPICE CARE FOR FISCAL YEAR 1986.—(1) Section 1814(i)(1)(B) of the Social Security Act is amended to read as follows:

"(B) Notwithstanding subparagraph (A), for hospice care furnished on or after October 1, 1985, the daily rate of payment per day for routine home care shall be $63.17 and the daily rate of payment for other services included in hospice care shall be the daily rate of payment recognized under subparagraph (A) as of July 1, 1985, increased by $10.".

(2) Section 1814(i)(1)(C) of such Act is amended by striking out "1985" and inserting in lieu thereof "1986".

SEC. 713. MORATORIUM ON LABORATORY PAYMENT DEMONSTRATION.

(a) MORATORIUM.—Prior to January 1, 1987, the Secretary of Health and Human Services shall not conduct any demonstration projects relating to competitive bidding as a method of purchasing laboratory services under title XVIII of the Social Security Act. The Secretary may contract for the design of, and site selection for, such demonstration projects.

(b) COOPERATION IN STUDY.—The Secretary of Health and Human Services and the Comptroller General shall cooperate with representatives of clinical laboratories in conducting a study to determine whether methods exist which are better than competitive bidding for purposes of utilizing competitive market forces in setting payment levels for laboratory services under title XVIII of the Social Security Act. If such a study is conducted, the Secretary and the Comptroller General shall comment on such study and submit such comments and the study to the Senate Committee on Finance and the House Committees on Ways and Means and Energy and Commerce.

SEC. 714. HOME HEALTH WAIVER OF LIABILITY.

The Secretary of Health and Human Services shall, for purposes of determining whether payments to a home health agency should be denied pursuant to section 1862(a)(1)(A) of the Social Security Act, apply a presumption of compliance (2.5 percent) in the same manner as under the regulations in effect as of July 1, 1985. Such presumption shall apply until 12 months after the date on which ten regional intermediaries have commenced operations to service home health agencies, as required under section 1816(e)(4) of the Social Security Act.

SEC. 715. MORATORIUM ON IMPLEMENTATION OF HOME HEALTH PAYMENT REGULATIONS.

The Secretary of Health and Human Services shall not, prior to July 1, 1986, implement the regulations issued effective July 1, 1985, with respect to payments for home health services under title XVIII of the Social Security Act.

SEC. 716. STUDIES RELATING TO PHYSICAL THERAPISTS AND OTHER PROFESSIONALS.

(a) SUPERVISION OF HOME HEALTH SERVICES.—The Secretary of Health and Human Services shall conduct a study of the advisability of changing the requirements of title XVIII of the Social Security Act to allow home health services to be provided under the supervision of a physical therapist or other health care professional, rather than requiring the supervision of a physician or registered nurse.

(b) OFFICE REQUIREMENT.—The Secretary of Health and Human Services shall conduct a study on the advisability of deleting the requirement under such title that a physical therapist must have an office equipped with specified equipment, even if such therapist provides all such services in patients' homes.

(c) REPORTS.—The Secretary shall report the results of the studies to the Congress prior to April 1, 1986.

PART 2—PROVISIONS RELATING TO PARTS A AND B OF MEDICARE

SEC. 717. EXTENSION OF WORKING AGED PROVISION.

(a) EXTENSION OF SECONDARY PAYOR STATUS BEYOND AGE 70.—(1) Section 1862(b)(3)(A)(i) of the Social Security Act is amended by striking out "to an individual who is under 70 years of age during any part of such month (or to the spouse of such individual, if the spouse is under 70 years of age during any part of such month) who is employed at the time such item or service is furnished" and inserting in lieu thereof "to an individual who is employed at the time such item or service is furnished, or to the spouse of such individual,".

(2) Section 1862(b)(3)(A)(iii) of such Act is amended by striking out "and ending with the month before the month in which such individual attains the age of 70".

(b) ENROLLMENT PERIOD.—(1) Section 1837(i)(3) of such Act is amended to read as follows:

"(3) The special enrollment period referred to in paragraphs (1) and (2) is the period beginning with the first day of the first month in which the individual is no longer enrolled in a group health plan described in section 1862(b)(3)(A)(iv) by reason of current employment and ending seven months later.".

(2) Section 1838(e) of such Act is amended to read as follows:

"(e) Notwithstanding subsection (a), in the case of an individual who enrolls during a special enrollment period pursuant to section 1837(i)(3)—

"(1) in the first month of the special enrollment period, the coverage period shall begin on the first day of that month, or

"(2) in a month after the first month of the special enrollment period, the coverage period shall begin on the first day of the month following the month in which he so enrolls.".

(c) AMENDMENTS TO AGE DISCRIMINATION IN EMPLOYMENT ACT.—(1) Section 4(g)(1) of the Age Discrimination in Employment Act of 1967 (29 U.S.C. 623(g)(1)) is amended by striking out "aged 65 through 69" each place it appears, and inserting in lieu thereof in each instance "aged 65 or older".

(2) Section 12 of such Act (29 U.S.C. 631) is amended by adding at the end thereof the following new subsection:

"(d) Section 4(g) shall apply to individuals who are at least 40 years of age.".

(3) Section 12(a) of such Act (29 U.S.C. 631(a)) is amended by striking out "The prohibitions" and inserting in lieu thereof "Except as otherwise provided in this section, the prohibitions".

(4) Section 4 of such Act (29 U.S.C. 623) is amended by redesignating the second subsection (g), added by section 802 of the Older Americans Act Amendments of 1984, as subsection (h).

(d) EFFECTIVE DATES.—(1) The amendments made by subsection (a) shall apply to items and services furnished on or after January 1, 1986.

(2) The amendments made by subsections (b) and (c) shall become effective on January 1, 1986.

SEC. 718. CONTINUATION OF END STAGE RENAL DISEASE NETWORKS.

The Secretary of Health and Human Services shall maintain the renal disease network organizations established under section 1881(c) of the Social Security Act, and may not merge the network into other organizations or entities.

SEC. 719. EXTENSION OF CERTAIN MEDICARE MUNICIPAL HEALTH SERVICES DEMONSTRATION PROJECTS.

The Secretary of Health and Human Services shall extend, for a period of three additional years, approval of four municipal health services demonstration projects (located in Baltimore, Cincinnati, Milwaukee, and San Jose) authorized under section 402(a) of the Social Security Amendments of 1967.

SEC. 720. COVERAGE OF RESPIRATORY CARE SERVICES FOR VENTILATOR-DEPENDENT INDIVIDUALS.

(a) UNDER MEDICARE PROGRAM.—

(1) AS PART OF HOME HEALTH SERVICES.—(A) Section 1861(m)(2) of the Social Security Act is amended by inserting before the semicolon at the end the following: ", or respiratory care for a qualified respiratory care patient (as defined in subsection (ee))".

(B) Sections 1814(a)(2)(C) and 1835(a)(2)(A) of such Act are amended by inserting after "speech therapy" the following: ", or, in the case of a qualified respiratory care patient (as defined in section 1861(ee)), respiratory care,".

(2) AS PART OF EXTENDED CARE SERVICES.—(A) Section 1861(h)(3) of such Act is amended by inserting after "speech therapy" the following: ", or respiratory care for a qualified respiratory care patient (as defined in subsection (ee)),".

(B) Section 1814(a)(2)(B) of such Act is amended by inserting after "rehabilitation services," the following: "or, in the case of a qualified respiratory care patient (as defined in section 1861(ee)), respiratory care,".

(C) Section 1813(a)(3) of such Act is amended by inserting after "one-eighth" the following: "(or one-sixteenth in the case of a qualified respiratory care patient, as defined in section 1861(ee))".

(3) DEFINITION OF QUALIFIED RESPIRATORY CARE PATIENT.—Section 1861 of such Act is amended by adding at the end the following new subsection:

"Qualified Respiratory Care Patient

"(ee) The term 'qualified respiratory care patient' means—

"(1) with respect to respiratory care furnished as part of extended care services during a spell of illness, an individual who—

"(A) is medically dependent on a ventilator for life support at least six hours per day;

"(B) before admission to the skilled nursing facility, was so dependent (for life support at least six hours per day) as part of inpatient hospital services for at least 30 consecutive days during the spell of illness; and

"(C) but for the provision of respiratory care as part of the extended care services, would require respiratory care as part of inpatient hospital services; and

"(2) with respect to respiratory care furnished as part of home health services during or following a spell of illness, an individual who—

"(A) is medically dependent on a ventilator for life support at least six hours per day;

"(B) before first being furnished home health services during the spell of illness, was so dependent (for life support at least six hours per day) as part of inpatient hospital services or post-hospital extended care services for at least 30 consecutive days during the spell of illness;

"(C) but for the provision of respiratory care as part of the home health services, would require respiratory care as part of inpatient hospital services or extended care services;

"(D) has adequate social support services to be cared for at home; and

"(E) wishes to be cared for at home.".

(b) UNDER MEDICAID PROGRAM.—Section 1902(a)(10) of such Act is amended by striking out "and" at the end of subparagraph (C), by adding "and" at the end of subparagraph (D), and by inserting after subparagraph (D) the following new subparagraph:

"(E) for the inclusion of home respiratory care for any individual who—

"(i) is medically dependent on a ventilator for life support at least six hours per day;

"(ii) has been so dependent for at least 30 consecutive days or the maximum number of days authorized under the State plan, whichever is less, as an inpatient in one or more hospitals, skilled nursing facilities, or intermediate care facilities;

"(iii) but for the inclusion of home respiratory care, would require respiratory care as an inpatient in a hospital, skilled nursing facility, or intermediate care facility;

"(iv) has adequate social support services to be cared for at home; and

"(v) wishes to be cared for at home;".

(c) EFFECTIVE DATE.—The amendments made by this section shall apply to services performed on or after October 1, 1988.

SEC. 721. AUDIT AND MEDICAL CLAIMS REVIEW.

In addition to any funds otherwise provided for fiscal years 1986, 1987, and 1988 for payments to intermediaries and carriers under agreements entered into under sections 1816 and 1842 of the Social Security Act, there are transferred from the Federal Hospital Insurance Trust Fund and the Federal Supplementary Medical Insurance Fund in such proportions as the Secretary of Health and Human Services determines to be appropriate, an additional $105,000,000 for each of such fiscal years for payments to such intermediaries and carriers under such agreements to be used exclusively for the purpose of carrying out provider cost audits and reviews of medical necessity, consistent with the provisions of sections 1816 and 1842 of the Social Security Act.

SEC. 722. ACCESS TO SKILLED NURSING FACILITIES.

(a) OPTIONAL PROSPECTIVE RATES FOR CERTAIN SKILLED NURSING FACILITIES.—Section 1888 of the Social Security Act is amended by adding at the end thereof the following new subsection:

"(d)(1) Any skilled nursing facility may choose to be paid under this subsection on the basis of a prospective payment for all routine service costs (including capital and return on equity) of extended care services provided in a fiscal year if such facility had, in the preceding fiscal year, fewer than 1,500 patient days with respect to which payments were made under this title. Such prospective payment shall be in lieu of payments which would otherwise be made for routine service costs pursuant to section 1861(v) and subsections (a) through (c) of this section. This subsection shall not apply to a facility for any fiscal year immediately following a fiscal year in which such facility had 1,500 or more patient days with respect to which payments were made under this title, without regard to whether payments were made under this subsection during such preceding fiscal year.

"(2) The amount of the payment under this section shall be determined on a per diem basis. For skilled nursing facilities located in an urban area the amount shall be equal to 105 percent of the mean of the per diem reasonable routine service costs of extended care services for skilled nursing facilities in urban areas within the same region, determined without regard to the limitations of subsection (a), and for skilled nursing facilities located in a rural area the amount shall be equal to 105 percent of the mean of the per diem reasonable routine service costs of extended care services for skilled nursing facilities in rural areas within the same region, determined without regard to the limitations of subsection (a).

"(3) For purposes of this subsection, urban and rural areas shall be determined in the same manner as for purposes of subsection (a), and the term 'region' shall have the same meaning as under section 1886(d)(2)(D).

"(4) The Secretary shall establish the prospective payment amounts for each fiscal year at least 90 days prior to the beginning of such fiscal year, on the basis of the most recent data available for a 12-month period. A skilled nursing facility must notify the Secretary of its intention to be paid pursuant to this subsection for a fiscal year within 60 days after the Secretary establishes the final prospective payment amounts for such fiscal year.

"(5) The Secretary shall provide for a simplified cost report to be filed by facilities being paid pursuant to this subsection, which shall require only the cost information necessary for determining prospective payment amounts pursuant to paragraph (2) and reasonable costs of ancillary services.

"(6) In lieu of payment on a cost basis for ancillary services provided by a facility which is being paid pursuant to this subsection, the Secretary may pay for such ancillary services on a reasonable charge basis if

the Secretary determines that such payment basis will provide an equitable level of reimbursement and will ease the reporting burden of the facility.".

(b) REDUCTION IN NUMBER OF FISCAL INTERMEDIARIES.—Section 1816(e) of the Social Security Act is amended by adding at the end thereof the following new paragraph:

"(6) Notwithstanding subsections (a) and (d) and paragraphs (1), (2), and (3) of this subsection, the Secretary shall designate regional agencies or organizations which have entered into an agreement under this section to perform functions under such agreement with respect to freestanding skilled nursing facilities in the region. By not later than April 1, 1987, the Secretary shall limit the number of such regional agencies to not more than ten.".

(c) PUBLICATION OF DATA RELATING TO ADJUSTMENTS TO SNF LIMITS.—Section 1888(c) of the Social Security Act is amended by adding at the end thereof the following: "The Secretary shall publish the data and criteria to be used for purposes of this subsection on an annual basis.".

(d) REINSTATEMENT OF WAIVER OF LIABILITY PRESUMPTION.—The Secretary of Health and Human Services shall, for purposes of determining whether payments to a skilled nursing facility should be denied pursuant to section 1862(a)(1)(A) of the Social Security Act, apply the same presumption of compliance (5 percent) as in effect under regulations as of July 1, 1985. Such presumption shall apply for the 30-month period beginning with the first month beginning after the date of the enactment of this Act.

(e) EFFECTIVE DATES.—(1) The amendment made by subsection (a) shall apply to fiscal years beginning on or after October 1, 1985. The Secretary shall establish interim prospective payment rates for the fiscal year beginning on October 1, 1985, within 90 days after the date of the enactment of this Act, and shall establish final rates within 180 days after such date of enactment.

(2) The amendment made by subsection (b) shall be implemented by the Secretary prior to April 1, 1987.

(3) The amendment made by subsection (c) shall become effective on the date of the enactment of this Act.

SEC. 723. CHARGES BY PHYSICIANS FOR SERVICES BILLED TO A HEALTH MAINTENANCE ORGANIZATION.

(a) PARTICIPATING PHYSICIAN.—Section 1842(h)(1) of the Social Security Act is amended by inserting after the second sentence the following: "Such agreement shall also provide that the reasonable charge shall be the full charge in the case where such participating physician or supplier furnishes items or services (which were immediately required as described in section 1876(c)(4)(B)) to an individual who is enrolled in a health maintenance organization or competitive medical plan pursuant to section 1876 during such period.".

(b) NONPARTICIPATING PHYSICIAN.—Section 1842(j)(1) of such Act is amended by inserting "(or bills such an individual's health maintenance organization or competitive medical plan for services furnished to such individual which were immediately required as described in section 1876(c)(4)(B))" after "bills individuals enrolled under this part".

(c) EFFECTIVE DATE.—The amendments made by this section shall be effective with respect to items and services furnished on or after October 1, 1985, and before October 1, 1986.

SEC. 724. TIMELY PUBLICATION OF PAYMENT RATES FOR HEALTH MAINTENANCE ORGANIZATIONS.

(a) PUBLICATION DEADLINE.—Section 1876(a)(1) of the Social Security Act is amended by adding at the end thereof the following new subparagraph:

"(F) The Secretary shall establish, and publish in the Federal Register, the annual per capita rate of payment for each class which shall apply to a calendar year within 10 days after publication of the hospital prospective payment rates which will become effective on the October 1 preceding such calendar year.".

(b) EFFECTIVE DATE.—The amendment made by this section shall become effective on January 1, 1986.

PART 3—PROVISIONS RELATING TO PART B OF MEDICARE

SEC. 725. EXTENSION OF PHYSICIAN FEE FREEZE FOR NONPARTICIPATING PHYSICIANS AND IMPROVEMENTS IN THE PARTICIPATING PHYSICIAN PROGRAM.

(a) ONE-YEAR EXTENSION FOR NONPARTICIPATING PHYSICIANS.—

(1) EXTENSION.—Section 1842(b)(4) of the Social Security Act is amended—

(A) in subparagraph (A)—

(i) by inserting "(i)" after "(4)(A)", and

(ii) by adding at the end the following new clauses:

"(ii) In determining the prevailing charge levels under the third and fourth sentences of paragraph (3) for physicians' services furnished during the 12-month period beginning October 1, 1985, by a physician who is not a participating physician (as defined in subsection (h)(1)) at the time of furnishing the services, the Secretary shall not set any level higher than the same level as was set for the 12-month period beginning July 1, 1983.

"(iii) In determining the prevailing charge levels under the third and fourth sentences of paragraph (3) for physicians' services furnished during any 12-month period beginning on or after October 1, 1986, by a physician who is not a participating physician (as defined in subsection (h)(1)) at the time of furnishing the services, the Secretary shall not set any level higher than the same level as was set for services furnished during the previous fiscal year for physicians who were participating physicians during that year.";

(B) in subparagraph (B)—

(i) by inserting "(i)" after "(B)", and

(ii) by adding at the end the following new clause:

"(ii) In determining the reasonable charge under paragraph (3) for physicians' services furnished during the 12-month period beginning October 1, 1985, by a physician who is not a participating physician (as defined in subsection (h)(1)) at the time of furnishing the services—

"(I) if such physician was not a participating physician at any time during the 15-month period beginning on July 1, 1984, the customary charges shall be the same customary charges as were recognized under this section for the 12-month period beginning July 1, 1983; and

"(II) if such physician was a participating physician during the 15-month period beginning on July 1, 1984, the Secretary shall not recognize increases in actual charges above the level of the physician's actual charges billed during the 12-month period beginning on April 1, 1984.".

(C) in subparagraph (C)—

(i) by inserting "(i)" after "(C)",

(ii) by striking out "(A)" and inserting in lieu thereof "(A)(i)" each place it appears, and

(iii) by adding at the end the following new clause:

"(ii) In determining the prevailing charge levels under the third and fourth sentences of paragraph (3) for physicians' services furnished during the periods beginning after September 30, 1986, by a physician who was not a participating physician on that date, the Secretary shall treat the level as set under subparagraph (A)(ii) as having fully provided for the economic changes which would have been taken into account but for the limitations contained in subparagraph (A)(ii).".; and

(D) in subparagraph (D)—

(i) by striking out "who at no time" and all that follows through "subsection (h)(1))" and insert in lieu thereof "who was not a participating physician (as defined in subsection (h)(1)) on September 30, 1985",

(ii) by inserting "(i)" after "(D)", and

(iii) by adding at the end the following new clause:

"(ii) In determining the customary charges for physicians' services furnished during the 12-month period beginning October 1, 1986, or October 1, 1987, by a physician who is not a participating physician (as defined in subsection (h)(1)) on September 30, 1986—

"(I) if such physician was not a participating physician at any time during the 15-month period beginning on July 1, 1984, the Secretary shall not recognize increases in actual charges for services furnished during the 12-month period beginning on October 1, 1985, above the level of the physician's actual charges billed during the 3-month period ending on June 30, 1984; and

"(II) if such physician was a participating physician during the 15-month period beginning on July 1, 1984, the Secretary shall not recognize increases in actual charges for services furnished during the 12-month period beginning on October 1, 1985, above the level of the physician's actual charges billed during the 12-month period beginning on April 1, 1984.".

(2) CONTINUED ENFORCEMENT.—The first sentence of section 1842(j)(1) of such Act is amended to read as follows: "In the case of a physician who is not a participating physician for items and services furnished during a portion of the 27-month period beginning July 1, 1984, the Secretary shall monitor the physician's actual charges to individuals enrolled under this part for physicians' services during that portion of that period.".

(3) PERIOD FOR ENTERING AGREEMENTS TO BE PARTICIPATING PHYSICIAN.—The Secretary of Health and Human Services shall provide for a 30-day period, beginning on the date of the enactment of this Act, in which physicians may enter into an agreement under section 1842(h)(1) of the Social Security Act for the 12-month period beginning October 1, 1985, or terminate such an agreement previously entered into for such period.

(4) EFFECTIVE DATE.—The amendments made by this subsection shall apply to services furnished on or after October 1, 1985.

(b) INCENTIVES FOR PARTICIPATING PHYSICIAN PROGRAM.—

(1) ONE-YEAR EXTENSION OF TRANSFER OF FUNDS FOR CARRIERS.—Section 2306(e) of the Deficit Reduction Act of 1984 is amended—

(A) by striking out "and 1985" and inserting in lieu thereof ", 1985, and 1986";

(B) by striking out "the amendments made by this section" and inserting in lieu thereof "subsections (b)(4), (h), and (j) of section 1842 of the Social Security Act";

(C) by striking out "for fiscal year 1985" and inserting in lieu thereof "for each of fiscal years 1985 and 1986"; and

(D) by adding at the end thereof the following new sentence: "A significant proportion of such funds shall be used for the expansion of the participating physician and supplier program and for the development of professional relations staffs dedicated to addressing the billing and other problems of physicians and suppliers participating in that program.".

(2) IMPROVEMENT OF PARTICIPATING PHYSICIAN DIRECTORIES.—Section 1842(i) of the Social Security Act is amended—

(A) in the first sentence of paragraph (2)—

(i) by striking out "a directory" and inserting in lieu thereof "directories (for appropriate local geographic areas)"; and

(ii) by inserting "for that area" before "for that fiscal year";

(B) in the second sentence of paragraph (2), by striking out "The directory" and inserting in lieu thereof "Each directory";

(C) in paragraph (3)—

(i) by striking out "directory" the first place it appears and inserting in lieu thereof "the directories"; and

(ii) by striking out "directory" the second place it appears and inserting in lieu thereof "the appropriate area directory or directories"; and

(D) in paragraph (4)—

(i) by striking out "directory" and inserting in lieu thereof "the directories"; and

(ii) by adding at the end the following: "The Secretary shall provide that each appropriate area directory is sent to each participating physician located in that area.".

(3) ELIMINATION OF PHYSICIAN ASSIGNMENT RATE LIST.—Section 1842(i) of such Act is further amended—

(A) by striking out "(i)(1)" and all that follows through the end of paragraph (1);

(B) by striking out "subsection (h)(1)" in paragraph (2) and inserting in lieu thereof "paragraph (1)";

(C) by striking out "such list and" and "the list and" each place either appears in paragraphs (3) and (4); and

(D) by redesignating paragraphs (2) through (4) as paragraphs (4) through (6) of subsection (h), respectively.

(4) INFORMATION ON THE PARTICIPATING PHYSICIAN AND SUPPLIER PROGRAM IN EXPLANATIONS OF MEDICARE BENEFITS FOR UNASSIGNED CLAIMS.—Section 1842(h) of such Act, as previously amended by this subsection, is further amended by adding at the end the following new paragraphs:

"(7) The Secretary shall provide that each explanation of benefits provided under this part for services furnished in the United States, in conjunction with the payment of claims under section 1833(a)(1) (made other than on an assignment-related basis, described in paragraph (8)), shall include—

"(A) a reminder of the participating physician and supplier program established under this subsection (including the limitation on charges that may be imposed by such physicians and suppliers); and

"(B) the toll-free telephone number or numbers, maintained under paragraph (2), at which an individual enrolled under this part may obtain information on participating physicians and suppliers.

"(8) For purposes of this title, a claim is considered to be paid on an 'assignment-related basis' if the claim is paid on the basis of an assignment described in subsection (b)(3)(B)(ii), in accordance with subsection (b)(6)(B), or under the procedure described in section 1870(f)(1).".

(5) EFFECTIVE DATE.—Section 1842(b)(7) of the Social Security Act, as added by paragraph (4) of this subsection, shall apply to explanations of benefits provided on or after such date (not later than April 1, 1986) as the Secretary of Health and Human Services shall specify.

(c) CHARGES BY PHYSICIAN WHERE MEDICARE IS NOT BILLED.—

(1) INAPPLICABILITY OF PENALTIES.—Section 1842(j) of the Social Security Act is amended by adding at the end thereof the following new paragraph:

"(5) Paragraph (1) shall not apply in any case where no payment is requested or billed under this part by any party with respect to the particular physicians' services involved.".

(2) EFFECTIVE DATE.—The amendment made by paragraph (1) shall apply to services furnished after the date of the enactment of this Act.

SEC. 726. PART B PREMIUM.

(a) ONE-YEAR EXTENSION.—Section 1839(e) of the Social Security Act is amended by striking out "1988" each place it appears in paragraphs (1) and (2), and inserting in lieu thereof in each instance "1989".

(b) NO NET REDUCTION IN BENEFIT CHECK.—Section 1839(f) of such Act is amended to read as follows:

"(f)(1) If no cost-of-living increase becomes effective under section 215(i) in December of 1985, 1986, or 1987, the monthly premium of each individual enrolled under this part for each month in the succeeding year shall (except as otherwise provided in subsection (b)) be the same as the monthly premium (disregarding subsection (b)) of the individual for such December.

"(2)(A) If a cost-of-living increase does become effective under section 215(i) in December of 1985, 1986, or 1987, the monthly premium for the months in the succeeding calendar year for any individual described in subparagraph (B) shall (except as otherwise provided in subsection (b)) be reduced to the extent necessary to provide that the individual's 'net check amount' for any month in such succeeding calendar year for which he is entitled to a benefit under section 202 or 223 is not less than such individual's 'net check amount' for such December.

"(B) Subparagraph (A) shall apply to any individual—

"(i) who is entitled to a benefit under section 202 or 223 for the applicable December and the preceding November, and

"(ii) whose monthly premium for such December and the following January is deducted from those benefits under section 1840(a)(1).

"(C) For purposes of this paragraph, an individual's 'net check amount' for a given month is the amount of his benefit under section 202 or 223 for the month preceding such given month, minus the amount of the monthly premium for such given month (determined without regard to subsection (b)).

"(D) For purposes of this paragraph, retroactive adjustments or payments and deductions on account of work shall not be taken into account in determining the monthly benefits to which an individual is entitled under section 202 or 223.".

(c) EFFECTIVE DATE.—The amendments made by this section shall become effective on the date of the enactment of this Act.

SEC. 727. CORRECTION OF INAPPROPRIATE MEDICARE REASONABLE CHARGE DETERMINATIONS FOR HOSPITAL-BASED PHYSICIANS.

(a) DETERMINATION OF CUSTOMARY CHARGES.—Notwithstanding the provisions of section 1842(b) of the Social Security Act, in the case of a physician whose customary charges are based on compensation which was paid to him by a hospital and who subsequently changes his arrangement with such hospital on or after September 30, 1982, to an arrangement under which such physician bills for his services on his own behalf, such customary charges shall be determined, effective with respect to services furnished on and after October 1, 1985, and prior to October 1, 1986, by—

(1) ascertaining the actual charges such physician billed for his services on his own behalf during the billing period specified in subsection (b);

(B) deflating such actual charges in accordance with the provisions of subsection (c); and

(C) calculating such customary charges in accordance with the provisions of section 1842(b) of the Social Security Act, except that such deflated actual charges shall be deemed to have been billed by such physician during the period described in subsection (d).

(b) BILLING PERIOD.—For purposes of this section, a billing period shall be the 12-month period ending on March 31, 1985; except that, if a physician does not have sufficient billings during such 12-month period to determine his customary charges, the billing period shall be the first 3-month period which begins on or after February 1, 1985, for which such physician has sufficient billings to serve as a basis for the determination of such physician's customary charges.

(c) DEFLATING OF ACTUAL CHARGES.—The actual charges for a billing period shall be deflated by multiplying them by a fraction—

(1) the numerator of which is—

(2) the value of the physicians' services component of the Consumer Price Index (U.S. City Average for All Urban Consumers) for September 1984, in the case of a physician who is a participating physician prior to October 1, 1985, or

(3) the average value of such component for the calendar year 1982, in the case of a physician who is not a participating physician prior to October 1, 1985; and

(2) the denominator of which is the value of such component for the midpoint of the billing period applicable to such physician as determined under subsection (b).

(d) DEEMED TIME OF BILLING.—For purposes of subsection (a)(3), the deflated actual charges referred to in subsection (c) shall be deemed to have been billed—

(1) in the 12-month period ending on March 31, 1985, in the case of a physician who was a participating physician prior to October 1, 1985; or

(2) in 1982 in the case of a physician who was not a participating physician prior to October 1, 1985.

SEC. 728. PAYMENTS FOR MEDICAL AND OTHER HEALTH SERVICES.

(a) PAYMENT FREEZE.—Section 1842(b)(4) of the Social Security Act is amended by adding at the end thereof the following new subparagraph:

"(E) In the case of medical and other health services (as defined in section 1861(s)) for which payment is based on rea-

sonable charge, other than physicians' services and clinical laboratory services—

"(i) the customary and prevailing charges under paragraph (3), and the lowest charge referred to in the fourth sentence of such paragraph, for such services (other than durable medical equipment purchased, or leased under a purchase agreement) furnished during the 12-month period beginning on October 1, 1985, may not exceed such charges recognized under this section for the 12-month period beginning on October 1, 1984, increased by 1 percent; and

"(ii) the prevailing charge under paragraph (3), and the lowest charge referred to in the fourth sentence of such paragraph, for such services (including all durable medical equipment) furnished during any 12-month period beginning on or after October 1, 1986, may not exceed such charges for the preceding 12-month period increased by the same percentage as the percentage increase in the Consumer Price Index for All Urban Consumers (United States city average) for the 12-month period ending on the preceding June 30.".

(b) EFFECTIVE DATE.—The amendment made by this section shall apply to services furnished on or after October 1, 1985.

SEC. 729. PAYMENT FOR ASSISTANTS AT SURGERY FOR CERTAIN CATARACT OPERATIONS AND OTHER OPERATIONS.

(a) LIMITATION ON PAYMENT.—Section 1862(a) of the Social Security Act is amended—

(1) by striking out "or" at the end of paragraph (13),

(2) by striking out the period at the end of paragraph (14) and inserting in lieu thereof "; or", and

(3) by adding at the end the following new paragraph:

"(15) which are for services of an assistant at surgery in a cataract operation unless, before the surgery is performed, the appropriate utilization and quality control peer review organization (under part B of title XI) has approved of the use of such an assistant in the surgical procedure based on the existence of complicating medical condition.".

(b) ADDITIONAL PRO FUNCTIONS.—Section 1154(a)(8) of such Act is amended by inserting before the period at the end the following: "or as may be required to carry out section 1862(a)(15)".

(c) PROHIBITION FOR SUBMITTING BILL FOR WHICH PAYMENT MAY NOT BE MADE.—Section 1842 of such Act is amended—

(1) in subsection (j)(2), by inserting "or subsection (k)" after "paragraph (1)", and

(2) by adding at the end thereof the following new subsection:

"(k)(1) If a physician knowingly and willfully bills an individual enrolled under this part charges for services as an assistant at surgery for which payment may not be made by reason of section 1862(a)(15), the Secretary may apply sanctions against such physician in accordance with subsection (j)(2).

"(2) If a physician knowingly and willfully bills an individual enrolled under this part charges that include a charge for an assistant at surgery for which payment may not be made by reason of section 1862(a)(15), the Secretary may apply sanctions against such physician in accordance with subsection (j)(2).".

(d) EXTENSION OF PROHIBITION TO OTHER PROCEDURES.—The Secretary of Health and Human Services, after consultation with the Prospective Payment Assessment Commission, shall develop recommendations and guidelines relating to other surgical procedures for which an assistant at surgery is generally not medically necessary and the circumstances under which the use of an assistant at surgery is generally medically appropriate but should be subject to prior approval of an appropriate entity. The Secretary shall report to Congress, not later than April 1, 1986, on these recommendations and guidelines.

(e) EFFECTIVE DATE.—The amendments made by this section shall apply to services performed on or after October 1, 1985.

SEC. 730. LIMITATION ON MEDICARE PAYMENT FOR POST-CATARACT SURGERY PATIENTS.

(a) PAYMENT FOR REPLACEMENT OF LOST OR DAMAGED CATARACT EYEGLASSES AND CATARACT CONTACT LENSES.—With respect to the payment for replacement cataract eyeglasses and cataract contact lenses under title XVIII of the Social Security Act in the case of an individual beneficiary—

(1) payment may be made for the replacement only once every year of lost or damaged cataract eyeglasses, and

(2) payment may be made—

(A) in the first year after surgery, for one original cataract contact lens for each eye and for the replacement only twice of a lost or damaged cataract contact lens for each eye, and

(B) in each subsequent year, for the replacement only twice of a lost or damaged cataract contact lens for each eye.

(b) DETERMINATION OF SEPARATE PAYMENT AMOUNTS FOR PROSTHETIC LENSES AND PROFESSIONAL SERVICES.—Section 1842(b) of the Social Security Act is amended by adding at the end thereof the following new paragraph:

"(8) In providing payment for cataract eyeglasses and cataract contact lenses, and professional services relating to them, under this part, each carrier shall—

"(A) provide for separate determinations of the payment amount for the eyeglasses and lenses and of the payment amount for the professional services of a physician (as defined in section 1861(r)); and

"(B) not recognize as reasonable for such eyeglasses and lenses more than such amount as the Secretary establishes in guidelines relating to the inherent reasonableness of charges for such eyeglasses and lenses.".

(c) EFFECTIVE DATE.—(1) The amendments made by this section shall apply to items and services furnished on or after October 1, 1985.

(2) In applying the amendment made by subsection (a), there shall not be taken into account any cataract eyeglasses or contact lenses replaced before October 1, 1985.

SEC. 731. DEMONSTRATION OF PREVENTIVE HEALTH SERVICES UNDER MEDICARE.

(a) DEMONSTRATION PROGRAM.—The Secretary of Health and Human Services (hereafter in this section referred to as the "Secretary") shall establish a 4-year demonstration program designed to reduce disability and dependency through the provision of preventive health services to individuals entitled to benefits under title XVIII of the Social Security Act (hereafter in this section referred to as "medicare beneficiaries").

(b) PREVENTIVE HEALTH SERVICES UNDER DEMONSTRATION PROGRAM.—The preventive health services to be made available under the demonstration program shall include—

(1) health screenings,

(2) health risk appraisals,

(3) immunizations, and

(4) counseling on and instruction in—

(A) diet and nutrition,

(B) reduction of stress,

(C) exercise and exercise programs,

(D) sleep regulation,

(E) injury prevention,

(F) prevention of alcohol and drug abuse,

(G) prevention of mental health disorders,

(H) self-care, including use of medication, and

(I) reduction or cessation of smoking.

(c) CONDUCT OF PROGRAM.—The demonstration program shall—

(1) be conducted under the direction of accredited public or private nonprofit schools of public health, or preventive medicine departments of accredited schools of medicine;

(2) be conducted in no fewer than five sites, which sites shall be chosen so as to be geographically diverse and shall be readily accessible to a significant number of medicare beneficiaries;

(3) involve community outreach efforts at each site to enroll the maximum number of medicare beneficiaries in the program; and

(4) be designed—

(A) to test alternative methods of payment for preventive health services, including payment on a prepayment basis as well as payment on a fee-for-service basis,

(B) to permit a variety of appropriate health care providers to furnish preventive health services, including physicians, health educators, nurses, allied health personnel, dieticians, and clinical psychologists, and

(C) to facilitate evaluation under subsection (d).

(d) EVALUATION.—The Secretary shall evaluate the demonstration project in order to determine—

(1) the short-term and long-term costs and benefits of providing preventive health services for medicare beneficiaries, including any reduction in inpatient services resulting from providing the services, and

(2) what practical mechanisms exist to finance preventive health services under title XVIII of the Social Security Act.

(e) REPORTS TO CONGRESS.—(1) Not later than three years after the date of the enactment of this Act, the Secretary shall submit a preliminary report to the Committee on Ways and Means of the House of Representatives and to the Committee on Finance of the Senate on the progress made in the demonstration program, including a description of the sites at which the program is being conducted and the preventive health services being provided at the different sites.

(2) Not later than five years after the date of the enactment of this Act, the Secretary shall submit a final report to those Committees on the demonstration program and shall include in the report—

(A) the evaluation described in subsection (d), and

(B) recommendations for appropriate legislative changes to incorporate payment for cost-effective preventive health services into the medicare program.

(f) FUNDING.—Expenditures made for the demonstration program shall be made from the Federal Supplementary Medical Insurance Trust Fund (established by section 1841 of the Social Security Act). Grants and payments under contracts may be made either in advance or by way of reimbursement, as may be determined by the Secretary, and shall be made in such installments and on such conditions as the Secretary finds necessary to carry out the purpose of this section. Funding for the demonstration program shall not exceed $4,000,000 over the duration of the program.

(g) WAIVER OF MEDICARE REQUIREMENTS.—The Secretary shall waive compliance with such requirements of title XVIII of the Social Security Act to the extent and for the period the Secretary finds necessary for the conduct of the demonstration program.

SEC. 732. AMBULATORY SURGERY.

(a) LIMITATION ON REASONABLE COST OR CHARGE.—

(1) AMBULATORY SURGICAL CENTERS AND PHYSICIAN OFFICES.—Section 1833(i)(2) of the Social Security Act is amended by adding at the end thereof the following new subparagraph:

"(C) In no case shall the standard overhead amount established with respect to a surgical procedure under subparagraph (A) or (B) exceed the DRG rate for the same surgical procedure when provided on an inpatient basis in a hospital in the same area, as determined under section 1886.".

(2) HOSPITAL OUTPATIENT DEPARTMENTS.—(A) Section 1833(a)(4) of such Act is amended to read as follows:

"(4) in the case of facility services described in section 1832(a)(2)(F), and outpatient hospital services furnished in connection with surgical procedures specified by the Secretary pursuant to section 1833(i)(1)(A), the applicable amount as determined under section 1833(i).".

(B) Section 1833(i)(3) of such Act is amended to read as follows:

"(3) The amount of the payment to be made under this part for outpatient hospital services furnished in connection with a surgical procedure specified under paragraph (1)(A) shall be equal to 80 percent of the standard overhead amount with respect to the same surgical procedure when provided in an ambulatory surgical center in the same area, as determined under paragraph (2)(A); except that additional payment shall be made with respect to 80 percent of the direct costs of approved educational activities, capital related costs, or costs of anesthesia services provided by a certified registered nurse anesthetist, in the same manner as such payments are made with respect to outpatient hospital services not paid for under this subsection.".

(3) ANNUAL UPDATING.—(A) Subparagraphs (A) and (B) of section 1833(i)(2) of such Act are each amended by striking out "shall be reviewed periodically" and inserting in lieu thereof "shall be reviewed and updated not less often than annually,".

(B) Section 1833(i)(1) of such Act is amended by adding at the end thereof (after and below subparagraph (B)) the following:

"The lists of procedures established under subparagraphs (A) and (B) shall be reviewed and updated not less often than annually.".

(b) FACILITY SERVICES TO INCLUDE RELATED SERVICES.—(1) Section 1833(i) of the Social Security Act is amended by adding at the end thereof the following new paragraph:

"(5)(A) For purposes of this section, 'facility services' shall include all medical and other health services (as defined in section 1861(s)) which are furnished in connection with a surgical procedure specified under paragraph (1), other than the physicians' services and anesthesia services furnished by a certified registered nurse anesthetist.

"(B) The Secretary shall establish a method of payment for anesthesia services furnished by a certified registered nurse anesthetist in connection with a surgical procedure for which payment is made pursuant to this subsection and which are furnished in an ambulatory surgical center or in a physician's office. Such method may be based on the payment method under paragraph (3) or any other basis which the Secretary finds appropriate. Such method shall not, to the extent feasible, create financial incentives or disincentives for the use of certified registered nurse anesthetists employed by an ambulatory surgical center or by a physician.".

(2) Section 1832(a)(2)(F) of such Act is amended by striking out "services (including all pre- and post-operative services) described in paragraphs (1) and (2)(A) of section 1861(s) and" and inserting in lieu thereof "physicians' services, facility services, and anesthesia services furnished by a certified registered nurse anesthetist, including all preoperative and postoperative services,".

(3) Section 1833(i)(4)(A) of such Act is amended by striking out "and with respect to all related services (including physicians' services, laboratory, X-ray, and diagnostic services)" and inserting in lieu thereof ", the physicians' services, and anesthesia services furnished by a certified registered nurse anesthetist".

(c) PRO REVIEW.—(1) Section 1154(a)(1) of the Social Security Act is amended by inserting "and subject to the requirements of subsection (d)" after "subject to the terms of the contract".

(2) Section 1154 of such Act is amended by adding at the end thereof the following new subsection:

"(d) Each contract under this part shall require that the utilization and quality control peer review organization's review responsibility pursuant to subsection (a)(1) will include all ambulatory surgical procedures described in section 1833(i)(1)(A) which are performed in the area, or, at the discretion of the Secretary, a sample of selected procedures.".

(d) COINSURANCE AND DEDUCTIBLE TO APPLY WITHOUT REGARD TO SETTING OF AMBULATORY SURGERY OR ASSIGNMENT.—(1) Section 1832(a)(2)(F)(i) of the Social Security Act is amended by inserting "standard overhead" before "amount determined under section 1833(i)(2)(A)".

(2) Section 1832(a)(2)(F)(ii) of such Act is amended by inserting "standard overhead" before "amount determined under section 1833(i)(2)(B)".

(3) Section 1833(a)(1) of such Act is amended—

(A) by inserting "and" before "(E)"; and

(B) by striking out ", and (F)" and all that follows and inserting in lieu thereof a semicolon.

(4) Section 1833(a)(4) of such Act is amended by striking out "the applicable amount described in paragraph (2) of section 1833(i)" and inserting in lieu thereof "80 percent of the applicable standard overhead amount described in subsection (i)(2) of this section".

(5) Section 1833(b) of such Act is amended by striking out "(3) such total amount shall not include expenses incurred for services the amount of payment for which is determined under subsection (a)(1)(F) or under subsection (i)(2) or (i)(4), and (4)" and inserting in lieu thereof "and (3)".

(6) Subparagraphs (A) and (B) of section 1833(i)(2) of such Act are each amended by inserting "80 percent of" before "a standard overhead amount".

(e) EFFECTIVE DATES.—(1) Except as otherwise provided, the amendments made by this section shall apply to services furnished on or after October 1, 1985.

(2) The amendments made by subsection (a)(3) shall apply on and after January 1, 1986. Prior to January 1, 1986, the Secretary of Health and Human Services shall update the amounts established under subparagraphs (A) and (B) of section 1833(i)(2) of the Social Security Act on the basis of current data to account more appropriately for the costs actually incurred.

(3) The amendments made by subsection (c) shall apply to contracts entered into or renewed on or after October 1, 1985.

PART 4—MISCELLANEOUS MEDICARE PROVISIONS

SEC. 733. EXTENSION OF ON LOK WAIVER.

(a) CONTINUED APPROVAL.—

(1) MEDICARE WAIVERS.—Notwithstanding any limitations contained in section 222 of the Social Security Amendments of 1972 and section 402(a) of the Social Security Amendments of 1967, the Secretary of Health and Human Services shall continue approval of the risk-sharing application described in section 603(c)(1) of the Social Security Amendments of 1983 for waivers of certain requirements of title XVIII of the Social Security Act after the end of the period described in that section.

(2) MEDICAID WAIVERS.—Notwithstanding any limitations contained in section 1115 of the Social Security Act, the Secretary shall approve any application of the Department of Health Services, State of California, for a waiver of requirements of title XIX of such Act in order to continue carrying out the demonstration project referred to in section 603(c)(2) of the Social Security Amendments of 1983 after the end of the period described in that section.

(b) TERMS, CONDITIONS, AND PERIOD OF APPROVAL.—The Secretary's approval of an application (or renewal of an application) under this section—

(1) shall be on the same terms and conditions as applied with respect to the corresponding application under section 603(c) of the Social Security Amendments of 1983 as of July 1, 1985, except that requirements relating to collection and evaluation of information for demonstration purposes (and not for operational purposes) shall not apply; and

(2) shall remain in effect until such time as the Secretary finds that the applicant no longer complies with the terms and conditions described in paragraph (1).

SEC. 734. ADDITIONAL MEMBERS OF PROSPECTIVE PAYMENT ASSESSMENT COMMISSION.

(a) EXPANSION OF MEMBERSHIP.—Section 1886(e)(6)(A) of the Social Security Act is amended by striking out "15 individuals" and inserting in lieu thereof "17 individuals".

(b) APPOINTMENTS.—The Director of the Congressional Office of Technology Assessment shall appoint the two additional members of the Prospective Payment Assessment Commission, as required by the amendment made by subsection (a), no later than 60 days after the date of the enactment of this Act, for terms of three years.

SEC. 735. REMOVAL OF PROHIBITION ON COMMENTS BY MEDICARE AND SOCIAL SECURITY ACTUARIES RELATING TO ECONOMIC ASSUMPTIONS.

(a) FEDERAL OLD-AGE AND DISABILITY INSURANCE TRUST FUND.—Section 201(c) of the Social Security Act is amended by striking out "; *Provided*, That the certification shall not refer to economic assumptions underlying the Trustee's report, and shall" and inserting in lieu thereof ". Such report shall".

(b) MEDICARE TRUST FUNDS.—Sections 1817(b) and 1841(b) of such Act are each amended by striking out ": *Provided*, That the certification shall not refer to economic

assumptions underlying the Trustee's report".

(c) EFFECTIVE DATE.—The amendments made by this section shall become effective on the date of the enactment of this Act.

SEC. 736. EXTENSION OF GAO REPORTING DATE.

(a) EXTENSION.—Section 2326(e)(2) of the Deficit Reduction Act of 1984 is amended by striking out "12 months" and inserting in lieu thereof "18 months".

(b) EFFECTIVE DATE.—The amendment made by this section shall apply as though it were included in the Deficit Reduction Act of 1984 as originally enacted.

PART 5—PEER REVIEW ORGANIZATIONS

SEC. 737. HEALTH MAINTENANCE ORGANIZATION MEMBERSHIP ON PEER REVIEW ORGANIZATION BOARDS.

(a) REMOVAL OF ONE-MEMBER LIMITATION.—Section 1153(b)(2)(A) of the Social Security Act is amended by striking out "consists only of one individual member of the governing board" and inserting in lieu thereof "consists only of members of the governing board".

(b) EFFECTIVE DATE.—The amendment made by this section shall become effective on the date of the enactment of this Act.

SEC. 738. PEER REVIEW ORGANIZATION REIMBURSEMENT.

(a) REIMBURSEMENT AMOUNTS.—Section 1866(a)(1)(F) of the Social Security Act is amended—

(1) by striking out clause (iii);

(2) by inserting "and" at the end of clause (ii);

(3) by redesignating clause (iv) as clause (iii); and

(4) by striking out "1982" in clause (iii) as so redesignated and inserting in lieu thereof "1985".

(b) MONTHLY PAYMENTS.—Section 1153(c)(8) of such Act is amended to read as follows:

"(8) reimbursement shall be made to the organization on a monthly basis, with payments for any month being made not later than 15 days after the close of such month.".

(c)(1) The amendments made by subsection (a) shall become effective on the date of the enactment of this Act.

(2) The amendment made by subsection (b) shall apply to contracts entered into or renewed on or after the date of the enactment of this Act.

SEC. 739. PEER REVIEW ORGANIZATION REVIEW OF HEALTH MAINTENANCE ORGANIZATIONS.

(a) REVIEW REQUIRED.—Section 1154(a)(1) of the Social Security Act is amended by adding at the end thereof (after and below subparagraph (C)) the following:

"Review under this paragraph shall include review of items and services under parts A and B provided by health maintenance organizations and competitive medical plans pursuant to contracts under section 1876.".

(b) EFFECTIVE DATE.—The amendment made by this section shall apply to contracts entered into or renewed under section 1153 of the Social Security Act on or after the date of the enactment of this Act.

SEC. 740. SUBSTITUTE REVIEW PENDING TERMINATION OF A PEER REVIEW ORGANIZATION CONTRACT.

(a) SUBSTITUTE REVIEW.—Section 1153(d) of the Social Security Act is amended by adding at the end thereof the following new paragraph:

"(4) During the period after the Secretary has given notice of intent to terminate a contract, and prior to the time that the Secretary enters into a contract with another utilization and quality control peer review organization, the Secretary may transfer review responsibilities of the organization under the contract being terminated to another utilization and quality control peer review organization, or to an intermediary or carrier having an agreement under section 1816 or a contract under section 1842.".

(b) EFFECTIVE DATE.—The amendment made by this section shall become effective on the date of the enactment of this Act.

SEC. 741. DENIAL OF PAYMENT FOR SUBSTANDARD CARE.

(a) DENIAL AUTHORITY FOR PRO.—Section 1154(a)(2) of the Social Security Act is amended—

(1) by striking out "subparagraphs (A) and (C)" and inserting in lieu thereof "subparagraphs (A), (B), and (C)"; and

(2) by adding at the end thereof (after and below subparagraph (D)) the following:

"Determinations that payment should not be made by reason of subparagraph (B) of paragraph (1) shall be made only on the basis of criteria developed by the organization pursuant to a plan approved by the Secretary.".

(b) EFFECTIVE DATE.—The amendments made by this section shall become effective on the date of the enactment of this Act.

Subtitle B—Medicaid and Maternal and Child Health

PART 1—MEDICAID

SEC. 742. SERVICES FOR PREGNANT WOMEN.

(a) SERVICES.—Section 1902(a)(10) of the Social Security Act is amended, in the matter following subparagraph (D)—

(1) by striking out "and" before "(IV)" and inserting in lieu thereof a comma; and

(2) by inserting before the semicolon at the end thereof the following: ", and (V) the making available to pregnant women of any pregnancy-related services (including prenatal, delivery, or post partum services) shall not require the making available of such services, or of services of the same amount, duration, and scope, to any other individuals, provided such services are made available (in the same amount, duration, and scope) to all pregnant women covered under the State plan".

(b) EXTENSION OF ELIGIBILITY.—Section 1902(e) of such Act is amended by adding at the end thereof the following new paragraph:

"(5) At the option of the State, the State may provide that the eligibility of pregnant women for medical assistance under the State plan shall be extended for a period of 60 days after the end of such pregnancy if such eligibility would otherwise have ceased during such period, provided that such eligibility is extended for all pregnant women covered under the State plan. The State may provide that such extended eligibility be limited to services related to post partum care.".

(c) EFFECTIVE DATE.—The amendments made by this section shall apply to services furnished on or after the first day of the first calendar quarter beginning after the date of the enactment of this Act.

SEC. 743. TECHNOLOGY-DEPENDENT CHILDREN.

(a) APPOINTMENT OF TASK FORCE.—The Secretary of Health and Human Services, within six months after the date of the enactment of this Act, shall establish a task force concerning alternatives to institutional care for technology-dependent children (as defined in subsection (e)).

(b) MEMBERSHIP.—The task force shall include representatives of Federal and State agencies with responsibilities relating to child health, health insurers, large employers (including those that self-insure for health care costs), providers of health care to technology-dependent children, and parents of technology-dependent children.

(c) FUNCTIONS OF TASK FORCE.—The task force shall—

(1) identify barriers that prevent the provision of appropriate care in a home or community setting to meet the special needs of technology-dependent children, and

(2) recommend changes in the provision and financing of health care in private and public health care programs (including appropriate joint public-private initiatives) so as to provide home and community-based alternatives to the institutionalization of technology-dependent children.

(d) REPORT.—The task force shall make a final report to the Secretary and to the Congress on its activities not later than two years after the date of the enactment of this Act.

(e) DEFINITION.—In this section, the term "technology-dependent child" means a child who has a chronic illness which makes the child dependent upon the continuing use of medical care technology (such as a ventilator).

SEC. 744. OPTIONAL HOSPICE CARE.

(a) HOSPICE CARE.—Section 1905(a) of the Social Security Act is amended—

(1) by striking out "and" at the end of paragraph (17);

(2) by redesignating paragraph (18) as paragraph (19); and

(3) by inserting after paragraph (17) the following new paragraph:

"(18) hospice care (as defined in section 1861(dd)(1)) provided by a hospice program (as defined in section 1861(dd)(2)); and".

(b) EFFECTIVE DATE.—The amendments made by this section shall be effective with respect to services furnished on or after the date of the enactment of this Act.

SEC. 745. EXTENSION OF TEXAS LONG-TERM CARE WAIVER.

The Secretary of Health and Human Services shall continue the waiver in effect under section 1115 of the Social Security Act for the demonstration project operated by the State of Texas which provides community care alternatives for certain institutionalized individuals under the State's plan approved under title XIX of such Act (project 11-P-97473/6-06). Such waiver shall be continued until January 1, 1989.

SEC. 746. THIRD-PARTY LIABILITY.

(a) AMENDMENTS TO STATE PLAN REQUIREMENTS.—(1) Section 1902(a)(25) of the Social Security Act is amended to read as follows:

"(25) provide—

"(A) that the State or local agency administering such plan will take all reasonable measures to ascertain the legal liability of third parties (including health insurers) to pay for care and services available under the plan, including—

"(i) the collection of sufficient information (as specified by the Secretary in regulations) to enable the State to pursue claims against such third parties, with such information being collected at the time of any determination or redetermination of eligibility for medical assistance, and

"(ii) the submission to the Secretary of a plan (subject to approval by the Secretary) for pursuing claims against such third parties, which plan shall—

"(I) be integrated with, and be monitored as a part of the Secretary's review of, the State's mechanized claims processing and

information retrieval system under section 1903(r), and

"(II) be subject to the provisions of section 1903(r)(4) relating to reductions in Federal payments for failure to meet conditions of approval, but shall not be subject to any other monitoring, quality control, audit, or penalty provision;

"(B) that where the State or local agency knows that a third party has such a legal liability such agency will treat such legal liability as a resource of the individual on whose behalf the care and services are made available for purposes of paragraph (17)(B);

"(C) that in any case where such a legal liability is found to exist after medical assistance has been made available on behalf of the individual and where the amount of reimbursement the State can reasonably expect to recover exceeds the costs of such recovery, the State or local agency will seek reimbursement for such assistance to the extent of such legal liability;

"(D) that in the case of an individual who is entitled to medical assistance under a State plan with respect to a service for which a third party is liable for payment, the person furnishing the service may not seek to collect from the individual (or any financially responsible relative or representative of that individual) payment of an amount for that service (i) if the total of the amount of the liabilities of third parties for that service is at least equal to the amount payable for that service under the plan (disregarding section 1916), or (ii) in an amount which exceeds the lesser of (I) the amount which may be collected under section 1916, or (II) the amount by which the amount payable for that service under the plan (disregarding section 1916) exceeds the total of the amount of the liabilities of third parties for that service; and

"(E) that a person who furnishes services and is participating under the plan may not refuse to furnish services to an individual (who is entitled to have payment made under the plan for the services the person furnishes) because of a third party's potential liability for payment for the service;".

(2) Section 1902 of such Act is amended by inserting after subsection (f) the following new subsection:

"(g) In addition to any other sanction available to a State, a State may provide for a reduction of any payment amount otherwise due with respect to a person who furnishes services under the plan in an amount equal to up to three times the amount of any payment sought to be collected by that person in violation of subsection (a)(25)(D).".

(b) PERFORMANCE STANDARDS AND REVIEW FOR MECHANIZED CLAIMS PROCESSING AND INFORMATION RETRIEVAL SYSTEMS.—(1) Section 1903(r)(6)(J) of such Act is amended by read as follows:

"(J) develop and disseminate performance standards for assessing the State's third party collection efforts in accordance with section 1902(a)(25)(A)(ii).".

(2) Section 1903(r)(4)(A) of such Act is amended—

(A) by striking out "once each fiscal year" and inserting in lieu thereof "once every three years"; and

(B) by adding at the end thereof the following: "Reviews may, at the Secretary's discretion, constitute reviews of the entire system or of only those standards, systems requirements, and other conditions which have demonstrated weakness in previous reviews.".

(c) REGULATIONS.—The Secretary of Health and Human Services shall promulgate final regulations necessary to carry out sections 1902(a)(25) and 1903(r)(6)(J) of the Social Security Act within 6 months after the date of the enactment of this Act.

(d) ERISA AMENDMENT.—Section 402 of the Employee Retirement Income Security Act of 1974 (29 U.S.C. 1102) is amended by adding at the end thereof the following new subsection:

"(d) No employee benefit plan shall limit or exclude benefits because a participant is eligible for or is provided medical assistance under a State plan under title XIX of the Social Security Act.".

(e) CONDITIONS OF ELIGIBILITY.—(1) Section 1912(a)(1) of the Social Security Act is amended by striking out "and" at the end of subparagraph (A), and by adding at the end thereof the following new subparagraph:

"(C) to cooperate with the State in identifying and pursuing any third party who may be liable to pay for care and services available under the plan, unless such individual has good cause for refusing to cooperate as determined by the State agency in accordance with standards prescribed by the Secretary, which standards shall take into consideration the best interests of the individuals involved; and".

(2) Section 402(a)(26) of such Act is amended—

(A) by striking out the comma at the end of subparagraph (A) and inserting in lieu thereof "; and"; and

(B) by adding at the end thereof the following new subparagraph:

"(C) to cooperate with the State in identifying and pursuing any third party who may be liable to pay for care and services available under the State's plan for medical assistance under title XIX, unless such individual has good cause for refusing to cooperate as determined by the State agency in accordance with standards prescribed by the Secretary, which standards shall take into consideration the best interests of the individuals involved;".

(3) Section 1631(e)(1)(A) of such Act is amended by adding at the end thereof the following: "Such requirements shall include a requirement that each applicant or recipient shall cooperate with the Secretary in identifying and pursuing any third party who may be liable to pay for care and services available under the State plan for medical assistance (of the State in which such individual resides) under title XIX, unless such individual has good cause for refusing to cooperate as determined under standards prescribed by the Secretary, which standards shall take into consideration the best interests of the individuals involved. The Secretary shall take all reasonable measures to ascertain any such liability.".

(4) Section 1634 of such Act is amended by inserting after "title XIX" the following: ", including the collecting and forwarding of information with respect to third party liability as required under section 1631(e)(1)(A).".

(f) DISREGARD FROM ERRONEOUS PAYMENTS.—Section 1903(u)(1)(D) of such Act is amended by adding at the end thereof the following new clause:

"(iv) In determining the amount of erroneous excess payments, there shall not be included any error resulting from a failure of an individual to cooperate or give correct information with respect to third party liability as required under section 1912(a)(1)(C), 402(a)(26)(C), or 1631(e)(1)(A).".

(g) EFFECTIVE DATE.—(1) Except as otherwise provided, the amendments made by this section shall apply to calendar quarters beginning on or after October 1, 1985.

(2) In the case of a State plan for medical assistance under title XIX of the Social Security Act which the Secretary of Health and Human Services determines requires State legislation in order for the plan to meet the additional requirements imposed by the amendments made by this section, the State plan shall not be regarded as failing to comply with the requirements of such title solely on the basis of its failure to meet these additional requirements before the first day of the first calendar quarter beginning after the close of the first regular session of the State Legislature that begins after the date of the enactment of this Act.

(3) No penalty may be applied against any State for a violation of section 1902(a)(25) of the Social Security Act occurring prior to the effective date of the amendments made by this section.

(4) The amendment made by subsections (c) and (d) shall become effective on the date of the enactment of this Act.

SEC. 747. OPTIONAL TARGETED CASE MANAGEMENT SERVICES.

(a) EXEMPTION FROM CERTAIN REQUIREMENTS.—Section 1915 of the Social Security Act is amended by adding at the end thereof the following new subsection:

"(g)(1) A State may provide case management services under the plan without regard to the requirements of section 1902(a)(1) and section 1902(a)(10).

"(2) For purposes of this subsection, the term 'case management services' means services which will assist individuals eligible under the plan in gaining access to needed medical, social, educational, and other services.".

(b) EFFECTIVE DATE.—The amendment made by this section shall apply to services furnished on or after October 1, 1985.

SEC. 748. REVALUATION OF ASSETS UNDER MEDICAID PROGRAM.

(a) REVALUATION OF ASSETS.—Section 1902(a)(13) of the Social Security Act is amended—

(1) in subparagraph (B), by striking out "hospitals, skilled nursing facilities, and intermediate care facilities" and inserting in lieu thereof "hospitals";

(2) by striking out "and" at the end of subparagraph (B);

(3) by redesignating subparagraph (C) as subparagraph (D); and

(4) by inserting after subparagraph (B) the following new subparagraph:

"(C) that the State shall provide assurances satisfactory to the Secretary that the valuation of capital assets, for purposes of determining payment rates for skilled nursing facilities and intermediate care facilities, will not be increased (as measured from the date of acquisition by the seller to the date of the change of ownership), solely as a result of a change of ownership, by more than the lesser of—

"(i) one-half of the percentage increase (as measured over the same period of time, or, if necessary, as extrapolated retrospectively by the Secretary) in the Dodge Construction Systems Costs for Nursing Homes, applied in the aggregate with respect to those facilities which have undergone a change of ownership during the fiscal year, or

"(ii) one-half of the percentage increase (as measured over the same period of time) in the Consumer Price Index for All Urban Consumers (United States city average);".

(b) EFFECTIVE DATES.—(1) Except as provided in paragraphs (2) and (3), the amendments made by this section shall apply to medical assistance furnished on or after October 1, 1985, but only with respect to changes of ownership occurring on or after such date.

(2) The amendments made by this section shall not apply with respect to a change of ownership pursuant to an enforceable agreement entered into prior to October 1, 1985.

(3) In the case of a State plan for medical assistance under title XIX of the Social Security Act which the Secretary of Health and Human Services determines requires State legislation in order for the plan to meet the requirements imposed by the amendments made by this section, the State plan shall not be regarded as failing to comply with the requirements of such title solely on the basis of its failure to meet the requirements imposed by the amendments made by this section before the first day of the first calendar quarter beginning after the close of the first regular session of the State legislature that begins after the date of the enactment of this Act.

(c) GAO STUDY.—The Comptroller General shall conduct a study of the effects of the amendments made by this section, and shall report the results of such study to the Congress two years after the date of the enactment of this Act.

SEC. 749. BEGINNING DATE OF OPTIONAL COVERAGE FOR INDIVIDUALS IN MEDICAL INSTITUTIONS.

(a) COVERAGE.—Section 1902(a)(10)(A)(ii)(V) of the Social Security Act is amended by inserting "for a period of not less than 30 consecutive days (with eligibility by reason of this subclause beginning on the first day of such period)" after "are in a medical institution".

(b) EFFECTIVE DATE.—The amendment made by this section shall apply with respect to payment for services furnished on or after October 1, 1985.

SEC. 750. OPTIONAL COVERAGE OF CHILDREN.

(a) STATE OPTION.—Section 1905(n)(2) of the Social Security Act is amended by inserting "(or such earlier date as the State may designate)" after "September 30, 1983".

(b) EFFECTIVE DATE.—The amendment made by subsection (a) shall apply to services furnished on or after January 1, 1986.

SEC. 751. OVERPAYMENT RECOVERY RULES.

(a) OVERPAYMENT RECOVERY.—Section 1903(d)(2) of the Social Security Act is amended—

(1) by inserting "(A)" after "(2)";

(2) by designating the second sentence as subparagraph (B), properly indented and aligned below subparagraph (A); and

(3) by adding at the end thereof the following new subparagraphs:

"(C) For purposes of this subsection, when an overpayment is discovered, which was made by a State to a person or other entity, the State shall have a period of 60 days in which to recover or attempt to recover such overpayment before adjustment is made in the Federal payment to such State on account of such overpayment. Except as otherwise provided in subparagraph (D), the adjustment in the Federal payment shall be made at the end of the 60 days, whether or not recovery was made.

"(D) In any case where the State is unable to recover a debt which represents an overpayment (or any portion thereof) made to a person or other entity on account of such debt having been discharged in bankruptcy or otherwise being uncollectable, no adjustment shall be made in the Federal payment to such State on account of such overpayment (or portion thereof).".

(b) EFFECTIVE DATE.— The amendments made by this section shall apply to overpayments identified for quarters beginning on or after October 1, 1985.

SEC. 752. WAIVER EXTENSIONS FOR HOME AND COMMUNITY-BASED SERVICES.

The Secretary of Health and Human Services shall extend, upon request of the State, any waiver under section 1915(c) of the Social Security Act which expires on or after September 30, 1985, and before October 1, 1986. Such extension shall be for a period of not less than one year nor more than five years.

SEC. 753. WAIVER RENEWALS FOR HOME AND COMMUNITY-BASED SERVICES.

(a) RENEWAL TERMS.—Section 1915(c)(3) of the Social Security Act is amended—

(1) by striking out "additional three-year periods" and inserting in lieu thereof "additional five-year periods"; and

(2) by striking out "previous three-year period" and inserting in lieu thereof "previous waiver period".

(b) EFFECTIVE DATE.—The amendments made by this section shall become effective on September 30, 1986.

SEC. 754. COORDINATED SERVICES BETWEEN MCH PROGRAM AND HOME AND COMMUNITY-BASED SERVICE PROGRAMS.

(a) IN GENERAL.—Section 1915(c) of the Social Security Act is amended by adding at the end thereof the following new paragraph:

"(5) The State agency administering the plan under this title shall, whenever appropriate, enter into cooperative arrangements with the State agency responsible for administering the program for children with special health care needs under title V. Such arrangements shall provide that—

"(A) individuals under 18 years of age eligible for home or community-based care under a waiver granted in accordance with this subsection shall be referred to such State title V agency; and

"(B) the State title V agency shall assure—

"(i) the establishment of an individual service plan for the child;

"(ii) the designation of a case manager to assist the family in carrying out the plan; and

"(iii) the monitoring of the utilization, quality, and costs of services provided for appropriateness and reasonableness.".

(b) EFFECTIVE DATE.—The amendment made by this section shall become effective on the date of the enactment of this Act.

SEC. 755. EXPANSION OF SERVICES UNDER WAIVER AUTHORITY.

(a) INCREASE IN NUMBER OF SERVICES.—Section 1915(b) of the Social Security Act is amended—

(1) by inserting "(1)" after "(b)";

(2) by redesignating paragraphs (1) through (4) as subparagraphs (A) through (D); and

(3) by adding at the end thereof the following new paragraph:

"(2) The Secretary may waive the requirements of section 1903(m)(2)(A) with respect to an entity providing services under the State's waiver under this subsection if such entity does not provide more than 5 of the services listed in section 1903(m)(2)(A), and does not provide inpatient hospital services.".

(b) EFFECTIVE DATE.—The amendments made by this section shall become effective on the date of the enactment of this Act.

SEC. 756. LIFE SAFETY CODE RECOGNITION.

For purposes of sections 1861(j)(13) and 1905(c) of the Social Security Act, the Secretary of Health and Human Services shall specify the 1985 edition of the Life Safety Code of the National Fire Protection Association until such time as a new edition is published.

SEC. 757. REGULATIONS FOR INTERMEDIATE CARE FACILITIES FOR THE MENTALLY RETARDED.

The Secretary of Health and Human Services shall promulgate proposed regulations revising standards for intermediate care facilities for the mentally retarded under title XIX of the Social Security Act within 60 days after the date of the enactment of this Act.

SEC. 758. MODIFYING APPLICATION OF MEDICAID HMO PROVISIONS FOR CERTAIN HEALTH CENTERS.

(a) WAIVING APPLICATION OF 75 PERCENT RULE AND CERTAIN ORGANIZATIONAL REQUIREMENTS.—Section 1903(m)(2) of the Social Security Act is amended—

(1) in subparagraph (A), by striking out "(B) and (C)" and inserting in lieu thereof "(B), (C), and (G)";

(2) in subparagraph (F)—

(A) by striking out "(F)(i) In the case of a contract with a health maintenance organization described in clause (ii)" and inserting in lieu thereof "(F) in the case of a contract with an entity described in subparagraph (G) or with a qualified health maintenance organization (as defined in section 1310(d) of the Public Health Service Act) which meets the requirement of subparagraph (A)(ii)";

(B) by striking out "such organization" and inserting in lieu thereof "such entity or organization"; and

(C) by striking out clause (ii); and

(3) by adding at the end thereof the following new subparagraph:

"(G) In the case of an entity which is receiving (and has received during the previous two years) a grant of at least $100,000 under section 329(d)(1)(A) or 330(d)(1) of the Public Health Service Act or is receiving (and has received during the previous two years) at least $100,000 (by grant, subgrant, or subcontract) under the Appalachian Regional Development Act of 1965, clauses (i) and (ii) of subparagraph (A) shall not apply.".

(b) PERMITTING 6-MONTH CONTINUATION OF BENEFITS.—Section 1902(e)(2) of such Act is amended—

(1) in subparagraph (A)—

(A) by inserting "or with an entity described in section 1903(m)(2)(G)" after "Public Health Service Act)"; and

(B) by inserting "or entity" before the period; and

(2) in subparagraph (B)—

(A) by striking out "a health maintenance organization" and inserting in lieu thereof "an organization or entity"; and

(B) by inserting "or entity" after "the organization".

SEC. 759. ANNUAL CALCULATION OF FEDERAL MEDICAL ASSISTANCE PERCENTAGE.

(a) ANNUAL CALCULATION.—Section 1101(a)(8)(B) of the Social Security Act is amended—

(1) by striking out "evennumbered"; and

(2) by striking out "eight quarters" and inserting in lieu thereof "four quarters".

(b) EFFECTIVE DATE.—The amendments made by this section shall apply to the Federal percentage for fiscal years 1988 and thereafter.

SEC. 759A. USE OF SAMPLING FOR REVIEW OF MENTAL HOSPITALS, SKILLED NURSING FACILITIES, AND INTERMEDIATE CARE FACILITIES.

(a) USE OF SAMPLING.—(1) Section 1902(a)(26)(B) of the Social Security Act is amended by inserting "(or, as permitted by the Secretary, each person in a sample group of individuals receiving medical assistance)" after "each person receiving medical assistance".

(2) Section 1902(a)(31)(B) of such Act is amended by inserting "(or, as permitted by the Secretary, each person in a sample group of individuals receiving medical assistance)" after "each person receiving medical assistance".

(3) Section 1903(g)(1) of such Act is amended by inserting "(or, as permitted by the Secretary, each case in a sample group)" after "each case".

(b) EFFECTIVE DATE.—The amendment made by this section shall apply to surveys in progress or begun after the date of the enactment of this Act.

SEC. 759B. WISCONSIN HEALTH MAINTENANCE ORGANIZATION WAIVER.

The waiver granted to the State of Wisconsin pursuant to section 1915(b) of the Social Security Act relating to the requirements of section 1903(m) of such Act in conjunction with a waiver of the requirements of section 1902(a)(23) of such Act shall, upon request by the State, be reinstated, and shall be renewable for terms of 2 years, subject to the showings required generally under section 1915(b) of such Act.

SEC. 759C. CLARIFICATION OF MEDICAID MORATORIUM PROVISIONS OF DEFICIT REDUCTION ACT OF 1984.

(a) CLARIFICATION.—Section 2373(c) of the Deficit Reduction Act of 1984 is amended—

(1) in paragraph (1)—

(A) by inserting "(whether or not approved)" after "such State's plan",

(B) by inserting "(including any part of the plan operating pursuant to section 1902(f) of that Act), or the operation thereunder," after "Social Security Act", and

(C) by inserting "(or its operation's)" after "such plan's"; and

(2) by adding at the end thereof the following new paragraph:

"(5) In this subsection, a State plan is considered to include any amendment or other change in the plan which is submitted by a State, or for which the Secretary otherwise has notice, whether before or after the date of enactment of the Deficit Reduction Act of 1984 and whether or not the amendment or change was approved, disapproved, acted upon, or not acted upon by the Secretary.".

(b) SALE OF HOME.—Section 2373(c) of the Deficit Reduction Act of 1984 is further amended by adding at the end thereof the following new paragraph:

"(6) During the moratorium period, the Secretary shall implement (and shall not change by any administrative action) the policy in effect at the beginning of such moratorium period with respect to—

"(A) the point in time at which an institutionalized individual must sell his home (in order that it not be counted as a resource); and

"(B) the time period allowed for sale of a home of any such individual,

who is an applicant for or recipient of medical assistance under the State plan as a medically needy individual (described in section 1902(a)(10)(C) of the Social Security Act) or as an optional categorically needy individual (described in section 1902(a)(10)(A)(ii) of such Act).".

(c) EFFECTIVE DATES.—The amendments made by this section shall apply as though they were included in the Deficit Reduction Act of 1984 as originally enacted.

SEC. 759D. HOME AND COMMUNITY-BASED SERVICES DEMONSTRATIONS.

(a) DEMONSTRATION PROJECTS.—The Secretary of Health and Human Services shall allow four States (to be selected by the Secretary) to conduct demonstration projects to determine whether, and to what extent, State controlled home and community-based service programs for elderly, disabled, and developmentally disabled individuals, who are eligible under the State's plan approved under title XIX of the Social Security Act, can reduce expenditures for the society as a whole, for the Federal Government, and for the States.

(b) DURATION.—Each demonstration project shall be for a period of three years.

(c) MEDICAID EXPENDITURE LEVELS.—Expenditures under the demonstration projects shall exceed the amounts which would otherwise be expended under the States' plans under title XIX of the Social Security Act for services provided to the same individuals by not less than $700,000 nor more than $800,000 for all four projects over the 3-year period of the projects. Such additional amounts may be used to provide additional services such as habilitative services not otherwise covered under the State plan, or care provided in small facilities not otherwise eligible for payments under such plan, but all standards for quality of care otherwise applicable under the State plan shall apply.

(d) STATES SELECTED.—In selecting the four States to carry out the demonstration projects, the Secretary shall select programmatically and demographically disparate States.

(e) EVALUATION.—The Secretary shall evaluate the demonstration projects and submit a preliminary report during the third year of the projects. Such evaluation shall be funded at a level of not less than $150,000 nor more than $200,000.

SEC. 759E. PARTICIPANTS UNDER HOME AND COMMUNITY-BASED SERVICES WAIVERS.

(a) REPLACEMENT OF PARTICIPANTS.—Section 1915(c) of the Social Security Act (as amended by section 754 of this Act) is further amended by adding at the end thereof the following new paragraph:

"(6) In the case of any waiver under this subsection which contains a limit on the number of individuals who shall receive home or community-based services, the State may substitute additional individuals to receive such services to replace any individuals who die or become ineligible for services under the State plan.".

(b) EFFECTIVE DATE.—The amendments made by this section shall become effective on the date of the enactment of this Act.

SEC. 759F. NEW JERSEY DEMONSTRATION PROJECT RELATING TO TRAINING OF AFDC RECIPIENTS AS HOME HEALTH AIDES.

The Secretary of Health and Human Services shall continue for one additional year the demonstration project conducted by the State of New Jersey pursuant to section 966 of the Omnibus Reconciliation Act of 1980. Federal matching for such demonstration project shall be 50 percent.

SEC. 759G. CORRECTION PLANS FOR INTERMEDIATE CARE FACILITIES FOR THE MENTALLY RETARDED.

(a) CORRECTION PLANS.—Section 1910(c) of the Social Security Act is amended by adding at the end thereof the following new paragraph:

"(3)(A) If the Secretary finds that an intermediate care facility for the mentally retarded has substantial deficiencies which do not pose an immediate threat to the health and safety of residents, the State may elect to submit a written plan of correction which details the extent of the facility's current compliance with the standards promulgated by the Secretary, including all deficiencies identified during a validation survey. The plan must provide for—

"(i) a timetable for completion of necessary steps to correct all staffing deficiencies within 6 months, and a timetable for rectifying all physical plant deficiencies within 6 months; or

"(ii) a timetable (which includes the information required by subparagraph (B)) for permanently reducing the number of certified beds, within a maximum of 36 months, in order to permit any noncomplying buildings (or distinct parts thereof) to be vacated and any staffing deficiencies to be corrected.

"(B) A timetable under subparagraph (A)(ii) must—

"(i) identify the number and service needs of existing facility residents to be placed in home or community alternatives and the sequencing of such placements, in 6 month intervals, within the 36-month period;

"(ii) describe the methods to be used to select such residents for placement and develop the home and community-based resources to meet their needs effectively; and

"(iii) describe the necessary safeguards that will be taken to protect the health and welfare of former residents that are placed in home or community-based alternatives, including adequate standards for consumer and provider participation and assurances that applicable State licensure and certification requirements will be met in such home or community facilities and programs.

"(C) If the Secretary at the conclusion of the initial 6 month period, or any subsequent 6 month period in the case of a plan described in subparagraph (A)(ii), finds that a State has substantially failed to meet its obligations under clause (i) or (ii) of subparagraph (A)—

"(i) the Secretary may terminate the facility's provider agreement in accordance with the provisions of paragraph (1); or

"(ii) if the State elected to reduce the number of facility residents in accordance with subparagraph (A)(ii) and the Secretary subsequently finds that, despite good faith efforts to execute its reduction plan, the State has failed to meet its interim reduction goals, the Secretary may disallow, for purposes of Federal financial participation, an amount equal to 5 percent of the cost of care for all eligible individuals in the institution for each month for which the State fails to meet its interim reduction or other plant and staffing goals.".

(b) EFFECTIVE DATE.—The amendment made by this section shall become effective on the date of the enactment of this Act.

PART 2—MATERNAL AND CHILD HEALTH

SEC. 759H. ELIMINATION OF TWO-YEAR LIMIT FOR OBLIGATION OF FUNDS UNDER MATERNAL AND CHILD HEALTH BLOCK GRANT.

(a) ELIMINATION OF LIMIT.—Section 503(b) of the Social Security Act is amended by striking out "during the next fiscal year" and all that follows, and inserting in lieu thereof "during any subsequent fiscal year.".

51-059 O-86-15 (Pt 20)

(b) EFFECTIVE DATE.—The amendment made by this section shall become effective on the date of the enactment of this Act.

SEC. 7591. CHILDREN WITH SPECIAL HEALTH CARE NEEDS.

(a) Section 501(a)(4) of the Social Security Act is amended by striking out "children who are crippled or who are suffering from conditions leading to crippling" and inserting in lieu thereof "children who are 'children with special health care needs' or who are suffering from conditions leading to such status".

(b) Section 501(a) of such Act is amended by striking out "crippled children" in the matter following paragraph (4) and inserting in lieu thereof "children with special health care needs".

(c) Section 501(b)(1)(A) of such Act is amended by striking out "crippled children's services" and inserting in lieu thereof "services for children with special health care needs".

(d) Section 502(a)(2)(B) of such Act is amended—

(1) by striking out "crippled children's programs" and inserting in lieu thereof "programs for children with special health care needs"; and

(2) by striking out "crippled children's services" and inserting in lieu thereof "services for children with special health care needs".

(e) Sections 504(b)(1) and 509(b) of such Act are each amended by striking out "crippled children" and inserting in lieu thereof "children with special health care needs".

Subtitle C—OASDI

SEC. 760. DEMONSTRATION PROJECTS INVOLVING THE DISABILITY INSURANCE PROGRAM.

(a) EXTENSION OF WAIVER AUTHORITY.—Section 505(a)(3) of the Social Security Disability Amendments of 1980 is amended by inserting "which is initiated before June 10, 1990" after "demonstration project under paragraph (1)".

(b) INTERIM REPORTS.—Section 505(a)(4) of such Amendments is amended to read as follows:

"(4) On or before June 9 in each of the years 1986, 1987, 1988, and 1989, the Secretary shall submit to the Congress an interim report on the progress of the experiments and demonstration projects carried out under this subsection together with any related data and materials which the Secretary may consider appropriate.".

(c) FINAL REPORT.—Section 505(c) of such Amendments is amended by striking out "under this section no later than five years after the date of the enactment of this Act" and inserting in lieu thereof "under subsection (a) no later than June 9, 1990".

(d) INCORPORATION OF CERTAIN REPORTS INTO SECRETARY'S ANNUAL REPORT TO CONGRESS.—Section 1110(b) of the Social Security Act is amended by adding at the end thereof the following new paragraph:

"(3) All reports of the Secretary with respect to projects carried out under this subsection shall be incorporated into the Secretary's annual report to the Congress required by section 704.".

SEC. 761. DISABILITY ADVISORY COUNCIL.

(a) APPOINTMENT OF COUNCIL.—Within ninety days after the date of the enactment of this Act, the Secretary of Health and Human Services shall appoint a special Disability Advisory Council.

(b) MEMBERSHIP OF COUNCIL.—The Disability Advisory Council shall consist of a Chairman and not more than twelve other persons, appointed by the Secretary without regard to the provisions of title 5, United States Code, governing appointments in the competitive service. The appointed members shall, to the extent possible, represent organizations of employers and employees in equal numbers, medical and vocational experts from the public or private sector (or from both such sectors), organizations representing disabled people, and the public. The Council shall meet as often as may be necessary for the performance of its duties under this section, but not less often than quarterly.

(c) DUTIES OF COUNCIL.—(1) The Advisory Council shall conduct studies and make recommendations with respect to the medical and vocational aspects of disability under both title II and title XVI of the Social Security Act, including studies and recommendations relating to—

(A) the effectiveness of vocational rehabilitation programs for recipients of disability insurance benefits or supplemental security income benefits;

(B) the question of using specialists for completing medical and vocational evaluations at the State agency level in the disability determination process, including the question of requiring, in cases involving impairments other than mental impairments, that the medical portion of each case review (as well as any applicable assessment of residual functional capacity) be completed by an appropriate medical specialist employed by the appropriate State agency before any determination can be made with respect to the impairment involved;

(C) alternative approaches to work evaluation in the case of applicants for benefits based on disability and recipients of such benefits undergoing reviews of their cases, including immediate referral of any such applicant or recipient to a vocational rehabilitation agency for services at the same time he or she is referred to the appropriate State agency for a disability determination;

(D) the feasibility and appropriateness of providing work evaluation stipends for applicants for and recipients of benefits based on disability in cases where extended work evaluation is needed prior to the final determination of their eligibility for such benefits or for further rehabilitation and related services;

(E) the standards, policies, and procedures which are applied or used by the Secretary of Health and Human Services with respect to work evaluations in order to determine whether such standards, policies, and procedures will provide appropriate screening criteria for work evaluation referrals in the case of applicants for and recipients of benefits based on disability; and

(F) possible criteria for assessing the probability that an applicant for or recipient of benefits based on disability will benefit from rehabilitation services, taking into consideration not only whether the individual involved will be able after rehabilitation to engage in substantial gainful activity but also whether rehabilitation services can reasonably be expected to improve the individual's functioning so that he or she will be able to live independently or work in a sheltered environment.

(2) For purposes of this subsection, "work evaluation" includes (with respect to any individual) a determination of—

(A) such individual's skills,

(B) the work activities or types of work activity for which such individual's skills are insufficient or inadequate,

(C) the work activities or types of work activity for which such individual might potentially be trained or rehabilitated,

(D) the length of time for which such individual is capable of sustaining work (including, in the case of the mentally impaired, the ability to cope with the stress of competitive work), and

(E) any modifications which may be necessary, in work activities for which such individual might be trained or rehabilitated, in order to enable him or her to perform such activities.

(d) PROVISION OF ASSISTANCE TO COUNCIL; COMPENSATION OF MEMBERS.—(1) The Disability Advisory Council is authorized to engage such technical assistance, including actuarial services, as may be required to carry out its functions, and the Secretary of Health and Human Services shall, in addition, make available to the Council such secretarial, clerical, and other assistance and such actuarial and other pertinent data prepared by the Department of Health and Human Services as the Council may require to carry out such functions.

(2) Appointed members of the Council, while serving on business of the Council (inclusive of traveltime), shall receive compensation at rates fixed by the Secretary, but not exceeding $100 per day, and, while so serving away from their homes or regular places of business, they may be allowed travel expenses, including per diem in lieu of subsistence, as authorized by section 5703 of title 5, United States Code, for persons in the Government employed intermittently.

(e) REPORTS.—The Disability Advisory Council shall submit a report (including any interim reports the Council may have issued) of its findings and recommendations to the Secretary of Health and Human Services not later than December 31, 1986; and such report and recommendations shall thereupon be transmitted to the Congress and to the Board of Trustees of the Federal Disability Insurance Trust Fund.

(f) TERMINATION.—After the date of the transmittal to the Congress of the report required by subsection (e), the Disability Advisory Council shall cease to exist.

(g) CONFORMING AMENDMENTS.—(1) Section 706 of the Social Security Act is amended—

(A) by inserting "except as provided in subsection (e)," immediately before "the Secretary shall appoint" in subsection (a); and

(B) by adding at the end thereof the following new subsection:

"(e) No Advisory Council on Social Security shall be appointed under subsection (a) in 1985 (or in any subsequent year prior to 1989).".

(2) Section 12 of the Social Security Disability Benefits Reform Act of 1984 is repealed.

SEC. 762. TAXATION OF SOCIAL SECURITY BENEFITS RECEIVED BY CERTAIN CITIZENS OF POSSESSIONS OF THE UNITED STATES.

(a) GENERAL RULE.—Section 932 of the Internal Revenue Code of 1954 (relating to citizens of possessions of the United States) is amended by redesignating subsection (c) as subsection (d) and by inserting after subsection (b) the following new subsection:

"(c) TAXATION OF SOCIAL SECURITY BENEFITS.—If, for purposes of an income tax imposed in the possession, any social security benefit (as defined in section 86(d)) received by an individual described in subsection (a) is treated in a manner equivalent to that provided by section 86, then—

"(1) such benefit shall be exempt from the tax imposed by section 871, and

"(2) no amount shall be deducted and withheld from such benefit under section 1441.

Any income tax imposed in a possession which treats social security benefits (as defined in section 86(d)) in a manner equivalent to section 86, and which first becomes effective within 15 months after the date of the enactment of this subsection, shall, for purposes of this section, be deemed to have been in effect as of January 1, 1984.".

(b) CROSS REFERENCE.—Paragraph (3) of section 871(a) of such Code is amended by adding at the end thereof (after and below subparagraph (B)) the following new sentence:

"For treatment of certain citizens of possessions of the United States, see section 932(c)."

(c) EFFECTIVE DATE.—The amendments made by this section shall apply to benefits received after December 31, 1983, in taxable years ending after such date.

SEC. 763. APPLICATION OF DEPENDENCY TEST TO ADOPTED GREAT-GRANDCHILDREN FOR PURPOSES OF CHILD'S INSURANCE BENEFITS.

(a) TREATMENT OF GRANDCHILDREN AND GREAT-GRANDCHILDREN ALIKE.—Section 202(d)(8)(D)(ii)(III) of the Social Security Act is amended by inserting "or great-grandchild" after "grandchild".

(b) EFFECTIVE DATE.—The amendment made by subsection (a) shall apply with respect to benefits for which application is filed after the date of the enactment of this Act.

SEC. 764. ELIMINATION OF REQUIREMENT FOR PUBLICATION OF REVISIONS IN PRE-1979 BENEFIT TABLE.

Section 215(i)(4) of the Social Security Act is amended by striking out "the Secretary shall publish" and all that follows in the last sentence and inserting in lieu thereof the following: "the Secretary shall revise the table of benefits contained in subsection (a), as in effect in December 1978, in accordance with the requirements of paragraph (2)(D) of this subsection as then in effect, except that the requirement in such paragraph (2)(D) that the Secretary publish such revision of the table of benefits in the Federal Register shall not apply.".

SEC. 765. FORMULA CLARIFICATION.

Section 709(b)(1) of the Social Security Act is amended to read as follows:

"(1) the balance in such Trust Fund as of the beginning of such year, including the taxes transferred under section 201(a) on the first day of such year and reduced by the outstanding amount of any loan (including interest thereon) theretofore made to such Trust Fund under section 201(l) or 1817(j), to".

SEC. 766. EXTENSION OF 15-MONTH REENTITLEMENT PERIOD TO CHILDHOOD DISABILITY BENEFICIARIES SUBSEQUENTLY ENTITLED.

(a) IN GENERAL.—Section 202(d)(6)(E) of the Social Security Act is amended by striking out "the third month following the month in which he ceases to be under such disability" and inserting in lieu thereof "the termination month (as defined in paragraph (1)(G)(i)), subject to section 223(e),".

(b) CONFORMING AMENDMENT.—Section 223(e) of such Act is amended by inserting "(d)(6)(A)(ii), (d)(6)(B)," after "(d)(1)(B)(ii),".

(c) EFFECTIVE DATE.—The amendments made by this section are effective December 1, 1980, and shall apply with respect to any individual who is under a disability (as defined in section 223(d) of the Social Security Act) on or after that date.

SEC. 767. CHARGING OF WORK DEDUCTIONS AGAINST AUXILIARY BENEFITS IN DISABILITY CASES.

(a) IN GENERAL.—(1) Section 203(a)(4) of the Social Security Act is amended by striking out "preceding" in the first sentence.

(2) Section 203(a)(6) of such Act is amended—

(A) by striking out "and (5)" and inserting in lieu thereof "(4), and (5)"; and

(B) by striking out ", whether or not" and all that follows down through "further reduced" and inserting in lieu thereof "shall be reduced".

(b) EFFECTIVE DATE.—The amendments made by subsection (a) shall apply with respect to benefits payable for months after December 1985.

SEC. 768. PERFECTING AMENDMENTS TO DISABILITY OFFSET PROVISION.

(a) IN GENERAL.—(1) Section 224(a)(2) of the Social Security Act is amended to read as follows:

"(2) such individual is entitled for such month to—

"(A) periodic benefits on account of his or her total or partial disability (whether or not permanent) under a workmen's compensation law or plan of the United States or a State, or

"(B) periodic benefits on account of his or her total or partial disability (whether or not permanent) under any other law or plan of the United States, a State, a political subdivision (as that term is used in section 218(b)(2)), or an instrumentality of two or more States (as that term is used in section 218(k)), other than (i) benefits payable under title 38, United States Code, (ii) benefits payable under a program of assistance which is based on need, (iii) benefits based on service all or substantially all of which was included under an agreement entered into by a State and the Secretary under section 218, and (iv) benefits under a law or plan of the United States based on service all or part of which is employment as defined in section 210,".

(2) Section 224(a)(2)(B) of such Act (as amended by paragraph (1) of this subsection) is further amended by striking out "all or part of which" in clause (iv) and inserting in lieu thereof "all or substantially all of which".

(b) EFFECTIVE DATES.—(1) The amendment made by subsection (a)(1) shall be effective as though it had been included or reflected in the amendment made by section 2208(a)(3) of the Omnibus Budget Reconciliation Act of 1981.

(2) The amendment made by subsection (a)(2) shall apply only with respect to monthly benefits payable on the basis of the wages and self-employment income of individuals who become disabled (within the meaning of section 223(d) of the Social Security Act) after the month in which this Act is enacted.

SEC. 769. STATE COVERAGE AGREEMENTS.

(a) MAXIMUM PERIOD OF RETROACTIVE COVERAGE.—Section 218(f)(1) of the Social Security Act is amended by striking out "is agreed to by the Secretary and the State" and inserting in lieu thereof "is mailed or delivered by other means to the Secretary".

(b) POSITIONS COMPENSATED SOLELY ON FEE BASIS.—Section 218(u)(3) of such Act is amended by striking out "is agreed to by the Secretary and the State" and inserting in lieu thereof "is mailed or delivered by other means to the Secretary".

(c) EFFECTIVE DATE.—The amendments made by this section shall apply with respect to agreements and modifications of agreements which are mailed or delivered to the Secretary of Health and Human Services (under section 218 of the Social Security Act) on or after the date of the enactment of this Act.

SEC. 769A. EFFECT OF EARLY DELIVERY OF BENEFIT CHECKS.

(a) FOR OASDI PURPOSES.—Section 708 of the Social Security Act is amended by adding at the end thereof the following new subsection:

"(c) For purposes of computing the 'OASDI trust fund ratio' under section 201(l), the 'OASDI fund ratio' under section 215(i), and the 'balance ratio' under section 709(b), benefit checks delivered before the end of the month for which they are issued by reason of subsection (a) of this section shall be deemed to have been delivered on the regularly designated delivery date.".

(b) FOR INCOME TAX PURPOSES.—Section 86(d) of the Internal Revenue Code of 1954 (relating to taxation of social security and tier 1 railroad retirement benefits) is amended by adding at the end thereof the following new paragraph:

"(5) EFFECT OF EARLY DELIVERY OF BENEFIT CHECKS.—For purposes of subsection (a), in any case where section 708 of the Social Security Act causes social security benefit checks to be delivered before the end of the calendar month for which they are issued, the benefits involved shall be deemed to have been received in the succeeding calendar month.".

(c) EFFECTIVE DATE.—The amendments made by this section shall apply with respect to benefit checks issued for months ending after the date of the enactment of this Act.

SEC. 769B. PRESERVATION OF BENEFIT STATUS FOR DISABLED WIDOWS AND WIDOWERS WHO LOST SSI BENEFITS BECAUSE OF 1983 CHANGES IN ACTUARIAL REDUCTION FORMULA.

(a) IN GENERAL.—Section 1634 of the Social Security Act is amended—

(1) by inserting "(a)" after "SEC. 1634.", and

(2) by adding at the end the following new subsection:

"(b)(1) An eligible disabled widow or widower (described in paragraph (2)) who is entitled to a widow's or widower's insurance benefit based on a disability for any month under section 202(e) or (f) but is not eligible for benefits under this title in that month, and who applies for the protection of this subsection under paragraph (3), shall be deemed for purposes of title XIX to be an individual with respect to whom benefits under this title are paid in that month if he or she—

"(A) has been continuously entitled to such widow's or widower's insurance benefits from the first month for which the increase described in paragraph (2)(C) was reflected in such benefits through the month involved, and

"(B) would be eligible for benefits under this title in the month involved if the amount of the increase described in paragraph (2)(C) in his or her widow's or widower's insurance benefits, and any subsequent cost-of-living adjustment in such benefits under section 215(i), were disregarded.

"(2) For purposes of paragraph (1), the term 'eligible disabled widow or widower' means an individual who—

"(A) was entitled to a monthly insurance benefit under title II for December 1983,

"(B) was entitled to a widow's or widower's insurance benefit based on a disability under section 202(e) or (f) for January 1984

and with respect to whom a benefit under this title was paid in that month, and

"(C) because of the increase in the amount of his or her widow's or widower's insurance benefits which resulted from the amendments made by section 134 of the Social Security Amendments of 1983 (Public Law 98-21) (eliminating the additional reduction factor for disabled widows and widowers under age 60), was ineligible for benefits under this title in the first month in which such increase was paid to him or her (and in which a retroactive payment of such increase for prior months was not made).

"(3) This subsection shall only apply to an individual who files a written application for protection under this subsection, in such manner and form as the Secretary may prescribe, during the 15-month period beginning with the month in which this subsection is enacted.

"(4) For purposes of this subsection, the term 'benefits under this title' includes payments of the type described in section 1616(a) or of the type described in section 212(a) of Public Law 93-66.".

(b) IDENTIFICATION OF BENEFICIARIES.—(1) As soon as possible after the date of the enactment of this Act, the Secretary of Health and Human Services shall provide each State with the names of all individuals receiving widow's or widower's insurance benefits under subsection (e) or (f) of section 202 of the Social Security Act based on a disability who might qualify for medical assistance under the plan of that State approved under title XIX of such Act by reason of the application of section 1634(b) of the Social Security Act.

(2) Each State shall—

(A) using the information so provided and any other information it may have, promptly notify all individuals who may qualify for medical assistance under its plan by reason of such section 1634(b) of their right to make application for such assistance,

(B) solicit their applications for such assistance, and

(C) make the necessary determination of such individuals' eligibility for such assistance under such section and under such title XIX.

(c) EFFECTIVE DATE.—The amendment made by subsection (a)(2) shall not have the effect of deeming an individual eligible for medical assistance for any month which begins less than two months after the date of the enactment of this Act.

SEC. 769C. EXEMPTION FROM SOCIAL SECURITY COVERAGE FOR RETIRED FEDERAL JUDGES ON ACTIVE DUTY.

(a) AMENDMENT TO SOCIAL SECURITY ACT.—Section 209 of the Social Security Act is amended in the third to the last paragraph thereof (added by section 101(c)(1) of the Social Security Amendments of 1983) by striking out "shall, subject to the provisions of subsection (a) of this section, include" and inserting in lieu thereof "shall not include".

(b) AMENDMENT TO INTERNAL REVENUE CODE.—Section 3121(i)(5) of the Internal Revenue Code of 1954 is amended by striking out "shall, subject to the provisions of subsection (a)(1) of this section, include" and inserting in lieu thereof "shall not include".

(c) EFFECTIVE DATE.—The amendments made by this section shall be effective with respect to service performed after December 31, 1983.

SEC. 769D. RECOVERY OF OVERPAYMENTS.

(a) OASDI PAYMENTS.—Section 204(a) of the Social Security Act is amended—

(1) by inserting "(1)" after "204(a)";

(2) by redesignating paragraphs (1) and (2) as subparagraphs (A) and (B); and

(3) by adding at the end thereof the following new paragraph:

"(2) Notwithstanding any other provision of this section, when any payment of more than the correct amount is made to or on behalf of an individual who has died, and such payment—

"(A) is made by direct deposit to a financial institution;

"(B) is credited by the financial institution to a joint account of the deceased individual and another person; and

"(C) such other person was entitled to a monthly benefit on the basis of the same wages and self-employment income as the deceased individual for the month preceding the month in which the deceased individual died,

the amount of such payment in excess of the correct amount shall be treated as a payment of more than the correct amount to such other person.".

(b) SSI PAYMENTS.—Section 1631(b) of the Social Security Act is amended by redesignating paragraphs (2) through (4) as paragraphs (3) through (5), and by inserting after paragraph (1) the following new paragraph:

"(2) Notwithstanding any other provision of this section, when any payment of more than the correct amount is made to or on behalf of an individual who has died, and such payment—

"(A) is made by direct deposit to a financial institution;

"(B) is credited by the financial institution to a joint account of the deceased individual and another person; and

"(C) such other person is the surviving spouse of the deceased individual, and was eligible for a payment under this title (including any State supplementation payment paid by the Secretary) as an eligible spouse (or as either member of an eligible couple) for the month in which the deceased individual died,

the amount of such payment in excess of the correct amount shall be treated as a payment of more than the correct amount to such other person.".

(c) EFFECTIVE DATE.—The amendments made by this section shall apply only in the case of deaths of which the Secretary is first notified on or after the date of the enactment of this Act.

SEC. 769E. STUDY OF BENEFIT FORMULA NOTCH.

(a) STUDY BY PANEL.—(1) The Secretary of Health and Human Services shall appoint a special panel to conduct studies with respect to the so-called "notch" under the present formula (established by the Social Security Amendments of 1977) for determining primary insurance amounts under title II of the Social Security Act, including studies relating to—

(A) the extent to which inequities are actually resulting from the implementation of such formula;

(B) the nature and desirability of the actions that might be taken to correct any inequities which are found to exist; and

(C) the effect that any such actions would have upon the short- and long-term financial condition of the social security trust funds and upon the state of the national economy generally.

(2) In carrying out its duties under paragraph (1), the special panel shall consult with such outside experts as it may consider appropriate.

(b) REPORT.—The Secretary shall submit a report of the findings and recommendations of the special panel to the Senate Committee on Finance and the House Committee on Ways and Means not later than December 15, 1986.

SEC. 769F. GENERAL EFFECTIVE DATE.

Except as otherwise specifically provided, this subtitle and the amendments made by this subtitle shall take effect on the first day of the month following the month in which this Act is enacted.

Subtitle D—AFDC, SSI, Adoption Assistance, Foster Care, and Unemployment Compensation

SEC. 770. QUALITY CONTROL STUDIES AND PENALTY MORATORIUM.

(a) STUDIES.—(1) The Secretary of Health and Human Services (hereafter referred to in this section as the "Secretary") shall conduct a study of quality control systems for the Aid to Families with Dependent Children Program under title IV-A of the Social Security Act and for the Medicaid Program under title XIX of such Act. The study shall examine how best to operate such systems in order to obtain information which will allow program managers to improve the quality of administration, and provide reasonable data on the basis of which Federal funding may be withheld for States with excessive levels of erroneous payments.

(2) The Secretary shall also contract with the National Academy of Sciences to conduct a concurrent independent study for the purpose described in paragraph (1). For purposes of such study, the Secretary shall provide to the National Academy of Sciences any relevant data available to the Secretary at the onset of the study and on an ongoing basis.

(3) The Secretary and the National Academy of Sciences shall report the results of their respective studies to the Congress within one year after the date of the enactment of this Act.

(b) MORATORIUM ON PENALTIES.—(1) During the 24-month period beginning with the first calendar quarter which begins after the date of the enactment of this Act (hereafter in this section referred to as the "moratorium period"), the Secretary shall not impose any reductions in payments to States pursuant to section 403(i) or 1903(u) of the Social Security Act, or pursuant to any comparable provision of law relating to the programs under titles IV-A and XIX of such Act in Puerto Rico, Guam, the Virgin Islands, American Samoa, or the Northern Mariana Islands.

(2) During the moratorium period, the Secretary and the States shall continue to operate the quality control systems in effect under titles IV-A and XIX of the Social Security Act, and to calculate the error rates under the provisions referred to in paragraph (1).

(c) RESTRUCTURED QUALITY CONTROL SYSTEMS.—(1) Not later than 18 months after the date of the enactment of this Act, the Secretary shall publish regulations which shall—

(A) restructure the quality control systems under titles IV-A and XIX of the Social Security Act to the extent the Secretary determines to be appropriate, taking into account the studies conducted under subsection (a); and

(B) establish, taking into account the studies conducted under subsection (a), criteria for adjusting the reductions which shall be made for quarters prior to the implementation of the restructured quality control systems so as to eliminate reduc-

tions for those quarters which would not be required if the restructured quality control systems had been in effect during those quarters.

(2) Beginning with the first calendar quarter after the moratorium period, the Secretary shall implement the revised quality control systems, and shall reduce payments to States—

(A) for quarters after the moratorium period in accordance with the restructured quality control systems; and

(B) for quarters in and before the moratorium period, as provided under the regulations described in paragraph (1)(B).

(d) EFFECTIVE DATE.—This section shall become effective on the date of the enactment of this Act.

SEC. 771. AFDC AUTOMATION REQUIREMENTS.

(a) IN GENERAL.—Section 402(e)(2) of the Social Security Act is amended by adding at the end thereof the following new subparagraph:

"(C) If the Secretary determines that such a system has not been implemented by the State by the date specified for implementation in the State's advance automatic data processing planning document, then the Secretary shall reduce payments to such State, in accordance with section 403(b), in an amount equal to 40 percent of the expenditures referred to in section 403(a)(3)(B) with respect to which payments were made to the State under section 403(a)(3)(B). The Secretary may extend the deadline for implementation if the State demonstrates to the satisfaction of the Secretary that the State cannot implement such system by the date specified in such planning document due to circumstances beyond the State's control.".

(b) EFFECTIVE DATE.—The amendment made by subsection (a) shall become effective on the date of the enactment of this Act, but shall apply only with respect to sums expended by the States for the purposes described in section 403(a)(3)(B) of the Social Security Act on or after the date of the enactment of this Act.

SEC. 772. TREATMENT OF PER CAPITA PAYMENTS TO INDIANS.

(a) IN GENERAL.—Section 7 of the Act of October 19, 1973 (25 U.S.C. 1407) is amended by striking out "taxes, nor shall" and all that follows, and inserting in lieu thereof the following: "taxes. Such funds and their availability shall not be considered as income or resources, or otherwise utilized as the basis for denying or reducing the financial assistance or other benefits to which such household or member would otherwise be entitled under a program established by or pursuant to the Social Security Act or any other Federal or federally assisted program, except so much of such funds as exceed (in the aggregate) $2,000 per year per family unit (or other relevant unit applicable under the program involved) and which are paid as per capita shares.".

(b) REGULATIONS.—Each department or agency which issues regulations for the purpose of implementing the amendment made by subsection (a) shall, to the extent feasible, coordinate such regulations with those of the other such departments and agencies so as to avoid inconsistent requirements relating to such amendment and inappropriate duplicative counting of such income.

(c) EFFECTIVE DATE.—The amendment made by this section shall become effective on January 1, 1986.

SEC. 773. SSI PASSTHROUGH RELATING TO STATE SUPPLEMENTATION.

(a) RESTORATION OF STATE OPTION IN COMPLYING WITH PASSTHROUGH REQUIREMENTS.—Section 1618(e)(1) of the Social Security Act is amended by striking out "a State which is not treated as meeting the requirements imposed by paragraph (4) of subsection (a) by reason of subsection (b) shall be treated as meeting such requirements if and only if" and inserting in lieu thereof "a State shall be deemed to have met the requirements of paragraph (4) of subsection (a) if".

(b) EFFECTIVE DATE.—The amendment made by this section shall apply to months after March 1983.

SEC. 774. PROVISIONS RELATING TO MEDICAID COVERAGE UNDER THE ADOPTION ASSISTANCE PROGRAM.

(a) IN GENERAL.—Section 473(b) of the Social Security Act is amended to read as follows:

"(b) For purposes of title XIX, any child—

"(1) who is a child described in subsection (a)(1); and

"(2) with respect to whom an adoption assistance agreement is in effect under this section (whether or not adoption assistance payments are provided under the agreement or are being made under this section), including any such child who has been placed for adoption in accordance with applicable State and local law (whether or not an interlocutory or other judicial decree of adoption has been issued);

shall be deemed to be a dependent child as defined in section 406 and shall be deemed to be a recipient of aid to families with dependent children under part A of this title in the State where such child resides.".

(b) CONFORMING AMENDMENTS.—(1) Section 473(c)(2) of such Act is amended—

(A) by striking out "without providing adoption assistance" in clause (A) and inserting in lieu thereof "without providing adoption assistance under this section or medical assistance under title XIX"; and

(B) by inserting "or medical assistance under title XIX" before the period at the end thereof.

(2) Section 475(3) of such Act is amended by striking out "the adoption assistance payments and any additional services and assistance" in clause (A) of the first sentence and inserting in lieu thereof "any adoption assistance payments and any other services and assistance".

(3) Section 1902(a)(10)(A)(i)(I) of such Act is amended by striking out "or 406(h)" and inserting in lieu thereof ", 406(h), or 473(b)".

(c) EFFECTIVE DATE.—The amendments made by this section shall become effective on October 1, 1985.

SEC. 775. EXTENSION OF VOLUNTARY PLACEMENT, AND CEILING AND TRIGGER PROVISIONS, RELATING TO FOSTER CARE.

(a) Section 474(b) of the Social Security Act is amended—

(1) in paragraphs (1), (2)(B), and (4)(B), by striking out "1985" and inserting in lieu thereof "1987";

(2) in paragraph (2)(A)—

(A) by inserting "and" at the end of clause (ii), and

(B) by striking out clauses (iii), (iv), and (v) and inserting in lieu thereof the following:

"(iii) with respect to each of the fiscal years 1983 through 1987, only if the amount appropriated under section 420 for such fiscal year is equal to $266,000,000."; and

(3) in paragraph (5)(A)—

(A) by striking out "October 1, 1985" and inserting in lieu thereof "October 1, 1987", and

(B) in clause (ii), by striking out "1984 and 1985" and inserting in lieu thereof "1984 through 1987".

(b) Paragraphs (1) and (2) of section 474(c) of such Act are each amended by striking out "1985" and inserting in lieu thereof "1987".

(c)(1) Section 102(a)(1) of the Adoption Assistance and Child Welfare Act of 1980 (Public Law 96-272) is amended by striking out "1985" and inserting in lieu thereof "1987".

(2) Section 102(c) of such Act is amended by striking out "1985" each place it appears and inserting in lieu thereof "1987".

SEC. 776. INDEPENDENT LIVING INITIATIVES.

(a) INDEPENDENT LIVING INITIATIVES.—Part E of title IV of the Social Security Act is amended by adding at the end thereof the following new section:

"INDEPENDENT LIVING INITIATIVES

"SEC. 477. (a) Payments shall be made in accordance with this section for the purpose of assisting States and localities in establishing and carrying out programs designed to assist children, with respect to whom foster care maintenance payments are being made by the State under this part and who have attained age 16, in making the transition from foster care to independent living. Any State which provides for the establishment and carrying out of one or more such programs in accordance with this section for a fiscal year shall be entitled to receive payments under this section for such fiscal year, in an amount determined under subsection (e). Such payments shall be made only for the fiscal years 1986 and 1987.

"(b) The State agency administering or supervising the administration of the State's programs under this part shall be responsible for administering or supervising the administration of the State's programs described in subsection (a). Payment under this section shall be made to the State, and shall be used for the purpose of conducting and providing in accordance with this section (directly or under contracts with local governmental entities or private nonprofit organizations) the activities and services required to carry out the program or programs involved.

"(c) In order for a State to receive payments under this section for any fiscal year, the State agency must submit to the Secretary, in such manner and form as the Secretary may prescribe, a description of the program together with satisfactory assurances that the program will be operated in an effective and efficient manner and will otherwise meet the requirements of this section. In the case of payments for fiscal year 1986, such description and assurances must be submitted within 90 days after the Secretary promulgates regulations as required under subsection (i), and in the case of payments for fiscal year 1987, such description and assurances must be submitted prior to January 1, 1987.

"(d) In carrying out the purpose described in subsection (a), it shall be the objective of each program established under this section to help the individuals participating in such program to prepare to live independently upon leaving foster care. Such programs may include (subject to the availability of funds) programs to—

"(1) enable participants to seek a high school diploma or its equivalent or to take part in appropriate vocational training;

"(2) provide training in daily living skills, budgeting, locating and maintaining housing, and career planning;

"(3) provide for individual and group counseling;

"(4) integrate and coordinate services otherwise available to participants;

"(5) provide for the establishment of outreach programs designed to attract individuals who are eligible to participate in the program;

"(6) provide each participant a written transitional independent living plan which shall be based on an assessment of his needs, and which shall be incorporated into his case plan, as described in section 475(1); and

"(7) provide participants with other services and assistance designed to improve their transition to independent living.

"(e)(1) The amount to which a State shall be entitled under section 474(a)(4) for each of the fiscal years 1986 and 1987 shall be an amount which bears the same ratio to $500,000 as such State's average number of children receiving foster care maintenance payments under this part in fiscal year 1984 bears to the total of the average number of children receiving such payments under this part for all States for fiscal year 1984.

"(2) If any State does not apply for funds under this section for any fiscal year within the time provided in subsection (c), the funds to which such State would have been entitled for such fiscal year shall be reallocated to one or more other States on the basis of their relative need for additional payments under this section (as determined by the Secretary).

"(3) Any amounts payable to States under this section shall be in addition to amounts payable to States under subsections (a)(1), (a)(2), and (a)(3) of section 474, and shall supplement and not replace any other funds which may be available for the same general purposes in the localities involved.

"(f) Payments made to a State under this section for any fiscal year—

"(1) shall be used only for the specific purposes described in this section;

"(2) may be made on an estimated basis in advance of the determination of the exact amount, with appropriate subsequent adjustments to take account of any error in the estimates; and

"(3) shall be expended by such State in such fiscal year or in the succeeding fiscal year.

"(g)(1) Not later than March 1, 1987, each State shall submit to the Secretary a report on the programs carried out with the amounts received under this section. Such report—

"(A) shall be in such form and contain such information as may be necessary to provide an accurate description of such activities, to provide a complete record of the purposes for which the funds were spent, and to indicate the extent to which the expenditure of such funds succeeded in accomplishing the purpose described in subsection (a); and

"(B) shall specifically contain such information as the Secretary may require in order to carry out the evaluation under paragraph (2).

"(2) Not later than July 1, 1987, the Secretary, on the basis of the reports submitted by States under paragraph (1) for the fiscal year 1986, and on the basis of such additional information as the Secretary may obtain or develop, shall evaluate the use by States of the payments made available under this section for such fiscal year with respect to the purpose of this section, with the objective of appraising the achievements of the programs for which such payments were made available, and developing comprehensive information and data on the basis of which decisions can be made with respect to the improvement of such programs and the necessity for providing further payments in subsequent years. The Secretary shall report such evaluation to the Congress. As a part of such evaluation, the Secretary shall include, at a minimum, a detailed overall description of the number and characteristics of the individuals served by the programs, the various kinds of activities conducted and services provided and the results achieved, and shall set forth in detail findings and comments with respect to the various State programs and a statement of plans and recommendations for the future.

"(h) Notwithstanding any other provision of this title, payments made and services provided to participants in a program under this section, as a direct consequence of their participation in such program, shall not be considered as income or resources for purposes of determining eligibility (or the eligibility of any other persons) for aid under the State's plan approved under section 402 or 471, or for purposes of determining the level of such aid.

"(i) The Secretary shall promulgate final regulations for implementing this section within 60 days after the date of the enactment of this section.".

(b) CASE PLANS.—Section 475(1) of such Act is amended by adding at the end thereof the following: "Where appropriate, for a child age 16 or over, the case plan must also include a written description of the programs and services which will help such child prepare for the transition from foster care to independent living.".

(c) PAYMENTS TO STATES.—Section 474(a) of such Act is amended—

(1) by striking out the period at the end of subparagraph (3) and inserting in lieu thereof "; plus"; and

(2) by adding at the end thereof the following new subparagraph:

"(4) an amount for transitional independent living programs as provided in section 477.".

(d) CONFORMING AMENDMENT.—Section 470 of such Act is amended by striking out "foster care and adoption assistance" and inserting in lieu thereof "foster care, adoption assistance, and transitional independent living programs".

SEC. 776A. RECOVERY OF UNEMPLOYMENT BENEFITS OVERPAYMENTS.

(a) IN GENERAL.—(1) Section 303(a)(5) of the Social Security Act is amended by inserting before the semicolon at the end thereof the following: ": *Provided further*, That amounts may be deducted from unemployment benefits and used to repay overpayments as provided in subsection (g)".

(2) Section 303 of such Act is amended by adding at the end thereof the following new subsection:

"(g)(1) A State may deduct from unemployment benefits otherwise payable to an individual an amount equal to any overpayment made to such individual under an unemployment benefit program of the United States or of any other State, and not previously recovered. The amount so deducted shall be paid to the jurisdiction under whose program such overpayment was made. Any such deduction shall be made only in accordance with the same procedures relating to notice and opportunity for a hearing as apply to the recovery of overpayments of regular unemployment compensation paid by such State.

"(2) Any State may enter into an agreement with the Secretary of Labor under which—

"(A) the State agrees to recover from unemployment benefits otherwise payable to an individual by such State any overpayments made under an unemployment benefit program of the United States to such individual and not previously recovered, in accordance with paragraph (1), and to pay such amounts recovered to the United States for credit to the appropriate account, and

"(B) the United States agrees to allow the State to recover from unemployment benefits otherwise payable to an individual under an unemployment benefit program of the United States any overpayments made by such State to such individual under a State unemployment benefit program and not previously recovered, in accordance with the same procedures as apply under paragraph (1).

"(3) For purposes of this subsection, 'unemployment benefits' means unemployment compensation, trade adjustment allowances, and other unemployment assistance.".

(b) CONFORMING AMENDMENT.—Section 3304(a)(4) of the Internal Revenue Code of 1954 is amended—

(1) by striking out "and" at the end of subparagraph (B);

(2) by adding "and" at the end of subparagraph (C); and

(3) by adding at the end thereof the following new subparagraph:

"(D) amounts may be deducted from unemployment benefits and used to repay overpayments as provided in section 303(g) of the Social Security Act;".

(c) EFFECTIVE DATE.—The amendments made by this section shall apply to recoveries made on or after October 1, 1985, and shall apply with respect to overpayments made before, on, or after such date.

Subtitle E—Customs Fees

SEC. 777. FEES FOR CERTAIN CUSTOMS SERVICES.

(a) In addition to any other fees authorized by law, the Secretary of the Treasury shall charge and collect the following fees for the provision of customs services in connection with the following:

(1) For the arrival of a commercial vessel of 100 net tons or more, $397.

(2) For the arrival of a commercial vessel of less than 100 net tons, $25.

(3) For the arrival of a commercial truck, $5.

(4) For the arrival of each railroad car, whether passenger or freight, $5.

(5) For each arrival made by a private vessel or private aircraft, $25.

(6) For the arrival of each passenger aboard a commercial vessel or commercial aircraft from a place outside the United States (other than a place referred to in subsection (b)), $5.

(7) For each informal entry for which a document is prepared by a customs officer, $5.

(8) For each item of dutiable mail for which a document is prepared by a customs officer, $5.

(9) For the initial transportation of a shipment of merchandise in bond, $10.

(10) For each customs broker permit held by an individual, partnership, association, or corporate customs broker, $125 per year.

(b)(1) No fee shall be charged under subsection (a) for customs services provided in connection with—

(A) the arrival of any passenger whose journey originated in—

(i) Canada,

(ii) Mexico,

(iii) a territory or possession of the United States, or

(iv) any adjacent island (within the meaning of section 101(b)(5) of the Immigration and Nationality Act (8 U.S.C. 1101(b)(5)), or

(B) the arrival of any railroad car that is part of a train which originates and terminates in the same country, but only if—

(i) such car is part of such train when such train departs from the United States, and

(ii) no passengers board or disembark from such train, and no cargo is loaded or unloaded from such train, while such train is within any country other than the country in which such train originates and terminates.

(2) No fee shall be charged under paragraph (7) of subsection (a) for the provision of customs services in connection with an informal entry if a fee is charged under paragraph (6) of subsection (a) for the provision of such services.

(c) For purposes of this section—

(1) The term "vessel" does not include any ferry.

(2) The term "arrival" means arrival at a port of entry in the customs territory of the United States.

(3) The term "customs territory of the United States" has the meaning given to such term by headnote 2 of the General Headnotes and Rules of Interpretation of the Tariff Schedules of the United States.

(4) The term "customs broker permit" means a permit issued under section 641(c) of the Tariff Act of 1930 (19 U.S.C. 1641(c)).

(d)(1) Each person providing transportation for hire into the customs territory of the United States by vessel or aircraft shall—

(A) collect from each passenger on such vessel or aircraft the fee charged under subsection (a)(6) at the time the document or ticket for such transportation is issued to such passenger, and

"(B) separately identify on such document or ticket the fee charged under subsection (a)(6) as a Federal inspection fee.

(2) If—

(A) a document or ticket for transportation of a passenger into the customs territory of the United States is issued in a foreign country, and

(B) the fee charged under subsection (a)(6) is not collected at the time such document or ticket is issued, the person providing transportation to such passenger shall collect such fee at the time such passenger departs from the customs territory of the United States and shall provide such passenger a receipt for the payment of such fee.

(3) The person providing transportation shall remit the fees collected under paragraph (1) or (2) to the Secretary of the Treasury at any time before the date that is 31 days after the close of the calendar quarter in which such fees are collected from the passengers.

(e)(1) Notwithstanding section 451 of the Tariff Act of 1930 (19 U.S.C. 1451) or any other provision of law (other than paragraph (2)), the customs services required to be provided to passengers upon arrival in the United States on scheduled airline flights at customs serviced airports shall be adequately provided when needed and at no cost (other than the fees imposed under subsection(a)) to airlines and airline passengers.

(2) This subsection shall not apply with respect to any airport designated under section 236(c) of the Trade and Tariff Act of 1984 (19 U.S.C. 58b(c)).

(f)(1) All—

(A) fees (including those collected under subsection (a)), and

(B) receipts from reimbursable expenses which have been paid for out of any appropriation for collecting the revenue from customs,

that are covered into the Treasury of the United States as miscellaneous receipts under the first section of the Act of March 4, 1907 (19 U.S.C. 527) shall be placed in a separate account within the general fund of the Treasury of the United States.

(2) This subsection shall not apply to fees charged under section 236 of the Trade and Tariff Act of 1984 (19 U.S.C. 58b).

(g) The Secretary of the Treasury may prescribe such rules and regulations as may be necessary to carry out the provisions of this section.

(h)(1) Section 524 of the Tariff Act of 1930 (19 U.S.C. 1524) is repealed.

(2) Subsection (i) of section 305 of the Rail Passenger Service Act (45 U.S.C. 545(i)) is amended by striking out the last sentence thereof.

(3) Subsection (e) of section 53 of the Airport and Airway Development Act of 1970 (49 U.S.C. 1741(e)) is repealed.

(i) The provisions of this section, and the amendments and repeals made by this section, shall apply with respect to customs services rendered after the date that is 90 days after the date of enactment of this Act.

Subtitle F—Trade Adjustment Assistance

SEC. 778. SHORT TITLE.

This subtitle may be cited as the "Trade Adjustment Assistance Reform and Extension Act of 1985".

SEC. 778A. ELIGIBILITY OF WORKERS AND FIRMS FOR TRADE ADJUSTMENT ASSISTANCE.

(a)(1) Section 221(a) of the Trade Act of 1974 (19 U.S.C. 2271(a)) is amended by inserting "(including workers in any agricultural firm or subdivision of an agricultural firm)" after "group of workers".

(2) Section 222 of the Trade Act of 1974 (19 U.S.C. 2272) is amended to read as follows:

"SEC. 222. GROUP ELIGIBILITY REQUIREMENTS.

"(a) The Secretary shall certify a group of workers (including workers in any agricultural firm or subdivision of an agricultural firm) as eligible to apply for adjustment assistance under this chapter if the Secretary determines that—

"(1) a significant number or proportion of the workers in such workers' firm or an appropriate subdivision of the firm have become totally or partially separated, or are threatened to become totally or partially separated,

"(2) sales or production, or both, of such firm or subdivision have decreased absolutely, and

"(3) increases of imports of articles like or directly competitive with articles—

"(A) which are produced by such workers' firm or appropriate subdivision thereof, or

"(B) to which such workers' firm, or appropriate subdivision thereof, provides essential parts or essential services,

contributed importantly to such total or partial separation, or threat thereof, and to such decline in sales or production.

"(b) For purposes of subsection (a)(3), the term 'contributed importantly' means a cause which is important but not necessarily more important than any other cause.".

(b)(1) Subsection (a) of section 251 of the Trade Act of 1974 (19 U.S.C. 2341(a)) is amended by inserting "(including any agricultural firm)" after "a firm".

(2) Subsection (c) of section 251 of the Trade Act of 1974 (19 U.S.C. 2341(c)) is amended to read as follows:

"(c)(1) The Secretary shall certify a firm (including any agricultural firm) as eligible to apply for adjustment assistance under this chapter if the Secretary determines that—

"(A) a significant number or proportion of the workers in such firm have become totally or partially separated, or are threatened to become totally or partially separated,

"(B) sales or production, or both, of such firm have decreased absolutely, and

"(C) increases of imports of articles like or directly competitive with articles—

"(i) which are produced by such firm, or

"(ii) to which such firm provides essential parts or essential services,

contributed importantly to such total or partial separation, or threat thereof, and to such decline in sales or production.

"(2) For purposes of paragraph (1)(C), the term 'contributed importantly' means a cause which is important but not necessarily more important than any other cause.".

SEC. 778B. CASH ASSISTANCE FOR WORKERS.

(a)(1) Subsection (a) of section 231 of the Trade Act of 1974 (19 U.S.C. 2291) is amended by adding after paragraph (4) the following new paragraph:

"(5) Such worker—

"(A) is enrolled in a training program approved by the Secretary under section 236(a),

"(B) has, after the date on which the worker became totally separated, or partially separated, from the adversely affected employment, completed a training program approved by the Secretary under section 236(a), or

"(C) has received a written statement certified by the Secretary under subsection (c)(1) after the date described in subparagraph (B).".

(2) Subsection (b) of section 231 of the Trade Act of 1974 (19 U.S.C. 2291(b)) is amended to read as follows:

"(b) If the Secretary determines that—

"(1) the adversely affected worker—

"(A) has failed to begin participation in the training program the enrollment in which meets the requirement of subsection (a)(5), or

"(B) has ceased to participate in such training program before completing such training program, and

"(2) there is no justifiable cause for such failure or cessation,

no trade adjustment allowance may be paid to the adversely affected worker under this part on or after the date of such determination until the adversely affected worker begins or resumes participation in a training program approved under section 236(a).".

(3) Section 231 of the Trade Act of 1974 (19 U.S.C. 2291) is amended by adding at the end thereof the following new subsection:

"(c)(1) If the Secretary is unable to approve a training program for a worker under section 236(a), the Secretary shall submit to such worker a written statement certifying that the Secretary was unable to approve a training program for such worker. The authority of the Secretary to issue such a statement may not be delegated to a State

or State agency under an agreement entered into under section 239.

"(2) If a State or State agency has entered into an agreement with the Secretary under section 239 and the State or State agency determines that it is unable to approve a training program for a worker pursuant to the requirements of section 236(a), the State or State agency shall submit to the Secretary a written statement certifying such determination and the reasons for such determination. The Secretary shall review such determination and shall certify the written statement described in paragraph (1) only if the Secretary finds that the determination of the State or State agency is justified.

"(3) The Secretary shall submit to the Finance Committee of the Senate and to the Ways and Means Committee of the House of Representatives an annual report on the number of certifications made by the Secretary under paragraph (1) during the preceding year.".

(4) The last sentence of section 231(a)(2) of the Trade Act of 1974 (19 U.S.C. 2291(a)(2)) is amended by striking out all that follows after subparagraph (C) and inserting in lieu thereof "shall be treated as a week of employment at wages of $30 or more, but not more than 7 weeks, in case of weeks described in paragraph (A) or (C), or both, may be treated as weeks of employment under this sentence.".

(b) Section 232 of the Trade Act of 1974 (19 U.S.C. 2292) is amended—

(1) by striking out "under any Federal law," in subsection (c) and inserting in lieu thereof "under any Federal law other than this Act",

(2) by striking out "under section 236(c)" in subsection (c) and inserting in lieu thereof "under section 231(b)", and

(3) by striking out "If the training allowance" in subsection (c) and inserting in lieu thereof "If such training allowance".

(c)(1) Subsection (a) of section 233 of the Trade Act of 1974 (19 U.S.C. 2293(a)) is amended—

(A) by striking out "52" in paragraph (1) and inserting in lieu thereof "78", and

(B) by striking out "52-week period" in paragraph (2) and inserting in lieu thereof "78-week period".

(2) Paragraph (3) of section 233(a) of the Trade Act of 1974 (19 U.S.C. 2293(a)(3)) is amended to read as follows:

"(3) If the adversely affected worker has received a written statement certified by the Secretary under section 231(c) after the date the worker became totally separated, or partially separated, from adversely affected employment, this subsection shall be applied with respect to such worker—

"(A) by substituting '52' for '78' in paragraph (1), and

"(B) by substituting '52-week period' for '78-week period' in paragraph (2).".

(3) Subsection (b) of section 233 of the Trade Act of 1974 (19 U.S.C. 2293(b)) is amended to read as follows:

"(b) No trade readjustment allowance shall be paid to a worker under this part for any week during which the worker is receiving on-the-job training.".

SEC. 778C. JOB TRAINING FOR WORKERS.

(a) Section 236 of the Trade Act of 1974 (19 U.S.C. 2296) is amended—

(1) by striking out "for a worker" in subsection (a)(1)(A) and inserting in lieu thereof "for an adversely affected worker",

(2) by striking out "is available" in subsection (a)(1)(D) and inserting in lieu thereof "is reasonably available",

(3) by striking out "may approve" in the first sentence of subsection (a)(1) and inserting in lieu thereof "shall approve",

(4) by inserting "directly or through a voucher system" after "by the Secretary" in the second sentence of subsection (a)(1),

(5) by striking out "under paragraph (1)" in subsection (a)(2) and inserting in lieu thereof "under subsection (a)",

(6) by striking out "this subsection" in subsection (a)(3) and inserting in lieu thereof "this section",

(7) by striking out subsection (c),

(8) by redesignating paragraphs (2) and (3) of subsection (a) as subsections (d) and (e), respectively,

(9) by inserting at the end of subsection (a) the following new paragraphs:

"(2)(A) The aggregate amount of payments that may be made under paragraph (1) for any worker shall not exceed $4,000 for each partial separation or total separation.

"(B) The Secretary may issue more than one voucher under paragraph (1) to a worker with respect to any partial separation or total separation, but the aggregate value of such vouchers shall not exceed the amount of the limitation imposed by subparagraph (A) with respect to such separation.

"(3)(A) If the costs of a training program are paid by the Secretary under paragraph (1), no other payment for such costs may be made under any other provision of Federal law.

"(B) No payment may be made under paragraph (1) of the costs of a training program if such costs—

"(i) have already been paid under any other provision of Federal law, or

"(ii) are reimbursable under any other provision of Federal law and a portion of such costs have already been paid under such other provision of Federal law.

"(4) The training programs that may be approved under paragraph (1) include, but are not limited to, the following:

"(A) on-the-job training,

"(B) any training program provided by a State pursuant to section 303 of the Job Training Partnership Act,

"(C) any training program approved by a private industry council established under section 102 of such Act, and

"(D) any other training program approved by the Secretary.", and

(10) by inserting after subsection (b) the following new subsection:

"(c)(1) The Secretary may pay the costs of on-the-job training of an adversely affected worker under subsection (a)(1) only if—

"(A) the employer certifies to the Secretary, on such periodic basis as the Secretary may require, that the worker's training will not result in—

"(i) the displacement of currently employed workers (including partial displacement such as reduction in the hours of nonovertime work or in wages or employment benefits), or

"(ii) the hiring of the trainee to fill a job opening created by the action of the employer in laying off or terminating the employment of any regular employee,

"(B) the worker's training does not result in the actions described in clause (i) or (ii) of subparagraph (A),

"(C) such training is not for the same occupation from which the worker was separated and with respect to which such worker's group was certified pursuant to section 222, and

"(D) the employer certifies to the Secretary that the employer will continue to employ such worker for at least 26 weeks after completion of such training.

"(2) If—

"(A) on-the-job training of an adversely affected worker results in an action described in clause (i) or (ii) of paragraph (1)(A), or

"(B) the employer fails to continue to employ the worker for at least 26 weeks after the completion of such training,

the employer shall be liable for a civil penalty not to exceed $12,000 for each of such violations committed with respect to each adversely affected worker.".

(b) Section 247 of the Trade Act of 1974 (19 U.S.C. 2319) is amended by adding at the end thereof the following new paragraph:

"(16) The term 'on-the-job training' means training provided by an employer to an individual who is employed by the employer.".

SEC. 778D. JOB SEARCH ALLOWANCES.

Section 237 of the Trade Act of 1974 (19 U.S.C. 2297) is amended by adding at the end thereof the following new subsection:

"(d)(1) The Secretary shall reimburse any adversely affected worker for necessary expenses incurred by such worker in participating in a job search program approved by the Secretary.

"(2) For purposes of this subsection—

"(A) The term 'job search program' means a job search workshop or job finding club.

"(B) The term 'job search workshop' means a short (1 to 3 days) seminar designed to provide participants with knowledge that will enable the participants to find jobs. Subjects are not limited to, but should include, labor market information, resume writing, interviewing techniques, and techniques for finding job openings.

"(C) The term 'job finding club' means a job search workshop which includes a period (1 to 2 weeks) of structured, supervised application in which participants attempt to obtain jobs.".

SEC. 778E. ADJUSTMENT ASSISTANCE FOR FIRMS.

(a) Paragraph (1) of section 252(b) of the Trade Act of 1974 (19 U.S.C. 2342(b)(1)) is amended to read as follows:

"(1) Adjustment assistance under this chapter consists of technical assistance. The Secretary shall approve a firm's application for adjustment assistance only if the Secretary determines that the firm's adjustment proposal—

"(A) is reasonably calculated to materially contribute to the economic adjustment of the firm,

"(B) gives adequate consideration to the interests of the workers of such firm, and

"(C) demonstrates that the firm will make all reasonable efforts to use its own resources for economic development.".

(b) Section 254 of the Trade Act of 1974 (19 U.S.C. 2344) is amended by adding at the end thereof the following new subsection:

"(d) Notwithstanding any other provision of this chapter, no direct loans or guarantees of loans may be made under this chapter after the date of enactment of the Trade Adjustment Assistance Reform and Extension Act of 1985.".

SEC. 778F. TERMINATION OF TRADE ADJUSTMENT ASSISTANCE.

(a) Section 285 of the Trade Act of 1974 (19 U.S.C. 2271, preceding note) is amended—

(1) by striking out the first sentence thereof and inserting in lieu thereof "(a)",

(2) by striking out the section heading and inserting in lieu thereof "sec. 285. termination.", and

(3) by adding at the end thereof the following new subsection:

"(b) No assistance, vouchers, allowances, or other payments may be provided under chapter 2, no technical assistance may be provided under chapter 3, and no duty shall be imposed under section 287, after the date that is 6 years after the date of enactment of the Trade Adjustment Assistance Reform and Extension Act of 1985.".

(b) The table of contents of the Trade Act of 1974 is amended by striking out the item relating to section 285 and inserting in lieu thereof the following:

"Sec. 285. Termination.".

SEC. 778G. FUNDING OF TRADE ADJUSTMENT ASSISTANCE.

(a)(1) Section 245 of the Trade Act of 1974 (19 U.S.C. 2317) is amended by striking out "1982 through 1985" and inserting in lieu thereof "1986, 1987, 1988, and 1989".

(2) Subsection (b) of section 256 of the Trade Act of 1974 (19 U.S.C. 2346(b)) is amended—

(A) by inserting "for fiscal years 1986, 1987, 1988, and 1989" after "to the Secretary",

(B) by striking out "from time to time", and

(C) by striking out the last sentence thereof.

(b) Chapter 5 of title II of the Trade Act of 1974 (19 U.S.C. 2391, et seq.) is amended by inserting after section 285 the following new section:

"SEC. 286. TRADE ADJUSTMENT ASSISTANCE TRUST FUND.

"(a) There is hereby established within the Treasury of the United States a trust fund to be known as the Trade Adjustment Assistance Trust Fund (hereinafter in this section referred to as the "Trust Fund"), consisting of such amounts as may be transferred or credited to the Trust Fund as provided in this section or otherwise appropriated to the Trust Fund.

"(b)(1) The Secretary of the Treasury shall transfer to the Trust Fund out of the general fund of the Treasury of the United States amounts determined by the Secretary of the Treasury to be equivalent to the amounts received into such general fund that are attributable to the duty imposed by section 287.

"(2) The amounts which are required to be transferred under paragraph (1) shall be transferred at least quarterly from the general fund of the Treasury of the United States to the Trust Fund on the basis of estimates made by the Secretary of the Treasury of the amounts referred to in paragraph (1) that are received into the Treasury. Proper adjustments shall be made in the amounts subsequently transferred to the extent prior estimates were in excess of, or less than, the amounts required to be transferred.

"(c)(1) The Secretary of the Treasury shall be the trustee of the Trust Fund, and shall submit an annual report to the Committee on Finance of the Senate and the Committee on Ways and Means of the House of Representatives on the financial condition and the results of the operations of the Trust Fund during the fiscal year preceding the fiscal year in which such report is submitted and on the expected condition and operations of the Trust Fund during the fiscal year in which such report is submitted and the 5 fiscal years succeeding such fiscal year. Such report shall be printed as a House document of the session of the Congress to which the report is made.

"(2)(A) It shall be the duty of the Secretary of the Treasury to invest such portion of the Trust Fund as is not, in his judgment, required to meet current withdrawals. Such investments may be made only in interest-bearing obligations of the United States. For such purpose, such obligations may be acquired—

"(i) on original issue at the issue price, or

"(ii) by purchase of outstanding obligations at the market price.

"(B) Any obligation acquired by the Trust Fund may be sold by the Secretary of the Treasury at the market price.

"(C) The interest on, and the proceeds from the sale or redemption of, any obligations held in the Trust Fund shall be credited to and form a part of the Trust Fund.

"(d) Amounts in the Trust Fund shall only be available for making expenditures to carry out the provisions of chapters 2 and 3 of this title. None of the amounts in the Trust Fund shall be available for the payment of loans guaranteed under chapter 3 or for any other expenses relating to financial assistance provided under chapter 3 of this title.".

(c) Chapter 5 of title II of the Trade Act of 1975 (19 U.S.C. 2391, et seq.), as amended by subsection (b) of this section and by section 778H(b) of this Act, is further amended by adding at the end thereof the following new section:

"SEC. 288. APPROPRIATION OF FUNDS.

"The Secretary of the Treasury is authorized and directed to pay out of the Trade Adjustment Assistance Trust Fund all expenses incurred by the Secretary of Labor or the Secretary of Commerce in carrying out the provisions of chapters 2 and 3 of this title.".

(d) The table of contents for the Trade Act of 1974 is amended by inserting, after the item relating to section 285, the following new items:

"Sec. 286. Trade Adjustment Trust Fund.

"Sec. 287. Imposition of additional duty.

"Sec. 288. Appropriation of funds.".

SEC. 778H. IMPOSITION OF SMALL UNIFORM DUTY ON ALL IMPORTS.

(a)(1) The President shall undertake negotiations necessary to achieve changes in the General Agreement on Tariffs and Trade that would allow any country to impose a small uniform duty on all imports to such country for the purpose of using the revenue from such duty to fund any program which assists adjustment to import competition.

(2) On the date that is 6 months after the date of enactment of this Act, the President shall submit to the Congress a report on the progress of negotiations conducted under paragraph (1).

(3) On the first day after the date of enactment of this Act on which the General Agreement on Tariffs and Trade allows any country to impose a duty described in paragraph (1), the President shall submit to the Congress a written statement certifying that the General Agreement on Tariffs and Trade allows such a duty.

(b) Chapter 5 of title II of the Trade Act of 1974 (19 U.S.C. 2391, et seq.), as amended by section 778G(b) of this Act, is further amended by adding at the end thereof the following new section:

"SEC. 287. IMPOSITION OF ADDITIONAL DUTY.

"(a) In addition to any other duty imposed by law, there is hereby imposed a duty on the entry, or withdrawal from warehouse, of any article for consumption in the customs territory of the United States.

"(b)(1) The rate of the duty imposed by subsection (a) shall be a uniform ad valorem rate proclaimed by the President at least 30 days prior to the date such rate takes effect which is equal to the lesser of—

"(A) 1 percent, or

"(B) a percentage that is sufficient to provide the funding necessary to carry out the provisions of chapters 2 and 3 of title II of the Trade Act of 1974.

"(c) Duty-free treatment provided with respect to any article under any other provision of law shall not prevent the imposition of the duty imposed with respect to such article by subsection (a).".

SEC. 778I. TAXATION OF TRADE READJUSTMENT ASSISTANCE.

Section 85(c) of the Internal Revenue Code of 1954 is amended by inserting ", but not including payments of training costs, or training vouchers, provided under section 236 of the Trade Act of 1974 (19 U.S.C. 2296)" after "nature of unemployment compensation".

SEC. 778J. EFFECTIVE DATES.

(a) The amendments made by sections 778E, 778F, and 778G(a) and the provisions of section 778H(a), shall take effect on the date of enactment of this Act.

(b)(1) The amendment made by section 778H(b) shall apply to any article entered, or withdrawn from warehouse, for consumption after the earlier of—

(A) the date that is 2 years after the date of enactment of this Act, or

(B) the date that is 30 days after the date on which the President submits to the Congress the written statement described in section 778H(a)(3).

(2) The amendments made by subsections (b) and (d) of section 778G shall take effect on the earlier of—

(A) the date that is 2 years after the date of enactment of this Act, or

(B) the date that is 30 days after the date described in subsection (b)(1)(B).

(c) The amendments made by sections 778A, 778B, 778C, 778D, and 778G(c) shall take effect on the earlier of—

(1) the date that is 3 years after the date of enactment of this Act, or

(2) the date that is 1 year after the date described in subsection (b)(1)(B).

(d) The amendment made by section 778I shall apply to taxable years ending on or after the earlier of—

(1) the date that is 3 years after the date of enactment of this Act, or

(2) the date that is 1 year after the date described in subsection (b)(1)(B).

Subtitle G—Revenue Sharing

SEC. 779. TERMINATION OF GENERAL REVENUE SHARING.

(a) Chapter 67 of title 31, United States Code, is repealed.

(b)(1) The table of chapters for subtitle V of title 31, United States Code, is amended by striking out the item relating to chapter 67.

(2) Paragraph (2) of section 1115(b) of the Social Security Act (42 U.S.C. 1315(b)(2)) is amended—

(A) by adding "and" at the end of subparagraph (A),

(B) by striking out "; and" at the end of subparagraph (B) and inserting in lieu thereof a period, and

(C) by striking out subparagraph (C).

(3) Section 501(b)(6) of the Housing Act of 1949 (42 U.S.C. 1471(b)(6)) and section 102(a)(17) of the Housing and Community Development Act of 1974 (42 U.S.C. 5302(a)(17)) are each amended by striking

out "under the State and Local Fiscal Assistance Act of 1972 (Public Law 92-512)" and inserting in lieu thereof ", prior to October 1, 1986, under chapter 67 of title 31, United States Code".

(4) Section 302 of the Age Discrimination Act of 1975 (42 U.S.C. 6101) is amended by striking out ", including programs or activities receiving funds under the State and Local Fiscal Assistance Act of 1972 (31 U.S.C. 1221 et seq.)".

(5) Paragraph (3) of section 3 of the Coastal Barrier Resources Act (16 U.S.C. 3502(3)) is amended by striking out subparagraph (A) and redesignating subparagraphs (B), (C), (D), and (E) as subparagraphs (A), (B), (C), and (D), respectively.

(6) Subparagraph (B) of section 119(n)(2) of the Housing and Community Development Act of 1974 (42 U.S.C. 5318(n)(2)(B)) is amended by striking out "is an eligible recipient" and inserting in lieu thereof "was an eligible recipient, prior to October 1, 1986,".

(7) Paragraph (1) of section 248(h) of the National Housing Act (12 U.S.C. 1715z-13(h)(1)) is amended by striking out "is an eligible recipient" and inserting in lieu thereof "was an eligible recipient, prior to October 1, 1986,".

(c) The repeal and amendments made by this section shall take effect on October 1, 1986.

Subtitle H—Pension Benefit Guaranty Corporation

SEC. 779A. INCREASE IN PENSION BENEFIT GUARANTY CORPORATION PREMIUMS FOR SINGLE-EMPLOYER PLANS.

(a) IN GENERAL.—Clause (i) of section 4006(a)(3)(A) of the Employee Retirement Income Security Act of 1974 is amended by striking out "for plan years beginning after December 31, 1977, an amount equal of $2.60" and inserting in lieu thereof "for plan years beginning after December 31, 1985, an amount equal to $8.10".

(b) TECHNICAL AMENDMENTS.—

(1) Clause (iii) of section 4006(a)(3)(C) of such Act is amended by striking out "The maximum" and inserting in lieu thereof "In the case of a multiemployer plan, the maximum".

(2) Clause (iv) of section 4006(a)(3)(C) of such Act is amended by striking out "The provisions" and inserting in lieu thereof "In the case of a multiemployer plan, the provisions".

(c) EFFECTIVE DATE.—The amendments made by this section shall apply to plan years beginning after December 31, 1985.

Subtitle I—Revenue Provisions

SEC. 780. SHORT TITLE; AMENDMENT OF 1954 CODE.

(a) SHORT TITLE.—This subtitle may be cited as the "Comprehensive Omnibus Budget Reconciliation Revenue Act of 1985".

(b) AMENDMENT OF 1954 CODE.—Except as otherwise expressly provided, whenever in this subtitle an amendment or repeal is expressed in terms of an amendment to, or repeal of, a section or other provision, the reference shall be considered to be made to a section or other provision of the Internal Revenue Code of 1954.

PART 1—INCOME TAX PROVISIONS

SEC. 781. FULL-TIME STUDENTS NOT ELIGIBLE FOR INCOME AVERAGING.

(a) IN GENERAL.—Subsection (d) of section 1303 (defining eligible individuals for income averaging) is amended to read as follows:

"(d) ELIGIBLE INDIVIDUALS NOT TO INCLUDE FULL-TIME STUDENTS.—

"(1) IN GENERAL.—For purposes of this part, an individual shall not be an eligible individual for the computation year if, at any time during any base period year, such individual was a student.

"(2) EXCEPTION FOR MARRIED STUDENTS PROVIDING 25 PERCENT OR LESS OF JOINT INCOME.—Paragraph (1) shall not apply to any individual for any computation year if—

"(A) the individual makes a joint return for the computation year, and

"(B) not more than 25 percent of the aggregate adjusted gross income of such individual and the spouse of such individual for such computation year is attributable to such individual.

"(3) STUDENT DEFINED.—For purposes of this subsection, the term 'student' means, with respect to a taxable year, an individual who during each of 5 calendar months during such taxable year—

"(A) was a full-time student at an educational organization described in section 170(b)(1)(A)(ii); or

"(B) was pursuing a full-time course of institutional on-farm training under the supervision of an accredited agent of an educational organization described in section 170(b)(1)(A)(ii) or of a State or political subdivision of a State.".

(b) REPEAL OF NON-FULL-TIME STUDENT SUPPORT EXCEPTION.—Paragraph (2) of section 1303(c) (relating to individuals receiving support from others) is amended—

(1) by striking out subparagraph (A),

(2) by redesignating subparagraphs (B) and (C) as subparagraphs (A) and (B), and

(3) by striking out "subparagraph (C)" in the second sentence and inserting in lieu thereof "subparagraph (B)".

(c) EFFECTIVE DATE.—The amendments made by this section shall apply with respect to taxable years beginning after December 31, 1985.

SEC. 782. EMPLOYERS REQUIRED TO PROVIDE CERTAIN EMPLOYEES AND FAMILY MEMBERS WITH CONTINUED HEALTH INSURANCE COVERAGE AT GROUP RATES.

(a) DENIAL OF DEDUCTION FOR EMPLOYER CONTRIBUTION TO PLAN.—Subsection (i) of section 162 (relating to deduction for trade or business expenses with respect to group health plans) is amended by redesignating paragraph (2) as paragraph (3) and by inserting after paragraph (1) the following new paragraph:

"(2) PLANS MUST PROVIDE CONTINUED COVERAGE TO CERTAIN INDIVIDUALS.—

"(A) IN GENERAL.—No deduction shall be allowed under this section for expenses paid or incurred by an employer unless all such plans maintained by such employer meet the continuing coverage requirements of subsection (k).

"(B) EXCEPTION FOR CERTAIN SMALL EMPLOYERS, ETC.—Subparagraph (A) shall not apply to any plan described in section 106(b)(2).".

(b) DENIAL OF EXCLUSION FOR HIGHLY COMPENSATED INDIVIDUALS.—Section 106 (relating to contributions by employer to accident and health plans) is amended by inserting "(a)" before "Gross" and by inserting at the end thereof the following new subsection:

"(b) EXCEPTION FOR HIGHLY COMPENSATED INDIVIDUALS WHERE PLAN FAILS TO PROVIDE CERTAIN CONTINUING COVERAGE.—

"(1) IN GENERAL.—Subsection (a) shall not apply to any amount contributed by an employer on behalf of a highly compensated individual (within the meaning of section 105(h)(5)) to a group health plan maintained by an employer unless all such plans maintained by such employer meet the continuing coverage requirements of section 162(k).

"(2) EXCEPTION FOR CERTAIN PLANS.—Paragraph (1) shall not apply to any group health plan established and maintained for employees by—

"(A) an employer which normally employed 25 or fewer employees on a typical business day during the preceding calendar year,

"(B) the Government of the United States, the government of any State or political subdivision thereof, or any agency or instrumentality of any of the foregoing, or

"(C) a church or a convention or association of churches which is exempt from tax under section 501, or an organization described in section 501(c)(3) which is operated, supervised, or controlled by any of the foregoing.

Under regulations, rules similar to the rules of subsections (a) and (b) of section 52 (relating to employers under common control) shall apply for purposes of subparagraph (A).

"(3) GROUP HEALTH PLAN.—For purposes of this subsection, the term 'group health plan' has the meaning given such term by section 162(i)(3).".

(c) CONTINUING COVERAGE REQUIREMENTS.—Section 162 is amended by redesignating subsection (k) as subsection (l) and by inserting after subsection (j) the following new subsection:

"(k) CONTINUING COVERAGE REQUIREMENTS OF GROUP HEALTH PLANS.—

"(1) IN GENERAL.—For purposes of subsection (i)(2) and section 106(b)(1), a group health plan meets the requirements of this subsection only if—

"(A) each qualified beneficiary who would lose coverage under the plan as a result of a qualifying event is entitled to elect, within the 60-day period beginning with the qualifying event, continuation coverage under the plan, and

"(B) the plan meets such notification requirements with respect to such election as the Secretary may prescribe.

"(2) CONTINUATION COVERAGE.—For purposes of paragraph (1), the term 'continuation coverage' means coverage under the plan which meets the following requirements:

"(A) TYPE OF BENEFIT COVERAGE.—The coverage must consist of coverage which is identical to the coverage which was provided to the qualified beneficiary immediately before the qualifying event (taking into account any changed marital status), except that—

"(i) such coverage may be modified in the same manner as such coverage is modified for all similarly situated beneficiaries for whom a qualifying event has not occurred, and

"(ii) each qualified beneficiary shall be entitled to modify such coverage at the same time and in the same manner as any other similarly situated beneficiary under the plan.

"(B) PERIOD OF COVERAGE.—The coverage must extend for at least the period beginning on the date of the qualifying event and ending on the earlier of—

"(i) the last day of the 18-month period beginning on the date of the first qualifying event with respect to the qualified beneficiary (or such earlier day as the qualified beneficiary specifies), or

"(ii) the date on which the employer ceases to provide any group health plan to any employee.

"(C) PREMIUM REQUIREMENTS.—The plan may require a qualified beneficiary to pay a premium for the coverage, except that such premium—

"(i) shall not exceed 102 percent of the applicable premium, and

"(ii) may, at the election of the qualified beneficiary, be made in monthly installments.

"(D) NO REQUIREMENTS OF INSURABILITY.—The coverage may not be conditioned upon, or discriminate on the basis of lack of, evidence of insurability.

"(3) QUALIFYING EVENT.—For purposes of this subsection, the term 'qualifying event' means, with respect to any covered employee, any of the following events which, but for subsection (i)(2), result in the loss of coverage of a qualified beneficiary:

"(A) The death of the covered employee.

"(B) The separation from service of the covered employee.

"(C) The divorce or legal separation of the covered employee from the employee's spouse.

"(D) The covered employee becoming entitled to benefits under title XVIII of the Social Security Act.

"(E) A dependent child ceasing to be a dependent child under the generally applicable requirements of the plan.

"(4) APPLICABLE PREMIUM.—For purposes of this subsection—

"(A) IN GENERAL.—The term 'applicable premium' means, with respect to any coverage of a qualified beneficiary, the cost to the plan for the period of the coverage for a similarly situated beneficiary with respect to whom a qualifying event has not occurred (without regard to whether such cost is paid by the employer or employee).

"(B) SPECIAL RULE FOR SELF-INSURED PLANS.—

"(i) IN GENERAL.—Except as provided in clause (ii), in the case of a self-insured plan, the applicable premium for any calendar year shall be the cost for a similarly situated beneficiary for the preceding calendar year, adjusted by the percentage increase or decrease in the implicit price deflator of the gross national product (calculated by the Department of Commerce and published in the Survey of Current Business) for the 12-month period ending on June 30 of such preceding calendar year.

"(ii) SELF-INSURED PLAN TO USE REASONABLE ESTIMATES WHERE SIGNIFICANT CHANGE.—In any case in which there is any significant change in coverage under, or in employees covered by, a self-insured health plan, an employer shall determine the employer contribution for any calendar year on the basis of a reasonable estimate of the cost of providing coverage. To the extent practicable, such estimate shall be made on an actuarial basis, and in the making of any such estimate, there shall be taken into account such factors as may be required under regulations.

"(5) DEFINITIONS AND SPECIAL RULES.—For purposes of this subsection—

"(A) COVERED EMPLOYEE.—The term 'covered employee' means an individual who is (or was) provided coverage under a group health plan by virtue of the individual's employment or previous employment with an employer.

"(B) QUALIFIED BENEFICIARY.—

"(i) IN GENERAL.—The term 'qualified beneficiary' means, with respect to a covered employee under a group health plan, any other individual who, on the day before the qualifying event for that employee, is a beneficiary under the plan—

"(I) as the spouse of the covered employee, or

"(II) as the dependent child of the employee.

"(ii) SPECIAL RULE FOR TERMINATIONS.—In the case of a qualifying event described in paragraph (3)(B), the term 'qualified beneficiary' includes the covered employee.".

(d) CONFORMING AMENDMENT.—Paragraph (1) of section 162(i) is amended by striking out "General rule" and inserting in lieu thereof "Coverage relating to end stage renal disease".

(e) EFFECTIVE DATES.—

(1) GENERAL RULE.—The amendments made by this section shall apply to plan years beginning on or after July 1, 1986.

(2) SPECIAL RULE FOR COLLECTIVE BARGAINING AGREEMENTS.—In the case of a group health plan maintained pursuant to one or more collective bargaining agreements between employee representatives and one or more employers ratified before the date of the enactment of this Act, the amendments made by this section shall not apply to plan years beginning before the earlier of—

(A) the date on which the last of the collective bargaining agreements relating to the plan terminates (determined without regard to any extension thereof agreed to after the date of the enactment of this Act), or

(B) January 1, 1987.

For purposes of subparagraph (A), any plan amendment made pursuant to a collective bargaining agreement relating to the plan which amends the plan solely to conform to any requirement added by this section shall not be treated as a termination of such collective bargaining agreement.

SEC. 783. APPLICATION OF FRINGE BENEFIT RULES TO AIRLINES AND THEIR AFFILIATES.

(a) PARENTS OF AIRLINE EMPLOYEES TREATED AS EMPLOYEES IN APPLYING FRINGE BENEFIT RULES.—

(1) IN GENERAL.—Section 132(f) (relating to certain individuals treated as employees with respect to certain fringe benefits) is amended by adding at the end thereof the following new paragraph:

"(3) SPECIAL RULE FOR PARENTS IN THE CASE OF AIR TRANSPORTATION.—Any use of air transportation by a parent of an employee (determined without regard to paragraph (1)(B)) shall be treated as use by the employee.".

(2) EFFECTIVE DATE.—The amendment made by this subsection shall take effect on January 1, 1985.

(b) LINE OF BUSINESS TEST FOR AFFILIATES PROVIDING AIRLINE-RELATED SERVICES.—

(1) IN GENERAL.—Section 132(h) (relating to special rules) is amended by adding at the end thereof the following new paragraph:

"(6) SPECIAL RULE FOR AFFILIATES OF AIRLINES.—

"(A) IN GENERAL.—If—

"(i) a qualified affiliate is a member of an affiliated group another member of which operates an airline, and

"(ii) employees of the qualified affiliate who are directly engaged in providing airline-related services are entitled to no-additional-cost service with respect to air transportation provided by such other member,

then, for purposes of applying paragraph (1) of subsection (a) to such no-additional-cost service provided to such employees, such qualified affiliate shall be treated as engaged in the same line of business as such other member.

"(B) QUALIFIED AFFILIATE.—For purposes of this paragraph, the term 'qualified affiliate' means any corporation which is predominantly engaged in airline-related services.

"(C) AIRLINE-RELATED SERVICES.—For purposes of this paragraph, the term 'airline-related services' means any of the following services provided in connection with air transportation:

"(i) Catering.

"(ii) Baggage handling.

"(iii) Ticketing and reservations.

"(iv) Flight planning and weather analysis.

"(v) Restaurants and gift shops located at an airport.

"(vi) Such other similar services provided to the airline as the Secretary may prescribe.

"(D) AFFILIATED GROUP.—For purposes of this paragraph, the term 'affiliated group' has the meaning given such term by section 1504(a).".

(2) EFFECTIVE DATE.—The amendment made by this section shall take effect on January 1, 1985.

(c) TRANSITIONAL RULE FOR DETERMINATION OF LINE OF BUSINESS IN CASE OF AFFILIATED GROUP OPERATING AIRLINE.—If, as of September 12, 1984—

(1) an individual—

(A) was an employee (within the meaning of section 132 of the Internal Revenue Code of 1954, including subsection (f) thereof) of one member of an affiliated group (as defined in section 1504 of such Code), hereinafter referred to as the "first corporation", and

(B) was eligible for no-additional-cost service in the form of air transportation provided by another member of such affiliated group, hereinafter referred to as the "second corporation",

(2) at least 50 percent of the individuals performing service for the first corporation were or had been employees of, or had previously performed services for, the second corporation, and

(3) the primary business of the affiliated group was air transportation of passengers,

then, for purposes of applying paragraphs (1) and (2) of section 132(a) of the Internal Revenue Code of 1954, with respect to no-additional-cost services and qualified employee discounts provided after December 31, 1984, for such individual by the second corporation, the first corporation shall be treated as engaged in the same air transportation line of business as the second corporation. For purposes of the preceding sentence, an employee of the second corporation who is performing services for the first corporation shall also be treated as an employee of the first corporation.

SEC. 784. TAX TREATMENT OF FACULTY HOUSING.

(a) IN GENERAL.—Section 119 (relating to meals or lodging furnished for the convenience of the employer) is amended by adding at the end thereof the following new subsection:

"(d) LODGING FURNISHED BY CERTAIN EDUCATIONAL INSTITUTIONS TO EMPLOYEES.—

"(1) IN GENERAL.—For purposes of determining under section 61 the amount includible in gross income for any taxable year with respect to qualified campus lodging furnished to an employee of an educational institution, the value of the use of such lodging shall be treated as not greater than 5 percent of the appraised value of such lodging for such taxable year.

"(2) PARAGRAPH (1) ONLY TO APPLY IF QUALIFIED APPRAISAL.—Paragraph (1) shall apply only if the appraised value is deter-

mined by an appraisal which meets such requirements as the Secretary may prescribe.

"(3) QUALIFIED CAMPUS LODGING.—For purposes of this subsection, the term 'qualified campus lodging' means lodging to which subsection (a) does not apply and which is—

"(A) located on, or in the proximity of, a campus of the educational institution, and

"(B) furnished to the employee, his spouse, or any of his dependents by or on behalf of such institution for use as a residence.

"(4) EDUCATIONAL INSTITUTION.—For purposes of this subsection, the term 'educational institution' means an institution described in section 170(b)(1)(A)(ii).".

(b) EFFECTIVE DATE.—The amendment made by subsection (a) shall apply to taxable years beginning after December 31, 1985.

SEC. 785. CERTAIN INSOLVENT TAXPAYERS ALLOWED TO REDUCE CAPITAL GAINS PREFERENCE ITEM FOR PURPOSES OF THE INDIVIDUAL MINIMUM TAX.

(a) IN GENERAL.—Paragraph (9) of section 57(a) (relating to capital gains as items of tax preference) is amended by adding at the end thereof the following new subparagraph:

"(E) SPECIAL RULE FOR CERTAIN INSOLVENT TAXPAYERS.—

"(i) IN GENERAL.—The amount of the tax preference under subparagraph (A) shall be reduced (but not below zero) by the excess (if any) of—

"(I) the applicable percentage of gain from any insolvency transaction, over

"(II) the applicable percentage of any loss from any insolvency transaction which offsets such gain.

"(ii) REDUCTION LIMITED TO AMOUNT OF INSOLVENCY.—The amount of the reduction determined under clause (i) shall not exceed the amount by which the taxpayer is insolvent immediately before the transaction (reduced by any portion of such amount previously taken into account under this clause).

"(iii) INSOLVENCY TRANSACTION.—For purposes of this subparagraph, the term 'insolvency transaction' means—

"(I) the transfer by a taxpayer of real property used by the taxpayer in the active conduct of a trade or business of the taxpayer to a creditor in cancellation of indebtedness, or

"(II) the sale or exchange by the taxpayer of property described in subclause (I) under the threat of foreclosure,

but only if the taxpayer is insolvent immediately before such transaction.

"(iv) INSOLVENT.—For purposes of this subparagraph, the term 'insolvent' means the excess of liabilities over the fair market value of assets.

"(v) APPLICABLE PERCENTAGE.—For purposes of this subparagraph, the term 'applicable percentage' means that percentage of net capital gain with respect to which a deduction is allowed under section 1202(a).".

(b) EFFECTIVE DATE.—The amendment made by this section shall apply to transfers or sales or exchanges made after December 31, 1981, in taxable years ending after such date.

SEC. 786. TREATMENT OF CERTAIN POLLUTION CONTROL BONDS.

(a) GENERAL RULE.—For purposes of subparagraph (F) of section 103(b)(4) of the Internal Revenue Code of 1954 (relating to pollution control facilities), any obligation issued after December 31, 1985, shall be treated as described in such subparagraph if it is part of an issue substantially all of the proceeds of which are used by a qualified regional pollution control authority to acquire existing air or water pollution control facilities which the authority itself will operate in order to maintain or improve control of pollutants. The provisions of section 103(b)(17) of such Code (relating to prohibition on acquisition of existing property not permitted) shall not apply to any obligation described in the preceding sentence.

(b) $200,000,000 LIMITATION.—The aggregate amount of obligations to which subsection (a) applies shall not exceed $200,000,000, except that the amount of such obligations issued during calendar year 1986 to which subsection (a) applies shall not exceed $100,000,000.

(c) RESTRICTIONS.—Subsection (a) shall apply only if—

(1) the amount paid (directly or indirectly) for the facilities does not exceed their fair market value,

(2) the fees or charges imposed (directly or indirectly) on any seller for the use of any facilities after the sale are not less than the amounts charged for the use of such facilities to persons other than the seller,

(3) the original use of the facilities acquired with the proceeds of such obligations commenced before September 3, 1982, and

(4) no person other than the qualified regional pollution control authority is considered after the sale as the owner of the facilities for purposes of Federal income taxes.

(d) QUALIFIED REGIONAL POLLUTION CONTROL AUTHORITY DEFINED.—For purposes of this section, the term "qualified regional pollution control authority" means an authority which—

(1) is a political subdivision created by State law to control air or water pollution,

(2) has within its jurisdictional boundaries all or part of at least 2 counties (or equivalent political subdivisions),

(3) operates air or water pollution control facilities, and

(4) was created on September 1, 1969.

(e) REPEAL OF SECTION 103(b)(11).—Paragraph (11) of section 103(b) is hereby repealed.

SEC. 787. TREATMENT OF THE NETTING OF GAINS AND LOSSES BY COOPERATIVES.

(a) IN GENERAL.—Section 1388 (relating to definitions and special rules applicable to cooperatives) is amended by redesignating subsection (j) as subsection (k) and by inserting after subsection (i) the following new subsection:

"(j) SPECIAL RULES FOR THE NETTING OF GAINS AND LOSSES BY COOPERATIVES.—For purposes of this subchapter, in the case of any organization to which part I of this subchapter applies—

"(1) OPTIONAL NETTING OF PATRONAGE GAINS AND LOSSES PERMITTED.—The net earnings of such organization may, at its option, be determined by offsetting patronage losses (including any patronage loss carried to such year) which are attributable to 1 or more allocation units (whether such units are functional, divisional, departmental, geographic, or otherwise) against patronage earnings of 1 or more other such allocation units.

"(2) EXISTENCE OF OBLIGATIONS TO PAY.—In determining under subsection (a)(2) whether any obligation of such organization to pay a patronage dividend exists, there shall not be taken into account the right to offset losses described in paragraph (1).

"(3) NOTICE REQUIREMENTS.—

"(A) IN GENERAL.—In the case of any organization which exercises its option under paragraph (1) for any taxable year, such organization shall, on or before the 15th day of the 9th month following the close of such taxable year, provide to each patron a written notice which—

"(i) states that the organization has offset earnings and losses from 1 or more of its allocation units and that such offset may have affected the amount which is being, or would have been, distributed to such patron,

"(ii) states generally the identity of the offsetting allocation units, and

"(iii) states briefly what rights, if any, such patron may have to additional financial information of such organization under terms of its charter, articles of incorporation, or bylaws, or under any provision of law.

"(B) CERTAIN INFORMATION NEED NOT BE PROVIDED.—An organization may exclude from the information required to be provided under clause (ii) of subparagraph (A) any detailed or specific data regarding earnings or losses of such units which such organization determines would disclose commercially sensitive information which—

"(i) could result in a competitive disadvantage to such organization, or

"(ii) could create a competitive advantage to the benefit of a competitor of such organization.

"(C) FAILURE TO PROVIDE SUFFICIENT NOTICE.—If the Secretary determines that an organization failed to provide sufficient notice under this paragraph—

"(i) the Secretary shall notify such organization, and

"(ii) such organization shall, upon receipt of such notification, provide to each patron a revised notice meeting the requirements of this paragraph.

Any such failure shall not affect the treatment of the organization under any provision of this subchapter or section 521.

"(4) PATRONAGE EARNINGS OR LOSSES DEFINED.—For purposes of this subsection, the terms 'patronage earnings' and 'patronage losses' means earnings and losses, respectively, which are derived from business done with or for patrons of the organization.".

(b) TAX-EXEMPT STATUS NOT AFFECTED BY NETTING.—Section 521(b) (relating to applicable rules) is amended by adding at the end thereof the following new paragraph:

"(6) NETTING OF LOSSES.—Exemption shall not be denied any such association because such association computes its net earnings for purposes of determining any amount available for distribution to patrons in the manner described in paragraph (1) of section 1388(j).".

(c) EFFECTIVE DATE.—

(1) IN GENERAL.—Except as provided in paragraph (2), the amendments made by this section shall apply to taxable years beginning after December 31, 1962.

(2) NOTIFICATION REQUIREMENT.—The provisions of section 1388(j)(3) of the Internal Revenue Code of 1954 (as added by subsection (a)) shall apply to taxable years beginning on or after the date of the enactment of this Act.

SEC. 788. ALLOCATION UNDER SECTION 861 OF RESEARCH AND EXPERIMENTAL EXPENDITURES.

Subsection (c)(1) of section 126 of the Deficit Reduction Act of 1984 is amended by striking out "1985" and inserting in lieu thereof "1986".

PART 2—SUPERFUND

SEC. 789. SHORT TITLE.

This part may be cited as the "Superfund Revenue Act of 1985".

SEC. 789A. 5-YEAR EXTENSION OF TAX ON PETROLEUM AND CERTAIN CHEMICALS; CERTAIN EXEMPTIONS.

(a) 5-YEAR EXTENSION; TERMINATION IF FUNDS UNSPENT OR $7,500,000,000 COLLECTED.—

(1) IN GENERAL.—Subsection (d) of section 4611 (relating to termination) is amended to read as follows:

"(d) TERMINATION.—

"(1) IN GENERAL.—Except as otherwise provided in this section, the tax imposed by this subsection shall not apply after September 30, 1990.

"(2) NO TAX IF UNOBLIGATED BALANCE IN FUND IS MORE THAN CERTAIN AMOUNT.—If, on September 30, 1988, or September 30, 1989—

"(A) the unobligated balance in the Hazardous Substance Superfund exceeds $2,225,000,000 or $3,000,000,000, respectively, and

"(B) the Secretary, after consultation with the Administrator of the Environmental Protection Agency, determines that such unobligated balance will exceed $2,225,000,000, or $3,000,000,000 on September 30, 1989, or September 30, 1990, respectively, if no tax is imposed under section 4001, 4611, or 4661 during calendar year 1989 or 1990, respectively,

then no tax shall be imposed under this section during calendar year 1989 or 1990, as the case may be.

"(3) NO TAX IF AMOUNTS COLLECTED EXCEED $7,500,000,000.—

"(A) ESTIMATES BY SECRETARY.—The Secretary as of the close of each calendar quarter (and at such other times as the Secretary determines appropriate) shall make an estimate of—

"(i) the amount of taxes which will be collected under sections 4001, 4611, and 4661 and credited to the Hazardous Substance Superfund, and

"(ii) the amount of interest which will be credited to such Fund under section 9602(b)(3),

during the period beginning October 1, 1985, and ending September 30, 1990.

"(B) TERMINATION IF $7,500,000,000 CREDITED BEFORE SEPTEMBER 30, 1990.—If the Secretary estimates under subparagraph (A) that more than $7,500,000,000 will be credited to the Fund before September 30, 1990, no tax shall be imposed under this section after the date on which the Secretary estimates $7,500,000,000 will be so credited to the Fund.

"(4) PROCEDURES FOR TERMINATION.—The Secretary shall by regulation provide procedures for the termination under paragraph (2) or (3) of the tax under this section and section 4661.".

(2) CONFORMING AMENDMENT.—Section 303 of the Comprehensive Environmental Response, Compensation, and Liability Act of 1980 (relating to expiration of revenue provisions) is repealed.

(b) EXEMPTION FOR EXPORTS OF TAXABLE CHEMICALS.—

(1) IN GENERAL.—Section 4662 (relating to definitions and special rules) is amended by redesignating subsection (e) as subsection (f) and by inserting after subsection (d) the following new subsection:

"(e) EXEMPTION FOR EXPORTS OF TAXABLE CHEMICALS.—

"(1) TAX-FREE SALES.—

"(A) IN GENERAL.—No tax shall be imposed under section 4661 on the sale by the manufacturer or producer of any taxable chemical for export, or for resale by the purchaser to a second purchaser for export.

"(B) PROOF OF EXPORT REQUIRED.—Rules similar to the rules of section 4221(b) shall apply for purposes of subparagraph (A).

"(2) CREDIT OR REFUND WHERE TAX PAID.—

"(A) IN GENERAL.—Except as provided in subparagraph (B), if—

"(i) a tax under section 4661 was paid with respect to any taxable chemical, and

"(ii) such chemical was exported by any person,

credit or refund (without interest) of such tax shall be allowed or made to the person who paid such tax.

"(B) CONDITION TO ALLOWANCE.—No credit or refund shall be allowed or made under subparagraph (A) unless the person who paid the tax establishes that such person—

"(i) has repaid or agreed to repay the amount of the tax to the person who exported the taxable chemical, or

"(ii) has obtained the written consent of such exporter to the allowance of the credit or the making of the refund.

"(3) REGULATIONS.—The Secretary shall prescribe such regulations as may be necessary to carry out the purposes of this subsection.".

(2) REFUND OR CREDIT.—Paragraph (1) of section 4662(d) (relating to refund or credit for certain uses) is amended—

(A) by striking out "the sale of which by such person would be taxable under such section" in subparagraph (B) and inserting in lieu thereof "which is a taxable chemical", and

(B) by striking out "imposed by such section on the other substance manufactured or produced" in the last sentence and inserting in lieu thereof "imposed by such section on the other substance manufactured or produced (or which would have been imposed by such section on such other substance but for subsection (e) of this section)".

(c) EXEMPTION FOR CERTAIN RECYCLED CHEMICALS.—

(1) IN GENERAL.—Section 4662(b) (relating to exceptions and other special rules) is amended by adding at the end thereof the following new paragraph:

"(7) RECYCLED CHROMIUM, COBALT, AND NICKEL.—

"(A) IN GENERAL.—No tax shall be imposed under section 4661(a) on any chromium, cobalt, or nickel which is diverted or recovered from any solid waste as part of a recycling process (and not as part of the original manufacturing or production process).

"(B) EXCEPTION FOR IMPORTS.—This paragraph shall not apply to the sale of any chromium, cobalt, or nickel which is diverted or recovered outside the United States and then imported into the United States.

"(C) CERTAIN PERSONS NOT ELIGIBLE.—

"(i) IN GENERAL.—This paragraph shall not apply to any taxpayer during any period during which the taxpayer is a potentially responsible party for a site which is listed on the National Priorities List published by the Environmental Protection Agency under section 105 of the Comprehensive Environmental Response, Compensation, and Liability Act of 1980, except that such period shall not begin until the Administrator of the Environmental Protection Agency notifies the taxpayer that the taxpayer is such a party.

"(ii) EXCEPTION WHERE TAXPAYER IS IN COMPLIANCE.—Clause (i) shall not apply to any portion of the period during which the taxpayer is in compliance with each order, decree, or judgment issued against the taxpayer with respect to the site in any action or proceeding under the Comprehensive Environmental Response, Compensation, and Liability Act of 1980, the Solid Waste Disposal Act, or both.

"(D) SOLID WASTE.—For purposes of this paragraph, the term 'solid waste' has the meaning given such term by section 1004 of the Solid Waste Disposal Act, except that such term shall not include any byproduct, coproduct, or other waste from any process of smelting, refining, or otherwise extracting any metal.".

(2) CREDIT OR REFUND.—Paragraph (1) of section 4662(d), as amended by subsection (b)(2), is amended by inserting "(b)(7) or" before "(e)" in the last sentence thereof.

(d) TAX EXEMPTION FOR ANIMAL FEED SUBSTANCES.—

(1) IN GENERAL.—Subsection (b) of section 4662 (relating to definitions and special rules with respect to the tax on certain chemicals), as amended by subsection (c)(1), is amended by adding at the end thereof the following paragraph:

"(8) SUBSTANCES USED IN THE PRODUCTION OF ANIMAL FEED.—

"(A) IN GENERAL.—In the case of nitric acid, sulfuric acid, ammonia, or methane used to produce ammonia, which is a qualified animal feed substance, no tax shall be imposed under section 4661(a).

"(B) QUALIFIED ANIMAL FEED SUBSTANCE.—For purposes of this section, the term 'qualified animal feed substance' means any substance—

"(i) used in a qualified animal feed use by the manufacturer, producer or importer,

"(ii) sold for use by any purchaser in a qualified animal feed use, or

"(iii) sold for resale by any purchaser for use, or resale for ultimate use, in a qualified animal feed use.

"(C) QUALIFIED ANIMAL FEED USE.—The term 'qualified animal feed use' means any use in the manufacture or production of animal feed or animal feed supplements, or of ingredients used in animal feed or animal feed supplements.

"(D) TAXATION OF NONQUALIFIED SALE OR USE.—For purposes of section 4661(a), if no tax was imposed by such section on the sale or use of any chemical by reason of subparagraph (A), the first person who sells or uses such chemical other than in a sale or use described in subparagraph (A) shall be treated as the manufacturer of such chemical.".

(2) REFUND OR CREDIT FOR SUBSTANCES USED IN THE PRODUCTION OF ANIMAL FEED.—Subsection (d) of section 4662 (relating to refunds and credits with respect to the tax on certain chemicals) is amended by adding at the end thereof the following new paragraph:

"(4) USE IN THE PRODUCTION OF ANIMAL FEED.—Under regulations prescribed by the Secretary, If—

"(A) a tax under section 4661 was paid with respect to nitric acid, sulfuric acid, ammonia, or methane used to produce ammonia, without regard to subsection (b)(8), and

"(B) any person uses such substance as a qualified animal feed substance,

then an amount equal to the excess of the tax so paid over the tax determined with regard to subsection (b)(8) shall be allowed as a credit or refund (without interest) to such person in the same manner as if it were an overpayment of tax imposed by this section.".

(e) CERTAIN EXCHANGES BY TAXPAYERS NOT TREATED AS SALES.—Subsection (c) of section 4662 (relating to use by manufactures) is amended to read as follows:

"(c) USE AND CERTAIN EXCHANGES BY MANUFACTURER, ETC.—

"(1) USE TREATED AS SALE.—Except as provided in subsection (b), if any person manufactures, produces, or imports any taxable chemical and uses such chemical, then such person shall be liable for tax under section 4661 in the same manner as if such chemical were sold by such person.

"(2) SPECIAL RULES FOR INVENTORY EXCHANGES.—

"(A) IN GENERAL.—Except as provided in this paragraph, in any case in which a manufacturer, producer, or importer of a taxable chemical exchanges such chemical as part of a inventory exchange with another person—

"(i) such exchange shall not be treated as a sale, and

"(ii) such other person shall, for purposes of section 4661, be treated as the manufacturer, producer, or importer of such chemical.

"(B) EXCEPTION FOR EXCHANGES WHERE RECIPIENT NOT TAXABLE.—Subparagraph (A) shall not apply to any inventory exchange if the person receiving the taxable chemical would not be subject to tax on the sale of such chemical (other than by reason of subsection (b)).

"(C) REGISTRATION REQUIREMENT.—Subparagraph (A) shall not apply to any inventory exchange unless—

"(i) both parties are registered with the Secretary as manufacturers, producers, or importers of taxable chemicals, and

"(ii) the person receiving the taxable chemical has, at such time as the Secretary may prescribe, notified the manufacturer, producer, or importer of such person's registration number and the internal revenue district in which such person is registered.

"(D) INVENTORY EXCHANGE.—For purposes of this paragraph, the term 'inventory exchange' means an exchange in which a person exchanges property which, in the hands of such person, is property described in section 1221(1) for property of another person which, in such other person's hands, is so described.".

(f) EFFECTIVE DATE.—

(1) IN GENERAL.—Except as provided in paragraph (2), the amendments made by this section shall take effect on October 1, 1985.

(2) INVENTORY EXCHANGES.—

(A) IN GENERAL.—Except as provided in subparagraphs (B) and (C), the amendment made by subsection (e) shall apply as if included in the amendments made by section 211 of the Hazardous Substance Response Revenue Act of 1980.

(B) EXCEPTION WHERE MANUFACTURER PAID TAX.—In the case of any inventory exchange before January 1, 1986, the amendment made by subsection (e) shall not apply if the manufacturer, producer, or importer treated such exchange as a sale for purposes of section 4661 of the Internal Revenue Code of 1954 and paid the tax imposed by such section.

(C) REGISTRATION REQUIREMENTS.—Section 4662(c)(2)(C) of such Code (as added by subsection (e)) shall apply to exchanges made after December 31, 1985.

SEC. 789B. IMPOSITION OF SUPERFUND EXCISE TAX.

(a) IN GENERAL.—Subtitle D (relating to miscellaneous excise taxes) is amended by inserting before chapter 31 the following new chapter:

"CHAPTER 30—SUPERFUND EXCISE TAX

"SUBCHAPTER A. Imposition of tax.

"SUBCHAPTER B. Taxable transaction.

"SUBCHAPTER C. Taxable amount; exempt transactions; credit against tax.

"SUBCHAPTER D. Administration.

"SUBCHAPTER E. Definitions; special rules.

"Subchapter A—Imposition of Tax

"Sec. 4001. Imposition of tax.

"Sec. 4002. Termination.

"SEC. 4001. IMPOSITION OF TAX.

"(a) GENERAL RULE.—A tax is hereby imposed on each taxable transaction.

"(b) AMOUNT OF TAX.—Except as otherwise provided in this chapter, the amount of the tax shall be .08 percent of the taxable amount.

"SEC. 4002. TERMINATION.

"(a) IN GENERAL.—No tax shall be imposed under this section after December 31, 1990.

"(b) NO TAX IF FUNDS UNSPENT OR $7,500,000,000 COLLECTED.—No tax shall be imposed under subsection (a) during any period during which no tax is imposed under section 4611(a) by reason of paragraph (2) or (3) of section 4611(d), except that section 4611(d)(3) shall, for purposes of this subsection, be applied by substituting 'December 31, 1990' for 'September 30, 1990' each place it appears.

"(c) PROCEDURES FOR TERMINATION.—

"(1) PRORATION OVER TAXABLE PERIOD.—In the case of any taxable period which begins before and ends after the date of any termination under this section, the tax imposed by section 4001 (and the credit allowable under section 4013) for such taxable period shall be equal to an amount which bears the same ratio of the amount of such tax (and credit) for such taxable period (determined without regard to the termination) as—

"(A) the number of days in such taxable period up to and including the date of termination, bears to

"(B) the number of days in such taxable period.

"(2) OTHER PROCEDURES.—The Secretary shall by regulation provide such procedures for a termination under this section as the Secretary determines necessary.

"Subchapter B—Taxable Transaction

"Sec. 4003. Taxable transaction.

"Sec. 4004. Taxable person.

"SEC. 4003. TAXABLE TRANSACTION.

"(a) IN GENERAL.—For purposes of this chapter, the term 'taxable transaction' means—

"(1) the sale or leasing of tangible personal property in the United States by a taxable person in connection with a trade or business, or

"(2) the importing of tangible personal property into the customs territory of the United States by a taxable person.

"(b) EXEMPT TRANSACTIONS.—For exempt transactions, see section 4012.

"SEC. 4004. TAXABLE PERSON.

"Except as otherwise provided in this chapter, for purposes of this chapter, the term 'taxable person' means—

"(1) in the case of a taxable transaction described in paragraph (1) of section 4003(a)—

"(A) the manufacturer of the tangible personal property, or

"(B) any person who included the costs of the tangible personal property in such person's qualified inventory costs, and

"(2) in the case of a taxable transaction described in paragraph (2) of section 4003(a), the importer of the tangible personal property.

"Subchapter C—Taxable Amount; Exempt Transactions; Credit Against Tax

"Sec. 4011. Taxable amount.

"Sec. 4012. Exempt transactions.

"Sec. 4013. Credit against tax on sales and leases.

"SEC. 4011. TAXABLE AMOUNT.

"(a) SALE.—For purposes of this chapter, the taxable amount for any sale shall be the price (in money or fair market value of other consideration) charged the purchaser of the property by the seller thereof—

"(1) including items payable to the seller with respect to such transaction, but

"(2) excluding the tax imposed by section 4001 with respect to such transaction.

"(b) IMPORTS.—For purposes of this chapter, the taxable amount in the case of any import shall be—

"(1) the customs value plus customs duties and any other duties which may be imposed, or

"(2) if there is no such customs value, the fair market value (determined as if the importer had sold the property).

"(c) LEASES.—For purposes of this chapter, the taxable amount in the case of any lease shall be the gross payments under the lease.

"(d) CONTAINERS, PACKING AND TRANSPORTATION CHARGES; CONSTRUCTIVE SALES PRICE.—Under regulations, rules similar to the rules of subsections (a) and (b) of section 4216 (relating to containers, packing and transportation charges, etc., and constructive sales price) shall apply in computing the taxable amount.

"(e) SPECIAL RULE WHERE SALE OR LEASE PAYMENTS RECEIVED IN MORE THAN 1 TAXABLE PERIOD.—

"(1) SALES.—In the case of a sale where the consideration is received by the seller in more than 1 taxable period, the taxable amount for each such taxable period shall include that portion of the taxable amount which is includible in the gross income of the taxable person for purposes of chapter 1 for taxable years ending with or within such taxable period (or would be so includible if it were not excludable from gross income).

"(2) LEASES.—In the case of a lease with a term which includes more than 1 taxable period, the taxable amount for each such taxable period shall include the gross lease payments received by the taxable person during such taxable period.

"SEC. 4012. EXEMPT TRANSACTIONS.

"(a) IMPORTS OF $10,000 OR LESS.—No tax shall be imposed under section 4001 on any tangible personal property imported into the customs territory of the United States as part of a shipment (within the meaning of section 498(1) of the Tariff Act of 1930; 19 U.S.C. 1498(1)) the aggregate taxable amount of which is $10,000 or less.

"(b) EXPORTS.—Under regulations, no tax shall be imposed under section 4001 on the sale of any property which is to be exported outside the United States.

"(c) GOVERNMENTAL ENTITIES AND EXEMPT ORGANIZATIONS EXEMPT FROM TAX ON SALES AND LEASES.—

"(1) GOVERNMENTAL ENTITIES.—No tax shall be imposed under section 4001 on the sale or leasing of any tangible personal property by the United States, any State or political subdivision, the District of Columbia, a Commonwealth or possession of the United States, or any agency or instrumentality of any of the foregoing.

"(2) EXEMPT ORGANIZATIONS.—No tax shall be imposed under section 4001 on the sale or leasing of any tangible personal property by any organization which is exempt from taxation under chapter 1 by reason of section 501(a), unless the taxable transaction is part

of an unrelated trade or business (within the meaning of section 513).

"SEC. 4013. CREDIT AGAINST TAX ON SALES AND LEASES.

"(a) GENERAL RULE.—There shall be allowed as a credit against the tax imposed by section 4001 for any taxable period on taxable transactions described in paragraph (1) of section 4003(a) an amount equal to the greater of—

"(1) .08 percent of the qualified inventory costs of the taxable person for the taxable period, or

"(2) the amount of the tax imposed by section 4001 on such taxable transactions, to the extent such amount does not exceed $4,000.

"(b) LIMITATION BASED ON TAX LIABILITY; CARRYFORWARD OF EXCESS CREDIT.—

"(1)" LIMITATION BASED ON AMOUNT OF TAX.—The amount of the credit allowed by subsection (a) for any taxable period shall not exceed the liability for tax imposed by section 4001 for such period.

"(2)" CARRYFORWARD OF EXCESS CREDIT.—If the credit allowable under subsection (a) for any taxable period exceeds the limitation imposed by paragraph (1), such credit shall be carried to the succeeding taxable period and added to the credit allowable under subsection (a) for such succeeding taxable period.

"(c) QUALIFIED INVENTORY COSTS.—For purposes of this chapter—

"(1) IN GENERAL.—Except as provided in paragraph (2), the term 'qualified inventory costs' means, with respect to any taxable period, the costs of tangible personal property which—

"(A) are allocable to the inventory of a manufacturer under the full absorption method of accounting under section 471, and

"(B) are paid or incurred by the taxable person during such taxable period.

"(2) SPECIAL RULES.—For purposes of this subsection—

"(A) EXPENSING RATHER THAN DEPRECIATION OR AMORTIZATION.—The qualified inventory costs of any taxpayer for any taxable period shall, in lieu of any allowance for depreciation or amortization, include any amount paid or incurred during such taxable period for tangible personal property acquired or leased incident to, and necessary for, production or manufacturing operations or processes.

"(B) TAXPAYERS USING METHODS OF ACCOUNTING OTHER THAN THE FULL ABSORPTION METHOD.—In the case of a taxable person using a method of accounting other than the full absorption method used in determining the inventory of a manufacturer under section 471, the qualified inventory costs of such person shall, except as provided in regulations, include only those costs included in the inventory of a manufacturer under such full absorption method.

"(C) PROPERTY MANUFACTURED FOR LEASE BY MANUFACTURER.—For purposes of computing qualified inventory costs, any tangible personal property which is manufactured for lease by the manufacturer shall be treated in the same manner as property which is manufactured for sale by the manufacturer.

"(d) SPECIAL RULE FOR TAXPAYERS UNDER COMMON CONTROL.—

"(1) IN GENERAL.—All persons which are—

"(A) members of the same controlled group of corporations (within the meaning of section 52(a)), or

"(B) under common control (within the meaning of section 52(b)),

shall be treated as 1 person for purposes of applying the $4,000 amount under subsection (a)(2).

"(2) ALLOCATION OF $4,000.—The $4,000 amount under subsection (a)(2) shall be allocated among persons described in paragraph (1) in such manner as the Secretary may prescribe by regulations.

"Subchapter D—Administration

"Sec. 4021. Liability for tax.

"Sec. 4022. Return requirement; taxable period; depositary requirements.

"Sec. 4023. Regulations.

"SEC. 4021. LIABILITY FOR TAX.

"The taxable person shall be liable for the tax imposed by section 4001.

"SEC. 4022. RETURN REQUIREMENT; TAXABLE PERIOD; DEPOSITARY REQUIREMENTS.

"(a) RETURN REQUIREMENT.—

"(1) IN GENERAL.—Except as provided in this subsection, each taxable person shall file a return of the tax imposed by section 4001 for any taxable period not later than—

"(A) the due date (including extensions) for filing the taxpayer's return of tax under chapter 1, or

"(B) if there is no return of tax under chapter 1, the due date (including extensions) under chapter 1 for a taxable year which is the calendar year.

"(2) EXCEPTION FOR SALES OR LEASES OF $5,000,000 OR LESS.—A taxable person shall not be required to file a return for any taxable period for taxable transactions described in paragraph (1) of section 4003(a) if the aggregate taxable amount for such transactions is $5,000,000 or less.

"(3) OTHER EXCEPTIONS.—The Secretary may by regulation exempt any taxable person from the requirement of paragraph (1).

"(b) TAXABLE PERIOD.—For purposes of this chapter, the term 'taxable period' means—

"(1) the taxable person's taxable year for purposes of chapter 1, or

"(2) if there is no taxable year for purposes of chapter 1, the calendar year.

"(c) DEPOSITARY REQUIREMENTS.—

"(1) IN GENERAL.—In the case of any person with respect to whom a tax is imposed under section 4001 for any taxable period on any taxable transaction described in paragraph (1) of section 4003(a), such person shall make quarterly deposits of the estimated amount of such tax for the succeeding taxable period.

"(2) SPECIAL RULE FOR 1ST TAXABLE PERIOD.—Notwithstanding paragraph (1), a deposit shall be required for the first taxable period of any taxable person to which this chapter applies if the gross receipts of such person during the first taxable year ending before such taxable period from the sale or leasing of tangible personal property manufactured by such person exceed $50,000,000.

"SEC. 4023. REGULATIONS.

"The Secretary shall prescribe such regulations as may be necessary to carry out the purposes of this chapter.

"Subchapter E—Definitions; Special Rules

"Sec. 4031. Definitions; special rules.

"SEC. 4031. DEFINITIONS; SPECIAL RULES.

"(a) MANUFACTURING.—For purposes of this chapter—

"(1) PRODUCTION INCLUDED.—The term 'manufacturing' includes the production of tangible personal property, including raw materials.

"(2) CERTAIN ACTIVITIES NOT INCLUDED IN MANUFACTURING.—The term 'manufacturing' does not include—

"(A) the furnishing of services incidental to storage or transportation of property,

"(B) the preparation of food in a restaurant or other retail food establishment, or

"(C) the incidental preparation of property by a retailer or wholesaler (including routine assemblage).

"(b) MANUFACTURER.—For purposes of this chapter, the term 'manufacturer' includes any producer of tangible personal property (including raw materials), but does not include any person conducting an activity described in subsection (a)(2).

"(c) PERSON.—For purposes of this chapter, the term 'person' includes any governmental entity.

"(d) UNITED STATES.—For purposes of this chapter, the term 'United States', when used in a geographical sense, includes a Commonwealth and any possession of the United States.

"(e) TANGIBLE PERSONAL PROPERTY.—For purposes of this chapter, the term 'tangible personal property' does not include unprocessed agricultural products or unprocessed food products.

"(f) UNPROCESSED AGRICULTURAL PRODUCTS.—For purposes of this chapter, the term 'unprocessed agricultural product' includes timber and fish.

"(g) CUSTOMS TERRITORY OF THE UNITED STATES.—For purposes of this chapter, the term 'customs territory of the United States' has the meaning given such term by headnote 2 of the General Headnotes and Rules of Interpretation of the Tariff Schedules of the United States (19 U.S.C. 1202).

"(h) TAX ON IMPORT IN ADDITION TO DUTY.—The tax imposed by section 4001 on the importing of any tangible personal property shall be in addition to any duty imposed on such importation.

"(i) DISPOSITION OF REVENUES FROM PUERTO RICO AND THE VIRGIN ISLANDS.—The provisions of subsections (a)(3) and (b)(3) of section 7652 and any similar provision of law which requires an internal revenue tax collected by the United States to be paid to a Commonwealth or possession of the United States shall not apply to any tax imposed by section 4001.

"(j) SPECIAL RULE FOR SHORT TAXABLE PERIODS.—In the case of a taxable period which is less than 1 calendar year, there shall be substituted for the $4,000 amounts in subsections (a) and (d) of section 4013 and the $5,000,000 amount in section 4022(a)(2) the amount which bears the same ratio to such amounts as the number of days in the taxable period bears to 365.

"(k) SALE TO INCLUDE CERTAIN EXCHANGES AND TRANSFERS.—For purposes of this chapter, except as provided in regulations, the term 'sale' includes any exchange or transfer other than a gift (within the meaning of section 102 or section 170).".

(b) APPLICATION OF CERTAIN PENALTIES.—

(1) FAILURE TO FILE RETURN OR PAY TAX.—Paragraph (1) of section 6651(a) (relating to addition to tax) is amended by inserting "section 4022 (relating to Superfund excise tax)," before "subchapter A of chapter 51".

(2) NEGLIGENCE PENALTY.—Section 6653(a) (relating to negligence or intentional disregard of rules and regulations) is amended—

(A) by inserting ", by chapter 30 (relating to Superfund excise tax)," after "subtitle B" in paragraph (1) thereof, and

(B) by striking out "Windfall Profit" in the heading thereof and inserting in lieu thereof "Certain Excise".

(3) FAILURE TO MAKE DEPOSITS.—Section 6656 (relating to failure to make deposit of taxes or overstatement of deposits) is amended by adding at the end thereof the following new subsection:

"(c) SPECIAL RULE FOR SUPERFUND EXCISE TAX.—For purposes of subsection (a), in the case of the tax imposed by section 4001, the tax required to be deposited shall be equal to the lesser of—

"(1) 90 percent of the tax imposed by section 4001 during the taxable period on taxable transactions described in paragraph (1) of section 4003(a), or

"(2) the amount of such tax imposed during the preceding taxable period (determined on an annual basis).

Paragraph (2) shall not apply if no tax was imposed during the preceding taxable period.".

(c) CLERICAL AMENDMENT.—The table of chapters for subtitle D is amended by inserting before the item relating to chapter 31 the following new item:

"CHAPTER 30. Superfund Excise Tax.".

(d) EFFECTIVE DATES.—

(1) IN GENERAL.—Except as provided in this subsection, the amendments made by this section shall apply with respect to taxable amounts received in taxable periods beginning after December 31, 1985.

(2) SPECIAL RULE FOR IMPORTS.—In the case of imports, the amendments made by this section shall apply to articles entered, or withdrawn from warehouse, for consumption after December 31, 1985.

(3) SPECIAL RULE FOR TAXABLE PERIOD INCLUDING JANUARY 1, 1985.—In the case of any taxable period which begins before January 1, 1985, and ends after January 1, 1985, the tax imposed by section 4001 of the Internal Revenue Code of 1954 (and the credit allowable under section 4013 of such Code) for such taxable period shall be equal to an amount which bears the same ratio to the amount of such tax (and credit) for such taxable period (determined as if such tax and credit had been in effect for the entire taxable period) as—

(A) the number of days in such taxable period after December 31, 1985, bears to

(B) the number of days in such taxable period.

SEC. 789C. HAZARDOUS SUBSTANCE SUPERFUND.

(a) IN GENERAL.—Subchapter A of chapter 98 (relating to establishment of trust funds) is amended by adding at the end thereof the following new section:

"SEC. 9505. HAZARDOUS SUBSTANCE SUPERFUND.

"(a) CREATION OF TRUST FUND.—There is established in the Treasury of the United States a trust fund to be known as the 'Hazardous Substance Superfund' (hereinafter in this section referred to as the 'Superfund'), consisting of such amounts as may be—

"(1) appropriated to the Superfund as provided in this section, or

"(2) credited to the Superfund as provided in section 9602(b).

"(b) TRANSFERS TO SUPERFUND.—

"(1) IN GENERAL.—There are hereby appropriated to the Superfund amounts equivalent to—

"(A) the taxes received in the Treasury under section 4001 (relating to Superfund excise tax),

"(B) the taxes received in the Treasury under section 4611 or 4661 (relating to taxes on petroleum and certain chemicals),

"(C) amounts recovered on behalf of the Superfund under the Comprehensive Environmental Response, Compensation, and Liability Act of 1980 (hereinafter in this section referred to as 'CERCLA'),

"(D) all moneys recovered or collected under section 311(b)(6)(B) of the Clean Water Act,

"(E) penalties assessed under title I of CERCLA, and

"(F) punitive damages under section 107(c)(3) of CERCLA.

"(2) TRANSFER OF CERTAIN OTHER FUNDS.—There shall be transferred to the Superfund—

"(A) the amounts appropriated under section 504(b) of the Clean Water Act during any fiscal year, and

"(B) the unobligated balance in the Post-closure Liability Trust Fund as of October 1, 1985.

"(c) EXPENDITURES FROM THE SUPERFUND.—

"(1) IN GENERAL.—Amounts in the Superfund shall be available in connection with releases or threats of releases of hazardous substances into the environment only for purposes of making expenditures which are described in section 111 of CERCLA (other than subsection (j) thereof) as in effect on the date of the enactment of the Superfund Improvement Act of 1985, including—

"(A) response costs,

"(B) claims asserted and compensable but unsatisfied under section 311 of the Clean Water Act,

"(C) claims for injury to, or destruction or loss of, natural resources, and

"(D) related costs described in section 111(c) of CERCLA.

"(2) LIMITATIONS ON EXPENDITURES.—At least 85 per centum of the amounts appropriated to the Superfund shall be reserved—

"(A) for the purposes specified in paragraphs (1), (2), and (4) of section 111(a) of CERCLA, and

"(B) for the repayment of advances made under subsection (d), other than advances subject to the limitation of subsection (d)(2)(B).

"(d) AUTHORITY TO BORROW.—

"(1) IN GENERAL.—There are authorized to be appropriated to the Superfund, as repayable advances, such sums as may be necessary to carry out the purposes of the Superfund.

"(2) LIMITATIONS ON ADVANCES TO SUPERFUND.—

"(A) AGGREGATE ADVANCES.—The maximum aggregate amount of repayable advances to the Superfund which is outstanding at any one time shall not exceed an amount which the Secretary estimates will be equal to the sum of the amounts described in paragraph (1) of subsection (b) which will be transferred to the Superfund during the following 12 months.

"(B) ADVANCES FOR CERTAIN COSTS.—The maximum aggregate amount advanced to the Superfund which is outstanding at any one time for purposes of paying costs other than costs described in section 111 (a)(1), (2), or (4) of CERCLA shall not exceed 15 percent of the amount of the estimate made under subparagraph (A).

"(C) FINAL REPAYMENT.—No advance shall be made to the Superfund after September 30, 1990, and all advances to such Fund shall be repaid on or before December 31, 1990.

"(3) REPAYMENT OF ADVANCES.—

"(A) IN GENERAL.—Advances made pursuant to this subsection shall be repaid, and interest on such advances shall be paid, to the general fund of the Treasury when the Secretary determines that moneys are available for such purposes in the Superfund (or when required by paragraph (2)(C)).

"(B) RATE OF INTEREST.—Interest on advances made pursuant to this subsection shall be at a rate determined by the Secretary of the Treasury (as of the close of the calendar month preceding the month in which the advance is made) to be equal to the current average market yield on outstanding marketable obligations of the United States with remaining periods to maturity comparable to the anticipated period during which the advance will be outstanding and shall be compounded annually.

"(e) LIABILITY OF UNITED STATES LIMITED TO AMOUNT IN TRUST FUND.—

"(1) GENERAL RULE.—Any claim filed against the Superfund may be paid only out of the Superfund.

"(2) COORDINATION WITH OTHER PROVISIONS.—Nothing in CERCLA or the Superfund Improvement Act of 1985 (or in any amendment made by either of such Acts) shall authorize the payment by the United States Government of any amount with respect to any such claim out of any source other than the Superfund.

"(3) ORDER IN WHICH UNPAID CLAIMS ARE TO BE PAID.—If at any time the Superfund is unable (by reason of paragraph (1)) to pay all of the claims payable out of the Superfund at such time, such claims shall, to the extent permitted under paragraph (1), be paid in full in the order in which they were finally determined.".

(b) CONFORMING AMENDMENTS.—

(1) Subtitle B of the Hazardous Substance Response Revenue Act of 1980 (relating to establishment of Hazardous Substance Response Trust Fund) is hereby repealed.

(2) Paragraph (11) of section 101 of the Comprehensive Environmental Response, Compensation, and Liability Act of 1980 is amended to read as follows:

"(11) 'Fund' or 'Trust Fund' means the Hazardous Substance Superfund established by section 9505 of the Internal Revenue Code of 1954;".

(c) CLERICAL AMENDMENT.—The table of sections for subchapter A of chapter 98 is amended by adding at the end thereof the following new item:

"Sec. 9505. Hazardous Substance Superfund.".

(d) EFFECTIVE DATE.—

(1) IN GENERAL.—The amendments made by this section shall take effect on October 1, 1985.

(2) SUPERFUND TREATED AS CONTINUATION OF OLD TRUST FUND.—The Hazardous Substance Superfund established by the amendments made by this section shall be treated for all purposes of law as a continuation of the Hazardous Substance Response Trust Fund established by section 221 of the Hazardous Substance Response Revenue Act of 1980. Any reference in any law to the Hazardous Substance Response Trust Fund established by such section 221 shall be deemed to include (wherever appropriate) a reference to the Hazardous Substance Superfund established by the amendments made by this section.

SEC. 789D. REPEAL OF POST-CLOSURE TAX AND TRUST FUND.

(a) REPEAL OF TAX.—

(1) Subchapter C of chapter 38 (relating to tax on hazardous wastes) is hereby repealed.

(2) The table of subchapters for such chapter 38 is amended by striking out the item relating to subchapter C.

(b) REPEAL OF TRUST FUND.—Section 232 of the Hazardous Substance Response Revenue Act of 1980 is hereby repealed.

(c) REFUND OF UNOBLIGATED BALANCE.—An amount equal to the unobligated balance in the Post-Closure Liability Trust Fund as of October 1, 1985, which is transferred into the Hazardous Substance Superfund pursuant to section 9505(b)(2) of the Internal Revenue Code of 1954, shall be paid out from such Superfund, effective March 1, 1989, as refunds of the taxes paid under section 4681 of such Code (as in effect prior to October 1, 1985), unless, prior to March 1, 1989, congressional action has been taken pursuant to section 107(k)(6) of the Comprehensive Environmental Response, Compensation, and Liability Act of 1980. Such refunds shall be paid on a proportional basis to the amounts of such taxes paid, and without interest.

(d) EFFECTIVE DATE.—The amendments made by this section shall take effect on October 1, 1985.

SEC. 789E. INDUSTRIAL DEVELOPMENT BONDS FOR HAZARDOUS WASTE TREATMENT FACILITIES.

(a) IN GENERAL.—Paragraph (4) of section 103(b) (relating to certain exempt activities) is amended—

(1) by inserting ", facilities subject to final permit requirements under subtitle C of title II of the Solid Waste Disposal Act for the treatment of hazardous waste," after "solid waste disposal facilities" in subparagraph (E), and

(2) by adding at the end thereof the following new sentence: "For purposes of subparagraph (E), the terms 'treatment' and 'hazardous waste' have the meanings given to such terms by section 1004 of the Solid Waste Disposal Act.".

(b) EFFECTIVE DATE.—The amendments made by this section shall apply to obligations issued after the date of the enactment of this Act.

SEC. 789F. REPORT ON METHODS OF FUNDING SUPERFUND.

Not later than January 1, 1988, the Comptroller General of the United States or his delegate shall study and report to the Committee on Finance of the Senate and the Committee on Ways and Means of the House of Representatives with respect to various methods of funding the Hazardous Substances Superfund, including a study of the effect of taxes on the generation and disposal of hazardous wastes.

SEC. 789G. CERTAIN COSTS OF PRIVATE FOUNDATION IN REMOVING HAZARDOUS SUBSTANCES TREATED AS QUALIFYING DISTRIBUTIONS.

(a) IN GENERAL.—In the case of any taxable year beginning after December 31, 1982, the distributable amount of a private foundation for such taxable year for purposes of section 4942 of the Internal Revenue Code of 1954 shall be reduced by any amount paid or incurred (or set aside) by such private foundation for the investigatory costs and direct costs of removal or taking remedial action with respect to a hazardous substance released at a facility which was owned or operated by such private foundation.

(b) LIMITATIONS.—Subsection (a) shall apply only to costs—

(1) incurred with respect to hazardous substances disposed of at a facility owned or operated by the private foundation but only if—

(A) such facility was transferred to such foundation by bequest before December 11, 1980, and

(B) the active operation of such facility by such foundation was terminated before December 12, 1980, and

(2) which were not incurred pursuant to a pending order issued to the private foundation unilaterally by the President or the President's assignee under section 106 of the Comprehensive Environmental Response, Compensation and Liability Act, or pursuant to a judgment against the private foundation issued in a governmental cost recovery action under section 107 of such Act.

(c) HAZARDOUS SUBSTANCE.—For purposes of this section, the term "hazardous substance" has the meaning given such term by section 9601(14) of the Comprehensive Environmental Response, Compensation and Liability Act.

PART 3—TOBACCO PROVISIONS

Subpart A—Tobacco Products Excise Taxes

SEC. 790. INCREASE IN TAX ON CIGARETTES MADE PERMANENT.

Subsection (c) of section 283 of the Tax Equity and Fiscal Responsibility Act of 1982 (relating to increase in tax on cigarettes) is amended by striking out "and before October 1, 1985".

SEC. 791. TAX ON SMOKELESS TOBACCO.

(A) IN GENERAL.—Section 5701 (relating to rate of tax) is amended by redesignating subsection (e) as subsection (f) and by inserting after subsection (d) the following new subsection:

"(e) SMOKELESS TOBACCO.—On smokeless tobacco, manufactured in or imported into the United States, there shall be imposed the following taxes:

"(1) SNUFF.—On snuff, 24 cents per pound and a proportionate tax at the like rate on all fractional parts of a pound.

"(2) CHEWING TOBACCO.—On chewing tobacco, 8 cents per pound and a proportionate tax at the like rate on all fractional parts of a pound.".

(b) CONFORMING AMENDMENTS.—

"(1) The heading of chapter 52 is amended by inserting "SMOKELESS TOBACCO," after "CIGARETTES,".

(2) Section 5702(c) (defining tobacco products) is amended by striking out "and cigarettes" and inserting in lieu thereof ", cigarettes, and smokeless tobacco".

(3) Section 5702(d) (defining manufacturers of tobacco products) is amended by striking out "cigars or cigarettes" each place it appears and inserting in lieu thereof "cigars, cigarettes, or smokeless tobacco".

(4) Section 5702 is amended by adding at the end thereof the following new subsection:

"(n) DEFINITIONS RELATING TO SMOKELESS TOBACCO.—

"(1) SMOKELESS TOBACCO.—The term 'smokeless tobacco' means any snuff or chewing tobacco.

"(2) SNUFF.—The term 'snuff' means any finely cut, ground, or powdered tobacco that is not intended to be smoked.

"(3) CHEWING TOBACCO.—The term 'chewing tobacco' means any leaf tobacco that is not intended to be smoked.".

(d) EFFECTIVE DATE.—The amendments made by this section shall apply to smokeless tobacco removed after September 30, 1985.

Subpart B—Tobacco Program Improvements

FINDINGS AND PURPOSES

SEC. 792. (a) Congress finds that—

(1) the maintenance of a viable tobacco price support and production adjustment program is in the interests of tobacco producers, purchasers of tobacco, persons employed directly or indirectly by the tobacco industry, and the localities and States whose economies and tax bases are dependent on the tobacco industry;

(2) the present tobacco price support program is in jeopardy and in need of reform;

(3) under present law, the levels of price support for tobacco have resulted in market prices for tobacco that are not competitive on the world market;

(4) as a consequence, extremely large quantities of domestic tobacco have been put under loan and placed in the inventories of the producer-owned cooperative marketing associations that administer the tobacco price support program;

(5) the increased inventories have led to a significant increase in the assessments producers are required to pay to maintain the tobacco price support program on a "no net cost" basis;

(6) such increasingly large assessments are creating a severe hardship on producers;

(7) the existence of such large inventories poses a threat to the orderly marketing of future crops of tobacco;

(8) inventories of producer associations must be significantly reduced or the tobacco price support program will collapse;

(9) the Commodity Credit Corporation is threatened with substantial losses on disposition of these inventories should the tobacco price support program collapse;

(10) it is imperative that such excess inventories of tobacco be disposed of, under the supervision of the Secretary of Agriculture, in a manner that—

(A) will not disrupt the orderly marketing of new tobacco crops;

(B) will minimize any losses to the Federal Government; and

(C) will be fair and equitable to all tobacco producers and purchasers;

(11) the mutual cooperation of tobacco producers, tobacco purchasers, producer associations, and the Secretary of Agriculture is necessary—

(A) to restore the tobacco price support program to a stable condition; and

(B) to prevent substantial losses to taxpayers that would result from the collapse of the program;

(12) restoration of stability to the tobacco price support program through a sharing of the cost of that program by purchasers of tobacco along with producers of tobacco is necessary to prevent undue burdens on, or obstruction of, interstate and foreign commerce in tobacco; and

(13) the system of grading tobacco should be thoroughly reviewed to ensure that grades are assigned to tobacco that properly state the quality of such tobacco.

(b) The purposes of this subpart are—

(1) to encourage cooperation among tobacco producers, tobacco purchasers, and the Secretary of Agriculture in reducing tobacco price support levels, assessment costs, the size of inventories of producer associations, and the exposure of taxpayers to large budget outlays;

(2) to adjust the method by which price support levels and production quotas are calculated to reflect actual market conditions;

(3) to facilitate the purchase and sale of Flue-cured and Burley tobacco presently in the inventories of producer associations through which producers of Flue-cured and Burley tobacco are provided price support;

(4) to provide that purchasers and producers of domestic tobacco share equally in the cost of maintaining the tobacco price support program at no net cost to the taxpayers; and

(5) to expedite reform of the system of grading tobacco so that grades assigned to tobacco more accurately reflect the quality of such tobacco.

PRICE SUPPORT ADJUSTMENTS

SEC. 792A. (a) Effective for the 1985 and subsequent crops of tobacco, section 106(f) of the Agricultural Act of 1949 (7 U.S.C. 1445(f)) is amended—

(1) by striking out "and for the 1985 crop of any kind of tobacco (other than Flue-cured and Burley tobacco) for which marketing quotas are in effect or are not disapproved by producers" in the first sentence of paragraph (3); and

(2) by striking out paragraph (4) and inserting in lieu thereof the following new paragraphs:

"(4) For the 1985 crop of Burley tobacco, the support level shall be $1.449 per pound.

"(5)(A) Except as provided in subparagraph (B), for the 1985 and each subsequent crop of any kind of tobacco (other than Flue-cured and Burley tobacco) for which marketing quotas are in effect or are not disapproved by producers, the support level shall be the level in cents per pound at which the immediately preceding crop was supported, plus or minus, respectively, the amount by which—

"(i) the support level for the crop for which the determination is being made, as determined under subsection (b); is greater or less than

"(ii) the support level for the immediately preceding crop, as determined under subsection (b),

as that difference may be adjusted by the Secretary under subsection (d) if the support level under clause (i) is greater than the support level under clause (ii).

"(B) Notwithstanding subparagraph (A) and subsection (d), if requested by the board of directors of an association through which price support for the respective kind of tobacco specified in subparagraph (A) is made available to producers, the Secretary may reduce the support level for such kind of tobacco to the extent requested by the association to more accurately reflect the market value and improve the marketability of such tobacco.

"(6)(A) For the 1986 and each subsequent crop of Flue-cured and Burley tobacco for which marketing quotas are in effect or are not disapproved by producers, the support level shall be the level in cents per pound at which the immediately preceding crop was supported, plus or minus, respectively, an adjustment of not less than 65 percent nor more than 100 percent of the total, as determined by the Secretary after taking into consideration the supply of the kind of tobacco involved in relation to demand, of—

"(i) 66.7 percent of the amount by which—

"(I) the average price received by producers for Flue-cured and Burley tobacco, respectively, on the United States auction markets, as determined by the Secretary, during the 5 marketing years immediately preceding the marketing year for which the determination is being made, excluding the year in which the average price was the highest and the year in which the average price was the lowest in such period, is greater or less than

"(II) the average price received by producers for Flue-cured and Burley tobacco, respectively, on the United States auction markets, as determined by the Secretary, during the 5 marketing years immediately preceding the marketing year prior to the marketing year for which the determination is being made, excluding the year in which the average price was the highest and the year in which the average price was the lowest in such period;

"(ii) 33.3 percent of the change, expressed as a cost per pound of tobacco, in the index of prices paid by tobacco growers from January 1 to December 31 of the calendar year immediately preceding the year in which the determination is made.

"(B) For purposes of subparagraph (A)—

"(i) the average market price for Burley tobacco for the 1984 and each prior applicable marketing year shall be reduced by $0.30 per pound;

"(ii) the average market price for Flue-cured tobacco for the 1985 and each prior applicable marketing year shall be reduced by $0.30 per pound;

"(iii) the support level for the 1985 crop of Flue-cured tobacco shall be considered to be $1.399 per pound; and

"(iv) the index of prices paid by tobacco producers shall include items representing general, variable costs of producing tobacco, as determined by the Secretary, but shall not include the cost of land, risk, overhead, management, purchase or leasing of quotas, marketing contributions or assessments, and other costs not directly related to the production of tobacco.".

(b) Effective for the 1986 and subsequent crops of tobacco, section 106 of the Agricultural Act of 1949 (7 U.S.C. 1445) is further amended by striking out subsection (g).

DETERMINATION OF MARKETING QUOTAS FOR FLUE-CURED AND BURLEY TOBACCO

SEC. 792B. (a) Section 301(b) of the Agricultural Adjustment Act of 1938 (7 U.S.C. 1301(b)) is amended—

(1) by adding at the end of paragraph (14) the following new subparagraphs:

"(C) 'Reserve stock level', in the case of Flue-cured tobacco, shall be the greater of—

"(i) 100,000,000 pounds (farm sales weight); or

"(ii) 15 percent of the national marketing quota for Flue-cured tobacco for the marketing year immediately preceding the marketing year for which the level is being determined.

"(D) 'Reserve stock level', in the case of Burley tobacco, shall be the greater of—

"(i) 50,000,000 pounds (farm sales weight); or

"(ii) 15 percent of the national marketing quota for Burley tobacco for the marketing year immediately preceding the marketing year for which the level is being determined."; and

(2) by adding at the end thereof the following new paragraph:

"(17) 'Domestic manufacturer of cigarettes' means a person that produces and sells more than 1 percent of the cigarettes produced and sold in the United States.".

(b) Section 317(a)(1) of such Act (7 U.S.C. 1314c(a)(1)) is amended—

(1) by striking out " 'National marketing quota' " in the first sentence and inserting in lieu thereof "(A) Except as provided in subparagraph (B), 'national marketing quota' "; and

(2) by adding at the end thereof the following new subparagraphs:

"(B) For the 1986 and each subsequent crop of Flue-cured tobacco, 'national marketing quota' for a marketing year means the quantity of Flue-cured tobacco, as determined by the Secretary, that is not more than 103 percent nor less than 97 percent of the total of—

"(i) the aggregate of the quantities of Flue-cured tobacco that domestic manufacturers of cigarettes estimate the manufacturers intend to purchase on the United States auction markets or from producers during the marketing year, as compiled and determined under section 320A;

"(ii) the average annual quantity of Flue-cured tobacco exported from the United States during the 3 marketing years immediately preceding the marketing year for which the determination is being made; and

"(iii) the quantity, if any, of Flue-cured tobacco that the Secretary, in the discretion of the Secretary, determines is necessary to increase or decrease the inventory of the producer-owned cooperative marketing association that has entered into a loan agreement with the Commodity Credit Corporation to make price support available to producers of Flue-cured tobacco to establish or maintain such inventory at the reserve stock level for Flue-cured tobacco.

"(C) In determining the quantity of Flue-cured tobacco necessary to establish or maintain the inventory of the producer association at the reserve stock level under subparagraph (B)(iii), the Secretary shall provide for attaining the reserve stock level over a period of 5 years.".

(c) Section 319 of such Act (7 U.S.C. 1314e) is amended—

(1) in subsection (c)—

(A) by striking out "The national marketing quota" in the first sentence and inserting in lieu thereof "(1) Except as provided in paragraph (3), the national marketing quota";

(B) by striking out the second sentence;

(C) by designating the third sentence as paragraph (2); and

(D) by adding at the end thereof the following new paragraph:

"(3)(A) For the 1986 and each subsequent crop of Burley tobacco, the national marketing quota for any marketing year shall be the quantity of Burley tobacco, as determined by the Secretary, that is not more than 103 percent nor less than 97 percent of the total of—

"(i) the aggregate of the quantities of Burley tobacco that domestic manufacturers of cigarettes estimate the manufacturers intend to purchase on the United States auction markets or from producers during the marketing year, as compiled and determined under section 320A;

"(ii) the average annual quantity of Burley tobacco exported from the United States during the 3 marketing years immediately preceding the marketing year for which the determination is being made; and

"(iii) the quantity, if any, of Burley tobacco that the Secretary, in the discretion of the Secretary, determines is necessary to increase or decrease the inventories of the producer-owned cooperative marketing associations that have entered into loan agreements with the Commodity Credit Corporation to make price support available to producers of Burley tobacco to establish or maintain such inventories, in the aggregate, at the reserve stock level for Burley tobacco.

"(B) In determining the quantity of Burley tobacco necessary to establish or maintain the inventories of the producer associations at the reserve stock level under subparagraph (A)(iii)—

"(i) the Secretary shall provide for attaining the reserve stock level over a period of 5 years; and

"(ii) any downward adjustment in such inventories of Burley tobacco may not exceed the greater of—

"(I) 35,000,000 pounds; or

"(II) 50 percent of the quantity by which—

"(aa) the total inventories of Burley tobacco of the producer-owned cooperative marketing associations that have entered into loan agreements with the Commodity Credit Corporation to make price support available to producers of Burley tobacco; exceed

"(bb) the reserve stock level for Burley tobacco,"; and

(2) by inserting ", except in the case of Burley tobacco," after "*Provided*, That" in the fourth sentence of subsection (e).

(d) Effective for the 1986 and each subsequent crop of tobacco, such Act is amended by inserting after section 320 (7 U.S.C. 1314f) the following new section:

"SUBMISSION OF PURCHASE INTENTIONS BY CIGARETTE MANUFACTURERS

"SEC. 320A. (a)(1) Not later than December 1 of any marketing year with respect to Flue-cured tobacco (or, in the case of the 1986 crop, December 1, 1985) and January 15 of any marketing year with respect to Burley tobacco (or, in the case of the 1986 crop, January 15, 1986), each domestic manufacturer of cigarettes shall submit to the Secretary a statement, by kind, of the quantity of Flue-cured tobacco and Burley tobacco (for which a national marketing quota is in effect or for which the Secretary has proclaimed a national marketing quota for the next succeeding marketing year) that the manufacturer intends to purchase, directly or indirectly, on the United States auction markets or from producers during the next succeeding marketing year (hereafter in this section referred to as the 'quantity of intended purchases').

"(2) The Secretary shall aggregate the quantities of intended purchases in a manner that will not allow the identification of the quantity of intended purchases of any manufacturer.

"(b) If any domestic manufacturer of cigarettes fails to submit to the Secretary a statement of the quantity of intended purchases of the manufacturer, as required by this section, the Secretary shall establish the quantity of intended purchases to be attributed to such manufacturer for purposes of this Act, based on—

"(1) the quantity of intended purchases submitted by such manufacturer under this section for the marketing year immediately preceding the marketing year for which the determination is being made; or

"(2) if such manufacturer did not submit a statement of the quantity of intended purchases of the manufacturer for the marketing year immediately preceding the marketing year for which the determination is being made, the most recent information available to the Secretary.

"(c)(1) All information relating to the quantity of intended purchases that is submitted by domestic manufacturers of cigarettes under this section shall be kept confidential by all officers and employees of the Department of Agriculture.

"(2) Such information may only be disclosed by such officers or employees in a suit or administrative hearing—

"(A)(i) brought at the direction, or on the request, of the Secretary; or

"(ii) to which the Secretary or any officer of the United States is a party; and

"(B) involving enforcement of this Act.

"(3) Nothing in this section shall be considered to prohibit the publication, by direction of the Secretary, of the name of any person violating this Act, together with a statement of the particular provisions of the Act violated by such person.

"(4) Any officer or employee of the Department of Agriculture who violates this subsection, on conviction, shall be—

"(A) subject to a fine of not more than $1,000 or to imprisonment for not more than 1 year, or to both; and

"(B) removed from office.

"(d) Notwithstanding any other provision of law, a statement of the quantity of intended purchases that is submitted under this section shall be exempt from disclosure under section 552 of title 5, United States Code.".

MARKETING QUOTA ANNOUNCEMENT DATE

SEC. 792C. (a) Section 312 of the Agricultural Adjustment Act of 1938 (7 U.S.C. 1312) is amended—

(1) by striking out "and February 1 of any marketing year with respect to other kinds of tobacco" in the matter preceding clause (1) of subsection (a) and inserting in lieu thereof "February 1 of any marketing year with respect to Burley tobacco, and March 1 of any marketing year with respect to other kinds of tobacco"; and

(2) by striking out "and not later than the first day of February with respect to other kinds of tobacco" in the first sentence of subsection (b) and inserting in lieu thereof ", not later than the first day of February with respect to Burley tobacco, and not later than the first day of March with respect to other kinds of tobacco".

(b) Section 319(b) of such Act (7 U.S.C. 1313e(b)) is amended by striking out "February 1" each place it appears in the fourth paragraph and inserting in lieu thereof "March 1".

REDUCTION IN EXCESS TOBACCO NOT SUBJECT TO MARKETING PENALTY

SEC. 792D. (a) Effective for the 1986 and subsequent crops of tobacco, the Agricultural Adjustment Act of 1938 is amended—

(1) by striking out "110" in section 317(g)(1) (7 U.S.C. 1314c(g)(1)) and inserting in lieu thereof "103"; and

(2) by striking out "110" in section 319(i)(1) (7 U.S.C. 1314e(i)(1)) and inserting in lieu thereof "103".

(b) Effective for the 1986 and subsequent crops of tobacco, section 106(c)(1) of the Agricultural Act of 1949 (7 U.S.C. 1445(c)(1)) is amended by striking out "110" and inserting in lieu thereof "103".

PURCHASE REQUIREMENTS; PENALTY

SEC. 792E. (a) Effective for the 1986 and subsequent crops of tobacco, the Agricultural Adjustment Act of 1938 (as amended by section 792B(d)) is further amended by inserting after section 320A the following new section:

"PURCHASE REQUIREMENTS; PENALTY

"SEC. 320B. (a)(1) At the conclusion of each marketing year, on or before a date prescribed by the Secretary, each domestic manufacturer of cigarettes shall submit to the Secretary a statement, by kind, of the quantity of Flue-cured and Burley quota tobacco purchased, directly or indirectly, by such manufacturer during such marketing year.

"(2) The statement shall include, but not be limited to, the quantity of each such kind of tobacco purchased by the manufacturer on the United States auction markets, from producers, and from the inventories of tobacco from the 1985 and subsequent crops of the producer-owned cooperative marketing associations that have entered into loan agreements with the Commodity Credit Corporation to make price support available to producers of Flue-cured or Burley tobacco.

"(b)(1) Except as otherwise provided in this subsection, any domestic manufacturer of cigarettes that fails, as determined by the Secretary after notice and opportunity for a hearing, to purchase during a marketing year on the United States auction markets, from producers, or from the inventories of tobacco from the 1985 and subsequent crops of the producer associations described in subsection (a)(2) a quantity of Flue-cured quota tobacco and a quantity of Burley quota tobacco equal to at least 90 percent of the quantity of the intended purchases of Flue-cured tobacco and Burley tobacco, respectively, submitted by such manufacturer or established by the Secretary for such manufacturer for that marketing year under section 320A (as that quantity may be reduced under paragraph (2)) shall be subject to a penalty as prescribed in subsection (c).

"(2)(A) If the total quantity of Flue-cured or Burley quota tobacco, respectively, marketed by producers at auction in the United States during the marketing year in question is less than the national marketing quota (including any adjustments for overmarketings or undermarketings) for that kind of tobacco for that marketing year, the quantity of intended purchases of each domestic manufacturer of cigarettes, for purposes of paragraph (1), shall be reduced by a percentage equal to the percentage by which the total quantity marketed at auction in the United States during the marketing year is less than the national marketing quota (including any adjustments for overmarketings or undermarketings) for that kind of tobacco for the marketing year.

"(B) For purposes of this section, the term 'marketed' shall include disposition of tobacco by consigning the tobacco to a producer association described in subsection (a)(2) for a price support advance.

"(c) The amount of any penalty to be imposed on a manufacturer under this section shall be determined by multiplying—

"(1) twice the per pound assessment (as determined under section 106A or 106B of the Agricultural Act of 1949 (7 U.S.C. 1445-1 or 1445-2)) for the kind of tobacco involved; by

"(2) the quantity by which—

"(A) the purchases by such manufacturer on the United States auction markets, from producers, or from the inventories of tobacco from the 1985 and subsequent crops of the producer associations described in subsection (a)(2) of Flue-cured and Burley quota tobacco, respectively, for the marketing year; are less than

"(B) 90 percent of the quantity of intended purchases of such kinds of tobacco, respectively, submitted by the manufacturer or established by the Secretary for such manufacturer for that marketing year under section 320A (as that quantity may be reduced under subsection (b)(2)).

"(d)(1) An amount equivalent to the penalty collected by the Secretary under this section shall be transmitted by the Secretary to the appropriate producer-owned cooperative marketing association that has entered into a loan agreement with the Commodity Credit Corporation to make price support available to producers of Flue-cured or Burley tobacco, as the case may be.

"(2) Each association to which amounts are transmitted by the Secretary under this section shall deposit such amounts in the No Net Cost Fund or Account of such association in accordance with section 106A or 106B of the Agricultural Act of 1949.

"(e) Subsections (c) and (d) of section 320A shall apply to information submitted by domestic manufacturers of cigarettes under this section with respect to the quantity of purchases of Flue-cured and Burley quota tobacco during a marketing year.

"(f) As used in this section, the term 'quota tobacco' means any kind of tobacco for which marketing quotas are in effect or for which marketing quotas are not disapproved by producers.".

(b) Effective for the 1986 and subsequent crops of tobacco, the last sentence of section 372(b) of the Agricultural Adjustment Act of 1938 (7 U.S.C. 1372(b)) is amended by striking out "The" and inserting in lieu thereof "Except as provided in section 320B, the".

ASSESSMENTS TO NO NET COST FUNDS OR ACCOUNTS

SEC. 792F. (a) Effective for the 1986 and subsequent crops of tobacco, section 106A of the Agricultural Act of 1949 (7 U.S.C. 1445-1) is amended—

(1) in subsection (a)—

(A) by striking out "and" at the end of paragraph (5);

(B) by redesignating paragraph (6) as paragraph (7); and

(C) by inserting after paragraph (5) the following new paragraph:

"(6) the term 'purchaser' means any person who purchases in the United States, either directly or indirectly for the account of such person or another person, Flue-cured or Burley quota tobacco; and";

(2) by inserting "or paid by or on behalf of purchasers" after "producer-members" in the second sentence of subsection (c);

(3) in subsection (d)—

(A) by striking out "and" at the end of clause (i) of paragraph (1)(A);

(B) by inserting after clause (ii) of paragraph (1)(A) the following new clause:

"(iii) each purchaser of Flue-cured and Burley quota tobacco shall pay to the appropriate association, for deposit in the Fund of the association, an assessment, in an amount determined from time to time by the association with the approval of the Secretary, with respect to purchases of all such kind of tobacco marketed by a producer from a farm (including purchases of such tobacco from the 1986 and subsequent crops from the association); and";

(C) by striking out "The" in the last sentence of paragraph (1) and inserting in lieu thereof the following: "The amount of producer contributions and purchaser assessments shall be determined in such a manner that producers and purchasers share equally, to the maximum extent practicable, in maintaining the Fund of an association. In making such determination with respect to the assessment of a purchaser, only 1985 and subsequent crops of Flue-cured and Burley quota tobacco shall be taken into account. The";

(D) by inserting "and assessments" after "contributions" in the last sentence of paragraph (1);

(E) by striking out paragraph (2) and inserting in lieu thereof the following new paragraph:

"(2) require that any producer contribution or purchaser assessment due under paragraph (1) shall be collected—

"(A) from the person who acquired the tobacco involved from the producer, except that if the tobacco is marketed by sale, an amount equal to the producer contribution may be deducted by the purchaser from the price paid to such producer;

"(B) if the tobacco involved is marketed by a producer through a warehouseman or agent, from such warehouseman or agent, who may—

"(i) deduct an amount equal to the producer contribution from the price paid to the producer; and

"(ii) add an amount equal to the purchaser assessment to the price paid by the purchaser; and

"(C) if the tobacco involved is marketed by a producer directly to any person outside the United States, from the producer, who may add an amount equal to the purchaser assessment to the price paid by the purchaser;";

(F) by striking out "producers who contribute" in the proviso of paragraph (3) and inserting in lieu thereof "producers and purchasers who contribute or pay";

(G) by striking out "and" at the end of paragraph (5);

(H) by inserting "effective for the 1982 through 1985 crops of quota tobacco," after the paragraph designation in paragraph (6);

(I) by striking out the period at the end of paragraph (6) and inserting in lieu thereof "; and"; and

(J) by inserting after paragraph (6) the following new paragraph:

"(7) effective for the 1986 and subsequent crops of quota tobacco, provide, in loan agreements between the Corporation and an association, that if the Secretary determines that the amount in the Fund or the net gains referred to in paragraph (5) exceeds the amounts necessary for the purposes specified in this section, the association, with the approval of the Secretary, may suspend the payment and collection of contributions and assessments under this section on terms and conditions established by the association, with the approval of the Secretary."; and

(4) by adding at the end thereof the following new subsection:

"(h)(1)(A) Each person who fails to collect any contribution or assessment as required by subsection (d)(2) and remit such contribution or assessment to the association, at such time and in such manner as may be prescribed by the Secretary, shall be liable, in addition to any amount due, to a marketing penalty at a rate equal to 75 percent of the average market price (calculated to the nearest whole cent) for the kind of tobacco involved for the immediately preceding year on the quantity of tobacco as to which the failure occurs.

"(B) The Secretary may reduce any such marketing penalty in such amount as the Secretary determines equitable in any case in which the Secretary determines that the failure was unintentional or without knowledge on the part of the person concerned.

"(C) Any penalty provided for under this paragraph shall be assessed by the Secretary after notice and opportunity for a hearing.

"(2)(A) Any person against whom a penalty is assessed under this subsection may obtain review of such penalty in an appropriate district court of the United States by filing a civil action in such court not later than 30 days after such penalty is imposed.

"(B) The Secretary shall promptly file in such court a certified copy of the record on which the penalty is based.

"(3) The district courts of the United States shall have jurisdiction to review and enforce any penalty imposed under this subsection.

"(4) An amount equivalent to any penalty collected by the Secretary under this subsection shall be transmitted by the Secretary to the appropriate association, for deposit in the Fund of such association.

"(5) The remedies provided in this subsection shall be in addition to, and not exclusive of, other remedies that may be available.".

(b) Effective for the 1986 and subsequent crops of tobacco, section 106B of the Agricultural Act of 1949 (7 U.S.C. 1445-2) is amended—

(1) in subsection (a)—

(A) by striking out "and" at the end of paragraph (6);

(B) by striking out the period at the end of paragraph (7) and inserting in lieu thereof "; and"; and

(C) by adding at the end thereof the following new paragraph:

"(8) the term 'purchaser' means any person who purchases in the United States, either directly or indirectly for the account of such person or another person, Flue-cured or Burley quota tobacco.";

(2) by inserting "and purchasers" after "producers" in subsection (c)(1);

(3) in subsection (d)—

(A) by inserting at the end of paragraph (1) the following new sentence: "The Secretary shall also require (in lieu of any requirement under section 106A(d)(1)) that each purchaser of Flue-cured and Burley quota tobacco shall pay to the Corporation, for deposit in the Account of such association, an assessment, as determined under paragraph (2) and collected under paragraph (3), with respect to purchases of all such kind of tobacco marketed by a producer from a farm (including purchases of such tobacco from the 1986 and subsequent crops from the association).";

(B) by striking out "area. Such amount" in paragraph (2) and inserting in lieu thereof "area and the amount of the assessment to be paid by purchasers of tobacco. The amount of the assessment to be paid by producers and purchasers shall be determined in such a manner that producers and purchasers share equally, to the maximum extent practicable, in maintaining the Account of an association. In making such determination with respect to the assessment of a purchaser, only 1985 and subsequent crops of Flue-cured and Burley quota tobacco shall be taken into account. The amount of the assessment";

(C) by inserting at the end of paragraph (2) the following: "Notwithstanding the foregoing provisions of this paragraph, the amount of any assessment that is determined by the Secretary for the 1986 and subsequent crops of Burley quota tobacco shall be determined without regard to any net losses that the Corporation may sustain under the loan agreements of the Corporation with such association with respect to the 1983 crop of such tobacco."; and

(D) by amending paragraph (3) to read as follows:

"(3)(A) Except as provided in subparagraphs (B) and (C), any assessment to be paid by a producer or a purchaser under paragraph (1) shall be collected from the person who acquired the tobacco involved from such producer, except that if the tobacco is marketed by sale, an amount equal to the producer assessment may be deducted by the purchaser from the price paid to such producer.

"(B) If tobacco of the kind for which an Account is established is marketed by a producer through a warehouseman or agent, both the producer and the purchaser assess-

ment shall be collected from such warehouseman or agent, who may—

"(i) deduct an amount equal to the producer assessment from the price paid to the producer; and

"(ii) add an amount equal to the purchaser assessment to the price paid by the purchaser.

"(C) If tobacco of the kind for which an Account is established is marketed by a producer directly to any person outside the United States, both the producer and the purchaser assessment shall be collected from the producer, who may add an amount equal to the purchaser assessment to the price paid by the purchaser."; and

(4) by adding at the end thereof the following new subsection:

"(j)(1)(A) Each person who fails to collect any assessment as required by subsection (d)(3) and remit such assessment to the Corporation, at such time and in such manner as may be prescribed by the Secretary, shall be liable, in addition to any amount due, to a marketing penalty at a rate equal to 75 percent of the average market price (calculated to the nearest whole cent) for the kind of tobacco involved for the immediately preceding year on the quantity of tobacco as to which the failure occurs.

"(B) The Secretary may reduce any such marketing penalty in such amount as the Secretary determines equitable in any case in which the Secretary determines that the failure was unintentional or without knowledge on the part of the person concerned.

"(C) Any penalty provided for under this paragraph shall be assessed by the Secretary after notice and opportunity for a hearing.

"(2)(A) Any person against whom a penalty is assessed under this subsection may obtain review of such penalty in an appropriate district court of the United States by filing a civil action in such court not later than 30 days after such penalty is imposed.

"(B) The Secretary shall promptly file in such court a certified copy of the record on which the penalty is based.

"(3) The district courts of the United States shall have jurisdiction to review and enforce any penalty imposed under this subsection.

"(4) An amount equivalent to any penalty collected by the Secretary under this subsection shall be transmitted by the Secretary to the Corporation, for deposit in the Account of the appropriate association.

"(5) The remedies provided in this subsection shall be in addition to, and not exclusive of, other remedies that may be available.".

(c) The Secretary of Agriculture shall implement sections 792A through 792G, and the amendments made by such sections, without regard to the provisions requiring notice and other procedures for public participation in rulemaking contained in section 553 of title 5, United States Code, or in any directive of the Secretary.

(d) The section heading of section 106A of the Agricultural Act of 1949 (7 U.S.C. 1445-1) is amended to read as follows:

"PRODUCER CONTRIBUTIONS AND PURCHASER ASSESSMENTS FOR NO NET COST TOBACCO FUND".

PURCHASE OF INVENTORY STOCK

SEC. 792G. Notwithstanding any other provision of law, in order to reduce or eliminate the excessive inventories of Flue-cured and Burley tobacco held by associations from the 1976 through 1984 crops, and in order to provide for the orderly disposition of such excessive inventories of tobacco in a manner that will not disrupt the orderly marketing of new tobacco crops and minimize any losses to the Federal Government:

(a)(1) The producer-owned cooperative marketing association that has entered into a loan agreement with the Commodity Credit Corporation to make price support available to producers of Flue-cured tobacco shall offer to sell the stocks of Flue-cured tobacco of the association from the 1976 through 1984 crops as provided in this section.

(2) Each producer-owned cooperative marketing association that has entered into a loan agreement with the Commodity Credit Corporation to make price support available to producers of Burley tobacco shall offer to sell its stocks of Burley tobacco from the 1982 and 1984 crops as provided in this section.

(3)(A)(i) Not later than 30 days after the date of enactment of this subpart, the Commodity Credit Corporation shall acquire title to the Burley tobacco from the 1983 crop that is pledged as security for loans on such tobacco by calling the loans on such tobacco.

(ii) The Corporation shall, then, offer such tobacco for sale at such times, in such quantities, and subject to such conditions as the Corporation considers appropriate.

(B) If the Commodity Credit Corporation has not sold all of the stocks of the 1983 crop of Burley tobacco within 2 years from the date the Corporation calls the loans on such tobacco, the Corporation may offer to sell to domestic manufacturers of cigarettes the remaining stocks of such tobacco as provided in this section.

(b)(1)(A) The stocks of Flue-cured tobacco from the 1976 through 1984 crops shall be offered for sale at the base prices, including carrying charges, in effect as of the date of the offer, reduced by—

(i) 90 percent for Flue-cured tobacco from the 1976 through 1981 crops; and

(ii) 10 percent for Flue-cured tobacco from the 1982 through 1984 crops.

(B) The purchasers of the stocks of Flue-cured tobacco from the 1976 through 1984 crops shall pay the full carrying charges that have accrued to such tobacco from the date of the offer made under this section to the date that such tobacco is removed from the inventory of the association.

(2)(A) The stocks of Burley tobacco from the 1982 crop shall be offered for sale at the listed base price in effect as of July 1, 1985.

(B) The stocks of Burley tobacco from the 1984 crop shall be offered for sale at the costs of the association for such tobacco as of the date of enactment of this subpart.

(C) The purchasers of the stocks of Burley tobacco from the 1982 crop shall pay the full carrying charges that have accrued to such tobacco.

(D) The purchasers of the stocks of Burley tobacco from the 1984 crop shall pay the full carrying charges that have accrued to such tobacco from the date of enactment of this subpart to the date such tobacco is removed from the inventories of the associations.

(3)(A) After the 2-year period specified in subsection (a)(3)(B) has expired, if the Commodity Credit Corporation offers to sell the stocks of the Corporation of Burley tobacco from the 1983 crop to domestic manufacturers of cigarettes, such stocks shall be offered for sale at the costs of the association, including carrying charges, as of the date on which the Corporation calls the loans on such tobacco, reduced by 90 percent.

(B) Neither tobacco producers nor tobacco purchasers shall be responsible for carrying charges that accrue to the 1983 crop Burley tobacco after the date on which the Commodity Credit Corporation calls the loans on such tobacco.

(c)(1)(A) Each domestic manufacturer of cigarettes may enter into agreements to purchase inventory stocks of Flue-cured and Burley tobacco, in accordance with this section.

(B) To be eligible for the reductions in price specified in this section, such manufacturer shall enter into such agreements as soon as practicable, but not later than 90 days, after the date of enactment of this subpart.

(C)(i) Such agreements shall provide that, over a period of time, each participating domestic manufacturer of cigarettes shall purchase a percentage of the stocks of Flue-cured and Burley tobacco held—

(I) by the producer-owned cooperative marketing associations at the close of the 1984 marketing year; or

(II) in the case of the 1983 crop of Burley tobacco, by the Commodity Credit Corporation at the time the Corporation offers such tobacco for sale to domestic manufacturers of cigarettes under this section.

(ii) The period of time referred to in clause (i) may not exceed—

(I) in the case of Flue-cured tobacco, 8 years from the date of enactment of this subpart;

(II) in the case of Burley tobacco from the 1982 and 1984 crops, 5 years from the date of enactment of this subpart; and

(III) in the case of the 1983 crop of Burley tobacco, 5 years from the end of the 2-year period referred to in subsection (a)(3)(B).

(2)(A)(i) The percentage to be purchased by each participating manufacturer shall be at least equal to the respective percentage of the participating manufacturer of the total quantity of net cigarettes manufactured for use as determined by the Secretary of Agriculture under this paragraph on the basis of the monthly reports ("Manufacturer of Tobacco Products—Monthly Reports") submitted (on ATF Form 3068) by manufacturers of tobacco products to the Bureau of Alcohol, Tobacco and Firearms of the Department of the Treasury.

(ii) The Secretary of Agriculture shall request from the Secretary of the Treasury copies of such monthly reports necessary to make the determinations required under this section.

(iii) Notwithstanding any other provision of law, the Secretary of the Treasury may release and disclose such information to the Secretary of Agriculture.

(B) "Net cigarettes manufactured for use" shall be computed by subtracting—

(i) the cumulative figures entered for large and small cigarettes in item 16f of ATF Form 3068 ("Reduction to tobacco"); from

(ii) the cumulative figures entered for large and small cigarettes in item 7 of such form ("Manufactured").

(C)(i) The percentage to be purchased by each participating manufacturer shall be determined—

(I) on the date of enactment of this subpart; and

(II) annually thereafter over the course of the respective buy-out periods specified in this subsection.

(ii) Such percentage shall be determined by dividing—

(I) the average net cigarettes manufactured by a manufacturer for use for the 12-month period immediately preceding the appropriate determination date (the date of

enactment of this subpart and annually thereafter over the course of the respective buy-out periods specified in this subsection); by

(II) the aggregate average net cigarettes manufactured by all domestic cigarette manufacturers for use for such 12-month period.

(D)(i) The quantity of tobacco to be purchased by each participating manufacturer shall be determined annually.

(ii) Such quantity shall be based on—

(I) the percentage of net cigarettes of a manufacturer manufactured for use, as determined under subparagraph (C); multiplied by

(II) the appropriate annual quantity to be withdrawn from the inventories of the associations or the Commodity Credit Corporation.

(iii) The appropriate annual quantity to be withdrawn from inventories shall be—

(I) 12½ percent of the inventories of Fluecured tobacco from the 1976 through 1984 crops on hand on the date of enactment of this subpart;

(II) 20 percent of the inventories of Burley tobacco from the 1982 and 1984 crops on hand on the date of enactment of this subpart; and

(III) 20 percent of the inventories of Burley tobacco from the 1983 crop held by the Commodity Credit Corporation on the date that is 2 years after the call of the loans on such tobacco by the Corporation.

(E) Any purchases by a manufacturer from the inventories of the associations or from the Commodity Credit Corporation for a crop covered by this section in any year of the buy-out period that exceed the quantity of the purchases of the manufacturer required under the agreement, as determined under this section, shall be applied against future purchases required of such manufacturer.

(3) In carrying out this section, manufacturers may confer with one another and, separately or collectively, with associations, the Secretary of Agriculture, and the Commodity Credit Corporation, as may be necessary or appropriate to carry out this section and the purposes of this subpart.

(d)(1)(A) Each agreement entered into under this section shall be submitted to the Secretary of Agriculture for review and approval.

(B) In the case of an agreement to purchase tobacco from the inventory of a producer association, the agreement shall be submitted by the association.

(C) No agreement may become effective until approved by the Secretary.

(2) The Secretary of Agriculture shall not approve any agreement submitted under this section unless the Secretary has determined that—

(A) the agreement—

(i) will not unduly impair or disrupt the orderly marketing of current and future tobacco crops during the term of the agreement; and

(ii) is otherwise consistent with the purposes of this subpart; and

(B) the price and other terms of sale are uniform and nondiscriminatory among various purchasers.

(e) Subsections (c) and (d) of section 320A of the Agricultural Adjustment Act of 1938 (as added by section 792B(d)) shall apply to information submitted by domestic manufacturers of cigarettes under this section with respect to net cigarettes manufactured for use, including information provided on ATF Form 3068.

REVIEW OF TOBACCO GRADING SYSTEM AND DISASTER CROP DESIGNATION

SEC. 792H. (a)(1)(A) The Secretary of Agriculture shall conduct a comprehensive study of the methods and procedures for grading tobacco marketed in the United States.

(B) In carrying out such study, the Secretary shall evaluate, among other things—

(i) the extent to which grades assigned to tobacco accurately reflect the quality of such tobacco;

(ii) the extent to which the number of grades of tobacco affects the operation of the grading system; and

(iii) the competence and independence of tobacco graders.

(2) The Secretary shall also study the feasibility and desirability of—

(A) providing for a grade that would be used to designate tobacco that is of such poor quality as a result of a natural disaster as to affect substantially the marketability of such tobacco; and

(B) establishing a price support level, if any, for such tobacco that may be adjusted by the Secretary as necessary to facilitate the sale of such tobacco and protect the no net cost funds or accounts.

(b)(1) Not later than 120 days after the date of enactment of this subpart, the Secretary of Agriculture shall report the results of the studies required under subsection (a), together with any recommendations for necessary legislation, to the Committee on Agriculture of the House of Representatives and the Committee on Agriculture, Nutrition, and Forestry of the Senate.

(2) As soon as practicable after submission of the report required under paragraph (1), but not later than the opening of the marketing season for the 1986 crop of Fluecured tobacco, the Secretary shall implement any recommendations made in such report that may be implemented by the Secretary under existing authority.

INVESTMENT OF TOBACCO INSPECTION FEES

SEC. 792I. Section 5 of The Tobacco Inspection Act (7 U.S.C. 511d) is amended—

(1) by inserting "late payment penalties, and interest earned from the investment of such funds," after "The fees and charges," in the ninth sentence;

(2) by inserting after the ninth sentence the following new sentences: "Any funds realized from the collection of fees or charges authorized under this section and section 6 and credited to the current appropriation account incurring the cost of services provided under this section and section 6, late payment penalties, and interest earned from the investment of such funds may be invested by the Secretary in insured or fully collateralized, interest-bearing accounts or, at the discretion of the Secretary, by the Secretary of the Treasury in United States Government debt instruments. Any income realized from this activity may be used to pay the expenses of the Secretary of Agriculture incident to providing services under this Act or reinvested in the manner authorized in the preceding sentence."; and

(3) by striking out "Such fees and charges" in the tenth sentence (as it existed before the amendment made by clause (2)) and inserting in lieu thereof "The fees and charges authorized in this section".

EFFECTIVE DATE

SEC. 792J. Except as otherwise provided in this subpart, this subpart and the amendments made by this subpart shall become effective on the date of enactment of this subpart.

PART 4—EMPLOYMENT TAX PROVISIONS

SEC. 793. MEDICARE COVERAGE OF, AND APPLICATION OF HOSPITAL INSURANCE TAX TO, STATE AND LOCAL GOVERNMENTAL EMPLOYMENT.

(a) APPLICATION OF HOSPITAL INSURANCE TAX TO STATE AND LOCAL GOVERNMENTAL EMPLOYMENT.—

(1) IN GENERAL.—Subsection (u) of section 3121 (relating to definitions) is amended to read as follows:

"(u) APPLICATION OF HOSPITAL INSURANCE TAX TO FEDERAL, STATE, AND LOCAL GOVERNMENTAL EMPLOYMENT.—

"(1) IN GENERAL.—The taxes imposed by sections 3101(b) and 3111(b) shall apply to medicare qualified governmental employment.

"(2) MEDICARE QUALIFIED GOVERNMENTAL EMPLOYMENT.—The terms 'medicare qualified governmental employment' means any service which is medicare qualified Federal employment (as defined in paragraph (3)) or medicare qualified State and local governmental employment (as defined in paragraph (4)).

"(3) MEDICARE QUALIFIED FEDERAL EMPLOYMENT.—Medicare qualified Federal employment means any service which would constitute 'employment' as defined in subsection (b) but for the application of subsection (b)(5).

"(4) MEDICARE QUALIFIED STATE AND LOCAL GOVERNMENTAL EMPLOYMENT.—Medicare qualified State and local governmental employment means any service which would constitute 'employment' as defined in subsection (b) but for the application of subsection (b)(7), and which is not covered pursuant to an agreement under section 218 of the Social Security Act.".

(2) CONFORMING AMENDMENTS.—

(A) The second sentence of section 1402(b) is amended by striking out "medicare qualified Federal employment" in subparagraph (C) thereof and inserting in lieu thereof "medicare qualified governmental employment".

(B) Section 3122 is amended by striking out "3121(u)(2)" and inserting in lieu thereof "3121(u)(3)".

(C)(i) Section 3125 is amended by redesignating subsections (a), (b), and (c) as subsections (b), (c), and (d), respectively, and by inserting before subsection (b) (as so redesignated) the following new subsection:

"(a) STATES AND POLITICAL SUBDIVISIONS.—Except as otherwise provided in this section, in the case of the taxes imposed by sections 3101(b) and 3111(b) with respect to medicare qualified State and local governmental employment performed in the employ of a State or any political subdivision thereof (or any instrumentality of any one or more of the foregoing which is wholly owned thereby), the return and payment of such taxes may be made by the head of the agency or instrumentality having the control of such employment, or by such agents as such head may designate. The person making such return may, for convenience of administration, make payments of the tax imposed under section 3111 with respect to the service of such individuals without regard to the contribution and benefit base limitation in section 3121(a)(1).".

(ii) The section heading for such section 3125 is amended by inserting "STATES AND POLITICAL SUBDIVISIONS," before "GUAM".

(iii) The item relating to section 3125 in the table of sections for subchapter C of chapter 21 is amended by inserting "States and political subdivisions," before "Guam".

(D) Section 6205(a) is amended by adding at the end thereof the following new paragraph:

"(5) STATES AND POLITICAL SUBDIVISIONS AS EMPLOYER.—For purposes of this subsection, in the case of remuneration received from a State or any political subdivision thereof (or any instrumentality of any one or more of the foregoing which is wholly owned thereby) during any calendar year, each head of an agency or instrumentality, and each agent designated by either, who makes a return pursuant to section 3125(a) shall be deemed a separate employer.".

(E)(i) Section 6413(a) is amended by adding at the end thereof the following new paragraph:

"(6) STATES AND POLITICAL SUBDIVISIONS AS EMPLOYER.—For purposes of this subsection, in the case of remuneration received from a State or any political subdivision thereof (or any instrumentality of any one or more of the foregoing which is wholly owned thereby) during any calendar year, each head of any agency or instrumentality, and each agent designated by either, who makes a return pursuant to section 3125(a) shall be deemed a separate employer.".

(ii) Section 6413(c)(2) is amended—

(I) by striking out "3125(a)", "3125(b)", and "3125(c)" in subparagraphs (D), (E), and (F), respectively, and inserting in lieu thereof "3125(b)", "3125(c)", and "3125(d)", respectively, and

(II) by adding at the end thereof the following new subparagraph:

"(G) EMPLOYEES OF STATES AND POLITICAL SUBDIVISIONS.—In the case of remuneration received from a State or any political subdivision thereof (or any instrumentality of any one or more of the foregoing which is wholly owned thereby) during any calendar year, each head of an agency or instrumentality, and each agent designated by either, who makes a return pursuant to section 3125(a) shall, for purposes of this subsection, be deemed a separate employer.".

(3) REGULATIONS.—Taxes paid under sections 3101(b) and 3111(b) of the Internal Revenue Code of 1954 by States or political subdivisions thereof (or any instrumentality of any one or more of the foregoing which is wholly owned thereby) with respect to medicare qualified State and local governmental employment shall be collected pursuant to the regulations issued by the Secretary of the Treasury under section 6302 of such Code in the same manner as if such entity was a private employer.

(b) ENTITLEMENT TO HOSPITAL INSURANCE BENEFITS.—

(1) DEFINITION.—Section 210(p) of the Social Security Act is amended to read as follows:

"Medicare Qualified Governmental Employment

"(p)(1) For purposes of sections 226 and 226A, the term 'medicare qualified governmental employment' means any service which is medicare qualified Federal employment (as defined in paragraph (2)) or medicare qualified State and local governmental employment (as defined in paragraph (3)).

"(2) Medicare qualified Federal employment means any service which would constitute 'employment' as defined in subsection (a) but for the application of subsection (a)(5).

"(3) Medicare qualified State and local governmental employment means any service which would constitute 'employment' as defined in subsection (a) but for the application of subsection (a)(7), and which is not covered pursuant to an agreement under section 218.".

(2) ENTITLEMENT TO HOSPITAL INSURANCE BENEFITS.—Sections 226(a)(2)(C)(i), 226(b)(2)(C)(ii)(I), 226A(a)(1)(A)(ii), and 226A(a)(1)(B)(iii) of the Social Security Act are each amended by striking out "medicare qualified Federal employment (as defined in section 210(p))" and inserting in lieu thereof in each instance "medicare qualified governmental employment (as defined in section 210(p)(1))".

(3) CONFORMING AMENDMENTS.—Section 1811 of the Social Security Act is amended by striking out "Federal employment" each place it appears in clauses (1) and (2), and inserting in lieu thereof in each instance "governmental employment".

(c) EFFECTIVE DATES.—

(1) HOSPITAL INSURANCE TAXES.—The amendments made by subsection (a) shall apply to service performed after September 30, 1986.

(2) MEDICARE COVERAGE.—

(A) IN GENERAL.—The amendments made by subsection (b) are effective on and after October 1, 1986, and the amendments made by paragraph (2) of that subsection apply to service performed after September 30, 1986.

(B) TREATMENT OF CURRENT DISABILITIES.—For purposes of establishing entitlement to hospital insurance benefits under part A of title XVIII of the Social Security Act pursuant to the amendments made by subsection (b) or the provisions of subsection (d), on the basis of medicare qualified State and local employment, no individual may be considered to be under a disability for any period before October 1, 1986.

(d) TRANSITIONAL PROVISIONS.—

(1) IN GENERAL.—For purposes of sections 226, 226A, and 1811 of the Social Security Act, in the case of any individual who—

(A) performs service during October 1986 which constitutes medicare qualified State and local governmental employment (as defined in section 210(p)(1) of such Act); and

(B) performed service prior to October 1, 1986, which would constitute medicare qualified State and local governmental employment if performed after October 1, 1986,

such individual's State and local governmental employment performed before October 1, 1986, shall be considered to be "employment" (as defined for purposes of title II of such Act), but only for the purpose of providing the individual (or another person) with entitlement to hospital insurance benefits under part A of title XVIII of such Act.

(2) APPROPRIATIONS.—There are authorized to be appropriated to the Federal Hospital Insurance Trust Fund from time to time such sums as the Secretary of Health and Human Services deems necessary for any fiscal year, on account of—

(A) payments made or to be made during such fiscal year from such Trust Fund with respect to individuals who are entitled to benefits under title XVIII of the Social Security Act solely by reason of paragraph (1) of this subsection,

(B) the additional administrative expenses resulting or expected to result therefrom, and

(C) any loss in interest to such Trust Fund resulting from the payment of those amounts,

in order to place such Trust Fund in the same position at the end of such fiscal year as it would have been in if this subsection had not been enacted.

SEC. 794. RAILROAD UNEMPLOYMENT INSURANCE REFORM.

(a) RATE OF RAILROAD UNEMPLOYMENT REPAYMENT TAX.—Subsection (c) of section 3321 (relating to rate of railroad unemployment repayment tax) is amended to read as follows:

"(c) RATE OF TAX.—For purposes of this section—

"(1) IN GENERAL.—The applicable percentage for any taxable period shall be the sum of—

"(A) the basic rate for such period, and

"(B) the surtax rate (if any) for such period

"(2) BASIC RATE.—For purposes of paragraph (1)—

"(A) FOR PERIODS BEFORE 1989.—The basic rate shall be—

"(i) 4.3 percent for the taxable period beginning on July 1, 1986, and ending on December 31, 1986,

"(ii) 4.7 percent for the 1987 taxable period, and

"(iii) 6 percent for the 1988 taxable period.

"(B) FOR PERIODS AFTER 1988.—For any taxable period beginning after December 31, 1988, the basic rate shall be the sum of—

"(i) 2.9 percent, plus

"(ii) 0.3 percent for each preceding taxable period after 1988.

In no event shall the basic rate under this subparagraph exceed 5 percent.

"(3) SURTAX RATE.—For purposes of paragraph (1), the surtax rate shall be—

"(A) 3.5 percent for any taxable period if, as of September 30 of the preceding calendar year, there was a balance of transfers (or unpaid interest thereon) made after September 30, 1985, to the railroad unemployment insurance account under section 10(d) of the Railroad Unemployment Insurance Act, and

"(B) zero for any other taxable period.

"(4) BASIC RATE NOT TO APPLY TO RAIL WAGES PAID AFTER SEPTEMBER 30, 1990.—The basic rate under paragraph (1)(A) shall not apply to rail wages paid after September 30, 1990.".

(b) BASE OF TAX TO BE COMPENSATION USED FOR RAILROAD RETIREMENT TAX PURPOSES.—Subsection (b) of section 3323 (defining rail wages) is amended to read as follows:

"(b) RAIL WAGES.—

"(1) IN GENERAL.—For purposes of this chapter, the term 'rail wages' means compensation (as defined in section 3231(e) for purposes of the tax imposed by section 3201(a)) with the modifications specified in paragraph (2).

"(2) MODIFICATIONS.—In applying subsection (e) of section 3231 for purposes of paragraph (1)—

"(A) ONLY EMPLOYMENT COVERED BY RAILROAD UNEMPLOYMENT INSURANCE ACT TAKEN INTO ACCOUNT.—Such subsection (e) shall be applied—

"(i) by substituting 'rail employment' for 'service' each place it appears,

"(ii) by substituting 'rail employer' for 'employer' each place it appears, and

"(iii) by substituting 'rail employee' for 'employee' each place it appears.

"(B) $7,000 WAGE BASE.—Such subsection (e) shall be applied by substituting for 'the applicable base' in paragraph (2)(A)(i) thereof—

"(i) except as provided in clauses (ii) and (iii), '$7,000',

"(ii) '$3,500' for the taxable period beginning on July 1, 1986, and ending on December 31, 1986, and

"(iii) for purposes of applying the basic rate under section 3321(c)(1)(A), '$5,250' for the taxable period beginning on January 1, 1990.

"(C) SUCCESSOR EMPLOYERS.—For purposes of this subsection, rules similar to the rules applicable under section 3231(e)(2)(C) shall apply.".

(c) USE OF TAXES.—

(1) IN GENERAL.—Paragraph (2) of section 232(a) of the Railroad Retirement Revenue Act of 1983 (relating to tax used to repay loans made to railroad unemployment insurance account) is amended to read as follows:

"(2) TAXES CREDITED AGAINST LOANS TO RAILROAD UNEMPLOYMENT INSURANCE ACCOUNT.—

"(A) TAXES ATTRIBUTABLE TO BASIC RATE TO REDUCE RAILROAD UNEMPLOYMENT LOANS MADE BEFORE OCTOBER 1, 1985.—So much of the amount transferred under paragraph (1) as is attributable to the basic rate under section 3321(c)(1)(A) of the Internal Revenue Code of 1954 shall be credited against, and operate to reduce, the outstanding balance of railroad unemployment loans made before October 1, 1985.

"(B) TAXES ATTRIBUTABLE TO SURTAX RATE TO REDUCE RAILROAD UNEMPLOYMENT LOANS MADE AFTER SEPTEMBER 30, 1985.—So much of the amount transferred under paragraph (1) as is attributable to the surtax rate under section 3321(c)(1)(B) of such Code shall be credited against, and operate to reduce, the outstanding balance of railroad unemployment loans made after September 30, 1985.".

(2) TRANSFERS TO RAILROAD UNEMPLOYMENT FUND AFTER LOAN REPAID.—Subsection (c) of section 232 of such Act is amended—

(A) by striking out "the amount" in paragraph (1) and inserting in lieu thereof "the amount described in subparagraph (A) or (B) of subsection (a)(2)", and

(B) by inserting before the comma at the end of paragraph (2) "against which the amount described in such paragraph may be credited under such subparagraph".

(d) EXTENSION OF AUTHORITY TO BORROW FROM RAILROAD RETIREMENT ACCOUNT; USE OF RETRANSFERS.—

(1) LOAN AUTHORITY EXTENSION.—Section 10(d) of the Railroad Unemployment Insurance Act is amended by striking out the last sentence.

(2) USE OF RETRANSFERS.—Section 10(d) of such Act is amended by inserting after the second sentence the following new sentence: "The amounts retransferred to the Railroad Retirement Account shall first be credited against, and operate to reduce, the outstanding balance of transfers, including interest, made to the railroad unemployment insurance account from the Railroad Retirement Account under this subsection prior to October 1, 1985.".

(e) USE OF 1 PERCENT OF TIER 2 PAYROLL TO REPAY LOANS.—

(1) IN GENERAL.—Section 10 of the Railroad Unemployment Insurance Act is amended by adding at the end thereof the following new subsection:

"(e) In addition to the moneys credited to the account in accordance with subsections (a) and (d) of this section, there shall, notwithstanding any other law, be credited to the account, and the Secretary of the Treasury is directed to so credit, such part of the amount appropriated to the Railroad Retirement Account attributable to the taxes collected under sections 3211(a)(2) and 3221(b) of the Internal Revenue Code of 1954 for calendar year 1986, calendar year 1987, calendar year 1988, and calendar year 1989 and the first quarter of calendar year 1990 as is equal to 1 percent of the total compensation on which such taxes are based for each such period. The amounts credited to the account under this subsection shall be credited against, and operate to reduce, the outstanding balance of loans made to the account from the Railroad Retirement Account under subsection (d) of this section prior to October 1, 1985, including interest. The Board shall from time to time request the Secretary of the Treasury to transfer amounts credited to the account pursuant to this subsection from the account to the credit of the Railroad Retirement Account and the Secretary shall make such transfer. If any moneys credited to the account under this subsection remain in the account after the outstanding balance of the loans made to the account prior to October 1, 1985, has been totally repaid with interest, the Board shall request the Secretary of the Treasury to transfer from the account to the Railroad Retirement Account such remaining moneys and the Secretary shall make such transfer.".

(2) CONFORMING AMENDMENT.—Subsection (b) of section 10 of the Railroad Unemployment Insurance Act is amended by striking out "All moneys" and inserting in lieu thereof "Except as provided in subsections (d) and (e), all moneys".

(f) TECHNICAL AMENDMENTS.—

(1) Subsection (a) of section 3322 (relating to taxable period) is amended—

(A) by adding "and" at the end of paragraph (1), and

(B) by striking out paragraphs (2) and (3) and inserting in lieu thereof the following: "(2) each calendar year after 1986."

(2) Subsection (b) of section 3322 (relating to earlier termination if loans to rail unemployment fund repaid) is amended—

(A) by striking out "The tax imposed by this chapter shall not apply" and inserting in lieu thereof "The basic rate under section 3321(c)(1)(A) of the tax imposed by section 3321 shall not apply", and

(B) by inserting "made before October 1, 1985," after "no balance of transfers" in paragraph (1) thereof.

(g) EFFECTIVE DATE.—

(1) IN GENERAL.—Except as provided in paragraphs (2) and (3), the amendments made by this section shall apply to remuneration paid after June 30, 1986.

(2) LOAN AUTHORITY EXTENSION.—The amendment made by subsection (d) shall become effective on October 1, 1985.

(3) TIER 2 TAXES DIVERSION.—The amendments made by subsection (e) shall become effective on January 1, 1986.

SEC. 795. TERMINATION OF REPAYABLE ADVANCES TO BLACK LUNG DISABILITY TRUST FUND.

Section 9501(c) (relating to repayable advances to the Black Lung Disability Trust Fund) is amended by adding at the end thereof the following new paragraph:

"(4) TERMINATION.—No advance shall be made to the Black Lung Disability Trust Fund after September 30, 1986.".

SEC. 796. CERTAIN PERMANENT EXEMPTIONS FROM THE FEDERAL UNEMPLOYMENT TAX ACT.

(a) CERTAIN AGRICULTURAL LABOR.—Paragraph (1)(B) of section 3306(c) (defining employment) is amended by striking out "before January 1, 1986,".

(b) FULL-TIME STUDENTS EMPLOYED BY SUMMER CAMPS.—Notwithstanding paragraph (3) of section 276(b) of the Tax Equity and Fiscal Responsibility Act of 1982, the amendments made by paragraphs (1) and (2) of such section 276(b) shall also apply to remuneration paid after September 19, 1985.

(c) SERVICES PERFORMED ON CERTAIN FISHING BOATS.—

(1) IN GENERAL.—Section 822(b) of the Economic Recovery Tax Act of 1981 is amended to read as follows:

"(b) EFFECTIVE DATE.—The amendments made by subsection (a) shall apply to remuneration paid after December 31, 1980.".

(2) TECHNICAL AMENDMENT.—Paragraph (20) of section 3121(b) (defining employment for purposes of Federal Insurance Contributions Act) is amended by inserting "(other than service described in paragraph (3)(A))" after "service".

PART 5—MISCELLANEOUS PROVISIONS

SEC. 797. AUTHORIZATION OF ADDITIONAL FUNDS TO INTERNAL REVENUE SERVICE FOR REVENUE ENFORCEMENT AND RELATED PURPOSES.

There is authorized to be appropriated $46,500,000 for each of the fiscal years 1986, 1987, and 1988 for the use of the Internal Revenue Service to employ 1,550 additional agents and examination employees.

SEC. 798. LIMITATION ON ISSUANCE OF UNITED STATES BONDS.

Subsection (a) of section 3102 of title 31, United States Code, is amended by striking out "$200,000,000,000" and inserting in lieu thereof "$250,000,000,000".

SEC. 799. LIMITATIONS ON AWARDING OF COURT COSTS AND CERTAIN FEES MODIFIED.

(a) MAXIMUM DOLLAR LIMITATION REMOVED.—Subsection (b) of section 7430 (relating to awarding of court costs and certain fees) is amended by striking out paragraph (1) and redesignating paragraphs (2), (3), and (4) as paragraphs (1), (2), and (3), respectively.

(b) AWARDING OF COURT COSTS AND CERTAIN FEES DENIED IF UNITED STATES PROVES ITS POSITION IS SUBSTANTIALLY JUSTIFIED OR SPECIAL CIRCUMSTANCES EXIST OR IF PREVAILING PARTY PROTRACTS PROCEEDINGS.—

(1) IN GENERAL.—Section 7430(b) (relating to limitations to awarding of court costs and certain fees) is amended by adding at the end thereof the following new paragraphs:

"(4) POSITION OF UNITED STATES SUBSTANTIALLY JUSTIFIED OR SPECIAL CIRCUMSTANCES EXIST.—A judgment for reasonable litigation costs shall not be awarded under subsection (a) if the court determines that—

"(A) the position of the United States was substantially justified, or

"(B) special circumstances exist which would make such a judgment unjust.

"(5) COSTS DENIED WHERE PARTY PREVAILING PROTRACTS PROCEEDINGS.—No award for reasonable litigation costs may be made under subsection (a) with respect to any portion of the civil proceeding during which the prevailing party has unreasonably protracted such proceeding.".

(2) CONFORMING AMENDMENT.—Subparagraph (A) of section 7430(c)(2) (defining prevailing party) is amended by striking out clauses (i) and (ii) and inserting in lieu thereof the following new clauses:

"(i) has substantially prevailed with respect to the amount in controversy, or

"(ii) has substantially prevailed with respect to the most significant issue or set of issues presented.".

(c) ADDITIONAL LIMITATIONS ON FEES OF EXPERT WITNESSES AND ATTORNEYS.—Subparagraph (A) of section 7430(c)(1) (defin-

ing reasonable litigation costs) is amended to read as follows:

"(A) IN GENERAL.—The term 'reasonable litigation costs' includes—

"(i) reasonable court costs, and

"(ii) based upon prevailing market rates for the kind and quality of services furnished—

"(I) the reasonable expenses of expert witnesses in connection with the civil proceeding, except that no expert witness shall be compensated at a rate in excess of the highest rate of compensation for expert witnesses paid by the United States,

"(II) the reasonable cost of any study, analysis, engineering report, test, or project which is found by the court to be necessary for the preparation of the party's case, and

"(III) reasonable fees paid or incurred for the services of attorneys in connection with the civil proceeding, except that such fees shall not be in excess of $75 per hour unless the court determines that an increase in the cost of living or a special factor, such as the limited availability of qualified attorneys for such proceeding, justifies a higher rate.".

(d) POSITION OF UNITED STATES INCLUDES ADMINISTRATIVE ACTION.—Section 7430(c) (relating to definitions) is amended by adding at the end thereof the following new paragraph:

"(4) POSITION OF UNITED STATES.—The term 'position of the United States' includes—

"(A) the position taken by the United States in the civil proceeding, and

"(B) the administrative action or inaction by the United States upon which such proceeding is based.".

(e) PROVISIONS MADE PERMANENT.—Section 7430 is amended by striking out subsection (f).

(f) EFFECTIVE DATE.—The amendments made by this section shall apply to civil actions or proceedings commenced after December 31, 1985.

SEC. 799A. ADDITIONAL CUSTOMS PERSONNEL.

(a) IN GENERAL.—

(1) AUTHORIZATION OF APPROPRIATIONS.—In addition to any other amounts authorized to be appropriated for the United States Customs Service for fiscal years 1986, 1987, and 1988, there are authorized to be appropriated $27,900,000 for each of such fiscal years to fund the 800 additional full-time equivalent positions required under paragraph (2).

(2) CREATION OF ADDITIONAL POSITIONS.—The Commissioner of Customs shall create 800 full-time equivalent positions in the United States Customs Service which shall be in addition to the number of full-time equivalent positions existing in the United States Customs Service on September 30, 1985. Such additional full-time equivalent positions shall be distributed among customs inspectors, import specialists, customs patrol officers, and special agents and shall be used to enhance the efficiency and availability of the commercial operations of the United States Customs Service at the regional and district level.

(b) ALLOCATION OF RESOURCES.—The Commissioner of Customs shall ensure that sufficient resources are devoted to customs headquarters in newly created customs districts to facilitate the role of such headquarters as headquarters for the region of which such headquarters are a part.

TITLE VIII—COMMITTEE ON GOVERNMENTAL AFFAIRS, POSTAL SERVICE PROGRAMS, CIVIL SERVICE PROGRAMS, AND CIVILIAN AGENCY GOVERNMENT CONTRACTS

PART A—POSTAL SERVICE PROGRAMS

CEILING FOR FISCAL YEAR 1986 APPROPRIATION FOR REVENUE FOREGONE

SEC. 801. Notwithstanding section 2401(c) of title 39, United States Code, the total amount authorized to be appropriated for fiscal year 1986 for revenue foregone for free and reduced-rate mail is $749,000,000.

DEFERRAL OF TRANSITIONAL APPROPRIATION FOR WORKERS' COMPENSATION

SEC. 802. Notwithstanding section 2004 of title 39, United States Code, no funds shall be appropriated for any fiscal year beginning prior to October 1, 1988, to carry out the request by the Postal Service for amounts for fiscal year 1986 for reimbursement to the Department of Labor for workers compensation arising from operations of the former Post Office Department.

DELAY OF STEP 16 RATES TO JANUARY 1, 1986

SEC. 803. (a) The increase in postage rates for nonprofit and certain other mailers announced by the Board of Governors of the Postal Service in Resolution No. 85-7 (adopted September 6, 1985) shall not take effect until January 1, 1986.

(b)(1) Section 3626(a) of title 39, United States Code, is amended to read as follows:

"(a) Each time rates of postage are established under this chapter for a class of mail or kind of mailer under former sections 4358, 4452(b), 4452(c), 4554(b), and 4554(c) of this title, the estimated revenues to be received for such class or kind shall be equal to the direct and indirect postal costs attributable to mail of such class or mailer of such kind, excluding all other costs of the Postal Service.".

(2) The amendment made by this subsection shall take effect January 1, 1986.

APPROPRIATION CEILING AND STUDY CONCERNING THIRD-CLASS COMMERCIAL MATERIAL MAILED AT REDUCED RATES

SEC. 804. (a) Notwithstanding section 2401(c) of title 39, United States Code, the total amount authorized to be appropriated for each of the fiscal years 1987 and 1988 for revenue foregone for reduced rates of postage under former sections 4452(b) and 4452(c) of such title for mail which advertises or promotes the sale of, recommends the purchase of, or announces the availability of any article, product, service, insurance, or travel arrangements, shall not exceed 50 percent of the amount which would have been authorized to be appropriated for revenue foregone for reduced rates of postage for such mail under such section 2401(c) if this subsection had not been enacted.

(b)(1) Not less than six months after the date of enactment of this Act, the Postal Rate Commission shall prepare and transmit to the Committee on Governmental Affairs of the Senate and the Committee on Post Office and Civil Service of the House of Representatives a report which contains recommendations for legislation to change the eligibility of mail described in subsection (a) for reduced rates of postage under former sections 4452(b) and 4452(c) of title 39, United States Code, in order to reduce the amount of revenue foregone for reduced rates of postage for such mail for each of the fiscal years 1987 and 1988 to an amount which is less than or equal to the amount authorized to be appropriated by subsection (a) for each such fiscal year.

(2) In preparing the report required by paragraph (1), the Commission shall invite and consider the views of all interested parties.

RESTRICTIONS ON ELIGIBILITY FOR IN-COUNTY SECOND-CLASS RATES OF POSTAGE

SEC. 805. Section 3626 of title 39, United States Code, is amended by adding at the end thereof the following new subsection:

"(f)(1)(A) In the administration of this section, the rates of postage for mail under subsections (a), (b), and (c) of former section 4358 of this title shall not apply to an issue of a publication if the number of copies of such issue distributed within the county of publication is less than the number equal to the sum of 50 percent of the total paid circulation of such issue plus one.

"(B) Subparagraph (A) of this paragraph shall not apply to an issue of a publication if the total paid circulation of such issue is less than 10,000 copies.

"(2) In the administration of this section, the rates of postage for mail under subsections (a), (b), and (c) of former section 4358 of this title shall apply to not more than 20,000 copies of each issue of a publication mailed at such rates.".

CURBING OF SUBSIDIES FOR ADVERTISING-ORIENTED "PLUS ISSUES" MAILED TO SUBSCRIBERS AT IN-COUNTY RATES

SEC. 806. Section 3626 of title 39, United States Code (as amended by section 805 of this Act) is further amended by adding at the end thereof the following new subsection:

"(g) In the administration of this section, the number of copies of a subscription publication mailed to nonsubscribers during a calendar year at rates of postage under subsections (a), (b), and (c) of former section 4358 of this title may not exceed 10 percent of the number of copies of such publication mailed at such rates to subscribers.".

ELIMINATION OF REDUCED-RATE ELIGIBILITY FOR NON-TAX-EXEMPT POLITICAL ADVOCACY GROUPS

SEC. 807. (a) Section 3626 of title 39, United States Code (as amended by sections 804 and 805 of this Act) is further amended by adding at the end thereof the following new subsection:

"(h) An organization shall not be entitled to reduced rates under this section as a qualified nonprofit organization during any period during which such organization is ineligible for tax-exempt status under section 501(c)(3) of the Internal Revenue Code of 1954 by reason of—

"(1) section 501(h) of such Code, or

"(2) any other provision of law relating to eligibility for tax-exempt status in connection with activities to influence legislation or to participate or intervene in a political campaign.".

(b) The amendment made by subsection (a) shall apply to mail sent on or after the date of enactment of this Act.

PART B—CIVIL SERVICE PROGRAMS

PAY ADJUSTMENTS

SEC. 811. (a)(1) The rates of pay under the General Schedule and the rates of pay under the other statutory pay systems referred to in section 5301(c) of title 5, United States Code, shall not be adjusted under section 5305 of such title during fiscal year 1986.

(2) Notwithstanding any other provision of law, the wage schedules and rates of pay for prevailing rate employees described in section 5342(a)(2) of title 5, United States Code (including employees covered under section 9(b) of Public Law 92-392 (86 Stat. 574; 5 U.S.C. 5342 note) and section 704(b) of Public Law 95-454 (92 Stat. 1218; 5 U.S.C. 5343 note)), and for officers and members of crews of vessels shall not be increased under the provisions of subchapter IV of chapter 53 of title 5, United States Code, or any other applicable provision of law as a result of a wage survey or negotiation during fiscal year 1986, except to the extent permitted by section 616(a)(2) of the conference report on H.R. 5798, agreed to by the House of Representatives on September 12, 1984, as contained in House Report 98-993 (referred to in Public Law 98-473, 98 Stat. 1963).

(b)(1) For fiscal years 1987 and 1988, the President shall provide for the adjustment of rates of pay under section 5305 of title 5, United States Code, as appropriate to reduce outlays, relating to pay of officers and employees of the Federal Government, by at least $746,000,000 in fiscal year 1987 and $1,264,000,000 in fiscal year 1988 (without regard to reductions in outlays which result by reason of subsections (a), (c), and (d) of this section and the application of section 1009 of title 37, United States Code), computed using the baseline used for the First Concurrent Resolution on the Budget for Fiscal Year 1986 (S. Con. Res. 32, 99th Congress, 1st Session), agreed to on August 1, 1985.

(2) Paragraph (1) shall not be construed to suspend the requirements of section 5305 of title 5, United States Code, with respect to fiscal years 1987 and 1988.

(c) Notwithstanding any other provision of law, any adjustment in a wage schedule or rate of pay that—

(1) applies to—

(A) a prevailing rate employee described in section 5342(a)(2) of title 5, United States Code, including employees covered under section 9(b) of Public Law 92-392 (86 Stat. 574; 5 U.S.C. 5342 note) and section 704(b) of Public Law 95-454 (92 Stat. 1218; 5 U.S.C. 5343 note), or

(B) to an employee covered by section 5348 of such title,

(2) results from a wage survey or negotiation, and

(3) would take effect, but for this subsection, on or after October 1, 1986,

shall not take effect until the first day of the first applicable pay period beginning not less than 90 days after the day on which such adjustment would, but for this subsection, otherwise have taken effect. The Office of Personnel Management shall take such actions as may be necessary to carry out this subsection.

(d)(1) Section 5305 of title 5, United States Code, is amended—

(A) in subsection (a)(2), by striking out "October 1 of the applicable year" and inserting in lieu thereof "January 1 of the next year after the date the report is submitted to the President";

(B) in subsection (c)(2), by striking out "October 1 of the applicable year" and inserting in lieu thereof "January 1 of the next year after the year in which the alternative plan is transmitted to the Congress; and

(C) in subsection (m), by striking out "October 1" and inserting in lieu hereof "the applicable January 1".

(e)(1)(A) Subchapter IV of chapter 53 of title 5, United States Code, is amended—

(i) in section 5342(b)(3) by striking out "section 5348" and inserting in lieu thereof "sections 5345 and 5348";

(ii) by inserting after section 5344 the following new section 5345:

"§ 5345. Effect of an alternative plan under the pay comparability system

"Notwithstanding any other provision of this title or of any other law, if, in any fiscal year, an adjustment in rates of pay under section 5305 of this title is limited or delayed by reason of an alternative plan under subsection (c) of such section, the Office of Personnel Management shall take such action as may be necessary to extend the application of the limitation or delay to any adjustment of wage schedules, rates, or pay that would otherwise take effect in such fiscal year as prescribed in or pursuant to—

"(1) section 5343, 5344, or 5348 of this title; or

"(2) section 9(b) of Public Law 92-392 (86 Stat. 574; 5 U.S.C. 5343 note) and section 704(b) of Public Law 95-454 (92 Stat. 1218; 5 U.S.C. 5343 note).

The Office may provide for such exceptions as the Office may determine to be necessary and in the public interest.";

(iii) in section 5348(a) by inserting "section 5345 of this title and" after "provided by"; and

(iv) in the first sentence of section 5349(a) by inserting "section 5345, relating to applicability of an alternative plan," after "retroactive pay,".

(B) The table of sections at the beginning of such chapter is amended by inserting after the item relating to section 5344 the following new item:

"5345. Effect of an alternative plan under the pay comparability system.".

(2) Section 704(b)(B) of Public Law 95-454 (92 Stat. 1218; 5 U.S.C. 5343 note) is amended by inserting "(except section 5345)" after "chapter 53".

(3) Section 5345(2) of title 5, United States Code (as added by paragraph (1)(A)(ii)) and the amendment made by paragraph (2) shall not apply to any increase in wage schedules or rates required by a contract entered into before October 1, 1984.

COMPUTATION OF HOURLY RATES OF PAY

SEC. 812. (a) Section 5504(b) of title 5, United States Code, is amended—

(1) by striking out the first sentence;

(2) in the second sentence, by striking out "When" and inserting in lieu thereof "When, in the case of an employee,";

(3) in paragraph (1), by striking out "2,080" and inserting in lieu thereof "2,087"; and

(4) in the last sentence, by striking out "title." and inserting in lieu thereof "title other than an employee or individual excluded by section 5541(2)(xvi) of this title.".

(b) The amendments made by subsection (a) shall take effect as of the beginning of the first applicable pay period commencing on or after October 1, 1985.

HEALTH CARE FURNISHED UNDER THE FEDERAL EMPLOYEES HEALTH BENEFITS PROGRAM IN MEDICALLY UNDERSERVED AREAS

SEC. 813. (a)(1) Section 3 of the Act entitled "An Act to amend chapter 89 of title 5, United States Code, to establish uniformity in Federal employee health benefits and coverage by preempting certain State or local laws which are inconsistent with such contracts, and for other purposes", approved September 17, 1978 (Public Law 95-368; 92 Stat. 606; 5 U.S.C. 8902 note), is amended by striking out "; except that such provisions shall not apply to services provided after December 31, 1984".

(2) Section 5(b) of the Act entitled "An Act to amend the provisions of chapters 83 and 89 of title 5, United States Code, which relate to survivor benefits for certain dependent children, and for other purposes", approved January 2, 1980 (Public Law 96-179; 93 Stat. 1300; 5 U.S.C 8902 note), is amended by striking out "and before January 1, 1985,".

(b) The amendments made by subsection (a) shall take effect with respect to services provided after December 31, 1984.

FEDERAL EMPLOYEES HEALTH BENEFITS PROGRAM RESERVES

SEC. 814. (a) The purposes of this section are—

(1) to ensure that the Federal Government's share of the reserves which are refunded under subsection (b) to the Employees Health Benefits Fund from the special reserve funds maintained by carriers under the Federal Employees Health Benefits program for the purposes of such program is held in the Employees Health Benefits Fund and is used to fund increases in the amounts of the Government's contributions for payment of the subscription charges of health benefits plans under such program; and

(2) to ensure that financial reserves maintained for the purposes of the Federal Employees Health Benefits program will be held in the Employees Health Benefits Fund to the maximum extent that is consistent with the stable and efficient operation of such program.

(b) Notwithstanding the provisions of any contract entered into by the Office of Personnel Management under section 8902 of title 5, United States Code, the Office shall require the carriers of health benefits plans under chapter 89 of such title to refund to the Employees Health Benefits Fund (referred to in section 8909(a) of such title) from reserves held by the carriers for the purposes of such plans the total amount of—

(1) not less than $800,000,000 in fiscal year 1986; and

(2) not less than $300,000,000 in fiscal year 1987.

(c) Each carrier of a health benefits plan referred to in subsection (b) shall refund, under this section, such share of the total amounts prescribed in such subsection as the Office of Personnel Management in its sole discretion determines appropriate.

(d) The Government's share of the amounts refunded under subsection (b) shall be held in the Employees Health Benefits Fund and shall be available and used to fund increases in the amounts of the Government's contributions for payment of the subscription charges of health benefits plans under such program.

COMPUTATION OF RETIREMENT ANNUITY FOR PART-TIME EMPLOYMENT

SEC. 815. (a)(1) Section 8339 of title 5, United States Code, is amended by adding at the end thereof the following new subsection:

"(o)(1) Notwithstanding section 8331(4) of this title, or any other subsection of this section, except as provided in paragraph (3) of this subsection, the amount of the annuity of an employee whose service includes service that was performed on less than a full-time basis shall be computed under this section as provided in paragraph (2) of this subsection.

"(2) In computing an annuity in the case of an employee referred to in paragraph (1) of this subsection—

"(A) the average pay of the employee, to the extent that it includes pay for service performed in any position on less than a full-time basis, shall be determined by using the annual rate of basic pay that would be payable for full-time service in the position; and

"(B) the benefit so computed shall then be multiplied by a fraction equal to the ratio which the employee's actual service, as determined by prorating an employee's total service to reflect the service that was performed on less than a full-time basis, bears to the total service that would be creditable for the employee if all of the service had been performed on a full-time basis.

"(3) This subsection shall not apply to computations made under subsection (f) or (g) of this section.".

(2) Section 8341 of such title is amended—

(A) by striking out "and (n)" in subsection (b)(1) and inserting in lieu thereof ", (n), and (o)"; and

(B) by striking out "and (n)" in subsection (d) and inserting in lieu thereof "(n), and (o)".

(b) Section 4109(b) of title 38, United States Code, is repealed.

(c) The amendments made by this section shall take effect with respect to service performed on or after the date of enactment of this Act.

PART C—CIVILIAN AGENCY GOVERNMENT CONTRACTS

CIVILIAN AGENCY MULTIYEAR CONTRACTING AUTHORITY

SEC. 821. (a)(1) Title III of the Federal Property and Administrative Services Act of 1949 (41 U.S.C. 251 et seq.) is amended by inserting after section 305 (41 U.S.C. 255) the following new section:

"MULTIYEAR CONTRACTS

"SEC. 306. (a) For the purposes of this section, the term 'multiyear contract', means a contract in effect for a period not exceeding five years.

"(b) Subject to subsection (e), an agency head may enter into a multiyear contract for the acquisition of property or services when—

"(1)(A) appropriations are available and adequate for the payment for such acquisition for the first fiscal year during which the contract is in effect; and

"(B) there is a reasonable expectation that, during the period the contract is in effect, such agency head will request funding for the contract at the level necessary to avoid cancellation of the performance under the contract; and

"(2) such agency head determines that—

"(A) such a contract will serve the best interests of the Government by—

"(i) reducing costs under the contract;

"(ii) achieving economies in administration, performance, and operation;

"(iii) increasing quality of performance by or service from the contractor; or

"(iv) encouraging full and open competition;

"(B) during the proposed contract period—

"(i) there will be a continuing or recurring need for the property or services; and

"(ii) the minimum need for the property or services to be acquired is expected to remain substantially unchanged in terms of rate of production or performance, rate of acquisition, and total quantity or extent of services;

"(C) the specifications for the property or services are expected to be reasonably stable, and the technical risks associated with the acquisition are not excessive; and

"(D) such a contract will not inhibit small business concerns from submitting a bid or proposal for such contract.

"(c) A multiyear contract authorized by this section may include—

"(1) a provision that the performance under the contract during the second or any subsequent fiscal year included in the contract period is contingent on the appropriation of funds for such year; and

"(2) a provision for the payment of a reasonable cancellation charge to the contractor if the performance is canceled pursuant to a provision described in clause (1).

"(d)(1) If appropriated funds are not available for expenditure on a multiyear contract during the second or subsequent fiscal year included in the contract period, the performance under the contract shall be canceled.

"(2) Any cost of the cancellation of performance under the contract may be paid from appropriated funds which—

"(A) were originally available for performance of the contract;

"(B) are then currently available for the acquisition of similar property or services and are not otherwise obligated; or

"(C) are made available for the payment of such costs.

"(e)(1) Nothing in this section is intended to modify or affect any other provision of law which authorizes multiyear contracting.

"(2) This section does not authorize an agency head to acquire property or services by means of a multiyear contract unless the agency head is otherwise authorized by law to acquire such property or services.".

(2) The table of contents at the beginning of such Act is amended by striking out the item relating to section 306 and inserting in lieu thereof the following:

"306. Multiyear contracts.".

(b) The amendments made by subsection (a) shall take effect with respect to contracts entered into on or after the date of enactment of this Act.

TITLE IX—COMMITTEE ON LABOR AND HUMAN RESOURCES EDUCATION PROGRAMS

SHORT TITLE; TABLE OF PARTS

SEC. 901. (a) This title may be cited as the "Labor and Human Resources Budget Reconciliation Act".

TABLE OF PARTS

Part A—Student loan program savings amendments.
Part B—Savings on improved student loan collection.
Part C—Savings attributable to loan consolidation.
Part D—Savings attributable to operation of guaranty agencies.
Part E—Savings attributable to operation of the student loan marketing association.
Part F—Flextime provisions.
Part G—Health and hospitals.
Part H—Graduate medical education.
Part I—Single employer pension plans.

(b) Parts A through E of this title may be cited as the "Student Loan Amendments Act of 1985".

PART A—STUDENT LOAN PROGRAM SAVINGS AMENDMENTS

MULTIPLE DISBURSEMENT OF GUARANTEED STUDENT LOANS

SEC. 911. (a) FEDERALLY INSURED STUDENT LOAN PROGRAM.—Section 427(a) of the Higher Education Act of 1965 (hereafter in this Act referred to as the "Act") is amended—

(1) by striking out "and" at the end of paragraph (1);

(2) by striking out the period at the end of paragraph (2) and inserting in lieu thereof "; and"; and

(3) by adding at the end thereof the following:

"(3) in the case of a loan made for any period of enrollment of more than one semester, two quarters, or 600 clock hours, the proceeds of the loan will be disbursed in two or more installments, none of which exceeds one-half of the loan, with the interval between the first and second installment being not less than one-third of the period of enrollment for which the student received the loan.".

(b) MULTIPLE DISBURSEMENT REQUIRED IN GUARANTEED STUDENT LOAN PROGRAM.—Section 428(b)(1) of the Act is amended—

(1) by striking out "and" at the end of clause (O);

(2) by redesignating clause (P) as clause (Q); and

(3) by inserting after clause (O) the following new clause:

"(P) provides that the proceeds of any loan for any period of enrollment of more than one semester, two quarters, or 600 clock hours will be disbursed in two or more installments, with the interval between the first and second installment being not less than one-third of the period of enrollment for which the student received the loan, and provides that, for purposes of this clause, all loans made within any period of 90 days shall be considered as a single loan; and".

(c) REPEAL OF EXISTING INCENTIVES TO MAKE MULTIPLE DISBURSEMENTS.—Section 428(a) of the Act is amended by striking out paragraph (8).

(d) PAYMENT OF ORIGINATION FEE.—Section 438(c) of the Act is amended—

(1) by redesignating paragraph (4) as paragraph (5); and

(2) by adding after paragraph (3) the following new paragraph:

"(4) For the purpose of section 428(b)(1)(P), the origination fee shall be charged against the first installment of the loan.".

(e) ADDITIONAL CONFORMING CHANGES.—(1) Section 425(a)(1) of the Act is amended—

(A) by inserting "and" at the end of clause (A);

(B) by striking out clause (B) and by redesignating clause (C) as clause (B); and

(C) by striking out the last sentence.

(2) Section 428(b)(1)(A) of the Act is amended—

(A) by inserting "and" at the end of division (i);

(B) by striking out division (ii) and by redesignating division (iii) as division (ii); and

(C) in the matter following such division, by striking out "annual limit," and all that follows through "division (ii)" and inserting in lieu thereof "annual limit".

SPECIAL ALLOWANCE

SEC. 912. Section 438(b)(2)(A) of the Act is amended by striking out "3.5 per centum" and inserting in lieu thereof "3.25 per centum".

PROMPT PAYMENT OF SUPPLEMENTAL GUARANTY ADMINISTRATIVE COST AGREEMENT

SEC. 913. (a) PURPOSE.—It is the purpose of the amendments made by this section to assure the prompt payment of the amount due under the supplemental guaranty administrative cost agreement made under section 428(f)(2) in order to encourage improved collection of student loans and preclaims assistance to prevent default on student loans.

(b) PROMPT PAYMENT REQUIRED.—(1) Section 428(f)(1) of the Act is amended—

(A) by striking out "is authorized to" and inserting in lieu thereof "shall";

(B) by striking out "shall not exceed" and inserting in lieu thereof "shall be equal to"; and

(C) by striking out the third and fourth sentences of such section.

(2) Section 428(f)(2) of the Act is amended—

(A) by striking out "is authorized to" and inserting in lieu thereof "shall";

(B) by striking out "shall not exceed" and inserting in lieu thereof "shall be equal to"; and

(C) by striking out the third and fourth sentences of such section.

EFFECTIVE DATE

SEC. 914. (a) GENERAL RULE.—The amendments made by sections 911 and 912 of this Act shall take effect—

(1) with respect to loans made on or after October 1, 1985, or

(2) with respect to any loan for which the completed note or other written evidence of the loan was sent or delivered to the borrower on or after 10 days after the date of enactment of this Act,

whichever occurs later.

(b) SPECIAL RULE.—The amendments made by section 913(b) shall take effect with respect to fiscal years beginning after September 30, 1984.

PART B—SAVINGS ON IMPROVED STUDENT LOAN COLLECTION

SUBPART 1—GUARANTEED AND FEDERALLY INSURED STUDENT LOANS

TERMS OF FEDERALLY INSURED LOANS

SEC. 921. Section 427(a)(2) of the Act is amended—

(1) by striking out clause (ii) of subparagraph (B) and by redesignating clauses (iii) and (iv) of subparagraph (B) as clauses (ii) and (iii), respectively;

(2) by striking out "or the fifteen-year period" in the matter following clause (viii) of subparagraph (C); and

(3) by amending subparagraph (I) to read as follows:

"(I) shall be treated by the lender as follows: (i) the funds borrowed (except by a borrower under section 428B) shall be disbursed by check, sent to the eligible institution the student attends or plans to attend, and made payable to the order of the student and such institution as copayees, with the endorsement of both parties required, or (ii) in the case of funds borrowed by a borrower under section 428B, such funds shall be disbursed by check, sent to the borrower, and made payable to the order of the borrower, with the endorsement of the borrower required, and a notice of such disbursement shall be sent by the lender or the Secretary to such eligible institution, and".

TERMS OF GUARANTEED LOANS

SEC. 922. Section 428(b)(1) of the Act is amended—

(1) by striking out subclause (ii) of clause (D);

(2) by inserting "and" at the end of subclause (i);

(3) by redesignating subclause (iii) of clause (D) as subclause (ii); and

(4) by amending clause (O) to read as follows:

"(O)(i) provides that funds borrowed (except by a borrower under section 428B) shall be disbursed by check, sent to the eligible institution the student attends or plans to attend, and made payable to the order of the student and such institution as copayees, with the endorsement of both parties required, or (ii) in the case of funds borrowed by a borrower under section 428B, such funds shall be disbursed by check, sent to the borrower and made payable to the order of the borrower, with the endorsement of such borrower required, and a notice of such disbursement shall be sent by the lender or the guaranty agency to such institution;".

AGREEMENT FOR AUDITS

SEC. 923. Section 428(b)(2)(C) of the Act is amended—

(1) by inserting "(i)" immediately after "provide for"; and

(2) by inserting before the period at the end thereof a semicolon and the following: "(ii)(I) except as provided in subdivision (II), conducting financial and compliance audits of the guaranty agency at least once every two years and covering the period since the most recent audit, conducted by a qualified independent auditor in accordance with the standards established by the Comptroller General for the audit of governmental organizations, programs, activities, and functions, and as prescribed in regulations of the Secretary, the results of which shall be submitted in an audit report to the Secretary, or (II) with regard to a guaranty program of a State agency which is audited under chapter 75 of title 31, United States Code, such audit shall be deemed to satisfy the requirements of subdivision (I) for the period of time covered by such audit; and (iii) recovery by the Secretary, by recoupment or other means, under procedures established by the Secretary, from the guaranty agency of amounts, plus interest as set by the Secretary, determined by such audits to be owing".

COLLECTION PROCEDURES

SEC. 924. Section 428(d) of the Act is amended—

(1) by redesignating clauses (A) and (B) of paragraph (2) as clauses (i) and (ii), respectively;

(2) by redesignating paragraphs (1) and (2) as subparagraphs (A) and (B), respectively;

(3) by inserting "(1)" before "No provision of any law"; and

(4) by adding at the end thereof the following new paragraphs:

"(2) Notwithstanding any provision of State law that would set an earlier deadline for filing suit—

"(A) a guaranty agency which has an agreement with the Secretary under subsection (c) may file suit for collection of the amount due from a borrower on a loan made under this part during a period of time extending at least until a date six years (exclusive of periods during which the State statute of limitations period otherwise applicable to the suit would be tolled under State law) after the date such guaranty agency reimburses the previous holder of the loan for its loss on account of the default of the borrower; and

"(B) subject to the provisions of section 2416 of title 28 of the United States Code, the Attorney General may file suit for collection of the amount due the Secretary from a borrower pursuant to subsection (c)(2)(D) of this section until six years following the date on which the loan is assigned to the Secretary under this part.

"(3) Notwithstanding any provision of State law to the contrary, in collecting any obligation arising from a loan made under this part, a guaranty agency which has an agreement with the Secretary under subsection (c) shall not be subject to a defense raised by any borrower based on (A) a claim of infancy, or (B) the action or omission of an eligible institution or lender, if such agency did not have actual notice of such defense when such agency reimbursed the previous holder of the loan for its loss.".

RECOVERY COSTS

SEC. 925. Section 430(b) of the Act is amended—

(1) by striking out in paragraph (1) "(including reasonable administrative costs)" and inserting in lieu thereof the following: "(including reasonable administrative and collection costs, to the extent set forth in regulations issued by the Secretary)";

(2) by striking out paragraph (2); and

(3) by striking out "(1)".

CREDIT BUREAU REPORTS

SEC. 926. Part B of title IV of the Act is amended by adding immediately after section 430 the following new section:

"REPORTS TO CREDIT BUREAUS AND INSTITUTIONS OF HIGHER EDUCATION

"SEC. 430A. (a) For the purpose of promoting responsible repayment of loans covered by a guaranty agreement pursuant to section 428, each guaranty agency having such an agreement with the Secretary, eligible lender, or subsequent holder shall enter into agreements with credit bureau organizations to exchange information concerning student borrowers, in accordance with the requirements of this section. For the purpose of assisting such organizations in complying with the Fair Credit Reporting Act, such agreements may provide for timely response by a guaranty agency, eligible lender, or subsequent holder concerning loans covered by a guaranty agreement, to requests from such organizations for responses to objections raised from such organizations for responses to objections raised by such borrowers. Subject to the requirements of subsection (c), such agreements shall require the guaranty agency, eligible lender, or subsequent holder to disclose to such organizations with respect to any loan dispersed to a student—

"(1) the date of disbursement and the amount of the loan;

"(2) the date of default and information concerning collection of the loan, including information concerning the repayment status of any defaulted loan on which the guaranty agency has made a payment to the previous holder of the loan; and

"(3) the date of cancellation of the note upon completion of repayment by the borrower of the loan or payment by the Secretary pursuant to section 437.

"(b) Such agreements may also provide for the disclosure by such organizations to the guaranty agency, eligible lender, or subsequent holder upon receipt of a notice under subsection (a)(2) that such a loan is in default, or information which may assist the guaranty agency, eligible lender, or subsequent holder in collecting the loan.

"(c) Agreements entered into pursuant to this section shall contain such provisions as may be necessary to ensure that—

"(1) no information is disclosed by the guaranty agency, eligible lender, or subsequent holder unless its accuracy and completeness have been verified and the guaranty agency, eligible lender, or subsequent holder has determined that disclosure would carry out the purpose of this section;

"(2) as to any information so disclosed, such organizations will be promptly notified of, and will promptly record, any change submitted by the guaranty agency, eligible lender, or subsequent holder with respect to such information, as required by section 611 of the Fair Credit Reporting Act (15 U.S.C. 168i);

"(3) no use will be made of any such information which would result in the use of collection practices with respect to such a borrower that are not fair and reasonable or that involve harassment, intimidation, false or misleading representations, or unnecessary communication concerning the existence of such loan or concerning such information; and
